PREFACE

Several important changes in the structure of this the 111th edition of THE STATESMAN'S YEAR-BOOK have taken place. The first is that the independent states of the French Community have been placed in alphabetical sequence in Part IV. This will make for easier reference and it is planned to expand these sections considerably over the next few years. Although it was a year without too many changes in the names of towns and countries it should be noted that British Honduras becomes Belize and changes its position in the Commonwealth section. Feb. 1974 saw Grenada gaining independence within the Commonwealth but it was too late in the production schedule to alter its position in the Commonwealth section although, of course, mention of the independence is given. This will be amended in subsequent editions.

This year has been a fruitful one for constructive criticism and my correspondents have been many. A large proportion of the suggestions have been incorporated and some have been held over for further thought.

My usual thanks go to the many permanent correspondents in government offices, embassies and institutions throughout the world. Without their help this edition could not have been produced.

The year 1974 sees the publication of THE STATESMAN'S YEAR-BOOK WORLD GAZETTEER. This is a volume standing in its own right but it will also act as an important companion to its well-established parent.

¹ Provisional estimate.² Until 1962 shale oil and oil from coal amounted yearly to an additional 1.7m. tons. From 1963 the figures include shale and coal-based oil.³ Estimates differ widely because of conversion difficulties of barrels to metric tons. Thus, for instance, for crude petroleum of specific gravity, at 60° F., of 0.78 (corresponding to American Petroleum Institute gravity rating of 49.91), there are 8.08 bbls to a metric ton. At the other end of the scale, for crude petroleum of specific gravity 0.98 (API rating, 12.89), there are only 6.43 bbls to a metric ton. Middle East crude petroleum has an average conversion rate of approximately 7.5 bbls to a metric ton. Excluding small-scale production in Afghanistan, Cuba, Mongolia, New Zealand and Thailand.

The table above, reproduced from the relevant sections of the FAO survey, shows: (a) the territorial sea limit, and (b) the limit of the exclusive fishing zone claimed by the country concerned.

Notes:

(a) Zaïre has not yet enacted any legislation on this subject, and so therefore does not appear in the table.

(b) Denmark's exclusive fishing zone is drawn 12 miles from the base-lines in the North Sea, the Skagerrak and the Kattegat, and 3 miles elsewhere. In the case of the Faroe Islands and Greenland it is 12 miles.

(c) The territorial sea of the Philippines is determined by straight base-lines joining appropriate points of the outermost islands forming the Philippine archipelago.

PART I

INTERNATIONAL
ORGANIZATIONS

THE UNITED NATIONS

The United Nations is an association of states which have pledged themselves, through signing the Charter, to maintain international peace and security and to co-operate in establishing political, economic and social conditions under which this task can be securely achieved. Nothing contained in the Charter authorizes the organization to intervene in matters which are essentially within the domestic jurisdiction of any state.

The United Nations Charter originated from proposals agreed upon at discussions held at Dumbarton Oaks (Washington, D.C.) between the USSR, US and UK from 21 Aug. to 28 Sept., and between US, UK and China from 29 Sept. to 7 Oct. 1944. These proposals were laid before the United Nations Conference on International Organization, held at San Francisco from 25 April to 26 June 1945, and (after amendments had been made to the original proposals) the Charter of the United Nations was signed on 26 June 1945 by the delegates of 50 countries. Ratification of all the signatures had been received by 31 Dec. 1945. (For the complete text of the Charter *see* THE STATESMAN'S YEAR-BOOK, 1946, pp. xxi-xxxii.)

The United Nations formally came into existence on 24 Oct. 1945, with the deposit of the requisite number of ratifications of the Charter with the US Department of State. The official languages of the United Nations are Chinese, English, French, Russian and Spanish; the working languages are English, French and (in the General Assembly) Arabic, Chinese, Spanish and Russian.

The headquarters of the United Nations is in New York City, USA.

Membership. Membership is open to all peace-loving states whose admission will be effected by the General Assembly upon recommendation of the Security Council.

The table on pp. 11-13 shows the member states of the United Nations and their participation in the Related Agencies, and those non-member states which have been admitted to certain Related Agencies.

The Principal Organs of the United Nations are: 1. The General Assembly. 2. The Security Council. 3. The Economic and Social Council. 4. The Trusteeship Council. 5. The International Court of Justice. 6. The Secretariat.

1. THE GENERAL ASSEMBLY consists of all the members of the United Nations. Each member is entitled to be represented at its meetings by 5 delegates and 5 alternate delegates, but has only 1 vote. The General Assembly meets regularly once a year, commencing on the third Tuesday in Sept.; the session normally lasts until mid-December and is resumed for some weeks in the new year if this is required. Special sessions may be convoked by the Secretary-General if requested by the Security Council, by a majority of the members of the United Nations or by 1 member concurred with by the majority of the members. The General Assembly elects its President for each session.

The first regular session was held in London from 10 Jan. to 14 Feb. and in New York from 23 Oct. to 16 Dec. 1946.

Special sessions have been held, on Palestine, in 1947, 1948, 1963 and 1967; emergency sessions on the Middle East and on Hungary in 1956, on Lebanon in 1958, on the Congo in 1960, on South West Africa and the Middle East in 1967.

The work of the General Assembly is divided between 6 Main Committees and the Special Political Committee, on each of which every member has the right to

be represented by 1 delegate. I. Political Security. II. Economic and Financial. III. Social, Humanitarian and Cultural. IV. Trust and Non-Self-Governing Territories. V. Administrative and Budgetary. VI. Legal.

In addition there is a General Committee charged with the task of co-ordinating the proceedings of the Assembly and its Committees; and a Credentials Committee which verifies the credentials of the delegates. The General Committee consists of 25 members, comprising the President of the General Assembly, its 17 Vice-Presidents and the Chairmen of the 7 Main Committees. The Credentials Committee consists of 9 members, elected at the beginning of each session of the General Assembly. The Assembly has 2 standing committees—an Advisory Committee on Administrative and Budgetary Questions, and a Committee on Contributions. The General Assembly establishes subsidiary and *ad hoc* bodies when necessary to deal with specific matters. These include: Special Committee on Peace-keeping Operations (33 members), Commission on Human Rights (32 members), Commission for the unification and rehabilitation of Korea (7 members), Committee on the peaceful uses of outer space (28 members), Conciliation Commission for Palestine (3 members), Conference of the Committee on Disarmament (26 members), International Law Commission (25 members), Scientific Committee on the effects of atomic radiation (15 members), Special Committee on the implementation of the declaration on the granting of independence to colonial countries and peoples (24 members), Special Committee on the policies of Apartheid of the Government of the Republic of South Africa (11 members), UN High Commissioner for Refugees, UN Relief and Works Agency for Palestine Refugees in the Near East, Peace Observation Commission (14 members), UN Commission on International Trade Law (29 members) and Committee on the Peaceful Uses of Sea-bed and Ocean Floor Beyond the Limits of National Jurisdiction (91 members), Governing Council for Environmental Programmes (54 members).

The General Assembly may discuss any matters within the scope of the Charter, and, with the exception of any situation or dispute on the agenda of the Security Council, may make recommendations on any such questions or matters. For decisions on important questions a two-thirds majority is required, on other questions a simple majority of members present and voting. In addition, the Assembly at its fifth session, in 1950, decided that if the Security Council, because of lack of unanimity of the permanent members, fails to exercise its primary responsibility for the maintenance of international peace and security in any case where there appears to be a threat to the peace, breach of the peace or act of aggression, the General Assembly shall consider the matter immediately with a view to making appropriate recommendations to members for collective measures, including in the case of a breach of the peace or act of aggression the use of armed force when necessary, to maintain or restore international peace and security.

The General Assembly receives and considers reports from the other organs of the United Nations, including the Security Council. The Secretary-General makes an annual report to it on the work of the Organization.

2. THE SECURITY COUNCIL consists of 15 members, each of which has 1 representative and 1 vote. There are 5 permanent and 10 non-permanent members elected for a 2-year term by a two-thirds majority of the General Assembly. Retiring members are not eligible for immediate re-election. Any other member of the United Nations will be invited to participate without vote in the discussion of questions specially affecting its interests.

The Security Council bears the primary responsibility for the maintenance of peace and security. It is also responsible for the functions of the UN in trust territories classed as 'strategic areas'. Decisions on procedural questions are made by an affirmative vote of 9 members. On all other matters the affirmative vote of 9 members must include the concurring votes of all permanent members (in practice, however, an abstention by a permanent member is not considered a veto), subject to the provision that when the Security Council is considering

methods for the peaceful settlement of a dispute, parties to the dispute abstain from voting.

For the maintenance of international peace and security the Security Council can, in accordance with special agreements to be concluded, call on armed forces, assistance and facilities of the member states. It is assisted by a Military Staff Committee consisting of the Chiefs of Staff of the permanent members of the Security Council or their representatives.

The Presidency of the Security Council is held for 1 month in rotation by the member states in the English alphabetical order of their names.

The Security Council functions continuously. Its members are permanently represented at the seat of the organization, but it may meet at any place that will best facilitate its work.

The Council has 2 standing committees, of Experts and on the Admission of New Members. In addition, from time to time, it establishes *ad hoc* committees and commissions such as the Truce Supervision Organization in Palestine. It has also appointed a Representative for India and Pakistan.

Permanent Members: China, France, USSR, UK, USA.

Non-Permanent Members: Australia, Austria, Indonesia, Kenya, Peru (until 31 Dec. 1974); Byelorussia, Cameroun, Costa Rica, Iraq, Mauritania (until 31 Dec. 1975).

3. THE ECONOMIC AND SOCIAL COUNCIL is responsible under the General Assembly for carrying out the functions of the United Nations with regard to international economic, social, cultural, educational, health and related matters. By Jan. 1963, 14 specialized inter-governmental agencies working in these fields had been brought into relationship with the United Nations. The Economic and Social Council may also make arrangements for consultation with international non-governmental organizations and, after consultation with the member concerned, with national organizations; by Dec. 1965, 141 non-governmental organizations had been granted consultative status and a further 219 were on the register.

The Economic and Social Council consists of 1 delegate each of 54 Member States elected by a two-thirds majority of the General Assembly. Nine are elected each year for a 3-year term. Retiring members are eligible for immediate re-election. Each member has 1 vote. Decisions are made by a majority of the members present and voting.

The Council nominally holds 2 sessions a year, and special sessions may be held if required. The President is elected for 1 year and is eligible for immediate re-election.

The Economic and Social Council has the following commissions:

Regional Economic Commissions: ECE (Economic Commission for Europe); ECAFE (Economic Commission for Asia and the Far East. Bangkok); ECLA (Economic Commission for Latin America. Santiago, Chile); ECA (Economic Commission for Africa. Addis Ababa). ECWA (Economic Commission for Western Asia. Beirut). These Commissions have been established to enable the nations of the major regions of the world to co-operate on common problems and also to produce economic information.

(1) Six functional Statistical Commissions; with subcommission on Statistical Sampling. (2) Commission on Human Rights; with subcommission on Prevention of Discrimination and Protection of Minorities; (3) Social Development Commission; (4) Commission on the Status of Women; (5) Commission on Narcotic Drugs; (6) Population Commission.

The Economic and Social Council has the following standing committees: The Economic Committee, Social Committee, Co-ordination Committee, Committee on Non-Governmental Organizations, Interim Committee on Programme of Conferences, Committee for Industrial Development, Advisory Committee on the Application of Science and Technology to Development, Committee on Housing, Building and Planning.

Other special bodies are the Permanent Central Opium Board, the Drug Supervisory Body, the Interim Co-ordinating Committee for International Commodity Arrangements and the Administrative Committee on Co-ordination to ensure (1) the most effective implementation of the agreements entered into between the United Nations and the specialized agencies and (2) co-ordination of activities.

Membership: Argentina, Canada, Czechoslovakia, Ethiopia, India, Kenya, Pakistan, Sweden, Zaïre (until 31 Dec. 1974); Fiji, West Germany, Guatemala, Guinea, Indonesia, Senegal, Turkey, Venezuela, Yugoslavia (until 31 Dec. 1975); Australia, Belgium, Colombia, Congo, Egypt, East Germany, Iran, Italy, Ivory Coast, Jamaica, Jordan, Liberia, Romania, Thailand, USA, Southern Yemen, Zambia (until 31 Dec. 1976).

4. THE TRUSTEESHIP COUNCIL. The Charter provides for an international trusteeship system to safeguard the interests of the inhabitants of territories which are not yet fully self-governing and which may be placed thereunder by individual trusteeship agreements. These are called trust territories. By 1968 all, except 2, trust territories had become independent or joined independent countries.

The Trusteeship Council consists of the 2 members administering trust territories: Australia, USA; the permanent members of the Security Council that are not administering trust territories: China, France, USSR and UK. Decisions of the Council are made by a majority of the members present and voting, each member having 1 vote. The Council holds one regular session each year, and special sessions if required.

5. THE INTERNATIONAL COURT OF JUSTICE was created by an international treaty, the Statute of the Court, which forms an integral part of the United Nations Charter. All members of the United Nations are *ipso facto* parties to the Statute of the Court.

The Court is composed of independent judges, elected regardless of their nationality, who possess the qualifications required in their countries for appointment to the highest judicial offices, or are jurisconsults of recognized competence in international law. There are 15 judges, no 2 of whom may be nationals of the same state. They are elected by the Security Council and the General Assembly of the United Nations sitting independently. Candidates are chosen from a list of persons nominated by the national groups in the Permanent Court of Arbitration established by the Hague Conventions of 1899 and 1907. In the case of members of the United Nations not represented in the Permanent Court of Arbitration, candidates are nominated by national groups appointed for the purpose by their governments. The judges are elected for a 9-year term and are eligible for immediate re-election. When engaged on business of the Court, they enjoy diplomatic privileges and immunities.

The Court elects its own President and Vice-Presidents for 3 years and remains permanently in session, except for judicial vacations. The full court of 15 judges normally sits, but a quorum of 9 judges is sufficient to constitute the Court. It may form chambers of 3 or more judges for dealing with particular categories of cases, and forms annually a chamber of 5 judges to hear and determine, at the request of the parties, cases by summary procedures.

Competence and Jurisdiction. Only states may be parties in cases before the Court, which is open to the states parties to its Statute. The conditions under which the Court will be open to other states are laid down by the Security Council. The Court exercises its jurisdiction in all cases which the parties refer to it and in all matters provided for in the Charter, or in treaties and conventions in force. Disputes concerning the jurisdiction of the Court are settled by the Court's own decision.

The Court may apply in its decision: (a) international conventions; (b) international custom; (c) the general principles of law recognized by civilized nations;

and (d) as subsidiary means for the determination of the rules of law, judicial decisions and the teachings of highly qualified publicists. If the parties agree, the Court may decide a case *ex aequo et bono*. The Court may also give an advisory opinion on any legal question to any organ of the United Nations or its agencies.

Procedure. The official languages of the Court are French and English. At the request of any party the Court will authorize the use of another language by this party. All questions are decided by a majority of the judges present. If the votes are equal, the President has a casting vote. The judgment is final and without appeal, but a revision may be applied for within 10 years from the date of the judgment on the ground of a new decisive factor. Unless otherwise decided by the Court, each party bears its own costs.

Judges. The judges of the Court, elected by the Security Council and the General Assembly, are as follows: (1) To serve until 5 Feb. 1976: Fouad Ammoun (Lebanon), Cesar Bengzon (Philippines), Sture Petren (Sweden), Manfred Lachs (Poland), Charles D. Onyeama (Nigeria). (2) To serve until 5 Feb. 1979: Frederico de Castro (Spain), Louis Ignacio-Pinto (Dahomey), C. Dillard (USA), Eduardo Jimenez de Aréchaga (Uruguay), Platon D. Morozov (USSR). (3) To serve until 5 Feb. 1982: André Gros (France), Isaac Forster (Senegal), Sir Humphrey Waldock (UK), Nagendra Singh (India), José Maria Ruda (Argentina).

'National' Judges. If there is no judge on the bench of the nationality of the parties to the dispute, each party has the right to choose a judge. Such judges shall take part in the decision on terms of complete equality with their colleagues.

The Court has its seat at The Hague, but may sit and exercise its functions elsewhere whenever it considers this desirable. The expenses of the Court are borne by the United Nations.

Registrar: Stanislas Aquarone (Australia).

6. THE SECRETARIAT is composed of the Secretary-General, who is the chief administrative officer of the organization, and an international staff appointed by him under regulations established by the General Assembly. However, the Secretary-General, the High Commissioner for Refugees and the Managing Director of the Fund are appointed by the General Assembly. The first Secretary-General was Trygve Lie (Norway), 1946–53; the second, Dag Hammarskjöld (Sweden), 1953–61; the third, U. Thant (Burma), 1961–71.

The Secretary-General acts as chief administrative officer in all meetings of the General Assembly, the Security Council, the Economic and Social Council and the Trusteeship Council.

Secretary-General: Kurt Waldheim (Austria), appointed 1 Jan. 1972.

The Secretary-General is assisted by 11 Under-Secretaries-General and 5 Assistant Secretaries-General.

The UN DEVELOPMENT PROGRAMME, created on 22 Nov. 1965, is an amalgamation of the programme of Technical Assistance and the Special Fund. *Administrator:* Rudolph Peterson (USA).

The UN CONFERENCE ON TRADE AND DEVELOPMENT was established by the General Assembly on 30 Dec. 1964. It comprises those states which are members of the UN, its specialized agencies or the International Atomic Energy Agency. Its permanent organ, the Trade and Development Board (55 members), meets twice a year. Its 4 subsidiary organs meet annually: these are the Committees on Commodities, Manufactures, Shipping, and Invisibles and Financing Related to Trade. The first UNCTAD was held in Geneva in 1964, the second in New Delhi in 1968 and the third in Santiago (Chile) 1972. *Secretary-General:* Manuel Perez Guerrero (Venezuela, appointed March 1969). *Headquarters:* Geneva, Switzerland.

The UN INDUSTRIAL ORGANIZATION (UNIDO) has worked as an autonomous body with the UN to promote industrialization and co-ordinate activities

undertaken by the UN family in this field since 1967. Principal body is the 45-member Industrial Development Board, which formulates UNIDO's policy and its programme of activities. UNIDO tries to help the urgent need of developing countries to accelerate their promotional and operational activities and supports them by relevant studies and research. *Executive Director:* Ibrahim H. Abdel-Rahman. *Headquarters:* Rathausplatz 2, Vienna, Austria.

THE OFFICE OF THE UNITED NATIONS HIGH COMMISSIONER FOR REFUGEES, (UNHCR) was established by the UN General Assembly with effect from 1 Jan. 1951, originally for 3 years. Under General Assembly resolution 2957 (XXVII) adopted in Nov. 1972 the Office was prolonged until 31 Dec. 1978.

The main functions of the Office of the High Commissioner are to provide international protection for refugees, to seek permanent solutions to their problems through voluntary repatriation, resettlement in other countries or integration into the country of present residence and also to provide emergency relief and supplementary aid where necessary. The task of UNHCR is of a humanitarian and non-political character. It is carried out under the policy directives of the General Assembly or of the Economic and Social Council.

The Office of the High Commissioner concerns itself with refugees who have been determined to come within its mandate under the Statute, and with refugees whom it is called upon to assist under the terms of the good offices resolutions adopted by the General Assembly.

The Executive Committee of the High Commissioner's Programme gives the High Commissioner guidance in respect of material assistance programmes and advice at his request in the field of international protection. It meets normally once a year at Geneva. It includes representatives of 31 states members and non-members of the UN.

In the field of international protection there have been further accessions to legal instruments of benefit to refugees, in particular to the UN 1951 Convention Relating to the Status of Refugees and its 1967 Protocol, to which 64 states and 54 states respectively are now parties. The 1969 Convention of the Organization of African Unity, which governs the specific aspects of refugee problems in Africa, entered into force in Nov. 1973. Consultations have continued with governments concerning the draft convention on territorial asylum which was submitted to the attention of the General Assembly in 1972. At the national level, a number of additional legislative measures have been taken to protect the interests of refugees.

UNHCR's annual assistance programmes for 1973, totalling some US\$9m., have again been largely centred in Africa, where efforts have continued to facilitate the settlement of refugees in agriculture, to provide educational and health facilities, and to offer counselling services to refugees in urban areas, whose problems have become increasingly acute through limited employment opportunities. Events of special concern to UNHCR in 1973 have included the continued exodus from Burundi of refugees seeking asylum in Tanzania, Rwanda and Zaïre, where their numbers have grown to 90,000. Further movements of refugees from colonial territories have also taken place.

In Latin America, UNHCR was called upon to offer emergency assistance to refugees resident in Chile, following the change of government which occurred in that country in Sept. 1973. An appeal for resettlement opportunities for those who have registered for emigration, numbering 2,600, had resulted by 31 Dec. 1973 in offers of 1,600 places, made by 19 countries.

Special operations undertaken by UNHCR in 1973, outside the scope of its regular activities, have included the co-ordination of the immediate UN Relief Programme in the South Sudan to facilitate the return of over 150,000 refugees and of some 500,000 displaced persons to their homes. Financial contributions channelled through UNHCR for this operation, now concluded, totalled some US\$20m., and were mainly used to bring food supplies from the north, to repair and rebuild roads, schools and hospitals in the south, and to transport Sudanese people back to their home towns and villages. 1973 has also seen the continuation

of efforts to help resettle some 4,500 Uganda Asians of undetermined nationality who were expelled from Uganda in the latter part of 1972, and who were given temporary accommodation in transit camps in a number of European countries. By the end of 1973, permanent homes had been offered by some 20 governments, mainly in Europe and the Americas; places remained to be found for over 100 still in the camps, many of them handicapped. An additional problem then facing UNHCR was that of some 1,500 Asians from Uganda scattered throughout many countries, and seeking reunion with their families. In the Asian sub-continent, the High Commissioner has been acting as executing agent for the transfer of more than 200,000 persons following the New Delhi Agreement of Aug. 1973. By the end of the year, more than 110,000 persons had been moved, including some 73,500 Bengalis from Pakistan, 30,700 non-Bengalis from Bangladesh and 6,000 Pakistanis stranded in Nepal.

The United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) was established by the General Assembly in Dec. 1949. It is supported by private contributions and by governmental pledges made each year at the General Assembly. UNRWA's operations, direct relief, long-term rehabilitation and vocational training, cover the Gaza Strip, Jordan, Lebanon and Syria, where over 1m. refugees were living before the war of June 1967.

Headquarters: Museitbeh Quarter, Beirut, Lebanon.

Commissioner-General: Sir John Rennie (UK).

The Children's Fund (UNICEF), established by the General Assembly on 11 Dec. 1946, functions under the supervision of the Economic and Social Council. It assists child health, nutrition and welfare programmes in 116 countries and territories. Its work is financed through voluntary contributions from governments and donations from the public. Estimated income 1972 (including contributions for special emergencies), \$70m.

The 76 members of IMCO include 1 associate member: Hong Kong.

GATT: The 83 contracting parties to GATT include Rhodesia. In addition there are 2 countries—Tunisia and the Philippines—which have provisionally acceded to the Agreement, and 14 countries—Algeria, Bahrain, Botswana, Equatorial Guinea, Fiji, the Khmer Republic, Lesotho, Maldives, Mali, Qatar, Southern Yemen, Swaziland, Tonga and Zambia—to whose territories GATT had been applied before independence and which now as independent states maintain a *de facto* application of the GATT pending final decisions as to their future commercial policy.

In ICAO, USSR membership includes Byelorussia and the Ukraine.

1. INTERNATIONAL ATOMIC ENERGY AGENCY (IAEA)

Origin. The International Atomic Energy Agency came into existence on 29 July 1957. Its statute had been approved on 26 Oct. 1956, at an international conference held at UN Headquarters, New York. A relationship agreement links it with the United Nations.

Functions. (1) To accelerate and enlarge the contribution of atomic energy to peace, health and prosperity throughout the world, and (2) to ensure that assistance provided by it or at its request or under its supervision or control is not used in such a way as to further any military purpose.

The IAEA gives advice and technical assistance to member states (103 as of Jan. 1973) on nuclear power development, including its application in water desalination, on health and safety, and on radioactive waste management. It promotes the use of radiation and radioisotopes in medicine, agriculture, industry and hydrology through expert services, training courses and fellowships, research contracts, scientific meetings and publications. Since 1958 the Agency has provided the services of 1,800 experts, 4,300 fellowships, equipment worth \$10.8m. and research contracts worth \$10.8m. The IAEA has research laboratories in Austria and Monaco. At Trieste, the International Centre for Theoretical Physics was established in 1964 which is now operated jointly by UNESCO and IAEA.

Safeguards applied by the Agency under all kinds of agreements including those made pursuant to NPT, at present cover nuclear material in 25 nuclear power stations, 107 other types of reactors and 145 other facilities. Through the agreement with the European Atomic Energy Community and its non-nuclear weapon states, safeguards under the Treaty will be extended on nuclear material in well over 100 additional facilities.

Organization. The Statute provides for an annual General Conference, a Board of Governors of 34 members and a staff headed by a Director-General.

Director-General: Sigvard Eklund (Sweden).

Headquarters: Kärltnerring 11, A1010 Vienna, Austria.

2. INTERNATIONAL LABOUR ORGANIZATION (ILO)

Origin. The ILO, established in 1919 as an autonomous part of the League of Nations, is an intergovernmental agency with a tripartite structure, in which representatives of governments, employers and workers participate. It seeks through international action to improve labour conditions, raise living standards and promote productive employment. In 1946 the ILO was recognized by the United Nations as a specialized agency. In 1969 it was awarded the Nobel Peace Prize. In 1974 it numbered 124 members.

Functions. One of the ILO's principal functions is the formulation of international standards in the form of International Labour Conventions and Recommendations. Member countries are required to submit Conventions to their competent national authorities with a view to ratification. If a country ratifies a Convention it agrees to bring its laws into line with its terms and to report periodically how these regulations are being applied. A total of 3,987 ratifications of 138 Conventions had been deposited by the end of 1972. Machinery is available to ascertain whether Conventions thus ratified are effectively applied.

Recommendations do not require ratification, but member states are obliged to consider them with a view to giving effect to their provisions by legislation or other action. By the end of 1973 the International Labour Conference had adopted 146 recommendations.

Organization. The ILO consists of the International Labour Conference, the Governing Body and the International Labour Office.

The Conference is the supreme deliberative organ of the ILO; it meets annually at Geneva. National delegations are composed of 2 government delegates, 1 employers' delegate and 1 workers' delegate.

The Governing Body, elected by the Conference, is the executive council. It is composed of 24 government members, 12 workers' members and 12 employers' members.

Ten governments hold permanent seats on the Governing Body because of their industrial importance, namely, Canada, China, France, Germany (West), India, Italy, Japan, USSR, UK and USA. The remaining 14 government seats were, at the end of 1973, held by Argentina, Australia, Bulgaria, Dahomey, Gabon, Ghana, Iran, Jamaica, Jordan, Mexico, Morocco, Panama, Poland and Uganda.

The Office serves as secretariat, operational headquarters, research centre and publishing house.

The ILO budget for 1974-75 was \$93.5m.

Activities. In addition to its research and advisory activities, the ILO extends technical co-operation to governments under its regular budget and under the NU Development Programme and Funds-in-Trust in the fields of employment promotion, human resources development (including vocational and management training), development of social institutions, small-scale industries, rural development social security, industrial safety and hygiene, productivity, etc. Technical co-operation also includes expert missions and a fellowship programme. More than \$30m. was spent on technical co-operation in 1973. Projects were in progress in over 100 countries and nearly 1,000 experts involved.

Major emphasis is being given during the UN Second Development Decade to the ILO's World Employment Programme, launched in 1969 with the purpose of stimulating national and international efforts to increase the volume of productive employment, and so to counter the problem of rising unemployment in developing countries. Employment strategy missions were carried out under the Programme in Colombia, Iran, Kenya, Sri Lanka, the Philippines and the Dominican Republic. The work of these missions was complemented by an ILO programme of research designed to provide policy-makers with the information to promote employment.

In 1960 the ILO established in Geneva the International Institute for Labour

Studies. The Institute specializes in advanced education and research on social and labour policy. It brings together for group study experienced persons from all parts of the world—government administrators, trade-union officials, industrial experts, management, university and other specialists.

A training institution was opened by the ILO in Turin, Italy, in 1965—the International Centre for Advanced Technical and Vocational Training. The Centre provides opportunities for technical, vocational and management training for individuals who have advanced beyond the facilities available in their own countries. Courses are geared particularly to the needs of developing countries.

Headquarters: 154, rue de Lausanne, CH-1211 Geneva 22, Switzerland.

Acting Director-General: Francis Blanchard (France).

Chairman of the Governing Body: Arturo Moñoz Ledo (Mexico).

London branch office: 40 Piccadilly, W1.

There are also branch and area offices in Algiers, Beirut, Bonn, Buenos Aires, Cairo, Dakar, Dar es Salaam, Islamabad, Istanbul, Lagos, Lusaka, Manila, Mexico City, Moscow, New Delhi, Ottawa, Paris, Port-of-Spain, Rio de Janeiro, Rome, San José (Costa Rica), Tokyo, Washington and Yaoundé. There are regional offices in Addis Ababa (for Africa), Bangkok (for Asia) and Lima (for the Americas).

Publications. Regular periodicals in English, French and Spanish include the *International Labour Review* (monthly); *Legislative Series* (bimonthly); *Bulletin of Labour Statistics* (quarterly); *Official Bulletin* (quarterly); the *Year Book of Labour Statistics*; a series of studies and reports; *Conciliation in Industrial Disputes*. 1973; *Education and the Employment Problem in Developing Countries*. 1973; *Employment in Africa*. 1973; *Multinational Enterprises and Social Policy*. 1973; *Education and the Employment Problem in Developing Countries*. 1973; *Mechanisation and Employment in Agriculture: Case Studies from four Continents*. 1973; *Strategies for Employment Promotion*. 1973; *Population and Labour*. 1973.

3. FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS (FAO)

Origin. The UN Conference on Food and Agriculture in May 1943, at Hot Springs, Virginia, set up an Interim Commission in Washington in July 1943 to plan the Organization, which came into being on 16 Oct. 1945.

Functions. FAO gives international support to national programmes to increase the efficiency of agriculture, forestry and fisheries, and to improve the conditions of the people engaged in relevant activities.

FAO keeps world food and agricultural conditions under continuous review and supplies member governments with facts and figures, appraisals and forecasts relating to trends in the world agricultural situation and on production, trade and consumption.

The Organization's 17th biennial Conference, held in Nov. 1973, approved three measures designed to promote the regularity, balance and security of world agricultural production and trade. The first was a proposal to hold a World Food Conference under UN auspices in 1974 in Rome. The second was an endorsement of the principles and objectives of a world food security policy whereby all nations would attempt to build up grain stocks as a 'cushion' against crop failures and price fluctuations. Thirdly, the FAO Conference agreed that a strategy be planned for International Agricultural Adjustment which, among other targets, would offer developing countries the opportunity to increase their share in a general expansion of world agricultural trade. These measures are a response to growing concern over the problems of adequate food supplies for a growing world population.

FAO provides secretariat services for the exchange of information and for co-operative action in its fields of concern. More than 2,000 experts are assigned to field projects in developing countries. Through co-operative arrangements with private and public lending institutions, such as the World Bank, it helps to mobilize capital backing for programmes of development. With the UN, FAO sponsors the World Food Programme, which uses food and cash pledged by member countries for economic and social development projects and for alleviating distress during emergencies. Through the Freedom from Hunger/Action for Development Campaign, which is conducted by some 90 national committees, FAO

arouses concern over the gravity and extent of the world food situation and mobilizes public support for programmes to improve the situation.

Organization. FAO's programme and overall policy are approved by a Conference (composed of one representative of each of the 131 member nations) and interim supervision is given by a Council (consisting of 42 nations elected by the Conference). The work of the Organization is carried out by an international staff led by a Director-General.

Budget for 1974-75: \$107m.

Headquarters: Viale delle Terme di Caracalla, Rome, Italy.

Director-General: Dr A. H. Boerma (Netherlands).

FAO publications include: *FAO Books in Print* 1971 and supplements; *The State of Food and Agriculture* (annual), 1947 ff.; *Third World Food Survey*, Rome, 1963; *Animal Health Yearbook* (annual), 1957 ff.; *Production Yearbook* (annual), 1947 ff.; *Trade Yearbook* (annual), 147 ff.; *An Annual Review of World Production Consumption and Trade of Fertilizers*, 1951 ff.; *FAO Commodity Review* (annual), 1961 ff.; *Yearbook of Forest Products Statistics* (annual), 1947 ff.; *Yearbook of Fishery Statistics* (in two volumes: *Catches and Landings* and *Fishery Commodities*) (annual), 1947 ff.; *Ceres* (bimonthly).

4. UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION (UNESCO)

Origin. A Conference for the establishment of an Educational, Scientific and Cultural Organization of the United Nations was convened by the Government of the UK in association with the Government of France, and met in London, 1-16 Nov. 1945. UNESCO came into being on 4 Nov. 1946.

Functions. The purpose of UNESCO is to contribute to peace and security by promoting collaboration among the nations through education, science and culture in order to further universal respect for justice, for the rule of law and for the human rights and fundamental freedoms which are affirmed for the peoples of the world, without distinction of race, sex, language or religion, by the Charter of the United Nations. The UNESCO budget for 1969 was \$42,095,750.

Activities. The education programme has three main objectives: the extension of education; the improvement of education; and education for living in a world community.

To train teachers specialized in the techniques of fundamental education UNESCO is helping to establish regional and national training centres. A centre for Latin America was opened in Mexico in 1951, one for the Arab States was set up in Egypt in 1953. UNESCO seeks to promote the progressive application of the right to free and compulsory education for all and to improve the quality of education everywhere.

In the natural sciences, UNESCO seeks to promote international scientific co-operation, such as the International Hydrological Decade which began in 1965. It encourages scientific research designed to improve the living conditions of mankind. Science co-operation offices have been set up in Montevideo, Cairo, New Delhi and Jakarta.

In its mass communication work, UNESCO endeavours, by disseminating information, carrying out research and providing advice, to increase the scope and quality of press, film and radio services throughout the world.

Organization. The organs of UNESCO are a General Conference (composed of representatives from each member state), an Executive Board (consisting of 34 government representatives elected by the General Conference) and a Secretariat. UNESCO had 125 members and 3 associate members in 1969.

National commissions act as liaison groups between UNESCO and the educational, scientific and cultural life of their own countries.

Budget for 1972: \$51.98m.

Headquarters: UNESCO House, 9 Place de Fontenoy, Paris (7^{ème}).

Director-General: René Maheu (France).

Periodicals. *Museum* (quarterly, English and French); *International Social Science Journal* (quarterly, English and French); *Impact of Science on Society* (quarterly, English and French); *Unesco Courier* (monthly, English, French and Spanish); *Fundamental and Adult Education Bulletin*

(quarterly, English, French and Spanish); *Copyright Bulletin* (twice-yearly, English and French); *Unesco Chronicle* (monthly, English, French and Spanish); *Unesco Bulletin for Libraries* (monthly, English, French and Spanish).

5. WORLD HEALTH ORGANIZATION (WHO)

Origin. An International Conference, convened by the UN Economic and Social Council, to consider a single health organization resulted in the adoption on 22 July 1946 of the constitution of the World Health Organization. This constitution came into force on 7 April 1948.

Structure. The principal organs of WHO are the World Health Assembly, the Executive Board and the Secretariat. Each of the 138 member states and the 2 Associate Members (1973) has the right to be represented at the Assembly, which meets annually usually in Geneva, Switzerland. The 24-member Executive Board is composed of technically qualified health experts designated by as many member states elected by the Assembly. The Secretariat consists of technical and administrative staff headed by a Director-General. Health activities in member countries are carried out through regional organizations which have been established in Africa (regional office, Brazzaville), South-East Asia (New Delhi), Europe (Copenhagen), Eastern Mediterranean (Alexandria) and Western Pacific (Manila). The Pan American Sanitary Bureau in Washington serves as the Regional Office of WHO for the Americas.

Functions. WHO's objective, as stated in the first article of the Constitution is 'the attainment by all peoples of the highest possible level of health'. As the directing and co-ordinating authority on international health it establishes and maintains collaboration with the UN, specialized agencies, government health administrations, professional and other groups concerned with health. The Constitution also directs WHO to assist governments to strengthen their health services, to stimulate and advance work to eradicate diseases, to promote maternal and child health, mental health, medical research and the prevention of accidents; to improve standards of teaching and training in the health professions, and of nutrition, housing, sanitation, working conditions and other aspects of environmental health. The Organization also is empowered to propose conventions, agreements and regulations and make recommendations about international health matters; to revise the international nomenclature of diseases, causes of death and public health practices; to develop, establish and promote international standards concerning foods, biological, pharmaceutical and similar substances.

Methods of work. Country projects are assisted only on the request of the government concerned, are organized and administered through the 6 regional offices of the Organization. World-wide technical services are made available by headquarters. Expert committees whose members are chosen from the 43 advisory panels of experts meet to advise the Director-General on a given subject. Scientific groups and consultative meetings are called for similar purposes. To further the education of all levels of health personnel of all categories, seminars, technical conferences and training courses are organized and advisors, consultants and lecturers are provided. WHO awards fellowships for study to nationals of member countries (the cumulative total reached 43,509 by the end of 1972).

Activities. In communicable diseases WHO is sponsoring world-wide campaigns to eradicate both malaria and smallpox. In malaria, WHO's role is to help plan national campaigns, provide expert advice, stimulate research, organize training programmes and pilot projects and co-ordinate the world programme. By the end of 1972, of the 1,840m. people living in originally malarious areas in 145 countries of the world, 40.5% then were in areas where malaria had been eradicated and a further 33% in areas where eradication programmes were in progress. Areas infected with smallpox have declined steadily since 1967 when the intensified global smallpox eradication campaign was undertaken. By the end of 1973, the Americas had become free of smallpox as well as all but 1 African country and 3 countries on the sub-continent of Asia.

WHO has assisted member countries to build up their health services in one form or another, including the planning and organization of public health laboratories. It promotes national environmental health programmes and advises on soil, water, air and food pollution. The Organization is also assisting a number of countries in the development of suitable systems of health care in relation to popular trends, including the development of services for family planning.

In programmes relating to non-communicable diseases, such as cardiovascular diseases and cancer, research figures prominently. Work in cancer is carried out both at the International Agency for Research on Cancer at Lyons in the field of environmental biology, and in Geneva, where WHO concentrates on clinical studies, classification and cancer control services. The medical research programme of WHO is based on a world-wide network of reference centres. A number of countries are being helped to develop an effective organization of mental health services. In pharmacology and toxicology work is geared to ensuring the availability of effective and safe drugs. In its studies and programmes the Organization considers both the quality of foods and their safety particularly where food additives are concerned. Education and training of staff remains a top priority matter, including the preparation of nurses for teaching and administrative roles.

6. INTERNATIONAL MONETARY FUND (FUND)

The International Monetary Fund was established on 27 Dec. 1945 as an independent international organization; its relationship with the UN is defined in an agreement of mutual co-operation which came into force on 15 Nov. 1947. The quotas of the 126 members was SDR29,189.4m. at 31 Oct. 1973. At the same date, the Fund's assets included SDR5,366.5m. in gold, SDR505.4m. in SDRs, SDR179m. in subscriptions receivable and SDR23,878.3m. in various national currencies, and SDR14.7m. in other assets. (One special drawing right (SDR) is equal in value to 0.888671 gramme of fine gold, equivalent to 1.20635 US\$ in terms of the par value for the dollar established on 18 Oct. 1973.)

The Fund is authorized under its Articles of Agreement to supplement its resources by borrowing. In Jan. 1962, a 4-year agreement was concluded with 10 industrial members (Belgium, Canada, France, West Germany, Italy, Japan, Netherlands, Sweden, UK, USA) who undertook to lend the Fund up to \$6,000m.

in their own currencies, if this should be needed to forestall or cope with an impairment of the international monetary system. These agreements, extended in 1965 until 1970, and again until 1975, were used to finance drawings made by the UK in 1964, 1965, 1968 and 1969, and by France in 1969 and 1970. By Aug. 1971 all such borrowings had been repaid in full to the Fund.

Purposes: To promote international monetary co-operation, the expansion of international trade and exchange stability; to assist in the removal of exchange restrictions and the establishment of a multilateral system of payments; and to alleviate any serious disequilibrium in members' international balance of payments by making the resources of the Fund available to them under adequate safeguards.

Activities. Each member of the Fund undertakes to establish and maintain an agreed par value for its currency, and to consult the Fund on any change in excess of 10% of the initial parity. Countries retaining exchange controls are required to hold annual consultations with the Fund regarding the restrictions in use, the balance of payments justification for them, and the possibilities for their removal. The Fund makes its foreign exchange resources available, under proper safeguards, to its members to meet short-term or medium-term payments difficulties. The Fund also supplements, as and when needed, the existing reserve assets of participants in the Special Drawing Account. The first allocation of special drawing rights was made on 1 Jan. 1970, in a total amount equivalent to \$3,414.4m. The second allocation, on 1 Jan. 1971, was equivalent to \$2,949m. and the third, on 1 Jan. 1972, was equivalent to \$2,952m.

Following serious monetary disturbances in 1971, a Report on Reform of the International Monetary System was submitted to the Board of Governors at the 1972 annual meeting. During the meeting the Committee on Reform of the International Monetary System and Related Issues, generally known as the Committee of Twenty, held its first session, with the mandate to advise and report to the Board on all aspects of the international monetary system, including proposals for any amendments of the Articles of Agreement. By the annual meeting of Sept. 1973, the Committee had held 3 further meetings at ministerial level and its Deputies had met 7 times to continue the work on the reform of the monetary system.

Organization. The highest authority in the Fund is exercised by the Board of Governors on which each member government is represented. Normally the Governors meet once a year, although the Governors may take votes by mail or other means between annual meetings. The Board of Governors has delegated many of its powers to the executive directors in Washington, of whom there are 20, 5 appointed by the 5 members with the largest quotas and the other 15 elected by groups of countries. Each appointed director has voting power proportionate to the quota of the government he represents, while each elected director casts all the votes of the countries which elected him. The 5 appointed executive directors represent the US, UK, West Germany, France and Japan.

The managing director is selected by the executive directors; he presides as chairman at their meetings, but may not vote except in case of a tie. His term is for 5 years, but may be terminated at the discretion of the executive directors. He is responsible for the ordinary business of the Fund, under general control of the executive directors, and supervises a staff of 1,300.

7. INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

Conceived at the Bretton Woods Conference, July 1944, the Bank began

operations in June 1946. Its purpose is to provide funds and technical assistance to facilitate economic development in its poorer member countries.

The Bank obtains its funds from the following sources: Capital subscribed by member countries; sales of its own securities; sales of parts of its loans; repayments; and net earnings. The subscribed capital of the Bank amounted to \$25,197m. at 30 June 1973. 10% of this amount is paid-in while the remainder is subject to call if needed to meet the Bank's obligations. Borrowing in the market had reached \$15,764m. by 30 June 1973, of which \$8,881m. was outstanding, and sales of portions of Bank loans from portfolio had totalled \$2,499m. The Bank is self-supporting. Its net earnings for year ending 30 June 1973 amounted to \$186m.; in addition, the Bank had reserves of \$1,750m.

By 30 June 1973 the Bank had made 933 loans totalling \$20,635m. in 90 of its 122 member countries. Excluding loans of \$300m. to its affiliate, the International Finance Corporation (IFC), its lending had been for the following purposes: Agriculture, \$2,064m.; education, \$507m.; industry, \$3,263m.; non-project, \$1,458m.; population, \$26m.; electric power, \$5,748m.; telecommunications, \$572m.; tourism, \$66m.; transportation, \$6,049m.; urbanization, \$21m.; and water supply and sewerage, \$557m.

In order to eliminate wasteful overlapping of development assistance and to ensure that the funds available are used to the best possible effect, the Bank has organized consortia or consultative groups of aid-giving nations for the following countries: Colombia, Ethiopia, Ghana, India, Korea, Malaysia, Morocco, Nigeria, Pakistan, Peru, the Philippines, Sri Lanka, the Sudan, Thailand, Tunisia, Zaire and East Africa (Kenya, Uganda, Tanzania). The Bank furnishes a wide variety of technical assistance. It acts as executing agency for a number of pre-investment surveys financed by the UN Development Programme. Permanent missions have been established in East and West Africa, India, Indonesia, Thailand and elsewhere primarily to assist in the preparation of projects. The Bank helps member countries to identify and prepare projects for the development of agriculture, education and water supply by drawing on the expertise of the FAO, WHO, UNIDO and UNESCO through its co-operative agreements with these organizations. The Bank maintains a staff college, the Economic Development Institute in Washington, D.C., for senior officials of the member countries.

To help nations whose borrowing capacity is limited by foreign-exchange stringency, member countries of the Bank established the INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA) in 1960. IDA grants development credits on a long-term, interest-free basis. By 30 June 1973 IDA had extended 439 credits to 66 countries, totalling \$5,907m. for the same general purpose as bank loans. IDA's primary lending resources have been the subscriptions and supplementary contributions of member countries, chiefly its 21 wealthiest. In addition, it has negotiated interest-free loans from Switzerland and New Zealand. The World Bank has made grants to IDA out of its net income; the Association also has a small flow of net income of its own.

8. INTERNATIONAL FINANCE CORPORATION (IFC)

The Corporation, an affiliate of the World Bank, was established in July 1956. Paid-in capital at 30 June 1973 was \$107.2m., subscribed by 98 member countries. In addition, it has reserves of \$75.8m. IFC supplements the activities of the World Bank by encouraging the growth of productive private enterprises in less developed member countries. Chiefly, IFC makes investments in the form of subscriptions to the share capital of privately owned companies, or long-term loans, or both. The Corporation will help finance new ventures, and it will also assist established enterprises to expand, improve or diversify their operations.

At 30 June 1973 IFC has made commitments, amounting to \$848.1m., in 51 countries. The total amount of loans and equity which IFC had sold or agreed to sell to other investors as of that date was \$261.5m. Standby and underwriting commitments totalled \$33.7m.

9. INTERNATIONAL CIVIL AVIATION ORGANIZATION (ICAO)

Origin. The Convention providing for the establishment of the International Civil Aviation Organization was drawn up by the International Civil Aviation Conference held in Chicago from 1 Nov. to 7 Dec. 1944. A Provisional International Civil Aviation Organization (PICAO) operated from 6 June 1945 until the formal establishment of ICAO on 4 April 1947.

The Convention on International Civil Aviation superseded the provisions of the Paris Convention of 1919, which established the International Commission for Air Navigation (ICAN), and the Pan American Convention on Air Navigation drawn up at Havana in 1928.

Functions. It assists international civil aviation by establishing technical standards for safety and efficiency of air navigation and promoting simpler procedures at borders; develops regional plans for ground facilities and services needed for international flying; disseminates air-transport statistics and prepares studies on aviation economics; fosters the development of air law conventions. As part of the UN Development Programme it provides technical assistance to States in developing civil aviation programmes.

Organization. The principal organs of ICAO are an Assembly, consisting of all members of the Organization, and a Council, which is comprised of 30 states elected by the Assembly, for 3 years, and meets in virtually continuous session. In electing these states, the Assembly must give adequate representation to: (1) member states of major importance in air transport; (2) those member states not otherwise included which make the largest contribution to the provision of facilities for the international civil air navigation; (3) those member states not otherwise included whose election will ensure that all major geographical areas of the world are represented. The main subsidiary bodies are: the Air Navigation Commission, composed of 12 members elected by the Council; Air Transport Committee, open to council members; and the Legal Committee, on which all members of ICAO may be represented. There are 128 members.

Budget for 1974: \$12,264,700.

Headquarters: International Aviation Building, 1080 University St., Montreal 101, Quebec, Canada.

Secretary-General: Dr Assad Kotaite (Lebanon).

10. UNIVERSAL POSTAL UNION (UPU)

Origin. The UPU was established on 1 July 1875, when the Universal Postal Convention adopted by the Postal Congress of Berne on 9 Oct. 1874 came into force. The UPU was known at first as the General Postal Union, its name being changed at the Congress of Paris in 1878.

Functions. The aim of the UPU is to assure the organization and perfection of the various postal services and to promote, in this field, the development of international collaboration. To this end, the members of UPU are united in a single postal territory for the reciprocal exchange of correspondence.

Organization. The UPU is composed of a Universal Postal Congress, which usually meets every 5 years, a permanent Executive Council consisting of 31 members, a consultative Committee, which consists of 30 members elected on a geographical basis by each Congress, and an International Bureau, which functions as the permanent secretariat.

Since 1 July 1948 the Union has been governed by the revised Convention adopted by the twelfth Congress in Paris on 5 July 1947.

Budget for 1972: \$2.41m.

Headquarters: Schosshaldenstrasse 46, 3000, Berne, Switzerland.

Director-General: Dr Michel Rahi (Egypt).

11. INTERNATIONAL TELECOMMUNICATION UNION (ITU)

Origin. The International Telegraph Union, founded in Paris in 1865, and the International Radiotelegraph Union, founded in Berlin in 1906, were merged by the Madrid Convention of 1932 to form the International Telecommunication Union. ITU came into being on 1 Jan. 1934. The ITU has been governed since 1 Jan. 1949 by the revised International Telecommunication Convention adopted on 2 Oct. 1947.

Functions. The ITU: (1) allocates radio frequencies and registers radio-frequency assignments; (2) seeks to establish the lowest rates possible, consistent with efficient service and taking into account the necessity for keeping the independent financial administration of telecommunication on a sound basis; (3) promotes the adoption of measures for ensuring the safety of life through telecommunication; and (4) makes studies and recommendations and collects and publishes information for the benefit of its members.

Organization. The ITU consists of the Plenipotentiary Conference, Administrative Conferences, the Administrative Council of 25 members, the General Secretariat, the International Frequency Registration Board, and 3 international consultative committees (radio, telephone, telegraph).

Budget for 1972: \$9.15m.

Headquarters: Place des Nations, Geneva, Switzerland.

Deputy Secretary-General: Mohamed Mili (Tunisia).

12. WORLD METEOROLOGICAL ORGANIZATION (WMO)

Origin. A Conference of Directors of the International Meteorological Organization (set up in 1873), meeting in Washington in 1947, adopted a Convention creating the World Meteorological Organization. The WMO Convention became effective on 23 March 1950, and WMO was formally established on 19 March 1951, when the first session of its Congress was convened in Paris. An agreement to bring WMO into relationship with the United Nations was approved by this Congress and came into force on 21 Dec. 1951 with its approval by the General Assembly of the United Nations.

Functions: (1) To facilitate world-wide co-operation in the establishment of networks of stations for the making of meteorological observations or other geophysical observations related to meteorology, and to promote the establishment and maintenance of meteorological centres charged with the provision of meteorological services; (2) to promote the establishment and maintenance of systems for the rapid exchange of meteorological information; (3) to promote standardization of meteorological observations and to ensure the uniform publication of observations and statistics; (4) to further the application of meteorology to aviation, shipping, water problems, agriculture and other human activities; and (5) to encourage research and training in meteorology and to assist in co-ordinating the international aspects of such research and training.

Organization. WMO is an inter-governmental organization of 125 member states and 12 member territories responsible for the operation of their own meteorological services. Constituent bodies of WMO are the World Meteorological Commission, the Executive Committee, the Secretariat, and the various technical commissions.

logical Congress which meets every 4 years, the executive committee composed of 24 members elected in their personal capacity and including the President and 3 Vice-Presidents of the Organization, 6 regional associations of members and 8 technical commissions established by the Congress. A permanent secretariat is maintained in Geneva.

Budget for 1974: \$6,835,000.

Headquarters: 41 Avenue Giuseppe Motta, Geneva, Switzerland.

Secretary-General: David A. Davies (UK).

13. INTER-GOVERNMENTAL MARITIME CONSULTATIVE ORGANIZATION (IMCO)

Origin. IMCO was established as a specialized agency of the UN by a convention drawn up at the UN Maritime Conference held at Geneva in Feb./March 1948. The Convention became effective on 17 March 1958 when it had been ratified by 21 countries, including 7 with at least 1m. gross tons of shipping each. IMCO started operations in Jan. 1959.

Functions. To facilitate co-operation among governments on technical matters affecting merchant shipping, especially concerning safety at sea; to encourage abolition of discriminatory and restrictive practices affecting merchant shipping. IMCO is responsible for convening international maritime conferences and for drafting international maritime conventions.

Organization. IMCO had 84 members (including 1 associate member) in 1971. The Assembly, composed of all member states, normally meets every 2 years. The Council of 18 member states acts as governing body between Assembly sessions. The 16-member Maritime Safety Committee deals with all technical questions. It can establish specialized sub-committees to deal with specific problems. The Secretariat is composed of international civil servants.

IMCO is depositary authority for the International Convention for the Safety of Life at Sea, 1960, and the Regulations for Preventing Collisions at Sea, 1948 and 1960; the International Convention for the Prevention of Pollution of the Sea by Oil, 1954, as amended in 1962; the Convention on Facilitation of International Maritime Traffic, 1965; the International Convention on Load Lines, 1966; the International Convention on Tonnage Measurement of Ships, 1969; the International Convention relating to Intervention on the High Seas in cases of Oil Pollution Casualties 1969; the International Convention on Civil Liability for Oil Pollution Damage, 1969; Convention on International Compensation Fund for Oil Pollution Damage, 1971; Convention on International Regulations for Preventing Collisions at Sea, 1972; the International Convention for Safe Containers, 1973; the International Convention on Prevention of Pollution from Ships, 1973.

14. GENERAL AGREEMENT ON TARIFFS AND TRADE (GATT)

Origin. The General Agreement on Tariffs and Trade was negotiated in 1947 and entered into force on 1 Jan. 1948. Its 23 original signatories were members of a Preparatory Committee appointed by the UN Economic and Social Council to draft the charter for a proposed International Trade Organization. Since this charter was never ratified, the General Agreement, intended as an interim arrangement, has instead remained as the only international instrument laying down trade rules accepted by countries responsible for most of the world's trade. In Dec. 1973 there were 83 contracting parties, with a further 16 countries participating under special arrangements.

Functions. GATT functions both as a multilateral treaty that lays down a common code of conduct in international trade and trade relations and as a forum for negotiation and consultation to overcome trade problems and reduce trade barriers. Key provisions of the Agreement guarantee most-favoured-nation treatment (exceptions being granted to customs unions and free trade areas, and for certain preferences in favour of developing countries), require that protection be given to domestic industry only through tariffs, provide for negotiations to reduce tariffs (which are then 'bound' against subsequent increase) and other trade distortions and lay down principles (particularly in Part IV of the Agreement, added in 1965) to assist the trade of developing countries. The Agreement also provides for consultation on, and settlement of, disputes, for 'waivers' (the grant of authorization, when warranted, to derogate from specific GATT obligations) and for emergency action in defined circumstances.

Six major trade negotiations, most recently the highly successful Kennedy Round of 1964-67, took place in GATT up to 1973. In September 1973 a Ministerial conference in Tokyo launched new negotiations of unprecedented scope. A Declaration approved at the conference by the 102 participating countries provides that the negotiations shall cover tariffs, non-tariff barriers and other measures which impede or distort international trade in industrial and agricultural products, including tropical products and raw materials and, in particular, products of export interest to developing countries and measures affecting their exports. The negotiations will be based on the principles of mutual advantage, mutual commitment and overall reciprocity (*i.e.*, that the totality of concessions made by each developed country should balance those received) with the joint aim of achieving an overall balance of advantage at the highest possible level. In addition, special terms have been agreed upon for the participation of developing countries, as well as specific aims for the negotiations as regards their trade. A firm technical basis for the negotiations is provided by a comprehensive work programme undertaken in GATT since 1967.

To assist the trade of developing countries, GATT established in 1964 the International Trade Centre (since 1968 operated jointly with the UN Conference on Trade and Development) to provide information and training on export markets and marketing techniques. Other GATT action in favour of developing countries includes training courses on trade policy questions.

WORLD COUNCIL OF CHURCHES

The World Council of Churches was formally constituted on 23 Aug. 1948, at Amsterdam, by an assembly representing 147 churches from 44 countries. In 1973 the member churches numbered 263, from 90 countries and territories.

The basis of membership (1961) states: 'The World Council of Churches is a fellowship of Churches which confess the Lord Jesus Christ as God and Saviour according to the Scriptures and therefore seek to fulfil together their common calling to the glory of the one God, Father, Son and Holy Spirit.' Membership is open to Churches which express their agreement with this basis and satisfy such criteria as the Assembly or Central Committee may prescribe. Today 267 Churches of Protestant, Anglican, Orthodox and Old Catholic Confessions belong to this fellowship.

The movements which joined together to form the World Council were:

(a) *Co-operation in oversea missionary work* by the non-Roman Catholic Churches. The World Missionary Conference held in Edinburgh, Scotland, in 1910 was followed in 1921 by the establishment of the *International Missionary Council*. In 1961 this Council became the Commission and Division of World Mission and Evangelism of the World Council.

(b) *The Faith and Order Movement* was founded through the initiative of Charles Brent, Bishop of the Protestant Episcopal Church of the USA in the Philippines. This movement has held world conferences at Lausanne in 1927, Edinburgh in 1937, Lund in 1952, Montreal in 1963 and the Commission on Faith and Order met in Louvain in 1971.

(c) *The Life and Work Movement* was founded largely under the leadership of Archbishop Nathan Söderblom of Uppsala. World conferences were held in Stockholm in 1925, at Oxford in 1937 and in Geneva in 1966. The Department on Church and Society promotes common Christian study and action on social, political and economic problems of the present time.

On 13 May 1938 at Utrecht a provisional committee was appointed to prepare for the formation of a World Council of Churches. It was under the chairmanship of William Temple, then Archbishop of York.

A new structure of the World Council was approved by the Central Committee at its meeting in Addis Ababa, Ethiopia, in Jan. 1971.

Assembly. The governing body of the World Council, consisting of delegates specially appointed by the member Churches. It meets every 6 or 7 years to frame policy and to consider some main theme. The Assembly has no legislative powers and depends for the implementation of its decisions upon the action of the member Churches. Assemblies have been held in Amsterdam (1948), Evanston (1954), New Delhi (1961), Uppsala (1968), and the Fifth Assembly is scheduled for 1975 in Indonesia.

PRESIDIUM. *Hon. President:* The Rev. Dr W. A. Visser't Hooft. *Presidents:* Dr Kiyoko Takeda Cho (Japan); His Holiness Patriarch German (Yugoslavia); Bishop Hanns Lilje (Germany); The Rev. Dr E. A. Payne, CH (UK); The Rev. Dr John Coventry Smith (USA); The Rt Rev. Bishop A. H. Zulu (South Africa).

CENTRAL COMMITTEE. This is appointed by each Assembly to carry out its policies and decisions. It consists of 120 members chosen from among Assembly delegates. It meets once a year.

EXECUTIVE COMMITTEE. This consists of 26 members chosen by the Central Committee from its own membership, to prepare its work, carry out its decisions and supervise the WCC between meetings of the Central Committee. It meets twice a year.

OFFICERS of the Central and Executive Committees: *Chairman:* M. M. Thomas (India). *Vice-Chairmen:* Metropolitan Meliton (Turkey); Pauline M. Webb (UK). *General Secretary:* The Rev. Dr Philip A. Potter. *Deputy General Secretaries:* The Rev. Dr Alan A. Brash, Dr Konrad Raiser. *Director of Finance and Central Services:* Frank Northam.

Office: 150 route de Ferney, 1211 Geneva 20, Switzerland.

The British Council of Churches, which is an associated national council of the World Council, acts as agent for the WCC in the UK.

INTERNATIONAL TRADE UNIONISM

International trade-union co-operation is organized through the three major 'Internationals', the democratic International Confederation of Free Trade Unions (ICFTU), the Communist-directed World Federation of Trade Unions (WFTU) and the World Confederation of Labour (WCL). In addition, federations of specific trades or industries protect their special interests by organizing on an international level and are associated to a varying degree with their corresponding 'Internationals'. The International Trade Secretariats (ITS) are completely autonomous but seek to co-ordinate their policies and activities with those of the ICFTU; the International Trade Federations (ITFs) are very closely integrated with the WCL; the Trade Union Internationals (TUIs) are completely subservient to WFTU.

Levinson, C., *International Trade Unionism*. London, 1972

History. The first general trade-union International, the International Federation of Trade Unions (IFTU), was set up in 1913, but no real achievement was possible until its post-war reconstitution in 1919. Some trade-union movements, seeking to implement the social precepts of the Christian faith, established the International Federation of Christian Trade Unions (IFCTU) in 1920. The name was changed to the World Confederation of Labour in 1968.

During the Second World War moves to establish universal trade unionism resulted in the formation of the World Federation of Trade Unions (WFTU) in 1945. The Christian trade unions refused to join the new association and reconstituted the IFCTU. Attempts by the Communists to impose their own ideology within the WFTU led to the eventual secession of the democratic elements, which reconstituted themselves in the ICFTU in 1949.

EUROPEAN TRADE UNION CONFEDERATION

In Feb. 1973 the European Trade Union Confederation was formed by 17 trade union organizations representing 29m. trade unionists in 15 Western European countries to deal with questions of interest to European working people arising inside and outside the EEC. All the founding organizations are ICFTU affiliates but membership may be extended to other organizations. Formerly those confederations affiliated to ICFTU in EEC and in EFTA countries had maintained separate secretariats.

INTERNATIONAL CONFEDERATION OF FREE TRADE UNIONS

The first congress of ICFTU was held in London in Dec. 1949. The constitution as amended provides for co-operation with the United Nations and the International Labour Organization and for regional organizations to promote free trade unionism, especially in under-developed countries.

Organization. The Congress meets every 3 years. It elects the Executive Board of 29 members nominated on an area basis for a 3-year period; the Board meets at least twice a year. Various committees cover policy *vis-à-vis* the European Economic Community, problems connected with Atomic Energy and also the administration of the International Solidarity Fund. There are joint ICFTU-ITS Committees for co-ordinating activities and also for women workers' problems. Headquarters: 37-41, rue Montagne aux Herbes Potagères, Brussels 1, Belgium.

General Secretary: Otto Kersten.

Regional organizations exist in Europe, office in Brussels; America, office in Mexico City; Asia, office in New Delhi; Africa, office in Addis Ababa.

Membership. The total membership in 1973 was about 51m. The biggest groups were the British Trades Union Congress (10m.), the West-German Deutscher

Gewerkschaftsbund (6.8m.), the Federation of Indonesian Islamic Trade Unions (2.8m.), the Confederazione Italiana Sindacati Lavoratori (2.4m.), the Confederación de Trabajadores de Mexico (2m.), the Swedish Landsorganisationen (1.7m.), the Canadian Labour Congress (1.6m.), the Österreichischer Gewerkschaftsbund (1.5m.), the Belgian General Federation of Labour (900,000), the Indian National Trade Union Congress (2m.), and the French Confédération Générale du Travail Force Ouvrière (600,000).

The American Federation of Labor and Congress of Industrial Organizations disaffiliated in Feb. 1969.

Publications (in 4 languages). *Free Labour World* (monthly); *ICFTU Bulletin* (bi-monthly); *Press and Radio Service* (weekly); *International Trade Union News* (fortnightly).

THE WORLD FEDERATION OF TRADE UNIONS

The WFTU formally came into existence on 3 Oct. 1945, representing trade-union organizations in more than 50 countries of the world, both Communist and non-Communist, excluding Germany and Japan, as well as a number of lesser and colonial territories. Representation from the USA was limited to the Congress of Industrial Organizations, as the American Federation of Labor declined to participate.

In Jan. 1949 the British, USA and Netherlands trade unions withdrew from WFTU, which had come under complete Communist control; and by June 1951 all non-Communist trade-unions, including the Yugoslavian Federation, had left WFTU.

Organization. The Congress meets every 4 years. In between, the General Council, of 134 members (including deputies), is the governing body, meeting (in theory) at least once a year. The Bureau controls the activities of WFTU between meetings of the General Council; it consists of the President, the General Secretary and members from different continents, the total number being decided at each Congress. The Bureau is elected by the General Council.

General Secretary: Pierre Gensous (France).

Membership. In 1972 a total membership of 150m. was claimed. The biggest groups are the Soviet All-Union Central Council of Trade Unions (89m.), the East-German Free German Trade Union Federation (7.3m.), the Polish Central Council of Trade Unions (6.9m.), the Czechoslovak Central Council of Trade Unions (5.4m.), the Italian General Confederation of Labour (CGIL, 3.5m.), the Romanian General Confederation of Labour (3.2m.), the Hungarian Central Council of Trade Unions (2.8m.) and the French Confederation of Labour (CGT, 1.5m.); the General Federation of Iraqi Trades Unions was affiliated in 1967.

Publications. *World Trade Union Movement* (monthly, in 11 languages); *Trade Union Press* (fortnightly, in 6 languages).

WORLD CONFEDERATION OF LABOUR

The first congress of the International Federation of Christian Trade Unions (IFCTU), as the WCL was then called, met in 1920; but a large proportion of its 3.4m. members were in Italy and Germany, where affiliated unions were suppressed by the Fascist and Nazi régimes, and in 1940 IFCTU went out of existence. It was reconstituted in 1945, and declined to merge with WFTU and, later, with ICFTU. The policy of IFCTU was based on the papal encyclicals *Rerum novarum* (1891) and *Quadragesimo anno* (1931), but in 1968, when the Federation became the WCL, it was broadened to include other concepts. The WCL now has Protestant, Buddhist and Moslem members as well as its mainly Roman Catholic members.

Organization. The WCL is organized on a federative basis which leaves wide discretion to its autonomous constituent unions. Its governing body is the Congress which meets every 4 years. The Congress appoints (or re-appoints) the

Secretary-General at each 4-yearly meeting. The General Council which meets at least once a year, is composed of the members of the Confederal Board (at least 22 members, elected by the Congress) and representatives of national confederations, international trade federations, and trade union organizations where there is no confederation affiliated to the WCL. The Confederal Board is responsible for the general leadership of the WCL, in accordance with the decisions and directives of the Council and Congress. Headquarters: 50 rue Joseph II, Brussels 1040, Belgium.

Secretary-General: Jean Bruck (Belgium).

There are regional organizations in Europe (office in Brussels), Latin America (office in Caracas), Africa (office in Bathurst, Gambia) and Asia (office in Manila). There is also a liaison centre in Montreal.

Membership. A total membership of 14m. in about 90 countries is claimed. The biggest groups are the French Democratic Confederation of Labour (700,000) the Confederation of Christian Trade Unions of Belgium (1m.), the Netherlands Catholic Workers' Movement (426,000), the Vietnamese Confederation of Labour (400,000).

Publication. *Labour Press and Information* (11 each year, in 5 languages).

WORLD INTELLECTUAL PROPERTY ORGANIZATION (WIPO)

Origin. The Convention establishing WIPO was signed at Stockholm in 1967 by 51 countries, and entered into force in April 1970.

Objectives. The objectives of WIPO are to promote the protection of intellectual property throughout the world through co-operation among States and, where appropriate, in collaboration with any other international organization, and to ensure administrative co-operation among the Unions established by various Conventions for the protection of intellectual property. The Convention provides expressly for the encouragement of the conclusion of international agreements designed to promote the protection of intellectual property, and for the provision of legal-technical assistance at the request of States.

Intellectual property includes the rights relating to: literary, artistic and scientific works; performances of performing artists, phonograms and broadcasts; inventions in all fields of human endeavour; scientific discoveries; industrial designs; trademarks, service marks and commercial names and designations; protection against unfair competition and all other rights resulting from intellectual activity in the industrial, scientific, literary or artistic fields.

Functions. Among its other functions, WIPO performs the administrative tasks of certain international treaties dealing with various subjects of intellectual property, assembles and disseminates information concerning the protection of intellectual property, carries out and promotes studies in this field, publishes the results of such studies, and maintains services, including registration and publication services, facilitating the international protection of intellectual property.

WIPO performs the administrative tasks conferred by the International (Paris) Convention for the Protection of Industrial Property, by various Special Agreements made within the framework of the Paris Convention and by the International (Berne) Convention for the Protection of Literary and Artistic Works. The Special Agreements referred to, and currently in force, are: Madrid Agreement for the Repression of False or Deceptive Indications of Source on Goods, Madrid Agreement concerning the International Registration of Marks, The Hague Agreement concerning the International Deposit of Industrial Designs, Nice Agreement concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, Lisbon Agreement

for the Protection of Appellations of Origin and their International Registration, Locarno Agreement Establishing an International Classification for Industrial Designs, Strasbourg Agreement concerning the International Patent Classification.

WIPO also provides the Secretariat for ICIREPAT (Paris Union Committee for International Co-operation in Information Retrieval among Patent Offices). The objective of ICIREPAT is to promote international co-operation in the field of the storage and retrieval of technical information particularly in connexion with the searching or examination of applications for patents, inventors' certificates, or similar titles. 'Storage and retrieval of technical information' are understood in their widest sense and include all supporting operations and all activities facilitating them, including in particular: abstracting, indexing, classification, translation, standardization of the form of documents and of search tools, processing of documents, communication and exchange of documents.

So far as its administrative functions are concerned, WIPO is a continuation of the United International Bureaux for the Protection of Intellectual Property (BIRPI), which, under the supervisory authority of the Government of the Swiss Confederation, has provided the International Bureau of the Unions established by the Paris and Berne Conventions since the end of the 19th century. As long as there are States members of the Paris or Berne Unions which have not become members of WIPO, the International Bureau and the Director-General of WIPO function as BIRPI, and its Director, respectively.

Technical Assistance. The legal-technical assistance programme of WIPO is intended to assist developing countries in the improvement of their intellectual property systems in order to support their national and regional plans for economic development. The methods used include expert advice on the modernization of laws and on the building of appropriate governmental institutions, including the training of staff, together with the stimulation of industrial research and development activities by assisting in the flow of scientific and technical information.

The International Bureau of WIPO will act also as the International Bureau of the Patent Co-operation Treaty (PCT), which was signed by 35 countries in 1970 but is not expected to enter into force for a few years. The PCT contains provisions relating to technical assistance on a larger scale than that likely to be provided for in the WIPO programme, and calls for the conclusion of agreements between the International Bureau and international financing organizations concerned with development. Before the entry into force of the PCT, an Interim Committee, consisting of all signatory countries, has been authorized to put the technical assistance programme into effect.

Membership in WIPO is open to any State which is a member of any of the Unions and to other States which are members of the organizations of the United Nations system, are party to the Statute of the International Court of Justice, or are invited to join by the General Assembly of WIPO. Membership of the Unions is open to any State. The total combined membership of the Unions and of WIPO on 1 Oct. 1973, including 2 States not members of either of the Unions, was 89 States; the States disagree on this question. The WIPO Convention permits States which are members of any of the Unions but have not become party to the Convention to exercise, if they so desire, for 5 years from the date of entry into force of the Convention, the same rights as if they had become party to it.

WIPO member States and States which have notified their desire to exercise the same rights: Algeria, Argentina, Austria, Australia, Belgium, Brazil, Bulgaria, Byelorussia, Cameroun, Canada, Chad, Chile, Cuba, Czechoslovakia, Dahomey, Denmark, Egypt, Fiji, Finland, France, Gabon, Germany (East), Germany (West), Greece, Hungary, Irish Republic, Israel, Italy, Ivory Coast, Japan, Jordan, Kenya, Liechtenstein, Luxembourg, Madagascar, Malawi, Malta, Mauritania, Mexico, Morocco, Netherlands, Niger, Norway, Poland, Portugal, Romania, Senegal, South Africa, Spain, Sweden, Switzerland, Syria, Thailand, Togo, Tunisia, Turkey, Ukraine, USSR, UK, USA, Upper Volta, Vatican, Yugoslavia. (65 States).

Paris Union: Algeria, Argentina, Australia, Austria, Belgium, Brazil, Bulgaria, Cameroun, Canada, Central African Republic, Chad, Congo, Cuba, Cyprus, Czechoslovakia, Dahomey, Denmark, Dominican Republic, Egypt, Finland, France, Gabon, Germany (East) disputed, Germany (West), Greece, Haiti, Hungary, Iceland, Indonesia, Iran, Irish Republic, Israel, Italy, Ivory Coast, Japan, Jordan, Kenya, Lebanon, Liechtenstein, Luxembourg, Madagascar, Malawi, Malta, Mauritania, Mexico, Monaco, Morocco, Netherlands, New Zealand, Niger, Nigeria, Norway, Philippines, Poland, Portugal, Rhodesia, Romania, San Marino, Senegal, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Syria, Tanzania, Togo, Trinidad and Tobago, Tunisia, Turkey, Uganda, USSR, UK, USA, Upper Volta, Uruguay, Vatican, Vietnam (South), Yugoslavia, Zambia. (80 States.)

Berne Union: Argentina, Australia, Austria, Belgium, Brazil, Bulgaria, Cameroun, Canada, Chad, Chile, Congo, Cyprus, Czechoslovakia, Dahomey, Denmark, Fiji, Finland, France, Gabon, Germany (East), Germany (West), Greece, Hungary, Iceland, India, Irish Republic, Israel, Italy, Ivory Coast, Japan, Lebanon, Liechtenstein, Luxembourg, Madagascar, Mali, Malta, Mauritania, Mexico, Monaco, Morocco, Netherlands, New Zealand, Niger, Norway, Pakistan, Philippines, Poland, Portugal, Romania, Senegal, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Thailand, Tunisia, Turkey, UK, Uruguay, Vatican, Yugoslavia, Zaïre. (63 States.)

Organization. The bodies of WIPO are: The *General Assembly*, consisting of all States members of WIPO which are members of any of the Unions. Among its other functions, the General Assembly appoints and gives instructions to the Director-General, reviews and approves his reports and adopts the triennial budget of expenses common to the Unions. The *Conference*, consisting of all States members of WIPO whether or not they are members of any of the Unions. Among its other functions, the Conference adopts its triennial budget and establishes the triennial programme of legal-technical assistance. The *Co-ordination Committee*, consisting of the States members of WIPO which are members of the Executive Committees of the Paris or Berne Unions. Among its other functions, the Co-ordination Committee establishes the annual budgets and programmes on the basis of the triennial budgets adopted by the General Assembly and the Conference.

In addition, the Paris and Berne Unions have Assemblies and Executive Committees, with functions similar to those of the WIPO bodies in respect of the triennial and annual budgets and programmes of the Unions. Each Union holds conferences at irregular intervals to revise its Convention.

Director-General: Arpad Bogsch (USA).

Headquarters: 32, chemin des Colombettes, 1211 Geneva 20, Switzerland.

The Director-General of WIPO is also the Secretary-General of the International Union for the Protection of New Varieties of Plants (UPOV) whose headquarters are at the same address.

Origin. The Convention establishing UPOV was signed in Paris in 1961 and entered into force in 1968. UPOV began its operation in Oct. 1969 upon the appointment of its first Secretary-General.

Functions. The purpose of the Convention for the Protection of New Plant Varieties is to recognize and secure to the breeder of a new plant variety certain rights in the member States, in particular to ensure that he receives a fair remuneration for his work. The effect of the rights of the breeder is that his prior authorization shall be necessary for the production of propagating material of his protected variety for the purpose of sale. Before protection is granted the

new variety is subject to examination for novelty (distinctness from other varieties), stability and homogeneity and must have received a denomination. In some cases (regarding certain species) the Convention provides for national treatment of breeders belonging to the member States. In other cases (regarding other species) protection is granted to breeders from other member States on the basis of reciprocity concerning the species in question. UPOV assists member States in the promotion of international co-operation concerning the examination of new plant varieties and the naming of such varieties.

ORGANIZATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT (OECD)

On 30 Sept. 1961 the Organization for European Economic Co-operation (OEEC), after a history of 14 years (*see* THE STATESMAN'S YEAR-BOOK, 1961, p. 32), was replaced by the Organization for Economic Co-operation and Development. The change of title marks the Organization's altered status and functions: with the accession of Canada and USA as full members it ceased to be a purely European body; while at the same time it added development aid to the list of its other activities. The member countries are now Australia, Austria, Belgium, Canada, Denmark, Finland, France, West Germany, Greece, Iceland,

Irish Republic, Italy, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, UK and USA. Yugoslavia participates in certain of the Organization's activities with a special status.

Chairman of the Council (ministerial): (Vacant).

Chairman of the Council (official level): The Secretary-General.

Chairman of the Executive Committee: Roger Ockrent (Belgium).

Secretary-General: Emile van Lennep (Netherlands).

Headquarters: Château de la Muette, 2, rue André Pascal, 75775 Paris Cedex 16.

The aims of the reconstituted Organization, as defined in the convention signed on 14 Dec. 1960, are as follows: (a) to achieve the highest sustainable economic growth and employment and a rising standard of living in member countries, while maintaining financial stability, and thus to contribute to the development of the world economy; (b) to contribute to sound economic expansion in member as well as non-member countries in the process of economic development; and (c) to contribute to the expansion of world trade on a multilateral, non-discriminatory basis in accordance with international obligations. Responsibility for the achievement of these aims has been vested in the numerous committees, notably Economic Policy Committee, the Development Aid Committee and the Trade Committee. The second of these is made up of representatives of all the 17 principal capital-exporting member countries, together with the Commission of the European Communities. Other committees and working parties deal with economic and development review; the environment; technical co-operation, balance of payments problems; monetary and foreign exchange matters; payments; invisible transactions; insurance; fiscal matters; agriculture; fisheries; education; science policy; manpower and social affairs; energy, industry, gas, tourism, maritime transport, etc.

The European Nuclear Energy Agency (ENEA) founded in 1957 became the OECD Nuclear Energy (NEA) in 1972.

An OECD Development Centre began work in 1963. In 1968 a Centre for Educational Research and Innovation was set up.

NORTH ATLANTIC TREATY ORGANIZATION (NATO)

On 28 April 1948 the Canadian Secretary of State for External Affairs broached the idea of a 'security league' of the free nations, in extension of the Brussels Treaty of 17 March 1948. The United States Senate, on 11 June, recommended 'the association of the United States with such regional and other collective arrangements as are based on continuous self-help and mutual aid, and as affect its national security'. Detailed proposals were subsequently worked out between the Brussels Treaty powers, the USA and Canada.

On 4 April 1949 the foreign ministers of Belgium, Canada, Denmark, France, Iceland, Italy, Luxembourg, the Netherlands, Norway, Portugal, the UK and the USA met in Washington and signed a treaty, the main clauses of which read as follows:

ARTICLE 1. The parties undertake, as set forth in the Charter of the United Nations, to settle any international disputes in which they may be involved by peaceful means in such a manner that international peace and security and justice are not endangered, and to refrain in their international relations from the threat or use of force in any manner inconsistent with the purposes of the United Nations.

ARTICLE 2. The parties will contribute toward the further development of peaceful and friendly international relations by strengthening their free institutions, by bringing about a better understanding of the principles upon which these institutions are founded, and by promoting conditions of stability and well-being. They will seek to eliminate conflict in their international economic policies and will encourage economic collaboration between any or all of them.

ARTICLE 3. In order more effectively to achieve the objectives of this treaty, the parties, separately and jointly, by means of continuous and effective self-help and mutual aid, will maintain and develop their individual and collective capacity to resist armed attack.

ARTICLE 4. The parties will consult together whenever, in the opinion of any of them, the territorial integrity, political independence, or security of any of the parties is threatened.

ARTICLE 5. The parties agree that an armed attack against one or more of them in Europe or North America shall be considered an attack against them all and consequently they agree that, if such an armed attack occurs, each of them, in exercise of the right of individual or collective self-defence recognized by article 51 of the Charter of the United Nations, will assist the party or parties so attacked by taking forthwith, individually and in concert with the other parties, such action as it deems necessary, including the use of armed force, to restore and maintain the security of the North Atlantic area. Any such armed attack and all measures taken as a result thereof shall immediately be reported to the Security Council. Such measures shall be terminated when the Security Council has taken the measures necessary to restore and maintain international peace and security.

ARTICLE 6. For the purpose of Article 5 an armed attack on one or more of the parties is deemed to include an armed attack (i) on the territory of any of the parties in Europe or North America, on the Algerian Departments of France,* on the territory of Turkey or on the islands under the jurisdiction of any of the parties in the North Atlantic area north of the Tropic of Cancer; (ii) on the forces, vessels or aircraft of any of the parties, when in or over these territories or any other area in Europe in which occupation forces of any of the parties were stationed on the date when the treaty entered into force or the Mediterranean Sea or the North Atlantic area north of the Tropic of Cancer.†

ARTICLE 8. Each party declares that none of the international engagements now in force between it and any other of the parties or any third state is in conflict with the provisions of this treaty, and undertakes not to enter into any international engagement in conflict with this treaty.

ARTICLE 10. The parties may, by unanimous agreement, invite any other European state in a position to further the principles of this treaty and to contribute to the security of the North Atlantic area to accede to this treaty. Any state so invited may become a party to the treaty by depositing its instrument of accession with the government of the United States of America. The government of the United States of America will inform each of the parties of the deposit of each such instrument of accession.

ARTICLE 12. After the treaty has been in force for 10 years, or at any time thereafter, the parties shall, if any of them so requests, consult together for the purpose of reviewing the treaty, having regard for the factors then affecting peace and security in the North Atlantic area, including the development of universal as well as regional arrangements under the Charter of the United Nations for the maintenance of international peace and security.

ARTICLE 13. After the treaty has been in force for 20 years, any party may cease to be a party one year after its notice of denunciation has been given to the government of the United States of America, which will inform the governments of the other parties of the deposit of each notice of denunciation.

The treaty came into force on 24 Aug. 1949. Greece and Turkey were admitted as parties to the treaty in 1951 (effective Feb. 1952), the Federal Republic of Germany in Oct. 1954 (effective 5 May 1955).

As reorganized by the Council at its session in Lisbon in Feb. 1952, the structure of NATO is as follows:

The *Council*, the principal body of the organization, 'charged with the responsibility of considering all matters concerning the implementation of the provisions of the Treaty', incorporates the Council and the Defence Committee originally envisaged. The Council is a Council of Governments, on which NATO nations are normally represented by their Minister for Foreign Affairs and/or the Minister of Defence, or by other competent Ministers, especially those responsible for financial and economic affairs. The Council normally meets at ministerial level two or three times a year.

Each member government appoints a *Permanent Representative* to represent it on the Council when its ministerial representatives are not present. Each Permanent Representative also heads a national delegation of advisers and experts. The Permanent Representatives meet once or twice a week and can be called together at short notice at any time.

In carrying out its role, the Council is assisted by a number of committees, some of a permanent nature, some temporary. Like the Council, the membership

* The relevant clauses of the treaty have become inapplicable to the Republic of Algeria as from 3 July 1962.

† This Article was modified as a result of the accession of Greece and Turkey to the treaty.

of each committee is made up of national representatives. They study questions submitted to them by the Council for recommendation. The work of the Committee has a direct bearing on the activities of the International Secretariat.

The Political Committee, charged with preparing the political agenda for the Council, dates from 1957 as does the Economic Committee, which studies and reports to the Council on economic issues of special interest to the Alliance. In 1963 a Defence Planning Committee was established as the civilian co-ordinating body for the defence plans of member countries. Since France's withdrawal from NATO military organizations, this Committee is composed of the Permanent Representatives of the 14 countries which take part in NATO's integrated common defence. Like the Council, it also meets at ministerial level. And at the Ministerial meeting in Dec. 1966 two bodies for nuclear planning were established: the Nuclear Defence Affairs Committee and a Nuclear Planning Group of 7-8 members.

Among other important Committees are: the Science Committee and the Infrastructure Committee, whose varied tasks are directly linked to fundamental and applied research; the Senior Civil Emergency Planning Committee; the Committee for European Airspace Co-ordination; the Committee for Pipelines; the Committee for Information and Cultural Relations; and the Civil and Military Budget Committees, who carefully supervise the expenditures of NATO funds for the maintenance of the International Secretariat and military headquarters. In Nov. 1969 the Council established a Committee on the Challenges of Modern Society to consider problems of the human environment. This new Committee examines methods of improving the exchange of views and experience among the Allied countries in the task of creating a better environment for their societies.

More recently, the old Armaments Committee has been replaced by the Conference of National Armaments Directors.

Headquarters: 1110 Brussels, Belgium.

Secretary-General: Joseph Luns (Netherlands), appointed Oct. 1971.

The Secretary-General takes the chair at all Council meetings, except at the opening and closing of Ministerial sessions, when he gives way to the Council President. The office of President is held annually by the Foreign Minister of one of the Treaty countries.

The *Military Committee* is composed of the Chiefs of Staff or their representatives of all the member countries except France, which in 1966 withdrew from the Military Committee while remaining a member of the Council. (Iceland, having no military establishment, may be represented by a civilian.) It meets at Chiefs of Staff level two or three times a year as required, but remains in permanent session at the level of military representatives and is assisted by an integrated *international military staff*. It provides general policy guidance of a military nature to the Council.

In Dec. 1950 the Council approved the establishment of an integrated force for the defence of Western Europe under a Supreme Headquarters Allied Powers, Europe (SHAPE). General Eisenhower was the first Supreme Allied Commander Europe (SACEUR); he was succeeded by Generals Ridgway (1 June 1952), Alfred M. Gruenther (11 July 1953), Lauris Norstad (20 Nov. 1956), Lyman L. Lemnitzer (1 Jan. 1963) and Andrew J. Goodpaster (1 July 1969); Deputies: Field-Marshal Lord Montgomery, 1950-58; Gen. Sir Richard Gale, 1958-60; Gen. Sir Hugh Stockwell, GCB, KBE, DSO, 1960-63; Marshal of the Royal Air Force Sir Thomas Pike, GCB, CBE, DFC, 1964-67; Gen. Sir Robert Bray, KCB, CBE, DSO, 1967-70; Gen. Sir Desmond Fitzpatrick, DSO, MBE, MC, 1970-.

The *European Command* covers the land area from the North Cape to the Mediterranean and from the Atlantic to the eastern border of Turkey, excluding the UK and Portugal, the defence of which does not fall under any one major NATO Command.

The *Atlantic Command* extends from the North Pole to the Tropic of Cancer and from the coastal waters of North America to those of Europe and Africa, but excludes the Channel and the British Isles. The Supreme Allied Commander Atlantic (SACLANT), Adm. Ralph W. Cousins (USA), is an operational rather than an administrative commander, and, unlike SACEUR, has no forces permanently attached to his command in peace-time.

The *Channel Command* covers the English Channel and the southern North Sea. The Allied C.-in-C. Channel is Admiral Sir Terence Lewin (UK).

The *Canada-US Regional Planning Group*, which covers the North American area, develops and recommends to the Military Committee plans for the defence of this area. It meets alternately in Washington and Ottawa.

WESTERN EUROPEAN UNION

On 17 March 1948 a 50-year treaty 'for collaboration in economic, social and cultural matters and for collective self-defence' was signed in Brussels by the Foreign Ministers of the UK, France, the Netherlands, Belgium and Luxembourg. (See THE STATESMAN'S YEAR-BOOK, 1954, pp. 32 f.)

On 20 Dec. 1950 the functions of the Western Union defence organization were transferred to the North Atlantic Treaty command and the Western Union command ceased to exist.

After the rejection by France of the European Defence Community on 30 Aug. 1954 a conference was held in London from 28 Sept. to 3 Oct. 1954, attended by Belgium, Canada, France, West Germany, Italy, the Netherlands, Luxembourg, the UK and the USA, at which it was decided to invite the Federal Republic of Germany and Italy to accede to the Brussels Treaty, to end the occupation of Western Germany and to invite the latter to accede to the North Atlantic Treaty; the Federal Republic agreed that it would voluntarily limit its arms production, and provision was made for the setting up of an agency to control the armaments of the 7 Brussels Treaty powers; the UK undertook not to withdraw from the Continent her 4 divisions and the Tactical Air Force assigned to the Supreme Allied Commander against the wishes of a majority, i.e., 4, of the Brussels Treaty powers, except in the event of an acute overseas emergency.

At a Conference of Ministers held in Paris from 20 to 23 Oct. 1954 these decisions were put into effect. The Union was formally inaugurated on 6 May 1955.

The *Council of WEU* consists of the Foreign Ministers of the 7 powers or their representatives. An *Assembly*, composed of the WEU delegates to the Consultative Assembly of the Council of Europe, meets twice a year, usually in Paris. An *Agency for the Control of Armaments* and a *Standing Armaments Committee* have been set up in Paris. The social and cultural activities were transferred to the Council of Europe on 1 June 1960.

After the breakdown of the negotiations for Britain's entry into the Common Market in 1963 (see p. 42) the 6 EEC countries proposed to the UK that the WEU Council (the Six and the UK) should meet every 3 months 'to take stock of the political and economic situation in Europe'. The UK welcomed this proposal, and regular meetings took place. While political consultation continues, discussion of the economic situation has been suspended since June 1970 when negotiations for the enlargement of the EEC began.

COUNCIL OF EUROPE

In 1948 the 'Congress of Europe', bringing together at The Hague nearly 1,000 influential Europeans from 26 countries, called for the creation of a united Europe, including a European Assembly. This proposal, examined first by the Ministerial Council of the Brussels Treaty Organization, then by a conference of ambassadors, was at the origin of the Council of Europe. The Statute of the Council was signed at London on 5 May 1949 and came into force 2 months later. The founder members were Belgium, Denmark, France, the Irish Republic, Italy, Luxembourg, the Netherlands, Norway, Sweden and the United Kingdom. Turkey and Greece joined in 1949, Iceland in 1950, the Federal Republic of Germany in 1951 (having been an associate since 1950), Austria in 1956, Cyprus in 1961, Switzerland in 1963, Malta in 1965.

Membership is limited to European States which 'accept the principles of the rule of law and of the enjoyment by all persons within [their] jurisdiction of human rights and fundamental freedoms'. The Statute provides for both withdrawal (Art. 7) and suspension (Arts. 8 and 9). Greece withdrew from the Council in Dec. 1969.

Structure. Under the Statute two organs were set up: an inter-governmental *Committee of (Foreign) Ministers* with powers of decision and of recommendation to governments, and an inter-parliamentary deliberative body, the *Consultative Assembly*—both of which are served by the Secretariat. In addition, a large number of committees of experts have been established, two of them, the Council for Cultural Co-operation and the Committee on Legal Co-operation, having a measure of autonomy; on municipal matters the Committee of Ministers receives recommendations from the European Local Authorities Conference.

The Committee of Ministers meet usually twice a year, their deputies 10 times a year.

The Consultative Assembly normally consists of 140 persons elected or appointed by their national parliaments (Austria 6, Belgium 7, Cyprus 3, Denmark 5, France 18, West Germany 18, Iceland 3, Irish Republic 4, Italy 18, Luxembourg 3, Malta 3, Netherlands 7, Norway 5, Sweden 6, Switzerland 6, Turkey 10, UK 18); it meets 3 times a year for approximately a week. For domestic reasons Cyprus is not at present represented in the Assembly. The work of the Assembly is prepared by parliamentary committees.

The *Joint Committee*, consisting of the Committee of Ministers and representatives of the Assembly, harmonizes relations between the two organs.

The European Convention on Human Rights, signed in 1950, set up special machinery to guarantee internationally fundamental rights and freedoms. A *European Commission* investigates alleged violations of the Convention submitted to it either by States or, in some cases, by individuals. Its findings can then be examined by the *European Court of Human Rights* (set up in 1959), whose obligatory jurisdiction has been recognized by 12 States, or by the Committee of Ministers, empowered to take binding decisions by two-thirds majority vote.

For questions of national refugees and over-population, a Special Representative has been appointed, responsible to the governments collectively.

Aims and Achievements. Art. 1 of the Statute states that the Council's aim is 'to achieve a greater unity between its members for the purpose of safeguarding and realising the ideals and principles which are their common heritage and facilitating their economic and social progress'; 'this aim shall be pursued . . . by discussion of questions of common concern and by agreements and common action'. The only limitation is provided by Art. 1 (d), which excludes 'matters relating to national defence'.

It has been the task of the Assembly to propose action to bring European countries closer together, to keep under constant review the progress made and to voice the views of European public opinion on the main political and economic questions of the day. The Ministers' role is to translate the Assembly's recommendations into action, particularly as regards lowering the barriers between the

European countries, harmonizing their legislation or introducing where possible common European laws, abolishing discrimination on grounds of nationality and undertaking certain tasks on a joint European basis.

The Committee of Ministers periodically reviews the programme of activities of the Council of Europe. It comprises projects for co-operation between member governments in economic, legal, social, public health, environmental, and educational and scientific matters.

About 80 conventions have been concluded, covering such matters as social security, patents, extradition, medical treatment, training of nurses, equivalence of degrees and diplomas, innkeepers' liability, compulsory motor insurance, the protection of television broadcasts, adoption of children, transportation of animals and *au pair* placement. A *Social Charter* sets out the social and economic rights which all member governments agree to guarantee to their citizens.

The official languages are English and French.

Chairman of the Committee of Ministers: (held in rotation).

President of the Consultative Assembly: Giuseppe Vedovato (Italy).

President of the European Court of Human Rights: Sir Humphrey Waldock (UK).

EUROPEAN COMMUNITIES

Six countries of western Europe—Belgium, France, Federal Germany, Italy, Luxembourg and the Netherlands—have established 3 communities with the aims of gradually integrating their economies and of moving towards political unity: the European Coal and Steel Community (ECSC), the European Economic Community (EEC) and the European Atomic Energy Community (EAEC or Euratom).

Up to 1 July 1967 the 3 communities, though legally separate under their constituent treaties, had some institutions in common. On that date they merged their 3 executives in one Commission of the European Communities and also their 3 councils. This was the first step towards the complete merger of the 3 communities under a new single treaty.

On 30 June 1970 membership negotiations began between the Six and UK, Denmark, Irish Republic and Norway. On 22 Jan. 1972 those 4 countries signed the Treaty of Accession to the Community. In Nov. 1972 a Norwegian referendum rejected entry, but on 1 Jan. 1973 UK, Irish Republic and Denmark became full members.

The COMMISSION consists of 13 members appointed by the member states to serve for 4 years, the President and 5 Vice-Presidents serve for 2 years. The Commission acts independently in the interests of the Community as a whole. Its task is the implementation of the Treaties, and in this it has the right of both initiative and execution: it proposes to the Council of Ministers the methods by which the aims of the Treaties can be achieved, and is then responsible for carrying them through.

President: François-Xavier Ortoli.

Address: 200, rue de la Loi, Brussels, 1040.

The COUNCIL OF MINISTERS consists of Ministers from the 9 national governments and represents the national as opposed to the Community interests. It is the body which has the power of decision in the Community. Under the Treaties many of its decisions are taken to be by qualified majority vote; since the 'Luxembourg Compromise' of 1966 majority voting has been used for minor matters only.

Address: 2 rue Ravenstein, Brussels, 1.

The EUROPEAN PARLIAMENT consists of 198 members delegated by the 9 national Parliaments. The EEC Treaty provides for the direct election of its members, and arrangements for this are now under discussion between the Council and the Parliament. It has to be consulted over the annual budgets of the 3 Communities and a wide range of other matters. It can dismiss the Commission on a motion of censure approved by a two-thirds majority. As part of the decision in 1970 to provide the Community with its own independent financial resources, the Parliament has been given more control over the administrative budget consisting of non-mandatory expenditure, *i.e.*, expenditure not arising directly from the Treaty or from regulations made under it. The budgetary power of the Parliament was reviewed in 1973 and is to be enlarged.

President: Cornelius Berkhouwer.

Address: Centre Européen du Kirchberg, Luxembourg.

The COURT OF JUSTICE is composed of 9 judge and 3 advocates-general, is responsible for the adjudication of disputes arising out of the application of the treaties, and its findings are enforceable in all member countries.

President: Robert Lecourt.

The ECONOMIC AND SOCIAL COMMITTEE has an advisory role and consists of 144 representatives, employers, trade unions, consumers, etc. The CONSULTATIVE COMMITTEE, of 84 members, performs a similar role for the ECSC.

EUROPEAN ECONOMIC COMMUNITY (E.E.C. or COMMON MARKET)

The EEC came into being on 1 Jan. 1958, based on the treaty signed in Rome on 25 March 1957, by Belgium, France, Germany, Luxembourg, Italy and the Netherlands. UK, the Irish Republic and Denmark became members on 1 Jan. 1973.

The Customs Union. The Treaty required the achievement of a complete customs union between the 6 countries over a transitional period of 12 to 15 years. This was achieved 18 months ahead of the 12-year schedule when, on 1 July 1968, customs duties on trade between the Six were removed. The customs tariffs of the 3 new member countries will be phased out by stages, ending on 1 July 1977. The first reduction of 20% took place on 1 April 1973. The last alignment on the common external tariff was also made at the same time; it is based upon the average of the national tariffs, less a reduction of 20% on some items negotiated in the Dillon Round tariff-cut talks in GATT and the first two-fifths of the tariff cuts agreed under the Kennedy Round. New GATT negotiations began in Sept. 1973 in Tōkyō, at which the EEC is negotiating, as with the Kennedy Round, through a single spokesman.

The Economic Union. Work is progressing on common transport and external trade policies and the co-ordination of financial, commercial, economic and social policies. The Treaty forbids agreements or practices which restrict, prevent or distort free competition, and firms now have to submit such agreements to the

Commission, except in cases where Community regulations have exempted certain types of agreement.

At the Paris 'summit' of Oct. 1972 the Nine affirmed the aim of economic and monetary union by the end of 1980 and to increase their collaboration in the fields of scientific research and advanced technology. The summit also declared the resolve to set up, by 3 July 1973, an action programme which will be the basis of a community environment policy.

The Common Agricultural Policy (CAP). The basic features of a common policy in agriculture were first adopted in Jan. 1962. The aims are greater efficiency in production, stable market conditions, a fair return for farmers and reasonable prices for consumers. The two essential principles are common price levels and the replacement of national systems of protection by a Community system whose most characteristic feature is a system of variable levies on imports of certain farm products. The common marketing arrangements for all major items were operative by July 1968. Management committees of national experts advise the Commission on the various products. A European Guidance and Guarantee Fund has also been established to finance the common policy. Various measures have been introduced at a Community level to help the modernization of farms and to assist older farmers who wish to give up farming their land. The 3 new member countries will gradually be integrated into the CAP during a 5-year period ending on 1 July 1977.

Community Resources. Originally the EEC budget was financed entirely from direct contributions by member states. An independent revenue system for the Community is now being phased which will ultimately comprise 90% of all food-import levies, 90% of import duties and the product of up to 1 percentage point of the value-added taxes imposed by the member states.

External Relations. In 1961, UK, the Irish Republic, Norway and Denmark opened negotiations for membership but these were broken off at the insistence of France in 1963. A fresh attempt in 1967 failed for the same reason.

After the retirement of President de Gaulle, and particularly after The Hague 'summit' meeting of the Six, it became clear that renewed efforts might succeed and on 30 June 1970 successful negotiations began. The basis of the agreement was that the principles of the 1957 treaty remain intact and the great majority of the regulations made in it will continue to apply to the new Community of Nine.

Greece and Turkey are associated with the Community, with a view to eventual full membership when their economies have become strong enough to allow them to compete on the Community market. Since the Greek *coup d'état* in April 1967 the Association Agreement has been 'frozen' and no further steps towards a customs union taken. An Association Agreement with Malta was signed in Dec. 1970 and with Cyprus in Dec. 1972.

Association of 18 African ex-colonies, now fully sovereign and independent, was renewed for a further 5 years by a convention signed at Yaoundé in 1963. This gives the 18 free entry to the EEC market and provides access to a special European Development Fund—additional to national aid—to which the Six allotted nearly \$1,400m. for the years 1958–69. The Convention, renewed in 1969, for the years 1970–75, provided for another \$1,000m. in aid grants and loans. Developing Commonwealth countries have been offered special trade agreements or association agreements similar to those between the present Community and its associated countries in Africa. Trade agreements with Israel, Lebanon, Egypt, Spain and Yugoslavia are in operation, and negotiations are in progress with Jordan. Regular contacts have been maintained between the community and Latin-American countries with a view to future agreements. In the Paris 'Summit' of Oct. 1972 the enlarged community reaffirmed its determination to follow a common commercial policy towards Eastern Europe with effect from 1 Jan. 1973.

As a first step towards the creation of a political union, the Six agreed, in 1970, to hold twice-yearly consultations on foreign policy; the first meetings of foreign ministers was held in Nov. 1970.

EUROPEAN COAL AND STEEL COMMUNITY. The ECSC came into being on 10 Aug. 1952 following the ratification of a treaty signed in Paris on 18 April 1951. The original suggestion for it was made in the Schuman Plan on 9 May 1950, which proposed the pooling of Franco-German coal and steel production in a Community open to other western European countries as a first step towards a United States of Europe. (See map in *THE STATESMAN'S YEAR-BOOK*, 1958.) UK, the Irish Republic and Denmark joined the ECSC on 1 Jan. 1973.

Until 1 July 1967 the *High Authority* was the executive body of the ECSC and consisted of 8 members appointed by the 6 governments plus one co-opted member. After the merger of the Executives its power passed to the single European Commission which is now responsible for the execution of the ECSC Treaty.

The Common Market for Coal and Steel. A common market for coal, iron ore and scrap was established on 10 Feb. 1953, for steel on 1 May 1953 and for special steels on 1 Aug. 1954. A harmonized external tariff on steel is now at around 9%. Rules for fair competition have been established; currency restrictions, the dual-pricing system (under which prices for export and home-consumed coal and steel varied) and discriminatory transport rates based upon nationality have been abolished within the Community.

To meet the changing circumstances in the two industries, and especially to ensure that the contraction of the coal industry occurs without social or economic dislocation, the High Authority had by April 1970 granted readaption aid to 408,100 workers, most of them coalminers, at a cost of \$155m., matched by an equivalent amount from the governments; it had also spent \$112m. on research.

A Common Energy Policy. Of the various forms of energy, coal falls within the competence of the ECSC, nuclear energy within that of Euratom, and all others with that of the EEC. The first effective steps towards a common energy policy for the Community was taken when a Protocol of Agreement on Energy was signed by the 3 Communities in April 1964. In Dec. 1968 the single commission published guidelines for a common energy policy. At the Paris Summit of Oct. 1972 the need was recognized for the EEC to prepare as soon as possible an energy policy guaranteeing a sure and lasting supply on satisfactory economic terms.

EUROPEAN ATOMIC ENERGY COMMUNITY (EURATOM).

Euratom came into being on 1 Jan. 1958 following the ratification of a treaty signed in Rome on 25 March 1957. Its task is to promote a common effort between its 6 members in the development of nuclear energy for peaceful purposes. It is in no way concerned with the military uses of nuclear energy; indeed, the member governments are forbidden under the Treaty to use nuclear materials obtained from or through the Community in national military programmes.

The execution of the treaty now rests with the *European Commission*, which is advised by a *Scientific and Technical Committee* (27 members) and the *Economic and Social Committee* (144 members). Major decisions are taken by the *Council of Ministers*, which is common also to the EEC.

Euratom supplements and co-ordinates research undertaken by the member states, pools scientific information and promotes the training of scientists and technicians. It promotes research (a) through its own research centres at Ispra, Italy (concentrating on the Orgel heavy-water reactor), at Geel, Belgium (the Central Nuclear Measurements Bureau), at Karlsruhe, Germany (the European Transuranium Institute) and at Petten, Netherlands (a general-purpose research establishment); (b) by contracting specific tasks to national centres or firms, and by 'association contracts' under which it contributes finance and personnel to joint teams; (c) by joining international projects such as the European Nuclear Energy Agency project at Winfrith Heath, England (the Dragon reactor).

Euratom has its own large Information and Documentation Centre, has set up a radioisotope information bureau and has worked out a Community policy on ownership of patents resulting from nuclear research. It has laid down basic standards for health protection throughout the Community, and worked out an insurance convention for large-scale atomic risks.

A common market for all nuclear materials and equipment came into force, and external tariffs were suspended, on 1 Jan. 1959. Since 1966 Euratom has been growing steadily less effective and has been disturbed by internal dissensions. A 4-year programme costing 160m. units of account (US\$ at pre-1971 parity) has recently been agreed upon for Euratom's Joint Research Centre, and it was hoped that this might mark a turning point.

International Links. An agreement was signed with the US Atomic Energy Commission in Nov. 1958 and widened in 1964. UK, the Irish Republic and Denmark joined Euratom on 1 Jan. 1973.

EUROPEAN FREE TRADE ASSOCIATION

On 31 Dec. 1972 the UK and Denmark formally left EFTA to join the EEC, leaving EFTA with 6 member countries: Austria, Iceland, Norway, Portugal, Sweden and Switzerland. A seventh country, Finland, is an associate member. The Stockholm Convention establishing the Association entered into force on 3 May 1960 and Finland became associated on 27 March 1961. Iceland joined EFTA on 1 March 1970 and was immediately granted duty-free entry for industrial goods exported to EFTA countries, while being given 10 years to abolish her own existing protective duties.

When the Association was created it had three objectives: to achieve free trade in industrial products between member countries, to assist in the creation of a single market embracing the countries of Western Europe, and to contribute to the expansion of world trade in general.

The first objective was achieved on 31 Dec. 1966, when virtually all inter-EFTA tariffs were removed. This was 3 years earlier than originally planned. Finland removed her remaining EFTA tariffs a year later on 31 Dec. 1967. The achievement of free trade made EFTA the world's first completed free-trade area, and intra-EFTA trade more than doubled in the period 1959-68.

The fulfilment of the second aim was secured on 22 Jan. 1972 when the UK and Denmark signed the Treaty of Accession to the EEC whereby they became members of the enlarged Community from the 1 Jan. 1973. On 22 July 1972, 5 other EFTA countries, Austria, Iceland, Portugal, Sweden and Switzerland signed Free Trade Agreements with the EEC. A similar agreement negotiated with Finland was signed on 5 Oct. 1973. Norway, whose intention of joining the EEC was reversed following a referendum, signed a similar agreement on 14 May 1973. Through these agreements virtually complete free trade in industrial goods will be achieved in 16 Western European countries from mid-1977.

The third objective was to contribute to the expansion of world trade. EFTA has succeeded in this in two ways: between 1960 and 1971, EFTA total purchases from the rest of the world rose from \$24,147m. to \$55,833m. (131%). EFTA sales to the rest of the world rose by 148%.

EFTA tariff treatment applies to those industrial products which are of EFTA origin, and these are traded freely between member countries. Each EFTA country remains free, however, to impose its own rates of duty on products entering from outside the EFTA area.

Generally, agricultural products do not come under the provisions for free trade, but bilateral agreements have been negotiated to increase trade in these products.

The operation of the Convention is the responsibility of a Council assisted by a small secretariat. Each EFTA country holds the chairmanship of the Council for 6 months.

Secretary-General: Bengt Rabaeus.

COUNCIL FOR MUTUAL ECONOMIC ASSISTANCE¹

Membership. Founder members were USSR, Bulgaria, Czechoslovakia, Hungary, Poland and Romania. Later admissions were Albania (1949; ceased participation 1961), Cuba (1972), East Germany (1950), Mongolia (1962). Since 1964 Yugoslavia has enjoyed associate status with limited participation. Observers are China, North Korea, North Vietnam.

The Charter. The charter consists of a preamble and 17 articles. Extracts (in the language of the official English version) are as follows:

ARTICLE 1. Aims and Principles: 1 'The purpose of the Council is to facilitate, by uniting and co-ordinating the efforts of its member countries, the planned development of the national economy, acceleration of economic and technical progress in these countries, a rise in the level of industrialization in countries with less developed industries, uninterrupted growth of labour productivity and a steady advance of the welfare of the peoples. 2 The Council is based on the principles of the sovereign equality of all member countries.'

ARTICLE 2. Membership 'open to other countries which subscribe to the purposes and principles of the Council'.

ARTICLE 3. Functions and Powers to (a) 'organize all-round . . . co-operation of member countries in the most rational use of natural resources and acceleration of the development of their pro-

[and] trade'.

ARTICLE 4. *Recommendations and Decisions* ' . . . shall be adopted only with the consent of the interested member countries.'

The Structure. The supreme authority is the 'Session' of all members held (usually annually) in members' capitals in rotation under the chairmanship of the head of the delegation of the host country; all members must be present, and decisions must be unanimous.

The *Executive Committee* is made up of one representative from each member state of deputy premier rank. It meets at least once every 3 months and has a 'Bureau for Common Questions of Economic Planning' in which each member country is represented by a deputy chairman of its national planning body.

The administrative organ is the *Secretariat*.

Headquarters: Prospekt Kalinina, 56, Moscow, G-205.

Secretary: N. V. Faddeev.

There is a *Committee for Co-operation in the Field of Planning* and a *Committee for Scientific and Technical Co-operation* set up in 1971. There are *Permanent Commissions* on: Statistics, Foreign Trade, Currency and Finance, Electricity, Peaceful Uses of Atomic Energy, Geology, Coal Industry, Oil and Gas Industry, Chemical Industry, Iron and Steel Industry, Non-Ferrous Metals Industry, Engineering Industry, Radio Engineering and Electronics Industries, Light Industry, Food Industry, Agriculture, Construction, Transport, Posts and Telecommunications, Standardization.

There is an *Institute of Standardization* and five *Standing Conferences*: of Water Conservation Authorities, and of Freight and Shipping Organizations. The latter has a *Chartering Co-ordination Bureau*.

The **International Institute of Economic Problems of World Socialist System** was established following the decision of the twenty-fourth Session of the Council in 1970 with a view to comprehensively elaborating theoretic, methodological and applied economic problems of the development of the world socialist system, fostering economic co-operation between socialist countries and socialist economic integration.

The **International Bank for Economic Co-operation** was founded in 1963 with a capital of 300m. roubles and started operating on 1 Jan. 1964. It undertakes multilateral settlements in 'transferable roubles' (i.e., used for intra-COMECON clearing accounts only) and advances credits to finance trading and other operations. The transferable *rouble* is a unit of account: gold content 0.987412 gramme.

The **International Investments Bank** was founded in 1970 and went into operation on 1 Jan. 1971 with a capital of 1,000m. roubles (70% transferable and 30% convertible or in gold). In 1971 it financed 16 engineering, transport and chemical project.

The **Organization for Co-operation in Heavy Metallurgy** was founded in Nov. 1964. **Organization for Co-operation in Light Chemicals Production** was founded in July 1970. **Central Dispatching Board for Unified Power Systems** was founded in July 1962. **Railway-Wagon Pool** founded in 1964 and in early 1973 the pool consisted of about 230,000 units. **Organization for Co-operation in the Roller Bearing Industry** was founded in Nov. 1964. **Intergovernmental Commission on Co-operation between Socialist Countries in Computer Technique** was founded in Dec. 1969. **International Centre for Scientific and Technical Information** was founded in Sept. 1969. **International Economic Association for Nuclear Instrument Making** was founded in March 1972.

COLOMBO PLAN

At meetings held during 1950 in Colombo, Sydney and London Commonwealth Ministers published on 28 Nov. 1950 the 'Colombo Plan for Co-operative Economic Development in South and South-East Asia'. The plan which came into force on 1 July 1951, was successively extended beyond the original date of 30 June 1957 and now continues until 1976.

The plan represents the co-operative effort of both developed and developing countries to further the economies and raise living standards in South and South-East Asia.

In 1972 the members were: Afghánistán, Australia, Bangladesh, Bhután, Burma, Canada, Fiji, India, Indonesia, Iran, Japan, Khmer Republic, Korea (South), Laos, Malaysia, Republic of Maldives, Nepál, New Zealand, Pakistan, Philippines, Singapore, Sri Lanka, Thailand, UK, USA and Vietnam (South).

The annual meetings of the Consultative Committee are also attended by observers from the Asian Development Bank, the International Labour Organization, International Bank for Reconstruction and Development, the Economic Commission for Asia and the Far East and the United Nations Development Programme, the Asian Productivity Organization and (from 1966) the Commonwealth Secretariat.

Technical Co-operation. The Colombo Plan has no permanent secretariat. A small Bureau, set up in Colombo in 1951, operates under the supervision of a Council for Technical Co-operation in South and South-East Asia, representing member governments. An information unit has been attached to the Bureau since 1953. The Council publishes its own annual report.

During 1971, 1,179 experts were assigned to countries of the region, and 8,294 training places were provided. Most training is given outside the region, but the Bureau has increasingly urged members to make more use of training facilities available within the region, by adequate arrangements for the exchange of students.

External Aid. The net flow of aid to countries of the region provided by Australia, Canada, Japan, UK and USA during 1971 was US\$2,626m. In addition, there is substantial private investment from countries outside the region. In 1971 UK aid amounted to £87.1m., bringing the total since 1950 to £792m. Of the total expenditure in 1971, £6.4m. was on technical assistance, bringing the total of such expenditure since 1950 to £39m. UK private investment (excluding oil and portfolio) in the area is estimated to have been about £32m. in 1971.

SOUTH-EAST ASIA COLLECTIVE DEFENCE TREATY

On 8 Sept. 1954 Australia, France, New Zealand, Pakistan, the Philippines, Thailand, the UK and the USA signed at Manila a pact, which established a collective defence system in South-East Asia.

The treaty (printed in *THE STATESMAN'S YEAR-BOOK*, 1964-65, p. 44) provides for the peaceful settlement of disputes, collective defence against aggression, the strengthening of free institutions by economic and technical co-operation, and action to meet common danger on invitation of the government concerned. Within the framework of the United Nations the treaty area is defined as the general area of South-East Asia including the entire territories of the Asian parties and the general area of the South-West Pacific not including the Pacific area north of 21° 30' N. lat. The duration of the treaty is indefinite, but any party may withdraw one year after it has given notice.

To the treaty text was added the following 'understanding' of the USA:

The United States of America in executing the present treaty does so with the understanding that its recognition of the effect of aggression and armed attack and its agreement with reference thereto . . . apply only to Communist aggression, but affirms that in the event of other aggression or armed attack it will consult under the provisions of article 4 (2).

[This paragraph states that 'If in the opinion of any of the parties the inviolability or the integrity of the territory or the sovereignty or political independence of any party in the treaty area or of any other state or territory [which the parties by unanimous agreement may designate] is threatened in any way other than by armed attack or is affected or threatened by any fact or situation which might endanger the peace of the area, the parties shall consult immediately . . .']

A protocol to the treaty states:

The parties to the South-East Asia collective defence treaty unanimously designate for the purposes of [defence against aggression] the States of Cambodia and Laos and the free territory under the jurisdiction of the State of Vietnam.

The parties further agree that the above-mentioned States and territory shall be eligible in respect of the economic measures contemplated.

A joint statement by Thailand and the USA, 6 March 1962, states that the treaty obligation of the USA does not depend upon the prior agreement of all other parties to the treaty; a majority of the members have accepted this view.

The 8 nations also issued a declaration of principles, the Pacific Charter (*see THE STATESMAN'S YEAR-BOOK*, 1964-65, p. 45).

Structure of Seato. The *Council*, consisting of the Foreign Ministers of the 8 member countries, sets the broad policy of the organization. It meets usually once a year in the several capitals.

Military Advisers are named by each nation, and the group meets usually twice a year. They are officers at chief-of-staff or theatre-commander level, responsible to the Council.

Council Representatives meet usually once a month in Bangkok. Composed of 7 ambassadors to Thailand and a special Thai representative, they carry on the overall political direction of SEATO affairs.

Military Advisers' Representatives are assigned to SEATO Headquarters by their respective governments to represent national views on matters affecting the work of the Military Planning Office.

The *Military Planning Office*, composed of officers assigned by the 8 member nations, has to prepare military plans in the light of changing or anticipated conditions. Military exercises are staged each year to give the defence forces of the member nations training in combined operations.

The *Permanent Working Group*, composed of senior staff members of the Council Representatives, carries out preparatory work on proposals and policy.

The *Secretary-General* is the spokesman for SEATO, and directs its civil activities, which include economic, cultural and research programmes.

Defence. In 1970 the Office of the Special Assistant was renamed Office for 'Counter-subversion and Counter-insurgency' (OCS) and reorganized to take account of the greater emphasis which SEATO now places on counter-subversion and counter-insurgency work.

Economic and Social Projects. The SEATO Graduate School of Engineering, established in Bangkok in 1959, became an independent institution in 1967

called 'The Asian Institute of Technology'. It offers advanced courses in hydraulic, structural, public health and highway engineering to qualified students of Asia. Enrolment (1967), 110 students.

Skilled labour schools have been established in Pakistan, the Philippines and Thailand to train workers for newly developing industries.

Medical research is carried on at the Medical Research Laboratory and the Clinical Research Centre in Bangkok.

The Cultural Relations programme provides undergraduate and postgraduate scholarships, research fellowships and exchange professorships.

A Regional Community Development Centre and a Tribal Research Centre have been established in northern Thailand. A meteorological telecommunications system has been installed between Bangkok and Manila.

Secretary-General: Sunthorn Hongladarom.

South-East Asia Collective Defence Treaty (Cmnd. 265). HMSO, 1957; reprinted 1961 Modelski, G. (ed.), Seato: six studies. Austral. National Univ., 1962

On 7 Aug. 1967 Indonesia, Thailand, the Philippines, Malaysia and Singapore formed the Association of South-East Asian Nations (ASEAN), to promote active collaboration and mutual assistance in matters of common interest in the economic, social, cultural, technical, scientific and administrative fields.

CENTRAL TREATY ORGANIZATION (CENTO)

A pact of mutual defence was signed in Baghdad by Turkey and Iraq on 24 Feb. 1955. It was joined by the UK (4 April), Pakistan (23 Sept.) and Iran (3 Nov.). The USA became a full member of the economic and counter-subversion committees in April 1956, of the military committee in March 1957 and of the scientific council in May 1961, and is represented at the council meetings by observers. Bilateral defence agreements between the USA and Turkey, Iran and Pakistan were signed in Ankara on 5 March 1959.

Iraq ceased to participate in the activities of the Pact countries after the revolution in July 1958 and formally withdrew on 24 March 1959.

Headquarters was transferred from Baghdad to Ankara in Oct. 1958. On 21 Aug. 1959 the name of the organization was changed from Baghdad Pact to Central Treaty Organization (CENTO).

Secretary-General: Nassir Assar (Iran).

The main clauses of the Pact may be summarized as follows:

1. Consistent with Art. 51 of the UN Charter, the contracting parties will co-operate for their security and defence. This co-operation may form the subject of special agreements.
3. The contracting parties undertake to refrain from any interference in each other's internal affairs. They will settle any dispute between themselves in a peaceful way in accordance with UN Charter.
4. The contracting parties declare that the dispositions of the Pact are not in contradiction with any of the international obligations contracted by either of them with any third state. They undertake not to enter into any international obligations incompatible with the Pact.
5. The pact is open for accession to any State concerned with the security and peace of this region, and which is recognized by Turkey and Iraq.
7. This Pact remains in force for a period of 5 years, renewable for other 5-year periods. Any party may withdraw by notifying the other parties 6 months before the expiration of any of the above-mentioned periods.

The economic development programmes include:

Road Links: Pakistan-Iran road link joining Karachi, Lasbella, Quetta, Zahedan and Kerman in progress. Pakistan-Iran road link joining Lasbella, Pishin and Chatibahar is under construction. Turkey-Iran road link joining Bağışli, Rezaieh and Tábriz-Tehrán main road at Zanjan is under construction. The rest of this road link joining Iskenderun-Bağışli-Serow-Rezaieh is under construction.

Rail Links: Turkey-Iran rail link (including a ferry across Lake Van) joining Muş, Tatvan, Khoy and Sharafkhaneh completed in Sept. 1971. Muş-Tatvan section completed 1964. Pakistan-Iran rail link joining Zarand to Zahedan and Quetta under survey.

See map in THE STATESMAN'S YEAR-BOOK, 1970-71.

Port Development: Development of the ports of Trabzon and Iskenderun; Trabzon project completed in 1963. Iskenderun project is virtually completed.

Airway: CENTO Airway; US and UK have contributed considerable amounts towards improved navigational and other aids for regional air traffic. Now completed.

Telecommunications: High-frequency radio telecommunication links between London and key regional stations, *i.e.*, Istanbul, Ankara, Tehrân and Karachi. First stage completed in 1964; in full operation 1968. Ankara-Tehrân-Karachi microwave links project involving 88 relay stations and 13 air navigation stations opened 1965, completed 1966. International Control Centre at Tehrân opened 1969.

In addition, research is being undertaken into health, science, agriculture and mineral development. Technical assistance is also undertaken and industrial development projects are under consideration.

ORGANIZATION OF AMERICAN STATES

On 14 April 1890 representatives of the American republics, meeting in Washington at the First International Conference of American States, established an 'International Union of American Republics' and, as its central office, a 'Commercial Bureau of American Republics', which later became the Pan American Union. This international organization's object was to foster mutual understanding and co-operation among the nations of the western hemisphere. Since that time, successive inter-American conferences have greatly broadened the scope of work of the organization.

This led to the adoption on 30 April 1948 by the Ninth International Conference of American States, at Bogotá, Colombia, of the Charter of the Organization of American States. This co-ordinated the work of all the former independent official entities in the inter-American system and defined their mutual relationships. The purpose of the OAS is to achieve an order of peace and justice, promote American solidarity, strengthen collaboration among the member states and defend their sovereignty, territorial integrity and independence. The OAS is a regional organization of the United Nations for the maintenance of peace and security.

Membership is on a basis of absolute equality. Each country has one vote in the Council of the Organization and its organs. The member countries are: Argentina, Barbados, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, Trinidad and Tobago, USA, Uruguay, Venezuela.

The OAS has been concerned increasingly in recent years with programmes to promote Latin American economic and social development. The OAS currently provides specialized training for about 3,000 Latin Americans each year in a wide variety of development-related fields. It also carries out some 377 projects each year in response to requests from member governments.

On 27 Feb. 1967 the Third Special Inter-American Conference in Buenos Aires approved the Protocol of Amendment to the Charter of the OAS, which contained new standards for inter-American co-operation and a number of structural changes in the Organization.

On 14 April 1967 the Declaration of the Presidents of America, signed in Punta del Este, Uruguay, expressed the commitment of the American chiefs of state to

promote Latin American economic integration; to join in efforts to increase substantially Latin American foreign-trade earnings; to modernize the living conditions of the rural population and raise agricultural productivity; and to expand programmes in education, science, technology and health.

On 24 Sept. 1967 the Twelfth Meeting of Consultation of Ministers of Foreign Affairs condemned the present government of Cuba 'for its repeated acts of aggression and intervention against Venezuela and for its persistent policy of intervention in the internal affairs of Bolivia and of other American states' and appealed to non-member states to co-operate in the trade embargo against Cuba.

On 22 Feb. 1968, in the Resolution of Maracay, the Inter-American Cultural Council launched new regional programmes for educational development and for scientific and technological development.

On 27 Feb. 1970, by ratification of more than the mandatory two-thirds of the OAS member states, the Protocol of Buenos Aires, modifying the 1948 Charter, entered into effect.

Under the amended Charter, the OAS accomplishes its purposes by means of:

(a) The *General Assembly*, which meets annually in various countries of the member states.

(b) The *Meeting of Consultation of Ministers of Foreign Affairs*, held to consider problems of an urgent nature and of common interest.

(c) Three councils of equal rank: the *Permanent Council*, which replaces the old OAS Council; the *Inter-American Economic and Social Council*; and the *Inter-American Council for Education, Science and Culture*. Functions are to direct and co-ordinate work in the areas of their competence and render the governments such specialized services as they may request. Each council is composed of 1 representative from each member state, appointed by his government.

(d) The *Inter-American Juridical Committee* acts as an advisory body to the OAS on juridical matters and promotes the development and codification of international law. Eleven jurists, elected every 4 years by the General Assembly, represent all the American States.

(e) The *Inter-American Commission on Human Rights* oversees the observance and protection of human rights. Six members represent all the OAS member states.

(f) The *General Secretariat*, formerly the Pan American Union, the central and permanent organ of the OAS.

(g) The *Specialized Conferences*, meeting to deal with special technical matters or to develop specific aspects of inter-American co-operation.

(h) The *Specialized Organizations*, intergovernmental organizations established by multilateral agreements to discharge specific functions in their respective fields of action, such as women's affairs, agriculture, child welfare, Indian affairs, geography and history, and health.

Secretary-General: Galo Plaza (Ecuador).

Assistant Secretary-General: M. Rafael Urquía (El Salvador).

The Secretary-General and the Assistant Secretary-General are elected by the Council of the Organization for 5-year terms. The General Assembly approves the annual budget for the Organization, which is financed by quotas contributed by the member governments.

General Secretariat: Washington, D.C. 20006, USA.

LATIN AMERICAN ECONOMIC GROUPINGS

The Economic Commission for Latin America, an organ of the United Nations, with headquarters in Santiago, Chile, has facilitated the co-operation of two groups of countries concerning production, tariffs and trade.

Latin American Free Trade Association was concluded in Montevideo on 18 Feb. 1961 by Argentina, Brazil, Chile, Mexico, Paraguay, Peru and Uruguay. Colombia (3 Oct. 1961), Ecuador (20 Oct. 1961) and Venezuela (1 Sept. 1966) have joined the ALALC/LAFTA Treaty. The permanent secretariat is at Montevideo.

Central American Common Market (ODECA). On 13 Dec. 1960, at Managua, El Salvador, Guatemala, Honduras and Nicaragua concluded a general treaty on Central American integration; a protocol on the equalization of import duties and charges; and an agreement establishing the Central American Bank for Economic Integration. Costa Rica acceded in 1962 and in Sept. 1963 ratified the charter of the Banco Centroamericano de Integración Económica (in Tegucigalpa), whose capital was thereupon increased to US\$20m.

The San Salvador Charter, signed on 14 Dec. 1962, expanded these provisions, envisaging permanent political, economic, educational, defence, etc., councils. The permanent secretariat is at Guatemala City.

Total intra-ODECA trade increased from US\$8.6m. in 1960 to US\$176m. in 1966. Total USA investments in the area are about \$400m.

The Andean Group (*Grupo Andino*). On 26 May 1969 an agreement was signed by Bolivia, Chile, Colombia, Ecuador and Peru creating the Andean Group. Venezuela was initially actively involved but did not sign the agreement. The Group signed a further agreement on 31 Dec. 1970 on common regulations controlling foreign investments.

THE ARAB LEAGUE

Origin. The formation of the League of Arab States in 1945 was largely inspired by the Arab awakening of the 19th century. This movement sought to re-create and reintegrate the Arab community which, though for 400 years a part of the Ottoman Empire, had preserved its identity as a separate national group held together by memories of a common past, a common religion and a common language, as well as by the consciousness of being part of a common cultural heritage. The leaders of the Arab movement in the 19th century and of the Arab revolt against Turkey in the First World War sought to achieve these aims through secession from the Ottoman Empire into a united and independent Arab state comprising all the Arab countries in Asia. However, the 1919 peace settlement divided the Arab world in Asia (with the exception of Saudi Arabia and the Yemen) into British and French spheres of influence and established in them a number of separate states and administrations (Syria, Lebanon, Iraq, Jordan and Palestine) under temporary mandatory control.

By 1943, however, all these countries, with the exception of Palestine, had substantially achieved their independence. An Arab conference therefore met in Alexandria in the autumn of 1944; it formulated the 'Alexandria Protocol', which delineated the outlines of the Arab League. It was found that neither a unitary state nor a federation could be achieved, but only a league of sovereign states. A covenant, establishing such a league, was signed in Cairo on 22 March 1945 by the representatives of Egypt, Iraq, Saudi Arabia, Syria, Lebanon, Jordan and Yemen. Membership, in 1974, also included Algeria, Bahrain, Kuwait, Libya, Morocco, Oman, Qatar, Southern Yemen, Sudan, Tunisia and the United Arab Emirates.

Organization. The machinery of the League consists of a Council, a number of Special Committees and a Permanent Secretariat. On the Council each state has one vote. The Council may meet in any of the Arab capitals. Its functions include mediation in any dispute between any of the League states or a League state and a country outside the League. The Council has a Political Committee consisting of the Foreign Ministers of the Arab states.

The Permanent Secretariat of the League, under a Secretary-General (with the status of ambassador), has its seat in Cairo.

The League considers itself a regional organization within the framework of the United Nations at which its secretary-general is an observer.

Secretary-General: Mahmoud Riad (Egypt).

Arab Common Market. The Arab Common Market came into operation on 1 Jan. 1965. The agreement, reached in April 1964 and open to all the Arab League states, has been signed by Iraq, Jordan, Syria and UAR. The agreement provides

for the abolition of customs duties on agricultural products and natural resources within 5 years, by reducing tariffs at an annual rate of 20%. Customs duties on industrial products are to be reduced by 10% annually. The agreement also provides for the free movement of capital and labour between member countries, the establishment of common external tariffs, the co-ordination of economical development and the framing of a common foreign economic policy.

ORGANIZATION OF AFRICAN UNITY

On 25 May 1963 the heads of state or government of 30 African countries, at a conference in Addis Ababa, signed a charter establishing an 'Organization of African Unity' (*Organisation de l'Unité Africaine*).

Its chief objects are the furtherance of African unity and solidarity; the co-ordination of the political, economic, cultural, health, scientific and defence policies; the elimination of colonialism in Africa; and the common defence of the independence of the member states.

The organs of the Organization are: (1) the conference of the heads of state or government; (2) the council of foreign ministers; (3) the secretariat-general; (4) a commission of mediation, conciliation and arbitration. In addition to the African languages, French and English are recognized as official languages.

Chairman: King Hassan of Morocco.

Headquarters: Addis Ababa.

DANUBE COMMISSION

The Danube Commission was constituted in 1949 based on the Convention relating to navigation control on the Danube, which was signed in Belgrade on 18 Aug. 1948. This replaced the Paris Convention of 1921, on which the European Danube Commission was based (1856-1948). The Belgrade Convention reaffirmed that navigation on the Danube from Ulm to the Black Sea, with access to the sea by the Sulina Canal, is equally free and unrestricted to the nationals, merchant shipping and merchandise of all states.

The Danube Commission is composed of representatives from the countries on the Danube (1 for each of these countries), namely, Austria, Bulgaria, Hungary, Romania, Czechoslovakia, USSR and Yugoslavia. Since 1957, representatives of the Ministry of Transport from West Germany have attended the sittings and meetings of the Commission as guests of the Secretariat. USA, UK and France have refused to sign the convention because it does not safeguard their former rights.

The responsibilities of the Danube Commission are to check that the intentions of the Convention are carried out, to establish a uniform buoying system on all the Danube's navigable waterways and to see to the fundamental arrangements relating to navigation on the river. The Commission co-ordinates the regulations for river, customs and sanitation control as well as the hydrometeorological service and collects statistical data concerning navigation on the Danube.

The Danube Commission enjoys judicial status. It has its own seal and flag. The members of the Commission and elected officers enjoy diplomatic immunity. The Commission's official buildings, archives and documents are inviolable. French and Russian are the official languages of the Commission.

Since 1954 the headquarters of the Commission have been in Budapest.

PART II

THE COMMONWEALTH

THE COMMONWEALTH

REIGNING QUEEN, HEAD OF THE COMMONWEALTH

Elizabeth II Alexandra Mary, born 21 April 1926 daughter of King George VI and Queen Elizabeth; married on 20 Nov. 1947 Lieut. Philip Mountbatten (formerly Prince Philip of Greece), created Duke of Edinburgh, Earl of Merioneth and Baron Greenwich on the same day and created Prince Philip, Duke of Edinburgh, 22 Feb. 1957; succeeded to the crown on the death of her father, on 6 Feb. 1952. Offspring: *Charles* Philip Arthur George, Prince of Wales, born 14 Nov. 1952. (Heir Apparent); Princess *Anne* Elizabeth Alice Louise, born 15 Aug. 1950, married Mark Anthony Peter Phillips on 14 Nov. 1973; Prince *Andrew* Albert Christian Edward, born 19 Feb. 1960; Prince *Edward* Antony Richard Louis, born 10 March 1964.

The Queen Mother: Queen Elizabeth, born 4 Aug. 1900, daughter of the 14th Earl of Strathmore and Kinghorne; married the Duke of York, afterwards King George VI, on 26 April 1923.

Sister of the Queen: Princess Margaret Rose, born 21 Aug. 1930; married Antony Armstrong-Jones (created Earl of Snowdon, 3 Oct. 1961) on 6 May 1960. Offspring: *David* Albert Charles (Viscount Linley), born 3 Nov. 1961; Lady Sarah Frances Elizabeth Armstrong-Jones, born 1 May 1964.

Living Uncle of the Queen: Prince *Henry* William, born 31 March 1900; created Duke of Gloucester, Earl of Ulster and Baron Culloden, on 31 March 1928; married Lady Alice Montagu-Douglas-Scott (born 25 Dec. 1901), 6 Nov. 1935. Offspring: *William* Henry Andrew Frederick, born 18 Dec. 1941, died 28 Aug. 1972; *Richard* Alexander Walter George, born 26 Aug. 1944, married Birgitte von Deuss on 8 July 1972.

Children of the late Duke of Kent (died 25 Aug. 1942): Edward George Nicholas Patrick, Duke of Kent, born 9 Oct. 1935; married Katharine Worsley on 8 June 1961 (offspring: George Philip Nicholas, Earl of St Andrews, born 26 June 1962; Lady Helen Windsor, born 28 April 1964; Lord Nicholas Charles Edward Jonathan Windsor, born 25 July 1970). Alexandra Helen Elizabeth Olga Christabel, born 25 Dec. 1936; married 24 April 1963, Angus Ogilvy (offspring: James Robert Bruce, born 29 Feb. 1964; Marina Victoria Alexandra, born 31 July 1966). Michael George Charles Franklin, born 4 July 1942.

Children of the late Princess Royal (died 28 March 1965): George Henry Hubert, 7th Earl of Harewood, born 7 Feb. 1923; married Marion Stein on 29 Sept. 1949; divorced on 6 April 1967; remarried Patricia Tuckwell on 31 July 1967 (offspring: David Henry George, Viscount Lascelles, born 21 Oct. 1950; James Edward Lascelles, born 5 Oct. 1953; Robert Jeremy Hugh Lascelles, born 14 Feb. 1955; Mark Hubert Lascelles, born 5 July 1964); Gerald David Lascelles, born 21 Aug. 1924; married Angela Dowding on 15 July 1952 (offspring: Henry Ulick Lascelles, born 19 May 1953).

The Queen's legal title rests on the statute of 12 and 13 Will. III, c. 3, by which the succession to the Crown of Great Britain and Ireland was settled on the Princess Sophia of Hanover and the 'heirs of her body being Protestants'. By proclamation of 17 July 1917 the royal family became known as the House and Family of Windsor. On 8 Feb. 1960 the Queen issued a declaration varying her confirmatory declaration of 9 April 1952 to the effect that while the Queen and her children should continue to be known as the House of Windsor, her

descendants, other than descendants entitled to the style of Royal Highness and the title of Prince or Princess, and female descendants who marry and their descendants should bear the name of Mountbatten-Windsor. Under the Abdication Act of 1936, the issue, if any, of King Edward VIII, or the descendants of that issue, have no right, title or interest in or to the succession to the Throne, and the Royal Marriages Act, 1772, ceased to apply to King Edward VIII after his abdication. The titles of Queen Elizabeth II are: In the United Kingdom, the Associated States, and the Dependent Territories: 'Elizabeth the Second, by the Grace of God, of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith'. In Canada and New Zealand: 'Elizabeth the Second, by the Grace of God of the United Kingdom, [name of country] and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith'. In Mauritius and Fiji, 'Elizabeth the Second, Queen of [name of country] and of Her other Realms and Territories, Head of the Commonwealth'. In Trinidad and Tobago, Malta, Barbados, the Commonwealth of the Bahamas and Australia 'Elizabeth the Second, by the Grace of God, Queen of [name of country] and of Her other Realms and Territories, Head of the Commonwealth'. In Jamaica, 'Elizabeth the Second, by the Grace of God, of Jamaica and of her other Realms and Territories, Queen, Head of the Commonwealth'. In Grenada 'Elizabeth the Second, by the Grace of God, Queen of the United Kingdom of Great Britain and Northern Ireland and of Grenada and of the other Realms and Territories, Head of Commonwealth'. In India, Malaysia, Cyprus, Ghana, Nigeria, Uganda, Zambia, Tanzania, Kenya, Singapore, Malawi, Botswana, Lesotho, Swaziland, Guyana, The Gambia, Sierra Leone, Nauru and Western Samoa, Tonga, Bangladesh and Sri Lanka: 'Head of the Commonwealth'.

By letters patent of 30 Nov. 1917 the titles of Royal Highness and Prince or Princess are restricted to the Sovereign's children, the children of the Sovereign's sons and the eldest living son of the eldest son of the Prince of Wales.

Provision is made for the support of the royal household by the settlement of the Civil List soon after the beginning of each reign. (For historical details, *see* THE STATESMAN'S YEAR-BOOK, 1908, p. 5, and 1935, p. 4.) According to the Civil List Act of 1 Jan. 1972, the Civil List of the Queen, after the usual surrender of hereditary revenues, was fixed at £980,000. The Act also provides for £65,000 a year to the Duke of Edinburgh.

The Civil List Acts of 1910, 1937, 1952 and 1972 provide for an annuity of £35,000 to the Princess Anne; £95,000 to Queen Elizabeth (the Queen Mother); £45,000 to the Duke of Gloucester; £35,000 to the Princess Margaret.

THE COMMONWEALTH

CONSTITUTION. The Commonwealth is a free association of the United Kingdom, Canada, Australia, New Zealand, India, Sri Lanka, Ghana, Nigeria, Cyprus, Sierra Leone, Jamaica, Trinidad and Tobago, Uganda, Kenya, Malaysia, Tanzania, Malawi, Malta, Zambia, The Gambia, Singapore, Guyana, Botswana, Lesotho, Barbados, Mauritius, Swaziland, Tonga, Fiji, Western Samoa, Nauru, Bangladesh, Bahamas and their dependent territories. Grenada has applied for membership.

Up to July 1925 the affairs of all the British Empire, apart from the United Kingdom and India, were dealt with by the Colonial Office. From that month a new secretaryship of state, for Dominion Affairs, became responsible for the relations between the United Kingdom and all the independent members of the Commonwealth.

In July 1947 the designations of the Secretary of State for Dominion Affairs and the Dominions Office were altered to 'Secretary of State for Commonwealth Relations' and 'Commonwealth Relations Office'. The following month, on the independence of India and Pakistan, the India Office ceased to exist and the staff were transferred to the Commonwealth Relations Office, which then became responsible for relations with India and Pakistan.

The Colonial Office was merged with the Commonwealth Relations Office on 1 Aug. 1966 to form the Commonwealth Office, and the post of Secretary of State for Commonwealth Relations became Secretary of State for Commonwealth Affairs. The post of Secretary of State for the Colonies was retained until 6 Jan. 1967. The Commonwealth Office was merged with the Foreign Office on 17 Oct. 1968.

The Secretary of State for Foreign and Commonwealth Affairs is now responsible the relations with the independent members of the Commonwealth, with the Associated States, with the protected state of Brunei, for the administration of the UK dependent territories, in addition to his responsibilities for relations with foreign countries.

On 18 April 1949, when the Republic of Ireland Act 1948 came into force, Southern Ireland ceased to be a member of the Commonwealth.

MEMBER STATES. The Imperial Conference of 1926 defined Great Britain and the Dominions, as they were then called, as 'autonomous communities within the British Empire, equal in status, in no way subordinate one to another in any aspect of their domestic or foreign affairs, though united by a common allegiance to the Crown, and freely associated as members of the British Commonwealth of Nations'. On 11 Dec. 1931 the Statute of Westminster, which by legal enactment recognized the status of the Dominions as defined in 1926, became law. Each of the Dominions, which then included Canada, Australia, New Zealand, South Africa and Newfoundland (which in 1949 became a Canadian Province) had signified approval of the provisions of the Statute.

India became independent on 15 Aug. 1947; Ceylon (now Sri Lanka) on 4 Feb. 1948; Ghana (formerly the Gold Coast) on 6 March 1957; the Federation of Malaya on 31 Aug. 1957 (renamed the Federation of Malaysia on 16 Sept. 1963, including from that date North Borneo, Sarawak and Singapore until 9 Aug. 1965 when Singapore became a separate independent state); Nigeria on 1 Oct. 1960; Cyprus on 16 Aug. 1960; Sierra Leone on 27 April 1961; Tanganyika on 9 Dec. 1961 (renamed United Republic of Tanzania on 26 April 1964 when she joined with Zanzibar, which had become independent on 10 Dec. 1963); Jamaica on 6 Aug. 1962; Trinidad and Tobago on 31 Aug. 1962; Uganda on 9 Oct. 1962; Western Samoa on 1 Jan. 1962; Kenya on 12 Dec. 1963; Malawi (formerly Nyasaland) on 6 July 1964; Malta on 21 Sept. 1964; Zambia (formerly Northern Rhodesia) on 24 Oct. 1964; The Gambia on 18 Feb. 1965; Guyana (formerly British Guiana) on 26 May 1966; Botswana (formerly Bechuanaland) on 30 Sept. 1966; Lesotho (formerly Basutoland) on 4 Oct. 1966; Barbados on 30 Nov. 1966;

Mauritius on 12 March 1969; Swaziland on 6 Sept. 1968; Nauru on 31 Jan. 1968; Tonga on 4 June 1970; Fiji on 10 Oct. 1970; Bangladesh on 4 Feb. 1972; Bahamas on 10 July 1973. All became members of the Commonwealth on independence, except Cyprus, Western Samoa and Bangladesh which joined on 13 March 1961, 28 Aug. 1970 and 18 April 1972 respectively.

India became a republic on 26 Jan. 1950, Ghana on 29 June 1960, Cyprus on 16 Aug. 1960, Tanganyika on 9 Dec. 1962, Nigeria on 1 Oct. 1963, Kenya on 12 Dec. 1964, Tanzania (on the unification of Tanganyika and Zanzibar) on 26 April 1964, Zambia on 24 Oct. 1964, Singapore on 9 Aug. 1965, Malawi on 6 July 1966, Botswana on 30 Sept. 1966, Uganda on 8 Sept. 1967, Nauru on 31 Jan. 1968, Guyana on 23 Feb. 1970, The Gambia on 24 April 1970, Sierra Leone on 19 April 1971 and Ceylon as the Republic of Sri Lanka on 22 May 1972. They accept the Queen as the symbol of the free association of its independent member nations and as such Head of the Commonwealth.

On 4 Jan. 1948 Burma became an independent republic outside the Commonwealth.

South Africa withdrew from the Commonwealth on becoming a republic on 31 May 1961.

To cater for the special circumstances of Nauru, a 'special membership' of the Commonwealth was devised in close consultation with the independent Government of Nauru.

Nauru has the right to participate in all functional activities of the Commonwealth and to receive appropriate documentation in relation to them as well as the right to participate in non-Governmental Commonwealth organizations. Nauru is not represented at meetings of Commonwealth Heads of Government, but may attend Commonwealth meetings at ministerial or official level in such fields as education, medical co-operation, finance and other functional and technical areas as the Nauruan Government desires. It is eligible for Commonwealth technical assistance.

Pakistan withdrew from the Commonwealth on 30 Jan. 1972.

ASSOCIATED STATES. The Caribbean islands of Antigua, St Christopher-Nevis-Anguilla, Dominica, Grenada and St Lucia entered into a new form of association with Britain in Feb. 1967. St Vincent became an associated state on 27 Oct. 1969. Each has control of its internal affairs, with the right to amend its own constitution (including the power to end the associated status and declare itself independent). Britain continues to be responsible for external affairs and defence. Grenada became independent on 7 Feb. 1974 and has applied for Commonwealth membership.

DEPENDENT TERRITORIES. Territories dependent on the United Kingdom comprise dependent territories (properly so-called), a protectorate and a Condominium. A dependent territory is a territory belonging by settlement, conquest or annexation to the British Crown. A protectorate is a territory not formally annexed but in which, by treaty, grant and other lawful means the Crown has power and jurisdiction.

United Kingdom dependencies administered through the Foreign and Commonwealth Office comprise, in the Far East: Hong Kong (dependent territory); in the Indian Ocean: British Indian Ocean Territory, Seychelles (dependent territories); in the Mediterranean: Gibraltar (dependent territory); in the Atlantic Ocean: Falkland Islands and dependencies (dependent territory), British Antarctic Territory (dependent territory), St Helena and dependencies of Tristan da Cunha and Ascension Island (dependent territory); in the Caribbean: Bermuda, Belize, Montserrat, British Virgin Islands, Cayman Islands, Turks and Caicos Islands (dependent territories); in the Western Pacific: British Solomon Islands Protectorate (protectorate), Gilbert and Ellice Islands Colony, Pitcairn (dependent territories), New Hebrides (Anglo-French Condominium).

The Island of Anguilla, although technically still a part of the State of Saint Christopher-Nevis-Anguilla, has now, through the Anguilla Act of 1971 and

the Anguilla (Administration) Order 1971, come under the direct administration of the United Kingdom. Provision is thereby made for Her Majesty's Commissioner to administer the Island in consultation with the Anguilla Council.

While constitutional responsibility to Parliament for the government of the dependent territories rests with the Secretary of State for Foreign and Commonwealth Affairs, the administration of the territories is carried out by the Governments of the territories themselves.

PROTECTED STATE. A protected state is a territory under a ruler which enjoys Her Majesty's protection, over whose foreign affairs she exercises control but in respect of whose internal affairs she does not exercise jurisdiction. Brunei is a protected state. Under the 1959 Agreement, as amended Nov. 1971, the UK remains responsible for the external affairs of Brunei, while Brunei has full responsibility for all internal matters. The two governments would consult together about measures to be taken separately and jointly in the event of any external threat to the State of Brunei.

Commonwealth Secretariat. The Commonwealth Secretariat is an international body at the service of all member countries. It provides the central organization for joint consultation and co-operation in many fields. It was established in 1965 by Commonwealth Heads of Government.

The Commonwealth Secretary-General, who has access to Heads of Government, is the head of the Secretariat. Mr Arnold Smith (Canada) was selected by Heads of Government to be the first Secretary-General in 1965 and was re-appointed for a further 5-year term in 1970. The Secretariat is staffed by officers from member countries and financed by contributions from member governments.

No city or country can be regarded as the centre of the Commonwealth. Heads of Government decided that the Secretariat should work from London as in no other Commonwealth capital are so many Commonwealth members represented by full diplomatic missions. *Headquarters:* Marlborough House, Pall Mall, London, SW1Y 5HX.

GREAT BRITAIN AND NORTHERN IRELAND

CONSTITUTION AND GOVERNMENT

The supreme legislative power is vested in Parliament, which in its present form, as divided into two Houses of Legislature, the Lords and the Commons, dates from the middle of the 14th century.

Parliament is summoned by the writ of the sovereign issued out of Chancery, by advice of the Privy Council, at least 20 days previous to its assembling. Every session must end with a prorogation, and all Bills which have not been passed during the session then lapse. A dissolution may occur by the will of the sovereign, or, as is most usual, during the recess, by proclamation, or finally by lapse of time, the statutory limit of the duration of any Parliament being 5 years.

Under the Parliament Acts 1911 (1 and 2 Geo. V, ch. 13) and 1949 (12, 13 and 24 Geo. VI, ch. 103), all Money Bills (so certified by the Speaker of the House of Commons), if not passed by the House of Lords without amendment, may become law without their concurrence on the royal assent being signified. Public Bills, other than Money Bills or a Bill extending the maximum duration of Parliament, if passed by the House of Commons in 2 successive sessions, whether of the same Parliament or not, and rejected each time, or not passed, by the House of Lords, may become law without their concurrence on the royal assent being signified, provided that 1 year has elapsed between the second reading in the first session of the House of Commons and the third reading in the second session. All Bills coming under this Act must reach the House of Lords at least 1 month before the end of the session.

The House of Lords consists of: (1) hereditary peers and peeresses sitting by virtue of creation or descent, other than those who have disclaimed their titles for life under the provisions of the Peerage Act, 1963; (2) life peers being (a) 16 Lords of Appeal (active and retired), under the Appellate Jurisdiction Act, 1876, as amended; (b) (Jan. 1974) 215 life peers and peeresses under the Life Peerages Act, 1958; (3) 2 archbishops and 24 bishops (as long as they hold their sees). The full House consists of about 1,078, of whom about 104 are without a writ of summons, and the average attendance is about 250; in 1972-73, 173 peers were on leave of absence.

The House of Commons consists of members representing county and borough constituencies. Persons under 21 years of age, Clergymen of the Church of England, Ministers of the Church of Scotland, Roman Catholic clergymen, civil servants, members of the regular armed forces, policemen and most judicial officers are disqualified from sitting in the House of Commons. No English or Scottish peer can be elected to the House of Commons unless he has disclaimed his title for life under the Peerage Act, 1963, but Irish peers and holders of courtesy titles are eligible. Under the Parliament (Qualification of Women) Act, 1918, women are also eligible.

In Aug. 1911 provision was first made for the payment of a salary of £400 per annum to members, other than those already in receipt of salaries as officers of the House, as Ministers or as officers of Her Majesty's household. As from Jan. 1972 the salaries of members are £4,500 per annum, with income-tax relief on expenses incurred in the course of parliamentary duties. There is a secretarial allowance of up to £1,000 per annum and a living allowance, for an additional home, of up to £750 per annum. Members of the House of Lords are only entitled to recover expenses incurred for the purpose of attendance at sittings of the House, within a maximum of £8.50 for each day of attendance.

The Representation of the People Act, 1948, abolished the business premises and University franchises, and the only persons entitled to vote at Parliamentary

elections are those registered as residents or as service voters. No person may vote in more than one constituency at a general election. Persons may apply on certain grounds to vote by post or by proxy.

All persons over 17 years old and not subject to any legal incapacity to vote and who are either British subjects or citizens of the Irish Republic are entitled to be included in the register of electors for the constituency containing the address at which they were residing on the qualifying date for the register and are entitled to vote at elections held during the period for which the register remains in force. The current register was published on 16 Feb. 1974.

Members of the armed forces, Crown servants employed abroad, and the wives accompanying their husbands, are entitled, if otherwise qualified, to be registered as 'service voters' provided they make a 'service declaration'. To be effective for a particular register, the declaration must be made on or before the qualifying date for that register.

The Representation of the People Act, 1969, abolished the occupier's qualification for voting in Local Government elections.

The House of Commons (Redistribution of Seats) Acts, 1944, 1949 and 1958, provided for the setting up of Boundary Commissions for England, Wales, Scotland and Northern Ireland. The Commissions are required to make general reports at intervals of not less than 3 and not more than 7 years and to submit reports from time to time with respect to the area comprised in any particular constituency or constituencies where some change appears necessary. Any changes giving effect to reports of the Commissions are to be made by Orders in Council laid before Parliament for approval by resolution of each House. The electorate of the United Kingdom and Northern Ireland in the register used at the election of 28 Feb. 1974 numbered 39,798,899, of whom 32,769,792 were in England, 1,997,571 in Wales, 3,666,325 in Scotland and 1,041,886 in Northern Ireland.

At the general election held in Feb. 1974, 635 members were returned, 516 from England, 71 from Scotland, 36 from Wales and 12 from Northern Ireland. Every constituency returns a single member.

The following is a table of the duration of Parliaments called since the accession of King Edward VII.

The executive government is vested nominally in the Crown, but practically in a committee of Ministers, called the Cabinet, which is dependent on the support of a majority in the House of Commons.

The head of the Ministry is the Prime Minister, a position first constitutionally recognized, and special precedence accorded to the holder, in 1905. His colleagues in the Ministry are appointed on his recommendation, and he dispenses the greater portion of the patronage of the Crown.

Heads of the Administrations since 1908 (C. = Conservative, L = Liberal, Lab. = Labour, Nat. = National, Coal. = Coalition, Care. = Caretaker):

Local Government

Local Administration is carried out by four different types of bodies, namely: (i) local branches of some central ministries, such as the Ministry of Social Security; (ii) local sub-managements of nationalized industries (coal, electricity, gas, public transport and the post office); (iii) specialist authorities such as the police and water conservation; and (iv) the system of *local government* described below. The phrase 'local government' has come to mean that part of the local administration conducted through elected councils.

There are two separate systems: one for England and Wales and one for Scotland, but both systems are financed by a species of tax on property, levied locally, combined with government grants which, in the aggregate amount to more from the yield of the local tax. This local tax is called 'the rate'.

Local Government: England and Wales—Outside London. England and Wales have slightly different systems. Each country has three types of councils in common, namely, *county*, *district* and English *parish* or Welsh *community* councils. In addition, England has some *metropolitan* county and district councils. Councillors are elected by their local electors for 4 years. A district may be granted the honorific status of a 'Borough' and a parish or community council may call itself a 'Town' Council. The president of a borough council is called the Mayor, or in a few famous places, the Lord Mayor. The president of a Town Council is called the Town Mayor. The others are called chairmen. They are all elected annually by their councils.

There are 46 non-metropolitan counties (of which 8 are in Wales) and 5 metropolitan counties (Greater Manchester, Merseyside, South Yorkshire, Tyne and Wear and West Midlands). Within the counties there are 347 districts (36 metropolitan, and 311 non-metropolitan, of which 37 are in Wales).

At 'sub-district' level the English districts consist of about 10,000 parishes and some 500 areas which are not parishes. About 7,000 of the parishes have councils. The entirety of the Welsh districts is divided into about 1,000 communities, some 800 of which have councils.

County boundaries are laid down by the Local Government Act, 1972, and the district boundaries are settled by orders made in 1973 under that Act; parish and community boundaries will be reviewed later.

Permanent Local Government Commissions for England and for Wales advise the Secretary of State on boundaries and electoral arrangements.

A council has only those powers which have been conferred upon it expressly by Act of Parliament, and no more. The relationship between the different types of

council is thus primarily one of specialization, not of hierarchy. The larger do not in principle supervise the smaller; each being, within its own sphere, entitled to make its own decisions. Government sanction, however, is required to borrow money and to sell land below its market value, and certain types of land use are subject to planning control.

Councils are kept within the law by a system of publicly regulated audit, and in the last resort they can be restrained from exceeding their powers by the courts.

The totality of local government functions may be classified into county, district and sub-district functions, but whereas county and district functions are distinct, the parish and community functions are mostly concurrent with those of the districts. Arrangements may, however, be made so that any council may discharge the functions of any other as its agent.

The following is the classification of powers suggested above: *Parish and Community Functions*. Allotments, burial and cremation, halls, meeting places and entertainments, facilities for exercise and recreation, public lavatories, street lighting, off-street vehicle parking, footpaths, the support of local arts and crafts, the encouragement of tourism and the right to advise the district council on planning applications and certain byelaws. *District Functions*. In addition to the Parish and Community functions, aerodromes, civic restaurants, housing, markets, refuse collection, the administration of planning control, water and sewerage, minor roads, the licensing of places of entertainment and refreshment, and the constitutional oversight of parishes and communities. *County Functions*. The formulation of development plans, traffic, transportation and roads, education, public libraries and museums, youth employment and social services.

There are, in addition, a number of special arrangements. In regard to the inspection of food, drugs, weights and measures, the English authority outside London is the county council, but the Welsh authority is the district. The county councils also either separately or jointly appoint the fire and police authorities, and the bodies responsible for national parks. In Metropolitan counties the district not the county councils are responsible for education and social services.

Greater London. Since 1965 the Metropolitan area, with a population of 7.42m., has had a Greater London Council (GLC) and has been subdivided into 32 London Boroughs. The 12 most central boroughs together with the ancient City of London form the area of the Inner London Education Authority. In the outer 20 boroughs the borough is the education authority. The other functions listed above are differently divided between the GLC and the boroughs. In particular, the GLC deals with large-scale planning, major roads, major parks and open spaces, fire services, refuse disposal, land drainage and Thames flood prevention. The GLC and the boroughs all have housing functions, the boroughs being generally limited to operations in their own areas with the GLC operating over the whole of London and even wider by arrangement with expanding towns; the City is in most respects independent of the surrounding system, and has an ancient constitution and has powers respecting sanitation, police, bridges, justice, etc., in the City of London.

Scotland. Old System. Under the Local Government (Scotland) Act, 1889, the powers of local administration in counties formerly exercised by the Commissioners of Supply, the Justices and Road Trustees were either wholly or in part transferred to county councils. By the Local Government (Scotland) Act, 1894, a local government board for Scotland was constituted, and parish councils took the place of the parochial boards. Their principal function was the administration of the poor laws, and in addition they exercised powers similar to those of the parish councils in England. The Scottish Board of Health Act, 1919, transferred the powers and duties of the Board to the newly constituted Scottish Board of Health. The Reorganization of Offices (Scotland) Act, 1928, established the Department of the Secretary of Scotland, including the Department of Health for Scotland, which took the place of the Scottish Board of Health. In June 1962 the Scottish Development Department took over responsibility for local government affairs, and the Scottish Home and Health Department responsibility for social services, e.g., health, police and fire services.

Each burgh has a town council consisting of a provost or lord provost, bailies and councillors. The provost is the head of the municipality and holds office for 3 years. Bailies are selected by the councillors from among their own number; they act as magistrates and sit as such in police courts. There are three principal kinds of burghs, numbering altogether 201: (1) royal burghs, *i.e.*, burghs created by a charter of the Crown; (2) parliamentary burghs, which possess statutory constitutions almost identical with those of the royal burghs; (3) police burghs, constituted under a general Police Act. Burghs are classified according to functions as counties of cities (4), other large burghs (21) and small burghs (176). The Local Government (Scotland) Act, 1929, abolished parish councils and transferred poor law and certain other functions to county councils and large burghs (with a population of 20,000 or more). The Act established partly elected district councils for the landward parts of counties. These councils have some of the powers of the old parish councils. The Social Work (Scotland) Act, 1968, placed a general duty on county councils and large burghs to promote the social welfare of the people in their areas by making available advice, guidance and assistance and providing the necessary facilities, including residential and other accommodation. It also brought together in one statute the various duties and responsibilities of local authorities in relation to the care and social support of children, the elderly, the ill and the mentally or physically handicapped and others needing help.

New System. From 1975 the Scots mainland will be divided into 9 regions, and in addition there are the 3 islands areas of Orkney, Shetland and the Western Isles. There is no equivalent to the English metropolitan county. The regions are divided into districts which total 53. All these units have a council consisting of councillors elected for 4 years and a chairman elected by the councillors annually. The councils of districts and islands areas are required to submit schemes for the creation of community councils, or give reasons why they should not do so. These community councils are not local authorities in the sense that Welsh Community Councils are.

As in England and Wales a permanent Local Government Boundary Commission advises the Secretary of State on Local Authority Boundaries and electoral arrangements.

On the mainland, functions are allocated between regional and district authorities, in the same way (with minor exceptions) as they are allocated between English counties on the one hand and English districts and parishes on the other, but the councils of the islands areas, which have no districts, perform both sets of functions. These functions are listed and classified above.

Despite differences of nomenclature the effect of the reforms of 1972 (England) and 1973 (Scotland) is to assimilate the systems of mainland Scotland and of England and Wales more closely than has been the case in the past.

RELIGION

The Church of England is the originating church of the Anglican Communion, which parallels in its fellowship of autonomous churches the evolution of British influence beyond the seas from colonies to dominions and independent nations. There is no terrestrial head of the Anglican Communion; the Archbishop of Canterbury presides as *primus inter pares* at the decennial meetings of the bishops of the Anglican Communion at the Lambeth Conference.

The Anglican churches, in addition to the Church of England, comprise the churches and provinces in communion with the see of Canterbury which are situated in Wales; Ireland; Scotland; United States of America; Canada; Australia; New Zealand; West Indies; Brazil; South Africa; Central Africa; West and East Africa; Jerusalem and the Middle East; Burma, Sri Lanka, Japan and China.

In addition to the dioceses included within the Provinces of Canterbury and York, the Church of England includes a number of dioceses overseas over which the Archbishop of Canterbury exercises metropolitan jurisdiction, while Church of England chaplaincies in North and Central Europe are under the jurisdiction of the Bishop of London.

England and Wales. The Established Church of England, which baptizes some two-thirds of the children born in England (*i.e.*, excluding Wales but including the Isle of Man and the Channel Islands), is Protestant Episcopal. Civil disabilities on account of religion do not attach to any class of British subject. Under the Welsh Church Acts, 1914 and 1919, the Church in Wales and Monmouthshire was disestablished as from 1 April 1920, and Wales was formed into a separate Province.

The Queen is, under God, the supreme governor of the Church of England, with the right, regulated by statute, to nominate to the vacant archbishoprics and bishoprics. The Queen, on the advice of the First Lord of the Treasury, also appoints to such deaneries, prebendaries and canonries as are in the gift of the Crown, while a large number of livings and also some canonries are in the gift of the Lord Chancellor.

There are 2 archbishops (at the head of the 2 Provinces of Canterbury and York) 41 bishops and 97 suffragan and assistant bishops in England. Each archbishop has also his own particular diocese, wherein he exercises episcopal, as in his Province he exercises metropolitan, jurisdiction. In the Church are 36

deans (including Westminster, Windsor and other Peculiars), 110 archdeacons and 14 provosts of cathedrals. There is an Assembly, called 'the General Synod', in England, consisting of a House of Bishops, a House of Clergy and a House of Laity, which has power to frame legislation regarding Church matters. The first two Houses consist of the members of the Convocations of Canterbury and York, each of which consists of the diocesan bishops (forming an Upper House), deans, provosts, and archdeacons, and a certain number of proctors elected as the representatives of the inferior clergy, together with, in the case of Canterbury Convocation, representatives of the Universities of Oxford, Cambridge and London and in the case of York a representative for the Universities of Durham and Newcastle; the chaplains in the Forces (forming the Lower House). The House of Laity is elected by the lay members of the Deanery Synods. Parochial affairs are managed by annual parochial church meetings and parochial church councils. Every measure passed by the General Synod must be submitted to the Ecclesiastical Committee, consisting of 15 members of the House of Lords nominated by the Lord Chancellor and 15 members of the House of Commons nominated by the Speaker. This committee reports on each measure to Parliament, and the measure receives the Royal Assent and becomes law if each House of Parliament resolves that the measure be presented to the Queen.

At 31 Dec. 1971 there were 14,475 ecclesiastical parishes, inclusive of the Isle of Man and the Channel Islands, but excluding Wales. These parishes do not, in many cases, coincide with civil parishes. Owing to the pastoral re-organization, although most parishes have their own churches, not every parish nowadays can have its own incumbent or minister; so that in the least populated areas one or more parishes may be served by a clergyman, who must be in priest's orders, and in these cases he holds the parishes in plurality. At 31 Dec. 1971 of the total of 11,063 parochial livings there were 1,476 vacant; there were 9,587 incumbents. In addition there were 3,314 assistant curates working in the parishes.

Private persons possess the right of presentation to over 2,000 benefices; the patronage of the others belongs mainly to the Queen, the bishops and cathedrals, the Lord Chancellor, and the universities of Oxford and Cambridge. In 1971 there were 11,979 benefices. In addition to the 12,901 parochial incumbents and assistant curates, there were (1971) 2,326 non-parochial clergyman serving in the Armed Services, universities, colleges, schools, prisons, hospitals and homes, having a total of about 2,700 non-parochial churches or chapels and other places of worship in use.

The membership of the Church at 30 June 1970 was estimated to be 27,736,000 baptized members, of whom 9.51m. were confirmed.

Of the 41,613 churches and chapels registered for the solemnization of marriages at 30 June 1967, 17,058 belonged to the Established Church and the Church in Wales and 24,555 to other religious denominations. Of the 426,241 marriages celebrated in 1972 (404,737 in 1971), 36.5% were in the Established Church and the Church in Wales, 18% in churches or chapels of other denominations and 45.5% were civil marriages in a Registrar's Office.

Roman Catholics in England and Wales were 4,125,780 in 1971. There were 5 archdioceses and 14 dioceses (1972), 7,707 clergy and 2,626 parish churches and 1,042 other churches open to the public.

The Unitarians have about 330 places of worship, the Catholic Apostolic Church over 80, the New Jerusalem Church about 75. The Salvation Army, a religious body with a quasi-military organization, carries on both spiritual and social work at home and abroad, and had, in British Territory, 1973, 2,100 officers, 1,035 corps, 31 Red Shield Centres and 51 Red Shield Mobile Units. There were also 38 eventide homes, 13 maternity homes, 2 maternity hospitals, 46 hostels for men, 14 hostels for women and girls, and 9 approved and training schools.

The following is a summary of statistics of certain churches in England and Wales, Channel Islands and Isle of Man:

Denomination	Full members	Ministers in charge	Local and lay preachers
Methodist	612,703	3,955	20,652
Independent Methodist	5,646	200	—
Wesleyan Reform Union	4,696	24	248
Congregational Union	181,101	1,683	—
Baptist	263,265	2,069	—
Presbyterian	65,066	315	—
Calvinistic Methodist Church of Wales	101,700	306	—
Moravian	3,000	40	—
Society of Friends	20,752	—	—

There are about 450,000 Jews in the UK with about 240 synagogues.

Scotland. The Church of Scotland (established in 1560 at the Reformation and re-established in 1688 as part of the Revolution Settlement) is Presbyterian, the ministers all being of equal rank. There is in each parish a kirk session, consisting of the minister and of several laymen called elders. There are presbyteries (formed by groups of parishes), meeting frequently throughout the year, and these are again grouped in synods, which meet half-yearly and can be appealed to against the decisions of the presbyteries. The supreme court is the General Assembly, which now consists of some 1,350 members, half clerical and half lay, chosen by the different presbyteries. It meets annually in May (under the presidency of a Moderator appointed by the Assembly, the Sovereign being present or represented by a Lord High Commissioner, appointed by the Queen on the nomination of the Government of the day), and sits usually for 8 days. Any matters not decided during this period may be left to a Commission which sits at stated intervals until the meeting of the next General Assembly.

On 2 Oct. 1929 the Church of Scotland and the United Free Church of Scotland were reunited under the name of The Church of Scotland, and the two bodies met in General Assembly in Edinburgh as one. The united Church had, in Scotland, on 31 Dec. 1972, 2,067 congregations, 1,110,187 members, besides adherents; 30,606 teachers and 220,873 scholars in attendance in Sunday schools. The Church courts are the General Assembly, 12 synods, 58 presbyteries in Scotland, 1 in England and 3 on the Continent. Income in 1971 was £11,025,636. There are divinity faculties in 4 Scottish universities of Edinburgh, Glasgow, Aberdeen and St Andrews, with 57 professors and lecturers who are mostly ministers of the Church of Scotland.

The Episcopal Church of Scotland is in full communion with the Church of England and is a Province of the Anglican Church. As at 31 Dec. 1972 it had 7 bishoprics, 321 churches and missions, 261 clergy and 81,756 members, of whom 46,288 were communicants.

There are in Scotland some small outstanding Presbyterian bodies and also Baptists, Congregationalists, Methodists and Unitarians.

The Roman Catholic Church had in Scotland (1970) 2 archbishops and 6 bishops, 1,279 clergy, about 450 churches, chapels and stations, and 809,680 adherents.

The proportion of marriages in Scotland according to the rites of the various Churches in 1972 was: Church of Scotland, 44.9%; Roman Catholic, 15.7%; Episcopal, 1.7%; United Free, 0.5%; others, 4.5%; civil, 32.7%.

EDUCATION

State System of Education

England and Wales

Compulsory schooling begins at the age of 5 and the minimum leaving age for all pupils is 16.¹ No tuition fees are payable in any publicly maintained school

¹ This means that pupils must stay at school until the end of the Spring term 1974 if their 16th birthday falls on any date from 1 Sept. to 31 Jan.; and until the end of the summer term if their 16th birthday falls on or after 1 Feb. and before 1 Sept.

(but it is open to parents, if they choose, to pay for their children to attend other schools). The post-school stage, which is voluntary, includes universities, polytechnics and other further education colleges, and colleges of education (for the training of teachers), as well as adult education and the youth service. Financial assistance is generally available to students at universities and colleges of education and to many students at further education colleges.

Nursery Education. Children under 5 may be provided for in nursery schools or in nursery classes attached to primary schools. Much of the existing provision is in the private sector where fees are paid. In the public sector no fees are payable and there are some 550 such nursery schools accommodating about 42,000 children over half of whom attend part-time. There are also over 350,000 children under the compulsory school age attending maintained primary schools.

Since 1968 a continuing programme to help socially deprived urban areas has included provision for 24,000 additional full-time places in nursery schools and classes in these areas.

The Secretary of State for Education and Science and the Secretary of State for Wales (of the then administration) announced in Dec. 1972 in a White Paper (Cmd. 5174) that they intended to expand nursery education at a rate which would enable provision to be made by 1981-82 for all the children whose parents want them to have it (as estimated by the Central Advisory Councils in 1967 in the Plowden and Gittins Reports). The aim was that by Jan. 1982 places would exist in nursery schools and classes for 90% of 4-year olds and 50% of 3-year olds. Half-time attendance would be the general rule. Priority was to be given in the early stages of the programme to the provision of places in areas of greatest social need. (At the time of revision the administration had recently changed.)

Primary Schools. Children normally begin primary school when they are 5. Over half of the 23,000 primary schools take the complete age-range from 5 upwards. About a quarter take infants only, up to about 7 years; the rest take juniors only, from 7 or 8 on. The great majority of primary schools take both boys and girls. Over half have between 100 and 300 children each: most of the rest are larger, nearly all of them having between 300 and 600 children each.

A little under 2,000 of these primary schools are in Wales. In those primary schools (and some secondary schools) which are in the predominantly Welsh-speaking areas, the main language of instruction is Welsh. There are also 'Welsh', or, more accurately, bilingual schools in mainly English-speaking parts of Wales. Generally children transfer from primary to secondary schools at 11.

Middle Schools. In some areas middle schools are being developed. These cover the age-ranges 8 to 12, 9 to 13 or 10 to 13. In Jan. 1973 there were nearly 550 middle schools (there were only 15 in 1969) and more are planned as local education authorities introduce a 3-tier system of compulsory education to replace the traditional 2-tier system.

Secondary Education. There is approximately 1 secondary school for every 4 primary schools, just under half of them taking between 300 and 600 children. In some areas pupils are selected at 11 for grammar schools on the basis of ability. Those who are not selected attend secondary modern schools. However in a growing number of areas there is no selection and comprehensive schools are provided for pupils of all ability. Still the biggest group of schools at present is the modern schools, which provide a general education up to the minimum school leaving age, though pupils can, and increasingly do, stay on beyond that age. At Jan. 1973 there were 1,915 of these schools and they had nearly 97,000 pupils—two-thirds of them in mixed schools. The next group in size comprises the comprehensive schools which provide courses for pupils of all abilities and aptitudes. There are 1,835 fully comprehensive schools with nearly 1.59m. pupils.

With the development of comprehensive education various patterns of secondary school organization have come into operation; all through schools with the age range of 11-16 (with possible transfer to a sixth form college for further studies, *i.e.*, 16-18) or 11-18: 2-tier systems whereby pupils transfer at 11 to a junior comprehensive and at 13 or 14 to a senior comprehensive. Some areas have extended the age of transfer to secondary education from 11 to 12 or 13 or occasionally 14; in these areas middle schools are provided with the age ranges 8-12, 9-13 or 10-13, 10-14. There are 409 middle schools at present.

The remaining group of schools comprises the grammar schools, which provide a mainly academic course from age 11-18, the technical schools which have the academic equals of grammar schools but specialize in technical studies, and various combinations of grammar, technical and modern schools.

Direct Grant Grammar Schools. These schools receive grants direct from the Department of Education and Science for their secondary departments (or 'upper schools') and are independent of local education authorities. They charge fees, but must offer 25% of their places each year, free of charge, to pupils aged 11 or older who have previously attended maintained or grant-aided primary schools for at least 2 years. These free places are usually offered through the agency of the local education authority, in which case the authority pays the fees. The school governors must also, if requested by the local education authority, put at the authority's disposal a further number of places as it may require for pupils who need not have attended a grant-aided school. For the remaining places fees are payable by parents, although fees for day pupils may be partially or fully remitted. On 1 Jan. 1973 there were 104,065 pupils in the 'upper schools' and 16,040 full-time and 196 part-time pupils in 'lower schools', the primary departments.

Special Schools. Special education is provided for children who are deaf, partially hearing, blind, partially sighted, physically handicapped, educationally sub-normal, epileptic, delicate, maladjusted or suffering from speech defects not due to deafness. The educationally sub-normal are the largest category in this group. Some handicapped children attend ordinary schools. Others attend maintained special schools: there are at present about 1,400 of these, catering (in Jan. 1973) for over 119,000 pupils, approximately 61% boys, including about 9,100 in schools in hospitals for children receiving medical treatment as in-patients. (Local education authorities also send pupils to 'non-maintained' and independent special schools and pay the fees.) Special education is intended to enable handicapped children to overcome their difficulties in order that they may, as far as possible, take their place in society. To this end these schools have a more generous staffing ratio and provide physiotherapy, speech therapy and other medical treatment as well as special teaching facilities. Over three-quarters of the maintained special schools are day schools. For children with severe handicaps, for whom day special schools cannot cater, and for children who live out of reach of a suitable day school, free boarding education is provided. Attendance is compulsory from 5 to 16. In addition, local authorities have a duty to provide education from the age of 2 for handicapped children and until the age of 18 for those who want it (education from 16-18 may be provided either in a school or a college of further education). In addition to the provision in special schools, authorities make special arrangements for educating children at home, in small groups or in hospitals when there is no special school. In Jan. 1973 nearly 5,000 pupils were being educated in this way. There are also some establishments which provide further education, pre-vocational training and for assessment for employment purely for handicapped school leavers (these students are usually those who cannot attend ordinary establishments for further education).

Ancillary Services. The National Health Service provides free medical and dental inspection and treatment for children attending maintained schools and, in

certain circumstances, for those in other schools as well. Child guidance clinics are provided by the National Health Service or by local education authorities.

Every local education authority is required to make meals available to pupils attending maintained schools as far as is reasonably practicable, and most maintained schools now have facilities for school dinners. Part of the cost is borne by the parent but a pupil may receive a dinner free if the parent's income after certain allowances is below a national scale laid down by the Department of Education and Science or if he is receiving supplementary benefit or family income supplement.

Every local education authority has a duty to provide, on every school day, $\frac{1}{8}$ pint of milk free of charge to all pupils in special schools; all pupils in other maintained schools up to the end of the summer term after they attain the age of 7; other pupils in maintained primary schools and junior pupils in all age and middle schools where a school medical officer certifies that the pupil's health requires that he should be provided with milk at school. Milk may also be provided for similar pupils at independent schools at the discretion of local education authorities but this discretionary power does not extend to the provision of milk on grounds of health.

Local education authorities have the power to sell milk to all pupils in their maintained schools. This is one of the provisions of the Education (Milk) Act, 1971, and came into effect 1 Sept. 1971.

In primary and secondary schools in England and Wales (including nursery and special schools) maintained by local education authorities 66.1% of pupils present took dinners on a day in autumn 1973 and 95.2% of eligible pupils present took milk. For 1973-74 the estimated cost of school meals was £186m. and of milk £8m.

Children below the age of 8 with 2 miles or more to travel to school must be provided with free transport by the local education authority if they are registered with the nearest suitable maintained school. Older children with 3 miles or more to travel get similar provision. Where public transport exists, authorities may make use of it by paying the children's fares.

Further Education. In Nov. 1972 there were about 625 institutions providing day courses of further education, including 30 polytechnics. These establishments offer courses ranging from shorthand instruction to degree-level and post-graduate work, and cater for full-time, part-time and sandwich students (whose periods of study at college alternate with periods of practical training in industry). Students attending these colleges numbered nearly 304,000 full-time (including 42,000 sandwich students) and 1,477,000 part-time and evening; students released by their employers numbered 565,000.

There were in addition about 6,361 evening institutes, which provide mainly recreational courses and were attended by 1.59m. students.

The further education system includes a sector of higher education which complements the universities and colleges of education, and which meets the needs of part-time as well as full-time and sandwich students. Courses leading to degrees, professional qualifications and other qualifications at all levels of higher education are provided in a wide range of disciplines. By Sept. 1973, all of the 30 polytechnics originally proposed had been established and formally designated.

Education at institutions of further education is not free, but fees are generally low, and are remitted for most students under the age of 18 by the local authority.

Awards to Students. Local education authorities have the main responsibility for making awards to students taking first-degree and comparable courses at universities and further education establishments and to students taking initial teacher-training courses at colleges of education and other (training) establishments except the university departments of education. The authorities also give

discretionary awards, which are mainly for non-graduate study to students attending full-time and sandwich courses at universities and further education establishments.

In 1972, 49,041 new full value awards were taken up at universities and 51,952 at further education establishments. There were 147,809 full value awards current at universities on 31 Dec. 1972 and 100,050 at further education establishments. In 1971-72 the number of new teacher-training awards was 42,957 and there were 112,471 current awards. Lesser value awards, for which the maximum rate of grant payable is below the full cost of the student's fees and maintenance, were also made by the authorities. There were 22,011 awards taken up in the calendar year 1972 and 27,316 awards current on 31 Dec. 1972.

The Research Councils (generally in science and social science subjects) and the Department of Education and Science (generally in the arts and the humanities) make awards to students at postgraduate level. The Research Councils gave 6,965 new awards in 1972-73 and there were 13,102 current awards in that academic year. The Department gave 1,671 new awards (state studentships and state bursaries) in 1972 and current awards totalled 2,773 in 1972-73; and in addition there were mature state scholarships (28 new, 63 current). Awards were also given to graduates studying 1-year courses of teacher-training at university departments of education; these awards numbered 5,276 in 1971-72.

Teachers. In order to qualify for work in maintained schools, most teachers take a course of training at a college of education. Graduates and holders of some specialist qualifications obtained before 31 Dec. 1969 are regarded as qualified to teach without training, but anyone obtaining these qualifications after that date will be obliged to take a training course before being appointed for the first time to a primary school, and from 1 Jan. 1974 before first appointment to a secondary school.

About 160 colleges and polytechnic departments of education at present provide 3-year and other courses for intending teachers. The majority are general colleges and are concerned with most subjects taught in schools, but a few are concerned only with the training of specialist teachers of physical education or housecraft. About two-thirds of the colleges are maintained by local education authorities, and the remainder by voluntary bodies which are usually associated with a religious denomination. At Oct. 1973 there were about 113,500 students in the colleges.

There are also art teacher-training centres for specialist teachers of art, university departments of education for graduates and colleges of education (technical) for people wishing to work mainly in further education. All of these offer one-year courses. Many colleges of education also offer one-year courses for graduates.

On 28 Sept. 1973, 402,059 full-time teachers (163,259 men and 238,800 women) were employed by local education authorities in maintained primary and secondary (excluding nursery) schools.

Finance. Total current and capital expenditure on education in England and Wales from public funds (excluding university education and loan charges) is estimated at £2,925m. for 1973-74, as compared with £2,582m. for 1972-73.

Scotland

Primary Education. In 1971-72 there were 2,344 schools with primary departments and the number on the registers was 642,778. In addition, there were 120 nursery schools, and nursery classes attached to 110 primary schools, with a total enrolment of 14,818 pupils.

In Dec. 1972, 25,488 certificated teachers were employed in primary schools or departments.

Secondary Education. In 1971-72 there were 516 secondary schools of which 61

provided Scottish Certificate of Education courses only, 377 provided Scottish Certificate of Education and non-certificate courses, and 78 provided non-certificate courses only. The number of pupils was 337,535. The number of teachers in secondary departments in Dec. 1972 was 23,744.

Teacher-Training. In Nov. 1972 there were 13,832 students, including 2,889 graduates, in 10 colleges of education, training to be qualified teachers.

Special and Approved Schools. In 1972 there were 3 residential special schools 76 day special schools, 12 special schools with both day and residential facilities and 66 junior occupational centres; special classes were attached to 63 ordinary schools. The total number of handicapped children under instruction was 12,607, of which 10,016 were mentally handicapped, 1,092 were physically handicapped, 320 were blind or partially blind and 779 were deaf or partially deaf, and 400 were otherwise handicapped. At 31 March 1972 there were 27 schools (formerly known as approved schools) with a total enrolment of 1,465.

Further Education. Centres for further education numbered 1,210 in 1971-72 with a total enrolment of 316,523 students. The number of students enrolled at the 13 central institutions was 14,147 (8,679 full-time and 5,468 part-time), including those within the administrative sphere of the Department of Agriculture and Fisheries for Scotland.

Finance. Total expenditure on education during 1971-72 was £247.6m. (excluding university education and loan charges).

Independent Schools

Outside the state system of education there were in England and Wales 2,523 independent schools in Jan. 1973, ranging from large 'public' schools to small local ones catering for a handful of children; there were 411,664 full-time and 13,725 part-time pupils in these schools. Fees are charged by all these schools, which receive no grant from public funds. All independent schools are open to inspection by HM Inspectors, and just over one-half are recognized as efficient by the Department. The term 'public schools' refers to independent schools in membership of the Headmasters' Conference, Governing Bodies Association or the Governing Bodies of Girls' Schools Association. Qualifications under which a school may be represented at the Headmasters' Conference include the measure of independence enjoyed by the governing body and the amount of advanced courses undertaken. Some of these schools are for boarders only, but the majority include non-resident 'day-pupils'. In Scotland there were 107 independent schools, with a total of 16,885 pupils in 1973. A small number of the Scottish independent schools are of the 'public school' type but they are not known as 'public schools' since in Scotland this term is used to denote education authority (*i.e.*, state) schools.

The earliest of the schools were founded by, and attached to, the medieval churches. Many were founded as 'grammar' (classical) schools in the 16th century, receiving charters from the reigning sovereign. Reformed mainly in the middle of the 19th century, these schools now provide the highest form of English pre-university education. Among the most well-known independent schools are Eton College, founded in 1440 by Henry VI, with 1,240 boys; Winchester College, 1394, founded by William of Wykeham, Bishop of Winchester 556 boys; Harrow School, founded in 1560 as a grammar school by John Lyon, a yeoman, 731 boys; Charterhouse, 1611, 655 boys. Among the earliest foundations are King's School, Canterbury, founded 600; King's School, Rochester, 604; St Peter's, York, 627.

University Education

In England there are 33 degree-giving universities. In addition there are the University of Manchester Institute of Science and Technology; and the London

and Manchester Business Schools. Seven new universities have been established since 1961.

In *Wales* there is one university, the University of Wales, with colleges at Aberystwyth, Bangor, Cardiff, Lampeter and Swansea. The Welsh National School of Medicine is a school of the University, and the University of Wales Institute of Science and Technology became a constituent college in Nov. 1967.

In *Scotland* there are 8 universities, Aberdeen, Dundee, Edinburgh, Stirling, Strathclyde, Heriot-Watt, Glasgow and St Andrews. The Carnegie Trust, founded in 1901 with a capital of £2m., has an annual income of £100,000, of which half is devoted to the equipment and expansion of the Scottish universities and half to assisting students.

All these universities and colleges are independent, self-governing institutions, although they receive substantial aid from the state through the University Grants Committee. This is a committee appointed by the Secretary of State for Education and Science designed to advise the Government on the needs of the universities, and to prepare plans for future development. The members are drawn from education and industry. The local education authorities have no responsibility for universities.

The Open University received its charter on 1 June 1969 and is an independent, self-governing institution, awarding its own degrees. It is financed by the Government through the Department of Education and Science and by the receipt of students' fees.

Tuition is by means of correspondence textbooks, radio and television broadcasts and summer schools. Students can also attend one of 260 local study centres. No formal qualifications are required for entry to undergraduate or post-experience courses. Undergraduates are normally over 21, but in a 2-year pilot project which started in Jan. 1974 places are to be offered to 18-21 year olds. In the 1973 Jan.-Oct. teaching year there were 38,000 undergraduates; 5,092 part-time tutors and counsellors; 222 full-time academic staff at the University's headquarters in Milton Keynes and 171 full-time tutorial and counselling staff based in 13 regional offices.

All universities charge fees, but financial help is available to students from several sources. The universities themselves provide scholarships of various kinds, the Department of Education and Science offers a number of scholarships for mature students every year and all local education authorities have a system of awards to help suitable students to attend university. Most of the undergraduate awards to UK students made by local education authorities are offered on the results of the General Certificate of Education. The amount of aid given generally depends upon the parents' means. About 98% of the students at the English and Welsh universities are in receipt of some form of financial assistance.

Awards known as state studentships are offered on a competitive basis by the Department from among candidates considered by the universities to be qualified for post-graduate studies in the humanities; similar awards, tenable at universities or technical colleges, are offered by the Research Councils to students studying science, mathematics and technology at the post-graduate level.

The following table gives the approximate number of professors, lecturers, etc., and students (full-time and sandwich courses) for 1971-72.

THE BRITISH COUNCIL

The British Council was established in Nov. 1934 and incorporated by Royal Charter in 1940. Its principal purposes are the promotion of a wider knowledge of Britain and the English language abroad and the development of closer cultural relations between Britain and other countries.

The Council's funds come mainly from parliamentary grants, which in 1973-74 amounted to £20.4m. Of this sum, £11.8m. came from the Foreign and Commonwealth Office vote, £8.6m. from the Overseas Development Administration, £22,000 from the Department of Trade and Industry and £1,000 from the Department of Education and Science. With Council earnings and donations estimated at £1.8m., the total budget for 1973-74 was £22.2m. The Council administered the expenditure of an additional £12.5m. as agent for Departments of State and for international organizations.

The Council is governed by an Executive Committee consisting of the Chairman, 20 other elected members and 8 members nominated by Ministers. There are advisory committees for Scotland and Wales, and also advisory committees or panels for the main branches of the Council's work. In Feb. 1974 the Council had staff in 82 countries.

The Council is normally the body designated by the British Government to carry out bilateral cultural agreements, including that with the Soviet Union. The Council's work broadly divides into English language teaching and other educational work, the promotion of wider use and availability of British books and periodicals, the development of personal contacts and the exchange of information, especially in the fields of education, medicine, science, technology and the arts.

The general policy in the field of English language teaching is to advise and assist education authorities overseas, particularly in the training of local teachers of English; courses are provided in Britain and abroad for the further training of English language teaching experts from overseas. Information about new methods of teaching English and about current research in this field is collected and distributed by the English-Teaching Information Centre in London. The Council acts as a centre for the dissemination of information about British educational thought and practice at all levels and, through its complement of education specialists permanently working overseas, it has become closely involved with the administration of aid on behalf of the Overseas Development Administration. It assists in producing English teaching and other educational television and radio programmes overseas and arranges training courses in TV, radio and audio-visual aids both in Britain and overseas. A prominent aspect of

the educational work is the assistance given in developing countries to the adoption of modern and locally relevant methods of science and mathematics teaching in schools, and for this work the Council maintains a growing group of science educationalists, administers the ODA funded Aid for Commonwealth Teaching of Science scheme and recruits teachers for service overseas. The Council is concerned to promote closer international academic collaboration through a variety of interchange and linking schemes, and through the provision of information and advice on educational institutions; it also administers scholarship programmes on behalf of a large number of international organizations. It administers examinations on behalf of a number of British examining boards; and it also circulates films for general educational purposes.

The Council runs, or is associated with, 177 libraries in some 75 countries with stocks of 2.4m. volumes. It arranges touring exhibitions of new British books and periodicals (over 128,000 books were exhibited in 295 exhibitions in 1972-73). Additional publicity for British books is provided by the publication of *British Book News*, the distribution of specialized book lists and the operation of a review scheme. The Council also administers for ODA funds totalling £1m. for library development, the presentation of books and periodicals to educational institutions in developing countries and a scheme for the publication of low-priced books for students under the imprint of the English Language Book Society.

The Council arranges short advisory tours overseas by British experts. It is also the overseas administrative arm of 3 of the 4 member-societies of the British Volunteer Programme. It awards scholarships and bursaries and arranges study programmes for over 12,000 visitors a year in Britain. It administers central government funds for youth exchanges with other countries.

In Britain the Council administers the programmes of award schemes for overseas students, meets many students on arrival from overseas, and provides an accommodation service and a programme of educational and recreational courses and visits, mainly for students from overseas for whom it has a special responsibility. The Council runs some 24 offices in Britain, mainly in university cities, for these purposes.

The sciences, including medicine, technology and agriculture, form an increasingly important part of Council work. Contacts are built up and information collected and distributed through the specialist departments and libraries in London and the qualified scientists serving overseas, who also advise on training in Britain and the provision of experts abroad.

In the field of the arts the British Council presents overseas the best in British theatre, ballet and music; mounts exhibitions of British painting and sculpture; sponsors recordings of music and literature; and provides information on British composers, dramatists and writers.

The Council publishes the following periodicals: *British Medical Bulletin*, *British Medicine* and *British Book News*. Other publications produced include the series *Writers and their Work*, a number of booklets such as *Poetry Today*, *Drama in Britain*, *Higher Education in the United Kingdom* and *How to Live in Britain*. The Council edits *Scientific and Learned Societies of Great Britain*. The Council has sponsored two major series of literature recordings, *The Complete Works of Shakespeare* and *The English Poets from Chaucer to Yeats*.

Chairman: Lord Ballantrae, GCMG, GCVO, DSO, OBE.

Director-General: Dr F. J. Llewellyn.

Headquarters: 10 Spring Gdns., London, SW1A 2BN.

ARTS COUNCIL OF GREAT BRITAIN

The Arts Council is a body incorporated by Royal Charter with the following objects: (a) to develop and improve the knowledge, understanding and practice of the arts; (b) to increase the accessibility of the arts to the public throughout Great Britain; and (c) to advise and co-operate with Government Departments, local authorities and other bodies on any matters concerned directly or indirectly with the foregoing objects.

The Council consists of a Chairman and not more than 19 other members who are appointed by the Minister with responsibility for the arts after consultation

with the Secretaries of State for Scotland and Wales. With the approval of the appropriate Secretary of State the Council appoints committees for Scotland and Wales known respectively as the Scottish Arts Council and the Welsh Arts Council. The Council receives a grant-in-aid from the Government voted annually by Parliament, the grant for the year 1973-74 amounting to £17,388,000. Annual Reports are published giving details of the Council's work and the way which the grant-in-aid is spent.

Chairman: Patrick Gibson. *Secretary General:* Sir Hugh Willatt.
Headquarters: 105 Piccadilly, London, W1V 0AU.

JUSTICE

England and Wales

The legal system of England and Wales, divided into civil and criminal courts has at the head of the superior courts, as the ultimate court of appeal, the House of Lords, which hears each year a number of appeals in civil matters, including a certain number from Scotland and Northern Ireland, as well as some appeals in criminal cases. In order that civil cases may go from the Court of Appeal to the House of Lords, it is necessary to obtain the leave of either the Court of Appeal or the House itself, although in certain cases an appeal may lie direct to the House of Lords from the decision of the High Court. An appeal can be brought from a decision of the Court of Appeal or the Divisional Court of the Queen's Bench Division of the High Court in a criminal case provided that the Court is satisfied that a point of law 'of general public importance' is involved, and either the Court or the House of Lords is of the opinion that it is desirable in the public interest that a further appeal should be brought. As a judicial body, the House of Lords consists of the Lord Chancellor, the Lords of Appeal in Ordinary, commonly called Law Lords, and such other members of the House as hold or have held high judicial office. The final court of appeal for certain of the Commonwealth countries is the Judicial Committee of the Privy Council which, in addition to Privy Counsellors who are or have held High Judicial Office in the UK, includes others who are or have been Chief Justices or Judges of the Superior Courts of Commonwealth countries.

Civil Law. The main courts of original civil jurisdiction are the county courts for less important cases, and the High Court for the more important ones.

There are about 340 county courts located throughout the country, grouped in districts, and each presided over by a paid judge (or, in some cases, 2 or 3 Judges). They have a general jurisdiction (subject to certain rights of transfer to the High Court given to defendants) to determine all actions founded on contract or tort involving sums of not more than £750. Certain matters, such as actions of libel and slander, are entirely reserved for the High Court. In addition, certain designated county courts have jurisdiction in matrimonial proceedings. Divorce proceedings may now be commenced in these courts and, subject to being transferred to the High Court upon becoming defended, may be determined in the county court.

The High Court has both appellate and original jurisdiction, covering virtually all civil causes not determined in the county court. The judges of the High Court are attached to one of its 3 divisions: Chancery; Queen's Bench; and Family; each with its separate field of jurisdiction. There are 71 such judges, called puisne judges. For the hearing of cases at first instance, the High Court judges sit singly. Appellate jurisdiction is usually exercised by Divisional courts consisting of 3 (sometimes 2) judges, though in certain circumstances a judge sitting alone may hear the appeal.

The Restrictive Practices Court was set up in 1956 under the Restrictive Trade Practices Act, and is responsible for deciding whether a restrictive trade agreement is in the public interest. It is presided over by a judge, but laymen sit on the bench also.

The Court of Appeal (Civil Division) hears the more important appeals in civil

actions. It includes the Lord Chancellor, who is President of the Chancery Division, and the heads of the other 2 divisions (Queen's Bench and Family) of the High Court, but effectively the head of the Civil Division is the Master of the Rolls, aided by 14 Lords Justices of Appeal sitting in 2 or 3 divisions.

Civil proceedings are instituted by the aggrieved person, but, as they are a private matter, they are frequently settled by the parties to a dispute through their solicitors before the matter actually comes to court. In some cases, at the instance of either party, a jury may sit to decide questions of fact and award of damages.

Criminal Law. At the base of the system of criminal courts are the lay justices who, outside the larger towns, try the great proportion of minor offenders (over 98% of all criminal cases) as well as undertaking an increasing proportion of civil work. Most of these magistrates' courts consist of 2 to 7 lay justices who are unpaid and need not possess legal qualifications (though they undergo a course of training), though they do have the assistance on points of law of a professional clerk to the justices. In central London and large cities there exist stipendiary magistrates, paid for their duties. These are professional lawyers and usually sit alone. Exercising summary jurisdiction in petty sessions, justices have power to pass sentences of imprisonment up to, in general, 6 months, and to impose fines up to, in general, £400. One of their functions is to examine persons charged with graver offences and to determine whether they should be committed for trial at the Crown Court. Justices deal each year with almost 2m. cases, including thefts, assaults, road traffic infringements, drug abuse, breaches of licensing laws, etc. There are some 20,000 justices who are appointed to the Commission of the Peace by the Lord Chancellor; he is assisted by advisory committees. Women are eligible to act as justices, and the number on the Commission of the Peace is estimated to be about 7,000.

Specially qualified justices sit in juvenile courts to deal with cases involving persons under 17 years of age charged with criminal offences (other than homicide) or brought before the court as being in need of care or control. These courts normally sit with 3 justices, including 1 woman, and are accommodated separately from other courts.

Above the magistrates' courts is the Crown Court. This was set up by the Courts Act 1971 to replace quarter sessions and assizes. Unlike quarter sessions and assizes, which were individual courts, the Crown Court is a single court which is capable of sitting at any number of different centres. It has power to deal with all trials on indictment and has inherited the jurisdiction of quarter sessions to hear appeals, proceedings on committal of persons for sentence, and certain original proceedings on civil matters under individual statutes.

The jurisdiction of the Crown Court is exercisable by a High Court judge, a Circuit judge or a Recorder (who is a part-time judge) sitting alone, or, in specified circumstances, with justices of the peace. The Lord Chief Justice has given directions as to the types of case to be allocated to High Court judges (the more serious cases) and to Circuit judges or Recorders respectively.

Appeals from magistrates' courts go either to a Divisional Court of the High Court (when a point of law alone is involved) or to the Crown Court which is empowered to deal with appeals against conviction and/or sentence. Appeals from other courts of criminal jurisdiction go to the Court of Appeal (Criminal Division). Appeals on questions of law go by right, and appeals on other matters by leave. The Lord Chief Justice and the other judges of the High Court may sit with the Master of the Rolls and the Lords Justices to constitute this court.

There remains as a last resort the invocation of the royal prerogative exercised on the advice of the Home Secretary. In 1965 the death penalty was abolished for murder.

All contested criminal trials, except those which come before the magistrates' courts, are tried by a judge and a jury consisting of 12 members. The composition of the jury may be challenged if cause can be shown for objection to any juror, and, in a limited number of instances, by the defendant without showing cause. The jury decides whether the accused is guilty or not. The judge is responsible for sentencing convicted offenders. If, after at least 2 hours of deliberation, a jury

is unable to reach a unanimous verdict it may, provided that in a full jury of 12 at least 10 of its members are agreed, bring in a majority verdict. The failure of a jury to agree on a unanimous verdict or to bring in a majority verdict involves the retrial of the case before a new jury.

Military Courts. Offences by persons subject to service law against the system of military law created under the powers of the Army Act, Air Force Act or Naval Discipline Act are dealt with by courts-martial. Appeals lie to a Courts-Martial Appeals Court, and from that court an appeal may lie to the House of Lords.

The Personnel of the Law. All judicial officers except the Lord Chancellor are independent of Parliament and the Executive. Most of them are appointed by the Crown on the advice of a Minister and hold office until retiring age or, in some cases, for a fixed term of years. The legal profession is divided; barristers, who advise on legal problems and conduct cases in court, usually act for the public only through solicitors, who deal directly with the legal business brought to them by the public. Higher judicial appointments are made from barristers of long standing.

Aid is provided for persons who are unable through lack of means to pay for legal assistance in civil or criminal proceedings. Under the provisions of the Legal Aid and Advice Act, 1949, a person of poor or moderate means may be provided with the services of solicitor and counsel in most civil proceedings, and proceedings before the Lands Tribunal either without charge or, if his means allow, on payment of a contribution. In 1971-72 there were 265,291 applications for legal aid under the Act. The cost of legal aid in civil cases is met from (a) contributions from assisted persons; (b) costs recovered from opposing parties; (c) a grant from the Exchequer. The cost of such legal aid to the State in the year 1971-72, including the cost of legal aid for criminal cases in magistrates' courts, was £14,603,184. Under Part IV of the Criminal Justice Act, 1967, which came into operation on 1 Oct. 1968, a court dealing with criminal proceedings has discretion to order legal aid to be given if it appears that the defendant (or appellant) requires financial assistance in meeting the costs of legal representation for his defence, and that it is in the interests of justice for him to be granted legal aid. (Persons on murder charges, in need of financial assistance for legal representation, must be granted legal aid.) The costs of legal aid in criminal proceedings are paid by the central government, but courts have the power to require legally aided persons to contribute towards the cost of legal aid given to them. The cost of legal aid in criminal proceedings in 1970-71 was approximately £7,898,000.

Under the Parliamentary Commissioner Act, passed 22 March 1967, M.P.s may refer to the Parliamentary Commissioner complaints received from the public regarding improper or inequitable administration in most spheres of central government affairs. Generally, other available remedies (such as legal action) must be exhausted before a complaint can be investigated. If a complaint is found to require a remedy the Parliamentary Commissioner makes a report to Parliament.

Police. The authorized strength of the police force in England and Wales in Dec. 1972 was 105,837 men and 4,493 women: the actual strength (including Metropolitan Police additional) was 94,420 men and 4,140 women. In addition there were 27,440 special constables (including 1,838 women). Total police net expenditure (estimated) in England and Wales for 1971-72 was £370,717,808.

Scotland

The High Court of Justiciary is the supreme criminal court in Scotland and has jurisdiction in all cases of crime committed in any part of Scotland, unless expressly excluded by statute. It consists of the Lord Justice-General, the Lord Justice-Clerk and 18 other judges, who are the same judges as of the Court of Session, the Scottish supreme civil court. The Court, which is presided over by the Lord Justice-General, whom failing, the Lord Justice-Clerk, exercises an

appellate jurisdiction as well as one of first instance, and sits as business requires in Edinburgh as a Court of Appeal (the *quorum* being 3 judges) and also there and on circuit at various towns throughout the country for the trial of criminal cases. The decisions of the Court in either case are not subject to review by the House of Lords. One judge sitting with a jury of 15 persons can, and usually does, try cases, but 2 or more (with a jury) may do so in important or complex cases. It has a privative jurisdiction over cases of treason, murder, rape, deforcement of messengers and breach of duty by magistrates. It also, in practice, is the only court which tries cases of incest, sodomy and other serious or aggravated crimes against person or property and generally those cases in which a sentence greater than imprisonment for 2 years may be imposed either under statute or common law. Moreover, the Court has inherent power to try and to punish all acts which are plainly criminal though previously unknown and not dealt with by any statute.

The appellate jurisdiction of the High Court of Justiciary extends to all cases tried on indictment, whether in the High Court or the Sheriff Court, and persons so convicted may appeal to the Court on any ground involving a question of law alone, or apply for leave to appeal, on any question of fact or of mixed law and fact, or on any other sufficient ground, and also against sentence unless it is one fixed by law. It is also a court of review from courts of summary criminal jurisdiction, and on the final determination of any summary prosecution either party may appeal to the Court by way of stated case on questions of law, procedure, etc., but not on questions of fact. A further or complementary form of process of review which can be resorted to by convicted persons in these courts is by Bill of Suspension (and Liberation), but it is of strictly limited application. A prosecutor in these courts may also bring under review a decision in law, prior to final judgment of the case, by way of Bill of Advocacy, but this process is infrequently resorted to. The Court also hears appeals under the Courts-Martial (Appeals) Act 1951.

The Sheriff Court has an inherent universal criminal jurisdiction (as well as an extensive civil one) limited in general to crimes and offences committed within a sheriffdom (*i.e.*, a county or a combination of counties), which has, however, been curtailed by statute or practice under which the High Court of Justiciary has exclusive jurisdiction in relation to the crimes above-mentioned. This Court is presided over by a Sheriff-Principal or a Sheriff, and when trying cases on indictment sits with a jury of 15 persons. His power of awarding punishment involving imprisonment is restricted to 2 years in the maximum, but he may under certain statutory powers remit the prisoner to the High Court for sentence. The Sheriff also exercises a wide summary criminal jurisdiction and when doing so sits without a jury; and he has concurrent jurisdiction with every other court within his sheriffdom in regard to all offences competent for trial in summary courts. The great majority of offences which come before the courts are of a minor nature and, as such, are disposed of in the Sheriff Courts. In cases indicted for trial in the High Court of Justiciary the Pleading, or First Diet, is always held in the Sheriff Court and, in these cases, the Sheriff may dispose of any objection of a preliminary nature, whether to the citation or relevancy or otherwise, or may refrain from doing so. In either case the Sheriff's decision can be reviewed by the High Court at the Second, or Trial, Diet.

Burgh Magistrates (Police Courts) and Justice of the Peace Courts have jurisdiction in petty cases occurring within the burgh, or county, and in minor offences under various statutes.

The Court of Session, presided over by the Lord President (the Lord Justice-General in criminal cases), and divided into an Inner House comprising 2 divisions of 4 judges each, and an Outer House comprising 12 single judges, exercises the highest civil jurisdiction in Scotland, with the House of Lords as a court of appeal.

Police. The police forces in Scotland at the end of 1972 had an authorized establishment of 11,961 (including 525 women); the strength was 10,733 men and 453 women. Whole-time 'additional' policemen numbered 44, and there were 4,167 part-time special constables. The estimated expenditure on police, borne by the Government, was £18.24m. for 1971-72.

NATIONAL INSURANCE

The National Insurance Act, 1946, came into operation on 5 July 1948, repealing the existing schemes of health, pensions and unemployment insurance. This Act, along with later legislation, was consolidated as the National Insurance Act, 1965.

This Act applies in general to all persons in Great Britain who are over school-leaving age, and divides contributors into three classes, *i.e.*: (a) employed persons who work under contract of service or are paid apprentices; (b) self-employed persons; (c) non-employed or insured persons not in one of the other two classes.

From April 1961 a measure of graduated contributions and additions to retirement pensions related to employees' earnings has been introduced into national insurance. Members of an occupational pensions scheme can, subject to certain conditions, be contracted out of part of the graduated pension scheme. From Oct. 1966 a scheme, also financed from graduated contributions, was introduced for the payment of earnings-related supplements to sickness and unemployment benefits and widows' supplementary allowances. The main rates of combined weekly contributions payable are as follows:

Class 2: Self-employed people		1.99	1.15	1.67	0.99
Class 3: Non-employed people		1.56	0.90	1.23	0.74

The weekly flat-rate contributions shown above include for employees in Class 1, the industrial injuries contributions, and for all Classes the National Health Service contributions, as well as the employer's redundancy contributions.

Contributions for a man are payable up to the age of 65. If, at that age, he retires from work, he pays no more contributions. If he continues working contributions are payable to the age of 70. If he works after age 70 he is liable for Industrial Injuries contribution only, but the employer remains liable for his share of the full contribution. Comparable ages for women are 60 and 65.

From 6 April 1975, however, most of the provisions of the National Insurance Act 1965 will be replaced by those of the Social Security Act 1973. The main changes will be in the contribution structure. The hybrid flat-rate plus graduated structure is replaced by a wholly earnings-related contribution for employees. Providing he earns at least a minimum amount the employee will pay 5.25% of all his earnings up to a certain level. His employer will pay a contribution equal to 7.5% of the same earnings. The self-employed will continue to pay a flat-rate contribution but higher earners will pay an additional earnings-related Class 4 contribution. This will be 5% of a band of profits or gains chargeable to tax under Schedule D. The non-employed and those employees not earning sufficient to render them liable for the Class 1 earnings-related contribution will not be obliged to contribute but will be able to pay a flat-rate Class 3 contribution voluntarily to qualify for a limited range of benefits. The respective lower and upper earning limits in relation to Class 1 and Class 4 contributions will be reviewed annually. There will be no lower rates of contributions for young people or for women (although the differential in the male and female self-employed (Class 2) contribution will not be completely phased out until about 1980). Men

aged 70 and women aged 65 (and those between 65 and 70 (men) and 60 and 65 (women) who have retired) will pay a Class 1 contribution of 0·6% if they are earning.

Benefits. The range of benefits will be unaffected by the new arrangements from 5 April 1975. The benefits are: (1) Unemployment benefit; (2) Sickness benefit, (3) Invalidity benefit; (4) Maternity benefit; (5) Widow's benefit; (6) Guardian's allowance; (7) Child's special allowance; (8) Retirement pension; (9) Death grant.

Employed persons qualify for all the benefits; self-employed qualify for all except unemployment; non-employed qualify for all except unemployment, sickness, invalidity and maternity allowance. Qualification for any benefit depends upon the fulfilment of the appropriate contribution and other conditions.

Sickness and Unemployment Benefit. The normal rate is £7·35 (£5·15 for a married woman) a week plus £4·55 a week for an adult dependant, plus £2·30 for the first child below the family-allowance age limit, £1·40 for the second child and £1·30 for each subsequent child in addition to any family allowances due. An earnings-related supplement may be paid from the 13th to 168th day of a period of interruption of employment to a person aged 18 or over and under minimum pension age (65 for men, 60 for women) who is entitled to flat-rate sickness and unemployment benefit and who has reckonable earnings of at least £500 in the relevant income-tax year. Under the Social Security Act, earnings-related supplement is payable to people under age 18.

Invalidity Benefit replaces sickness benefit after 168 days of entitlement. Under the 1965 National Insurance Act, 156 contributions, as an employed or self-employed person must have been paid. Under the Social Security Act 1973, however, this test has been discontinued. It comprises an invalidity pension of £6·75 weekly and an invalidity allowance of £1·15 if incapacity began before age 35: £0·75 if incapacity began between 35 and 45 or £0·35 if it began between 45 and 60 (55 for women). Increases are: £4·75 for an adult dependant plus £3·80 for the first child below the family allowances age limit, £2·90 for the second child and £2·80 for each subsequent child, in addition to any family allowances due.

Maternity Benefit. For a confinement a woman may receive a maternity grant of £25 and, where 2 or more children are born at the confinement, a further grant of £25 for each additional child who is alive 12 hours after its birth. If the woman has been gainfully employed or self-employed, and has been paying full national insurance contributions, she may receive a maternity allowance of £7·35 a week normally payable for 18 weeks commencing 11 weeks before the expected week of confinement, provided she does not work during this period. Maternity allowance may be increased in certain circumstances in respect of dependants in the same way as sickness and unemployment benefits.

Widow's Benefit. On her husband's death a widow normally qualifies for 26 weeks for an allowance of £10·85 a week for herself plus allowances for children below the family allowance age at the following rates: £3·80 for the first, £2·90 for the second and £2·80 for each other child (in addition to family allowances). A supplementary allowance based on her late husband's earnings may also be paid. At the end of the 26 weeks she receives a widowed mother's allowance of £7·75 for herself, and the allowances for the qualifying children continue at the same rate as for the first 26 weeks of widowhood. She may also receive her allowance at the personal rate of £7·75 a week if she has living with her a son or daughter who is under 19.

A widow's pension may be paid to: (i) A widow after the termination of her widow's allowance, if she does not qualify for widowed mother's allowance and was over the age of 40 when her husband died. (ii) A widow after she ceases to be entitled to a widowed mother's allowance if she is then over the age of 40. The standard rate of this pension is £7·75 a week if the widow was over 50 when her husband died or when her entitlement to widowed mother's allowance ended. If she was between 40 and 50, however, the standard rates range in 7% steps

from 93% of the full age-50 rate (*i.e.*, £7.21 a week) for the widow who was 49 at that time to 30% (*i.e.*, £2.33 a week) for the widow who was then 40.

Child's Special Allowance. An allowance may be payable for the children of divorced parents where the father has died. It is payable to the mother if she has not remarried and her former husband was contributing, or legally liable to contribute, at least 25p a week towards the children's support in cash or kind or if she took reasonable steps to enforce maintenance. It is similar to the allowances for widow's children and is payable at the same rates together with family allowances.

Guardian's Allowance. A person who has in his family a child below the family-allowances age limits may be entitled to a guardian's allowance of £3.80 a week if both the parents of the child are dead. When the child is illegitimate, or the parents were divorced, or one parent is missing, or serving a long sentence of imprisonment, the allowance may, in certain circumstances, be paid on the death of one parent only.

Retirement Pension. In order to receive a retirement pension, men between 65 and 70, and women between 60 and 65 must have retired from regular employment. This does not apply to women who are widowed or divorced when over 60, who can receive this pension on the termination of their marriage. The standard rates are £7.75 a week for a man or a woman on his or her own contributions and £4.75 for a married woman through her husband's contributions. Proportionately reduced pensions are payable where contribution records are deficient. An increase of £4.15 a week may be payable for a dependent wife. If she resides with the beneficiary the increase is gradually reduced for earnings over £9.50 a week. If she does not reside with the beneficiary an increase is not payable if she earns more than £4.75 a week. In addition £3.80 a week may be payable for the first child of the family under the age limits, £2.90 for the second child and £2.80 for each subsequent child in addition to any family allowances. In certain circumstances an increase of £4.75 a week may be payable for a woman having care of the pensioner's children. In addition, a man who has paid graduated contributions receive 2½p per week for every £7.50 of graduated contributions paid, and a woman 2½p per week for every £9 paid. Although no further graduated contributions will be paid after April 1975, pension already earned will be paid along with the flat-rate pension in the normal way. If, after being awarded a retirement pension, a man under 70 or a woman under 65 earns more than £9.50 in a calendar week the pension for the next pension week, including any increase for dependants, will be reduced by 5p for every 10p earned between £9.50 and £13.50 and by 5p for every 5p earned over £13.50. If retirement is postponed after minimum pension age increments of flat-rate pension of 6p a week can be earned for every 9 contributions which are paid for weeks of employment or self-employment between the ages of 65 and 70 for a man (60 and 65 for a woman).

For contributions paid before 20 Sept. 1971 these increments are at the rate of 5p for every 9 contributions paid, and for contributions paid before 30 Oct. 1967 at 5p for every 12 contributions paid. These increments are added to the pension when a person eventually retires or reaches the age of 70 (65 for a woman) whichever is the earlier. From April 1975 increments will be based on the number of weeks during which retirement is postponed rather than on contributions paid. At age 70 (65) the pension for which a person has qualified may be paid in full whether a person continues in work or not irrespective of the amount of earnings. At the age of 80 an age addition of 25p a week is payable. In addition, non-contributory pensions are now payable, subject to residence conditions, to all persons aged 80 and over who do not qualify for a retirement pension or qualify for one at a low rate. The rates of these pensions, which are financed by Exchequer funds, are £4.90 a week for a single person and £3.10 for a married woman. These amounts include the £0.25 age addition.

Second Pension. From 6 April 1975, employees between 21 and 65 (60 for women) must be provided with a second pension related to their earnings. Their employers can arrange for this through either a recognized occupational pension scheme,

which meets certain minimum requirements, or the reserve pension scheme. To supervise this aspect of the arrangements there are two independent bodies: the Occupational Pensions Board administers the new requirements affecting occupational pensions; the Reserve Pension Board is responsible for the reserve pension scheme. The Occupational Pensions Board decides whether occupational pension arrangements meet the requirements for recognition so as to exempt those concerned from contributing to the reserve pension scheme and supervises the arrangements for preserving the pension rights of early leavers. To be used for recognition an occupational scheme must provide a minimum level of personal pension, death benefit cover for married men and protect pensions against inflation. Every occupational scheme, whether or not it is used for recognition, must ensure that the benefit rights of members who leave their job before reaching normal pension age are not lost. This requirement covers members of the scheme who are aged 26 or over and who have had 5 years pensionable service or service in recognized pensionable employment when they leave. The member's benefits must either be preserved (within the scheme or, for example, by the purchase of a deferred annuity) or if the member agrees, transferred to his new employer's scheme. The Reserve Pensions Board is responsible for investing the Reserve Pension Fund and generally administering the scheme. All employees between 21 and 65 (60 for women) who are not in recognized pensionable employment must be covered by this scheme. It is run on occupational scheme lines, and on a money-purchase basis. Contributions, paid by both the employee and the employer over the same range of earnings as basic scheme contributions, are collected along with PAYE income tax.

Reserve scheme personal pensions are normally payable at 65 for men and 60 for women irrespective of whether retirement has actually taken place, but a person will be allowed to defer receipt of the pension at that age so as to draw it on enhanced rate later. Pensions will consist of a guaranteed rate related to the contributions paid and a profit sharing addition in the form of bonuses. A widow's pension is half the rate of her husband's pension or, in the case of his death before age 65, half the rate of his prospective pension.

Death Grant. This is a lump sum paid on the death of an insured person or his close relative. The normal amount of the payment is: For an adult, £30; for a child aged 6 but under 18, £22.50; for a child aged 3 but under 6, £15; for a child under 3, £9. For the death of a person who was within 10 years of pensionable age on 5 July 1948 (*i.e.*, a man over 55 and a woman over 50 on that date) only half the standard amount is payable. No grant is payable for the death of a person over pensionable age on 5 July 1948.

Payment. Unemployment benefit is paid through the Employment Exchanges but an increasing number of claimants are paid by Giro order sent direct from a computer centre. Retirement pensions and widows' benefits are generally paid through Post Offices by order books; other payments through local Social Security Offices by a Giro order.

NATIONAL INSURANCE (INDUSTRIAL INJURIES) ACT, 1965

The Industrial Injuries Act, which also came into operation on 5 July 1948, with its later amending Acts, was consolidated as the National Insurance (Industrial Injuries) Act, 1965. This Act provides a system of insurance against 'personal injury by accident arising out of and in the course of employment' and against certain prescribed diseases and injuries due to the nature of the employment. It takes the place of the Workmen's Compensation Acts and covers broadly the persons who are insured as employed persons under the National Insurance Act. The cost of the contribution is included in the employed person's National Insurance stamp, but there are no contribution conditions for the payment of benefit. Three types of benefit are provided:

(1) *Injury benefit*, payable during incapacity for work for a maximum of 26 weeks from the date of the accident or the development of the prescribed disease. The

rate of this benefit is £10·10 a week, plus earnings-related supplement where there is underlying title to sickness benefit, with increases of £4·55 for 1 adult dependant and £2·30 for the first child under the age limits, £1·40 for the second child and £1·30 for each subsequent child in addition to any family allowances due. If the insured person is under 18 years of age and is not entitled to a dependant's increase benefit will be payable at a reduced rate—£6·75. For children under the school-leaving age in part-time employment, the rate is £2·30.

(2) *Disablement benefit.* This is payable where, as the result of an industrial accident or prescribed disease, there is a loss of faculty after injury benefit ceases to be payable. The loss of faculty will be assessed at a percentage by comparison with a person of the same age and sex whose condition is normal. If the assessment is 20%, or more, benefit will be a pension varying according to the assessment, from £2·56 a week to £12·80 a week. If the assessment is under 20% benefit will normally be a gratuity of an amount not exceeding £850. Increases of benefit may be payable where a disablement causes special hardship, *i.e.*, it prevents the beneficiary from undertaking his regular job and one of a similar status, or unemployability; where there is a need for constant attendance; where there is exceptionally severe disablement and the need for constant attention is likely to be permanent or where the beneficiary is in hospital for treatment for his injury. In the case of an unemployable pensioner, or a pensioner receiving hospital treatment, an increase of £4·55 for an adult dependant and £3·80 for the first child under the age limits, £2·90 for the second child and £2·80 for each subsequent child in addition to any family allowance due, will be payable. Pensions for persons under 18 are reduced similarly to injury benefit.

(3) *Death benefit.* On the death of a person as the result of an industrial accident or a prescribed disease, certain dependants may qualify for benefit. Benefit for a widow is a pension normally of £10·85 weekly for the first 26 weeks and thereafter £8·30, depending on such factors as age, entitlement to a child's allowance and permanent incapacity for self-support. If the conditions for pension at the higher rate are not satisfied the widow may receive a pension of £2·33 a week. Children's allowances are payable to the widow, or other person, caring for children of the deceased. For widows, these allowances are usually at the rate of £3·80 a week for the eldest or only child, £2·90 for the second and £2·80 for any subsequent children; for other persons, the rate is £2·30 for the first child and £1·40 for the second child and £1·30 for each subsequent child. A pension of £1 is payable to a woman having care of a child of the deceased. Benefit for widowers, parents and certain other relatives takes the form of pensions, allowances or gratuities according to the relationship to, and degree of maintenance by, the deceased.

WAR PENSIONS

The number of beneficiaries in receipt of war (1914–18) pensions or allowances as at 31 Dec. 1973 was 104,661. The number of beneficiaries in receipt of war (1939–45 and later) pensions or allowances in payment as at 31 Dec. 1973 was 376,821. The estimated expenditure for both wars for 1972–73 is £158m. The expenditure is exclusive of administrative expenses.

NATIONAL INSURANCE FUND

At 31 March 1973 the combined balances of the National Insurance Fund and the National Insurance (Reserve) Fund amounted to £1,220,977,442. Income to the National Insurance Fund during the period 1 April 1970 to 31 March 1971, consisting of contributions from insured persons and employers, payments from the Exchequer and interest on investments, etc., was £3,832,183,267. Payments of benefit in respect of unemployment were £209,129,830; sickness, £290,622,561; maternity, £40m.; widows, £220m.; guardian's allowance, £800,000; child's special allowances, £110,000; retirement pension, £2,368,554,390; death grants, £13,108,967. Included in those figures are the following estimated amounts of earnings-related supplement: unemployment benefit, £35m.; sickness benefit,

£72m.; widow's benefit, £7m.; graduated retirement benefit, £23m. The combined balance at 31 March 1971 was £1,097,249,820.

Industrial Injuries Fund. Income during the period 1 April 1970 to 31 March 1971, consisting of contributions from insured persons and employers, payments from the Exchequer and interest on investments, etc., amounted to £156,435,315. Benefits for injury totalled £32,346,747; for disablement, £78,101,611; for deaths, £11.7m. Administrative and other payments cost approximately £15.5. There was a balance at 31 March 1973 of £380,598,952.

With effect from 1 April 1975 the National Insurance Reserve Fund and the Industrial Injuries Fund will be merged with the National Insurance Fund. All basic scheme contributions payable under the 1973 Social Security Act will be paid into the single fund out of which the existing range of benefits will continue to be financed. The new national insurance fund will continue to receive a Treasury Supplement set at a level of about 18% of total contribution income.

FAMILY ALLOWANCES

Family allowances are cash payments, for the benefit of the family as a whole, to families with more than 1 child below the age limits. The weekly allowance is 90p where there are 2 children, with a further £1 for each additional child. The age limits are 16 for children who leave school at that age and 19 for those who are receiving full-time education at a school, college or university, or are apprentices with low earnings

FAMILY INCOME SUPPLEMENT

Family income supplement is payable to families with at least 1 dependent child where the head of the household is in full-time, *i.e.*, 30 hours or more a week, remunerative work, and where the family's normal gross weekly income, including gross full-time earnings and family allowances is below a prescribed amount. The prescribed amount for a 1-child family is £21.50, this amount being increased by £2.50 for each additional child in the family. The weekly rate of benefit payable is one-half of the difference between the prescribed amount and the family's normal income, subject to a maximum weekly payment of £5 for families with 1 or 2 children and £6 for larger families. Benefit is usually payable for 52 weeks and is not affected by changes in circumstances. The prescribed amounts are the same for both 1- and 2-parent families.

ATTENDANCE ALLOWANCE

This is a tax-free allowance for severely disabled people, including children aged 2 or over, who require a lot of help from another person. There are 2 rates, the higher rate of £6.20 a week for those who require attention or supervision by day and night, and the lower rate of £4.15 a week for those who need the attendance either by day or night. In addition to the medical requirements a simple test of residence and presence in Great Britain must also be satisfied.

SUPPLEMENTARY BENEFIT

Supplementary Benefit. Under the Ministry of Social Security Act, 1966, the Supplementary Benefits Commission is responsible for the award of financial assistance to any persons in Great Britain aged 16 years or over (excluding persons at school or college or anyone directly involved in a trade dispute) who are not in full-time remunerative work and who are without resources, or whose resources (including national insurance benefits) need to be supplemented in order to meet their requirements. A person who is excluded from benefit may, nevertheless, receive payments to meet urgent need. The general standards by reference to which supplementary benefit is granted are determined by statutory regulations approved by Parliament. Persons who are dissatisfied with the

amount of benefit granted to them may appeal to one of the independent Appeal Tribunals established under the Act.

During the financial year 1970-71 net payments on supplementary benefit amounted to £532m.

NATIONAL HEALTH

The National Health Service in England and Wales started on 5 July 1948 under the National Health Service Act, 1946. There is a separate Act for Scotland and also one for Northern Ireland, where the Health Services are run on similar lines to those in England and Wales.

The National Health Service, which is available to every man, woman and child, is a charge on the national income in the same way as the armed forces and other facilities. Every person normally resident in this country is entitled to use any complete part of the services, and no insurance qualification is necessary.

Most of the cost of running the service is met from the national exchequer, *i.e.*, from taxes.

Since Sept. 1957 there has been a weekly National Health Service contribution which is now 24p for men (employee 16p, employer 8p). Women, persons under 18, self-employed and non-employed persons pay a smaller contribution. For convenience this contribution is collected with the National Insurance contribution in a single combined weekly stamp, and for 1971-72 is estimated to be £227m. (£213m. in 1970-71). Eligibility for treatment under the National Health Service does not in any way depend on the payment of contributions.

Organization. Under the provisions of the National Health Service Reorganization Act 1973, the administration of the National Health Service will be organized under a system of regional and area health authorities. From 1 April 1974 there will be 90 area health authorities in England responsible for the administration and development of all the health services in their areas. Fourteen regional health authorities, each consisting of a number of complete health areas, will be responsible for allocating resources between the area health authorities in their regions and for monitoring their performance. The regional health authorities will also be responsible for developing strategic plans and priorities and for carrying out certain executive functions.

Services. The National Health Service broadly consists of hospital and specialist services, general medical and dental services, pharmaceutical services and ophthalmic services; local authority health services. All these services are free of charge except for such things as prescriptions, spectacles, dentures and dental treatment, amenity beds in hospitals and for some of the local authority services, for which charges are made with certain exemptions.

The total cost of the Health and Personal Social Services (England and Wales) is estimated at £3,066m. for 1973-74 and the estimated net expenditure by the Exchequer (except for the Local Health and Personal Social Services, where the rates and the Exchequer grants amounted to £579m.) in 1973-74 is £2,126m.

The number of abortion notifications received in 1972 under the provisions of the Abortion Act, 1967, was 156,714. Of these, 75,858 (48.4%) were to single women, 67,840 (43.3%) were to married women, 12,889 (8.2%) were to widowed, divorced or separated women. The remaining 127 (0.1%) were to women who did not state their marital status.

PERSONAL SOCIAL SERVICES

Under the Local Authority Social Services Act 1970 the welfare and social work services provided by the larger local authorities were made the responsibility of a new local authority department—the Social Services Department headed by a Director of Social Services. The social services thus administered include: the fostering, care and adoption of children welfare services and social workers for

the mentally disordered, the disabled and the aged, accommodation for the homeless and those needing residential care services.

The number of persons in residential and temporary accommodation was as follows:

National Economic Development Council. The NEDC (Neddy), which first met in 1962, is the national forum for economic consultation between government, management and unions. The council, with the Chancellor of the Exchequer in the chair, includes leading representatives of the government, CBI and TUC besides chairmen of nationalized industries and independent members. Discussions at the monthly council meetings are normally based on papers, presented by the participating parties, which deal primarily with questions of medium-term national economic performance and prospects, besides seeking to agree on ways of improving industrial efficiency. Council meetings are held in private to encourage the frank exchange of views between members, and discussions are summarized at a press conference taken by the Director-General of NEDC following each meeting. The Economic Development Committees (Little Neddies), like the NEDC, bring together representatives of management and unions and officials from government, who use this neutral meeting place to study the efficiency and prospects of individual industries. The National Economic Development Office (NEDO) provides the professional staff for the NEDC and the EDCs.

Taxation

In 1971 the Chancellor of the Exchequer announced a single graduated income tax which came into operation on 6 April 1973, replacing the existing income tax and surtax.

The previous system income tax and surtax was constructed in terms of investment income with a complicated pattern of allowances for earned income (the earned income relief for income tax and surtax and the special earnings allow-

ance for surtax). After deducting earned income relief and personal allowances, a person's total income was charged to income tax at the standard rate (for 1972-73) of 38.75%: in practice, this rate applies primarily to investment income and the effective marginal rate on earned income (up to £4,005) was reduced to 30.14% by the earned income relief of two-ninths.

Surtax was an additional income tax charged where an individual's income from all sources, after deducting admissible charges on income and certain personal allowances and reliefs for earned income, exceeded £3,000 (for 1971-72). The tax was charged on the excess of the income over £2,000, a rising scale of rates being applied to successive slices of the excess. Surtax was assessed quite separately from standard rate income tax. It is not included in the amounts deducted from earnings under PAYE or from dividends or interest.

<i>Rates of Personal Tax from 6 April 1974</i>	%
Income up to £4,500	33
£4,500-5,000	38
£5-6,000	43
£6-7,000	48
£7-8,000	53
£8-10,000	58
£10-12,000	63
£12-15,000	68
£15-20,000	78
Over £20,000	83
 Surcharge on investment income	
Up to £1,000	—
£1-2,000	10
Over £2,000	15

The previous pattern of personal allowances is substantially retained. However, taken in combination with earned income relief the previous personal allowances represent for earned income a larger exemption than their nominal value. For example, the single personal allowance (for 1972-73) of £460, combined with earned income relief, represented an exemption of £592: earnings of £592 were exempted from tax by earned income relief of two-ninths of £592, which is £132, plus £460 personal allowance.

Under the new tax system, the amounts of the personal allowances are adjusted so that they retain their equivalent value in relation to earned income.

<i>Personal Allowances</i>	1973-74 £	1974-75 £
Single person		
Wife's earned income } Married man	595	625
Child: under 11	775	865
11-16	200	240
over 16	235	275
Additional relief for children	265	305
Dependent relative:	130	130
Single woman claimant		
Others	145	145
Housekeeper	100	100
Relative taking charge of younger brother or sister	100	100
Daughter's services	55	55
Blind person	130	130

Deductions of tax under PAYE continues under the new system but extends over the full range of unified tax rates and not merely the basic rate. Similarly, assessment on business profits and on other income which was directly assessed to tax, such as rents and interest on bank deposits, are made by reference to the full scale of rates, including where appropriate the investment income surcharge.

The basic rate of 33% is the rate at which tax is deducted from payments of interest, etc., and corresponds under the new corporation tax system, to the tax credit on dividends. Where an individual's total income is such that he is liable

on this taxed investment income at rates exceeding 33%, or if his investment income is high enough to make him liable to the surcharge, the higher rate or surcharge liability on this taxed investment income will in general be assessed separately after the end of the tax year.

Corporation Tax. Corporation Tax applies, with certain exceptions, to trades or businesses carried on by bodies corporate or by unincorporated societies or other bodies and this tax came into force from April 1966 replacing Profits Tax. The rate of this tax for 1969-71, 45%; but in Oct. 1970 this was reduced to 42½% for financial year 1969-70 and reduced again to 40% in 1970-71. From 1973 reduced rates of Corporation Tax for companies whose annual profits do not exceed £15,000, with tapering provisions for companies with profits up to £25,000. 1973-74, 52% but for small companies 42%.

Capital Gains Tax. Gains resulting from the disposal of capital assets (other than British Government and Government guaranteed securities and certain exempted forms of property such as a private car and personal residences) are taxed under the Finance Act 1965. In 1970-71 exemption was granted for all gains made in a financial year which in total did not exceed £500.

Selective Employment Tax. SET was abolished on 31 March 1973.

Value Added Tax. Value Added Tax was introduced from 1 April 1973 at the rate of 10% on the supply of goods (with certain exceptions) and services. At the same time a tax of 10% on the wholesale value of new and imported cars was introduced.

National Debt

Borrowing by the State on the security of taxes was practised in Norman times but the National Debt really dates from the time of William III. The acknowledged debt in 1689 was about £664,000, on which the annual charge for interest and management was £40,000. At various subsequent dates the amounts (in £1m.) were as follows (including the Irish debt throughout):

		Debt ¹	Annual charge ²	Annuities only

On 31 March 1973 the net national debt amounted to £35,268,885,649 including National Savings Certificates, £2,143,288,538; Premium Savings Bonds, £985,976,244; Defence Bonds, £223,573; National Development Bonds, £90,961,288; British Savings Bonds, £1,787,998,973.

Local Taxation

The amount of rates collected by local authorities in 1973-74 in England and Wales is estimated to have been £2,564m. (£2,273m. in 1972-73); in Scotland (1971-72) £245m. inclusive of £10.2m. for water rates.

Under the Local Government Act 1974, the Government gives general financial assistance to local authorities by means of rate support grants. These grants contain: (i) the needs element which is payable to non-metropolitan counties, metropolitan districts and London Boroughs. The total needs element for England and Wales has been fixed at £1,907m. for 1974-75 and £2,299m. for 1973-74; (ii) the resources element which is payable to rating authorities if its rateable value per head is less than the prescribed national standard rateable value per head (£154, 1974-75). Total grants have been prescribed at £723m. for 1974-75 and £383m. for 1973-74; (iii) the domestic element, which compensates rating authorities for loss of rate income in reducing rates to domestic dwellings. The Secretary of State may prescribe differing amounts for different rating authorities. For 1974-75 the total amount of grant prescribed for the fixed domestic relief for all domestic dwellings of 7p is £231m., for the additional variable relief, £215m.

Grants are also payable on revenue expenditure for specific services, including police and housing; and capital expenditure on certain services also attracts capital grant, *e.g.*, on principal roads, rural water and sewerage coast protection.

In Scotland, from 16 May 1967, under the Local Government (Scotland) Act 1966, rate support grants replaced General grant, Exchequer equalization grant and certain specific grants, in particular grants in aid of school milk and school meals, and some highway grants. The totals of the rate support grants and the amounts of the three component parts of the rate support grants for the local authority years 1973-74 and 1974-75, as prescribed by the Rate Support Grant (Increase) (Scotland) (No. 2) Order, 1974 and the Rate Support Grant (Increase) (Scotland) (No. 2), 1974 respectively are £396.58m. and . . . ; needs element, £280.88m. and . . . ; resources element, £93.63m. and £ . . . ; domestic element, £22.67m. and . . . The domestic element is given towards the cost of reducing the rates payable on domestic properties as required by the 1966 Act (£0.15 in the £ in 1973-74 and £0.17 in 1974-75), and payments under Part V of the Local Government Act, 1948, amounted in 1973-74 to £6,511,480. As in England and Wales, capital and revenue grants are also payable on expenditure for certain specific services.

Local authority loan debt at 31 March 1968 amounted to £11,415m. The Public Works Loan Board provided £3,837m., and £1,251m. was represented by quoted Stock Exchange securities other than bonds. (Negotiable bonds amounted to £258m.)

The rateable value on which rates were leviable in England and Wales immediately prior to the revaluation which took effect from 1 April 1963 was £756,164,511. The rateable value at 1 April 1968 was £2,313,678,100. In Scotland the effective rateable value was £276,471,943 in 1971-72.

In England and Wales the average amount of the rates collected per £ of rateable value was £0.34 in 1913-14; and estimated to be £0.60 for 1967-68 and £0.62½ for 1968-69. In Scotland the estimated average amount per £ of rateable value of the rates, inclusive of water rates, in 1971-72 was 91.5p and exclusive of water rates, 85p.

The rateable value of the Greater London Council was £1,834,101,019 on 1 April 1973. The net debt of the Greater London Council on 31 March 1973 was £898.5m. The education service of the Inner London Education Authority is estimated to cost £271.3m. and £105m. has been provided for housing loans in 1974-75.

DEFENCE

All important problems of defence policy are considered by the Defence and Overseas Policy Committee presided over by the Prime Minister, and consisting of certain Ministers of the Government, among whom are the Secretary of State for Defence, the Foreign and Commonwealth Secretary and the Home Secretary. The Secretary of State for Defence is responsible for carrying out this Committee's decisions relating to defence, after endorsement as necessary by the Cabinet.

The complete re-organization of the 3 Service Departments (Admiralty, War Office and Air Ministry) under the Secretary of State for Defence took place in 1964. A Defence Council was also established under the Secretary of State to exercise the powers of command and administrative control previously exercised by the separate service councils, which became subordinate to it. Further re-organization, on 6 Jan. 1967, reduced the status of the administrative heads of the 3 Services from Ministers to Under-Secretaries of State, while creating 2 new posts: Minister of Defence (Administration) and Minister of Defence (Equipment). Further reorganization of these 2 posts later reduced them to that of a single Minister of State for Defence. The present membership of the Defence Council consists of the Secretary of State for Defence, the Minister of State for Defence, the 3 Service Under-Secretaries of State, the Chiefs of Defence, Naval, General and Air Staffs, the Chief of Personnel and Logistics, the Chief Scientific Adviser, the Chief Executive of the Procurement Executive and the Permanent Under-Secretary of State.

Logistics Services. Since the inception of a unified Ministry of Defence in 1964, progress has been made in the rationalization of the logistics services of the Royal Navy, the Army and the Royal Air Force. Airfield construction for all Services is now the responsibility of the Army's Royal Engineers; the Air Force Department is responsible for accommodation stores for maintenance and for the initial furnishing of new buildings; the Army Department is the single management authority for the design, development, procurement and inspection of clothing other than certain specialized clothing; the Navy Department has for some time been responsible for ration policy provisioning, procurement, storing and distribution of food to main depots and to Army forward supply depots in BAOR and is responsible for water transport to its tri-service responsibilities. The supply of Naval air stores is now being integrated with those of the RAF. Considerable savings in money and in Service and civilian manpower have already been realized and are expected to continue.

The Procurement Executive. An important development in 1971 was the creation of a Procurement Executive to combine the Defence Procurement responsibilities of the Ministry of Defence and the former Ministry of Aviation Supply.

Service Strengths at 1 Jan. 1974, all ranks, males and females: Royal Navy and Royal Marines, 81,000; Army, 177,000; Royal Air Force, 103,500; Total, 361,000.

Defence Budget Estimates: 1973-74, £3,365m.; 1974-75, £3,559m.

Royal Navy

The Royal Navy is a permanent establishment, governed by the Admiralty Board of the Defence Council. The Secretary of State for Defence is Chairman of the Admiralty Board; the Minister of State for Defence is Vice-Chairman. The members of the Admiralty Board and their responsibilities are as follows: The Parliamentary Under-Secretary of State for Defence for the Royal Navy; The Chief of the Naval Staff and First Sea Lord (professional head of the Royal Navy), assisted by the Vice-Chief of the Naval Staff, responsible for fighting efficiency, policy planning and operations advice; The Chief of Naval Personnel and Second Sea Lord, responsible for the manning of the Fleet, service conditions, training, discipline and welfare; The Controller of the Navy (formerly also Third Sea Lord), responsible for research and development, design, production, inspection, repair and maintenance of ships, their weapons and equipment; The Chief

of Fleet Support, known until 1968 as Chief of Naval Supplies and Transport and Vice-Controller (formerly also Fourth Sea Lord), responsible for the provision of naval armament, victualling and medical stores and fuels, and for the movement of transport of persons and material, and superintending Dockyard organization and maintenance of the Fleet; and The Chief Scientist (Royal Navy), responsible for superintending the conduct of all research and development and the deployment of scientific effort. The post of Second Permanent Under-Secretary of State (Royal Navy) (formerly Permanent Secretary) lapsed in 1968 (he was Civil Service head, responsible for general co-ordination of the Admiralty Board business, the interior economy of the Navy department, Navy contracts and the administration of civil staff, and accounting officer for Navy Votes responsible for the control of expenditure and adviser to the Admiralty Board on financial questions). Thus the office of Samuel Pepys, of which the last holder was the 33rd, passed into history. The Deputy Under-Secretary of State (Navy) is the Board Member now responsible for some of these functions. Financial and staff control is vested in the Second Permanent Under-Secretary for Administration and the Second Permanent Under-Secretary for Equipment.

The cruiser *Belfast* was reclassified as a harbour accommodation ship in June 1966 but ceased to act in this capacity in Feb. 1971, and on 21 Oct 1971 became a museum ship on the Thames above Tower Bridge.

The cruisers *Ceylon* and *Newfoundland* were sold to Peru in Dec. and Nov. 1959 respectively. *Birmingham* was scrapped in 1960; *Jamaica* and *Superb* were scrapped in 1961; *Kenya* and *Swiftsure* in 1962; *Bermuda* and *Mauritius* in 1965. *Sheffield* was towed to the shipbreakers in Jan. 1967; *Gambia* in 1968.

Submarines are of the following classes: 'Resolution' (nuclear powered and Polaris missile armed), 4; 'Swiftsure' (nuclear powered), 2; 'Valiant' (nuclear powered), 5; 'Dreadnought' (nuclear powered), 1; 'Oberon', 13; 'Porpoise', 8; 'A', 1. Surface displacements range from 1,385 to 7,500 tons.

The first nuclear-powered fleet submarine, *Dreadnought*, was commissioned on 17 April 1963; and the first nuclear powered ballistic missile submarine, *Resolution*, was accepted in Oct. 1967.

The destroyers of the Royal Navy are of the following classes: 'Bristol', 1; 'County', 8. Standard displacements range from 5,440 to 5,650 tons.

Frigates are of the following classes: 'Amazon', 1; 'Mermaid', 1; 'Leander', 26; 'Tribal', 7; 'Rothesay', 9; 'Leopard', 3; 'Salisbury', 4; 'Whitby', 3; 'Blackwood', 6; 'Type 15', 3. Displacements range from 1,180 to 2,550 tons.

Ships under construction or on order include 3 nuclear powered submarines, 6 guided missile armed destroyers, 8 frigates and 4 patrol craft. A 'through-deck' cruiser (small aircraft helicopter carrier) was ordered in April 1973 and laid down in July 1973.

The 'Type 82' guided missile armed destroyer *Bristol*, larger than the 'County' class, was launched on 30 June 1969 and completed in 1973; and the first 'Type 42', *Sheffield*, was laid down on 15 Jan. 1970 and launched on 10 June 1971.

The Navy estimates for 1970-71, £659,378,500; 1971-72, £690m.; 1972-73, £700m. (estimate); 1973-74, £710m. (estimate).

The total personnel of officers and ratings provided for was (in 1,000) 1970-71, 86.6; 1971-72, 83.5; 1972-73, 83.1; 1973-74, 81.5.

Army

Control of the British Army is vested in the Defence Council and is exercised through the Army Board, which consists of 6 civilian and 5 military members. The Secretary of State for Defence is Chairman of the Army Board. The other civilian members are the Minister of State for Defence and the Parliamentary Under-Secretary of State for Defence for the Army, the Chief Scientist (Army) and the Deputy Under-Secretary of State (Army) and the Second Permanent Under-Secretary of State (Administration) who attend meetings as appropriate.

The Military members of the Army Board are the Chief of the General Staff, the Adjutant-General, the Quartermaster-General, the Master-General of the Ordnance and the Vice-Chief of the General Staff. The Chief of the General Staff is the professional head of his Service and the professional adviser to Ministers on the Army aspects of military problems. He is responsible for the fighting efficiency of his Service; for the consideration of all Army aspects of policy planning; for Army advice on the conduct of operations; and for the issuing of such single Service operational orders as may be appropriate resulting from defence policy decisions. The Chief of the General Staff is a member of the Chiefs of Staff Committee which is collectively responsible to HM Government for professional advice on strategy and military operations and on the military implication of defence policy. This advice is tendered to the Secretary of State for Defence by the Chairman of the Chiefs of Staff Committee, the Chief of the Defence Staff. In exercise of his General Staff responsibilities the Chief of the

General Staff is assisted by the Vice-Chief of the General Staff. The Adjutant-General is responsible for Army manpower within the policy set by the General Staff; for recruiting and selection; for the administration and individual training of military personnel; for the discipline of the Army; for pay and allowances and pensions; for the Army Cadet Force and Combined Cadet Force, for Army medical services; for dental and nursing services; for legal services; for questions of Army welfare and education including school children overseas; and for resettlement and sports. The Quartermaster-General is responsible for logistic planning for the Army; for the storage, distribution, maintenance, repair and inspection of equipment, stores and ammunition; for development of stores; for supply, transport and accommodation; for the development, production and inspection of clothing; for military movements and transportation; for the veterinary and remount services; for the Army postal, catering, salvage and fire services; and for questions connected with canteens, institutes and military labour. The Master General of the Ordnance is a member of both of the Army Board and of the Procurement Executive. He is responsible to the Chief Executive (Procurement Executive) for the financial and technical management of the approved programme for the procurement of land service equipment for the Armed Services, and to the Army Board for the co-ordination of the Army's total equipment programme. The Chief Scientist (Army) is responsible for providing scientific advice to the Army Board and its members and for ensuring that the Defence Research Programme properly reflects their needs. He is also a member of the Procurement Executive as Deputy Controller, Research and Development Establishments, and Research (B). The Deputy Under-Secretary of State (Army) is responsible for the general co-ordination of Army Board business and, under the Permanent Under-Secretary of State and the Second Permanent Under-Secretary of State (Administration), for providing the Board with financial and administrative guidance.

The reorganization of the Army Command structure in the UK was completed by 31 March 1973. Headquarters United Kingdom Land Forces at Wilton now commands all Army units in UK but the Ministry of Defence retains direct operational control of units in Northern Ireland. Command by HQ United Kingdom Land Forces will be exercised through 9 district headquarters and Headquarters 3 Division. There are 3 major overseas Commands: Near East Land Forces, Hong Kong and the British Army of the Rhine. There are also garrisons in Gibraltar and Belize.

The strength of the Regular Army (less the Brigade of Gurkhas, locally enlisted personnel and junior soldiers) on 1 Jan. 1974 was 159,000 men and 6,000 women. The citizen force is the Territorial and Army Volunteer Reserve, formed on 1 April 1967 to replace the Territorial Army and the Army Emergency Reserve.

The Territorial and Army Volunteer Reserve has an establishment of about 74,000. Its role is to provide a national reserve for employment on specific tasks at home and overseas and to meet the unexpected when required; and, in particular, to complete the Army Order of Battle of NATO committed forces and to provide certain units for the support of NATO Headquarters, to assist in maintaining a secure UK base in support of forces deployed on the Continent of Europe and to provide a framework for any future expansion of the Reserves. In addition, men who have completed service in the Regular Army normally have some liability to serve in the Regular Reserve. All members of the TAVR and Regular Reserve may be called out by a Queen's Order in time of emergency or imminent national danger and most of the TAVR and a large proportion of the Regular Reserve may be called out by a Queen's Order when warlike operations are in preparation or in progress. There is a special reserve force in Northern Ireland, the Ulster Defence Regiment, 9,000 strong, which gives part-time support to the regular army.

Men, women and juniors enlist in the Army for 22 years' active and reserve service. However, under a scheme introduced in May 1972 they are entitled to give 18 months' notice to leave active service provided they serve for a minimum

of 3 years. Alternatively, they can agree to serve for 6 or 9 years to receive the benefit of higher rates of pay. Those enlisting in certain technical trades must agree to serve for a minimum of 6 years. Recruits under the age of 17½ on reaching the age of 18 are entitled either to confirm their original engagement or to reduce their period of service to 3 years.

Women serve in both the Regular Army and the TAVR in the Queen Alexandra's Royal Army Nursing Corps and the Women's Royal Army Corps, the latter's employments including communications, motor transport, clerical and catering duties. Some officers of the Women's Royal Army Corps are employed on the staffs of military headquarters.

Royal Air Force

In May 1912 the Royal Flying Corps first came into existence with military and naval wings, of which the latter became the independent Royal Naval Air Service in July 1914. On 2 Jan. 1918 an Air Ministry was formed, and on 1 April 1918 the Royal Flying Corps and the Royal Naval Air Service were amalgamated, under the Air Ministry, as the Royal Air Force. In 1937 the units based on aircraft carriers and naval shore stations again passed to the operational and administrative control of the Admiralty, as the Fleet Air Arm. In 1964 control of the Royal Air Force became a responsibility of the unified Ministry of Defence.

The Royal Air Force is administered by the Air Force Board, of which the Secretary of State for Defence is Chairman. The Minister of State for Defence is Vice-Chairman, as are the Minister of State for Defence Procurement and the Under-Secretary of State for Defence for the Royal Air Force, who normally acts as Chairman on behalf of the Secretary of State. Other members of the Board are the Chief of the Air Staff, who is assisted by the Vice-Chief of the Air Staff, the Air Member for Personnel, the Air Member for Supply and Organization, the Controller of Aircraft, the Chief Scientist (Royal Air Force), the Deputy Under-Secretary of State (Air) and the Second Permanent Under-Secretary of State for Administration. The Royal Air Force is organized into commands:

Home Commands. Strike, Training and Maintenance Commands. The Air Training Corps and the Air Sections of the Combined Cadet Force are under the control of Training Command.

Overseas Commands. The Near East Air Force (HQ Cyprus); Royal Air Force Germany (2nd Tactical Air Force). Small units east of Suez.

The RAF College, which trains general-duties, engineering, and supply and secretarial graduates for permanent commissions, is at Cranwell. The RAF Staff College is at Bracknell. The RAF College of Air Warfare is at Manby. The strength in mid-1973, including WRAF and boys, was 109,000.

There is a single multi-role operational command in the UK, known as Strike Command, made up of 6 Groups. No. 1 Group is responsible for control and training of the strike/attack, air-to-air refuelling and reconnaissance forces. There are home-based squadrons of Vulcan Mk. 2 medium bombers; Buccaneer low-level strike and maritime attack aircraft; Victor flight refuelling tankers; and reconnaissance squadrons of Vulcan SR. Mk. 2 and Canberra aircraft. No. 11 Group controls air defence squadrons of Lightning and Phantom supersonic all-weather fighters, armed with air-to-air missiles, and their associated communications and ground environment radars, including the Ballistic Missile Early Warning System station at Fylingdales. No. 11 Group also has Shackleton AEW. Mk. 2 airborne early warning aircraft. No. 18 Group has Nimrod MR. Mk. 1 maritime reconnaissance aircraft and Whirlwind helicopters for search and rescue. No. 38 Group is responsible for the UK ground attack force of Phantoms and V/Stol Harriers (being supplemented by Jaguars); reconnaissance Phantoms;

Wessex and Puma helicopters for tactical and logistic support in the battlefield area; RAF Regiment UK squadrons, equipped with Bofors L40 70 guns, Tiger-cat missiles, and other weapons for airfield defence; and the Tactical Communications Wing. No. 46 Group is responsible for the UK-based squadrons of VC10 and Comet jets, turboprop Britannia, Belfast, Hercules and Andover transports, and smaller communications aircraft; and the Queen's Flight, with 3 Andovers and 2 Wessex helicopters. Strike Command has NATO commitments, but is available for overseas reinforcement. Its sixth Group is Military Air Traffic Operations. Training Command utilizes Bulldog (replacing older Chipmunk) primary trainers, Jet Provost basic trainers, Gnat, Varsity (being replaced by Jetstream) advanced trainers, twin-jet Dominies, turboprop Argosies and Varsities for navigation and aircrew training, and a variety of other types, including helicopters.

Squadrons of RAF Germany, under SACEUR, have Harrier V/STOL strike aircraft, Phantom and Lightning fighters, Buccaneer strike aircraft, Wessex helicopters, Pembroke communications aircraft and Bloodhound surface-to-air missiles. Jaguars are to re-equip the Phantom squadrons, after which the Phantoms will replace Lightnings for air defence duties. The Near East Air Force has 2 squadrons of Vulcan Mk. 2 medium bombers, 1 squadron of Lightning fighters, Canberra reconnaissance aircraft, Nimrod maritime reconnaissance aircraft, Hercules transports, helicopters and Bloodhound surface-to-air missiles, and has to support CENTO. It also commands the RAF staging post at Gan in the Indian Ocean and Gibraltar, and exercises administrative control of RAF units in Hong Kong and Singapore. There are Wessex helicopters at both of these last places, and Nimrods at Singapore as part of the Five Power defence force. New types of aircraft under development for the RAF include the MRCA multi-role combat aircraft and Hawker Siddeley Hawk advanced trainer.

FUEL AND POWER

Fuel. The number of National Coal Board mines producing coal on 31 March 1972 was 281. Statistics of the coalmining industry (including licensed mines) for recent years are as follows:

	1969-70 ¹	1970-71 ¹	1971-72 ¹	1972-73 ¹
Saleable output of coal:

Total (1,000 tons)	3,500	2,982	2,059	2,288

¹ 12-month period ending March.

Total stocks of coal on 31 March 1973 amounted to 32.6m. tons (20.6 tons distributed, 12m. tons undistributed). Operating loss made by the NCB for the year ended 31 March 1973 amounted to £83.3m. (collieries, £88.8m. loss; opencast, £19.4m. profit). Interest payable to the Secretary of State for Trade and Industry, £43m.

Production of coke (including coke breeze) amounted to 1972-73 to 4.47m. tons.

In 1972-73 inland consumption (1,000 tons) of coal at home is estimated to have been 130,905, some of the principal users being: Power stations, 70,264;

coke ovens, 23,035; domestic, 15,526; other conversion industries, 5,232; collieries, 1,552; gasworks, 588.

Petroleum. Production 1972, in 1,000 tons (1973 in brackets): Throughput of crude process and shale oil, 105,290 (112,532); output of refinery fuel, 6,319 (6,942); aviation and motor spirits, 13,833 (14,978); kerosine, 6,721 (7,152); diesel oil, 25,133 (27,412); fuel oil, 40,355 (41,361); lubricating oils, 1,313 (1,453); bitumen, 1,973 (2,190).

Gas. The British gas industry, which had passed into public ownership on 1 May 1949, under the terms of the Gas Act 1948, was reorganized as the British Gas Corporation on 1 Jan. 1973. On that date, under the terms of the Gas Act 1972, the Corporation assumed the duties and powers previously exercised by the Gas Council and 12 Area Gas Boards. The Corporation consists of a chairman and not less than 10 nor more than 20 other members, all appointed by the Secretary of State for Trade and Industry. The Act gives the Corporation the general duty 'to develop and maintain an efficient, co-ordinated and economical system of gas supply'. It will be able to determine the management structure of the gas industry and to adapt it to future changes in circumstances. Its particular powers include the power to search and bore for and obtain natural gas, to manufacture gas, to acquire gas, to transmit and distribute gas, to manufacture by-products, plant and gas fittings, and to install and maintain gas fittings.

In 1972-73 gas sales totalled about 10,180m. therms. Of the total, 4,603m. therms were sold to domestic customers, who number about 12.9m.; 4,530m. therms to industrial customers, who total nearly 70,000; and 1,046m. therms to commercial customers, who number about 515,000. More than 90% of the available gas was natural gas, mainly from the North Sea fields, nearly 8,000m. therms being in direct supply to new or converted customers, and the remainder being reformed for use in areas not yet converted to direct supply.

The industry had a gross income of £900m. in 1972-73, gas sales accounting for about £735m. of this. The surplus for the year was just over £5.6m. Total number of employees on 31 March 1973 was 105,670, of whom 45,849 were classified as manual workers and 59,821 as staff employees and officers.

Electricity. The electricity industry was invested in the British Electricity Authority on 1 April 1948. Following the re-organization of the electricity supply industry after the passing of the Electricity Act, 1957, the statutory bodies comprising the electricity service in England and Wales are the Electricity Council, the Central Electricity Generating Board and the 12 Area Electricity Boards.

The Electricity Council has functioned from Jan. 1958 as the central council for the supply industry in England and Wales for consultation on, and formulation of, general policy; its main functions are to advise the Secretary of State for Energy on all matters affecting the supply industry, and to promote and assist the maintenance and development by the Central Electricity Generating Board and the Area Boards known collectively as Electricity Boards) of an efficient, co-ordinated and economical system of electricity supply. The Council can also perform services for the Boards, and, in addition, has certain specific functions, particularly in matters of finance, research and industrial relations.

The Central Electricity Generating Board is responsible for the generation and bulk supply of electricity to the 12 Area Boards in England and Wales. It therefore plans the provision of new generating and transmission capacity, including the siting and construction of new generating stations, both conventional and nuclear, and is responsible for the operation and maintenance of generating stations and the main transmission systems.

Area Electricity Boards. Each of the 12 Area Electricity Boards acquires bulk supplies of electricity from the Generating Board and is responsible for distribution networks and sales of electricity to its Area consumers. Thus distribution

and utilization of electricity, and also the contracting and sale of appliances side of the industry, are their responsibilities.

The number of power stations owned by the Generating Board in England and Wales on 31 March 1973 was 174 with a total output capacity of 56,427 mw. Total number of consumers in England and Wales on 31 March 1973 was 18,925,000 (on 31 March 1972, 18,699,000).

Electricity sold in England and Wales in 1972-73 amounted to 191,159m. units. Revenue from sales of electricity in 1972-73 was £1,717.6m. Coal used for electricity generation in 1972-73 amounted to 62.9m. metric tons (62.4m. metric tons in 1971-72). Total fuel (coal equivalent) used in 1972-73 amounted to 100.5m. metric tons and in 1971-72 to 94.9m. metric tons. Eight nuclear stations of total capacity 3,500 mw provided 10% of generation in 1972-73. Their gas-cooled graphite-moderated reactors use natural uranium fuel canned in magnesium alloy (Magnox). Four advanced gas-cooled reactor (AGR) stations totally 5,000 mw are under construction, the first entered service in 1974.

The number of persons employed by the Generating Board, the Electricity Council and the Area Boards at the end of March 1973 was 173,239.

METALS

The UK is the fifth largest steel producing country in the world.

Output in recent years was as follows (in 1,000 tons):

	Iron ore	Pig-iron	Crude steel	Home consumption ¹
1969	12,297	16,653	26,846	24,260
1970	12,018	17,672	28,315	24,520
1971	10,228	15,416	24,174	22,400
1972	9,049	15,316	25,321	22,240
1973	7,105	16,850	26,649	..

¹ Finished steel (ingot equivalent).

In 1972 imports of iron ore amounted to 17.71m. metric tons. Exports of finished steel products were 4.45m. metric tons in 1972.

Iron Castings. Production of iron castings was 3.29m. tons in 1971 (3.77m. tons in 1970).

The industry is divided between the 'public sector' and the 'private sector'. The former consists of the British Steel Corporation which was established on 22 March 1967 under the Iron and Steel Act 1967. This Act brought into public ownership the 14 major steel producers who together accounted for over 90% of the UK output of crude steel. These companies, including nearly 200 subsidiaries, of which some 50 were overseas subsidiaries, vested in the Corporation on 28 July 1967. Following the transfer to the Corporation under the Iron and Steel Act 1969, of the assets and undertakings, as distinct from the shares, of the publicly owned companies and the subsequent dissolution of many of the companies, the Corporation is operated as a single business entity with 6 product divisions. The creation of the Corporation represented a massive merger, resulting in the second largest steel business in the free world and one of the world's largest industrial undertakings. It produces and sells steel and other products with an annual value of £1,500m. and employs some 224,000 people. The Act left a substantial part of the British iron and steel industry in private ownership accounting for a turnover of approximately a third of the total for the whole industry at that time with particular strengths in finished steels and in the high value special steels such as alloy, stainless, high speed and tool steels.

The private sector of the steel industry has formed the British Independent Steel Producers Association (BISPA), over 100 members, to protect and represent its interests to the Corporation, the Government and any international body organization, and to ensure that liaison continues between the public and private sectors in areas of mutual interest, such as research, standards, statistics and European affairs.

Production of non-ferrous metals in 1971 (in 1,000 metric tons): Refined copper, 187.6 (206.2 in 1970); refined lead, 142.8 (146.7 in 1970); tin metal, 25.2 (24.5 in 1970); virgin aluminium, 119 (39.6 in 1970); slab zinc, 81.3 (114.9 in 1970).

INDUSTRIAL PRODUCTION

Statistics of a cross-section of industrial production are as follows:

	1970	1971	1972
Sulphuric acid (1,000 tons)	3,200	3,405	3,449
Synthetic resins (1,000 metric tons)	1,448	1,454	1,608

LABOUR AND EMPLOYMENT

The distribution of total manpower in Great Britain was in June 1972 (in 1,000): Total working population, 26,612 (15,954 males, 8,914 females). Total employed in armed forces and women's services, 372. Total engaged in civil employment, 23,628, including agriculture, 417; mining and quarrying, 388; metal manufacture, 516; national and local government service, 1,416; transport and communications, 1,564; construction, 1,227; distributive trades, 2,582; insurance, banking, business services, 971.

In 1973 there were 126 unions affiliated to the Trade Union Congress with a total membership of 10,001,419 (including 2,556,004 women). The unions affiliated to the TUC during 1973 ranged in size from the Transport and General Workers' Union, with 1,746,554 members, to the Sheffield Wool Shear Workers' Trade Union, with 20 members. Non-manual workers accounted for nearly a third of the total TUC membership.

The TUC's executive body, the General Council, is elected at the annual Congress. It is composed of 37 members elected from 18 industrial groupings of unions (railways, mining and quarrying, etc.), to ensure that the Council is broadly representative of the whole trade union movement. In addition, 2 members are elected to represent women workers. The General Secretary is elected by the Congress but is not subject to annual re-election.

The TUC General Council appoints committees, which draw upon the services of specialist departments in preparing policies on economic, education, international, employment, organization, social security and production questions.

The TUC is affiliated to the International Confederation of Free Trade Unions and the European Trade Union Confederation, provides a service of education for members of its affiliated unions, has sponsored an institute for the investigation of occupational health problems and provides members to serve, with

representatives of employers, on joint committees advising the Government on issues of national importance.

The following table is a statistical summary relating to trade disputes for recent years:

	No. of stoppages	No. of workers involved	Working days lost through stoppages
1969	3,116	1,685,000 ¹	6,846,000
1970	3,906	1,801,000	10,980,000
1971	2,228	1,175,000	13,551,000
1972	2,497	1,726,000	23,909,000
1973	2,854	..	7,173,000

¹ Excluding workers becoming involved after the end of the year in which stoppage began.

The average monthly numbers (in 1,000) of registered unemployed in Great Britain were 1970, 582.2 (males, 495.3; females, 86.9); 1971, 758.4 (males, 639.8; females, 118.6); 1972, 844.1 (males, 705.1; females, 139).

COMMERCE

Value of the imports and exports of merchandise (excluding bullion and specie and foreign merchandise transhipped under bond) of the UK for 5 recent years (in £1,000):

	Total imports	Total exports		Total imports	Total exports
1969 ¹	8,315,141	7,298,008	1972 ¹	11,155,418	9,745,682
1970 ¹	9,051,466	8,062,750	1973	15,854,443	12,455,110
1971 ¹	9,833,942	9,175,535			

¹ Provisional.

The value of goods imported is generally taken to be that at the port and time of entry, including all incidental expenses (cost, insurance and freight) up to the landing on the quay. For goods consigned for sale, the market value in this country is required and recorded in the returns. For exports, the value at the port of shipment (including the charges of delivering the goods on board) is taken. Imports are entered as from the country whence the goods were consigned to the UK, which may, or may not, be the country whence the goods were last shipped. Exports are credited to the country of ultimate destination as declared by the exporters.

For details of imports and exports for 1972 and 1973, see pp. 117-18.

Shipping

The total gross tonnage (1,000 tons) of merchant vessels (100 gross tons and over) under the UK flag on 1 July 1973 was 29,345 (non-tankers, 14,472; tankers, 14,873). The total number of ships was 2,225.

At 30 Nov. 1972 the effective strength of the British Merchant Navy (excluding Asiatic seamen signed on in Asia) was 90,126.

At 30 Sept. 1973 the world total of shipping under construction (excluding ships of less than 100 tons gross) amounted to 114,334,037 tons, of which 6% was building in the UK, aggregating 321 vessels of 6,846,647. Tankers under construction in the UK numbered 18 (966,288 tons) out of a world construction total of 291 (15m. tons).

The world oil tanker fleet at 1 July 1973 numbered 6,607 vessels of 115.4m. gross tons, of which the UK flag was the third largest fleet of 14.1m. tons. Ships launched in 1973 in the UK aggregated 806,741 tons (3.5% of the world total); the UK lies in fourth place after Japan (50.3%), Sweden (8%) and West Germany (5.4%). Laid up tonnage on 31 Dec. 1973 included 1 ship (4,000 gross tons) registered in the UK out of a world total of 160 ships (837,000 gross tons).

The total net tonnage of entrances at ports of the UK with cargoes during 1971 was 164.6m.; total clearances were 88,975,000 net tons.

The total net tonnage of Commonwealth and foreign vessels employed in the coasting trade that arrived at ports in the UK with cargo in 1970 was 47.1m. (52.7m. in 1971); departures amounted to 44.9m. (55.6m. in 1971).

Inland Waterways

There are approximately 2,500 miles of navigable canals and locked river navigations in Great Britain. Of these, the British Waterways Board are responsible for some 300 miles of commercial waterways (maintained for freight traffic) and some 1,100 miles of cruising waterways (maintained for pleasure cruising, fishing and amenity). The Board are also responsible for a further 600 miles of canals, mostly no longer navigable, whose future is being considered in conjunction with local authorities; a number of these lengths are being restored for cruising or as local amenities. The Board's gross receipts for the year 1972 were £5.9m. The total traffic on their waterways was 5.4m. tons.

The most important of the river navigations and canals under other authorities include the rivers Thames, Great Ouse, Nene and Yorkshire Ouse, the Norfolk Broads and the Manchester Ship Canal.

Manchester, one of the leading ports in the UK, was opened to maritime traffic in 1894 by the construction of the Manchester Ship Canal, which is 35½ miles in length and owned and operated by the Manchester Ship Canal Company. The entrance lock is 80 ft wide and the maximum width of other locks within the canal is 65 ft. Ships up to 28 ft 10 in. fresh-water draught can navigate to Ince Oil Berth; between Ince Oil Berth and Manchester the maximum draught is 26 ft 6 in. in fresh water.

The Port of Manchester includes the Queen Elizabeth II Oil Dock at Eastham (separate entrance lock 100 ft wide), the oil docks at Stanlow and a considerable number of public and private wharves and installations along the canal, as well as the terminal docks at Manchester. Total sea-borne and barge traffic in 1973 amounted to 16,683,227 metric tons; tolls, dues, etc., £15,489,254; in 1972, 16,280,677 metric tons, £14,703,233.

Railways and Highways

Under the provisions of the Transport Act, 1947, the 4 main-line railways, together with their associated lines, docks, steamships and hotels, the London Passenger Transport Board and the major canal undertakings, passed on 1 Jan. 1948 into the ownership of the British Transport Commission, as the instrument of the State.

The Transport Act, 1962, dissolved the Commission and created in its stead separate Boards for British Railways, London Transport, British Transport Docks and British Waterways. The new Boards assumed their responsibilities as from 1 Jan. 1963. Other main provisions of the Act reconstructed the finances of the Boards and gave them a greater measure of commercial freedom.

The Transport Act, 1968, set up 3 new state-owned transport organizations. The National Freight Corporation inherited the road haulage subsidiaries of the THC, British Rail sundries division, now National Carriers Ltd, and 51 % of BR's freightliner company. The National Bus Company acquired the assets of 65 companies, mainly concerned with road passenger transport in England and Wales, including those companies operated by the THC. The Scottish Transport Group acquired the assets of the THC's road passenger transport companies in Scotland, including ships, ferry services and British Railways domestic Scottish shipping services. These new organizations assumed their responsibilities on 1 Jan. 1969.

On 1 Jan. 1970, the responsibility for the London Transport Board was transferred to the Greater London Council and renamed London Transport Executive. The LTB Country Bus services and Green Line services were transferred at the same time to the National Bus Company and renamed London Country Buses.

Gross receipts in 1972 for these Boards were: British Railways Board, £741m.; London Transport Executive, £149m.; British Transport Docks Board, £49m.; Scottish Transport Group, £44m.; National Bus Company, £189m.; National Freight Corporation, £212m., and British Waterways Board, £5.9m.

Railways. The nationalized railway system, known as 'British Rail', together with British Transport Hotels Ltd, British Rail Engineering Ltd, British Rail Hovercraft Ltd and Transportation Systems and Market Research Ltd (Transmark), the Shipping and International Services Division and the British Rail Property Board are owned and managed by a public authority, the British Railways Board. The Board is required to direct its affairs in such a way as to ensure that standards of public service and safety are maintained while at the same time keeping within the financial constraints of the Transport Act, 1968.

The British Railways Board has a mainly non-executive role in order to give greater emphasis to overall corporate planning, policy making and the longer-term direction at each of its businesses while still ensuring that they are effectively managed.

Each subsidiary activity, other than British Rail, has a subsidiary board, chaired by a member of the main Board to direct that business.

The management of each business is delegated to a chief executive for that business. The Chief Executive (Railways) is supported by an advisory body known as the Railway Management Group comprising 5 executive directors for Freight, Passenger, System and Operations, Finance and Personnel at headquarters, 5 regional General Managers, *Eastern, London Midland, Scottish, Southern and Western* together with the board's controller of corporate planning and the managing director of British Rail Engineering Ltd. Each regional General Manager is assisted by a Regional Railway board, but there is no longer any statutory obligation upon the Railways Board to retain these bodies.

The Transport Act, 1968, reduced the railways commencing debt from £1,562m. to £300m. The Act also enables the Secretary of State for the Environment to make grants towards the cost of unremunerative but socially necessary passenger services, and tapering grants up to 1973 towards the cost of surplus track and signalling equipment. There is no provision for deficit grants.

In 1972 the total freight traffic amounted to 169m. tons, comprising coal and coke 88m. tons, iron and steel 31m. tons and other freight, excluding carryings for Freightliners Ltd and National Carriers Ltd, for which tonnage figures are not available, 50m. tons. Passenger journeys amounted to 754m. Rolling stock (standard gauge) at the end of 1972 included 3,950 locomotives, 17,005 passenger-carrying vehicles (including Pullman carriages), 5,933 luggage and parcel vans and 268,552 freight vehicles. At the end of the year 11,537 (standard gauge) route miles were open to traffic.

The London Transport Executive, in Jan. 1973, had 238 route miles of railway open for traffic and also operated over 14 miles of track owned by British Rail. Number of vehicles owned: Railways, 4,357 (including 3,022 electric motor vehicles); buses 6,342. Total number of miles run in passenger service (1972) was 413m. miles. The number of passengers carried in 1972 was: Railways, 655m.; buses, 1,413m. Average takings per passenger journey (1972) were: Railways, 11·53p; road services, 5·17p.

Road Transport. Motor vehicles for which licences were current under the Vehicles (Excise) Act, 1971, numbered, at 30 Sept. 1972, 16·12m., including 12·72m. cars, 980,000 mopeds, scooters and motor cycles, 105,000 public transport vehicles (including taxis) and 1·65m. goods vehicles. New vehicle registrations in 1972 numbered 2,183,812.

Road casualties in Great Britain numbered in 1972, 359,727 (64,157 under 15 years), including 7,763 killed; in 1971, 352,027 (62,748 under 15), including 7,699 killed.

Highways. Central Government responsibility for highways in England rests with the Secretary of State for the Environment. His responsibilities for roads are administered by the Department of the Environment through the Highways Directorate General at Headquarters, 8 Regional Controllers (Roads and Transportation) and 6 Road Construction Units. For Welsh and Scottish roads central Government responsibility rests with the Secretaries of State for Wales and Scotland respectively.

The Secretary of State is wholly responsible for trunk roads. Under the new local government system which came into force on 1 April 1974, the responsible authorities for principal roads are the County Councils. District Councils may claim maintenance powers for urban roads which are neither trunk roads nor classified roads. In London responsibility is shared between the Greater London Council and the London Boroughs.

The Secretary of State has powers to provide roads designed for limited classes of motor traffic, and to confirm schemes for the provision of such special roads by local authorities. The former have the status of trunk roads; the latter principal roads. They are generally referred to as motorways. There are now nearly 1,000 miles of motorways in England that are open to traffic and over 750 miles are under construction or in preparation.

The Road Construction Units are responsible for the design and supervision of construction of major trunk roads (including motorways). Regional Controllers (Roads and Transportation) are responsible for the smaller trunk road schemes (generally those costing under £1m.) and for the maintenance of all trunk roads (including motorways). Local authorities act as the Secretary of State's agents for construction and maintenance. The work being carried out by them or by contractors acting on their behalf. The Secretary of State bears the full cost.

The Department of Environment pays 75% of the cost of approved schemes for the construction or improvement of principal roads, but from 1 April 1975, these specific grants will be abolished. All aid to local authorities for transport

expenditure will be given through the rate support grant, and through a supplementary grant payable to any County Council. Transport supplementary grant will be paid to County Councils whose expenditure for the year, as accepted by the Secretary of State, exceeds the level determined by a formula prescribed in the Rate Support Grant Order.

The public highways in Great Britain at 1 April 1973 (Scotland, 16 May 1973), including mileages of unsurfaced roads (green lanes), had a total length of 212,034 miles (England, 160,982 miles; Wales, 21,215; Scotland, 29,837). There were 8,363 miles of all-purpose trunk roads, 1,024 were motorways, 20,412 were principal roads and 185,235 were other roads.

Civil Aviation

On 23 Jan. 1973 plans were announced to incorporate the 2 state-owned airlines (BOAC and BEA) as the British Airways divisions of a larger group to be known as the British Airways Group.

The British Overseas Airways Corporation (BOAC) was set up under the British Overseas Airways Act 1939 and British European Airways (BEA) was established under the Civil Aviation Act 1946. In addition to the 2 nationalized corporations, there are about 20 independent air transport operators.

BOAC is engaged on long-haul operations. Its scheduled services link Britain with Europe, the Middle East, the Far East, Australasia, Africa and North and South America. It co-operates closely with airlines of several other Commonwealth countries and has financial interests in companies operating local and regional services adjacent to its main routes as well. BEA operates a network of short-haul services to over 100 places in Britain, Europe, North Africa and the Middle East. BEA also has a financial interest in several associated companies both in Britain and abroad, most of which collaborate in providing local services.

The 2 State Corporations had a statutory monopoly up to 1961, although there was an arrangement by which independent operators could provide services as private companies associated with the Corporations. The Civil Aviation (Licensing) Act 1960 established a new independent licensing authority, the Air Transport Licensing Board, and placed the independent airlines on an equal footing with the 2 Corporations for licensing purposes. There has since been a significant expansion by independent operators who have carried increasing numbers of passengers and volumes of freight on a network of scheduled and non-scheduled domestic and international services, in particular British Caledonian Airways has emerged as the principal independent scheduled airline.

Following the Civil Aviation Act 1971, the Civil Aviation Authority was established as an independent public body responsible for the economic and safety regulation of British civil aviation. It took over the responsibilities of the former Air Transport Licensing Board and Air Registration Board, and also runs the National Air Traffic Services.

In addition to the public transport operators there are a number of companies engaged in miscellaneous aviation activities such as crop-spraying, aerial survey and photography, and flying instruction.

The provisional operating and traffic statistics of the UK airways corporations and the independent operators on scheduled services during the calendar year 1971 (and 1972) are as follows: Aircraft miles flown, 190,183,000 (192,558,000); revenue passengers carried, 14.46m. (15.77m.); freight carried, 248,600 short tons (293,700); mail carried, 27,300 short tons (32,800).

Traffic between the UK airports and places abroad in 1972 (and 1971) included 390,000 (360,000) commercial transport aircraft movements, and 28.32m. (21.84m.) passengers were carried.

There were 3,120 civil aircraft with current certificates of airworthiness registered in the UK at 31 Dec. 1972.

Posts and Telecommunications

Number of post offices at 31 March 1973 was 24,132; number of letter boxes including those at post offices, over 100,000; staff employed, 443,494 (including 22,327 sub-postmasters employed on an agency basis).

In 1972-73 the total value of money orders, including COD trade charge orders, was £140m.; postal orders, £510m.

On 31 March 1973 the total number of telegraph acceptance offices was 9,864 and the London Telecommunications Region had 422 local exchanges, 77 auto-manual and automatic trunk exchanges, 11,628 call offices and 4,593,624 telephone stations. In the provinces there were 5,766 local exchanges, 282 auto-manual and automatic trunk exchanges, 64,830 call offices and 13,006,718 telephone stations. The accrued revenue derived in 1972-73 from private telephone wires amounted to £29,953,000.

The approximate surpluses of income over expenditure (after charging interest on capital) are as follows for years ended 31 March (in £1,000 sterling): 1969, 46,500; 1970, 36,203; 1971, 20,500; 1972, 36,100; 1973 resulted in a deficit of income over expenditure of 64,053.

Broadcasting

Radio and television services in the UK are controlled by the British Broadcasting Corporation and (in the case of the commercial networks) by the Independent Broadcasting Authority. These are public corporations, established by Royal Charter and the Television and Sound Broadcasting Acts, 1964 and 1972, respectively, until July 1976. Both corporations are independent of the Government in the conduct of their services. The BBC broadcasts 4 programmes on long-, medium- and shortwave and on FM. There are local radio stations in 21 cities broadcasting on medium-wave and FM. The BBC commenced regular TV programmes in 1936 and broadcasts 2 programmes in colour. IBA broadcasts 1 commercial programme in colour.

The number of broadcast receiving licences issued during the year ended 31 March 1972 was 15.6m., including 1.7m. for colour.

MONEY AND BANKING

Sterling. The monetary unit of Great Britain is the pound sterling. A gold standard was adopted in 1816, the sovereign or twenty-shilling piece weighing 7.98805 grammes 0.916 $\frac{2}{3}$ fine. Currency notes for £1 and 10s. were first issued by the Treasury in 1914, replacing the circulation of sovereigns. The issue of £1 and 10s. notes was taken over by the Bank of England in 1928. The issue of 10s. notes ceased on the issue of the 50p coin in 1969.

Following the post-war fluctuations in the value of the pound, Great Britain returned to the Gold Standard in 1925 with the pound fixed at the pre-war parity of US\$4.8666. But the world financial crisis of 1931 forced the country off the Gold Standard again, and in the following year the Exchange Equalization Account was set up for the purpose of checking undue fluctuations in the exchange value of the pound. With the relative stability of the pound which followed, a 'Sterling Bloc' emerged consisting of most Empire countries and those others who voluntarily pegged their currencies to the pound.

The Bloc was superseded at the outbreak of the Second World War by the 'Sterling Area'. The pound was then fixed at \$4.03 and remained at that rate until Sept. 1949, when it was devalued to \$2.80. On 18 Nov. 1967 it was further devalued to \$2.40. Following the general international currency re-alignment of Dec. 1971, the rate for the pound, in terms of the US\$, was fixed at £1 = \$2.6057 but in June 1972 the pound was allowed to float.

When the pound was floated in June 1972 measures were also introduced under the Exchange Control Act, 1947 to control payments between the 'Scheduled Territories', comprising the UK (including the Channel Islands and the Isle of Man) and the Irish Republic, and the rest of the Sterling Area as well as the rest of the world. The Scheduled Territories were subsequently increased, in Jan. 1973, by the addition of Gibraltar.

Coinage. The sovereign (£1) weighs 123.27447 grains, or 7.98805 grammes, 0.916 $\frac{2}{3}$ (or eleven-twelfths) fine, and consequently it contains 113.00159 grains or 7.32238 grammes of fine gold. On 15 Feb. 1971 (Decimalization Day) a decimal currency system was introduced retaining the pound sterling as the major unit but now divided into 100 new pence instead of 240 old pence. The decimal coins are the 50p (equilateral curve heptagon, 30 mm diameter, 13.5 grammes weight); 10p (28.5 mm, 11.31 grammes); 5p (23.6 mm, 5.65 grammes); 2p (25.9 mm, 7.12 grammes); 1p (20.3 mm, 3.56 grammes) and $\frac{1}{2}$ p (17.1 mm, 1.78 grammes). The Decimal Currency Act, 1967 and the Proclamation of 27 Dec. 1968 required that the 50p, 10p and 5p be made of three-quarters copper and one-quarter nickel (75/25 cupro-nickel) and the 2p, 1p and $\frac{1}{2}$ p of mixed metal; copper, tin and zinc (bronze). The Decimal Currency Act, 1969, provided that the coins of the Queen's Maundy Money should continue to be made in silver to a millesimal fineness of 925; and, if issued before Decimalization Day, should be treated as denominated in the same number of new pence in which they were denominated.

The Decimal Currency (End of Transitional Period) Order, 1971, brought the transitional period to an end on 31 Aug. 1971 after which date all payments are required to be made in the new currency; the threepences and pennies of the old currency ceased to be legal tender after the same date. By Proclamation dated 28 July 1971, which came into force on 30 Aug 1971, the crown, double-florin, the florin, the shilling and the sixpence are to be treated as coins of the new currency and as being of the denominations respectively of 25, 20, 10, 5 and 2 $\frac{1}{2}$ new pence.

The Coinage Act, 1971, specified that the legal tender limits for coins were: Gold coins, for payment of any amount; coins of cupro-nickel and silver of denominations of more than 10p, for payment of any amount not exceeding £10; coins of cupro-nickel and silver of not more than 10p, for payment of any amount not exceeding £5; coins of bronze, for payment of any amount not exceeding 20p. In addition, a 25p coin (38.608 mm, 28.2759 grammes) was authorized by Proclamation, dated 23 Oct. 1972, to commemorate HM the Queen's silver wedding anniversary.

The value of money issued in the 12 months up to March 1973 was, cupro-nickel £23.3m. (plus re-issues of £2.4m.), and bronze £3.8m.

By the end of 1974 the transfer to Llantrisant of most of the functions of the London Mint will have been completed.

UK coins produced in 1972-73 totalled 533.34m., as follows, in millions: 50p 5.04, 25p 7.45, 10p 116.05, 5p nil, 2p nil, 1p 130, $\frac{1}{2}$ p 274.8.

It is estimated that the following coins were in circulation in the UK at 31 March 1973, in millions: 50p 207.5, crown 33.52, 10p 1,417.3, 5p 1,284.6, sixpence 434.4, 2p 1,103.5, 1p 1,425, $\frac{1}{2}$ p 1,282, making a total of 7,044.64m. coins with a face value of £368.11m.

Bank-notes. The Bank of England issues notes in denominations of £1, £5 £10 and £20 for the amount of the fiduciary note issue. Under the provisions of the Currency and Bank Notes Act, 1954, which came into force on 22 Feb. 1954, the amount of the fiduciary note issue was fixed at £1,575m., but this figure might be altered by direction of HM Treasury and after representations made by the Bank of England.

All Bank of England notes are legal tender in England and Wales, and notes of denominations less than £5 are legal tender in Scotland and Northern Ireland. The banks in Scotland and Northern Ireland have certain note-issuing powers. The average circulations of such notes were £215m. (Scotland—4 weeks ended 15

Dec. 1973) and £30m. (Northern Ireland—4 weeks ended 18 Dec. 1973); these notes are widely accepted in their area of origin but are not legal tender in any part of the UK.

The total amount of notes issued for the week as at 26 Dec. 1973 was £5,000m., of which £4,988,628,824 were in the hands of other banks and the public and £11,371,176 in the Banking Department of the Bank of England.

Banking. The Bank of England, Threadneedle Street, London, is the Government's banker and the 'banker's bank'. It has the sole right of note issue in England and Wales, manages the National Debt and administers the Exchange Control regulations. The Bank operates under royal charters of 1694 and 1946 and the Bank of England Act, 1946. The capital stock has, since 1 March 1946, been held by the Treasury. The holders of Bank stock were given £58,212,000 3% Treasury stock in exchange.

The statutory return is published weekly. End-December figures for the past 5 years are as follows (in £1m.):

¹ Including Special Deposits.

The fiduciary note issue was £5,000m. at 26 Dec. 1973. All the profits of the note issue are passed on to the National Loans Fund.

Official holdings (Exchange Equalization Account) of gold and convertible currencies at 31 Dec. 1973 amounted to £2,237m.

The value of debit bank clearings (excluding provincial clearings) for 1972, £1,071m.; 1973, £1,456m. Credit clearings for 1972 £14m.; 1973, £16m.

The following statistics relate to the 6 London clearing banks for the years 1972 and 1973. (Averages of mid-monthly figures in £1m.) Total deposits (sterling and currency), 19,083 (14,140 in 1972); coins, notes and balances with Bank of England, 907 (823); money at call and short notice, 1,126 (1,091); treasury bills discounted, 141 (172); other bills discounted, 578 (706); British Government stocks, 1,272 (1,470); advances, 12,187 (8,520).

Total net profits from the operations of clearing bank groups in 1973 amounted to £335m., of which £79m. in gross dividends, £256m. transferred to reserves.

Most commercial banking business in Britain is conducted by clearing banks. Industrial and overseas trading business is handled primarily by the merchant banks, who also deal with such matters as the issue of shares to the public for new companies and act as registrars for public companies.

Trustee Savings Banks. Trustee Savings Banks started in Scotland in 1810. They are managed by Boards of Trustees who receive no payment for their services. The Banks have no shareholders or proprietors, they are under the supervision of the National Debt Commissioners, and subject to regular inspection by the Trustee Savings Banks Inspection Committee, a statutory body.

There are 73 independent Trustee Savings Banks in the British Isles, with a total of 1,559 offices. The total of active accounts in all Departments on 20 Nov. 1973 was 14,042,511. Funds managed by the Banks at that date totalled £3,833,485,292, made up as follows: Ordinary Department (including current accounts), £1,379,999,586; Special Investment Department, £2,025,637,655; Government Stock Department, £307,079,715 (face value); SAYE contracts, £53,911,271, and combined surplus funds, £67,862,072. In addition, the value of units in the TSB Unit Trust, held for depositors on 20 Sept. 1973, was £33,163,618.

National Savings Bank. Statistics for 1971 and 1972:

NORTHERN IRELAND

CONSTITUTION AND GOVERNMENT. The Northern Ireland Constitution Act 1973 as amended by the Northern Ireland Constitution (Amendment) Act 1973 provides for a Northern Ireland Executive of not more than 11 members (including the Chief Executive Member). The Secretary of State appointed this full number to take office from 1 Jan. 1974. He may also, under the Amendment Act, appoint others to carry out particular functions in the Administration up to a total (including members of the Executive) of 15. This additional number has also been appointed.

The Members of the new Administration and their functions are as follows:
Members of the Northern Ireland Executive—

Chief Executive Member: Right Hon. A. B. D. Faulkner. *Deputy Chief Executive Member:* G. Fitt, MP. *Legal Member and Head of the Office of Law Reform:* O. J. Napier. *Head of the Office of Information Services:* J. L. Baxter. *Environment:* Right Hon. R. H. Bradford. *Housing, Local Government and Planning:* J. A. Currie. *Health and Social Services:* P. J. Devlin. *Commerce:* J. Hume. *Finance:* Right Hon. H. V. Kirk. *Education:* Right Hon. W. B. McIvor. *Agriculture:* L. J. Morrell.

Other members of the Administration—

Community Relations: I. A. Cooper. *Manpower Services:* R. G. Cooper. *Chief Whip:* Maj. R. L. Hall-Thompson. *Head of the Office of Executive Planning and Co-ordination:* E. K. McGrady.

Devolution of legislative and executive responsibility to the Northern Ireland Assembly and the new Administration under Section 2 of the Constitution Act was given effect by the Northern Ireland Constitution (Devolution) Order 1973 from 1 Jan. 1974 ('the appointed day'). On that day, Section 1 of the Northern Ireland (Temporary Provisions) Act 1972 expired and, with it, the power to legislate for Northern Ireland by Order in Council under that Act.

Power to make laws (to be known as Measures) in respect of 'transferred' matters, that is on matters other than those listed in Schedules 2 and 3 to the Constitution Act is now vested in the Assembly subject to the overriding power of the UK Parliament to legislate on such matters and subject to Section 17 of the Constitution Act which declares void any provision which discriminates against any person or class of persons on the ground of religious belief or political opinion. The procedure for Measures is set out in the Standing Orders of the Assembly. All Measures require the approval of the Queen in Council before they become law. The first election of Members to the 78 seats in the Northern Ireland Assembly was held in 1973. The state of the parties following the election was: Social Democratic and Labour Party 19; Democratic Unionist Loyalist Coalition 8; Official Unionist 24; Northern Ireland Labour 1; Other Unionist 8; Alliance 8; Vanguard Unionist Coalition 7; Other Loyalist Coalition 2; Other Loyalist 1. Northern Ireland also returns 12 members to the UK House of Commons.

What began ostensibly as a Civil Rights campaign in 1968, escalated in 1969–74 into a full-scale offensive designed to overthrow the State. This offensive was originally mounted by an illegal organization, the Irish Republican Army (not to be confused with the legitimate Army of the Republic of Ireland). At times counter-measures have required the services of over 20,000 regular troops, in addition to the Royal Ulster Constabulary, the RUC Reserve and the part-time Ulster Defence Regiment.

Secretary of State for Northern Ireland: Right Hon. Merlyn Rees, MP.

Agent of the Government of Northern Ireland in Great Britain: Sir Harry Jones, CBE (11 Berkeley St., W1X 6BU).

LOCAL GOVERNMENT. On 1 Oct. 1973 a single-tier system of 26 district councils based on main centres of population replaced the former two-tier all-purpose structure of county and district councils and the Development Commissions.

The new district councils are responsible for the provision of a wide range of local services including gas supply, street cleansing and sanitation, litter prevention, consumer protection, environmental health, miscellaneous licensing, the provision of recreational and cultural facilities, the promotion of tourist development schemes and the enforcement of the new building regulations. They have in addition a representative role in which they send forward representatives to sit as members of statutory bodies including the Housing Executive, the Fire Authority and the new Area Boards for health and personal social services, education and libraries; and a consultative role under which the Department of Housing, Local Government and Planning, and the Housing Executive, among others, have a statutory obligation to consult them regarding the provision of the regional services for which these bodies are responsible.

COMMUNITY RELATIONS. A Ministry of Community Relations came into being on 29 Oct. 1969. It has responsibility for formulating and sponsoring policies for the improvement of community relations in Northern Ireland and for assisting in the administration of the public services so as to improve those relations. An additional function was given by the Social Need (Grants) Act (NI) 1970 which enables the Department to pay grants to local and statutory authorities or other persons on expenditure incurred by them by reason of the existence in any urban area of special social need. The Department also takes responsibility, on an extra-statutory basis, for the administration of a scheme for first aid repairs to residential property damaged by terrorist explosions. The objective is to make the premises wind and weather proof, as soon as circumstances permit. The Community Relations Commission is a related but independent body set up under the Community Relations Act (NI) 1969. Its duties include encouraging the establishment of harmonious community relations and advising the Executive on questions relating to community relations. It is authorized to assist local bodies concerned with community relations, to provide training courses, to promote conferences and to undertake research. There is also a system for consideration of citizens' complaints either against central government, local government or statutory bodies. The investigations are carried out by the Parliamentary Commissioner for Administration and the Commissioner for Complaints under legislation passed in 1969.

PHYSICAL DEVELOPMENT. The Government's physical development strategy is the 'growth and key centre' strategy which has been the basis of physical planning policy since 1963. The strategy, summarized in the Northern Ireland Development Programme 1970-75, provides for two categories of growth centres:

(i) Centres of accelerated industrial growth of which there are 3, Londonderry, Ballymena and the Greater Belfast Area, which by definition in the Development Programme is the Belfast Urban Area, Antrim-Craigavon triangle with three inner growth centres of Bangor, Carrickfergus and Newtownards. (ii) Key centres of which there are 8, Larne, the Coleraine triangle, Strabane, Omagh, Enniskillen, Dungannon, Newry and Downpatrick. The application of the strategy outside the Greater Belfast Area is to encourage and concentrate development in the growth and key centres mentioned because the less prosperous parts of the country can be developed more effectively by some concentration of effort on towns that are relatively well placed and often a town of some size is required to attract and sustain modern industry. Further, the cost per head of providing public services for people and for industry will decline for a time as a town grows in size. The strategy for the Greater Belfast Area is to continue with control over the expansion of the Belfast Urban Area by the operation of a Stop-line policy with the nearby New Towns of Antrim and Craigavon especially but also the inner growth centres of Bangor, Carrickfergus and Newtownards offering optional locations for industrial, housing and other developments. Part

of the population for the build up of these growth centres in the Greater Belfast Area to their required levels might be expected to come from the Belfast Urban Area as a consequence of the redevelopment programme being followed in the city by the Northern Ireland Housing Executive.

Parts of the country which are neither centres of accelerated industrial growth nor key centres will not be neglected because financial inducements will continue to be available for the whole of the Province and any firm wishing to expand or to establish itself outside one of these centres will receive full official encouragement.

The Development Advice Centre which the Ministry of Development set up in June 1971 in Adelaide Street, Belfast, to promote population mobility and particularly movement out of the Belfast Urban Area, has been assisting households interested in resettling in one of the growth centres of the Greater Belfast Area. In addition to providing information about these towns resettlement grants under the Resettlement Grants Act (NI) 1971 have been paid to some of the households who removed from the Belfast Urban Area to live in one of these growth centres.

Craigavon (which includes the boroughs of Lurgan and Portadown), Antrim/Ballymena and Londonderry were designated for development under the New Towns Act (N.I.) 1965 and Development Commissions appointed to promote the implementation of the published Area Plans. The Commissions and their staffs have provided housing, facilities for industry and commerce, roads and recreational amenities. As a result of the reorganization of Local Government the Development Commissions were dissolved on 30 Sept. 1973 but their work is being carried on by the new district councils and by Government Departments.

Area plans have been published for the Belfast Urban Area, the Coleraine-Portrush-Portstewart triangle, North Down, West Tyrone and Newry, Limavady and Armagh, while plans are at an advanced stage of preparation for East Antrim, East Tyrone and Fermanagh. A Public Inquiry has been held into objections received to proposals contained in the North Down Area Plan and similar Inquiries are expected to be held in respect of other area plans once the public has been afforded an opportunity to examine the proposals and to submit objections.

The protection of the visual amenities and areas of nature interest in the Ulster countryside is fostered by the Amenity Lands Act (N.I.) 1965 under which the Ministry of Development is advised by the Ulster Countryside Committee on the establishment of National Parks, the designation of Areas of Outstanding Natural Beauty and the acquisition of country parks, and by the Nature Reserves Committee on the creation and management of Nature Reserves and Areas of Scientific Interest. Eight Areas of Outstanding Natural Beauty have been designated and country parks have been established at Crawfordsburn, Co. Down, and at Roe Valley and Ness Wood, Co. Londonderry. On the recommendation of the Nature Reserves Committee, 33 sites have been notified as Areas of Scientific Interest. Fourteen areas have been declared National Nature Reserves and negotiations for the establishment of a further 19 Reserves are in train. The Ministry of Development has taken over from the Ministry of Home Affairs the administration of the Wild Birds and Game Protection Acts.

The complete legislative framework of planning in Northern Ireland has been revised under the Planning (NI) Order 1972. Under the Order the Ministry of Development becomes the sole planning authority for Northern Ireland in place of local planning authorities. The Order also includes new procedures for the preparation of plans and development control, provides for the establishment of a Planning Appeals Commission, contains provisions for the protection of buildings of special architectural or historic merit and trees and gives powers for the carrying out of town centre redevelopment.

AREA AND POPULATION. Area (revised by the Ordnance Survey Department) and population at the census of 25 April 1971 were as follows:

Counties and county boroughs	Area in hectares	Males	Females	Total
Antrim	304,526	175,177	180,539	355,716
Armagh	132,697	66,917	67,052	133,969

Northern Ireland	1,414,625	754,676	781,389	1,536,065

VITAL STATISTICS for calendar years:

	Marriages	Divorces	Births	Deaths
1970	12,297	313	32,086	16,551
1971	12,152	443	31,765	16,202
1972	11,905	500	29,994	17,032

RELIGION. The religious professions at the census of 1961 were: Roman Catholics, 497,547; Presbyterians, 413,113; Church of Ireland, 344,800 (including Church of England and Episcopal Church of Scotland); Methodists, 71,865; others and not stated, 97,717.

EDUCATION. The following are the statistics for 1972-73:

Universities. The Queen's University of Belfast (founded in 1849 as a college of the Queen's University of Ireland and reconstituted as a separate university in 1908) had 86 professors, 154 readers and senior lecturers, 461 lecturers and tutors and 5,822 full-time students.

The New University of Ulster at Coleraine, of which Magee University College, Londonderry, is now an integral part, had 28 professors, 26 readers and senior lecturers, 158 lecturers and tutors and 1,632 full-time students.

The Ulster College is a central institution providing higher non-university education for the whole of Northern Ireland with a full-time academic staff of 368, 1,505 full-time and 1,791 part-time students on vocational courses of further education and 358 students on teacher-training courses.

Secondary Education. 81 grammar schools with 52,084 pupils and 2,918 full-time teachers; 177 secondary (intermediate) schools with 89,163 pupils and 4,887 full-time teachers; 1 technical intermediate school with 12 pupils.

Primary Education. 1,158 primary schools with 213,827 pupils and 7,682 teachers; 24 nursery schools with 1,097 pupils and 37 teachers.

Further Education 29 institutions of further education with 1,242 full-time and 1,460 part-time teachers and an enrolment of 10,357 full-time, 10,909 part-time day over 34,000 evening students.

Special Educational Treatment. 27 special schools, including hospital schools, with 2,291 pupils and 227 teachers.

Teachers. There were 16,993 full-time teachers (7,023 men and 9,970 women) in grant-aided schools and institutions of further education. The minimum general teacher-training course is of 3 years' duration and there were 3,177 students (1,032 men and 2,145 women) in training; these included students following teacher-training courses at university establishments and at Ulster College.

Expenditure. Expenditure on education for 1973-74 is estimated at £115,675,500 (Department of Education) and £10.9m. (local education authorities). Substantial grants are made to all types of recognized voluntary schools.

HEALTH SERVICES. Under the provisions of the Health and Personal Social Services Order 1972, the Department of Health and Social Services is responsible for the provision of integrated health services in Northern Ireland, designed to promote the physical and mental health of the people of Northern Ireland through the prevention, diagnosis and treatment of illness. From 1 Oct. 1973, four Health and Social Services Boards, established under the above Order,

will administer health and personal social services, as the Department may direct, within their designated areas.

HOUSING. Since its constitution in April-May 1971 under the Housing Executive Act (NI) 1971, the Northern Ireland Housing Executive has continued the progressive takeover of the housing functions of the existing public authority housing agencies in Northern Ireland. By 31 March 1973 the functions of the Northern Ireland Housing Trust, the Belfast Corporation, the remaining local authorities and Craigavon and Londonderry Development Commission had all been transferred to the Executive. The housing functions of the Antrim/Ballymena Development Commission will be transferred on 2 July 1973 leaving the Executive as the sole public housing authority in Northern Ireland. At 31 March 1973 a total of 217,033 post-war dwellings had been built in Northern Ireland. Of this number, the Executive are responsible for 134,206 and the Antrim/Ballymena Development Commission for 1,137, with private enterprise being responsible for a further 77,199 dwellings and other agencies contributing 4,491.

Subsidies are payable annually for 60 years on houses built for letting in the public sector; they are reviewed quarterly to take account of changes in rates of interest and in building costs. These subsidies are paid in full by the Exchequer on all new houses completed after 1 April 1970. In the case of local authority houses completed prior to 1 April 1970 three-quarters of the subsidy is paid by the Exchequer and the local authority contributes the remaining one-quarter from its rate fund.

Lump-sum subsidies are payable in respect of houses, built in the private sector, for letting or owner occupation, and to farmers for new farmhouses or the improvement of existing farmhouses. Grants are also available towards the cost of improving houses and the conversion of houses or buildings into dwelling or hostel accommodation. The Executive also has the responsibility for the task of slum clearance and redevelopment and expenditure incurred in such work is grant-aided by the Government.

WATER SUPPLY AND SEWERAGE. Local sanitary authorities and joint boards provided these services up to 30 Sept. 1973. Government grants amounting to £50m. were paid to these bodies towards capital expenditure of £100m. incurred since the passing of the Water Supplies and Sewerage Act (NI) 1945. The Conservation Division of the Ministry of Development became directly responsible for water supply and sewerage on 1 Oct. 1973, as part of local government reorganization.

SOCIAL SECURITY. The social security schemes in Northern Ireland are similar to those in force in Great Britain.

The national insurance and industrial injuries schemes operate as a single system throughout the United Kingdom. The National Insurance Joint Authority and the Industrial Injuries Joint Authority (consisting in each case of the Secretary of State for Social Services and the Head of the Department of Health and Social Services for Northern Ireland) co-ordinate the schemes and make such financial adjustments as may be necessary. There are comprehensive reciprocal agreements with the Isle of Man, and agreements covering reciprocity in respect of most benefits have been made by the Government covering reciprocity in respect of most benefits have been made by the Government of the UK, applying to the schemes in both Great Britain and Northern Ireland, with Australia, Austria, Belgium, Canada, Cyprus, Denmark, Finland, France, Germany (West), Guernsey, Irish Republic, Israel, Italy, Jamaica, Jersey, Luxembourg, Malta, the Netherlands, New Zealand, Norway, Sweden, Switzerland, Turkey and Yugoslavia. There are also limited agreements with Bermuda and USA.

Since 1 April 1973 the reciprocal agreements between the UK and the other members of the EEC have been largely replaced by the Social Security Regulations of the Community.

NATIONAL INSURANCE. The total number of contributors is about 610,000. During the year ended 31 March 1973 the average number of persons in receipt of sickness benefit was 23,000 and in receipt of unemployment benefit was

21,000. Widows' benefits were in payment to about 20,000 women and retirement pensions to about 173,000 persons. Persons in receipt of invalidity pension at 31 March 1973 numbered about 22,000, of whom about 20,000 were awarded invalidity allowance. Receipts, including an item related to the financial adjustments mentioned above, of the Northern Ireland National Insurance Fund in the year ended 31 March 1973 were £94,826,000 and payments, £95,938,000. The combined balance of the Northern Ireland National Insurance Fund and the Northern Ireland National Insurance (Reserve) Fund at 31 March 1973 was approximately £22.7m.

INDUSTRIAL INJURIES INSURANCE. About 553,000 persons are covered by the scheme, and the contributions they pay and the benefits to which they may be entitled are the same as in Great Britain. Accidents in respect of which claims to benefit are made occur at the rate of about 170 a week. Receipts of the Northern Ireland Industrial Injuries Fund in the year ended 31 March 1973 were £4.1m., and payments, £3.1m.

FAMILY ALLOWANCES. The number of families in receipt of allowances is about 141,000, and the cost of the allowances in the year ended 31 March 1973 was £14.7m.

SUPPLEMENTARY BENEFITS. Persons in receipt of supplementary benefits numbered 103,519 at 31 March 1973 at a cost of £26.9m.

FAMILY INCOME SUPPLEMENT. Family income supplement at 31 March 1973 was in payment to 11,022 persons at a cost of £1.6m.

JUSTICE. The superior courts in Northern Ireland comprise the Supreme Court of Judicature and the Court of Criminal Appeal. All matters relating to these courts are under the jurisdiction of the Parliament of the UK and the judges of the superior courts are appointed by the Crown on the advice of the Lord Chancellor.

Inferior courts comprise the County Courts and the Magistrates' Courts (Petty Sessions). The County Courts deal with criminal matters and with civil disputes, where the sum at issue does not exceed £300. They also act as appellate courts from the decisions in Petty Sessions. The Petty Sessions are held regularly in 65 Petty Sessions districts and are presided over by Resident Magistrates, who are permanent judicial officers and normally sit alone. In Juvenile Courts, however, the Resident Magistrate is assisted by two lay members, one of whom must be a woman.

POLICE. The police force consists of the Royal Ulster Constabulary, supported by the Royal Ulster Constabulary Reserve, a mainly part-time force.

FINANCE. Prior to the coming into operation of the Northern Ireland Constitution Act 1973 there were 4 main sources of revenue: reserved tax revenue levied and collected by the UK Government, transferred tax revenue imposed by the Northern Ireland Government, interest charges, and specific and non-specific payments from the UK Government. Reserved tax revenue included the Inland Revenue taxes (income tax, surtax, etc.) and Customs and Excise duties on goods. Transferred tax revenue comprised estate duty, stamp duty, motor vehicle duty and betting duty. As from 1 Jan. 1974 when the relevant part of the Northern Ireland Constitution Act became operative the Northern Ireland Government ceased to have responsibility for the levying of transferred tax revenue and this function passed to the UK Government.

The Public Income of the Northern Ireland Exchequer for the past 5 years, ending 31 March, was as follows (in £ sterling):

	1968-69	1969-70	1970-71	1971-72	1972-73
Reserved tax revenue	199,818,000	231,067,567	247,183,022	269,246,058	276,558,127
Transferred tax revenue	45,615,849	56,322,570	58,994,502	45,963,755	40,137,093
Other	55,152,707	58,937,674	71,856,363	115,733,828	187,942,026
Total public income	<u>300,586,556</u>	<u>346,327,811</u>	<u>378,033,887</u>	<u>430,943,641</u>	<u>504,637,246</u>

The Public Expenditure of Northern Ireland comprises expenditure on supply services, the serving of debt, and prior to Jan. 1974, the cost of certain reserved services (inland revenue and customs and excise departments, etc.) and a contribution towards the cost of imperial services (national debt charges, military, naval and air force services, etc.). The following table shows expenditure over the past 5 years (in £ sterling):

	1968-69	1969-70	1970-71	1971-72	1972-73
Supply services	260,199,039	303,115,175	337,787,024	385,636,966	444,019,274

MINING. The output of minerals (in 1,000 tons) during 1972 was: Basalt and igneous rock, 8,393; chalk, 609; clay, 307; diatomite, 3; granite, 80; grit and conglomerate, 2,427; limestone, 2,016; sand and gravel, 3,250; and other minerals (coal, fireclay, rocksalt, flint, sandstone and perlite), 124.

MANUFACTURES. Northern Ireland is an important and expanding industrial region, and about 227,000 people are employed in manufacturing industry, building and construction. The manufacture of linen and the shipbuilding industry had long been predominant, but many new industries have been established, and a wide diversification of activity has resulted. The textile industry has been widened by the introduction of man-made fibres, although linen remains an important part of this sector. (Exports of Northern Ireland linen goods (including yarn and thread) to countries outside the UK were valued at £11m. in 1972.) The textile, clothing and footwear industries together give employment to about 70,000 people. About 44,000 people are employed in engineering, shipbuilding and vehicle (including aircraft) production. The engineering industries include also the manufacture of textile machinery, turbines, air-conditioning plant, oilfield equipment, data processing equipment, automobile and aero-engine components, sound reproduction equipment and electronic components.

The Government offers special encouragement towards the establishment of new and the expansion of existing industry, including substantial grants towards capital investment and the provision of government-built factories at a low rent or on repayment terms. By June 1973 the establishment of 277 new firms and over 317 schemes of expansion by existing firms since 1945 had been assisted, giving employment to over 80,000 additional workers.

ELECTRICITY. The 4 organizations formerly responsible for the planning, generation and distribution of electricity supplies in Northern Ireland have been merged to form a new body, the Northern Ireland Electricity Service, which deals with all aspects of the industry.

The installed capacity of the system is 1,509 mw provided from 5 thermal power-stations. Work is in progress on the construction of an oil-fired power-station initially of 1,200 mw rating at Kilroot, Co. Antrim, which is due for commissioning in 1978. Gas-turbine capacity has recently been added to the system.

The total sales of electricity in Northern Ireland in the year ended 31 March 1973 amounted to 4,485m. units supplied to a total of 484,085 consumers.

COMMERCE. Northern Ireland has a substantial export trade with countries overseas, but as a large part of it is routed through Great Britain, separate details are not available. The main markets outside the UK are Canada, USA, the Irish Republic, USSR, Poland and the EEC, EFTA.

Imports and exports, including trade with Great Britain (in £1m. sterling), for calendar years:

	1965	1966	1967	1968	1969	1970	1971 ¹	1972 ¹
Imports	513	523	552	660	728	829	892	818
Exports	461	478	507	596	669	745	840	890

¹ Provisional.

In 1971, 73% of the total imports (by value) came from Great Britain or from foreign countries *via* Great Britain; 10% from the Irish Republic. Of the exports 87% (by value) went to Great Britain or to foreign countries *via* Great Britain; 9% to the Irish Republic.

Principal imports in 1971 (including imports from Great Britain) were valued at: Machinery, £121m.; transport equipment, £107.5m.; metals and metal manufactures, £81m.; textiles, fibres, yarns and fabrics, £131m.; clothing and footwear, £21m.; cereals and cereal preparation, £42m.; fruit and vegetables, fresh and processed, £23.8m.; tobacco and manufactures, £37.8m.; paper and manufactures of paper, £21m.; coal, £19.6m.; petroleum and petroleum products, £33m.; chemicals, £51m.

Principal exports in 1971 (including exports to Great Britain) were valued at: Machinery, £85m.; transport equipment, £47m.; textiles, fibres, yarns and fabrics, £252m.; meat and meat preparations, £62m.; dairy produce and eggs, £34.6m.

ROADS. In accordance with the provisions of the Local Government Act (NI) 1972 the Ministry of Development assumed full responsibility for the construction and improvement, operation and maintenance of the public roads, carparks and street lighting in the Province. The Ministry established Divisional Offices in Belfast, Ballymena, Coleraine, Craigavon, Downpatrick and Omagh and smaller offices in other centres. From 1 Jan. 1974 these functions became the responsibility of the Department of Environment.

At 1 April 1973 the total mileage of roads was 14,247, graded for administrative purposes as follows: Motorway, 58 miles; all-purpose trunk, 317 miles; Class I, 1,026 miles; Class II, 1,737 miles; Class III, 2,887 miles; un-classified, 8,222 miles.

ROAD AND RAIL. The Northern Ireland Transport Holding Company was established under the Transport Act (Northern Ireland) 1967 with overall responsibility for the financing but not the operation of bus and train services. All train services are operated by the Northern Ireland Railways Co. Ltd which is a subsidiary of the Holding Company. Most bus services are operated by two other subsidiaries, Ulsterbus Ltd and Citybus Ltd. Ulsterbus runs services outside the Belfast Area (except for a few services provided by privately owned bus undertakings in certain rural areas) while all the services within the Belfast Area are run by Citybus.

A private-enterprise system under licence is in operation for the carriage of goods by road for reward. Approximately 1,700 operators and 3,900 vehicles have been licensed; the biggest single operator is Northern Ireland Carriers Ltd, owned jointly by the Northern Ireland Holding Company and the National Freight Corporation.

The number of motor vehicles licensed at 30 Sept. 1972 was 382,000, including private cars, 304,000; motor cycles, 11,000; goods vehicles, 41,000; agricultural vehicles, 17,000.

SHIPPING. Services operate from Belfast, Larne, Coleraine, Newry, Londonderry and Warrenpoint. In 1972 the net tonnage of shipping using these ports was about 12m. tons. Conventional cargo services have given way in many cases to container, unit load and drive on/drive off services. The latter type of service now operates between Larne and (i) Preston, (ii) Ardrossan and (iii) Stranraer; between Belfast and (i) Liverpool, (ii) Ardrossan, (iii) Preston and (iv) Heysham. Conventional cargo and container services operate between Londonderry and Preston; between Warrenpoint and (i) Garston and (ii) Preston. Newry port is to close and services are in course of transfer to Warrenpoint.

AVIATION. On 1 June 1971 ownership of Belfast Airport passed to the Northern Ireland Transport Holding Company and a subsidiary of the Holding Company, Northern Ireland Airports Ltd, is now responsible for the operation and development of the airport. As a first step in the programme of expansion of the airport to international standards work was completed in July 1972 on the extension of the main runway. In 1972, 1.2m. passengers and 25,000 metric tons of freight and mail were handled.

ISLE OF MAN

Constitution and Government. The Isle of Man is administered in accordance with its own laws by the Court of Tynwald, consisting of the Governor, appointed by the Crown; the Legislative Council, composed of the Lord Bishop of Sodor and Man, the First Deemster, the Attorney-General and 7 members selected by the House of Keys, total 11 members, including the Governor; and the House of Keys, a representative assembly of 24 members chosen on adult suffrage with 6 months' residence for 5 years by the 6 'sheadings' or local sub-divisions, and the 4 municipalities. The island is not bound by Acts of the Imperial Parliament unless specially mentioned in them.

A special relationship exists between the Isle of Man and the European Economic Community providing for free trade and adoption by the Isle of Man of the EEC's external trade policies with third countries. The Island remains free to levy its own system of rates and taxes.

Flag: Red, with 3 steel-coloured legs armoured and spurred (knees and spurs, yellow) in the centre.

The elections to the House of Keys, Nov. 1971, resulted in the return of 22 Independents and 2 Labour. Number of voters, 40,621.

An Executive Council to act with the Governor on all matters of government was set up under the Isle of Man Constitution Act, 1961. It consists at present of 5 members of the House of Keys and 2 of the Legislative Council.

Lieut.-Governor: Sir John Paul, GCMG, OBE, MC (term of office began Jan. 1974).

Government Secretary: T. Kelly.

Government Treasurer: W. Dawson.

Area and Population. Area, 227 sq. miles (572 sq. km); population, 56,289 (census, 1971). The principal towns are Douglas (population, 20,389), Ramsey (5,048), Peel (3,081), Castletown (2,820). Vital statistics, 1971: Births, 804; deaths, 924; marriages, 398. The number of Manx-speaking people was 165 in 1961 (355 in 1951), all of whom are bilingual.

Education. In Jan. 1973 there were 36 primary schools. The enrolled pupils numbered 5,149. The net expenditure on education for 1972-73 amounted to £2,074,165; in addition, capital grants of £575,000 were made for school buildings. There are 6 secondary schools, 4 provided by the Education Board (3,227 registered pupils), 1 direct grant school for girls (305 registered pupils), 1 independent public school for boys (377 registered pupils), 1 college of further education (64 full- and 1,879 part-time and evening pupils), 1 domestic science college (47 full- and 280 part-time pupils).

Police. The police force numbered 111 all ranks in 1972.

Finance. Budget. Revenue is derived from customs duties and from income tax. In 1972-73 the total revenue amounted to £12,197,706; expenditure to £10,839,731. In addition, capital expenditure, mainly out of borrowings, amounted to £3,075,795.

Currency. Notes to the value of £10, £5, £1 and 50p are issued by the Isle of Man Government. Both the UK and Irish Republic currency are accepted and used in the Island which is within the Sterling Area for Exchange Control purposes.

Agriculture. The principal agricultural produce of the island consists of oats, wheat, barley, potatoes, grasses, fatstock dairy products. The total area under crops in 1972 was 77,911 acres and of rough grazings, 43,912 acres. The total area under cereals was 10,974 acres, including 3,406 under oats, 1,344 under wheat and 5,615 under barley or bere. There were also 1,763 acres under turnips and swedes, 924 under potatoes, 6,229 under hay and 31,243 under grass, following rotational cropping. Livestock in 1972: 584 horses, 37,166 cattle, 107,174 sheep and 4,980 pigs.

Communications. The registered shipping (1973) comprised 14 vessels of 9,953 net tons. The railways (70 miles) are run by a consortium. There are 500 miles of roads. Several road races for motor cycles and bicycles take place annually. Number of vehicles (31 March 1973): 22,130 cars and trucks, 945 taxis and buses, 1,338 motor cycles and scooters, 1,211 tractors.

CHANNEL ISLANDS

Area. The Channel Islands are situated off the north-west coast of France and are the only portions of the 'Duchy of Normandy' now belonging to the Crown of England, to which they have been attached since the Conquest. They consist of Jersey (28,717 acres), Guernsey (15,654 acres) and the following dependencies of Guernsey—Alderney (1,962), Brechou (74), Great Sark (1,035), Little Sark (239), Herm (320), Jethou (44) and Lihou (38), a total of 48,083 acres, or 75 sq. miles (194 sq. km).

The climate is mild. Total rainfall (1972), Jersey, 846 mm; Guernsey, 944.3 mm. Temperature registered (1972): highest, Jersey, 23.5°C; Guernsey, 21.2°C; lowest, Jersey, -3°C; Guernsey, -3°C.

Constitution. The Lieut.-Governors and Cs.-in-C. of Jersey and Guernsey are the personal representatives of the Sovereign, the Commanders of the Armed Forces of the Crown and the channel of communication between H.M. Government in the UK and the insular governments. They are appointed by the Crown and have a voice but no vote in the Assemblies of the States (the insular legislatures). The Secretaries to the Lieut. Governors are their staff officers.

The Bailiffs are appointed by the Crown and are Presidents both of the Assembly of the States and of the Royal Courts of Jersey and Guernsey. They have in the States a casting vote.

Language. The official languages are French and English, but English is gradually supplanting French. The language commonly used is English, but in the country districts of Jersey and Guernsey and throughout Sark some people also speak a Norman-French dialect; that of Alderney has died out.

Church. Jersey and Guernsey each constitutes a deanery within the diocese of Winchester. The rectories (12 in Jersey; 10 in Guernsey) are in the gift of the Crown. The Roman Catholic and various Nonconformist Churches are represented.

Justice. Justice is administered by the Royal Courts of Jersey and Guernsey, each of which consists of the Bailiff and 12 Jurats, the latter being elected by an electoral college. There is an appeal from the Royal Courts to the Courts of Appeal of Jersey and of Guernsey. A final appeal lies to the Privy Council in certain cases. A stipendiary magistrate in each, Jersey and Guernsey, deals with minor civil and criminal cases.

Trade. From 1958 the trade of the Channel Islands with the UK has been regarded as internal trade.

Communications. Passenger and cargo steam services between Jersey, Guernsey and England are maintained by British Rail; between Guernsey, Jersey and England and St Malo by the Commodore Shipping Co.; between Guernsey, Jersey, Alderney and France by Condor Ltd (hydrofoil), and between Guernsey and Alderney and England and Guernsey and Sark by local companies.

Scheduled air services are maintained by British Airways, British Island Airways, Caledonian/BUA and other companies between the Islands and airports in the UK, Irish Republic and France. During the summer months these services are greatly increased, both in the number of airports served and in the frequency of flights.

Omnibus services operate in all parts of Jersey and Guernsey.

Postal and overseas telephone and telegraph services are maintained by the respective Postal Administration of each island. The local telephone services are maintained by the insular authorities. There were, in 1972, 21,624 subscribers in Jersey and 16,868 in Guernsey.

There is an independent television station in Jersey.

GUERNSEY

Constitution. The government of the island is conducted by committees appointed by the States.

The States of Deliberation, the parliament of Guernsey, is composed of the following members: The Bailiff, who is President *ex officio*; 12 Conseillers; H.M. Procureur and H.M. Comptroller (Law Officers of the Crown), who have a voice but no vote; 33 People's Deputies elected by popular franchise; 10 Douzaine Representatives elected by their Parochial Douzaines; 2 representatives of the States of Alderney. The Lieut.-Governor has no power of veto.

The States of Election, an electoral college, elects the Jurats and Conseillers. It is composed of the following members: The Bailiff (President *ex officio*); the 12 Jurats or 'Jurés-Justiciers'; the 12 Conseillers; the 10 Rectors; H.M. Procureur and H.M. Comptroller; the 33 People's Deputies; 34 Douzaine Representatives; and (for the election of Conseillers) 4 representatives of the States of Alderney.

Since Jan. 1949 all legislative powers and functions (with minor exceptions) formerly exercised by the Royal Court have been vested in the States of Deliberation. Projets de Loi (Bills) require the sanction of The Queen-in-Council.

Lieut.-Governor and C.-in-C. of Guernsey and its Dependencies: Vice-Adm. Sir Charles Mills, KCB, CBE, DSC.

Secretary and ADC to the Lieut.-Governor: Capt. M. H. T. Mellish, OBE.

Bailiff of Guernsey and President of the States: J. H. Loveridge, CBE.

Population. Census population, 1971, was 51,458. Births during 1972 were 784; deaths, 609. The town is St Peter Port.

Education. There are 2 public schools in the island: Elizabeth College, founded by Queen Elizabeth in 1563, for boys, and the Ladies' College, for girls. The States grammar schools provide for education up to University entrance requirements, and there are numerous modern secondary and primary schools and a College of Further Education. The total number of school children is 9,408. Facilities are available for the study of art, domestic science and many other subjects of a technical nature. There is also a convent school with boarding facilities for girls.

Finance (year ending 31 Dec. 1972). Revenue, £9,791,220 (including £341,094 for Alderney); expenditure, £7,697,329 (including £166,180 for Alderney); States' funded debt less sinking fund provisions, £2,946,644; note and coin issue, £2,943,915. The standard rate of income tax is 20p in the pound. States and parochial rates are very moderate. No super-tax or death duties are levied.

AUSTRALIA

HISTORY. On 1 Jan. 1901 New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania were federated under the name of the 'Commonwealth of Australia', the designation of 'colonies' being at the same time changed into that of 'states'—except in the case of Northern Territory, which was transferred from South Australia to the Commonwealth as a 'territory' on 1 Jan. 1911.

In 1911 the Commonwealth acquired from the State of New South Wales the Canberra site for the Australian capital. Building operations were begun in 1923 and Parliament was opened at Canberra on 9 May 1927 by HRH the Duke of York (afterwards King George VI). A further area at Jervis Bay was acquired in 1915.

Territories under the administration of Australia, but not included in it, comprise Papua (1 Sept. 1906), Norfolk Island, the trusteeship territory of New Guinea, the territory of Ashmore and Cartier Islands, and the Australian Antarctic Territory (24 Aug. 1936), comprising all the islands and territory other than Adélie Land, situated south of 60° S. lat. and between 160° and 45° E. long.

The British Government transferred sovereignty in the Heard Island and McDonald Islands to the Australian Government on 26 Dec. 1947. Cocos (Keeling) Islands on 23 Nov. 1955 and Christmas Island on 1 Oct. 1958 were also transferred to Australian jurisdiction.

CONSTITUTION AND GOVERNMENT

Federal Government. Legislative power in Australia is vested in a Federal Parliament, consisting of the Queen, represented by a Governor-General, a Senate and a House of Representatives. Under the terms of the constitution there must be a session of parliament at least once a year.

The Senate comprises 60 senators (10 for each State voting as one electorate) chosen for 6 years. In general, the Senate is renewed to the extent of one-half every 3 years, but in case of prolonged disagreement with the House of Representatives, it, together with the House of Representatives, may be dissolved, and an entirely new Senate elected. The House of Representatives consists, as nearly as may be, of twice as many members as there are senators, the numbers chosen in the several States being in proportion to population as shown by the latest statistics, but not less than 5 for any original State. The numerical size of the House after the election in 1969 was 125, including the members for Northern Territory and the Australian Capital Territory. The Northern Territory has been represented by one member in the House of Representatives since 1922, and the Australian Capital Territory by one member since 1949. The member for the Australian Capital Territory was given full voting rights as from the Parliament elected in Nov. 1966. The member for the Northern Territory was given full voting rights in 1968. The House of Representatives continues for 3 years from the date of its first meeting, unless sooner dissolved. Every senator or member of the House of Representatives must be a British subject, be of full age, possess electoral qualifications and have resided for 3 years within Australia. The franchise for both chambers is the same and is based on universal adult (male and female) suffrage. Compulsory voting was introduced in 1925. If a member of a State parliament wishes to be a candidate in a federal election, he must first resign his State seat.

Formally, executive power in Australia is vested in the Governor-General, who is advised by an Executive Council. This is presided over by the Governor-General, and its members hold office at his pleasure. All Ministers of State are *ex-officio* members of the Executive Council. Meetings are formal and official in

character, and a record of proceedings is kept by the secretary or clerk. At Executive Council meetings the decisions of the Cabinet are (where necessary) given legal form, appointments made, resignations accepted, proclamations issued, and regulations and the like enacted.

The policy of a ministry is, in practice, determined by the Ministers of State meeting without the Governor-General under the chairmanship of the Prime Minister. This group, known as the Cabinet, does not form part of the legal mechanism of government; its meetings are private and deliberative; the actual ministers of the day are alone present; no records of the meetings are made public, and the decisions taken have, in themselves, no legal effect.

From Jan. 1956 the composition of the Ministry consisted of a Cabinet including a limited number of Ministers, and a group of Ministers not in the Cabinet who could be invited to attend Cabinet meetings whenever matters affecting their departments are being considered. In Jan. 1973 all members of the Ministry became Cabinet members.

The legislative powers of the Federal Parliament embrace commerce, shipping, etc.; finance, banking, currency, etc.; defence; external affairs; postal, telegraph and like services; census and statistics; weights and measures; copyright; railways; conciliation and arbitration in industrial disputes extending beyond the limits of any one State; social services (an amendment to the constitution in 1946 specifying, in addition to the existing provision for invalid and old-age pensions, the provision of maternity allowances, widows' pensions, child endowment, unemployment, pharmaceutical, sickness and hospital benefits, medical and dental services, etc.). The Senate may not originate or amend money bills; and disagreement with the House of Representatives may result in dissolution or, in the last resort, a joint sitting of the two Houses. No religion may be established by the Commonwealth. The Federal Parliament has limited and enumerated powers, the several State parliaments retaining the residuary power of government over their respective territories. If a State law is inconsistent with a Commonwealth law the latter prevails.

The constitution also provides for the admission or creation of new States. Proposed laws for the alteration of the constitution must be submitted to the electors, and they can be enacted only if approved by a majority of the States and by a majority of all the electors voting.

The 27th Parliament was elected on 2 Dec. 1972.

House of Representatives (as at 1 Jan. 1973): Liberal Party, 38; Country Party, 20; Australian Labor Party, 67 (Government); total 125.

Senate (as at 1 Jan 1973): Liberal Party, 21; Country Party, 5; Australian Labor Party, 26 (Government); Australian Democratic Labour Party, 5; Independent, 3.

Governor-General: The Rt Hon. Sir Paul Hasluck, GCMG, GCVO (from April 1969).

State Government. In each of the 6 States (New South Wales, Victoria, Queensland, South Australia, Western Australia, Tasmania) there is a State government whose constitution, powers and laws continue, subject to changes embodied in the constitution of the Commonwealth and subsequent alterations and agreements, as they were before federation. The system of government is the same as that described above for the Commonwealth—i.e., the sovereign, her representative (in this case a governor), an upper and lower house of parliament (except in Queensland, where the upper house was abolished in 1922), a cabinet led by the premier and an executive council. Among the more important functions of the State governments are those relating to education, health, hospitals and charities, law, order and public safety, business undertakings such as railways and tramways, and public utilities such as water supply and sewerage. In the domains of education, hospitals, justice, the police, penal establishments, and railway and tramway operation, State government activity predominates. Care of the public health and recreative facilities are shared with local government authorities and the Commonwealth government, social services other than those referred to

above are now primarily the concern of the Commonwealth government, and the operation of public utilities is shared with local and semi-government authorities. Other activities of State government pertain to lands and surveys, agriculture, forestry and public works, including roads (the latter shared with local and semi-government authorities).

Deakin, A., *The Federal Story*. Melbourne, 1944

Local Government. The system of municipal government is broadly the same throughout the Commonwealth, although local government legislation is a State matter.

Each State is sub-divided into areas known variously as municipalities, cities, boroughs, towns, shires or district councils, totalling about 900. Within these areas the management of road, street and bridge construction, health, sanitary and garbage services, water supply and sewerage, and electric light and gas undertakings, hospitals, fire brigades, tramways and omnibus services and harbours is the duty of elected aldermen and councillors. The scope of their duties, however, differs considerably, for in all States the State government, either directly or through semi-government authorities, also carries out these types of services. In some instances, e.g., in New South Wales, a number of local government authorities combine to conduct a public undertaking such as the supply of water or electricity.

RELIGION. Under the constitution the Commonwealth cannot make any law to establish any religion, to impose any religious observance or to prohibit the free exercise of any religion, nor can it require a religious test as qualification for office or public trust under the Commonwealth. The figures in the table refer to those religions with the largest number of adherents at the census of 1971. The census question on religion was not obligatory, however.

EDUCATION. The provision of education is mainly the responsibility of State governments. However, a Commonwealth Department, known as the Department of Education and Science (now Department of Education), was created in Dec. 1966. It absorbed the Commonwealth Office of Education and is concerned now with direct grants for educational purposes, e.g., for universities through the Australian Universities Commission, for Colleges of Advanced Education through the Australian Commission on Advanced Education, for school libraries, technical schools, and science buildings, as well as grants for building, teachers' and pre-school teachers' education institutions. It adminis-

ters grants to independent schools for running costs and provides financial assistance to students who are undergoing secondary and tertiary training through a number of scholarships. A total of 48,800 scholars received Commonwealth Scholarships in 1973—Commonwealth University Scholarships' Scheme, 14,500; Commonwealth Advanced Education Scholarship Scheme, 6,000; Commonwealth Post-graduate Awards Scheme, 700; Commonwealth Secondary Scholarship Scheme, 10,000, and Commonwealth Technical Scholarship Scheme, 2,500.

From the beginning of 1973 the Commonwealth Secondary Scholarship Scheme is being phased out and replaced by the Commonwealth Senior Secondary Scholarship Scheme which provides 25,000 scholarships to assist students during the final 2 years at secondary school. In 1974, as part of new arrangements for financing tertiary education, which will remove the need for students to pay compulsory tuition fees and associated charges, the Commonwealth University, Advanced Education and Technical Scholarship Schemes will be replaced by a new Tertiary Allowances Scheme. This scheme will be non-competitive and will provide means tested allowances for all eligible full-time students who do not hold other awards.

Primary and secondary education is undertaken by the State (government) schools and the 'private' (non-government) schools. The latter include the denominational schools, the most numerous being those of the Roman Catholics. The following is a summary for 1972 of primary and secondary school education:

² Enrolment first week in August. ² 1971-72. In \$A1,000.

Total expenditure on education in Australia in 1971-72 was estimated at \$A1,807m., of which \$A1,466m. was current expenditure. Direct expenditure on education by public authorities was \$A1,572m., including \$A92m. by Commonwealth authorities. In addition, the Commonwealth spent \$A55m. on scholarships and other grants to persons and non-government organizations, and \$A206m. in grants to the States for specific educational purposes. Total direct expenditure by State and local government authorities amounted to \$A1,580m., and a further \$A46m. was paid in scholarships, etc.

In 1972 there were 15 universities in Australia: 5 in New South Wales, 3 in Victoria, 2 in Queensland, 2 in South Australia, 1 each in Western Australia and Tasmania and the Australian National University in Canberra. At 30 April 1972 full-time teaching staff numbered 8,216; students numbered 128,668, of whom 83,585 were full-time.

Advanced education courses are provided for in 44 colleges of advanced education; students numbered 52,170 in 1972.

CINEMAS (1971). There were 976 cinemas including 241 drive-in cinemas, with a total seating capacity of about 478,000.

NEWSPAPERS (1972). There were 2 national newspapers (average daily circulation 188,000) and 15 metropolitan daily newspapers in Australia with a combined daily circulation of 3.9m. Of these, 3 papers published in Melbourne accounted for 1.3m. and 4 published in Sydney for 1.3m.

SOCIAL WELFARE. The National Welfare Fund finances all Commonwealth social and health benefits except repatriation and certain other payments primarily of a capital nature. Total expenditure from the Fund during 1972-73 was \$A2,197.4m.

The following summarizes the rates and conditions of the major benefits provided. For expenditure on these benefits during 1972-73, see table on p. 150.

Age and invalid pensions—men 65 years of age or more and women 60 years of age or more may receive an age pension. Persons 16 years of age or more who are permanently incapacitated for work to the extent of not less than 85% may receive an invalid pension. To be paid a pension, a person must have lived in Australia for a specified period and also satisfy a means test on income and property. The maximum rates are \$A21.50 a week in the case of the 'standard' rate pension, and in the case of the 'married' rate pension, \$A37.50 a week (\$A18.75 each). Additional amounts, subject to the means test, are paid to pensioners with dependent children. Pensions, free of the means test, are paid to permanently blind persons. Supplementary assistance of up to \$A4 a week may be paid to a pensioner paying rent or for lodging.

Maternity allowance—is paid without means test in respect of every eligible child born in Australia. The rates are \$A30 where there are no other children under 16 years; \$A32 where there are 1 or 2 other children under 16; \$A35 where there are 3 or more other children under 16; in addition \$A10 is paid for each additional child born at a birth.

Child endowment—is paid without means test. For children under 16 years, the rates payable per week are: 50c. for the first or only child in a family, \$A1 for the second child, \$A2 for the third and then cumulative increases of 25c. for the fourth and subsequent children, making \$A2.25 for the fourth, \$A2.50 for the fifth and so on. For all full-time student children, aged 16 to 21 years, the rate is \$A1.50 a week. For each child under 16 years in an approved institution, the rate is \$A2 a week.

Widows' pensions—widows, divorcees, certain deserted wives and women whose husbands are in mental hospitals or prison may, if they satisfy a residence requirement and the means test, receive a widow's pension. Such women with at least one dependent child may be paid a pension of up to \$A21.50 a week plus a mother's allowance of \$A4 a week (\$A6 if she has an invalid child requiring full-time care or a child under 6 years) plus \$4.50 a week for each child. Widows, divorcees, etc., without a child and who are 50 years of age or more (as well as certain younger widows), may be paid a pension of up to \$A21.50 a week. Persons who pay rent may also receive supplementary assistance of up to \$A4 a week.

Unemployment and sickness benefits—are paid, subject to a means test on income, to persons between the ages of 16 and 65 (males) and 16 and 60 (females) who are temporarily unemployed, or temporarily incapacitated and thereby suffer loss of income. To be granted benefit a person must have resided in Australia for at least 12 months preceding his claim or intend to reside permanently in Australia. For unemployment benefit purposes unemployment must not be due to direct participation in a strike. Registration for employment with the Commonwealth Employment Service is necessary.

Hospital Benefits. \$A2 per day is paid for each qualified patient insured with a registered benefit organization and receiving treatment in a public or approved private hospital. Where the patient is uninsured the benefit is 80c. per day. However, if a patient is treated free of charge, \$A2 is paid to the hospital.

Public hospitals are paid \$A5 per day for treating persons covered by the pensioner medical service.

Nursing home benefits. \$A3.50 per day is paid for each qualified patient in an approved nursing home and a supplementary benefit of \$A3 per day is paid in respect of patients who require and receive intensive nursing home care. As from 1 Jan. 1973, an additional benefit is paid for patients covered by the pensioner medical service.

Medical benefits. The Australian Government subsidizes the payment of medical expenses of persons insured with a registered benefit organization.

Subsidized health benefits. Free health insurance is provided for persons receiving unemployment and sickness benefits, for migrants during their first 2 months in Australia, and for families with weekly incomes not exceeding \$A60.50. Partial assistance in meeting insurance contributions is available to families with weekly incomes not exceeding \$A69.50.

Pensioner medical service. Eligible pensioners and their dependants receive free general practitioner medical services, free pharmaceuticals, free public ward treatment in public hospitals and additional nursing home benefits.

Pharmaceutical benefits—a comprehensive range of drugs and medicinal preparations is available. In general, a fee of \$A1 is charged for each prescription. However, persons enrolled in the subsidized health benefits scheme pay 50c. per prescription and persons covered by the pensioner medical service are supplied free of charge.

Tuberculosis campaign—this provides for diagnosis, treatment, after-care and allowances to sufferers and their dependants. The Australian Government meets additional maintenance costs and provides all approved capital expenditure.

Service pensions—are paid, subject to a means test, to (a) aged ex-members of the forces, (b) ex-members of the forces who are permanently unemployable and to their dependants, (c) ex-members of the forces suffering from tuberculosis and to their dependants.

War pensions—are not subject to a means test and may be paid to ex-service men and women who have incurred incapacity as a result of war service, and their dependants. Expenditure on war pensions during 1972–73 was \$A225m. and on service pensions \$A72.3m.

The total numbers of pensions, etc., in force at 30 June 1973 were: Age and invalid pensions, 1,081,421; child endowment (number of endowed children), 4,238,882; widows' pensions, 105,717; unemployment, sickness and special, 61,085; war pensions, 546,271; and service pensions, 96,125. Maternity allowances (number granted during 1972–73), 251,884.

JUSTICE. The judicial power of the Commonwealth is vested in the High Court of Australia (the federal supreme Court), in the federal Courts created by Parliament (the Federal Court of Bankruptcy and the Commonwealth Industrial Court) and in the State Courts invested by Parliament with federal jurisdiction. *High Court.* The High Court consists of a Chief Justice and 6 other Justices, appointed by the Governor-General in Council. The Constitution confers on the High Court original jurisdiction, *inter alia*, in all matters arising under treaties or affecting consuls or other foreign representatives, matters between the States of the Commonwealth, matters to which the Commonwealth is a party and matters between residents of different States. Parliament may make laws conferring original jurisdiction on the High Court, *inter alia*, in matters arising under the Constitution or under any laws made by Parliament. It has in fact conferred

jurisdiction on the High Court in matters arising under the Constitution and in matters arising under certain laws made by Parliament.

The High Court may hear and determine appeals from its own Justices exercising original jurisdiction, from any other federal Court, from a Court exercising federal jurisdiction and from the Supreme Courts of the States. It also has jurisdiction to hear and determine appeals from the Supreme Courts of the Territories. No appeal from the High Court to the Privy Council is permitted on questions as to the limits *inter se* of the constitutional powers of the States or the Commonwealth and the States except on the certificate of the High Court. Appeal from the High Court to the Privy Council by special leave of the Privy Council is possible in matters of non-federal jurisdiction.

Other Federal Courts. Two other federal courts, which have been created to exercise special jurisdiction, are the Commonwealth Industrial Court (*see below*) and the Federal Court of Bankruptcy. The Federal Court of Bankruptcy consists of a Judge appointed by the Governor-General in Council. The State Supreme Courts have also been invested with federal jurisdiction in bankruptcy. Legislation was introduced in 1968 preparatory to the absorption of these two federal courts in a new federal court of wider jurisdiction. This legislation has not been proceeded with.

State Courts. The general federal jurisdiction of the State Courts extends, subject to certain restrictions and exceptions, to all matters in which the High Court has jurisdiction or in which jurisdiction may be conferred upon it. In matters of non-federal jurisdiction appeal is still possible, as a matter of law, from the State Courts direct to the Privy Council.

Industrial Tribunals. The chief industrial tribunals of the Commonwealth are at present the Industrial Court, constituted by judges, and the Conciliation and Arbitration Commission, constituted by presidential members (with the status of judges) and commissioners. The Industrial Court deals with questions of law, the judicial interpretation of awards, imposition of penalties, etc. The Commission's functions include settling industrial disputes, making awards, determining the standard hours of work, wage fixation, etc.

MONEY. On 14 Feb. 1966 Australia adopted a system of decimal currency. The new currency unit, the dollar (\$) is divided into 100 cents, and equalled £0.50. The transition period ended on 31 July 1967. Decimal system notes have been issued in denominations of \$1, 2, 5, 10, 20 and 50. Coins have been issued in denominations of 50, 20, 10, 5 and 2 cents and 1 cent.

Australian notes, issued by the note-issue department of the Reserve Bank, are legal tender throughout Australia. The total value of notes in circulation on 27 June 1973 was \$A1,757.8m., of which \$A1,528.6m. were held by the public. Coins are issued by the Commonwealth Treasury and distributed by the Reserve Bank. The aggregate net issue of pre-decimal coins at 30 June 1973 was \$A50.3m. and decimal coins \$A155.5m.

All Australian coins are now minted by the Royal Australian Mint at Canberra.

FINANCE. In 1929, under a financial agreement between the Australian Government and States, approved by a referendum, the Australian Government took over all State debts existing on 30 June 1927 and agreed to pay \$A15,169,824 a year for 58 years towards the interest charges thereon, and to make substantial contributions towards a sinking fund to extinguish existing debts in 58 years and future debts in 53 years. The Australian Government arranges all borrowing for both Australian Government and States through a loan council consisting of representatives of Australian Government and State governments. Since 1942 the Australian Government alone has levied taxes on incomes. In return for vacating this field of taxation, the States are reimbursed by a grant from the Australian Government out of revenue received. All figures in the following table are in \$A1,000 (for years ending 30 June).

DEFENCE. The formulation and application of defence policy is the responsibility of the Minister for Defence. Advice on and implementation of defence policy is the function of the Department of Defence which is also responsible to ensure the co-ordination and implementation of policy by the Departments of the Navy, Army and Air.

In Dec. 1972 the Government announced its intention to merge the Defence Group of Departments under a single Minister. The Minister for Defence assumed charge of the Department of Defence and of the other Department in the Defence Group. Because of the heavy burden of defence policy falling on the

Defence Minister, a second Minister, acting under the policy and higher management direction of the Minister for Defence, was appointed as Minister Assisting. His functions related to personnel management, training and the administration of the Navy, Army and Air Force.

The re-organization of the Defence Group of Departments is to take place in stages. In the first stage the Department of Defence was given greater authority in its direction and control of the execution of defence policy by each of the three Service Boards and by the Department of Supply. The Government intends in the second stage, which will take place in the near future, to merge the three Service Departments into the Department of Defence, and also certain functions of the Department of Supply. This re-organization is now proceeding.

Army. Overall organization and financial control of the Australian Army is exercised by the Military Board; command is exercised through Army Headquarters. A functional command structure, Headquarters Field Force Command, Headquarters Logistic Command, and Headquarters Training Command, with Headquarters in military districts, has just been introduced.

The strength of the Army including National Servicemen was 33,990 at 30 June 1973. There is emphasis in the field force organization on the combat element and high-priority logistic units to meet the requirements for limited war with light air-portable formations. The Field Force is organized on the divisional structure, on the basis of 6 battalions organized in 3 task forces of 2 battalions each with combat and logistic support.

There is a volunteer Regular Army Emergency Reserve of 527 former members of the Regular Army, and the strength of the Citizens Military Forces is 22,592. The Pacific Islands Regiment has 2 battalions and supporting units, with a total Pacific Islander strength of 3,013.

Training for commissioned rank is carried out at the Royal Military College, the Officer Cadet School and the Officer Training Unit. The Royal Military College was established in Canberra in 1911, to train young men from Australia and New Zealand for the Regular Armies of those two countries. The college which is affiliated with the University of New South Wales accepts young men between the ages of 17 and 20 who are qualified to enter university. The course covers 4 years and leads to the award of the university's degrees of Bachelor of Arts in Military Studies and Bachelor of Science in Military Studies. The Officer Cadet School was established at Portsea, Victoria, in 1952. The course there takes 11 months. The Officer Training Unit was established at Scheyville, New South Wales, in 1965 to train National Servicemen for the Regular Army Supplement. The duration of the course is 21 weeks.

High staff and command training is, in the main, carried out at the Australian Staff College, Queenscliff, Victoria.

Expenditure on Army capital equipment was \$A50.6m. in 1969-70, \$A43m. in 1970-71 and \$A51.6m. in 1971-72.

Navy. The overall control of the Royal Australian Navy is vested in the Naval Board, which consists of the Minister for the Navy and 4 Naval Members (First Naval Member and Chief of Naval Staff; Second Naval Member and Chief of Naval Personnel; Third Naval Member and Chief of Naval Technical Services; Fourth Naval Member and Chief of Supply and Works), and the Secretary, Department of the Navy. There is also the Deputy Chief of Naval Staff. Headquarters of the Naval Board and the Department of the Navy are in Canberra. The operation and administration of the Fleet is the responsibility of the Flag Officer Commanding H.M. Australian Fleet.

Aircraft carriers of the Royal Australian Navy:

Completed	Name	Standard displacement, tons	Principal armament	Shaft-horse- power	Speed, knots
1955	Melbourne (ex-Majestic) ¹	16,000	12 40-mm AA	40,000	24

¹ The impending disposal of sister ship *Sydney* (ex-*Terrible*), completed as an aircraft carrier in 1949 and converted to a fast military transport in 1961, was officially announced in July 1973.

There are also 4 British-built 'Oberon' class submarines, *Onslow*, *Otway*, *Ovens* and *Oxley* (completed in 1967-69), 3 US-built 'Charles F. Adams' class guided-missile destroyers, *Brisbane*, *Hobart* and *Perth* (completed in 1965-68), 3 'Daring' class destroyers, 6 destroyer escorts or 'Type 12' fast anti-submarine frigates, 4 oceanographic research and survey ships, 2 minehunters, 4 minesweepers, a destroyer tender, 20 patrol craft, 1 fleet oiler and 6 service craft. An oceanographic research ship is being built in Australia and 2 more 'Oberon' class submarines are under construction in Britain. Three so-called 'light destroyers' (DDL) were projected: with a displacement of 4,200 tons, a length of 425 ft and gas turbines giving a speed of 30 knots, they were scheduled to be built by Williamstown naval dockyard. But in Aug. 1973 Mr Lance Barnard, the Minister for Defence, announced that a decision by the previous Government to acquire 3 light destroyers was being deferred; the Navy would not proceed with the construction of the fast combat support ship *Protector* (fleet replenishment ship of 20,270 tons carrying 2 helicopters); and the training ship *Anzac* ('Battle' class destroyer) would be paid off.

¹ Including *Duchess*, on loan from the Royal Navy from 1964 to 1972 when she was purchased outright.

Naval dockyards are at Garden Island, Sydney, and Williamstown, Victoria. Naval shipbuilding is carried out at Williamstown, at Cockatoo Dock and Engineering Company, Sydney, or by private contract. The main repair base and store depots are at Sydney.

The main training establishments are HMAS *Cerberus* in Victoria, HMAS *Watson*, HMAS *Penguin* and HMAS *Nirimba* at Sydney, HMAS *Albatross* (Naval Air Station) at Nowra, NSW, and HMAS *Creswell* (Royal Australian Naval College) at Jervis Bay, ACT. Training for junior recruits is carried out at HMAS *Leeuwin* in Fremantle, WA, and Reserve training in naval establishments in all capital cities.

The Fleet Air Arm was established in 1948. In June 1973 it had 72 aircraft and 1,945 officers and sailors. Its operational aircraft consisted of 1 squadron each of Skyhawk and Tracker aircraft and 1 squadron of Wessex helicopters.

The serving strength at 30 June 1973 totalled 17,484 officers and sailors.

Navy estimates 1973-74, \$A319.93m.

Air Force. The Royal Australian Air Force was established as a separate service on 31 March 1921. The Department of Air exercises governmental and financial control. The controlling body is the Air Board, which consists of the Chief of the Air Staff, Air Member for Personnel, Air Member for Technical Services, Air Member for Supply and Equipment and the Secretary Department of Air. The Air Board is responsible to the Minister for Air and determines all policy matters of major importance.

Operational Command, with Headquarters near Sydney, is responsible for operational training and operational activities within Australia; while Support Command, with Headquarters in Melbourne, is responsible for recruitment, basic training, supply and major maintenance.

Flying establishment comprises 16 squadrons, of which 2 are equipped with F-111C 'swing wing' strike/reconnaissance aircraft. Of the others, 1 is equipped with Canberras for target flying and photographic duties, 3 with missile-armed Mirage III-O Mach-2 fighters, 1 with Orion maritime reconnaissance bombers, 1 with Neptune maritime reconnaissance aircraft, 1 with Boeing Vertol CH-47C medium-lift helicopters, and 2 with Iroquois helicopters. There are 5 transport squadrons, 2 with Hercules turboprop transports, 2 with Caribou STOL transports, and a special transport squadron equipped with BAC One-Eleven, Mystère 20 and HS 748 aircraft. Training aircraft include Winjeels and Aermacchi MB 326H jets for pilot training, and HS748 aircraft for navigation and air electronics training. Replacement of Winjeels by Airtrainer CT/4s, built in New Zealand, was to begin in 1974.

As part of Australia's contribution to the post-AMDA 5-power Arrangements, 2 Mirage squadrons with supporting units are assigned to the ANZUK force in Malaysia, with a detachment of 8 Mirages at Singapore.

At 1 July 1973 the strength of the RAAF was as follows: Permanent Air Force, 22,717; Citizen Air Force, 681; General Reserve 7,980; Emergency Force, 510.

LABOUR AND EMPLOYMENT. The majority of wage and salary earners in Australia have their minimum wages and conditions of work prescribed in awards of industrial arbitration authorities established under federal and State legislation. However, in some States, some conditions of work (e.g., normal weekly hours of work, long-service leave, annual leave) are set down in State legislation. Practically all employees in Australia have a standard working week of 40 hours or less; paid annual leave of at least 3 weeks; and paid long-service leave (i.e., leave granted to workers who remain with one employer over an extended period of time) of at least 13 weeks after 15 years' continuous service.

In addition to the minimum rates of pay for a standard working week prescribed in awards of industrial arbitration authorities, many wage-earners are in receipt of over-award pay and payments for overtime. At the end of Oct. 1972 it was estimated that the average weekly earnings of adult males (other than managerial, professional and higher supervisory staff) in full-time private employment was \$A96 and average weekly hours 42.9.

Employees in all States are covered by workers' compensation legislation which provides for compensation for work injuries.

During 1972 industrial disputes involving stoppages of work of 10 man-days or more accounted for 2,010,300 working days lost. In these disputes 1,113,800 workers were involved. 46% of the working days lost in 1972 were due to disputes which lasted 3 days or less.

The Labour Force. The following table shows estimates (in 1,000) of the civilian population, by employment status. The estimates are based on results of the quarterly population survey, carried out by personal interview at a sample of dwellings throughout Australia.

¹ At census 1971 trainee teachers (enrolled at government teachers' colleges and some other institutions) were classified as not in the labour force. The employment included approximately 24,000 trainees (7,000 male). For subsequent period trainee teachers have been excluded from the estimates.

The following table shows the number of unemployed persons and job vacancies registered with the Commonwealth Employment Service and the number of persons in receipt of unemployment benefit:

	June 1969	June 1970	June 1971	June 1972	June 1973

Trade Unions. At the end of 1972 there were 305 trade unions in existence in Australia with a reported membership of 2,523,700. Over 53% of wage and salary earners were estimated to be members of unions. In 1972, 195 unions (103,500 members) reported membership of less than 2,000, and 37 unions (1,970,700 members) reported membership of 20,000 or more. Many of the larger trade unions are affiliated with central labour organizations, the oldest being the Australian Council of Trade Unions formed in 1927. Other central labour organizations have as affiliates Public Service associations, and salaried and professional associations.

COMMERCE. Throughout Australia there are uniform customs duties, and trade between the States is free. For 1972-73 the gross revenue collected from customs duties amounted to \$A547.7m. and from excise to \$A1,279.2m. The total net revenue from customs and excise for 1972-73 after allowing for drawbacks and credit to Australian Government departments for duty paid, was \$A1,782.6m.

Value of the total imports and exports for years ending 30 June, in \$A1,000 (f.o.b.):

The Australian customs tariff provides for preferences to goods produced in and shipped from certain specified countries such as UK, Canada, New Zealand and Ireland. Preferences occur as a result of reciprocal trade agreements between Australia and these countries. Australia also has bilateral agreements with a number of other countries guaranteeing reciprocal treatment in matters of trade. The Australia-New Zealand free-trade agreement came into force on 1 Jan. 1966 in certain scheduled goods. In addition, Australia is a signatory to the multilateral General Agreement on Tariffs and Trade (GATT).

The State railway gauges are: New South Wales, 4 ft 8½ in.; Victoria, 5 ft 3 in. (202 miles 4 ft 8½ in. and 9 miles 2 ft 6 in.); Queensland, 3 ft 6 in. (69 miles 4 ft 8½ in. and 30 miles 2 ft); South Australia, 5 ft 3 in. for 1,570 miles, 246 miles 4 ft 8½ in. and the rest 3 ft 6 in.; West Australia, 450 miles 4 ft 8½ in. and the rest 3 ft 6 in., and Tasmania, 3 ft 6 in. Of the Commonwealth lines, the gauge of the Trans-Australian and Australian Capital Territory is 4 ft 8½ in., for the Central Australia, 3 ft 6 in. for 540 miles and 4 ft 8½ in. for 217 miles and for North Australia, 3 ft 6 in. Under various Commonwealth-State standardization agreements Brisbane, Sydney and Melbourne are linked by a standard 4 ft 8½ in. gauge line and Sydney is linked with Perth, *via* Broken Hill to Port Pirie (South Australia), from Port Pirie to Kalgoorlie (Western Australia) and from Kalgoorlie to Perth. The overall length of the Sydney-Perth railway is 2,461 miles. The terminus of the North Australia railway is at Birdum (317 miles from Darwin), while the Central Australia railway extends as far north as Alice Springs (3 ft 6 in. gauge from Maree to Alice Springs).

ROADS. The length of roads in Australia for general traffic is about 537,000 miles, of which approximately 129,000 is sealed, 131,000 of macadam and similar composition and 277,000 of cleared or natural surface or formed only.

At 31 Dec. 1972, 5,495,000 motor vehicles, including 4,274,000 cars and station wagons, 562,700 light commercial type vehicles, 461,500 truck type vehicles and buses, and 197,600 motor cycles, were registered in Australia. The revenue derived from registration fees and motor tax for the year 1971-72 was \$A191.9m., drivers' and riders' licences, \$A25.3m., and miscellaneous, \$A84.1m. New

vehicles registered in 1972 numbered 405,852 cars and station wagons, 62,039 light commercial type vehicles, 32,169 truck type vehicles and buses and 54,641 motor cycles.

AVIATION. Civil flying in Australia and Territories is subject to legislative control by the Australian Government. The administration of the Air Navigation Act and Regulations is a function of the Civil Aviation Department under the Minister of Civil Aviation. The permanent head of the department is the Director-General of Civil Aviation.

Operations of regular internal air services in Australia include flights of all Australian-owned airlines, except Qantas Airways, within the Commonwealth. During 1971-2 hours flown numbered 248,774. The total mileage flown was 72m. Paying passengers carried numbered 6,629,316; weight of goods carried was 99,079 short tons, and gross weight of mail was 11,174 short tons.

During 1971-72 hours flown by Australian regular overseas services numbered 91,357; miles flown, 41.2m.; paying passengers, 885,548; freight, 23,105 short tons; mail, 3,132 short tons.

Expenditure by the Australian Government on civil aviation for the year 1971-72 was \$A134.6m. (including \$A41.3m. on capital works).

At 30 June 1972 there were 388 licensed land aerodromes, 108 governmental land aerodromes and 7 water aerodromes in Australia, excluding Papua New Guinea.

POST AND TELEGRAPHS. Business, year ended 30 June 1972. Number of post offices, 6,637. Earnings: Postal, \$A213.4m.; telecommunications, \$A645.1m.; total, \$A858.5m. Working expenses: Postal, \$A210.8m.; telecommunications, \$A456.5m.; total, \$A667.3m. Interest: Postal, \$A13.8m.; telecommunications, \$A117.6m.

At 30 June 1972, 5,979 telephone exchanges with 2,977,767 services and 4,399,782 instruments, were in operation.

Wireless broadcasting stations are in operation in all State capitals and in other regional areas throughout Australia. The National Broadcasting Service is provided by the Australian Broadcasting Commission, which at 30 June 1972 operated 75 medium-wave and 6 high-frequency stations and 12 high-frequency stations for overseas services. In addition, 116 medium-wave commercial broadcasting stations were operating.

The Overseas Telecommunications Commission, established in Aug. 1946, is responsible for all overseas services by cable, radio, telephone, including radio telephone services with ships at sea.

Television services are conducted in each State and the Australian Capital Territory by the National Television Service and by the Commercial Television Service. There were 52 national television stations and 48 commercial television stations in operation at 30 June 1972.

At 30 June 1972 there were in force 2,753,608 broadcast and 2,938,658 television licences, including 2,419,914 combined licences; combined licences were introduced on 1 April 1965. Revenue in 1971-72 was \$A61.8m. from all licences.

BANKING. The banking system in Australia comprises:

(a) The Reserve Bank of Australia. This is the central bank which in addition to its central banking business (including the note-issue department) provides special financing facilities through the rural credits department for the processing, manufacture and marketing of primary produce.

(b) Seven major trading banks: (i) The Commonwealth Trading Bank of

Australia; (ii) 6 private trading banks: the Australia and New Zealand Banking Group Ltd, The Bank of Adelaide, the Bank of New South Wales, The Commercial Bank of Australia Ltd, The Commercial Banking Company of Sydney Ltd and The National Bank of Australasia Ltd.

(c) Other trading banks: (i) 3 State Government banks—The Rural Bank of New South Wales, the State Bank of South Australia, and the Rural and Industries Bank of Western Australia; (ii) one joint stock bank—The Bank of Queensland Ltd, formerly The Brisbane Permanent Building and Banking Co. Ltd, which has specialized business in one district only; (iii) branches of 2 overseas banks—the Bank of New Zealand and the Banque Nationale de Paris, which are mainly concerned with financing trade, etc., between Australia and overseas countries.

(d) The Commonwealth Development Bank of Australia.

(e) Savings Banks.

(f) The Australian Resources Development Bank Ltd opened on 29 March 1968. Its main objective is to assist Australian enterprises in the development of Australia's natural resources, through direct loans and equity investment or by refinancing loans made by trading banks. The bank is jointly owned by the 7 major Australian trading banks. At end June 1972 the total of capital and loan funds raised since the bank's inception was almost \$A328m.

The Reserve Bank's functions and responsibilities derive from the Reserve Bank Act 1959 and the Banking Act 1959, which came into effect in 1960. They had their origins, however, in the development of the central banking role of the Commonwealth Bank, which was established in 1911 as a Government savings and trading bank.

Control of the Australian note issue was transferred from the Commonwealth Treasury to a Notes Board in 1920 and, in 1924, to the Bank. The Commonwealth Bank Act 1945 formally constituted the Bank as a central bank, and these powers were carried through into the 1959 Act establishing the Reserve Bank.

The Acts of 1959 provided for: (i) the separation of the central bank from the Commonwealth group of banking institutions and its reconstitution as the Reserve Bank of Australia; (ii) the establishment of an entirely separate Commonwealth Banking Corporation, with responsibilities for the non-central-banking elements that had developed from within the original Commonwealth Bank—namely the Commonwealth Trading Bank, the Commonwealth Savings Bank and the Commonwealth Development Bank, the latter being basically an amalgamation of the Mortgage Bank and Industrial Finance Department of the Commonwealth Bank.

At 30 June 1973 the capital of the Reserve Bank totalled \$A49,428,000 and reserve funds (including a special reserve for IMF special drawing rights) \$A209,232,959. The capital was distributed as follows: Central banking business, \$A40m.; rural credits department, \$A9,428,000. Reserve funds held were: Central banking business, \$A197,955,055; rural credits department, \$A11,277,904. Profits for the year ended 30 June 1973 (including all departments) amounted to \$A1,298,000.

Particulars as at 30 June 1973 for the banks under the control of the Commonwealth Banking Corporation: Commonwealth Trading Bank, capital, \$A14,858,000; reserve fund, \$A27,169,000; profits for the year, \$A6.51m. Commonwealth Development Bank, capital, \$A61,714,000; reserve fund, \$A34,029,000; profits for the year, \$A1,498,000. Commonwealth Savings Bank, reserve fund, \$A50m.; profits for the year, \$A8.28m.

At 30 June 1973 the 13 trading banks operating in Australia provided full banking facilities at 4,773 branches and 1,417 agencies all over Australia.

The average deposits in Australia with all trading banks (under (b) and (c) above) for June 1973 amounted to \$A11,072,456; the average of advances made by the banks to \$A7,856,176; the average of total assets was \$A12,622,876.

At 30 June 1973, 13 savings banks were operating in Australia. These are the Commonwealth Savings Bank with branches throughout Australia; 7 private savings banks being wholly owned subsidiaries of the 6 private trading banks and operating, with certain exceptions, in all States and Territories; the State Savings Banks in Victoria and South Australia; the Rural and Industries Bank of Western Australia, and 2 Trustee Savings Banks in Tasmania. At 30 June 1973 these savings banks provided savings facilities at 5,452 branches and 14,714 agencies throughout Australia. At end of June they held deposits in Australia amounting to \$A10,237,900.

In 1973 there were 48 companies registered under the Life Insurance Act, 1945–1965, transacting life insurance business in Australia; in addition there were 2 State government institutions. During 1972–73 premiums received were \$A1,055.3m. and claims, etc., paid were \$A511.9m.

The following table is a summary of banking and insurance business (in \$A1,000) in the several States of the Commonwealth:

AUSTRALIAN TERRITORIES

THE NORTHERN TERRITORY

GOVERNMENT. The Northern Territory, after forming part of New South Wales, was annexed on 6 July 1863 to South Australia and in 1901 entered the Commonwealth as a corporate part of South Australia. The Commonwealth Constitution Act of 1900 made provision for the surrender to the Commonwealth of any territory by any state, and under this provision an agreement was entered into on 7 Dec. 1907 for the transfer of the Northern Territory to the Commonwealth, and it formally passed under the control of the Commonwealth Government on 1 Jan. 1911.

On 1 Feb. 1927 the Northern Territory was divided for administrative purposes into two parts, North Australia and Central Australia, the dividing line being the 20th parallel of S. lat. Each part was under a Government Resident, with headquarters at Darwin and Alice Springs respectively. This division was effected under the authority of the Northern Australia Act, 1926, which also provided for a North Australia Commission, the powers of which extended to matters relating to the development of North Australia, and also to the administration of Crown lands throughout North Australia and Central Australia. The Northern Australia Act, 1926, was repealed as from 12 June 1931 by the Northern Territory (Administration) Act, 1931. The North Australia Commission was abolished, and the whole of the Northern Territory was again placed under the control of an Administrator. The Administrator administers the Territory on behalf of the Commonwealth; his residence is at Darwin.

The Legislative Council for the Northern Territory was set up by an amendment to the Northern Territory (Administration) Act in 1947. The Council was reconstituted in 1959 by a further amendment to the Act to consist of the Administrator, 6 official members, 3 appointed non-official members and 8 elected members. In 1965 an amendment provided for the withdrawal of the Administrator and the election of a Council President from among the elected members. The council was again reconstituted in 1968 to consist of 6 official and 11 elected members with effect from the elections for the Council held in Oct. 1968.

All Ordinances passed by the Council are presented to the Administrator for assent. The Administrator must reserve certain Ordinances for the Governor-General's pleasure. Others he may assent to, withhold assent, reserve for the Governor-General's pleasure or return to the Council with amendments that he recommends. The Governor-General may assent to an Ordinance, withhold assent to whole or part of an Ordinance, or return it to the Administrator with amendments he recommends. He may also disallow in whole or part any Ordinance the Administrator has assented to. All Ordinances must be laid before each House of Parliament. An Administrator's Council was set up in 1959 to advise the Administrator on any matter referred to it by the Administrator or in accordance with any Ordinance. The Council consists of the Administrator and 2 official and 3 elected members of the Legislative Council. The Northern Territory elects a member to the House of Representatives who has full voting rights.

In Dec. 1973 the Northern Territory Administration was replaced by the Department of the Northern Territory. A joint committee on the Northern Territory was appointed to examine constitutional reform.

Acting Administrator: T. A. O'Brien.

AREA AND POPULATION. The Northern Territory is bounded by the 26th parallel of S. lat. and 129° and 138° E. long. Its total area is 1,346,200 sq. km. On 30 June 1972 the area alienated under freehold tenure was 120,600 hectares; 78.5m. hectares were held under leasehold and 2.4m. hectares under licences, etc.; 25.2m. hectares were reserved for Aborigines, public requirements, etc.; and 28.4m. hectares were unoccupied and unreserved. Land rents collected for the year 1972-73 amounted to \$A298,340. The coastline is about 6,200 km in length, the principal port being Darwin. The greater part of the interior consists of a tableland rising gradually from the coast to a height of about 700 metres. On this tableland there are large areas of excellent pasturage. The southern part of the Territory is generally sandy and has a small rainfall, but water may be obtained by means of sub-artesian bores. The climate is tropical, but varies considerably over the whole Territory.

In the coastal region, there are two main climatic divisions—the wet season, Nov. to April, and the dry season, May to Oct. Farther south the climate is of a continental type, showing a great variation between the hottest and coldest months.

The census population, excluding full-blood Aborigines, was as follows:

	Europeans	Total		Europeans	Total
1881	667	3,451	1947	9,116	10,868
1901	782	4,811	1954	14,031	16,469
1911	1,418	3,310	1961	23,599	27,095
1921	2,458	3,867	1966	33,784	37,433
1933	3,306	4,850			

The census population, including Aborigines, was 86,390 as at June 1971; the population of Darwin urban area was 37,060.

The estimated total population of the Northern Territory at 30 June 1973 was 95,600.

FINANCE. The revenue and expenditure (in \$A1,000) for years ended 30 June cover the transactions of the Commonwealth Consolidated Revenue Fund relating to the Northern Territory and were as follows:

	1967-68	1968-69	1969-70	1970-71	1971-72
Revenue	9,663	11,060	12,449	17,022	17,847
Expenditure	63,215	69,350	87,174	104,495	130,005

The chief sources of revenue for 1971-72 were: Electricity supply, \$A5,801,000; rents and rates, \$A3.29m. The chief items of operational expenditure were: Aboriginal advancement, \$A7.49m.; public health, etc., \$A11.91m.; and

educational services, \$A6,384,000 (excluding special schools for Aboriginal children). Capital expenditure (excluding business undertakings) amounted to \$A62,396,000.

PASTORAL INDUSTRY. The beef cattle industry is the main rural activity in the Territory. The value of beef production for the year 1971-72 was approximately \$A23.5m. while other meat products, mainly buffalo meat, amounted to approximately \$A1.5m. There are 2 abattoirs licensed to export beef. A domesticated buffalo industry has been established in the wet coastal plains. Good progress is also being made in the introduction of tick and heat resistant tropical breeds of cattle.

Livestock (30 June 1973): 1,237,237 cattle, 2,656 sheep, 6,662 pigs, 5,199 domesticated buffaloes.

AGRICULTURE. Agriculture is conducted on a small scale in the Territory, the principal crops being grain sorghum. For the year 1972-73 grain sorghum production was 17,041 metric tons. In addition, the Territory produced small quantities of fruit, vegetables, eggs, dairy produce, poultry and pasture seed in areas adjacent to the principal population centres. The total value of agricultural production for 1971-72 was \$A1.6m. There are 10 agricultural, pastoral research establishments in the Northern Territory administered by the Department of the Northern Territory and CSIRO.

FORESTRY. A 5-year forest development programme which commenced in 1970 has continued the multiple use management of Northern Territory forested areas; this programme included a softwood programme of 1,000 acres per year, the introduction of additional suitable tree species in both arid and higher rainfall areas, conservation and management of native forests for production and recreational purposes, survey and assessment of resources, fire control activities and the creation of training opportunities for Aborigines in forestry and allied saw-milling activities.

Local production of timber, mainly Cypress pine, amounted to 453,270 superfeet sawn in 1971-72. This was supplemented by 5,618,602 superfeet sawn imported from interstate and overseas.

FISHING. Following preliminary surveys indicating the existence of valuable prawn resources off the Northern Territory coast, prawning operations were approved in 1968 in waters adjacent to the Territory. Three prawning companies are now operating, 2 of which are joint Australian-Japanese ventures, involving the use of foreign vessels and crews for a limited period. Two prawn processing plants are in operation in Darwin while another operates on Groote Eylandt. Boats and equipment valued at \$A7.7m. were based on Northern Territory in 1971-72. During 1971-72, 5.8m. lb. live weight of prawns were caught by Northern Territory prawning ventures. The Territory exported 4m. lb. (processed weight) valued at \$A4m., representing 18% of Australian prawn exports. The other main fishery in the Territory is that based on barramundi in estuaries and inshore areas. This species also provides good sport fishing in inland areas. Commercial catches of barramundi totalled 475,000 lb. in 1971-72.

MINING. The mining industry is the Northern Territory's main industry in terms of production. The main minerals produced are bauxite, manganese, iron ore, copper, gold and bismuth and the value of all mineral output in 1971-72 was \$A43.6m.

In the Gove area of Arnhem Land a bauxite/alumina project has been completed. Development costs were in excess of \$A310m. Exports of bauxite commenced in June 1971 and the alumina plant commenced operation at a capacity of 500,000 tons per annum in July 1972. The plant expanded to a capacity of 1m. tons per annum by July 1973.

Manganese ore is produced on Groote Eylandt. Northern Territory production in 1971-72 was 1.04m. tons. The ore is shipped to Tasmania, Japan, Europe and the USA.

Shipments of iron ore from Frances Creek and Mt. Bunday through Darwin in 1971-72 were 923,005 tons. Mt. Bunday has now ceased operation.

Mines in the Tennant Creek area are the principal producers of gold, copper and bismuth in the Northern Territory. In 1971-72 the Northern Territory production of these minerals was bismuth concentrate, 1,238 tons; copper concentrate, 28,076 tons, and gold bullion 161,999 oz.

Extensive lead and zinc deposits are being investigated near Borroloola in the McArthur River area, but a major ore-dressing problem must be overcome before the deposits can be developed.

In the Alligator Rivers region 150 miles east of Darwin, rich discoveries of uranium have been made at Nabarlek, Koongarra and Ranger Island. The area is considered to be a uranium province of world importance and preparations for the development of the major deposits are proceeding.

The tempo of exploration for petroleum in the Northern Territory declined considerably during the latter part of 1972 and in 1973. During 1973 only 3 wells were drilled, 1 onshore and 2 offshore, compared with 5 in 1972; one offshore drilling operation was in progress at the end of 1973.

The possibilities for the development of Palm Valley and Mereenie Fields are still under investigation. In the interim the recoverable reserves at Mereenie are estimated to be 60m. bbls. of crude oil and 1,000,000m. cu. ft of natural gas.

INDUSTRY. In 1971-72 the value of factory production, from 83 factories was \$A10m. More than 1,140 persons were employed in these factories.

TOURISM. Tourism is expanding at the rate of about 15% per annum and spending by visitors is currently estimated to be more than \$A20m. a year. During 1971 approximately 113,000 people, including 12,000 overseas visitors, went to the Territory. Of these, 70,670 visited Alice Springs and 64,200 visited Darwin. New hotel/motels to the value of \$A5.5m. were approved during 1971-72.

NATIONAL PARKS AND RESERVES. About 18,872 sq. miles have been set aside as wildlife sanctuaries under the Wildlife Conservation and Control Ordinance. They are controlled by the Chief Inspector of Wildlife in the Northern Territory Administration. 91,829 sq. miles of Aboriginal reserves are also wildlife protected areas.

The Northern Territory Reserves Board administers some 37 national parks and reserves covering an area of over 945 sq. miles. The Board is responsible under the National Parks and Gardens Ordinance for the care, control and management of these reserves, and its functions include the preservation and protection of natural and historical features and the encouragement of public use and enjoyment of land set aside in such reserves.

COMMERCE. The two main items are cattle and minerals. Value of production in \$A1,000:

	1967-68	1968-69	1969-70	1970-71	1971-72
Cattle	17,146	20,646	23,000	22,372	
Minerals ¹	27,862	36,973	38,803	39,212	43,544

¹ Excluding uranium.

SHIPPING. Regular freight shipping services connect Darwin with Western Australia, the eastern States and overseas. Passenger vessels also call at Darwin at irregular intervals.

ROADS. The two sealed highways Darwin–Alice Springs (Stuart Highway, 954 miles) and Tennant Creek–Mount Isa (Barkly Highway, 403 miles, of which 278 miles are within the Northern Territory) are the principal arteries of the Northern Territory. At 30 June 1973 there were 2,694 miles of bituminous or concrete roads.

RAILWAYS. Lines connect Darwin with Birdum (317 miles) and Adelaide with Alice Springs.

AVIATION. Darwin is the first port of arrival in Australia for many aircraft from Europe and Asia. There are regular inland services connecting Darwin with all the State capitals and many inland towns.

Territory of Ashmore and Cartier Islands. By United Kingdom Order in Council of 23 July 1931, Ashmore Islands (known as Middle, East and West Islands) and Cartier Island, situated in the Indian Ocean, some 200 miles off the north-west coast of Australia, were placed under the authority of the Commonwealth.

Under the Ashmore and Cartier Islands Acceptance Act, 1933, the islands were accepted by the Commonwealth under the name of the Territory of Ashmore and Cartier Islands, and the effective date was proclaimed by the Governor-General to be 10 May 1934. It was the intention that the Territory should be administered by the State of Western Australia, but owing to administrative difficulties the Territory was annexed to and deemed to form part of the Northern Territory of Australia (by amendment to the Act in 1938) and all the laws of the Northern Territory, as far as they are applicable, apply to the Territory of Ashmore and Cartier Islands. The islands are uninhabited.

An automatic weather station on West Ashmore Island (completed in Sept. 1962) supplies the Commonwealth Meteorological Bureau with regular reports.

Periodic visits are made to the islands by ships of the Royal Australian Navy, and aircraft of the Royal Australian Air Force make aerial surveys of the islands and neighbouring waters.

AUSTRALIAN CAPITAL TERRITORY

GOVERNMENT. The area, now the Australian Capital Territory, was first visited by white men in 1820 and settlement commenced in 1824. Until its selection as the seat of government it was a quiet pastoral and agricultural community.

The constitution of Australia provided (Sec. 125) that the seat of government should be selected by parliament and that it should be within New South Wales but at least 161 km from Sydney. The present area was surrendered by New South

Wales and vested in Australia from 1 Jan. 1911. In 1915 an additional 73 sq. km at Jervis Bay was transferred from New South Wales to the Commonwealth. In 1911 an international competition was held for the city plan. The plan chosen was that of W. Burley Griffin, of Chicago. Construction was delayed by the First World War, and it was not until 1927 that, with the transfer of parliament and certain departments, Canberra became in fact the seat of government. Most departments now have their headquarters in Canberra.

The general administration of the Territory is in the hands of the Minister for the Capital Territory, but certain specific services are undertaken by the Department of Education, the Department of Health, the Department of Works and the Attorney-General. The Minister is advised on matters of local concern by an advisory council, consisting of 4 nominated, 8 elected members and 1 observer.

In 1958 the Commonwealth Government established the National Capital Development Commission as the statutory body charged with the responsibility of planning, developing and constructing Canberra.

The Australian Capital Territory Representation Act, 1948-66, provided for the representation of residents of the Territory by one elected member in the House of Representatives.

AREA AND POPULATION. The area of the Australian Capital Territory is 2,432 sq. km (including Jervis Bay area). The population at 30 June 1973 was 168,400. Previous census population:

	Males	Females	Total		Males	Females	Total
1911	992	722	1,714	1954	16,229	14,086	30,315
1921	1,567	1,005	2,572	1961	30,858	27,970	58,828
1933	4,805	4,142	8,947	1966	49,991	46,041	96,032
1947	9,092	7,813	16,905	1971	73,589	70,474	144,063

(Figures before 1961 exclude particulars of full-blood Aborigines.)

EDUCATION. From 1974 education in government schools has become the direct responsibility of the Australian Government. A School's Authority has been established to administer the Australian Capital Territory government school system. There are 46 government primary and infants schools, including 1 in the Jervis Bay area, with a total enrolment (Aug. 1972) of 19,899 pupils. Secondary education is provided at 12 high schools with an enrolment, at Aug. 1973, of 10,540 pupils. Pre-school education is provided at 59 centres with a total enrolment of 4,067 (Aug. 1973). There are also 25 non-government schools, 7 of which provide secondary education; total enrolment (Aug. 1973) 10,540. The Canberra Technical College with an enrolment of nearly 8,785 at Oct. 1973 provides training for apprentices and journeymen and also offers commercial and special courses.

The Canberra School of Music, opened in 1965, had about 694 students in 1972.

The Canberra College of Advanced Education commenced operation in 1970. Courses are available in the schools of administrative studies, applied science, computing studies, liberal studies and teacher education. Enrolments (1972) 2,107.

The Australian National University is situated in Canberra (*see p. 146*).

FINANCE. The receipts and outlay of the Australian Capital Territory cover the transactions of the Commonwealth government in the Consolidated Revenue and other Funds. They also include details of the ACT public corporations.

Receipts and outlay (\$A1,000) for years ended 30 June:

	Receipts	Capital	Outlay Current	Total
1970	18,000	58,000	31,000	89,000
1971	21,000	66,000	39,000	105,000
1972	24,000	72,000	45,000	117,000

The chief sources of receipts in 1971-72 were taxes, fees and fines, \$A9m.; interest, \$A5m., and gross operating surpluses of public enterprises, \$A8m. Capital outlay comprised gross capital formation, \$A58m., and advances to other sectors, \$A24m.

PRODUCTION. The Territory is predominantly pastoral. Livestock, 31 March 1973: 25,000 cattle, 182,000 sheep. A considerable amount of reafforestation (mostly pine) has been undertaken, the total area of plantations at 31 Dec. 1972 being 12,995 hectares. There is no secondary industry of any importance.

Norfolk Island. 29° 04' S. lat., 167° 57' E. long., area 8,528 acres (3,451 hectares), population, 30 June 1971. 1,683. The island was formerly part of the colony of New South Wales and then of Van Diemen's Land. It has been a distinct settlement since 1856, under the jurisdiction of the state of New South Wales; and finally by the passage of the Norfolk Island Act 1913, it was accepted as a Territory of the Australia Government. Norfolk Island Council consists of the Administrator and 8 elected members. The Council may consider and advise the Administrator on any matter affecting the peace, order and government of the territory, and is consulted on legislative and financial matters.

The island is very picturesque and has a delightful climate. Primary production is barely adequate for local needs and foodstuffs are imported from New Zealand and Australia, mainly for the tourist trade. Tourism is the major industry. The island has many links with Australia's early penal days and the descendants of the *Bounty* mutineers are residents. In 1971-72 the imports (\$A1.8m. from Australia) totalled \$A3.9m. and exports \$0.4m. A programme of forestry development is being carried out.

Administrator: R. N. Dalkin, DFC.

PAPUA NEW GUINEA

HISTORY. To prevent that portion of the island of New Guinea not claimed by the Netherlands from passing into the hands of a foreign power, the Government of Queensland annexed Papua in 1883. This step was not sanctioned by the Imperial Government, but on 6 Nov. 1884 a British Protectorate was proclaimed over the southern portion of the eastern half of New Guinea, and in 1887 Queensland, New South Wales and Victoria undertook to defray the cost of administration, and the territory was annexed to the Crown the following year. The Federal Government took over the control in 1901; the political transfer was completed by the Papua Act of the Federal Parliament in Nov. 1905, and on 1 Sept. 1906 a proclamation was issued by the Governor-General of Australia declaring that British New Guinea was to be known henceforth as the Territory of Papua.

The Papua New Guinea Act 1949-1972 provides for the administration of the UN Australian Trust Territory of New Guinea in an administrative union with the Territory of Papua, in accordance with Art. 5 of the New Guinea Trusteeship Agreement, under the title of Papua New Guinea. The Act, which is administered by the Minister of State for External Territories, provides

for the appointment of an Administrator to administer the government of Papua New Guinea on behalf of Australia.

CONSTITUTION AND GOVERNMENT. The first House of Assembly was inaugurated in 1964 and replaced the previous Legislative Council. The second House, elected in 1968, consisted of 94 members (69 from open electorates, 10 official, 15 from regional electorates where candidates must have certain educational qualifications). The House has power to make ordinances for peace, order and good government, subject to the assent of the Administrator or, in certain cases, of the Governor-General of Australia. The Governor-General may also disallow an ordinance and all ordinances must be laid before the Australian Parliament.

In 1968 the Papua New Guinea Act was amended to provide for the Administrator's Council to become the Administrator's Executive Council, deciding major matters of policy. In June 1968 it had its first meetings. It consists of the Administrator, the 7 ministerial members, 3 official members, and a twelfth councillor who is an elected MHA nominated by the Administrator. From Aug. 1970, ministerial office holders have been responsible for day to day running of their departments. In addition (subject to the Administrator's Executive Council) they exercise full authority in a substantial number of specific matters. The Commonwealth Government has retained authority in defence, foreign affairs, trade, the judiciary, major development projects and non-specific matters.

The third House of Assembly opened on 26 April 1972 with a National Coalition government comprising the Pangu Party, the People's Progress Party and the New Guinea National Party, consists of 104 members (82 open electorates, 4 official members and 18 regional electorates).

Papua New Guinea achieved self-government on 1 Dec. 1973.

Chief Minister: Michael Somare.

Deputy Leader and Minister of Interior: Dr John Guise. *Minister of Internal Finance:* Julius Chan.

The seat of the administration is at Port Moresby.

Administrator: L. W. Johnson.

AREA AND POPULATION. Papua New Guinea extends from the equator to Cape Baganowa in the Louisiade Archipelago to 11° 40' S. lat. and from the border of West Irian to 160° E. long. with a total area of 178,260 sq. miles. On 30 June 1971 the estimated population was 2,466,986 (1972, 2,581,198), 1,795,602 resided in New Guinea and 671,384 in Papua. Port Moresby, census population preliminary (1971) 66,244; Lae 34,699; Rabaul, 24,778.

ADMINISTRATION. For administrative purposes Papua New Guinea is divided into 19 districts (Southern Highlands, Western, Gulf, Central, Northern, Enga, Milne Bay, Morobe, Madang, East Sepik, West Sepik, Chimbu, Eastern Highlands, Western Highlands, Manus, East New Britain, West New Britain, New Ireland and Bougainville), each in the charge of a District Commissioner, assisted by a Deputy District Commissioner, District Officers, Assistant District Officers and patrol officers.

By 30 June 1972, 158 native local government councils had been established in which some 2,209,404 people are represented by 4,370 councillors.

EDUCATION. During 1972 about 243,510 indigenous students attended primary and secondary schools. The University of Papua New Guinea opened in 1966 and had 1,209 students in 1972.

FINANCE. *Currency.* The currency and its legal tender are the same as in the Commonwealth of Australia.

Budget. Receipts (in \$A1,000) for years ended 30 June were:

¹ The accounts of the Post Office are being placed on a commercial basis from 1971, and Postal revenues and expenditure are therefore included in the budget.

² In addition Australia provided \$A31,762,000 towards the cost of the salaries of expatriates employed in the Papua New Guinea Public Service.

DEFENCE. The army, naval and air force components of the armed services became officially known as the Papua New Guinea Defence Force on 26 Jan. 1973.

AGRICULTURE. At 30 June 1969, 405,000 acres of land had been leased, of which 336,000 acres were for agricultural purposes, the principal crops being coconuts, cocoa, coffee and rubber. Indigenous sago is plentiful in the western district of the Territory. In the former territory of New Guinea 508,646 acres of land had been leased, including 330,976 for agriculture and 96,358 for pastoral purposes. Coconuts, cocoa, coffee and rubber are the main crops. Oil palm, pyrethrum, tea, rice, sweet potatoes, yams, taro, sago and bananas are grown on a smaller scale. Tropical fruits grow abundantly. There is extensive grassland and a beef-cattle industry is being developed. Number of cattle (beef and dairy), 84,742.

FORESTRY. Timber production is of growing importance for both local consumption and export. In 1971-72, about 73.8m. superfeet of logs were harvested. Production of veneer, 1971-72, 172.55m. sq. ft; exports, 19.23m. sq. ft.

FISHERIES. Prawn fishing is rapidly becoming the main source of income from marine fisheries. Exports of prawns, 1970-71, \$A818,000. Giant perch is taken in commercial quantities on the south coast. A small export trade in crayfish has been developed. Three pearl culture enterprises have been started in Papua. There is also a small export trade in marine shell. Tuna exports began in 1970. 1970-71, \$1.32m.

MINING. Copper is the main mineral product. Oil companies have been searching for oil, but no commercial deposits have yet been found. Several wells of natural gas have been discovered in commercial quantities. In Papua New Guinea gold, copper and silver are the only minerals produced in quantity. Major copper deposits in the Kieta subdistrict of Bougainville have proven reserves of about 900m. tons. Production of copper concentrates for export

began in 1972. The total value of mineral production in 1971-72 was \$A30m.

INDUSTRY. Secondary and service industries are expanding for the local market. Industries include the manufacture of paint, gases, concrete, twist tobacco, brewing, boat-building, furniture and the assembly of electrical appliances. In 1972 there were 693 factories employing 15,539 persons. Value of output \$A111m.

LABOUR. In 1970 about 125,585 indigenous wage-earners were in regular employment.

TRADE. Imports (in \$A1,000) during the years ended 30 June:

SHIPPING. There are regular shipping services between Australia and PNG ports, and also services to New Zealand, Europe and Asia. Small coastal vessels run between the various ports. There is also a connecting service to Nauru, North America, through the New Hebrides and New Caledonia. Overseas and inter-island vessels cleared from PNG ports in 1972-73 totalled 3.45m. nettons. Cargo discharged from overseas was 1.2m. tons; cargo loaded for overseas was 1.3m. tons.

ROADS. At 30 June 1972 there were approximately 10,228 miles of roads including 684 miles of urban roads. Motor vehicles numbered (1972) 39,698 including 15,563 cars.

AVIATION. Frequent air services operate to and from Australia, and there is a weekly flight from Sydney through Port Moresby to Manila and Hong Kong. A weekly service is maintained to Honiara in the British Solomons and a weekly direct flight from Honiara to Port Moresby from Fiji. An air service is maintained between Madang and Djajapura in West Irian once a fortnight. On 1 Nov. 1973 a government-owned airline, Air Niugini, was established.

TELECOMMUNICATIONS. Telephones numbered 13,315 on 30 June 1972.

Broadcasting. The Australian Broadcasting Commission operates 2 short-wave stations and 1 medium-wave station from Port Moresby. The Administration Broadcasting Service operates short-wave stations at Daru, Kerema, Samarai, Rabaul, Wewak, Goroka, Mount Hagen, Lae, Madang and Kieta; and medium-wave stations at Rabaul, Goroka, Lae and Madang.

A national broadcasting system started operating on 1 Dec. 1973.

BANKING. Four Australian commercial banks also operate in Papua New Guinea. These are the Australia and New Zealand Bank Ltd, the Bank of New South Wales, Commonwealth Banking Corporation and The National Bank of Australasia Ltd, all of whom offer trading and savings facilities. As from 1 Nov. 1973 these banks operated under Papua New Guinea banking legislation. The Bank of Papua New Guinea assumed the central banking functions formerly undertaken by the Reserve Bank of Australia on 1 Nov. 1973.

A national banking institution, which has been named the Papua New Guinea Banking Corporation, will be established. This bank will assume the Papua New Guinea business of the Commonwealth Banking Corporation except where certain accounts give rise to special financial or contractual problems.

In addition to the Australian banks operating in Papua New Guinea, the Papua New Guinea Development Bank has provided long-term development finance with particular attention to the needs of small-scale enterprises since 6 July 1967.

At 30 June 1973 advances outstanding totalled \$A19.4m.

1. New Guinea Mainland. This region, the northern section of south-east New Guinea, lies between 2° 35' and 8° S. lat. and 141° and 148° E. long. The area, including Manam, Karkar, Long, Bagabag, Schouten, Kairiru (D'Urville) and some smaller islands, is 69,095 sq. miles. The native population at 30 June 1970 was approx. 1.54m. The coastline is very little broken, and there are few good harbours. There are high ranges running parallel with the coastal plain, which is

from 50 to 150 miles wide and broken with steep spurs in some places extending to the actual coastline. The ranges in the interior have not been completely explored, but some of their summits are known to attain over 14,500 ft. The principal rivers are the Sepik, which is navigable for about 300 miles, the Ramu and the Markham.

The climate is hot and the rainfall high.

The 7 administrative districts are Morobe, Eastern Highlands, Chimbu, Western Highlands, West Sepik, East Sepik and Madang. The main towns are (census, 1971): Lae, 28,494; Madang, 13,472; Wewak, 11,383; Goroka, 9,238; Mount Hagen, 8,398; Bulolo, 3,100.

2. New Guinea Islands. The archipelago comprises 4 main islands and some 100 smaller islands. There are 5 administrative districts: East New Britain, West New Britain, New Ireland, Manus and Bougainville. The indigenous population as at 30 June 1973 was 329,796.

The main towns (census, 1971) are Rabaul, 20,700; Lorengua, 3,429; Kavieng, 2,509.

New Britain, the largest island of this group, has a mean breadth of 50 miles and a length of 300 miles. The native population (including adjacent small islands) was 166,029 at 30 June 1973. A mountain chain traverses the entire length of the island, and in the centre consists of several irregular ranges. There are several active volcanoes. The highest known peak is the Father, about 7,500 ft high, which is an active volcano. The island has very fine harbours; the principal town is Rabaul.

The chief export products are copra, cocoa and timber. An oil palm industry is being established on the north coast. Non-indigenous census population at 30 June 1966 was 5,349.

New Ireland, the second in size and importance, is situated north of New Britain, from which it is separated by St George's Channel. The chief town is Kavieng, at the north-west extremity of the island. The only other town is Namatanai on the south-east coast. The island has a long range of mountains running through it. It is of older formation than New Britain, and does not show any signs of recent volcanic activity. The principal harbour is Nusa Bay on the north coast, on which Kavieng, the seat of the local administration, is situated. The native population at 30 June 1973 was 50,522, including adjacent islands; non-indigenous 1966 census population was 964.

The soil is reasonably fertile. The chief industry is coconut growing. There are numerous plantations around the coast near Kavieng. Smaller islands include Tabar, Lihir, Tanga, Feni, Nissan (Green Island), Nuguria, Mussau and Emirau Groups.

The Solomon Islands. The portion of the Solomon Islands within the area of the Territory of New Guinea consists of Bougainville, Buka and adjacent islands, including Kilinailau (Carteret Island), Taku (Mortlock) and Nukumanu (Tasman) Islands. Bougainville has an area of 4,100 sq. miles, and the native census population in 1970 was 77,880, including Buka, which has an area of 190 sq. miles; non-indigenous 1966 census population was 718. Smaller islands have a total area of 30 sq. miles. The islands are very mountainous. Of the several volcanic cones, Bagana (in the Crown Prince range) and Balbi are the only active volcanoes.

The principal harbours are Kieta, situated on the east coast of Bougainville and Raua and Tinputz on the north-east coast of Bougainville. There is a good harbour on the west side of Buka, named Carola Hafen. Bananas, coconuts, taro, sweet potatoes and cocoa are grown by the indigenous population.

The **Admiralty Islands** are the most important of the small groups. The chief island is Manus; the chief town is Lorengau on its north-east coast. The native census population of the group at 30 June 1973 was 22,401; non-indigenous census population was 447. Coconuts are the chief cultivated crop, and marine shell is taken for commercial purposes.

Heard and McDonald Islands. These islands, about 2,500 miles south-west of Fremantle, were transferred from UK to Australian control as from 26 Dec. 1947. Heard Island is about 27 miles long and 13 miles wide; Shag Island is about 5 miles north of Heard. The McDonald Islands are 26 miles to the west of Heard.

AUSTRALIAN ANTARCTIC TERRITORY

An Imperial Order in Council of 7 Feb. 1933 placed under Australian authority all the islands and territories other than Adélie Land situated south of 60° S. lat. and lying between 160° E. long. and 45° E. long. The Order came into force with a Proclamation issued by the Governor-General on 24 Aug. 1936 after the passage of the Australian Antarctic Territory Acceptance Act 1933. The boundaries of Adélie Land were definitively fixed by a French Decree of 1 April 1938 as the islands and territories south of 60° S. lat. lying between 136° E. long. and 142° E. long. The Australian Antarctic Territory Act 1954 declared that the laws in force in the Australian Capital Territory are, so far as they are applicable and are not inconsistent with any ordinance made under the Act, in force in the Australian Antarctic Territory. In 1968 responsibility for the administration of this Act was transferred from the Minister for External Affairs to the Minister for Supply; in 1972 responsibility was transferred to the Minister for Science.

On 13 Feb. 1954 the Australian National Antarctic Research Expeditions (ANARE) established a base on Mac.Robertson Land at lat. 67° 36' S. and long. 62° 52' E. The base was named Mawson in honour of the late Sir Douglas Mawson. Meteorological and other scientific research is conducted at Mawson, which is the centre for coastal and inland survey expeditions.

A second Australian scientific research station was established on the coast of Princess Elizabeth Land on 13 Jan. 1957 at lat. 68° 34' 36" S. and long. 77° 58' 36" E. The station was named Davis in honour of Capt. John King Davis, Mawson's second-in-command on 2 expeditions. The station was temporarily closed down in Jan. 1965 and re-opened in Feb. 1969.

In Feb. 1959 the Australian Government accepted from the US Government custody of Wilkes Station, which was established by the US on 16 Jan. 1957 on the Budd Coast of Wilkes Land, at lat. $66^{\circ} 15' S.$ and long. $110^{\circ} 32' E.$ The station was named in honour of Lieut. Charles Wilkes, who commanded the 1838–40 US expedition to the area, and was closed in Feb. 1969. Operations were transferred to the new station, Casey. Construction commenced on Casey station in Jan. 1965 and was continued, mainly during summer visits, until Feb. 1969, when it was opened. The station, specially designed to withstand blizzard winds and prevent inundation by snow, is situated 1.5 miles south of Wilkes at lat. $66^{\circ} 17' S.$ and long. $110^{\circ} 32' E.$ It was named after Lord Casey, Governor-General of Australia 1965–69. ANARE have also operated a station, since March 1948, at Macquarie Island, about 850 miles south-east of Hobart. Macquarie Island is a dependency of the State of Tasmania.

On 1 Dec. 1959 Australia signed the Antarctic Treaty with Argentina, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa, the USSR, the UK and the USA. Poland, Czechoslovakia and Denmark have subsequently acceded to the Treaty. The Treaty reserves the Antarctic area south of $60^{\circ} S.$ lat. for peaceful purposes, provides for international co-operation in scientific investigation and research, and preserves, for the duration of the Treaty, the *status quo* with regard to territorial sovereignty, rights and claims. The Treaty entered into force on 23 June 1961. Since then the Antarctic Treaty powers have held several consultative meetings.

Cocos (Keeling) Islands. The Cocos (Keeling) Islands, 2 separate atolls comprising some 27 small coral islands with a total area of about $5\frac{1}{2}$ sq. miles, are situated in the Indian Ocean in $12^{\circ} 05' S.$ lat. and $96^{\circ} 53' E.$ long. They lie some 1,720 miles north-west of Perth and 2,290 miles west of Darwin, while Colombo is 1,400 miles to the north-west of the group.

The islands were discovered in 1609 by Capt. William Keeling of the East India Company. The islands were uninhabited until 1826, when the first settlement was established on the main atoll by an Englishman, Alexander Hare, who left the islands in 1831. In the meantime a second settlement was formed on the main atoll by John Clunies-Ross, a Scottish seaman and adventurer, who landed with several boat-loads of Malay seamen. In 1857 the islands were annexed to the Crown; in 1878 responsibility was transferred from the Colonial Office to the Government of Ceylon, and in 1886 to the Government of the Straits Settlement. By indenture in 1886 Queen Victoria granted the land comprised in the islands to George Clunies-Ross and his heirs in perpetuity (with certain rights reserved to the Crown). The head of the family had semi-official status as resident magistrate and representative of the Government. In 1903 the islands were incorporated in the Settlement of Singapore and in 1942–46 temporarily placed under the Governor of Ceylon. In 1946 a Resident Administrator, responsible to the Governor of Singapore, was appointed.

On 23 Nov. 1955 the Cocos Islands were placed under the authority of the Australian Government, which accepted them under the Cocos (Keeling) Islands Act, 1955, as the Territory of Cocos (Keeling) Islands.

The main islands are West Island (the largest, about 6 miles from north to south), on which is an airport and most of the European community; Home Island, the headquarters of the Clunies-Ross Estate; Direction Island, the Department of Civil Aviation's marine base; South Island and Horsburgh. North Keeling Island, which forms part of the Territory, lies about 15 miles to the north of the group and has no inhabitants. Main settlements are on West Island and Home Island.

An airport is established on West Island under the control of the Department of Civil Aviation. Until April 1967 it was a re-fuelling point for aircraft on the service between Australia and South Africa.

The population of the Territory at 30 June 1971 was 625 (314 males), including 128 Europeans. Population (estimated) 30 June 1972, 637. The Cocos Islanders reside on Home Island.

The group of atolls is low-lying, flat and thickly covered by coconut palms, and surrounds a lagoon in which ships drawing up to 23 ft may be anchored, but which is extremely difficult for navigation.

The climate is equable and pleasant, being usually under the influence of the south-east trade winds for about three-quarters of the year. However, the winds vary at times, and meteorological reports from the Territory are particularly valuable for those engaged in forecasting for the eastern Indian Ocean. The temperature varies between 21° and 32° C., the rainfall is moderate and there are occasional violent storms.

Responsibility for the administration of the Territory rests with the Minister of State for External Territories, whose Official Representative is in charge of the local administration. The laws of the Colony of Singapore which were in force in the islands immediately before the transfer have, with certain exceptions, been continued in force. They can be amended, repealed or substituted by ordinances made by the Governor-General of Australia.

Official Representative: C. W. Suthern.

Christmas Island is in the Indian Ocean, lat. 10° 25' 22" S., long. 105° 39' 59" E. It lies 224 miles S., 8° E. of Java Head, and 259 miles N. 79° E. from Cocos Islands, 815 miles from Singapore and 1,630 miles from Fremantle. Area about 52 sq. miles (135 sq. km). The climate is healthy. The island was formally annexed on 6 June 1888, placed under the administration of the Governor of the Straits Settlements in 1889, and incorporated with the Settlement of Singapore in 1900. Sovereignty was transferred to the Australian Government on 1 Oct. 1958. The population (estimate) at 30 June 1972 was 2,741 (1,825 males).

The legislative, judicial and administrative systems are regulated by the Christmas Island Act, 1958-66, which is administered by the Minister of State for External Territories with an Administrator, responsible for the local administration. The laws of Singapore which were in force before the transfer have been continued but can be amended, repealed or substituted by ordinances made by the Governor-General of Australia.

Extraction and export of rock phosphate and phosphate dust is the island's only industry. In Dec. 1948 Australia and New Zealand bought the lease rights of the Christmas Island Phosphate Co. and set up the Christmas Island Phosphate Commission, for which the British Phosphate Commissioners act as managing agents. The export of phosphate rock during 1971-72 was 767,350 tons, which is shipped to Australia and New Zealand; in addition, about 157,712 tons of phosphate dust was shipped to South East Asia and Australia.

There is direct radio communication with Australia and Singapore. No air service is available to or from the island.

At 30 June 1972 there were 712 pupils at primary and secondary schools. There is also a technical training centre.

Medical, dental and hospital services are provided free of charge by the British Phosphate Commission.

Administrator: F. S. Evatt.

NEW SOUTH WALES

HISTORY. New South Wales became a British possession in 1770; the first settlement was established at Port Jackson in 1788; a partially elective Council was established in 1843, and responsible government in 1856. New South Wales federated with the other Australian states to form the Commonwealth of Australia in 1901.

CONSTITUTION AND GOVERNMENT. Within the State there are three levels of government: the Australian Government, with authority derived from a written constitution; the State Government with residual powers; the local government authorities with powers based upon a State Act of Parliament, operating within incorporated areas extending over seven-eighths of the State.

The constitution of New South Wales is drawn from several diverse sources; certain Imperial statutes such as the Colonial Laws Validity Act (1865) and the Commonwealth of Australia Constitution Act (1900); the Australian States Constitution Act (1907); the Letters Patent and the Instructions to the Governor; an element of inherited English law; amendments to the Commonwealth of Australia Constitution Act; the State Constitution Act and certain other State Statutes; numerous legal decisions; and a large amount of English and local convention.

The Parliament of New South Wales may legislate for the peace, welfare and good government of the State in all matters not specifically reserved to the Australian Government.

The State Legislature consists of the Sovereign, represented by the Governor, and two Houses of Parliament, the Legislative Council (upper house) and the Legislative Assembly (lower house).

The Legislative Council consists of 60 members elected jointly by both Houses of Parliament for a term of 12 years. Fifteen members retire every third year.

The President has an annual salary of \$A12,000; the Chairman of Committees, \$A7,275; the Leader of the Opposition, \$A8,510; the Deputy Leader of the Opposition and Government and Opposition Whips, \$A4,720 each. These also receive annual expense and special allowances: the President, \$A4,500; for the Chairman of Committees, \$A2,975; the Leader of the Opposition, \$A3,490; the others, \$A2,980 each. Other members who are not Ministers receive an annual salary of \$A4,000, an annual expense allowance of \$A2,000 and a daily attendance allowance of \$A20 if they live outside the metropolitan area.

The Legislative Assembly has 96 members elected for a period of 3 years. Voting is compulsory. British subjects above 18 years of age, having resided 6 months in Australia, 3 months in the State and 1 month in any one electoral district, are eligible for enrolment as electors. Women were enfranchised in 1902.

The Speaker of the Legislative Assembly receives a salary of \$A20,300; the Leader of the Opposition, \$A20,300; the Chairman of Committees, \$A14,500; the Deputy Leader of the Opposition, \$A14,500; Government and Opposition Whips, \$A13,500 each. The Speaker also receives an expense allowance of \$A2,700; the Leader of the Opposition, \$A2,700; the Chairman of Committees, \$A1,500; the Deputy Leader of the Opposition, \$A1,500; Government and Opposition Whips, \$A700, each and the Country Party Whip, \$A700. Members who are not Ministers receive an annual salary of \$A11,500. All members receive an annual electoral allowance ranging from \$A2,750 to \$A4,100 according to the location of their constituencies.

The Legislative Assembly, elected on 13 Feb. 1971, consisted in Oct. 1973 of the following parties: Liberal and Country Party, 49; Labor, 45; Independent, 2.

The executive is in the hands of a Governor, appointed by the Crown, and an Executive Council consisting of members of the Cabinet. Ministers receive the following annual salaries: Premier, \$A26,000; Deputy Premier, \$A23,250; Vice-President of the Executive Council and 15 other Ministers, \$A21,800 each. Ministers also receive an expense allowance (Premier, \$A6,000; Deputy Premier, \$A3,000; other Ministers, \$A2,700 each). In addition, Ministers who are members of the Legislative Assembly receive an electoral allowance ranging from \$A2,750 to \$A4,100 according to the location of their constituency. The Leader and Deputy Leader of the Government in the Legislative Council also receive a special allowance of, respectively, \$A1,750 and \$A500 per annum.

Governor: Sir Roden Cutler, VC, KCMG, KCVO, CBE, KStJ (sworn in 20 Jan. 1966).

The Liberal-Country Party Cabinet, in Oct. 1973, was constituted as follows:

Premier and Treasurer: Sir Robert Askin, KCMG, MLA. *Deputy Premier, Minister for Local Government and for Highways:* Sir Charles Cutler, KBE, MLA. *Minister for Education:* E. A. Willis, MLA. *Decentralization and Development, Vice-President of the Executive Council:* J. B. M. Fuller, MLC. *Public Works:* L. A. Punch, MLA. *Attorney-General:* K. M. McCaw, MLA. *Transport:* M. A. Morris, MLA. *Lands and Tourism:* T. L. Lewis, MLA. *Environment Control:* J. G. Beale, MLA. *Agriculture:* G. R. Crawford, DCM, MLA. *Housing and Co-operative Societies:* J. C. Bruxner, MLA. *Justice:* J. C. Maddison, MLA. *Health:* A. H. Jago, MLA. *Mines, Power and Assistant Treasurer:* W. C. Fife, MLA. *Labour and Industry:* F. W. Hewitt, MLA. *Youth and Community Services:* J. L. Waddy, OBE, DFC, MLA. *Cultural Activities and Conservation:* G. F. Freudenstein, MLA. *Chief Secretary and Sport:* I. R. Griffith, MLA.

Agent-General in London: Davis Hughes (66 Strand, WC2N 5LZ).

LOCAL GOVERNMENT. A system of local government extends over most of the State, including the whole of the Eastern and Central land divisions and more than two-thirds of the sparsely populated Western division. There are 90 municipalities, and 133 corporate bodies called shires. A number of the municipalities and shires have combined to form 53 county councils, which administer electricity or water supply undertakings or render other services of common benefit.

AREA AND POPULATION. New South Wales is situated between the 28th and 38th parallels of S. lat. and 141st and 154th meridians of E. long., and comprises 309,433 sq. miles (801,400 sq. km), inclusive of Lord Howe Island (6 sq. miles) but exclusive of the Australian Capital Territory (911 sq. miles at Canberra and 28 sq. miles at Jervis Bay).

Census population (includes full-blood aborigines from 1966):

	Males	Females	Persons	Population per sq. km	Average annual increase % since previous census
1881	410,211	339,614	749,825	1	4.07
1891	609,666	517,471	1,127,137	1	4.16
1901	710,264	645,091	1,355,355	2	1.86
1911	857,698	789,036	1,646,734	2	1.97
1921	1,071,501	1,028,870	2,100,371	3	2.46
1933	1,318,471	1,282,376	2,600,847	3	1.76
1947	1,492,211	1,492,627	2,984,838	4	0.99
1954	1,720,860	1,702,669	3,423,529	4	1.98
1966	2,126,652	2,111,249	4,237,901	5	1.58
1971	2,307,210	2,293,970	4,601,180	5	1.66

At 30 June 1972 the estimated population of New South Wales was 4,661,600; Sydney (Statistical Division), 2,850,630; Newcastle (Statistical District, 354,630; Wollongong (Statistical District), 202,830. Population of principal country municipalities: Wagga Wagga, 29,510; Broken Hill, 29,310; Albury, 29,220; Tamworth, 24,440; Orange, 23,520; Goulburn, 21,740; Lismore, 21,100; Blue Mountains (part not in Sydney S.D.), 18,790; Armidale, 18,660; Dubbo, 18,190; Bathurst, 17,500; Queanbeyan, 16,960; Grafton, 16,460; Lithgow, 12,800; Taree, 11,650.

VITAL STATISTICS for calendar years:

	Live births	Marriages	Divorces	Deaths (excluding still-births)	Infantile mortality per 1,000 live births	Estimated net migration
1970	88,448	42,928	5,606	43,601	19.7	38,100
1971	98,466	43,038	5,467	41,691	17.4	21,100
1972	95,278	41,520	7,036	41,652	17.5	9,100

The annual rates per 1,000 of the population in 1972 were: Births, 20.39; deaths, 8.91; marriages, 8.89.

RELIGION. There is no established church in New South Wales, and freedom of worship is accorded to all.

The following table shows the statistics of the religious denominations in New South Wales at the census, and of ministers of religion registered for the celebration of marriages, in 1971:

Denomination	Ministers	Adherents	Denomination	Ministers	Adherents
Church of England	888	1,639,316	Churches of Christ	79	14,353
Roman Catholic	1,588	1,319,250 ¹	Orthodox	56	129,178
Presbyterian	359	352,107	Seventh Day Adventist	147	16,183
Methodist	363	302,856	Hebrew	23	25,971
Baptist	242	59,541	Others	291	668,014 ²
Congregational	76	20,902			
Lutheran	42	33,776			
Salvation Army	216	19,733	Total	4,370	4,601,180

¹ Includes 789,030 'Catholics undefined'.

² Includes 253,631 'no religion' and 265,494 'religion not stated' (this is not a compulsory question in the census schedule).

EDUCATION. The State maintains a system of primary and secondary education, and attendance at school is compulsory from 6 to 15 years of age. In all State schools education is free. Private schools are subject to State inspection.

In Aug. 1972 there were 2,335 state schools, comprising 1,826 primary schools, 92 combined primary and secondary schools, 315 secondary schools and 102 special-purpose schools. In Aug. 1972 the effective enrolment was 779,854 children, comprising 502,064 receiving primary instruction and 277,790 receiving secondary instruction. There were, in 1972, 34,970 full-time teachers and 17,611 student teachers in training.

In Aug. 1972 there were 818 private schools with 8,725 full-time teachers and an effective enrolment of 221,400 pupils, of which 644 were Roman Catholic schools, having 6,588 teachers and 188,274 scholars. Church of England schools numbered 36 with 900 teachers and 14,642 scholars; other denominational schools, 44, teachers, 659, pupils, 11,392; non-denominational schools, 94, teachers, 578, and scholars, 7,092.

The University of Sydney, founded in 1850, in 1972 had 17,108 students (including 6,358 women). There are 7 colleges providing residential facilities at the university. The principal government training college for teachers is situated in the university grounds.

The University of New England at Armidale, previously affiliated with the University of Sydney, was incorporated on 1 Feb. 1954, and in 1972 had 6,198 students (including 2,229 women).

The University of New South Wales was established by the State Government in 1949. Enrolments in 1972 numbered 18,085 (including 4,044 women). There are 6 colleges providing residential facilities at the university. The University of Newcastle, previously affiliated with the University of New South Wales, was granted autonomy from 1 Jan. 1965, and in 1972 had 3,758 students (including 1,044 women). The Macquarie University in Sydney, established on 12 June 1964, in 1972 had 5,785 students (including 2,322 women).

Colleges of Advanced Education were first established in 1971 to provide tertiary training with a vocational emphasis. In 1972 these were 8,471 students (including 4,044 part-time students) enrolled at 13 colleges.

Post-school technical education is provided at State technical colleges, principally in the evening. Students enrolled in 1972 totalled 168,721 (including 12,282 correspondence students).

State government expenditure (including loan expenditure) on education in 1971-72 was \$A482,522,000.

JUSTICE. Legal processes may be carried on in Lower or Magistrates Courts, or in the Higher Courts presided over by judges. There is also an appellate jurisdiction. Persons charged with the more serious crimes must be tried before the Higher Courts.

Children's Courts have been established with the object of removing children as far as possible from the atmosphere of a public court. There are also a number of tribunals exercising special jurisdiction, *e.g.*, the Industrial Commission and the Workers' Compensation Commission.

In 1972 there were 4,359 distinct persons convicted at the Higher Courts. During 1971-72, 12,535 convicted persons were received into prisons and there were 3,641 convicted persons (including 60 females) held in prison on 30 June 1972.

SOCIAL WELFARE. The Australian Government makes provision for social benefits, such as age and invalid pensions, widows' pensions, child endowment, health benefits, maternity allowances, and unemployment and sickness benefits.

The number of age and invalid pensions current in New South Wales on 30 June 1973 was: Age, 342,019 (males, 102,380; females, 239,639); invalid, 61,473 (males, 34,962; females, 26,511). Expenditure for the year ended 30 June 1973 was \$A327,104,000 for age pensions and \$A78,635,000 for invalid pensions.

Australian Government widows' pensions current in New South Wales at 30 June 1973 numbered 37,153, the expenditure for 1972-73, \$A49,413,000.

At 30 June 1973 endowed children under 16 years numbered 1,374,337 (including 5,631 in institutions) and endowed 'student' children (full-time students between 16 and 21 years) numbered 78,926. Expenditure for the year ended 30 June 1973, \$A86.25m.

During the year 1972-73, 89,551 maternity allowances amounting to \$A2,832,171 were paid in New South Wales.

Unemployment, sickness and special benefits commenced on 1 July 1945. During the year 1972-73 claims totalling \$A25,965,794 were paid in New South Wales. At 30 June 1973 unemployment benefit was being paid to 11,728 persons, and sickness and special benefits to 8,813 persons.

State social welfare services are limited, for the most part, to the assistance of persons not eligible for Australian Government benefit and the provision of certain forms of assistance not available from the Australian Government. Food, clothing, medical and dental treatment, etc., is provided for necessitous persons.

LABOUR. Two systems of industrial arbitration and conciliation for the adjustment of industrial relations between employers and employees are in operation—the State system, which operates within the territorial limits of the State, and the Commonwealth system, which applies to industrial disputes extending to other parts of the Commonwealth.

The industrial tribunals are authorized to fix minimum rates of wages and other conditions of employment. Their awards may be enforced by law, as may be industrial agreements between employers and organizations of employees, when registered.

The principal State tribunal is the Industrial Commission, constituted by judges. The Commission is empowered to exercise all the arbitration and conciliation powers conferred on subsidiary tribunals, and has in addition authority to determine any widely defined 'industrial matter', to adjudicate in case of illegal strikes and lockouts, etc., to investigate union ballots when irregularities are alleged and to hear appeals from subsidiary tribunals. Subsidiary tribunals are Conciliation Committees for various industries, each having an equal number representing employers and employees and a Conciliation Commissioner as chairman.

The chief industrial tribunals of the Commonwealth are the Industrial Court, constituted by judges, and the Conciliation and Arbitration Commission, constituted by presidential members, commissioners and conciliators (*see p. 155*).

The rates of wages prescribed by State awards and agreements consist of a basic wage (which applies to an unskilled worker) and margins added for skill, etc. The margins are assessed separately for each industry and vary widely. In Sept. 1973 the State basic wage was \$A44.40 for adult males and \$A35.10 for females. Separate specification of basic wage, margin and other elements of award wage rates under Commonwealth awards was discontinued and a total wage for each award classification was introduced from July 1967.

A standard working week of 40 hours is prescribed for employees in most industries. Overtime is permitted under prescribed conditions.

Registration of trade unions is effected under the New South Wales Trade Union Act, 1881-1965, which follows substantially the Trade Union Acts of 1871 and 1876 of England. Registration confers a quasi-corporate existence with power to hold property, to sue and be sued, etc., and the various classes of employees covered by the union are required to be prescribed by the constitution of the union. For the purpose of bringing an industry under the review of the State industrial tribunals, or participating in proceedings relating to disputes before federal tribunals, employees and employers must be registered as industrial unions, under State or Federal industrial legislation respectively.

FINANCE. State revenue and expenditure (in \$A1,000) for financial years ending 30 June:

¹ Net of inter-fund transfers.

State Government revenue in 1972-73 included (in \$A1,000) receipts from the Australian Government of 621,720; namely, towards public debt charges, 17,234; general financial assistance, 536,963; hospitals, etc., benefits, 21,663; other purposes, 45,860 (including 35,999 for relief of unemployment). State taxes, in \$A1,000 (including taxes paid direct to special funds), totalled 749,137, including probate duty, 69,729; stamp duty *n.e.i.*, 141,282; payroll tax, 185,506; land tax, 53,638; motor taxation, 140,498; racing, betting, etc., taxes, 95,263, and liquor licences, 20,826. Revenue of business undertakings (in \$A1,000) comprised railways, 258,792; omnibuses, 38,955, and harbour services, 29,201. Provision for debt redemption included in debt charges was 21,655 in 1969-70, 23,875 in 1970-71, 25,680 in 1971-72 and 28,168 in 1972-73.

In terms of the financial agreement between the Australian and State Governments, the Australian Government has assumed responsibility for debts of the Australian States, and contributes towards the interest thereon and sinking funds established for redemption of the debts. Loans for the States are raised by the Australian Government in accordance with decisions of the Australian Loan Council.

The public debt of New South Wales at 30 June 1973 (overseas loans converted to Australian currency equivalent at current rates of exchange) comprised the following (in \$A1,000): Repayable in Australia, 3,398,755; in London, 97,445; in New York, 24,602; in Switzerland, 3,825; in Canada, 2,272; in Netherlands,

1,674. Interest payments in 1972-73 amounted (in \$A1,000) to 188,275, of which 6,505 was in respect of the external debt. The Australian Government contributed 17,234 towards the public debt charges. Contributions to the sinking fund for New South Wales debt, 44,100, included 9,197 contributed by the Australian Government, and the cost of securities redeemed in the year was 44,590.

Since the institution of the sinking fund in 1928 contributions have totalled \$A642.64m. (\$A140.85m. by the Australian Government), and redemptions at cost \$A638.91m.

LAND SETTLEMENT. The total area of land alienated, virtually alienated or in process of alienation from the Crown on 30 June 1972 was 66,435,021 acres, exclusive of the Australian Capital Territory; 102,437,606 acres (including 73,370,016 acres in the Western Division) were held under perpetual lease from the Crown; 10,124,426 acres under the Crown leasehold tenures, and the total area of land neither alienated nor leased (including roads, reserves for public purposes, etc.) was 19,040,027 acres.

RURAL INDUSTRIES. The area under cultivation in New South Wales during 3 years (ended 31 March) and the principal crops produced were as follows:

Acres under cultivation Value (farm) of all crops	1970		1971		1972	
	14,287,586		12,137,338		12,614,374

In 1971-72, 23,055 acres of sugar-cane were cut for crushing, the yield being 964,712 long tons. The total area under grapes was 31,964 (including 7,064 not bearing) acres; the production of table grapes was 7,861 long tons; of wine, 14,033,654 gallons; of sultanas, raisins and currants, 329,200 cwt.

In 1971-72 the production of citrus fruit, principally oranges, was 6,965,992 bu. from 2,714,761 bearing trees; other orchard fruit, 6,894,120 bu. from 2,901,166 bearing trees. In addition, there were 18,194 acres of banana plantations, the yield from 16,734 acres being 3,626,604 bu., and there were 675 acres of passion fruit, pineapples, berries, etc.

At 31 March 1972 the State had 62m. sheep and lambs, 7,409,535 cattle and 1,059,331 pigs. The production of wool in 1971-72 was 260.2m. kg (greasy). In the year ended 30 June 1972 production of butter was 42,634,000 lb.; cheese, 14,390,014 lb., and bacon and ham, 49,530,407 lb.

FORESTRY. The estimated forest area of Crown and private lands is 39.9m. acres. The total area of State forests amounts to 7.6m. acres, and 985,802 acres have been set apart as timber reserves.

The revenue from royalties, licences, etc., amounted in the year ended June 1972 to \$A7,950,396.

There were 424 saw-mills in the year ended 30 June 1972, employing 4,960 persons and creating a value added of \$A37.58m.

MINING. The value of output in 1971-72 of mining and quarrying in New South Wales was \$A442,739,201 with total employment of 27,807 persons. The two principal classes of mining were coalmining, which employed 14,331 persons and produced 36.06m. long tons of coal valued at \$A228,722,616, and silver-lead-zinc mining, which employed 4,829 persons and produced minerals valued at \$A89,313,478. The following table shows the mine production of metals (*i.e.*, gross contents of metallic minerals produced):

	1968-69	1969-70	1970-71	1971-72
Antimony (long tons)	854	920	873	1,044

Zircon (long tons)	225,018	236,032	280,760	249,401

The estimated gross value of recorded production from the primary industries in 1971-72 was as follows (in \$A1,000): Agriculture, 404,527; pastoral, 480,649; dairying and farmyard, 246,097; forestry, fisheries and trapping, 63,505; mining (including the output of quarries), 442,739; total primary, 1,639,317.

SECONDARY INDUSTRY. Approximately 25% of the work force in New South Wales is employed in manufacturing industries.

A very wide range of manufacturing activities are undertaken in the Sydney area, and there are large iron and steel works and associated metal fabrication works in operation in proximity to the coalfields at Newcastle and Port Kembla.

The following table shows a summary of manufacturing industries' statistics for 1971-72:

Industry ¹	Estab- lishments ² (No.)	Employment ³		Wages and salaries (\$A1m.)	Value added (\$A1m.)
		Males (No.)	Females (No.)		
Food, beverages and tobacco	1,340	48,605	17,807	269.0	526.9

Total manufacturing	13,943	376,263	140,775	2,165.4	3,946.7

¹ Fundamental changes in the scope of Australian manufacturing censuses took place as from 1968-69 and, consequently, the above figures are not comparable with those published for periods prior to 1968-69.

² Operating at 30 June 1972.

³ Persons employed—average over whole year, including working proprietors.

Some of the principal articles manufactured in 1972-73 were:

Article	Quantity	Article	Quantity
Flour (1,000 short tons)	516	Gas (town) (1,000 therms)	135,044
Footwear (1,000 prs)	5,908	Steel ingots (1,000 long tons)	6,110
Cloth: cotton, wool, rayon, synthetic (1,000 sq. yd)	62,885	Cars, etc. ¹ (1,000)	90
Pig-iron (1,000 long tons)	5,371	T.V. receiving sets (1,000)	242
Refrigerators (domestic)	172,344	Electricity (1m. kwh.)	26,081

¹ Finished and partly finished motor vehicles, excluding trucks.

COMMERCE. The external commerce of New South Wales, exclusive of interstate trade, is included in the statement of the commerce of Australia (see pp. 157-58). The overseas commerce of the State is given in \$A1,000 ending 30 June:

	Imports	Exports ¹		Imports	Exports ¹
1967-68	1,405,331	943,182	1970-71	1,764,769	1,115,450
1968-69	1,500,559	1,010,488	1971-72	1,763,386	1,203,002
1969-70	1,708,939	1,158,757	1972-73	1,810,342	1,421,257

¹ Includes non-Australian produce (\$A122m. in 1972-73).

The main exports from New South Wales of Australian produce are wool (21.3%), meat (10.8%), coal (10.1%), iron and steel (8.5%) and wheat (4%). Principal imports are machinery and equipment (24.4%), textiles (8.2%), transport and equipment (7.9%) and chemical elements and compounds (4.3%).

Principal destination of all exports from New South Wales are Japan (24.4%), EEC countries (19.1%), New Zealand (10.1%), USA (9.6%) and Papua New Guinea (4.9%). Major sources of supply are EEC countries (34.1%), USA (20.8%), Japan (16.7%) and Canada (3.1%).

SHIPPING. The vessels engaged in the interstate and overseas trade which entered the ports of New South Wales in 1971-72 numbered 3,880; net tonnage, 27,452,958; the clearances were 3,883 vessels, 27,489,180 tons. Sydney Harbour is the principal port of Australia. The number of vessels, coastal, interstate and overseas, which entered in 1971-72 was 3,210; net tonnage, 16.6m.

RAILWAYS. On 30 June 1972, 6,061 miles of government railway were open. The earnings in 1971-72 were \$A263m.; the working expenses, \$A255m.; the number of passengers carried, 230,668,000. Also open for traffic are 203 miles of Victorian Government railways which extend over the border; 85 miles of private railways (mainly in mining districts) and 6 miles of Australian Government-owned track.

ROADS. There are 129,227 miles of roads and streets in New South Wales, comprising 544 miles cement concrete, 1,796 miles bituminous concrete, 35,362 miles other bitumen surface, 40,642 miles gravel or stone, 24,778 miles formed only, 6,938 miles cleared only, 19,167 miles natural surface. The bridge across Sydney Harbour is one of the largest arch bridges in the world.

The principal omnibus services in Sydney and Newcastle are the property of the State Government.

The number of registered motor vehicles (excluding tractors and trailers) on 31 Dec. 1972 was 1,916,300, including 1,247,500 cars, 251,000 station wagons, 128,400 light commercial-open, 53,700 light commercial-closed, 152,600 trucks, 8,400 buses and 74,700 motor cycles.

AVIATION. Sydney is the major airport in New South Wales and Australia's principal international air terminal. During the year ended 31 Dec. 1972 aircraft movements at Sydney totalled 95,262. Passengers totalled 3,847,987 on domestic services and 1,093,923 on international services. Freight handled on domestic and international services was 46,994 short tons and 31,595 short tons respectively.

BANKING. There were 10 trading banks operating in New South Wales at 30 June 1973, including the Commonwealth Trading Bank and Rural Bank (Government banks), 1 foreign bank and 1 New Zealand bank. The trading bank business is transacted chiefly by the Commonwealth Trading Bank and 6 private banks, of which 5 have their head offices in Australia and 1 in London. At 30 June 1973 the 10 banks operated 1,755 branches and 376 agencies in New South Wales.

The weekly average amount of deposits held in New South Wales by the 10 banks was \$A4,784.2m. in June 1973, consisting of \$A2,536,224,000 bearing interest and \$A2,247.97m. not bearing interest. Bank advances, overdrafts, bills discounted, etc., amounted to \$A3,742.56m. A statement of other assets and liabilities of the banks in New South Wales is of little significance, as banking business is conducted on an Australia-wide basis.

Savings bank deposits at the end of June 1973 amounted to \$A3,294,281,000, representing \$A699 per head of population.

Lord Howe Island, 31° 33' 4" S., 159° 4' 26" E., a dependency of New South Wales, situated about 436 miles north-east of Sydney; area, 4,088 acres (1,656 hectares), of which only about 300 acres are arable; population (30 June 1972), 240. The island, which was discovered in 1788, is of volcanic origin. Mount Gower, the highest point, reaches a height of 2,840 ft (852 metres).

A Board at Sydney and an elected Island Committee manage the affairs of the island and supervise the Kentia palm-seed industry.

VICTORIA

CONSTITUTION AND GOVERNMENT. Victoria, formerly a portion of New South Wales, was, in 1851, proclaimed a separate colony, with a partially elective Legislative Council. In 1855 responsible government was conferred, the legislative power being vested in a parliament of two Houses, the Legislative Council and the Legislative Assembly. At present the Council consists of 36 members who are elected for 6 years, one-half retiring every third year. The Assembly consists of 73 members, elected for 3 years from the date of its first meeting unless sooner dissolved by the Governor. Members and electors of both Houses must be adult natural born or naturalized British subjects. Women are fully enfranchised. No property qualification is required, but judges may not be members of either House. Single voting (one elector one vote) and compulsory preferential voting apply to Council and Assembly elections. Enrolment of Council and Assembly electors is compulsory. The Council may not initiate or amend money bills, but may suggest amendments in such bills other than amendments which would increase any charge. Any Minister, with the consent of the House of which he is not a member, may sit and speak in that House to explain a bill relating to the department administered by him, but may not vote in that House. A bill shall not become law unless passed by both Houses, except that, in the event of a continued disagreement between the two Houses as to a bill passed by the Assembly, other than certain constitutional bills, the Governor having dissolved the Assembly may subsequently dissolve the Council, and if the disagreement still continues he may convene a joint sitting of the members of

the Council and the Assembly; if at such joint sitting the bill in dispute is passed by an absolute majority of all members it shall become law.

Private members of both Houses receive salaries of \$A9,300 per annum, additional allowances rising from \$A2,400 (metropolitan constituencies) to \$A3,725 (outer country), and a living-away-from-home allowance of \$A14 for each day of attendance for each member (not being a responsible Minister or a metropolitan member).

Members holding the following offices receive the salaries and allowances specified: The President of the Council, \$A14,250 salary and \$A950 expense allowance; the Speaker of the Assembly, \$A14,250 salary and \$A950 expense allowance; the Chairman of Committees of the Council, \$A11,350 salary and \$A350 expense allowance; the Chairman of Committees of the Assembly, \$A11,350 salary and \$A350 expense allowance; the Leader of the Opposition in the Assembly, \$A15,900 salary and \$A1,850 expense allowance; the Deputy Leader of the Opposition in the Assembly, \$A11,650 salary and \$A425 expense allowance; the Leader of any recognized party (other than the Opposition) consisting of at least 14 members of Parliament, of which party no member is a responsible Minister, \$A11,650 salary and \$A575 expense allowance; a member of either House who is the Parliamentary Secretary of the Cabinet, \$A11,650 salary and \$A575 expense allowance; the Government Whip in the Assembly, \$A10,100 salary; the Whip of any recognized Party which consists of at least 14 members of Parliament, of which Party no member is a responsible Minister, \$A9,775 salary. All members have free passes over the Victorian Railways; country members are also entitled to certain allowances for air travel.

The Legislative Assembly, elected on 19 May 1973, is composed as follows: Liberal Party, 46; Labor Party, 18; Country Party, 8; Independent Labor, 1.

Governor: Sir Henry Winneke.

In the exercise of the executive power the Governor is advised by a Cabinet of responsible Ministers. The Constitution Act Amendment Act provides that the number of responsible Ministers shall not at any one time exceed 17, of whom not less than 4 and not more than 5 may sit in the Legislative Council. No responsible Minister may hold office for more than 3 months unless he is or becomes a member of the Council or the Assembly.

Responsible Ministers receive the following amounts: The Premier, \$A22,800 salary and \$A4,500 expense allowance and, if he represents an electorate outside the metropolitan area and maintains an additional place of residence within the latter, an allowance of \$A1,150; the Deputy Premier, \$A18,600 salary and \$A2,150 expense allowance; 16 other responsible Ministers, \$A15,900 salary and \$A1,850 expense allowance. Each responsible Minister receives, when travelling on business of the State, a travelling allowance. The President, Speaker, Parliamentary Secretary of the Cabinet, Leader and Deputy Leader of the Opposition in the Assembly, and the leader of any recognized party (other than the Opposition) consisting of at least 14 members of Parliament, of which party no member is a responsible Minister, also receive a travelling allowance when travelling on official business. Members of Committees receive attendance fees and certain travelling expenses when on Committee duties.

The Liberal Party Government (first appointed 7 June 1955) is as follows:

Premier, Treasurer and Minister of the Arts: R. J. Hamer, ED, MP.

Education: L. H. S. Thompson, MP.

State Development and Decentralization, Tourism, and Immigration: Murray Byrne, MLC.

Housing, and Aboriginal Affairs: V. O. Dickie, MLC.

Transport: E. R. Meagher, MBE, ED, MP.

Fuel and Power, and Mines: J. C. M. Balfour, MP.

Chief Secretary: J. F. Rossiter, MP.

Attorney-General: V. F. Wilcox, QC, MP.

Conservation, Lands, and Soldier Settlement: W. A. Borthwick, MP.

Labour and Industry, and Consumer Affairs: J. A. Rafferty, MP.

Agriculture: I. W. Smith, MP.

Public Works: R. C. Dunstan, DSO, MP.

Local Government, and Planning: A. J. Hunt, MLC.

Health: A. H. Scanlan, MP.

Social Welfare: W. V. Houghton, MLC.

Youth, Sport and Recreation, and Assistant Minister of Education: B. J. Dixon, MP.

Water Supply, and Forests: F. J. Granter, MLC.

Parliamentary Secretary of the Cabinet: Walter Jona, MP.

Agent-General in Great Britain: Sir Murray V. Porter (Victoria House, Melbourne Place, WC2).

LOCAL GOVERNMENT. With the exception of Yallourn Works area (8,653 acres) and the unincorporated areas—French Island (41,600 acres), Lady Julia Percy Island (653 acres), the Bass Strait Islands and Gippsland Lakes (82,886 acres) and Tower Hill Lake Reserve (1,459 acres), the State is divided (at 30 June 1973) into 210 municipal districts, namely 63 cities, 5 towns, 8 boroughs and 134 shires. The constitution of cities, towns, boroughs and shires is based on statutory requirements concerning population, rate revenue and net annual value of rateable property.

AREA AND POPULATION. The State has an area of 87,884 sq. miles (227,600 sq. km). It is divided into 37 counties, varying in area from 920 to 5,933 sq. miles.

The census population (exclusive of full-blood aboriginals prior to 1961) was:

Date of census enumeration				On previous census	
	Males	Females	Total	Numerical increase	Increase %

The average density at 30 June 1971 was 39.8 persons per sq. mile.

The population of urban Melbourne (capital city) on 30 June 1971 was 2,388,941, or 68.4% of the population of the State. The population of urban Geelong was 115,181; urban Ballarat, 58,620; urban Bendigo, 45,936. Other urban centres: Moe-Yallourn, 20,863; Shepparton, 19,410; Warrnambool, 18,684; Morwell 16,853; Wangaratta, 15,586; Traralgon, 14,666; Mildura, 13,198; Werribee, 12,872; Horsham, 11,045; Sale, 10,436; Colac, 10,362; Hamilton, 9,673; Bairnsdale, 8,552; Ararat, 8,312; Benalla, 8,255; Portland, 8,216; Swan Hill, 7,712; Castlemaine, 7,699; Maryborough, 7,472; Warragul, 7,101.

VITAL STATISTICS for calendar years:

	Births	Marriages	Divorces	Deaths	Oversea arrivals	Oversea departures
1970	73,019	31,729	2,591	30,335	115,204	88,875
1971	75,498	32,386	3,072	30,598	157,842	138,456
1972	71,807	31,206	3,584	29,856	190,419	177,015

The annual rates per 1,000 of the population in 1972 were: Marriages, 8.78; births, 20.2; deaths, 8.4; infant deaths, 14.6 per 1,000 births; divorce rate, 10.11 per 10,000 of the mean population.

RELIGION. There is no State Church in Victoria, and no State assistance has been given to religion since 1875. At the date of the 1971 census the following were the enumerated numbers of each of the principal religions: Catholic,

Roman,¹ 408,864; Catholic,¹ 594,962; Church of England, 892,568; Methodist, 256,058; Presbyterian, 364,338; Protestant (undefined), 113,351; other Christian, 350,503; Hebrew, 30,117; other non-Christians, 12,156; indefinite, 7,792; no religion, 256,430; no reply, 215,212.

¹ So described on individual census schedules.

EDUCATION. Education establishments in Victoria consist of 3 universities, established under special Acts and opened in 1855, 1961 and 1967; Colleges of Advanced Education; State schools (primary, primary-secondary, secondary and junior technical, senior technical schools or colleges, and registered schools).

The University of Melbourne, founded in 1853, had, in 1972, 15,016 students (including 4,907 females) and 926 teaching and research staff. Affiliated with the university are 9 denominational colleges, 1 undenominational college and 5 halls of residence.

Monash University, founded in 1958 in an eastern suburb of Melbourne, had, in 1972, 11,633 students (including 3,958 females) and 789 teaching and research staff.

La Trobe University, founded in 1964 in a northern suburb of Melbourne, had 4,302 students (including 1,727 females) and 293 teaching and research staff in 1970.

Primary education of children of the ages of 6 to 15 years inclusive is free, secular and compulsory. At 1 Aug. 1972 there were 1,809 government primary schools with 14,484 full-time and 641 part-time teachers and an enrolment of 365,601 pupils; 35 government primary-secondary schools had 574 full-time and 80 part-time teachers and an enrolment of 10,596 pupils. There were also 350 government secondary schools, comprising post-primary schools, girls' schools, junior technical schools and high schools with 12,698 full-time and 3,587 part-time teachers and an enrolment of 226,417 pupils. In 1972 there were also 98 senior technical schools, attached to which were the junior technical schools included above in secondary schools, with . . . senior students excluding those tertiary students enrolled at colleges affiliated with the Victoria Institute of Colleges. The total cost to the State of public instruction, including grants to the universities, was \$A431m. in 1971-72.

Registered Schools. There were at 1 Aug. 1972, 570 registered schools, excluding commercial colleges, with 7,499 full-time and 1,636 part-time teachers and 192,165 pupils enrolled. Of these schools, 473 were connected with the Roman Catholic community; some were under the control of the Church of England, the Presbyterian, Methodist and other Churches, while a few were managed by private persons or companies.

SOCIAL SERVICES. Victoria was the first State of Australia to make a statutory provision for the payment of Age Pensions. The Act providing for the payment of such pensions came into operation on 18 Jan. 1901, and continued until 1 July 1909, when the Commonwealth Invalid and Old Age Pension Act came into force. The Social Services Consolidation Act, which came into operation on 1 July 1947, repealed the various legislative enactments relating to age (previously old-age) and invalid pensions, maternity allowances, child endowment, and unemployment, and sickness benefits and while following in general the Acts repealed, considerably liberalized many of their provisions: it has since been amended. On 30 June 1973 there were 250,982 age and 34,244 invalid pensioners in Victoria, and the amount paid in pensions, including payments to wives of invalid pensioners, during 1972-73 was \$A277.72m.

The number of war pensions (members of the forces and their dependants) payable in Victoria on 30 June 1973 was 145,394, and the number of service pensions was 24,254. The amount paid in war and service pensions by the Australian Government during 1972-73 was \$A78.87m.

During the year ended 30 June 1973 maternity allowances were granted to 68,190 mothers in the State, the total amount paid in allowances during the year being \$A2.15m.

Under the Commonwealth Unemployment and Sickness Benefit Act 1944, there were 18,133 persons receiving benefits at June 1973 (excluding migrants in accommodation centres), and the amount paid in benefits totalled \$A21m. in the year ended 30 June 1973.

The number of widows' pensions in force in Victoria at 30 June 1973 was 29,744, and the total amount paid in allowances during that year was \$A39.1m.

The number of child endowments in force in Victoria at 30 June 1973 was 581,998, representing 1,177,888 endowable children (including students). In addition, endowment was being paid in respect of 5,756 children who were being maintained in approved institutions. The total amount paid in endowment in Victoria during the year ended 30 June 1973 was \$A71.68m.

STATE HOUSING. The various State housing authorities were consolidated under the control of the Ministry of Housing early in 1973. The authorities include the Housing Commission, the Teacher Housing Authority, the Co-operative Housing Registry, and the Decentralised Industry Housing Authority which was established in April 1973 to provide housing for key personnel of industries in the country. The Co-operative Housing Registry administers distribution of finance to the co-operative building societies from loan moneys advanced by the Australian Government.

The Housing Commission is controlled by a Commission of 5 full-time members appointed under the Housing Act. The Housing Commission was established in 1938 and its activities are now spread throughout the State. Since its inception to 30 June 1973, 332 estates have been developed by the Commission and 74,407 dwelling units provided thereon. In addition at 30 June 1973, 2,914 dwellings were under construction. About 43% of the units built in 1972-73 were built in country towns, particularly where industries are established. Expenditure on land purchase, development and dwelling construction to 30 June 1973 was \$A605m. Rental charges for the year were \$A22,778,362, against which \$A2,105,795 was allowed in rent rebates to tenants on low incomes, including pensioners.

JUSTICE. There is a Supreme Court with a Chief Justice and 18 puisne judges. There are magistrates' courts, county courts, courts of mines, a court of licensing, and a bankruptcy court.

Criminal statistics for 1971: 291,669 convictions (including some 162,000 for driving and traffic offences) in magistrates' courts; 1,805 convicted persons in higher (judges') courts.

There are 13 gaols in Victoria. At 30 June 1972 there were confined in these prisons, 2,287 males and 31 females.

FINANCE. The receipts and payments (in \$A1,000) of the Consolidated Fund¹ in the years shown (ended 30 June) were:

	1969-70	1970-71	1971-72	1972-73	1973-74 ²
Receipts	891,386	1,011,379	1,210,889	1,381,153	1,549,017
Payments	906,768	1,011,379	1,210,889	1,381,153	1,549,017

¹ Established as from 1970-71 to show in a single statement receipts and disbursements of all moneys formerly coming within the scope of consolidated revenue and loan fund. Figures given for years prior to 1970-71 have been adjusted to conform with this concept.

² Estimates.

The principal receipt items (in \$A1,000) during 1971-72 were: Taxation, 677,345 (including Australian Government reimbursement, 367,651, but excluding 88,710 paid to special funds); railways, 111,967; other Australian Government payments, 68,518, and water supply, sewerage, etc. (including interest), 19,907. The principal heads of expenditure were: Interest and public debt charges (including railways), 156,834; railways, 129,286; education, 332,742; health, hospitals and charities, 151,292.

The amount raised by taxation (exclusive of taxes collected by the Australian Government or paid to special funds but inclusive of the Australian Government reimbursements under the uniform taxation scheme), as shown in the above paragraph, was approximately \$A191.63 per head of population.

The public debt of Victoria (in \$A1m.) on 30 June 1972 was 2,488. An amount of 3,162 has been expended from loan funds. Of this amount 519 was spent on railways; 487 on waterworks; 115 on land settlement; 75 on roads and bridges; 294 on electricity supply; 599 on universities, schools and colleges; 132 on other public buildings; 85 on forestry; 293 on hospitals; 85 on housing; 68 on revenue deficits; 312 on all other purposes.

LAND SETTLEMENT. Of the total area of Victoria (56,245,760 acres), 33,757,994 acres on 30 June 1972 were either alienated or in process of alienation. The remainder (22,487,766) constituted Crown land as follows: Perpetual leases, grazing and other leases and licenses, 5,567,672; reservations including forest and timber reserves, water, catchment and drainage purposes, national parks, wildlife reserves, water frontages and other reserves, 7,792,756; unoccupied and unreserved including areas set aside for roads, 9,127,338. Rural holdings in 1971-72 numbered 67,714.

AGRICULTURE. The following table shows the area under the principal crops and the produce of each for 3 seasons (in 1,000 units):

Season	Total culti- vation	Wheat		Oats		Barley		Potatoes		Hay	
	Acres	Acres	Bushels	Acres	Bushels	Acres	Bushels	Acres	Tons	Acres	Tons
1969-70	8,057	3,298	90,728	884	25,927	487	11,373	40	280	1,200	2,461
1970-71	7,532	1,879	36,901	987	25,717	665	14,038	35	299	1,266	2,455
1971-72	8,390	2,570	66,039	814	24,770	731	17,431	35	302	1,572	2,953

In 1971-72 there were 52,448 acres of vines, yielding 7,549,000 gallons of wine, 75,352 tons of dried fruit and 11,826 tons of table grapes. Green fodder covered 140,275 acres, and orchards and vegetables, including potatoes and onions, occupied 149,752 acres.

At March 1972 there were in the State 5,461,000 head of cattle, 34,405,000 sheep and 590,000 pigs. In 1971-72, 756,345 tons of fresh meat was produced. The wool produced in the season 1971-72 amounted to 192m. kg, valued at \$A135m. The quantity of butter produced in 1971-72 was 288m. lb.

The gross value of Victorian primary production (in rural and non-rural) 1971-72 was \$A1,064m.

MINING. The recorded production of certain metals and minerals raised in Victoria for the year 1971-72 was: Gold, 6,172 fine oz., value \$A223,162; coal, brown, 23.3m. tons, value \$A25.7m.

MANUFACTURES. The total number of manufacturing establishments in Victoria in 1971-72 (figures for 1969-70 in brackets) was 11,424 (11,394). Persons employed, including working proprietors, on the last pay day in June were males 312,415 (306,959) and females 140,208 (138,746). Salaries and wages paid was \$A1,796m. (\$A1,497m.), excluding drawings of working proprietors. The cost of purchases, transfers in and selected expenses was \$A4,764m. (\$A4,307m.) and sales, transfers out and other operating revenue were \$A8,013m. (\$A6,995m.). The preceding figures exclude gas and electricity producing and distributing establishments. In terms of persons employed the most important manufacturing activities were: Basic and fabricated metal products including transport equipment, machinery and equipment, 177,963 (172,444); textiles, clothing and footwear, 89,920 (93,257); food, beverages and tobacco, 62,354 (60,125).

TRADE UNIONS. There were 158 trade unions with a total membership of 652,100 operating in Victoria in 1972.

ELECTRICAL ENERGY. The State Electricity Commission of Victoria, the largest electricity supply authority in Australia, produces all of the electricity generated in the State available for public supply; its supply network serves almost the entire Victorian population and some New South Wales municipalities and irrigation settlements bordering the river Murray. The total installed capacity of the Commission's system at 30 June 1973 was 3,863,000 kw., including Victoria's share of about one-third (832,000 kw. at 30 June 1973) of the Snowy Mountains hydro-electric scheme and its half share (25,000 kw.) of the Hume hydro-electric station (shared with New South Wales). Power generated and purchased in 1972-73 totalled 14,956m. gwh. Thermal stations at Hazelwood, Yallourn, Morwell, Melbourne (3) and Red Cliffs had an installed capacity of 2,687,550 kw. Burning raw brown coal on site on the coalfields, the Latrobe valley power stations (2,316,000 kw.) produced over 80% of Victoria's electricity. The chief of these stations is Hazelwood, which was completed to a capacity of 1.6m. kw. in 1971. Excluding Snowy and Hume the installed hydro-electric capacity totalled 318,515 kw. at 30 June 1973, with Kiewa (3 stations totalling 183,600 kw.) as the chief undertaking.

PETROLEUM AND NATURAL GAS. Crude oil in commercially recoverable quantities was first discovered in 1967 in two large fields off-shore in east Gippsland in Bass Strait between 40 and 50 miles from land. These fields, Halibut and Kingfish, with two smaller fields since discovered have assessed initial recoverable reserves of 1,594m. bbls. Gippsland crude now supplies approximately 64% of Australia's refinery requirements and during the 12 months to 30 June 1973 a total of 114m. bbls were produced from the fields. The producing fields should remain at peak for the next few years before depletion commences.

Natural gas was first discovered off-shore in east Gippsland in 1965. Following an extensive development and distribution programme natural gas was first connected to homes and industry in Victoria in 1969. All gas consumers in Melbourne, Geelong, Ballarat and a number of towns in the Latrobe valley and east Gippsland have been converted to natural gas. At 30 June 1973 a total of 590,000 consumers were being supplied with natural gas. The reserves of gas are sufficient to last approximately 30-40 years.

Natural gas and crude oil are conveyed from the producing fields to a large treatment plant at Longford in east Gippsland from where both hydrocarbons are distributed by a network of major and minor transmission lines to refineries and ports of loading for crude oil and natural gas to residential and industrial consumers. These pipelines comprise about 1,500 miles of high pressure lines and over 7,000 miles of transfer, direct high pressure and reticulation lines.

COMMERCE. The commerce of Victoria, exclusive of inter-state trade, is included in the statement of the commerce of Australia, *see* pp. 157-58.

The total value of the overseas imports and exports of Victoria, including bullion and specie but excluding inter-state trade, was as follows (in \$A1,000):

	1967-68	1968-69	1969-70	1970-71	1971-72	1972-73
Imports	1,130,741	1,182,705	1,347,053	1,458,583	1,431,076	1,472,467
Exports	685,755	707,579	912,596	1,034,908	1,139,731	1,497,869

The chief exports in 1972-73 were: Wool, meat, wheat, butter, fruits, hides and skins, milk products, motor vehicles and parts, flour, oats, cheese, tallow and malt.

RAILWAYS. All the railways are the property of the State and are under the management of 3 commissioners appointed by the Government.

At 30 June 1972, 4,154 miles of government railway were open. The total liability of the State for railways, construction, etc., to this date was \$A523.6m. During the year 1971-72 the gross revenue amounted to \$A112,685,106 and the total working expenses to \$A138,721,542. 137,793,989 passengers, 13,388,625 tons of freight and 268,055 tons of livestock were carried.

ROADS. At 30 June 1972 there were 99,077 miles of road open for general traffic consisting of 213 miles of cement concrete, 33,024 miles of bituminous seal, 28,297 miles of waterbound macadam, gravel, etc., 19,603 miles formed, but not paved, and 17,310 miles not formed. The number of registered motor vehicles (other than tractors) at 30 June 1972 was 1,442,300.

AVIATION. During the year ended 31 Dec. 1972 there were 65,743 aircraft movements at Essendon and Melbourne airports. Passengers totalled 3m. on domestic flights (international, 280,235). Freight handled, 52,322 short tons, domestic flights (5,638 international).

BANKING. On 30 June 1973 there were 5.41m. operative accounts (excluding school bank accounts) in savings banks in Victoria. The total credit due to depositors amounted to \$A3,539m., made up of State Savings Bank, \$A1.615m.; Commonwealth Savings Bank, \$A785m.; private savings banks, \$A1,139m.

The weekly average of deposits and advances of trading banks operating in Victoria during June 1973 were as follows: Deposits, not bearing interest, \$A1,395m.; deposits, bearing interest, \$A1,588m.; total deposits, \$A2,984m.; loans, advances, and bills discounted, \$A1,838m. The weekly average of debits to customers' accounts (excluding debits to Commonwealth and State Government accounts at City branches in State capitals) for the same period totalled \$A2,552m.

QUEENSLAND

CONSTITUTION AND GOVERNMENT. Queensland, formerly a portion of New South Wales, was formed into a separate colony in 1859, and responsible government was conferred. The power of making laws and imposing taxes is vested in a Parliament of one House—the Legislative Assembly, which comprises 82 members, returned from 4 electoral zones for 3 years, elected for single-member constituencies at compulsory ballot. Members are entitled to \$A12,180 per annum, with individual electorate allowances for travelling, postage, etc., of from \$A2,010 to \$A4,920.

At the general election of 27 May 1972 there were 997,489 persons registered as qualified to vote under the Elections Act 1915-1973. This Act provides franchise for all males and females, 18 years of age and over, qualified by 6 months' residence in Australia and 3 months in the electoral district.

The Legislative Assembly, following the elections of 27 May 1972, was composed of the following parties: Country, 26; Liberal, 21; Australian Labor, 33; North Queensland Labor, 1; Independent, 1; total, 82.

Governor of Queensland: Air Marshal Sir Colin Thomas Hannah, KCMG, KBE, CB (assumed office March 1972).

The Executive Council of Ministers, from 20 June 1972, consists of the following members:

Premier: Johannes Bjelke-Petersen (Country).

Treasurer: Sir Gordon William Wesley Chalk, KBE (Liberal).

Mines and Main Roads: Ronald Ernest Camm (Country).

Justice and Attorney-General: William Edward Knox (Liberal).

Education and Cultural Activities: Sir Alan Roy Fletcher (Country).

Health: Seymour Douglas Tooth (Liberal).

Tourism, Sport and Welfare Services: John Desmond Herbert (Liberal).

Development and Industrial Affairs: Frederick Alexander Campbell (Liberal).

Primary Industries: Victor Bruce Sullivan (Country).

Works and Housing: Allen Maxwell Hodges (Country).

Conservation, Marine and Aboriginal Affairs: Neville Thomas Eric Hewitt (Country).

Land and Forestry: Wallace Alexander Ramsay Rae (Country).

Transport: Keith William Hooper (Liberal).

Local Government and Electricity: Henry Arthur McKechnie (Country).

Each Minister has a salary of \$A20,010; the Premier receives \$A25,440, the Deputy Premier, \$A21,810, and the Leader of the Opposition, \$A17,270.

Acting Agent-General in London: N. C. Seeney (392 Strand, WC2).

LOCAL GOVERNMENT. Provision is made for local government by the subdivision of the State into cities, towns and shires. These are under the management of aldermen or councillors, who are elected by all persons 18 years and over. Local Authorities are charged with the control of all matters of a parochial nature, such as sewerage, cleansing and sanitary services, health services, domestic water supplies, and roads and bridges within their allotted areas. In addition to Government grants and subsidies, Local Authority revenue is derived from general rates, paid by landowners on the unimproved capital value of land, and by charging for some specific services. Loans for most capital works are raised subject to the provisions of the Australian Loan Council. Shires are mostly rural districts although most contain some urban centres not classed officially as towns.

The number and area of these subdivisions, together with the receipts and expenditure (including receipts and expenditure from loans) for the year ended 30 June 1971, were:

	No.	Area in sq. miles	Receipts, ¹ \$A1,000	Expenditure, ¹ \$A1,000	Rateable values, \$A1,000
City of Brisbane	1	385	133,564	131,643	838,767
Other cities	14	16,330	56,167	56,996	337,945
Towns	5	82	7,779	8,489	18,760
Shires	111	649,236	98,754	98,393	664,542
Total	131	666,033	296,264	295,521	1,860,014

¹ These columns include receipts from loans and loan subsidies of \$A69.2m.; expenditures from loans and loan subsidies of \$A67.4m.; and the operating receipts and expenditures of business undertakings (principally water supply, sewerage, electricity and transport) which were \$A114m. and \$A115.4m. respectively.

AREA AND POPULATION. Queensland comprises the whole north-eastern portion of the Australian continent, including the adjacent islands in the Pacific Ocean and in the Gulf of Carpentaria. Estimated area 667,000 sq. miles (1,728,000 sq. km) with a seaboard of 3,236 miles (5,200 km).

The increase in the population as shown by the censuses since 1901 has been as follows:

Year	Population at census date			Intercensal increase	
	Males	Females	Total	Numerical	Rate per annum %
1901	277,003	221,126	498,129	—	—
1911	329,506	276,307	605,813	107,684	1·98
1921	398,969	357,003	755,972	150,159	2·24

¹ Including Aborigines.

Of the total population of 1,827,065 (inclusive of Aborigines) recorded at the census of 30 June 1971, 1,595,572 persons were born in Australia; 13,333 in New Zealand; 120,595 in the British Isles; 70,558 in other parts of Europe; 27,007 elsewhere.

VITAL STATISTICS (including Aborigines) for calendar years:

	Total births	Marriages	Divorces	Deaths
1970	37,530	16,082	1,511	17,055
1971	39,970	16,538	1,411	16,339
1972	39,251	16,066	1,737	16,598

The annual rates per 1,000 population in 1972 were: Marriages, 8·6; births, 21; deaths, 8·9. The infant death rate was 17·8 per 1,000 births.

Brisbane, the capital, had on 30 June 1972 a population of 888,000 (Statistical Division). The populations of the other chief towns at the same date were: Townsville, 73,500; Gold Coast, 71,400; Toowoomba, 60,300; Rockhampton, 49,800; Cairns, 31,250; Mackay (including N. Mackay), 29,500; Mount Isa, 29,000; Bundaberg, 27,650; Maryborough, 19,150; Gladstone, 15,750; Gympie, 11,150; Warwick, 9,150.

RELIGION. There is no State Church. Membership, census 1971: Church of England, 544,432; Roman Catholic, 231,808; Catholic (not further defined), 235,395; Presbyterian, 192,079; Methodist, 182,887; Lutheran, 45,228; Baptist, 28,329; Orthodox, 15,554; Congregational, 9,627; other Christian, 96,472; Hebrew, 1,491; all others (including not stated and no religion), 243,763.

EDUCATION. Education is compulsory between the ages of 6 and 15 years. Education is free in State primary and high schools. The public expenditure on education for 1971-72, net of certain receipts, was \$A168·7m. At Aug. 1972 there were 1,117 State primary schools (including 13 native schools administered by the Department of Aboriginal and Island Affairs, 34 special schools and 1 correspondence school), with 8,275 teachers and enrolment of 215,460 scholars. Secondary education was provided during 1972 by 111 State high schools, 1 correspondence school and 123 secondary departments attached to State, special, and native primary schools, with 5,179 teachers, the enrolment being 93,097 scholars, and by 8 subsidized grammar schools (4 for boys, 3 for girls, 1 mixed), with 242 teachers and an enrolment of 4,181 secondary and 99 primary pupils. There were, in addition, 331 other, mostly church, schools, with 3,966 teachers and an enrolment of 86,732 children.

In 1972, tertiary level course enrolments at colleges of advanced education, including teachers' colleges, and technical colleges were 6,314 full-time and 2,406 part-time. Non-tertiary level course enrolments at these establishments and rural training schools numbered 1,963 full-time and 27,236 part-time, including correspondence and apprenticeship students. The Queensland University at Brisbane and the James Cook University at Townsville had, at 30 April 1972, 219 professors, associate professors and readers; 580 senior lecturers and lecturers; 328 assistant lecturers, demonstrators, tutors and teaching fellows; and 18,591 students. There are 7 denominational and 3 undenominational residential colleges attached to the University in Brisbane with 4 denominational residential colleges and 2 undenominational halls of residence at the University in Townsville.

JUSTICE. Justice is administered by a Supreme Court, district courts, magistrates' courts and children's courts. The Supreme Court comprises a Chief Justice, a senior puisne judge and 12 puisne judges; the district court, 15 district court judges. Stipendiary magistrates preside over the lower courts, except in the smaller centres, where justices of the peace officiate. A parole board may recommend prisoners for release.

The total number of persons convicted of serious offences by the superior courts in 1971-72 was 1,758; the summary convictions in lower courts (including cases of bail estricted and committals to higher courts for sentence or trial) numbered 99,706. There were, at 30 June 1972, 4 prisons, 2 gaols for short-term prisoners, 2 prison farms conducted on the honour system and 1 prison for mentally-ill prisoners, with 1,410 male and 29 female prisoners. The total police force, including 62 women police and 6 native trackers, was 3,359 at 30 June 1972.

SOCIAL WELFARE. Public hospitals are maintained by State and Australian Government endowment, supplemented by fees from patients not in public wards. Medical and hospital benefit schemes, subsidized by the Australian Government, are operated by approved organizations to provide voluntary insurance against medical and hospital expenses. Welfare institutions for aged people, and for orphans and the blind, deaf and dumb, and homes for other handicapped persons are also maintained or assisted by the State. A maternal and child welfare service is provided throughout the State. Age, invalid, widows' and war pensions, maternity allowances, child endowment, and unemployment and sickness benefits are paid by the Australian Government. Age pensioners in the State at 30 June 1972 numbered 132 000; invalid pensioners, 22,825; war pensioners, 87,104 (including dependants). Maternity allowance was paid to 39,246 mothers during 1971-72.

There were 13,652 widows' pensions current at 30 June 1972, and at the same date child endowment was being paid to 260,419 families in respect of 584,743 children under 16 years. In addition, 18,504 families received endowment for 20,336 student children aged 16-21.

HOUSING. In 1972-73, 26,483 new dwellings (including 5,743 flats) were completed and 10,335 were being built at 30 June 1973. The Queensland Housing Commission, financed by State and Australian Government loans, builds dwellings for sale and for rental (in 1972-73, 1,779 units). Building and co-operative housing societies are assisted by State and Australian Government loans.

FINANCE. Revenue and expenditure of the Consolidated Revenue Fund of Queensland during 5 years ending 30 June (in \$A1,000):

	1969-70	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	441,074	499,048	595,218	704,109	803,686
Expenditure	444,618	499,569	592,506	702,902	807,962

¹ Estimate.

Net government receipts of consolidated revenue and trust funds, excluding as far as possible transfers between funds, in 1971-72 were \$A1,075.4m., including: Taxation (including Australian Government reimbursement), \$A394.9m.; railways, \$A233.1m.; Australian Government grants, \$A169.1m. Net expenditure from these funds was \$A1,047.9m., including: Development and maintenance of State resources, \$A306.2m.; education, \$A168.7m.; railways, \$A141.9m.; public debt charges, \$A112.6m.; health, \$A107.6m.; law and order, \$A48.1m.; general administration, \$A43.4m. Loan expenditure amounted to \$A133.7m.

Revenue and expenditure of Australian Government departments on account of Queensland are not included.

The gross public debt of the State amounted, on 30 June 1972, to \$A1,347m. The debt was domiciled as follows (in \$A1,000): Australia, 1,316,123; UK, 21,758; USA, 4,278; Switzerland, 1,305; Canada, 569; Netherlands, 468; other European countries, 2,499. The annual interest charge on the public debt at 30 June 1972 was \$A71.9m.

LAND SETTLEMENT. Of the total area of the State, 28.18m. acres had been alienated at 31 Dec. 1972; in process of alienation, under deferred payment system, were 34.35m. acres, leaving 364.35m. acres, still the property of the Crown, or 85.4% of the total area. A large proportion of the area is leased for pastoral purposes (241.6m. acres at 31 Dec. 1972), besides 70.8m. acres in grazing selections and 11.97m. acres under occupation licence. Perpetual leases amounted to 5.57m. acres.

In the western portion of the State water is comparatively easily found by sinking artesian bores. At 30 June 1972, 3,265 such bores had been drilled, of which 2,206 were flowing.

RURAL INDUSTRIES. Livestock on farms and stations at 31 March 1973 numbered 9,795,000 cattle, 13,346,000 sheep and 542,000 pigs. The wool production (greasy) was, in 1971-72, 83.16m. kg, valued at \$A61.7m. The total area under crops during 1971-72 was 5,100,300 acres, 453,562 acres were irrigated in 1971-72, the principal crops so watered being sugar-cane, fodder crops, vegetables, cereals, tobacco, cotton and fruit.

FORESTRY. A considerable area consists of natural forest, eucalyptus, pine and cabinet woods being the timbers mostly in evidence; a large quantity of ornamental woods are utilized by cabinet makers. The amount of native timber processed in 1971-72 was (in 1,000 superfeet): Softwoods, 137,461; hardwoods, brushwoods and scrubwoods, 253,237. The plywood industry is important; 87.8m. sq. ft of plywood was produced. In addition, 350.3m. sq. ft of veneers was produced. Most of the veneer came from cabinet woods of the north. Forest and timber reservations total 9,443,500 acres (30 June 1972); areas for national parks, 2,563,000 acres. The State Forest Service had planted 194,000 acres for reforestation and had treated 889,000 acres for natural regeneration by June 1972. Thinnings from State reforestation areas are used for hardboard and paper pulp.

MINING. Principal minerals produced during 1972 were: Copper, 129,572 metric tons; coal, 17,611,589 metric tons; lead, 115,133 metric tons; zinc, 96,258 metric tons; silver, 271,869 kg; tin, 1,816 metric tons; gold, 1,913 kg; bauxite, 7,734,409 metric tons; mineral sands concentrates, 182,799 metric tons. Value of output, at the mine, was \$A354,456,000. The chief mines are Mount Isa (copper, silver, lead, zinc), Weipa (bauxite), Mount Morgan (copper, gold), Moreton, Moura, Blackwater and Goonyella (coal).

Oil was discovered at Moonie in southern Queensland in 1961. A pipeline has been laid from Moonie to Brisbane, where refineries are operating. Large natural gas reserves have been proved in southern and central Queensland and a pipeline has been laid from Roma to Brisbane. Oil production has declined in recent years but there has been an increase in gas production.

INDUSTRY. Approximately one-third of the secondary production of the State is from works processing primary products, the most important being sugar-mills, meat works, butter factories and saw-mills. There are 31 cane-crushing mills, 2 oil refineries, 1 alumina refinery, 2 sugar refineries, 45 meat works (including bacon factories) producing largely for export, 29 butter factories and many saw-mills and plywood and veneer mills. Other industries include engineering works, railway workshops, shipbuilding, copper refining, rubber, cement, woollen mills, cardboard and building board manufacture, ammonia and fertilizer works and the production of various items of food, clothing and vehicles, chiefly for local use. In 1971-72 there were 4,090 factories, employing 94,084 males and 24,036 females, and making goods worth \$A2,433m. The value of production (value added in manufacture) was \$A871m.

The gross value of Queensland primary production, excluding mining (in \$A1,000) during 1971-72 amounted to 841,570, which included agriculture, 433,569; dairying and pig-raising, 75,630; pastoral, 271,261; poultry and bee-keeping, 27,266; forestry, 21,143; fisheries, 11,380; trapping, 1,320.

ELECTRICITY. The State Electricity Commission, established in 1938 and under a single Commissioner since 1948, co-ordinates the electricity industry in Queensland. Electricity generated by the principal stations in the year ended 30 June 1971 was 5,789m. kwh.; estimate for 1971-72, 6,379m. kwh. Natural gas is being used for electric generation at Roma. Black coal was used to generate 90% of the power; hydro-electric stations generated 9%.

LABOUR. Of the total population of 1.83m., 710,628 were in employment in 1971, 117,101 in manufacturing. Industrial wages and conditions are controlled partly by Commonwealth and partly by State authorities. A State Industrial Commission is empowered to determine all industrial matters in relation to employers and employees, and to fix minimum wage-rates and other conditions of employment. An Industrial Court hears appeals and decides points of industrial law. The Commonwealth Industrial Court and Conciliation and Arbitration Commission are superior within their jurisdictions. In Queensland most employees (66%) work under State awards; 23% under Commonwealth awards.

Rates of wages for each occupation are prescribed by these courts. The minimum weighted average award wage for adult males was \$A74.39 and for adult females \$56.95, at 30 June 1973, while average weekly earnings (including overtime, etc.) were \$A103.50 per employed male unit. (Average earnings are calculated on a unit basis, as earnings are not available separately for males and females.) A standard working week of 40 hours is prescribed for most awards.

Unions both of employees and employers must be registered with the State or Commonwealth Commission. There were 79 employees' and 40 employers' unions registered with the State Commission at 31 Dec. 1971, the former comprising 299,233 and the latter 39,761 members.

COMMERCE. The overseas commerce of Queensland is included in the statement of the commerce of Australia (*see pp. 157-58*).

Total value of the direct overseas imports and exports of Queensland (in \$A1,000) f.o.b. port of shipment for both imports and exports:

	1967-68	1968-69	1969-70	1970-71	1971-72	1972-73
Imports	227,022	288,600	294,113	267,838	270,484	271,248
Exports	562,938	677,459	773,519	789,180	980,954	1,304,504

In 1971-72 interstate exports totalled \$A524.3m. and imports \$A1,058m. The chief exports overseas are minerals, meat (preserved or frozen), sugar, wool, chemicals (including alumina), machinery and transport equipment, and cereal grains. Principal imports are machinery, motor vehicles, chemicals, textiles, paper and paper board materials and articles of rubber including tyres and tubes, and iron and steel. Chief sources of imports in 1972-73 were USA

(\$A57·8m.), Japan (\$A57·5m.), UK (\$A45·3m.); exports went chiefly to Japan (\$A446·8m.), USA (\$A284·8m.), UK (\$A174·6m.).

RAILWAYS. Practically all the railways are owned by the State Government. Total mileage was 5,940 at 30 June 1972. In 1971–72, 31,946,000 passengers and 18·96m. tons of goods and livestock were carried.

ROADS. At 30 June 1972 there were 120,262 miles of road; of these, 80,263 miles were formed roads, of which 41,748 miles were surfaced with concrete, bitumen or macadam.

At 30 June 1973 motor vehicles registered in Queensland totalled 837,766, comprising 604,889 cars and station wagons, 108,514 vans, 3,421 buses, 78,190 trucks and 42,752 motor cycles.

SHIPPING. In 1971–72, 3,444 vessels totalling 22m. net tons entered Queensland ports. Cargo discharged was 5·02m. tons and cargo shipped was 20·98m. tons.

AVIATION. Queensland is well served with a network of air services, with overseas and interstate connexions. Subsidiary companies provide planes for taxi and charter work, and the Flying Doctor Service operates throughout western Queensland.

BROADCASTING. At 30 June 1973, 46 broadcasting and 25 television stations were in operation throughout Queensland. Listeners' licences totalled 416,572 and viewers' licences, 433,559.

BANKING. There were 9 trading banks operating in Queensland at 30 June 1972, including the Commonwealth Trading Bank of Australia, the 6 larger Australian trading banks, a Queensland bank with head office in Brisbane and the Banque Nationale de Paris. The Commonwealth Trading Bank had 120 branches and 64 agencies; the private banks had 612 branches and 180 agencies in the State. Queensland deposits of all trading banks, including the Commonwealth Trading Bank of Australia, amounted to \$A1,120·8m.; and loans, advances and bills discounted in Queensland were \$A670·3m. At 30 June 1972 savings bank business was conducted in Queensland by 7 banks, the Commonwealth Savings bank with 158 branches and 1,428 agencies, and 6 private banks with 605 branches and 1,150 agencies. Depositors' balances amounted to \$A1,052·9m. in 2,226,423 accounts.

SOUTH AUSTRALIA

CONSTITUTION AND GOVERNMENT. South Australia was formed into a British province by letters patent of Feb. 1836, and a partially elective Legislative Council was established in 1851. The present constitution bears date 24 Oct. 1856. It vests the legislative power in an elected Parliament, consisting of a Legislative Council and a House of Assembly. The former is composed of 20 members. Every 3 years half the members retire, and their places are supplied by members elected from each of the 5 districts into which the State is divided for this purpose. The qualifications of an elector are, to be a resident of the State, a natural born or naturalized British subject and 18 years of age, and (for the Legislative Council) certain property or war service qualifications. By the Constitution Act Amendment Act, 1894, the franchise was extended to women, who voted for the first time at the general election of 25 April 1896. The qualifications for election as a member of the House of Assembly are the same as for an elector, but a candidate for the Legislative Council must have attained the age of 30 and be a resident in the State for 3 years. Judges and ministers of religion are ineligible for election to either House.

The House of Assembly consists of 47 members elected for 3 years, representing single electorates. Election of members of both Houses takes place by preferential secret ballot. Voting for the House of Assembly is compulsory.

The House of Assembly, elected on 10 March 1973, consists of the following members: Australian Labor Party, 26; Liberal and Country League, 18; Liberal Movement, 2; Country Party, 1. The Legislative Council consists of 13 Liberal and Country League, 6 Labor and 1 Liberal Movement members.

Each member of Parliament receives \$A12,000 per annum with allowances of \$A1,800-3,900 according to location of electorate, a free pass over government railways and superannuation rights. Electors enrolled (Dec. 1972) numbered 689,897 for the House of Assembly and 377,333 for the Legislative Council.

The executive power is vested in a Governor appointed by the Crown and an Executive Council, consisting of the Governor and the Ministers of the Crown. The Governor has the power to dissolve the House of Assembly but not the Legislative Council unless that Chamber has twice consecutively with an election intervening defeated the same or substantially the same Bill passed in the House of Assembly by an absolute majority.

Governor: Sir Mark Oliphant, KBE (sworn in 1 Dec. 1971).

The Australian Labor Ministry, at 20 Sept. 1973 was as follows:

Premier and Treasurer: Donald Allan Dunstan, QC, MP. *Deputy Premier, Minister of Works and Minister of Marine:* James Desmond Corcoran, MP. *Chief Secretary, Minister of Lands, Repatriation and Irrigation:* Alfred Francis Kneebone, MLC. *Minister of Education:* Hugh Richard Hudson, MP. *Attorney-General, Minister of Community Welfare:* Leonard James King, QC, MP. *Minister of Transport and Local Government:* Geoffrey Thomas Virgo, MP. *Minister of Agriculture and Forests:* Thomas Mannix Casey, MLC. *Minister of Environment and Conservation, Recreation and Sport, and Fisheries:* Glenn Raymond Broomhill, MP. *Minister of Labour and Industry:* David Hugh McKee, MP. *Minister of Health:* Donald Hubert Louis Banfield, MLC. *Minister of Development and Mines and Minister Assisting the Premier:* Donald Jack Hopgood, MP.

The provision for the payment of Ministers is \$A178,000. They are jointly and individually responsible to the legislature for all their official acts, as in the UK.

Agent-General in London: R. C. Taylor (50 Strand, WC2).

LOCAL GOVERNMENT. The closely settled part of the State (mainly near the sea-coast and the river Murray) is incorporated into local government areas, and subdivided into district councils (rural areas only), municipal corporations (mainly metropolitan, but including larger country towns) and cities (more densely populated areas with a qualification of 15,000 residents in the Adelaide metropolitan area, and 10,000 in the country). The main functions of councils are the construction and maintenance of roads and bridges, and the administration of the Health and Building Acts.

The number and area of the subdivisions, together with revenue expenditure and rateable values (in \$A1,000) for the year ended 30 June 1970, were:

	No.	Area (1,000 hectares)	Roads and bridges	Health and recreation	All other	Assessed values
City of Adelaide	1	1.6	1,507	1,815	5,986	21,152
Remainder of Adelaide statistical division	30	230.5	11,162	4,600	11,100	352,383
Other municipal corpora- tions and district coun- cils	106	14,752.6	9,458	2,359	12,663	146,927
Total	137	14,984.7	22,127	8,774	29,749	520,463

The improved capital value of all property in local government areas is approximately 20 times the above assessed values.

AREA AND POPULATION. The total area of South Australia is 380,070 sq. miles (984,300 sq. km). The settled part is divided into counties and hundreds. There are 49 counties proclaimed, covering 56m. acres, of which 48m. acres are occupied. Outside this area there are extensive pastoral districts, covering 187m. acres, 117m. of which are under pastoral leases.

Census population (exclusive of full-blood Aborigines before 1966):

The number of Aborigines (as reported on Census schedules) in the State at the census of 30 June 1971 was 7,140.

VITAL STATISTICS for calendar years:

	Births	Marriages	Divorces	Deaths
1970	22,617	10,864	939	10,138
1971	22,996	10,833	1,264	9,686
1972	21,844	10,829	1,235	9,764

The infant mortality rate in 1972 was 16.8 per 1,000 live births.

RELIGION. At the census of 1971 the religious distribution of the population (as reported on Census schedules) was as follows: Church of England, 286,754; Methodist, 215,328; Roman Catholic and Catholic (so described), 242,166; Lutheran, 62,641; Presbyterian, 39,920; other Christians, 155,067; non-Christian, 3,183; indefinite, 3,751; no religion, 95,874; no reply, 69,023.

EDUCATION. Education is secular and is compulsory to the age of 15. Primary, secondary and technical education at government schools is free. In 1972 there were 615 government schools, comprising 466 primary, 51 predominantly primary (with some secondary pupils), 70 high and 28 technical high schools. There were 232,812 full-time pupils. The Department of Further Education is responsible for technical education (other than at technical high schools) and for adult and vocational education. In 1972 there were 8 metropolitan and 4 country technical colleges, 17 metropolitan and 10 country adult education centres and a college of external studies. Advanced education, including teacher

education, is provided by 8 colleges of advanced education and tertiary education by 2 universities. There were 163 private schools and colleges, most of which are associated with religious denominations (37,465 pupils) and 145 kindergartens administered by the Kindergarten Union of SA (Inc.). There was also a kindergarten teachers' college.

JUSTICE. There is a Supreme Court, which incorporates admiralty, civil, criminal, matrimonial and testamentary jurisdiction; district criminal courts, which have jurisdiction in many indictable offences; local courts and courts of summary jurisdiction. Circuit courts are held at several places. Bankruptcy jurisdiction is administered by the State Court of Insolvency at Adelaide which is invested with jurisdiction by the Federal Bankruptcy Act. During 1972 there were 577 sequestrations and schemes under the Bankruptcy Act; 964 convictions for felonies and misdemeanours in the higher courts and 123,063 in the courts of summary jurisdiction. The total number of persons in gaols on 30 June 1972 was 933, of whom 824 were prisoners under sentence, and 109 were awaiting trial.

SOCIAL WELFARE. Age, invalidity, war, etc., pensions are paid by the Australian Government. The number of pensioners in South Australia at 30 June 1972 was: War and service, 58,682; age, 80,639; invalid, 12,132. There are schemes for maternity allowances, child endowment, widows, unemployment and sickness and hospital and pharmaceutical benefits. The total amount paid during 1971-72 was \$A186,762,000.

LABOUR. Two systems of industrial arbitration and conciliation for the adjustment of industrial relations between employers and employees are in operation—the State system, which operates when industrial disputes are confined to the territorial limits of the State, and the Commonwealth system, which applies when disputes involve other parts of the Commonwealth as well as South Australia.

The industrial tribunals are authorized to fix minimum rates of wages and other conditions of employment, and their awards may be enforced by law. Industrial agreements between employers and organizations of employees, when registered, may be enforced in the same manner as awards. The Commission fixed the minimum wage in May 1973 at \$A59.60.

FINANCE. Revenue and expenditure (in \$A1,000) for years ended 30 June:

	1968	1969	1970	1971	1972	1973	1974 ¹
Revenue	274,544	298,355	338,498	386,859	455,245	520,866	611,636

¹ Estimates.

The public debt of the State amounted, on 30 June 1973, to \$A1,415.13m. representing \$A1,180 per head of the population.

AGRICULTURE. Of the total area of South Australia (243,244,800 acres), 17m. acres were alienated or in process of alienation under systems of deferred payments, 77m. acres were unoccupied, 150m. acres were held under lease; 14m. acres were under cultivation, on 31 Dec. 1971.

Soil Conservation. Under the direction of special officers in the Department of Agriculture, determined efforts are made to deal with the problems of erosion and soil conservation. Included in the programme are the planting of cereal rye, perennial rye and other grasses to check sand drifts; contour-furrowing and contour banking; contour planting with vines and fruit trees and several water-diversion schemes.

Irrigation. In 1971-72, 76,078 hectares were under irrigated culture, being used as follows: Vineyards, 15,843; orchards, 12,969; vegetables, 6,375, and other crops, 977. These figures are exclusive of 39,914 acres of irrigated pasture land. Most of these areas are along the river Murray.

Gross value of production (in \$A1,000), 1971-72: Crops, 213,206; pastoral, 153,068; dairying, 47,262; fisheries and game, poultry, forestry, bees, 41,427. Total gross value, 454,963; local value (*i.e.*, less marketing costs), 413,184; net value (*i.e.*, less materials used), 342,005.

Fruit culture is extensively carried on, and in 1971-72, 15,381 metric tons of dried fruit and 203,000 metric tons of fresh fruit were produced. Other products, in addition to all kinds of root crops and vegetables, are grass seeds, eucalyptus oil and olive oil. Livestock, March 1973: 1,583,300 cattle, 15,651,300 sheep and 499,500 pigs. In 1972-73, 106,006 metric tons of wool and 424.7m. litres of milk were produced.

MINING. The value of minerals produced in 1972 was \$A122.34m. The principal minerals produced are iron, pyrite, gypsum, salt, talc, clays, limestone, dolomite and sub-bituminous coal.

INDUSTRY. The turnover for manufacturing industries for 1971-72 was, \$A1,941,499,000. The following statistics for 1971-72 are not comparable with factory statistics for years prior to 1968-69.

Industry sub-division	Establishments (No.)	Persons employed (No.)	Wages and salaries (\$A1,000)	Turnover (\$A1,000)	Value added (\$A1,000)

Exports	282,767	300,934	417,030	393,737	394,064	525,348

Principal exports in 1972-73 were (in \$A1,000): Wool, 152,365 (102.8m. kg); lead, 37,374; wheat, 46,251 (924.7m. metric tons); barley, 17,250 (334.4m. metric tons); concentrates and ores, 43,732; skins and hides, 14,532; meats, 35,082; machinery and transport equipment, 62,839; fruit (fresh and dried), 5,216; flour, 2,434; wine, 2,008.

Principal imports in 1972-73 were (in \$A1,000): Machinery, non-electric, 34,321; transport equipment, 25,325; electrical machinery and appliances, 15,252; textile yarn and fabrics, 11,292; wood, timber and cork, 9,658; iron and steel, 7,701; petrol and products, 22,310; crude fertilizers and crude minerals, 4,986; non-metallic mineral manufactures, 6,427.

In 1972-73 the leading suppliers of imports were (in \$A1m.), Japan (40.95), UK (34.97), USA (30.13), Saudi Arabia (15.49); main exports went to Japan (125.69), UK (46.2), USA (39.12), New Zealand (33.51), West Germany (32.29), USSR (31.53).

RAILWAYS. There were (1972) 3,756 miles of railway, including the South Australian portion of the Transcontinental Railway from Port Pirie in South Australia to Kalgoorlie in Western Australia, which, in connexion with various State lines, completes a through rail connexion between Brisbane on the north-east coast and Fremantle on the west coast. It also includes the South Australian portion of the Commonwealth Railway from Port Augusta to the Northern Territory and private railways from Iron Knob to Whyalla and Coffin Bay to Port Lincoln but excludes the line between Cockburn and Broken Hill. In the year ending 30 June 1972 the State-controlled sections carried 13,433,419 passengers and 6m. tons of freight.

ROADS. At 30 June 1972, of the roads customarily used by the public, there were 8,156 miles of proclaimed main roads and 54,719 miles of district roads, totalling 62,875 miles. Lengths of road classified by surface were as follows: Bitumen or concrete, 11,146 miles; gravel or crushed stone, 13,464 miles; formed only, 15,192 miles; unformed, 23,073 miles. Costs of construction and maintenance are shared by the State and Australian governments and by the councils of the local areas. Motor vehicles registered at 30 June 1973 include 362,941 cars, 64,624 station wagons, 91,010 commercial vehicles and 25,673 cycles.

SHIPPING. There are several good harbours, of which Port Adelaide is the principal one. In 1971-72, 1,483 vessels (exceeding 200 net tons) of 9,301,822 tons entered South Australian ports direct from interstate or overseas.

AVIATION. For the year ended 30 June 1972 there were 1,050,104 passengers and 16,113 short tons of freight at Adelaide, South Australia's principal airport. On 30 June 1972 there were 9 government and 20 licensed aerodromes, and 18 scheduled services in South Australia.

POST. Postal, telephone and telegraph facilities are available at 891 offices. Telephone services connected totalled 278,687 on 30 June 1973; on 30 June 1973 there were 17 wireless and 9 television stations; 315,612 wireless listeners' and 339,022 viewers' licences were current (both include combined licences).

BANKING. There were 8 trading banks at 30 June 1973, including the Commonwealth and State Government Banks. In June quarter, 1973, their average deposits were \$A631,273,000 and average advances \$A504,785,000.

The 8 savings banks on 30 June 1973 had deposits amounting to \$A1,060.4m. or \$A833 per head of population.

STATISTICAL INFORMATION. The State branch of the Australian Bureau of Census and Statistics is in Prudential Building, 195 North Terrace, Adelaide (GPO Box 2272). *Deputy Commonwealth Statistician:* D. L. J. Aitchison. Although the first printed statistical publication was the *Statistics of South Australia, 1854* with the title altered to *Statistical Register* in 1859, there is a written volume for each year back to 1838. These contain simple records of trade, demography, production, etc. and were prepared only for the use of the Colonial Office; one copy was retained in the State.

The publications of the State branch include the *South Australian Year Book*, the *Pocket Year Book of South Australia* and the *Statistical Register* (annual) and a duplicated *Monthly Summary of Statistics*, a duplicated quarterly bulletin of building constructions, duplicated quarterly bulletins of trade statistics and approximately 25 special duplicated bulletins issued each year as particulars of various sections of statistics become available.

WESTERN AUSTRALIA

HISTORY. In 1791 Vancouver, in the *Discovery*, took formal possession of the country about King George Sound. In 1826 the Government of New South Wales sent 20 convicts and a detachment of soldiers to King George Sound and formed a settlement then called Frederickstown. In 1827 Captain (afterwards Sir) James Stirling surveyed the coast from King George Sound to the Swan River, and in May 1829 Captain (afterwards Sir) Charles Fremantle took possession of the territory. In June 1829 Captain Stirling, newly appointed Lieut.-Governor, founded the colony now known as the State of Western Australia. On 1 Jan. 1901 Western Australia became one of the 6 federated States within the Commonwealth of Australia.

CONSTITUTION AND GOVERNMENT. In 1870 partially representative government was instituted, and in 1890 the administration was vested in the Governor, a Legislative Council and a Legislative Assembly. The Legislative Council was, in the first instance, nominated by the Governor, but it was provided that in the event of the population of the colony reaching 60,000, it should be elective. In 1893 this limit of population being reached, the Colonial Parliament amended the constitution accordingly.

The Legislative Council consists of 30 members, 2 members representing each of the 15 electoral provinces. Each member is elected for a term of 6 years, one-half of the members retiring every 3 years.

There are 51 members of the Legislative Assembly, each member representing one of the 51 electoral districts of the State. Members are elected for the duration of the Parliament, normally 3 years. The qualifications applying to candidates and electors are identical for the Legislative Council and the Legislative Assembly. A candidate must have resided in Western Australia for a minimum of 12 months, be at least 18 years of age and free from legal incapacity, be a British subject, and be enrolled, or qualified for enrolment, as an elector. A judge of the Supreme Court, the Sheriff of Western Australia, a minister of religion, an undischarged bankrupt or a debtor against whose estate there is a subsisting order in bankruptcy may not be elected to Parliament. No person may hold office as a member of the Legislative Assembly and the Legislative Council at the same time. An elector must be at least 18 years of age, be a British subject free from legal incapacity, must have resided in the Commonwealth of Australia for 6 and in Western Australia for 3 months continuously and in the electoral district for which he claims enrolment for a continuous period of 1 month immediately preceding the date of his claim. Enrolment is compulsory for all qualified persons except Aboriginal natives of Australia, who are entitled but not required to enrol. Voting at elections is on the preferential system and is compulsory for all enrolled persons.

Ordinary members of the legislature are paid a salary of \$A10,436 a year, with additional allowances, ranging from \$A2,000 to \$A4,100 according to location of electorate. Members are entitled to free travel on Western Australian government railways and, by arrangement, once every year on government railways in other States. All members of Parliament contribute to superannuation benefits.

The Premier receives a salary, including electorate allowance, of \$A24,166, the Deputy Premier \$A21,361, the Leader of the Government in the Legislative Council \$A20,341, and all other Ministers \$A19,066–21,166 according to location of electorate.

The Legislative Assembly, elected on 20 Feb. 1971, is composed as follows: Australian Labor Party, 26; Liberal Party, 18; Country Party, 7. The Legislative Council, one-half of which was elected on the same day, is composed of 10 Australian Labor Party, 13 Liberal Party, 7 Country Party.

Governor: Air Cmdre Hughie Idwal Edwards, VC, CB, DSO, OBE, DFC (sworn in 7 Jan. 1974).

The Australian Labor Party Cabinet was, in Dec. 1973, constituted as follows:

Premier, Treasurer and Minister for Cultural Affairs: John Trezise Tonkin, MLA.

Deputy Premier and Minister for Development and Decentralization: Alexander Donald Taylor, BA, MLA. *Minister for Recreation, Attorney-General and Assistant to the Treasurer:* Thomas Daniel Evans, MLA. *Minister for Education, Transport and Railways and Leader of the Government in the Legislative Council:* John Dolan, MLC. *Minister for Mines, Electricity and Fuel:* Donald George May, MLA. *Minister for Works, Water Supplies and Traffic Safety:* Colin John Jamieson, MLA. *Minister for Lands, Agriculture and Forests:* Hywel David Evans, BA, MLA. *Minister for Environmental Protection, Health and Town Planning:* Ronald Davies, MLA. *Minister for Labour, Immigration, Prices Control and Consumer Protection:* John Joseph Harman, MLA. *Minister for Local Government and Chief Secretary:* Robert Henry Claude Stubbs, MLC. *Minister for Housing, Fisheries and Fauna and the North-West:* Arthur William Bickerton, MLA. *Minister for Police, Community Welfare and Tourism:* Ronald Thompson, MLC.

Agent-General in London: W. S. Bovell (Western Australia House, 115 Strand WC2R 0AJ).

LOCAL GOVERNMENT. The only unincorporated area in mainland Western Australia is King's Park, a public reserve of about 1,000 acres in Perth. Including the lord-mayorality of Perth there were 7 cities (all in the metropolitan area), 13 towns and 118 shires at 31 Dec. 1973. The executive body in each of these districts is normally an elective council, presided over by a mayor (city and town) or a president (shire), but in certain circumstances it may be a commissioner appointed by the Governor. Their functions include road construction and repair, the provision of parks and recreation grounds, the administration of building controls and local services such as health and, in some country districts, traffic. Finance is derived largely from rates levied on property owners as well as charges for services and government grants (mainly for road construction).

AREA AND POPULATION. Western Australia lies between 113° 09' and 129° E. long. and 13° 44' and 35° 08' S. lat.; its area is 975,920 sq. miles (2,527,629 sq. km.).

The enumerated population at each census from 1911 was as follows¹:

	Males	Females	Total		Males	Females	Total
1911	161,565	120,549	282,114	1954	330,358	309,413	639,771
1921	177,278	155,454	332,732	1961	380,740	366,010	746,750
1933	233,937	204,915	438,852	1966	432,569	415,531	848,100
1947	258,076	244,404	502,480	1971	529,066	501,403	1,030,469

¹ Until 1961 figures exclude persons with more than one-half Aboriginal blood.

Of the census population in 1971, 747,196 were born in Australia. Married persons numbered 465,842 (234,605 males and 231,237 females); widowers, 8,681; widows, 35,131; divorced, 5,732 males and 5,313 females; never married, 272,670 males and 222,343 females. The number of males under 21 was 217,724, and of females 205,636.

Perth, the capital, had a population of 723,500 at 30 June 1973. This includes the City of Perth (central city and suburbs) with a population of 95,900 and the chief port of the State, the City of Fremantle, with a population of 25,700.

Principal towns outside the metropolitan area, with population at 30 June 1972: Kalgoorlie-Boulder, 21,100; Bunbury, 18,650; Geraldton, 15,800; Albany, 13,300; Port Hedland, 8,000; Northam, 7,050; Collie, 6,600; Mandurah, 5,200; Esperance, 5,150; Busselton, 5,100; Narrogin, 4,800.

VITAL STATISTICS for calendar years¹:

1970	21,618	2,316	9,227	889	7,543
1971	24,239	2,720	9,382	1,064	7,806
1972	22,177	2,632	9,120	1,243	7,441

¹ Including Aborigines.

RELIGION. There is no State Church, and freedom of worship is accorded to all. At the census, 30 June 1971, the principal denominations were: Church of England, 362,759; Roman Catholic, 174,792; Catholic (not further defined), 93,198; Methodist, 85,283; Presbyterian, 48,367; Churches of Christ, 13,436; Orthodox, 13,491; Baptist, 13,345; Congregational, 8,258; Lutheran, 6,998; Salvation Army, 6,070; Seventh-day Adventist, 4,819; other Christian, 39,062; Hebrew, 3,102; all other, including not stated and no religion, 157,489.

EDUCATION. School attendance is compulsory from the age of 6 until the end of the year in which the child attains 15 years. Pre-school education is provided by a kindergarten system partly financed from government subsidy. In 1972 there were 606 government primary and secondary schools providing free education to 183,539 pupils and 197 non-government primary and secondary schools providing education, for which fees are charged, to 41,910 pupils.

Technical education is available at The Western Australian Institute of Technology; the Perth Technical College and a number of other technical colleges, schools and centres, which are staffed and controlled by the Education Department.

In 1973 the full-time teaching and research staff of the University of Western Australia was 547 and the number of students enrolled was 9,077.

State Government expenditure from consolidated revenue on education, including financial assistance to the University, during the year ended 30 June 1973, amounted to \$A116,618,544.

JUSTICE. In Western Australia justice is administered by a Supreme Court, consisting of a Chief Justice and 6 puisne judges at 31 Dec. 1973, a District Court comprising a chairman of judges and 4 district court judges at 31 Dec. 1973, and magistrates' courts exercising both civil and criminal jurisdiction. The lower courts are presided over by justices of the peace, except in the more important centres, where the court is constituted by a stipendiary magistrate. There are special magistrates' courts for juvenile offenders.

⁴ Distinct persons convicted.

The total number of admissions to prison for penal imprisonment in the year ended 30 June 1972 was 8,721. Inmates at 30 June 1972 numbered 1,187 males and 82 females.

SOCIAL WELFARE. At 30 June 1973 there were 4 geriatric hospitals and 47 general hospitals maintained wholly by public funds, while 2 geriatric and 61 general hospitals were assisted therefrom. In addition, there are numerous private

hospitals. Government mental health services comprise 4 approved hospitals, 9 clinics, 3 rehabilitation units, 10 units concerned with the mentally deficient and 3 after-care hostels.

The Department of Community Welfare institutional facilities include 2 reception homes for the temporary care and assessment of children, a secure remand and assessment centre, a secure training centre for delinquent boys, a treatment and rehabilitation centre for girls, a long-term residential treatment centre for emotionally disturbed boys and girls and 4 hostels for working teenage boys and girls. The Department also runs a training centre, in a farm-like setting, for less delinquent boys who do not require placement in a closed institution.

Some 17 institutions caring for children are financed partly from private sources and partly from Government funds, and all but 2 are conducted by religious organizations. In addition, the Department for Community Welfare has 26 missions and 29 hostels under its control. These provide accommodation and training for people of Aboriginal descent.

Through the Department, the State Government makes financial assistance available to people in necessitous circumstances, in many cases supplementing social-service pension income provided by the Australia Government.

At 30 June 1973, 2,947 families were receiving assistance.

Aborigines throughout the State are afforded the same educational, hospital and medical facilities provided for the general community.

Age, invalid, widows' and war and service pensions are paid by the Australian Government. The number of pensioners in Western Australia at 30 June 1973 was: Age, 68,701; invalid, 9,518; widows, 7,948; and war and service pensioners and dependants, 53,692.

LABOUR. The Industrial Arbitration Act Amendment Act (No. 2), 1963, which came into operation on 1 Feb. 1964, abolished the Court of Arbitration and established The Western Australian Industrial Commission and the Western Australian Industrial Appeal Court.

The commission consists of a chief industrial commissioner and 4 other commissioners. A commissioner sitting or acting alone constitutes the commission and may exercise all its powers and jurisdiction, except that which is reserved to the commission in court session. The commission in court session is constituted by not less than 3 commissioners sitting or acting together; in addition to other functions, it hears and determines appeals from decisions of a single commissioner.

Working conditions in the State are governed by decisions of the commission, which is also empowered to declare a State basic wage, subject to regular review, and to determine wage rates, including a minimum wage, for all awards under its jurisdiction. Basic wage rates which came into operation on 17 Sept. 1973 are \$A44 for males and \$A39 for females.

The Western Australian Industrial Appeal Court consists of 3 judges, one of whom is president of the court. An appeal lies to the court from any decision of the commission or the commission in court session, but only on the ground that such decision is erroneous in law or in excess of jurisdiction.

Under the Act unions and associations of employees and of employers may be registered and the Act confers upon these bodies the right of approaching the commission in connexion with industrial disputes. There were 92 employees' and 13 employers' bodies registered at 30 June 1973; the former comprising 157,175 and the latter 1,777 members.

FINANCE. The revenue and expenditure (in \$A) of Western Australia in years ended 30 June, are given as follows:

	1971	1972	1973	1974 ¹
Revenue	367,251,642	423,998,741	473,840,018	546,427,000

Irrigation has been established by the Government along the south-western coastal plain and in the north of the State. Reservoirs with an aggregate capacity of 6,095 cu. metres provided irrigation. Dairying and stockraising activities account for about 80% of the area irrigated throughout the irrigation regions, and cotton growing, vegetable growing (including potatoes), fruit cultivation and experimental crops for the remaining 20%.

The livestock at 31 March 1973 consisted of 2,182,411 cattle, 30,919,180 sheep and 476,316 pigs.

The wool clip in 1972-73 was 147,355 metric tons; the exports for 1972-73, greasy wool, 136,445 metric tons; degreased wool, 10,394 metric tons.

FORESTRY. The area of State forests and timber reserves at 31 Dec. 1972 was 2,173,490 hectares; 1971-72 production of sawn timber was approximately 404,947 cu. metres, principally Jarrah and Karri hardwoods.

MINING. The mining industry has been for many years of considerable significance in the Western Australian economy. Until the mid-1960s the major mineral produced was gold. However, in recent years gold has been displaced by iron ore, crude oil and nickel in terms of value.

The total ex-mine value of minerals from mining and quarrying in the State in 1971-72 was \$A510,353,000. Principal minerals produced in 1971-72 were: Iron ore, 51.83m. tons, value \$A316,387,000; crude oil, 15,976,000 bbls, value \$A32,111,000; gold bullion, 462,000 oz., value \$A14.9m.; construction materials (excluding sand and gravel), value \$A13.57m.; mineral sands, 749,000 tons, value, \$A10,927,000; black coal, 1,169,000 tons, value \$A5,855,000; salt, 2,573,000 tons, value \$A7,695,000; tin concentrates, 1,434 tons, value \$A2,808,000; manganese ore, 110,000 tons; nickel concentrates, 294,000 tons; bauxite, 4,741,000 tons, and natural gas, 10,517m. cu. ft.

INDUSTRY. There were 2,727 manufacturing establishments operating in the State at 30 June 1972. The number of persons (including working proprietors) employed by them in the last pay-period in June 1972 was 64,338. The turnover of these establishments for the year was computed at \$A1,240m., while the value added in the course of manufacture was \$A472m.

The estimated gross value of Western Australian primary production (excluding mining) during 1971-72 was as follows: Agricultural, \$A215,997,673; pastoral and trapping, \$A200,280,529; dairy, poultry and bee-farming, \$A45,169,703; forestry and fisheries, \$A45,476,872.

HOUSING. The State Housing Commission was established in Jan. 1947 to replace the Workers' Homes Board created in 1912. The objects of the Commission are 'the improvement of existing housing conditions' and 'the provision of adequate and suitable housing accommodation for persons of limited means and certain other persons not otherwise adequately housed'. The Commission provided 2,207 new dwelling units for sale and for rental in 1972-73. During the same period 13,780 new houses and 920 new flats were completed throughout the State.

COMMERCE. The external commerce of Western Australia, exclusive of interstate trade, is comprised in the statement of the commerce of Australia given under the heading of the Commonwealth, *see pp. 157-58.*

The total value of the imports and exports, including interstate trade in 5 years (30 June) is, in \$A, as follows:

	1967-68	1968-69	1969-70	1970-71	1971-72
Imports	734,031,213	765,845,661	882,487,348	1,005,122,323	1,071,050,510

¹ Excluding ships' stores.

Selected exports (in \$A) for 1971-72: Wool, 123,176,283; wheat, 128,132,346; iron ore, 347,500,262; petroleum and petroleum products, 41,932,056; gold bullion, 4,125,265; rock lobster tails, 24,625,574; beef and veal, 22,528,117; iron and steel, 36,414,730; timber, 6,439,732; hides and skins, 5,355,672; apples, 4,118,421; transport equipment, 14,510,066; barley, 36,005,969; salt, 6,468,861; mutton and lamb, 17,644,626.

Selected imports in 1971-72 (in \$A): Machinery, 230,067,656; transport equipment, 180,652,759; textiles and apparel, 105,260,976; iron and steel, 67,674,230; petroleum and petroleum products, 58,810,903; chemicals, 84,369,840; food, 79,897,181; rubber and rubber manufactures, 27,648,716; beverages and tobacco, 24,232,855.

The chief countries exporting to Western Australia were (in \$A): UK, 53,855,857; Japan, 53,019,242; USA, 45,953,128; Singapore, 14,523,473; Canada, 11,139,470; Iraq, 11,016,954. Western Australian exports (in \$A) went chiefly to: Japan, 457,347,425; USA 81,131,127; UK, 58,496,270; West Germany, 44,600,226; Singapore, 25,802,307; Egypt, 20,389,239.

SHIPPING. In 1971-72, the number, net tonnage of vessels entering and cargo shipped at major ports were as follows: Port of Fremantle, 1,524 vessels of 11-66m. net tonnage, 6-82m. cargo tonnage shipped; Dampier, 396 vessels of 6-52m. net tonnage, 18-63m. cargo tonnage shipped; Port Hedland, 546 vessels of 8-72m. net tonnage, 25-84m. cargo tonnage shipped; Yampi, 149 vessels of 1-31m. net tonnage, 3-09m. cargo tonnage shipped.

ROADS. At 30 June 1972 there were 62,766 miles of prepared and formed roads in Western Australia, namely, 17,646 miles of bituminous surface, 18,350 other constructed surfaces and 26,769 formed but not metalled or otherwise prepared. In addition, there are approximately 36,857 miles unprepared except for clearing which are used for general traffic. New motor vehicles registered in Western Australia during the year ended 31 Dec. 1972 were 49,313.

RAILWAYS. At 30 June 1973 the State had 3,833 miles of State government railway and 454 miles of Commonwealth line, the latter being the western portion of the Trans-Australian line (Kalgoorlie-Port Pirie), which links the State railway system to those of the other States of the Commonwealth. At 30 June 1972, mining companies operated 518 miles of private railways for the transport of ore to ports on the north-west coast.

AVIATION. An extensive system of regular air services operates in Western Australia for the transport of passengers, freight and mail. During the year ended 31 Dec. 1972, Perth Airport handled a total of 13,595 aircraft movements, 10,511 short tons of freight and 629,258 passengers on domestic and international services.

POST. Postal, telephone and telegraph facilities are afforded at 582 offices. An additional 141 offices provide only telephone and telegraph facilities. Telephones connected totalled 325,851 at 30 June 1973. There are 29 wireless broadcasting and 13 television stations; and 28,465 listeners', 48,062 viewers' and 182,979 combined receiving licences were current at 30 June 1973.

MONEY AND BANKING. A branch of the Royal Mint was opened at Perth in 1899. Control of the Mint passed to the State on 1 July 1970, from which date it operates under the name of 'The Perth Mint'. To 31 Dec. 1972 production of coins was: Gold, \$A213,503,070 (minting discontinued in Sept. 1931); silver, \$A131,600 (minting discontinued in 1946); bronze, \$A11,145,036 (minting discontinued in 1968); and of bullion; gold, \$A281,063,904; silver, \$A8,047,076.

There are 9 trading banks in Western Australia including the Commonwealth Trading Bank and The Rural and Industries Bank of Western Australia. In Sept. quarter, 1973, the average of customers' balances was \$A738.9m. and average advances \$A550.6m.

At 30 Sept. 1973, the 8 savings banks held deposits of \$A650.7m., in 1,254,155 accounts.

TASMANIA

HISTORY. Abel Janzoon Tasman discovered Van Diemen's Land (Tasmania) on 24 Nov. 1642. The island became a British settlement in 1803 as a dependency of New South Wales; in 1825 its connexion with New South Wales was terminated; in 1851 a partially elective Legislative Council was established, and in 1856 responsible government came into operation. On 1 Jan. 1901 Tasmania was federated with the other Australian states into the Commonwealth of Australia.

CONSTITUTION AND GOVERNMENT. Parliament consists of the Governor, the Legislative Council and the House of Assembly. The Council has

19 members, elected by adults with 6 months' residence. Members sit for 6 years, 3 retiring annually and 4 every sixth year. There is no power to dissolve the Council. Vacancies are filled by by-elections. The House of Assembly has 35 members; the current term for the House of Assembly is 5 years, subsequent House of Assembly terms will be 4 years. Members of both Houses are paid a salary of \$10,217, plus an electorate allowance, according to the division represented. The annual amounts vary from \$A1,124 (Queenborough) to \$A2,656 (Russell) in the Council and from \$A1,533 (Denison) to \$A3,576 (Wilmot) in the Assembly. Women received the right to vote in 1903. Proportional representation was adopted in 1907, the method now being the single transferable vote in 7-member constituencies. Casual vacancies in the House of Assembly are determined by a transfer of the preference of the vacating member's ballot papers to consenting candidates who were unsuccessful at the last general election.

A Minister must have a seat in one of the two Houses; only one of the present Ministers is a member of the Legislative Council.

In addition to the salary paid to Ministers as members of either House, the following allowances are payable: Premier, in conjunction with a ministerial office, \$A12,771 plus entertainment allowance \$A1,226; Deputy Premier, in conjunction with a ministerial office, \$A8,684; Ministers, \$A7,152; Leader of the Opposition, \$A7,152.

On 13 March 1972 the Liberal-Centre Party coalition government was dissolved. At the subsequent election on 22 April 1972, 21 Labor and 14 Liberal members were returned to the House of Assembly.

The Legislative Council is predominantly independent without formal party allegiance; 2 members are Labor-endorsed.

Governor Designate: Sir Stanley Burbury, KBE.

The Cabinet led by E. E. Reece is composed as follows:

Premier, Treasurer and Minister of Mines: E. E. Reece.

Deputy Premier, Attorney-General, Environment, Racing and Gaming: M. G. Everett, QC. *Education:* W. A. Neilson. *Chief Secretary, Transport:* N. L. C. Batt. *Agriculture, Fisheries:* L. E. A. Castello. *Lands and Works, Local Government:* M. T. C. Barnard. *Industrial Development, Forests, Minister in Charge of Hydro-Electric Commission and Minister Assisting the Treasurer:* R. F. Fagan. *Health, Social Welfare, Road Safety:* A. J. Foster. *Housing:* D. A. Lowe. *Tourism, Police, Licensing:* B. K. Miller.

Agent-General in London: R. R. Neville.

Official Secretary: R. J. Garrad, OBE (458/9 Strand, WC2).

LOCAL GOVERNMENT. For the purposes of local government, the State is divided into 49 municipal areas comprising the cities of Hobart, Launceston and Glenorchy and 46 municipalities. The cities and municipalities are managed by elected aldermen and councillors respectively with reference to local matters such as sanitation and health services, domestic water supplies and roads and bridges within each particular area. The chief source of revenue is rates, derived from capital values and levied on owners of property. A government-appointed commission is currently preparing a report on local government.

AREA AND POPULATION. Area (including islands) 68,331 sq. km, or about 6,833,108 hectares, of which 6,440,810 hectares form the area of the main island. The population at 9 consecutive censuses was:

	Population	Increase % per annum		Population	Increase % per annum
1901	172,475	1.64	1954	308,752	2.65
1911	191,211	1.04	1961	350,340	1.82
1921	213,780	1.12	1966	371,435	1.18
1933	227,599	0.52	1971	390,413	1.01
1947	257,078	0.87			

The census population on 30 June 1971 consisted of 196,442 males and 193,971 females; 5.8% were natives of the British Isles, 3.3% natives of other European countries and 90.1% natives of Australia and New Zealand, almost exclusively of European ancestry. The last Tasmanian Aboriginal died in 1876.

Estimated population at 30 June 1972 was 392,180. Principal urban areas: Urban Hobart, 130,980; urban Launceston, 62,250; urban Burnie-Somerset, 20,380; urban Devonport, 18,630.

VITAL STATISTICS for calendar years:

	Marriages	Divorces	Births	Deaths	Natural increase
1970	3,535	426	8,185	3,174	5,011
1971	3,578	432	8,321	3,295	5,026
1972	3,426	446	7,824	3,227	4,597

RELIGION. There is no State Church. At the census of 1971 the following numbers of adherents of the principal religions were recorded:

Church of England	169,089	Churches of Christ	2,500
Roman Catholic	77,250	Other religions	24,490
Methodist	42,173	Not stated ¹	45,457
Presbyterian	17,281		
Baptist	8,039	Total	390,413
Congregational	4,134		

¹ Includes 993 whose religion was indefinite and 20,221 who stated 'no religion'.

EDUCATION. Education is controlled by the State and is free, secular and compulsory between the ages of 6 and 16. At 1 Aug. 1972 government schools had a total enrolment of 79,957 pupils, including 28,541 at secondary level; private schools had a total enrolment of 14,098 pupils, including 6,283 at secondary level.

The University of Tasmania, established 1890, had 248 full-time teachers with 3,263 students in 1973. University expenditure in 1972 (exclusive of capital expenditure) was \$A6.9m.

JUSTICE. The Supreme Court of Tasmania, with civil, criminal, ecclesiastical, admiralty and matrimonial jurisdiction, established by Royal Charter on 13 Oct. 1823, is a superior court of record, with both original and appellate jurisdiction, and consists of a Chief Justice and 4 puisne judges. There are also inferior civil courts with limited jurisdiction, licensing courts, mining courts, courts of petty sessions and coroners' courts.

During the year 1972, 35,504 persons were summarily convicted in lower courts (18,371 for traffic offences) and 1,418 persons were committed for trial in the Supreme Court. The total police force on 30 June 1972 was 879. There was one gaol, with 381 inmates at the end of June 1972.

SOCIAL WELFARE. Old Age, Invalid, War Service and Widows' Pensions are paid by the Commonwealth Government. The number of pensioners in Tasmania on 30 June 1972 was: Age, 29,107; invalid, 4,855; war, 21,905; widows, 3,600. Benefit payments in Tasmania during 1971-72 for all Commonwealth social and health services totalled \$A53m. (excluding pensions to ex-servicemen and women, \$A11.9m.).

LABOUR. The Commonwealth Industrial Court (judicial powers) and Commonwealth Conciliation and Arbitration Commission (arbitral powers) have jurisdiction over federal unions, *i.e.*, with interstate membership. The Arbitration Commission hears national wage cases annually, the metal trades award being the test case; in June 1967 it abolished the concept of the basic wage and made an award in terms of total wage; in June 1969 it adopted the principle of equal pay for equal work for females.

Most Tasmanian employees not covered by federal awards operate under State Wages Boards established for the various trades by resolution of Parliament or proclamation of the Governor. Each Board consists of a Chairman appointed by the Governor with equal representation of employers and employees. The

Boards have authority over minimum rates for wages or piece work, number of working hours for which the wage is payable, conditions of apprenticeship, annual leave and adjustment of wage and piece-work rates. Wages Boards follow to a large extent the wage rates fixed by the Conciliation and Arbitration Commission; in Oct. 1968, Dec. 1969, Jan. 1971, May 1972 and May 1973 they followed the quantum of increase fixed by the Commonwealth Commission but did not abolish the basic wage concept.

FINANCE. The revenue is derived chiefly from taxation (motor, land, stamp and death duties), and from grants and reimbursements from the Commonwealth. Customs, excise, sales and income tax are in the hands of the Commonwealth, which makes grants to Tasmania for both revenue and capital purposes. Revenue grants include amounts, in addition to those determined by application of a formula to allow for the higher cost in Tasmania of providing government services commensurate with those provided in the larger States. Principal Commonwealth grants taken into revenue amounted to \$A98.39m. in 1972-73.

Budgets, in \$A1,000, for financial years ending 30 June:

	1967-68	1968-69	1969-70	1970-71	1971-72	1972-73
Revenue	100,563	107,846	123,819	138,229	157,782	181,866
Expenditure	102,413	111,540	121,004	138,207	160,237	185,998

The public debt at current exchange rates amounted to \$A752m. at 30 June 1973.

In 1972-73 State taxation receipts amounted to \$A35.89m., of which pay-roll tax provided \$A11.86m.; motor vehicles, \$A5.91m.; death duties, \$A3.23m.; land tax, \$A2.96m., and other stamp duties, \$A6.89m.

PRIMARY INDUSTRIES. The estimated gross value of recorded production from primary industries in 1971-72 was (in \$A1,000): Agriculture, 35,870; pastoral, 40,554; dairying, 32,103; poultry and bees, 5,790; forestry, 21,927; fisheries and hunting, 7,067; total gross value, 143,312 (excluding mining).

AGRICULTURE. The area occupied by the 9,807 holdings in 1971-72 totalled 2,606,934 hectares, of which 150,173 were devoted to crops. The following table shows the area and production of the principal crops:

	1970-71		1971-72		1972-73 ¹

¹ Preliminary.

Livestock at 31 March 1972: Sheep, 4.2m.; cattle, 829,000; pigs, 104,000.

Wool produced during 1971-72 was 21.1m. kg, valued at \$A18m. In 1971-72 butter production was 15,321 metric tons; cheese, 5,904 metric tons.

The net value of rural production during 1969-70 was \$A74.16m.

FORESTRY. Indigenous forests cover a considerable part of the State, and the saw-milling industry is very important. Production of sawn timber in 1972-73 was 416,290 cu. metres. Newsprint and paper are produced from native hardwoods, principally eucalypts.

MINING. The assayed content of principal metallic minerals contained in locally produced concentrates for 1971-72 was (metric tons): Zinc, 72,129; iron 1,505,202; copper, 26,603; lead, 22,684; tin, 6,469; gold, 1,983,000 grammes; silver, 83,118,000 grammes. Coal production (1971-72), 121,302 metric tons.

MANUFACTURES. The most important manufactures for export are refined metals, newsprint and other paper manufactures, pigments, woollen goods, fruit pulp and jam, confectionary, butter, preserved and dried vegetables, sawn timber, iron ore pellets and processed fish products. The electrolytic-zinc works at Risdon near Hobart treat large quantities of local and imported ore, and produce zinc, sulphuric acid, superphosphate, sulphate of ammonia, cadmium and other by-products. At George Town, large-scale plants produce refined aluminium and manganese alloys. During 1971-72, 1,213,000 metric tons (green weight) of woodchips were produced; this increased to 2,191,000 metric tons in 1972-73. Until Aug. 1972 woodchips were only exported through the east coast port of Triabunna. A second port, Longreach on Tamar River, commenced exporting woodchips in Sept. 1972 and 2 terminals are now operating there. In 1971-72 the number of industrial establishments was 931; employees, 30,936; sales, \$A595m.; wages and salaries (excluding proprietors drawings), \$A121m; cost of materials etc. used, \$A359m.; value added, \$A245m.

POWER. Tasmania has plentiful supplies of hydro-electric power because of assured rainfall and high level water storages (natural and artificial). The Hydro-Electric Commission, Tasmania's sole commercial supplier of electricity, has been surveying water power resources of the State for many years and it is estimated that about 3m. kw. can be economically developed. In 1973, 1,322,400 kw. of generating plant was in commission. In 1972 the peak loading was 842,900 kw. and average load factor of 75%. Completion of Gordon River Scheme, Stage 1, will bring the generating capacity to 1.7m. kw. by 1976. The major construction project is the Gordon River scheme involving the construction of Australia's largest artificial water storage (combined area of the 2 lakes will be over 1,000 sq. km) and one of the nation's largest dams. Water will be carried from the Lake Gordon storage by a near vertical shaft to the power station 816 metres underground, which is designed to be operated by remote control from Hobart, 161 km away. Generator capacity of the Gordon River (Stage 1) scheme is 240,000 kw.

TOURISM. In the year ended 31 Dec. 1972 an estimated 220,000 tourists visited Tasmania and contributed some \$A21m. to the gross income of the State. The tourist industry is expected to develop rapidly in the coming decade and various government measures have been aimed at promoting the industry.

COMMERCE. Commerce by sea and air in \$A1m. for years ending 30 June:

	1967-68	1968-69	1969-70	1970-71	1971-72
Imports	285.2	300.0	325.0	334.5	341.9
Exports	337.5	393.4	455.8	448.0	510.9

In 1971-72 imports by sea and air from other Australian States totalled \$A302.2m.; from the UK, \$A6.9m.; from New Zealand, \$A5.8m.; from Japan, \$A5m.; from USA, \$A4.7m.; from other countries, \$A17.3m. Exports to other Australian States amounted to \$A332m.; to Japan, \$A56m.; to the UK, \$A29.6m.; to USA, \$A27.1m.; to other countries, \$A66.2m.

Principal imports, 1971-72, in \$A1m.: New motor vehicles, 35.1; machinery, 34.5; petroleum products, 27.3; clothing, 15.1; tobacco and cigarettes, 13.2. Principal exports: Ores and concentrates, 88.5; refined zinc, 55.1; woollen manufactures, 29.9; timber, 17.4; greasy wool, 17.2; preserved vegetables, 16; fresh fruit, 11.2, and confectionary, aluminium, newsprint and fine papers, wood-pulp for paper making, Portland cement, woodchips, ferro-manganese and titanium oxides.

ROADS. The road length is about 20,697 km, consisting of a classified road system of 3,152 km maintained by the State Department of Public Works, and the remainder maintained by local government authorities, the Forestry Commission and the Hydro-Electric Commission. Motor vehicles registered at 30 June 1972 comprised 132,000 cars, 36,000 commercial vehicles and 4,000 motor cycles.

SHIPPING. The most important development has been the introduction of roll-on roll-off ferries and freighters, allowing door-to-door delivery between Tasmanian and mainland ports.

For railways, posts and telegraphs, *see* COMMONWEALTH OF AUSTRALIA, pp. 159-60.

AVIATION. Regular daily passenger and freight air services connect the south, north and north-west of the State with the mainland of Australia. Statistics of regular air transport services for the year 1971-72 are as follows: Miles flown, 5.2m.; passengers carried, 580,661; freight carried, 18,017 short tons; mail carried, 356 short tons.

BANKING. Trading bank activity in Tasmania is divided between 6 private banks and the Commonwealth Bank of Australia. For the month of June 1973 liabilities represented by depositors' balances averaged \$Am172. and assets represented by advances, \$A107m. The 9 savings banks operating in Tasmania are the Commonwealth Savings Bank, 2 trustee savings banks and 6 private savings banks operated by trading banks. At 30 June 1973 total savings bank deposits were \$A290m. or approximately \$A729 per head of population.

Tasmanian Islands. Three inhabited Tasmanian islands (Bruny, King and Flinders) are organized as municipalities. Nearly 1,600 km south-east lies Macquarie Island, part of the State, and used only as an Australian research base and meteorological station.

THE COMMONWEALTH OF THE BAHAMAS

AREA AND POPULATION. The Commonwealth of the Bahamas consists of 700 islands and more than 1,000 cays off the S.E. coast of Florida. They are the surface protuberances of two oceanic banks, the Little Bahama Bank and the Great Bahama Bank. Land area, 5,386.25 sq. miles (13,590 sq. km). The total rainfall (New Providence) in 1972 was 48.57 in.; highest in July (10.01 in.). Average winter temperature, 69.9° F. (21.1° C.); average summer temperature, 82.8° F. (28.2° C.).

Principal islands with census population in 1970: New Providence (101,503, containing capital, Nassau), Abaco (6,501), Harbour Island and Spanish Wells (3,221), Grand Bahama (25,859), Cat Island (2,657), Long Island (3,861), Mayaguana (581), Eleuthera (6,247), Exuma (3,767), San Salvador or Watling's Island (776), Acklin's Island (936), Crooked Island (689), Inagua (1,109), Andros (8,845), Bimini (1,503), Ragged Island (208).

Total census population, 1970, 168,812. Vital statistics, 1972: Births, 4,080; deaths, 1,172 (excluding 103 still-births); marriages, 1,233.

CONSTITUTION AND GOVERNMENT. Internal self-government with cabinet responsibility was introduced on 7 Jan. 1964. There is a Senate of 16 members and a House of Assembly of 38 elected members. Nine senators are appointed by the Governor on the advice of the Premier, 4 on the advice of the Leader of the Opposition and 3 at the Governor's discretion. The General Assembly Elections Act, 1959, as amended provides for universal adult suffrage. Persons of 18 years and over who hold Bahamian status are eligible to register and vote. The normal life of the House is 5 years, but it may be dissolved at any time by the Governor on the advice of the Prime Minister.

At the elections of 19 Sept. 1972 the Progressive Liberal Party obtained 30 seats and the Free National Movement 8 seats.

Independence from Britain took place 10 July 1973.

Governor-General: Sir Milo B. Butler, GCMG.

Prime Minister and Minister of Economic Affairs: Lynden O. Pindling.

EDUCATION (1972). Education is compulsory between the ages of 5 and 14. There are 173 state-maintained primary and all-age schools with a total roll of just over 30,000; 13 government secondary and grammar schools with a total roll of 14,302 pupils; and 42 denominational and private schools (infant, primary and secondary) with a total roll of 13,898 pupils. Government expenditure B\$22.3m.

CINEMAS (1972). There are 19 cinemas and 3 drive-ins.

NEWSPAPERS (1972). There are 2 daily newspapers in Nassau with a combined circulation of approximately 111,000 per week.

JUSTICE (1971). 11,167 cases (traffic, 3,718; criminal, 4,295; civil, 1,999; domestic, 1,155) were dealt with in the magistrates' court, and criminal, 107; civil, 864; divorce, 125; adoption, 51 in the Supreme Court in 1970. The strength of the police force (1971) was 276 officers and 630 other ranks.

FINANCE. Currency. A decimal system of currency was introduced in 1966 with the Bahamian \$ equalling 41p sterling or US cents 98. Notes: \$0.50, 1, 3, 5, 10, 20, 50, 100; coins: 1, 5, 10, 15, 25, 50 cents, \$1, 2, 5. Sterling currency has been withdrawn. American currency is generally accepted. Bank of England and Canadian notes are not accepted, except at the banks from travellers from the UK.

Budget (1972). Revenue, B\$104.5m. (1973 estimate, B\$114m.); expenditure, B\$112m. (1973 estimate, B\$104.3m.). The tourist industry is the chief source of income (1,511,858 visitors in 1972 spent an estimated B\$285.5m.).

POWER. Electricity for lighting and power is available in New Providence, Grand Bahama and the Out Islands. Total units generated in New Providence in 1972, 324,885,000 kwh. Total number of consumers, about 29,944.

COMMERCE. The principal exports in 1972 were: Cement, petroleum and petroleum products, alcoholic beverages, pulp-wood, used motor cars, crawfish and salt, which is extracted from brine by solar radiation.

Imports (excluding specie) (1972) from all countries were valued at B\$484,867,873. Principal imports were: Food, drink and tobacco, raw materials and articles mainly unmanufactured, articles wholly or mainly manufactured, animals not for food.

Imports and exports (excluding bullion and specie) for 6 calendar years in B\$:

	Imports	Exports		Imports	Exports
1967	160,863,283	32,270,861	1970	337,484,425	89,602,000
1968	179,987,251	51,781,802	1971	508,246,748	264,890,000
1969	302,278,440	54,325,928	1972	484,867,873	301,401,104

The Bahamas became affiliated with CARIFTA in 1968.

Trade with U.K., in £1,000 sterling (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	1,841	1,978	2,752	4,547	4,248	19,253
Exports and re-exports from UK	10,905	13,865	11,073	9,543	8,854	8,164

SHIPPING. The total tonnage of ships entering ports in 1972 was approximately 10.5m. tons.

ROADS. There are about 600 miles of paved roads in New Providence, and 450 miles in Grand Bahama. The other major islands have 400 miles of motorable roads. In 1972, 52,882 motor vehicles were registered. There are no railroads.

TELECOMMUNICATIONS. In the island of New Providence an automatic telephone system of the latest type is in operation, together with an extensive system of underground cables. The total number of telephones in use at 31 Dec. 1972 was 50,268. 132 radio-telephone channels provide service *via* the USA to any part of the world. All the important islands are connected with Nassau by means of radio-telegraphy, and in most cases radio-telephony is also available. Connexion through Nassau to the UK, the USA, Canada and Central America can be provided. Radio-teletype to Bermuda and Florida and ship-shore radio-telephone services are also available. Radio-teletype service is provided from Nassau to Freeport and West End in Grand Bahama. The Bahamas broadcasting station operates on 1,540 and 1,240 kc.

AVIATION. Nassau international airport is located on the island of New Providence, about 10 miles from the city of Nassau. Scheduled flights—British Airways: daily from New York (twice daily from Dec. to April); twice weekly from Bermuda; once weekly from Jamaica. PANAM: daily from New York; four times daily from Miami. Air Canada: daily from Toronto, Montreal and Jamaica. Eastern Airlines: daily from Tampa, West Palm Beach and Fort Lauderdale; 6 times daily from Miami; once weekly from Jacksonville *via* West End, Grand Bahama. There are numerous domestic schedules to the Out Islands. Flamingo Airlines and Out Island Airways merged to form Bahamasair which provided commercial and charter services to the Out Islands and Florida. There are 55 airstrips on the various Out Islands and numerous water alighting areas. During 1970, 916,479 passengers landed at Nassau and Freeport.

BANKING. The Royal Bank of Canada, the Bank of Nova Scotia, Barclays Bank International, Canadian Imperial Bank of Commerce, the Bank of London and Montreal, Chase Manhattan Bank, The First National City Bank of New York, E. D. Sassoon Banking Co., Butlers Bank, Commonwealth Industrial Bank, International Bank of Washington and the Mercantile Bank of the Bahamas have branches in Nassau. The Royal Bank of Canada, Bank of Nova Scotia and Barclays Bank International have branches on several other islands.

Post office savings bank, 30 June 1972, depositors, 34,831; balance due (30 June, 1971), B\$2,633,711.

BANGLADESH

Bangladesh comprises the eastern territories of the partitioned province of Bengal and the former Assam district of Sylhet, with the exception of certain thanas of the Karimganj sub-division. The state was formerly the Eastern Province of Pakistan. In Nov. 1970 the southern Ganges delta was devastated by a cyclonic tidal wave. The number of dead was estimated as at least 220,000 and the number of dwellings destroyed and damaged as 350,000. Crops and stock were also destroyed. In Dec. 1970 Shaikh Mujibur Rahman's Awami League Party gained 167 seats out of 300 at the Pakistan general election and immediately made known their wish for greater independence for the then Eastern Province. Martial law was imposed following disturbances in Dacca, and civil war developed in March 1971. The war ended in Dec. 1971 and Bangladesh was proclaimed an independent state.

National anthem: Amar Sonar Bangla, ami tomay bhalobais (My golden Bengal, I love you). Words by Rabindranath Tagore.

GOVERNMENT AND CONSTITUTION. The constitution came into force on 16 Dec. 1972 and provided for a parliamentary democracy. The head of state is the President, elected by Parliament for 5 years. He chooses the Prime Minister. Parliament has 300 members directly elected every 5 years by citizens over 18. For the first 10 years there will be 15 extra women members elected by Parliament. The judiciary is independent of the executive. The state of parties in Parliament after the general elections of March 1973: Awami League, 293 seats; Bangladesh Jatiya League, 1; National Socialist Party, 1; Independent, 5. There is one chamber.

President (Acting): Mahmud Ullah.

AREA AND POPULATION. The area is 55,126 sq. miles (142,797 sq. km); population (1961 census), 50·84m. (26,349,000 male, 24,491,000 female). Estimate, 1972, 75m. The capital of the province is Dacca (population, 556,712 in 1961; estimate, 1972, 1·5m.) and its ports are Chittagong and Chalna.

EDUCATION (1970). The compulsory primary education scheme has been replaced by model primary education. The Government has dissolved the District School Boards and taken over school administration. There are universities at Dacca, Rajshahi, Mymensing and Chittagong (founded 1964).

NEWSPAPERS. There are 19 principal dailies.

HEALTH. The state had 6,668 hospital beds in 1971; there were 1 mental and 2 tuberculosis hospitals, 3 medical colleges and 5 nursing training centres. In 1973 the number of beds was 13,000.

FINANCE. A new currency, the *Taka*, was floated in 1972. In mid-1972 foreign exchange reserves stood at Ta.146 crores; estimated gold and foreign exchange backing stood at 30% of currency in circulation. Estimated foreign exchange earnings, 1972-73, Ta.375 crores.

DEFENCE. **Army.** There are 5 infantry brigades with 17 battalions, 1 artillery brigade, 1 engineer group, 1 signals battalion. Strength, 17,000. There are 13,000 paramilitary militia volunteers.

Navy. The Navy was formed in 1972 under Commander Nurul Huq (trained in the Royal Naval Engineering College, Manadon, and served in the Pakistan Navy as an engineer) appointed as Chief of Naval Staff at the end of March. The Administrative Officer at the Naval Headquarters is a Captain. Naval bases are being operated at Chittagong (handed over by India on 14 Feb. 1972), Kulna and Dacca.

The composition of the Navy is planned to be gunboats and possibly destroyers and frigates purchased abroad. The established strength in 1973 comprised 3 armed river steamers and 1 former Soviet 'Poluchat' class patrol boat, all displacing 100 tons. The most active ships in the Bangladesh sea area were the 4 Soviet 'Vanya' class coastal minesweepers clearing up after the Indo-Pakistan war of Dec 1971 and still operating in Bangladesh waters until late 1973: it is possible that these will be transferred to the Navy on completion of their current tasks, and it seems that until new construction tenders can be obtained from abroad the composition of the Navy will be based on Soviet ships.

The manpower of the Navy at the end of 1973 was 700 increasing to 1,000, but it is planned to establish 3,000 personnel in the near future.

Air Force. Initial combat equipment of the Air Force comprised a few Sabre 6 jet fighters salvaged from former Pakistan Air Force units. These are now used as operational trainers, following delivery of a squadron of MiG-21s in 1973. Other aircraft in service include MiG-21 two-seat trainers, 1 T-33 jet trainer, 1 An-12 four-turboprop transport, 1 Caribou transport, a few Alouette III helicopters and some light aircraft, including Otters.

AGRICULTURE. Agriculture employs about 82% of the population. 64% of the total area of the province is under cultivation; 90% of that is under rice. Cultivable waste is about 1.5m. acres. Rice is the most important food crop, average annual production 10m. tons (1968-69: 11.1m. tons). Other products in 1968-69 include sugar-cane (7.2m. tons), wheat (92,000 tons), grain (54,000 tons), tea (26,000 tons).

Bangladesh produces about 50% of the world production of raw jute; raw jute earnings for 1972-73 (estimate), 1,094m. takas (nearly £60m.).

FORESTS. The total area under forests is 8,558 sq. miles, of which 4,600 sq. miles are Reserved Forests. The annual output of timber is nearly 15m. cu. ft. Among minor forest products are 76.5m. stems of bamboos, 415,000 canes, 6,500 maunds of honey annually.

FISHERY. Being bounded on the south by the Bay of Bengal and having numerous rivers, streams, khals and bils, the state is pre-eminently a fish-producing area and possesses great possibilities for the manufacture of various oils and fish products. The estimated annual production of fresh fish is over 33.2m. maunds (1 maund = 82.2 lb) and that of sea fish is about 70,000 tons.

MINERALS. Oil has been located in the Bay of Bengal.

INDUSTRY. In 1968-69, 1,098 industrial establishments employed 201,000 workers. Out of the existing industries, its 22 textile-mills, 7 sugar factories, 18 match factories, 7 glass works, 178 hosiery factories, a paper-mill, 29 jute-mills, 28 aluminium works and a cement factory are the most prominent. There is a steel mill at Chittagong. There is also a newsprint factory, a fertilizer factory, a shipyard and a dockyard. Jute factories in 1966-67 had 15,614 looms and produced 403,700 tons, of which 80% was exported. Cotton fabrics totalled

70·6m. yd in 1966–67. Cotton yarn production was 74·3m. lb. GNP *per capita* (1970) US\$60.

POWER. Natural gas from Titas is piped to Dacca. Drilling is in progress at other sites where gas is indicated.

SHIPPING. Bangladesh possesses important natural advantages in her navigable channels which give valuable service in carrying produce by cheap water routes. There are 3 principal waterways, the Ganges, Brahmaputra and Meghna. These are freely used by inland steam vessels, which serve areas where railways cannot be economically constructed.

ROADS. The state is backward in the matter of road communications, but some 2,000 miles have been built.

BANKING. The former private banking system is in the course of nationalization. Currency in circulation, mid-1972, was Ta.417·71 crores.

WEIGHTS AND MEASURES. Imperial measures are in use. Weight is in the sheer (1 sheer = 2 lb); the maund (1 maund = 40 sheers) and the ton.

BARBADOS

Barbados became an independent sovereign state within the Commonwealth on 30 Nov. 1966 and is a member of the United Nations and the Organization of American States.

AREA AND POPULATION. Barbados lies to the east of the Windward Islands. Area 166 sq. miles (430 sq. km). The hot and rainy seasons last from June to December, and the average rainfall is 61 in. per year. At 31 Dec. 1972 the estimated population was 241,296. Births (1972), 4,885; deaths (1972), 2,045. Bridgetown is the principal city: population, 8,789, and its suburbs, 88,097.

CONSTITUTION AND GOVERNMENT. Barbados was occupied by the British in 1627 and during its colonial history never changed hands. Full internal self-government was attained in 1961. The Legislature consists of the Governor-General, a Senate and a House of Assembly. The Senate comprises 21 members appointed by the Governor-General, 12 being appointed on the advice of the Prime Minister, 2 on the advice of the leader of the opposition and 7 in the Governor-General's discretion. The House of Assembly comprises 24 members elected every 5 years. In 1963 the voting age was reduced to 18.

In the general election of Sept. 1971 the Democratic Labour Party held 18 seats and the Barbados Labour Party 6 seats.

The Privy Council is appointed by the Governor-General after consultation with the Prime Minister. It consists of 11 members and the Governor-General as chairman. It advises the Governor-General in the exercise of the royal prerogative of mercy and in the exercise of his disciplinary powers over members of the public and police services.

Governor-General: Sir Winston Scott, GCMG.

Prime Minister: Right Hon. Errol Walton Barrow, PC.

BELIZE

HISTORY. The early settlement of the territory was probably effected by British woodcutters about 1638; from that date to 1798, in spite of armed opposition from the Spaniards, settlers held their own and prospered. In 1780 the Home Government appointed a superintendent, and in 1862 the settlement was declared a colony, subordinate to Jamaica. It became an independent colony in 1884.

CONSTITUTION AND GOVERNMENT. Under the constitution, which came into force on 1 Jan. 1964, Belize, formerly British Honduras has a 2-chamber legislature, with a ministerial system and cabinet responsibility. The House of Representatives consists of 18 members elected by universal suffrage. The Senate consists of 8 members, 5 of whom are appointed on the advice of the Premier, 2 on the advice of the Leader of the Opposition and 1 by the Governor.

Elections held on 5 Dec. 1969 gave the People's United Party 17 and the National Independence Party 1 seat.

The Governor retains responsibility for defence, external affairs, internal security, the safeguarding of conditions of service of public officers, and over finance 'so long as the Government of Belize is in receipt of budgetary aid from the British Government'.

Governor and C.-in-C.: Richard Neil Posnett, OBE.

Premier and Minister of Finance and Development: George Price.

AREA AND POPULATION. Area, 8,867 sq. miles (22,963 sq. km).

Population, census 1970, 119,645. Voters on the roll numbered 29,863 in 1968. In 1967 the birth rate per 1,000 was 42.1 and the death rate 7; infantile mortality 59.9 per 1,000 births; there were 680 marriages and 16 divorces.

Main city, Belize City; population, census 1970, 39,257. Following the severe hurricane which struck the territory on 31 Oct. 1961 the capital Belmopan (population, 1973, 3,000) has been moved to a new site 50 miles inland; construction began in Jan. 1967 and it became the seat of government on 3 Aug. 1970.

Police. The police force contained (1972) 10 officers, 9 inspectors, 12 assistant inspectors, 330 n.c.o.s and constables (1969) and 10 women constables (1969).

EDUCATION. In 1973, 6 government, 181 grant-aided and 12 private primary schools had a total enrolment of 32,022 pupils; 19 secondary schools, 4,324 (1972) pupils; a government technical high school, 350 pupils; a government junior college, 250 pupils. All aided schools, except the government technical high school, are under the management of Christian bodies. Three colleges for post-secondary education had 563 students in 1971.

CINEMAS (1972). There were 14 cinemas with seating capacity of 8,000.

NEWSPAPERS (1972). There was 1 daily newspaper with a combined circulation of 6,000 and 3 weekly.

FINANCE. Currency. The Belize dollar equals 25p sterling and US cents 60. There was (31 Dec. 1965) a paper currency of \$B4,785,965 in government notes and a subsidiary mixed metal coinage of 1-, 5-, 10-, 25 and 50-cent pieces whose issues amount to \$B600,782.

Budget. Revenue and expenditure (in \$B) for calendar years:

	1968	1969 ¹	1970 ¹	1971 ¹	1972 ¹	1973 ¹
Revenue	24,419,578		26,459,678	30,530,851	29,845,986	35,888,502
Expenditure	25,171,728	27,928,754	26,482,551	30,530,851	29,845,986	35,888,502

¹ Estimates.

UK development and other aid amounted to \$B10.8m. in 1973.

Debt. 31 Dec. 1973, \$B15,016,765; sinking fund, \$B1,944,967.

AGRICULTURE. The main agricultural export is sugar, followed by citrus fruit, chiefly grapefruit and oranges, whole, canned, juice and concentrates. Sugar production in 1972-73 was 70,170 tons. The total acreage under citrus for export was 8,664 in 1965. Banana production began in 1973, and first shipments will begin in 1974.

FORESTRY. 2,964 sq. miles, 49% of the total land area, are under forests which include mahogany, cedar, Santa Maria, pine and rosewood, and many secondary hardwoods of known or probable market value, as well as woods suitable for pulp production. Exports of forest produce in 1970 amounted to \$B18m.

FISHERIES. Food and game fish are plentiful, and domestic consumption is heavy. The main items exported in 1970 were lobsters (Spiny) whole and tails, 407,700 lb., valued at \$B1,555,090, fresh and dried fish, 240,760 lb., valued at \$B119,196; conchs and other kinds, 818,200 lb., valued at \$B2,425,354. Turtles—Hawksbill, Loggerhead and Green—are plentiful but as yet are not exported.

LABOUR. The labour market alternates between full employment, often accompanied by local shortages in the citrus and sugar-cane harvesting (Jan.-July), and under-employment during the wet season (Aug.-Dec.), aggravated by the seasonal nature of the major industries.

COMMERCE. In 1970 total imports amounted to \$B55,610,881. Total domestic exports, \$B23.2m. The principal domestic exports were: Timber, \$B1.8m.; sugar, \$B11.9m.; fish products, \$B3m.; citrus, \$B3.7m.

BERMUDA

HISTORY. The Spaniards visited the islands in 1515, but, according to a 17th-century French cartographer, they were discovered in 1503 by Juan Bermudez, after whom they were named. No settlement was made, and they were uninhabited until a party of colonists under Sir George Somers was wrecked there in 1609. A company was formed for the 'Plantation of the Somers' Islands', as they were called at first, and in 1684 the Crown took over the government.

AREA AND POPULATION. Bermuda consists of a group of some 150 small islands (about 20 inhabited), situated in the western Atlantic (32° 18' N. lat., 64° 46' W. long.); the nearest point of the mainland, about 570 miles distant, is Cape Hatteras, N.C., and 690 miles from New York; noted for its climate and scenery; a favourite resort for Americans.

The area is 20.59 sq. miles (53.3 sq. km), of which 2.3 sq. miles were leased in 1941 for 99 years to the US Government for naval and air bases. The civil population (*i.e.*, excluding British and American military, naval and air force personnel) at 25 Oct. 1970 was estimated at 53,000.

Chief town, Hamilton; population, about 3,000.

In 1971 there were 1,138 live births, 567 marriages and 438 deaths; infantile mortality rate was 24 per 1,000 live births.

CONSTITUTION AND GOVERNMENT. Bermuda is a colony with representative government. Under the constitution of 8 June 1968 the Governor,

appointed by the Crown, is normally bound to accept the advice of the Cabinet in matters other than external affairs, defence, internal security and the police, for which he retains special responsibility. The Cabinet is appointed from among members of the bicameral legislature, on the recommendation of the Premier. The Legislative Council, of whom one or two members may serve on Cabinet, consists of 11 members; 5 are appointed in the discretion of the Governor, 4 on the recommendation of the Premier and 2 on the recommendation of the Opposition Leader. The 40 members of the House of Assembly are elected 2 from each of 20 constituencies under full universal, adult suffrage. The general election in June 1972 resulted in the return of 30 members of the United Bermuda Party and 10 members of the Progressive Labour Party.

Governor: Sir Edwin Leather.

Premier: Sir Edward Richards, CBE.

EDUCATION. Education is compulsory between the ages of 5 and 16, and government assistance is given by the payment of grants, and, where necessary, of school fees. Free elementary education was introduced on 1 May 1949. In 1971, there were 6 aided and 35 maintained schools, with 13,242 pupils. Government and private agencies provide some 40 grants and bursaries per annum for further education. There is a school for handicapped children (44 pupils) 3 special schools (304 pupils). There are also 2 private schools.

CINEMAS (1971). There are 4 cinemas with a seating capacity of 2,260.

JUSTICE. There are 4 magistrates' courts, a supreme court and a court of appeal. The police had a strength of 307 in 1971.

FINANCE. Currency. Decimal currency based on a Bermuda dollar of 100 cents was introduced on 6 Feb. 1970 (£1 = 2.4 Bermuda dollars). The Bermuda Monetary Authority issues notes in denominations of \$50, \$20, \$10, \$5, and \$1, and coins in values of 50c, 25c, 10c, 5c and 1c.

BOTSWANA

HISTORY. In 1885 the territory was declared to be within the British sphere; in 1889 it was included in the sphere of the British South Africa Company, but was never administered by the company; in 1890 a Resident Commissioner was appointed, and in 1895, on the annexation of the Crown Colony of British Bechuanaland to the Cape of Good Hope, the British Government was in favour of transferring the Protectorate to the BSA Company, but the three major chiefs of the Bakwena, the Bangwaketse and the Bamangwato went to England to protest against this proposal, and agreement was reached that their country should remain a British Protectorate if they ceded a strip of land on the eastern side of the country for railway construction. This railway was built in 1896-97.

On 30 Sept. 1966 the Bechuanaland Protectorate became an independent and sovereign member of the Commonwealth under the name of the Republic of Botswana.

National flag: light blue, white, black.

AREA AND POPULATION. Botswana comprises the territory lying between the Molopo River on the south and the Zambezi on the north, and extending from the Transvaal Province and Rhodesia on the east to South-West Africa on the west. The climate is on the whole sub-tropical and the atmosphere throughout the year is very dry. Area about 222,000 sq. miles (575,000 sq. km); population, according to the census of 1971, is 630,379. The most important tribes are the Bamangwato (216,058), under Chief Leapeetswe Khama; the Bakgatla (31,150), under Chief Linchwe II; the Bakwena (65,251), under Chief Bone-wamang P. Sechele; the Bangwaketse (71,289), under Chief Seepapito IV; the Batawana (42,347), under Chief Letsholathebe; the Bamalete (13,861), under Regent Kelemogile Mokgosi (brother of the late Chief Mokgosi, who died in 1966); the Batlokwa (3,711), under Chief Kgosi Gaborone; the Barolong (10,662), under Chief Besele Montshiwa.

The main business centres are Lobatse (12,920), Gaborone (18,436) and Francistown (19,903). The largest towns are Serowe (43,186), Kanye (39,200), Molepolole (31,986) Mochudi (21,382), Mahalapye (14,657), Maun (12,154) and Ramotswa (11,572).

The seat of government is at Gaborone.

CONSTITUTION AND GOVERNMENT. The constitution of the Republic is based on the constitution which came into effect in March 1965, with some minor alterations.

The executive rests with the President of the Republic who is responsible to the National Assembly.

The National Assembly consists of 36 members (32 elected by universal suffrage, 4 specially elected and the Attorney-General *ex-officio*). The second general election, held on 18 Oct. 1969, returned 24 members of the Democratic Party, 3 Botswana People's Party and 3 National Front Independence Party.

The President is an *ex-officio* member of the Assembly. If the President is already a member of the National Assembly, a by-election will be held in the constituency of that member.

There is also a House of Chiefs to advise the Government. It consists of the Chiefs of the 8 principal tribes as *ex-officio* members and 4 members elected by and from among the sub-chiefs in 4 districts.

President of the Republic: Sir Seretse Khama, KBE.

Vice-President and Minister of Finance and Development Planning: Dr Q. K. J. Masire, JP. *Education:* B. C. Thema, MBE. *Works and Communications:* J. G. Haskins, OBE. *Commerce, Industry and Water Affairs:* M. K. Segokgo, JP. *Agriculture:* E. S. Masisi. *Health, Labour and Home Affairs:* M. P. K. Nwako, MP. *Local Government and Lands:* E. M. Kgabo, JP. *State:* B. K. Kgari. *Assistant Minister of Finance and Development Planning:* L. Makgekgenene. *Assistant Minister of Local Government and Lands:* K. P. Morake. *Assistant Minister in the Office of the President:* D. K. Kwelagobe.

LOCAL GOVERNMENT. Local government is carried out by 9 district councils and 3 town councils. Revenue is obtained mainly from local income tax, levied on all inhabitants in the area.

EDUCATION (1972). There were 288 primary and 13 secondary schools and 3 teacher-training colleges. The great majority of the primary schools and the junior secondary schools are controlled, under the Director of Education, by school committees with district-council and mission representatives. Three secondary schools and the homecraft centre are run by missions with Government support; Moeng College by a governing council; the remaining schools by the Government. District-council schools are financed by district-council treasuries and assisted with grants from the Central Government. Enrolment in primary schools in 1972 was 78,442, in secondary schools 4,740, in teacher-training colleges 870. University students abroad numbered 97. Total expenditure on education was R1,814,000 for the year ended 31 March 1972.

In 1971, an estimated 20% of the total population were literate.

The official languages are English and Tswana.

JUSTICE. The Botswana Court of Appeal succeeded the Court of Appeal for Basutoland, Bechuanaland and Swaziland, which was established in 1954. It has jurisdiction in respect of criminal and civil appeals emanating from the High Court of Botswana. Further appeal lies in certain circumstances to the Judicial Committee of the Privy Council.

The High Court for Botswana succeeded the High Court for Bechuanaland, which was established in 1938. It has jurisdiction in all criminal and civil causes and proceedings. Subordinate courts and African courts are in each of the 12 administrative districts.

Police. The police force consists of 157 officers and subordinate officers, 183 n.c.o.s and 919 other ranks.

WELFARE (1972). There are 11 general hospitals, a mental home, 10 health centres and 81 health posts. Total number of beds, 1,785. There are 40 registered medical practitioners, 2 dentists and about 370 registered nurses. Government expenditure on medical services, R1.25m. for the year ended 31 March 1972.

FINANCE. **Currency.** The currency is the South African Rand (R1 = £0.50. sterling).

Budget. Revenue and expenditure (in Rand) for financial years ending 31 March:

<i>Recurrent Budget:</i>	<i>1969-70</i>	<i>1970-71</i>	<i>1971-72¹</i>
Revenue	14,011,938	15,836,069	19,654,950
Expenditure	14,011,938	15,836,069	19,654,950
UK grant-in-aid	5,973,820	3,411,886	2,913,000
<i>Development Budget:</i>			
Revenue	5,121,528	9,293,351	20,918,000
Expenditure	4,898,851	8,526,063	20,867,000

¹ Estimate.

Chief items of revenue, 1971-72: Taxes and duties, R3,815,820; customs and excise, R8,287,000; posts and telegraphs, R1,274,735; government property, R1,286,185; licences, R569,346.

Chief items of expenditure, 1971-72: Education, R3.6m.; medical, R1,272,689; works and communication, R3,722,087; agriculture, R2,453,242; post and telegraphs, R839,295; development, R12,252,745.

Public debt, on 31 March 1972, amounted to R33,904,210.

PRODUCTION. Cattle-rearing and dairying are the chief industries, but the country is more a pastoral than an agricultural one, crops depending entirely upon the rainfall. However, increasing numbers of boreholes are being established where underground supply is adequate.

In future years the revenue from the diamond mine at Orapa (production started in 1971) and the nickel-copper complex at Selebi-Pikwe (production planned for 1973) will become considerably larger than that of beef exports. Orapa, on the fringe of the Kgalagadi Desert, has the second largest diamond bearing pipe in the world. It is estimated that Orapa was already Botswana's largest earner of foreign currency in 1972. The mines at Orapa and Selebi-Pikwe are expected to provide Government with a direct revenue of over R14m. by 1975. An open-pit coalmine is being developed at Morupule, close to Serowe in the Central District of Botswana.

Mineral resources in north-east Botswana are being investigated, including salt and soda ash on the Sau Pan of the Makgadikgadi Salt Pans, nickel-copper at Selkirk and Phoenix, copper south of Maun and close to Ghanzi, and coal at Mmamabula.

The abattoir at Lobatsi, opened in Oct. 1954, is of great importance to the country's economy. In 1971 the number of cattle was 1,832,000; goats, 1,015,000; sheep, 370,000; poultry, 234,000.

Production of manganese (1971), was 35,603 metric tons; semi-precious stones, 104.642 kg; diamonds, 871,765 carats; talc, 130 metric tons.

The National Development Plan 1970-75 envisages a total capital expenditure of R95,246.

LABOUR. In 1971, 11.46% of the wage-earners were employed in agriculture, 5.95% in construction, 25.7% in central government, 3.57% in finance; 6.17% in manufacturing and 9.24% in mining and quarrying.

COMMERCE. Chief items of import in 1971: Cereals (R0.0m.); sugar (R2.2m.); petroleum products (R0.00m.); iron and steel products (R0.00m.). Chief items of export in 1971: Carcases (R5.36m.), boneless beef (R9,008,321), canned meat (R2,981), small stock (R244,405), edible offal (R598,967), compound offal (R270,550), hides (R681,034), and by-products (R789,076). Total export from the abattoir (1971), R16,953,710.

Botswana is a member of the South African customs union with Lesotho, South Africa and Swaziland.

Total trade between Botswana and UK (British Board of Trade returns, in £1,000 sterling):

	1970	1971	1972	1973
Imports to UK	3,153	2,782	3,820	12,204
Exports and re-exports from UK	426	1,486	906	748

COMMUNICATIONS. The telegraph, telephone and railway (630.4 km) lines from Cape Town to Rhodesia traverse Botswana. Wireless communication has been established between headquarters at Gaborone and various district offices and police stations. There are 29 post offices and 38 agencies. There were 5,197 telephones and about 11,743 licensed radio sets in 1972.

There are 8,000 km of roads, all of which are maintained by the Ministry of Works and Communications. In 1971 there were approximately 8,000 registered motor vehicles.

There are 2 airports. Regular international flights are flown by Zambia Airways and SAA into Gaborone.

BANKING. The Standard Bank Ltd and Barclays Bank International have branches in Francistown, Lobatse, Mahalapye, Maun and Gaborone and about 46 agencies throughout the country.

A government-financed National Development Bank was founded in 1964 and had assets of R2.3m. on 31 Sept. 1972.

The post office savings bank has deposits of about R455,000 from 11,000 depositors in mid-1972.

BRUNEI

HISTORY. The Sultanate of Brunei was a powerful state in the early 16th century, with authority over the whole of the island of Borneo and some parts of the Sulu Islands and the Philippines. At the end of the 16th century its power had begun to decline and various cessions were made to Great Britain, the Rajah of Sarawak and the British North Borneo Company in the 19th century to combat piracy and anarchy. By the middle of the 19th century the State had been reduced to its present limits.

In 1847 the Sultan of Brunei entered into a treaty with Great Britain for the furtherance of commercial relations and the suppression of piracy, and in 1888, by a further treaty, the State was placed under the protection of Great Britain. Brunei was the only former British dependency inhabited by a Malay people that did not join the Federation of Malaysia in 1963.

AREA AND POPULATION. Brunei, on the north-west coast of Borneo, is bounded on all sides by Sarawak territory, which splits the State into two separate parts. Area, about 2,226 sq. miles (5,800 sq. km), with a coastline of about 100 miles. Estimated population in mid-1971 was 136,256 (revised). The capital is Bandar Seri Begawan (population, 37,000, including the Kampong Ayer), 9 miles from the mouth of Brunei River. The climate is of tropical marine type, hot and moist, with cool nights.

CONSTITUTION AND GOVERNMENT. On 29 Sept. 1959 the Sultan promulgated a constitution. There is a Privy Council, an Executive and a Legislative Council. On 6 Jan. 1965 the constitution was amended to provide for general elections to the Legislative Council; at the same time the Executive Council was renamed Council of Ministers. The Legislative Council is presided by a Speaker and consists of 6 *ex-officio* members, 5 nominated members and 10 elected members. The Council of Ministers is presided by the Sultan and consists of 6 *ex-officio* members, the High Commissioner and 4 other members, all of whom are members of the Legislative Council. The Mentri Besar, who is one of the *ex-officio* members of the Legislative Council and the Council of Ministers, is responsible to the Sultan for the exercise of executive authority in the State. A new agreement was signed with UK in Nov. 1971.

The official language is Malay, but English may be used for all official purposes. The official religion is Islam.

Sultan of Brunei: The 28th Sultan abdicated on 4 Oct. 1967 in favour of his son, who was installed on the 5th as Sultan Hassanal Bolkiah Muizzaddin Wad-aulah, DK, DPKG, DPKT, PSPNB, PSNB, PSLJ, SPMB, PANB, CMG, DK (Kelantan), DK (Johore), and was crowned on 1 Aug. 1968.

Her Majesty's High Commissioner: P. Gautrey, CMG, CVO.

Mentri Besar: Pengiran Setia Negara Haji Mohd. Yusof bin Pengiran Haji Abdul Rahim, DK, SPMB, DSNB, POAS, PHBS, CBE, PJK.

EDUCATION (1971). Free education in the Malay language is provided in government primary schools (16,569 pupils) and 6 government secondary schools (4,569 pupils). Free education in English was provided in 13 government preparatory schools (5,666 pupils) and 6 government secondary schools (4,115 pupils). Teacher-training was provided in one government teachers' college, in both Malay and English for 328 students. Seven unassisted Mission schools provided education in English at kindergarten, primary and secondary level for a total of 5,711 pupils; 8 unassisted Chinese schools provided education in Chinese at the same three levels for a total of 5,406 pupils. One private kindergarten and primary school, administered by the Brunei Shell Petroleum Company,

provided education in either English or Dutch for a total of 220 pupils, and there was also one private vocational school administered by the Brunei Shell Petroleum Company (115 artisan-trainees).

Recurrent expenditure on education in 1972 was \$28.26m.

DEFENCE. The Air Wing of the Royal Brunei Malay Regiment was formed in 1965 with 3 helicopters for communications and casualty evacuation duties. Current equipment includes 2 Bell 205A Iroquois, 4 Bell 206A JetRanger and 3 Bell 212 helicopters, and a twin-turboprop Hawker Siddeley 748 transport used also for VIP passenger and search and rescue duties. Seconded RAF pilots are being supplemented and replaced by Brunei personnel.

POLICE. Establishment provides for 1,141 officers and men. In addition, there is a small auxiliary force mostly employed on static guard duties.

INDUSTRY. Brunei depends primarily on its oil industry, which employs 7% of the entire working population. Other important products are rubber, padi, jelutong, firewood and sago. Native industries include boat-building, cloth weaving and the manufacture of brass- and silverware. Most of the interior is under forest, containing large potential supplies of serviceable timber.

The Seria oilfield, discovered in 1929, has passed its peak production. The oilfield extends offshore and many wells have been drilled from jetties extending out to sea. Further search for new sources of oil is being conducted in the offshore areas. Part of the oil produced is refined at Lutong, where a large refinery, destroyed during the War, has been rebuilt.

A National Development Plan designed to strengthen, improve and further develop the economic, social and cultural life of the people of the State has been implemented by Government.

FINANCE. Currency. The currency is the Brunei Dollar with a par value of US cents 35.46.

Budget. In 1971 the actual revenue was \$209,011,068 and expenditure was \$155,983,561 (excluding contribution to development fund of \$54m). The main sources of revenue were: Duties, \$9,060,860; taxes, \$104,831,783; royalties, \$39,427,396; interest, etc., \$37,617,768. The main heads of expenditure were: Security and defence, \$38,014,496; education, \$22,834,485; health, \$7,668,808; public works, \$12,834,485; religious affairs, \$5,151,375. The expenditure from the development fund was \$73,934,057.

The estimated revenue for 1972 was \$247,048,802 and expenditure \$209,733,190 and the contribution to the development fund was \$42m.

COMMERCE. In 1971 imports totalled \$456.5m.; exports, \$310.65m.

Total trade with UK (British Board of Trade returns, in £1,000 sterling):

	1968	1969	1970	1971	1972	1973
Imports to UK	114	54	49	132	67	150
Exports and re-exports from UK	2,074	2,650	2,882	4,017	1,952	2550

COMMUNICATIONS. The State has about 740 miles of road, of which 294 miles are bituminous surfaced. The main road connects Brunei Town with Kuala Belait and Seria. Considerable work is being undertaken for development of secondary roads. The number of motor vehicles (1971) was 16,626.

There were 7 post offices and a telephone network (5,473 telephones) linking the main centres. A central wireless station at Brunei is in direct communication with Singapore, Sarawak and Sabah; 3 subsidiary stations at Kuala Belait, Seria and Temburong serve internal traffic.

Regular shipping services operate from Singapore, Hong Kong, and from

ports in Sarawak and Sabah to Brunei Town. The Straits Steamship Company carry passengers in some of their ships operating between Singapore and Brunei Town. The Government of Brunei operates a passenger ferry service between Brunei Town and Labuan, Sabah 6 days a week.

Singapore Airlines and MSA provide daily services linking Sarawak, Brunei and Sabah and West Malaysia and Singapore. At present passengers travelling abroad will have to proceed to Kota Kinabalu for connecting flights. MSA also operates in the rural areas with their Britten Norman Islander aircraft. The Malaysia Air Charter Ltd and other smaller operators provide various chartered services both in Brunei and East Malaysia.

CANADA

HISTORY. The territories which now constitute Canada came under British power at various times by settlement, conquest or cession. Nova Scotia was occupied in 1628 by settlement at Port Royal, was ceded back to France in 1632 and was finally ceded by France in 1713, by the Treaty of Utrecht; the Hudson's Bay Company's charter, conferring rights over all the territory draining into Hudson Bay, was granted in 1670; Canada, with all its dependencies, including New Brunswick and Prince Edward Island, was formally ceded to Great Britain by France in 1763; Vancouver Island was acknowledged to be British by the Oregon Boundary Treaty of 1846, and British Columbia was established as a separate colony in 1858. As originally constituted, Canada was composed of the provinces of Upper and Lower Canada (now Ontario and Quebec), Nova Scotia and New Brunswick. They were united under the provisions of an Act of the Imperial Parliament known as 'The British North America Act, 1867', which came into operation on 1 July 1867 by royal proclamation. The Act provides that the constitution of Canada shall be 'similar in principle to that of the United Kingdom'; that the executive authority shall be vested in the Sovereign, and carried on in his name by a Governor-General and Privy Council; and that the legislative power shall be exercised by a Parliament of two Houses, called the 'Senate' and the 'House of Commons'. The present position of Canada in the British Commonwealth of Nations was defined at the Imperial Conference of 1926.

On 30 June 1931 the House of Commons approved the enactment of the Statute of Westminster emancipating the Provinces as well as the Dominion from the operation of the Colonial Laws Validity Act, and thus removing what legal limitations existed as regards Canada's legislative autonomy. The statute received the royal assent on 12 Dec. 1931.

Provision was made in the British North America Act for the admission of British Columbia, Prince Edward Island, the Northwest Territories and Newfoundland into the Union. In 1869 Rupert's Land, or the Northwest Territories, was purchased from the Hudson's Bay Company; the province of Manitoba was erected from this territory and admitted into the confederation on 15 July 1870. On 20 July 1871 the province of British Columbia was admitted, and Prince Edward Island on 1 July 1873. The provinces of Alberta and Saskatchewan were formed from the provisional districts of Alberta, Athabaska, Assiniboia and Saskatchewan, and admitted on 1 Sept. 1905. Newfoundland formally joined Canada as its tenth province on 31 March 1949.

In Feb. 1931 Norway formally recognized the Canadian title to the Sverdrup group of Arctic islands. Canada thus holds sovereignty in the whole Arctic sector north of the Canadian mainland.

CONSTITUTION AND GOVERNMENT. The members of the Senate are appointed until age 75 by summons of the Governor-General under the Great Seal of Canada. Members appointed before 2 June 1965 may remain in office for life. The Senate consists of 102 senators, namely, 24 from Ontario, 24 from Quebec, 10 from Nova Scotia, 10 from New Brunswick, 4 from Prince Edward Island, 6 from Manitoba, 6 from British Columbia, 6 from Alberta, 6 from Saskatchewan and 6 from Newfoundland. Each senator must be at least 30 years of age, a born or naturalized British subject, and must reside in, and be possessed of property, real or personal, to the value of \$4,000 within the province for which he is appointed. The House of Commons is elected by the people, for 5 years, unless sooner dissolved. Women have the vote and are eligible. From 1867 to the election of 1945 representation was based on Quebec having 65 seats and the other provinces the same proportion of 65 which their population had to the population of Quebec. In the General Election of 1949 readjustments were based on the population of all the provinces taken as a whole and, generally speaking, this format for representation has prevailed in all subsequent elections, with readjustments made after each decennial census.

The twenty-ninth Parliament, elected on 30 June 1972, comprises 264 members and the provincial and territorial representation are: Ontario, 88; Quebec, 74; Nova Scotia, 11; New Brunswick, 10; Manitoba, 13; British Columbia, 23; Prince Edward Island, 4; Saskatchewan, 13; Alberta, 19; Newfoundland, 7; Yukon Territory, 1; Northwest Territories, 1.

State of parties in the Senate (Feb. 1974): Liberals, 74; Progressive Conservatives, 17; Independent, 3; Social Credit, 1; vacant, 7; total 102.

State of the parties in the House of Commons (Feb. 1974): Liberals, 109; Progressive Conservatives, 107; Social Credit Rally, 15; New Democratic Party, 31; Independent, 2; total, 264.

The following is a list of Governors-General of Canada:

Viscount Monck	1867-1868	Viscount Byng of Vimy	1921-1926
Lord Lisgar	1868-1872	Viscount Willingdon	1926-1931
Earl of Dufferin	1872-1878	Earl of Bessborough	1931-1935

HRH the Duke of Connaught	1911-1916		
Duke of Devonshire	1916-1921		

Governor-General: The Rt Hon. Jules Léger (sworn in Jan. 1974).

The office and appointment of the Governor-General are regulated by letters patent, signed by the King on 8 Sept. 1947, which came into force on 1 Oct. 1947. He is assisted in his functions, under the provisions of the Act of 1867, by a Privy Council composed of Cabinet Ministers.

The following is the list of the Liberal Cabinet in Nov. 1972, in order of precedence, which in Canada attaches generally rather to the person than to the office:

Prime Minister: Rt Hon. Pierre Elliott Trudeau.

Leader of the Government in the Senate: Paul Joseph Martin.

Secretary of State for External Affairs: Mitchell Sharp.

Public Works: Jean-Eudes Dubé.

President of the Queen's Privy Council: Allen Joseph MacEachen.

President of the Treasury Board: Charles Mills Drury.

Finance: John Napier Turner.

Industry, Trade and Commerce: Alastair Gillespie.

Regional Economic Expansion: Donald Campbell Jamieson.

Energy, Mines and Resources: Donald Stovel MacDonald.

Postmaster General: André Ouellet.

Justice: Otto Emil Lang.

Indian Affairs and Northern Development: Joseph Jacques Jean Chrétien.
Labour: John Carr Munro.
National Defence: James Armstrong Richardson.
National Health and Welfare: Marc Lalonde.
Secretary of State of Canada: J. Hugh Faulkner.
Environment and Fisheries: Jack Davis.
Agriculture: Eugene F. Whelen.
Veterans Affairs: Daniel J. MacDonald.
Consumer and Corporate Affairs: Herb Gray.
Transport: Jean Marchand.
Supply and Services: Jean-Pierre Goyer.
Communications: Gérard Pelletier.
Manpower and Immigration: Robert Knight Andras.
National Revenue: Robert D. G. Stanbury.
Solicitor-General: Warren Allmand.
Urban Affairs: Stanley Ronald Basford.
Science and Technology: Jeanne Sauvé.
Minister of State: Stanley Haidasz.

The sessional allowance of members of the Senate and House of Commons is \$18,000 per annum. Senators receive an additional annual tax-free expense allowance of \$4,000 and members of the House of Commons \$8,000–\$9,650; the Leader of the Government in the Senate \$10,000 and the Opposition Leader in the Senate \$6,000. The remuneration of the Prime Minister is \$25,000, a cabinet minister and Leader of the Opposition \$15,000, a minister without portfolio \$7,500, in addition to the sessional and expense allowances they receive as members of Parliament. Each minister and the Leader of the Opposition is also entitled to a \$2,000 motor vehicle allowance. The Speakers of the Senate and the House of Commons receive, besides the sessional and expense allowances, a salary of \$9,000 per annum and a motor vehicle allowance of \$1,000. An allowance of \$4,000 is given to the leader of a party with 12 or more members in the House of Commons, other than the Prime Minister and Leader of the Opposition, and to the chief Government and Opposition whips. Parliamentary Secretaries receive an additional annual allowance of \$4,000.

An Act to provide retiring allowances, on a contributory basis, to members of the House of Commons was given the Royal Assent on 4 July 1952. This Act was amended in July 1963; a member can now opt for a reduced retiring allowance in favour of an additional allowance for the widow; and provision has been made for retiring allowance for former Prime Ministers and their widows.

EDUCATION. By the British North America Act each provincial government is responsible for its education system. While each system differs from the others in particulars, the general plan is similar for all provinces. Separate elementary and secondary schools for minority groups, mainly Roman Catholic, are found in most provinces. Though administration of the schools in Newfoundland has a denominational basis, they are not exclusive and a number are non-denominational. In general, education is free to the end of the secondary level. The principal sources of revenue are provincial government grants and direct taxation for school purposes. Except in Quebec the number of private schools is small; their enrolment was 4 % of the total in elementary and secondary grades.

The federal government operates schools for Indians and Eskimos with an enrolment in 1972-73 of 29,801. An additional 38,837 attend non-federal schools.

In 1972-73, 322,274 full-time regular students were enrolled in 66 degree-granting institutions, other than purely theological institutions. Some 144,137 enrolled in arts and science, 20,537 in engineering, 16,369 in commerce and business administration, 6,356 in medicine, 7,751 in law, 29,458 in education, and the remainder in more than 35 other faculties. Another 148,000 or more students were enrolled in part-time courses.

The following statistics give information, for 1972-73, about all elementary and secondary schools, public, federal and private:

Province	Schools	Teachers	Pupils
Newfoundland	715	6,625	162,703
Prince Edward Island	172	1,625	29,870

JUSTICE. There is a Supreme Court in Ottawa, having general appellate jurisdiction in civil and criminal cases throughout Canada. There is an Exchequer Court, which is also a Court of Admiralty. There is a Superior Court in each province and county courts, with limited jurisdiction, in most of the provinces. all the judges in these courts being appointed by the Governor-General. Police, magistrates and justices of the peace are appointed by the provincial governments, Police force, *see* pp. 246-47.

For the year ended 31 Dec. 1970, 51,866 adults were charged and 38,883 convicted of indictable offences.

SOCIAL WELFARE. During 1965 a compulsory, wage-related contributory programme of old-age, disability and survivors insurance was introduced. Known as the Canada Pension Plan, it provides a basic level of security for all Canadians. It covers virtually all working Canadians from age 18 with pension available at age 65. The plan, which became operative on 1 Jan. 1966, called for contributions on earnings between \$600 and \$5,000. The \$5,000 ceiling was applied during the first 2 years and was subject to upward adjustment if there were increases in the Consumer Price Index (maximum adjustment per year is 2%). In 1974 this maximum was \$6,600. Pensions will also be increased annually, by the same rate, as measured by the Consumer Price Index. The Act makes provision for a province to establish and operate its own provincial pension plan provided certain requirements are met. The Province of Quebec enacted similar

legislation to establish the Quebec Pension Plan, which also commenced 1 Jan. 1966.

Existing Federal programmes of family allowances and old-age security will continue. Family allowances are paid at a rate of \$20 a month for children under 18 years of age for 8 of the 10 provinces. The allowances for residents of Quebec, Alberta, the Northwest Territories and the Yukon differ somewhat from this amount.

The Canada Pension Plan makes certain amendments to the Old Age Security Act. Commencing in 1974, \$108.14 a month is payable at age 65 to persons meeting the residence test. Some pensioners are entitled to an inflationary supplement of up to \$72.85 per month. An amendment to the residence test permits eligibility of persons proving 40 years of residence in Canada since age 18, although they are now residing outside Canada.

Canada has a national system of unemployment insurance with compulsory coverage of persons under a contract of service unless specifically excepted. The National Employment Service, formerly operated by the Department of Labour, was transferred to the new Department of Manpower and Immigration in Oct. 1966 and became the key operational agency in the manpower field. Both employers and employees contribute to unemployment insurance. The federal government contributes one-fifth of the combined employer-employee contribution and pays administrative costs. In 1972 the contribution of employees, employers and the federal government were changed and they now pay different amounts, depending upon the unemployment rate. From 1 July 1941 to 31 March 1973 benefit payments amounted to \$9,211m.

The Canada Assistance Plan, a comprehensive public assistance measure to complement provisions of the Canada Pension Plan, received Royal Assent in July 1966. It provides a single administrative framework for federal sharing with the provinces of assistance and welfare services. It is designed to replace the 4 existing programmes of unemployment assistance, old age assistance, blind person's allowances and disabled person's allowances, but the provinces have the option of continuing the separate administration of the programme.

The Federal Hospital Insurance and Diagnostic Services Act 1957 provides for a system of federal grants-in-aid to the provinces to help meet the cost of specified hospital services.

Provincial legislation provides for compensation to a workman for injury by accident. Other provincial welfare programmes include general assistance and social allowances, mothers' allowances, services for the aged and child care. In most provinces responsibility for a number of programmes is shared by the provinces and their municipalities.

FINANCE. Currency. The denominations of money in the currency of Canada are dollars and cents. The cent is one-hundredth part of a dollar. Subsidiary coins of the denominations of 1, 5, 10, 25 and 50 cents and \$1 are in use. The monetary standard is gold of 900 millesimal fineness (23.22 grains of pure gold equal to 1 gold dollar). The Currency Act provides for gold coins in the denominations of \$5, \$10 and \$20, which are legal tender. The British and US gold coins are also legal tender, at the par rate of exchange. The legal equivalent of the British sovereign is \$4.86 $\frac{1}{2}$.

The Bank of Canada has the sole right to issue paper money for circulation in Canada. Restrictions introduced by the 1944 revisions of the Bank Act cancelled the right of chartered banks to issue or re-issue notes after 1 Jan. 1945; and in Jan. 1950 the chartered banks' liability for such of their notes as then remained outstanding was transferred to the Bank of Canada in return for payment of a like sum to the Bank of Canada. On 31 May 1970 the Canadian dollar which was stabilized at 92.50 US cents was allowed to fluctuate. The value of the US\$ in Canadian funds was 100.02 cents in Dec. 1973.

The Bank of Canada issues notes, which are legal tender, in denominations of \$1, \$2, \$5, \$10, \$20, \$50, \$100, \$500 and \$1,000. Under the terms of the Bank of Canada Act, the bank is required to sell gold in bars of 400 oz. to any person tendering legal tender. This obligation is at the present time suspended by Order-in-Council. The exportation of gold from Canada is prohibited except by licence issued by the Minister of Finance to the Bank of Canada or a chartered bank.

The Ottawa Mint was established in 1908 as a branch of the Royal Mint, in pursuance of the Ottawa Mint Act, 1901. In Dec. 1931 control of the Mint was passed over to the Canadian Government, and since that time has operated as the Royal Canadian Mint. The Mint issues silver, nickel, bronze and steel coins for circulation in Canada. In 1967, in celebration of Canada's Centennial of Confederation, a \$20 gold piece was minted, the first gold coin struck since 1919. In 1935, on the occasion of His Majesty's Silver Jubilee, the Royal Canadian Mint issued the first Canadian silver dollars. Commemorative dollars were also issued in 1939 on the occasion of the visit of King George VI and Queen Elizabeth to Canada; in 1949, when Newfoundland became the tenth Province of Canada; in 1958, the one-hundredth anniversary of the establishment of the Colony of British Columbia; in 1964, the centennial of the Charlottetown and Quebec Conferences which paved the way to confederation. The silver dollar bearing the design of the canoe manned by an Indian and a Voyageur has been issued in the years 1935-38, 1945-48, 1950-57, 1959-63, 1965, 1966 and 1972. For centennial year the Canada goose replaced the usual canoe design on the silver dollar. Because of a world-wide shortage of silver, the Government, in Aug. 1967, authorized the Mint to change the metal content of the 25-cent and 10-cent coins. Commencing in Sept. 1968, the 10-cent, 25-cent, 50-cent and \$1 coins were minted in pure nickel.

Gold refining is one of the principal activities of the Mint. In 1972, 1,939,715 troy oz. of fine gold were received for treatment, and 1,895,252 troy oz. of bullion were issued. Coin issued: Bronze, \$4,198,578; nickel, \$26,006,088.

DEFENCE. The control and management of all matters relating to national defence, the Canadian Armed Forces (which were constituted as a single service on 1 Feb. 1968), and the Defence Research Board are the responsibility of the Minister of National Defence.

Effective 1 Aug. 1964, the Headquarters of the Royal Canadian Navy, the Canadian Army and the Royal Canadian Air Force were integrated to form a single Canadian Forces Headquarters (CFHQ) under a single Chief of Defence Staff, who provides military advice to the Minister of National Defence and controls and administers the Canadian Forces through CFHQ. CFHQ is organized in 4 functional branches headed by the Vice-Chief of Defence Staff, the Chief of Personnel, the Chief of Technical Services and the Comptroller General. The civilian administration of the Department is organized under the Deputy Minister.

COMMAND STRUCTURE. The Canadian forces are organized on a functional basis to reflect the major commitments assigned by the Government. All forces devoted to a primary mission are grouped under a single commander who is assigned sufficient resources to discharge his responsibilities. Specifically, the Canadian forces are formed into 7 major entities reporting to the Chief of the Defence Staff. These are as follows:

1. *Mobile Command* provides units trained and equipped to support the United Nations or other peacekeeping operations; provides ground forces, including tactical air support, for the protection of Canadian territory; maintains combat formations in Canada for support of overseas commitments. It is comprised of 3 airportable combat groups in Canada; the United Nations force in Cyprus; the Canadian Airborne Regiment; 2 tactical fighter squadrons; 4 tactical helicopter squadrons; 1 transport helicopter squadron; 1 helicopter training squadron, and 1 combat training centre. The Militia and Air Reserve components are also controlled by Mobile Command.

2. *Maritime Command*. All maritime sea and air forces on the Atlantic and Pacific coasts are under the Commander, Maritime Command, with headquarters in Halifax, Nova Scotia. The Maritime Commander (Pacific), who is the Deputy Commander, has his headquarters in Esquimalt, British Columbia. Maritime Command is to defend Canada against attack from the sea; provide anti-submarine defence in support of NATO; conduct search and rescue operations on the east and west coast; provide sea transport in support of Mobile Command. Composition of the maritime forces includes 24 destroyer-escorts, 3 supply ships; 4 submarines, 6 small support and training vessels; 11 air squadrons, including 6 with CP-107 Argus maritime reconnaissance aircraft and training, support and helicopter units. Sea King helicopters are operated from destroyers. There are 16 naval reserve units in major Canadian cities which form an essential component of Maritime Command.

3. *No. 1 Canadian Air Group* is the Canadian contribution to the strike-reconnaissance forces available to the Supreme Allied Commander Europe (SACEUR). The Group is operationally responsible to the Fourth Allied Tactical Air Force (4 ATAF) and has 3 squadrons of CF-104 Starfighter ground attack aircraft based at airfields in Germany.

4. *Air Defence Command* participates with the USA in the air defence of North America through NORAD. The forces assigned to Air Defence Command are 3

squadrons of CF-101 Voodoo all-weather interceptors, armed with nuclear and conventional missiles, CF-104 Starfighters of an operational training squadron, CF-100 Mk. 5 aircraft of an electronic warfare squadron, one semi-automatic ground environment (SAGE) control centre and a trans-continental radar line. Operational control is exercised by HQ NORAD.

5. *Air Transport Command* supplies air transport to Canadian forces everywhere; conducts search and rescue operations in most of Ontario and Quebec. The command has 6 squadrons operating short-range, long-range and troop-carrying aircraft, including C-130 Hercules, CC-115 Buffalo, CC-109 Cosmopolitan, Fan Jet Falcon, C-47, and CC-137 (Boeing 707-320C). Two of the 5 CC-137s are equipped as flight refuelling tankers. Four search and rescue squadrons of ATC operate CC-115 and CC-138 Twin Otter aircraft and Boeing-Vertol CH-113 helicopters.

6. *Training Command* provides training for the forces and conducts search and rescue operations in the Prairie Provinces. The Canadian Services Colleges (Royal Military College, Royal Roads and Collège militaire royal de Saint-Jean), the Staff Colleges and medical-dental training are under the direct control of CFHQ. While operational training in land-air warfare is the responsibility of Mobile Command, basic parachute training and basic fixed-wing or helicopter pilot training are a Training Command responsibility.

7. *Canadian Forces Communications System (CFCS)* provides fixed communications networks for the forces and a national communications system for survival operations (civil defence). CFCS commands all fixed communications installations in Canada.

8. *Reserve and Survival Organization*. Command and administration of the army reserves is effected through 5 Regional and 7 District Headquarters, responsible to the Deputy Chief of Reserves through the appropriate functional commanders. The reserves provide aid to the civil power, emergency forces for the national survival and a training force to support the regular forces.

Canadian Armed Forces expenditures amounted to \$1,981.6m. in 1972-73. Estimates for 1973-74 were \$2,126m. Strength of the Regular Forces on 31 Dec. 1973 was 81,727.

9. *Canadian Forces Europe*. The Canadian Forces allocated to support NATO in Europe are part of Canadian Forces Europe. The land element is No. 4 Canadian Mechanized Battle Group operationally responsible to the Central Army Group. The air element, No. 1 Canadian Air Group, consisting of 3 CF-104 Starfighter squadrons, is operationally assigned to No. 4 Allied Tactical Air Force. These elements are located in the Baden-Baden area of West Germany and are supported administratively by CFB Europe at Lahr.

POLICE FORCES. The police forces of Canada are organized in three groups: (1) the federal force, which is the Royal Canadian Mounted Police; (2) provincial police forces—the Provinces of Ontario and Quebec have their own provincial police forces, but all other provinces engage the services of the Royal Canadian Mounted Police to perform parallel functions within their borders, and (3) municipal police forces—each urban centre of reasonable size maintains its own police force or engages the services of the provincial police, under contract, to attend to police matters.

In addition, the Canadian National Railways, the Canadian Pacific Railway Company and the National Harbours Board have their own police forces.

ROYAL CANADIAN MOUNTED POLICE. It was organized in 1873 as the North West Mounted Police, to provide police protection in the unsettled portions of

the north-west. In 1904 the title 'Royal' was given to the force. In 1920 the Dominion Police was amalgamated with it and the name was changed to the Royal Canadian Mounted Police. The headquarters was moved from Regina to Ottawa, and the force may now be called upon to perform duties in any portion of Canada. In 1928 the Royal Canadian Mounted Police absorbed the Saskatchewan Provincial Police, and in 1932 the Provincial Police Forces of Alberta, Manitoba, New Brunswick, Nova Scotia and Prince Edward Island. During 1932 the Force also assumed the administration of the Preventive Service Branch of the Department of National Revenue. In Aug. 1950 the Royal Canadian Mounted Police absorbed the Newfoundland Rangers and selected members of the Newfoundland Constabulary whose duties are outside the City of St John's. The British Columbia Provincial Police were also absorbed by the Royal Canadian Mounted Police in 1950. The Force is under the jurisdiction of the Solicitor-General of Canada.

The term of engagement in the Royal Canadian Mounted Police is 5 years. Training divisions are located at Regina, Sask., and Ottawa, Ont.

In Jan. 1974 the Force had a total strength of 15,250, including marine and special constables. It maintained 3,900 motor vehicles, 55 police service dogs and 135 horses.

The Force has 12 divisions actively engaged in law enforcement, one Headquarters Division and 2 training divisions. In addition it maintains a Marine Services and Air Services with headquarters at Ottawa. The Marine Services also has establishments at Halifax, N.S. and Esquimalt, B.C. and is comprised of 325 patrol vessels which operate on the east and west coasts, the Great Lakes and the St Lawrence River. The Air Division has stations throughout Canada and maintains 22 aircraft.

AGRICULTURE. Though the manufacturing industries now predominate, agriculture is still very important to the Canadian economy. It contributes between 7 and 10% of the net value of production and in 1972 accounted for 12% of the value of commodities exported.

It is estimated that about 35% of the total land area is forested; according to the census of 1971, 265,107 sq. miles (7.4% of the total land area) is classed as occupied agricultural land. Grain growing, dairy farming, fruit farming, ranching and fur farming are all carried on successfully.

The following table shows the estimated value of agricultural production for 1972, in \$1,000 Canadian:

Field crops	2,581,833 ¹	Poultry meat	298,573	Vegetables	94,037
Livestock on farms	3,549,418	Eggs	173,419	Fruits	83,353 ¹
Milk production	833,270	Poultry	156,690	Maple products	12,559
Butter, creamery	253,833	Tobacco	142,361	Honey	15,623

¹ 1971.

Number of occupied farms (census of 1971) was 366,128.

IRRIGATION. Large-scale irrigation in Canada began with the passing of the North West Irrigation Act, 1894. With the transfer of the natural resources in 1931, the administration of water rights, excepting international streams, became a provincial responsibility. The Prairie Farm Rehabilitation Act, 1935, marked the beginning of a new phase whereby the Dominion Government was to undertake construction of large irrigation works, to provide assistance for individual projects, as well as to conduct surveys and prepare plans. About 1.5m. acres have been or are being developed out of a potentially irrigable 3m. acres.

Irrigation projects are in operation in Alberta with an irrigable area of about 1m. acres, when completed; the St Mary, Belly and Waterton Rivers Project irrigates about 510,000 acres. A total of 216,000 acres of land are irrigated in British Columbia, mainly for the growing of small fruits and vegetables and for dairying. Construction of the South Saskatchewan River project began in 1959; it is to irrigate 500,000 acres. Other projects are being developed in Manitoba (Wilson Creek, Assiniboine dam, etc.).

FIELD CROPS. In 1972, 63,854,000 acres were under principal field crops with an estimated total value of \$2,581,833,000. The most valuable field crops are wheat, tame hay, oats, barley, potatoes, corn for grain, flaxseed, mixed grains, rapeseed, fodder corn, soybeans and sugar-beet. The estimated acreage and yield of the principal field crops, by provinces, in 1973 were:

LIVESTOCK. In parts of Saskatchewan and Alberta stockraising is still carried on as a primary industry, but the livestock industry of the country at large is mainly a subsidiary of mixed farming. The following table shows the numbers of livestock (in 1,000) by provinces in 1973:

Provinces	Horses	Milch cows	Other cattle	Sheep and lambs	Swine	Poultry

Wool production (in 1m. lb.), 1960, 7.8; 1961, 7.5; 1962, 7.2; 1963, 6.8; 1964, 6.3; 1965, 5.8; 1966, 5; 1967, 3.8; 1968, 3.5; 1969, 3.5; 1970, 3.5; 1971, 3.6; 1972, 3.4.

DAIRYING. The dairy industry has shown a marked tendency towards centralization; the number of establishments decreased between 1961 and 1971 from 1,720 to 809 (-53%), whereas the number of employees has remained constant. Production, 1972: Creamery butter, 290.6m. lb.; factory cheese, 249.4m. lb.; milk, 17,709m. lb.

FRUIT FARMING. The value of fruit production by provinces in 1971 was (in \$1,000); Ontario, 42,105; British Columbia, 24,885; Quebec, 9,495; Nova Scotia, 4,323; New Brunswick, 1,821; Prince Edward Island, 520; Newfoundland, 204. Total apple production in Canada in 1971 was 20,532,000 bu.

TOBACCO. The production in 1972 of tobacco, which is practically confined to Ontario and Quebec, was estimated at 187m. lb. from 103,380 acres and valued at \$142m.

FORESTRY. The total area of land covered by forests is estimated at 1,244,291 sq. miles, of which 74% is suitable for regular harvest.

Lumber production (in 1,000 bd ft) 1964, 10,424,525; 1965, 10,166,874; 1966, 10,007,790; 1967, 9,962,480; 1968, 10,754,523; 1969, 11,100,357; 1970, 11,263,320; 1971, 12,735,025.

The gross value of lumber production (including all saw-mill products) in 1971 was \$1,159,396,000. Pulp production was 18.3m. tons in 1970 and 18.2m. tons in 1971. In 1971 newsprint production amounted to 7,798,000 tons (8,102,000 tons in 1972) and was valued at \$1,084,282,000 (\$1,157,509,000 in 1972).

FISHERIES. During 1972, landings in Canadian commercial fisheries reached 1,834.9m. lb. The landed value was \$140m. and the estimated market value was about \$300m. The landed value of principal fish in 1972 was (in \$1,000): Salmon, 51,408; lobster, 36,465; cod, 27,632; scallops, 19,313; halibut, 15,152; herring, 14,684; flounders and sole, 14,566.

MINING. Ontario, Alberta, Quebec, British Columbia and Saskatchewan are the chief mining provinces. The total value of the mineral produced in 1973 was \$8,238,102,000. The principal minerals produced in 1973 were as follows:

Metallics	Quantity	Value (\$)
Copper (lb.)	1,798,950,000	1,147,629,000
Nickel (lb.)	587,816,000	785,213,000
Zinc (lb.)	2,725,297,000	652,981,000
Iron ore (tons)	55,107,000	613,112,000
Gold (troy oz.)	1,930,000	186,111,000
Lead (lb.)	771,728,000	124,556,000
Silver (troy oz.)	48,843,000	122,107,000
Iron, remelt (tons)		41,423,000
Molybdenum (lb.)	27,450,000	39,188,000

With the discovery of large oilfields in Alberta, the production of petroleum became a major Canadian industry. The Interprovincial Pipeline, Canada's longest oil pipeline, has a right-of-way length of 2,747 miles from the Redwater oilfields in the Edmonton area to Port Credit, Ontario, near Toronto, and includes a 95-mile lateral line to Buffalo, New York. The total pipeline mileage in the right-of-way was 4,422 miles at the end of 1972. It serves 19 refineries in Canada and 17 in the USA. Another pipeline, Trans Mountain, extends from Edmonton to Vancouver, with a right-of-way length of 780 miles and a total pipe mileage of 898 miles. Eight refineries, 5 in Canada and 3 in Washington State, are served by the pipeline. At the end of 1972 Canada's oil pipeline system had 18,311 miles

of line in operation. Net oil deliveries in 1971 were 815,072,000 bbls. The Trans-Canada natural gas line is the longest in the world (4,878 miles in 1972). It brings natural gas from the Alberta-Saskatchewan border across the prairies, through northern Ontario to Toronto, then eastward to Montreal. Natural gas pipeline mileage totalled about 67,300 miles in 1972. Net deliveries of natural gas into the pipelines in 1971 was 2,042,754m. cu. ft.

MANUFACTURES. Statistics for 1971, for the 20 leading industries:

FUR TRADE. In 1971-72 (year ended 30 June), 4,323,947 wild-life pelts valued at \$33,009,928, were taken. Beaver furs led in total value, followed by muskrat, lynx, seals, fox, mink and coyote. The most important animal raised on fur farms is mink, with 99% of the total production. The value of pelts from fur farms in 1972 was \$16,717,155, of which mink accounted for \$16,619,053. There were, in 1972, 657 fur farms, of which 40 reported fox and 617 mink.

WATER POWER. The installed capacity on 1 Jan. 1972 was 46,678,000 kw., of which 66% was hydro power and 34% thermal. Utilities accounted for 86% of the generating capacity and 86% of the net generation in 1972. The total net electric energy generated in 1972 was 238,567.84m. kwh. In 1971 gross revenue from 7,042,232 customers was \$1,922,146,000. A treaty signed in Washington 17 Jan. 1961 provides for the joint development of Columbia River basin by Canada and the US. The treaty will run for 60 years. The US has the option to build the Libby Dam on the Kootenay in northern Montana within 5 years of ratification. Canada will build 3 dams, at Arrow Lake, Mica Creek and Duncan Lake.

LABOUR. In Dec. 1973 the industrial distribution of the employed was estimated as follows (in 1,000): Manufacturing, 1,988; service, 2,329; trade, 1,581; agriculture, 391; other primary industries, 221; construction, 534; transportation and other utilities, 767; finance, insurance and real estate, 414; public administration, 562; total employed, 8,786; unemployed, 512.

About 34% of Canada's non-agricultural paid workers belong to trade unions, which had 2.37m. members in Jan. 1972. Almost 75% of the organized workers are members of unions affiliated with the Canadian Labour Congress, and almost 10% are in affiliates of another central body, the Confederation of National Trade Unions. More than 1.4m. of the union members were in international unions, which have branches both in Canada and the US and in most cases belong to central labour organizations in both countries.

It is generally established by legislation, both federal and provincial, that a trade union to which the majority of employees in a unit suitable for collective bargaining belong, is given certain rights and duties. An employer is required to meet and negotiate with such a trade union to determine wage-rates and other working conditions of his employees. The employer, the trade union and the employees affected are bound by the resulting agreement. If an impasse is reached in negotiation conciliation services provided by the appropriate government are available. Generally, work stoppages may not take place until an established conciliation procedure has been carried out and are prohibited while an agreement is in effect. Almost 44% of the workers affected by collective agreements are in the manufacturing industry.

Freedom of association is a civil right in Canada, and under common law workers are at liberty to join unions and participate in their activities. This right has also been guaranteed by statutes which make it an offence to interfere with freedom of association.

Certain specific minimum standards in regard to working conditions are set by law, for the most part by provincial labour legislation. Minimum wages, maximum hours of work or an overtime rate of pay after a specified number of hours, minimum weekly rest periods and annual vacations with pay are established for the majority of workers.

Workmen injured in the course of employment or disabled by industrial disease are required to receive compensation under workmen's compensation laws which apply to most employees except agricultural workers. Benefits during the period of disability for work are set by law at a proportion (now 75%) of the workman's average earnings, subject to a maximum established in each province. Benefits (which also include monthly allowances to dependants in the case of the death of a workman caused by an accident or disease arising out of his employment) are paid out of an accident fund administered by a government board in each province. The fund is made up of contributions from employers according to an annual assessment rate, varying from a few cents to several dollars per \$100 of payroll according to the hazards of the industry.

COMMERCE. In the past the custom tariff of Canada has been protective, with a preferential tariff in favour of the UK, the Dominions, a number of the Crown Colonies, and the Irish and South African Republics. At the Imperial Economic Conference of 1932, held in Ottawa, the UK developed further the policy of preferential tariffs to the Dominions, and on the part of the latter there was a general lowering of the existing tariffs against certain lines of UK manufacturers. Canada is one of the signatories of the General Agreement on Tariffs and Trade (GATT) and of the Kennedy Round agreements.

SHIPPING. The registered shipping on 31 Dec. 1972, including vessels for inland navigation, totalled 28,584 with a gross tonnage of 3.9m. The sea-going and coasting vessels that entered Canadian ports during the year ending 31 Dec. 1971 were as follows: Foreign service vessels, 24,970 of 114,252,881 tons. Coasting service vessels, 68,083 of 96,274,780 tons.

The major canals in Canada are those of the St Lawrence–Great Lakes waterway with their 7 locks, providing navigation for vessels of 25.75-ft draught from Montreal to Lake Ontario; the Welland Canal by-passing the Niagara River between Lake Ontario and Lake Erie with its 8 locks; and the Sault Ste Marie Canal and lock between Lake Huron and Lake Superior. These 16 locks overcome a drop of 582 ft from the head of the lakes to Montreal. The St Lawrence Seaway was opened to navigation on 1 April 1959 (see map in THE STATESMAN'S YEAR-BOOK, 1957). In 1971, 8,428 vessels passed through the St Lawrence Seaway carrying 70,783,202 ton of freight, chiefly grain, iron and coal. The value of fixed assets administered by the National Harbours Board was \$421m. at 31 Dec. 1972.

COAST GUARD. The Canadian Coast Guard (formed in 1962) is responsible to the Minister of Transport. In 1972 it comprised the arctic patrol vessel (helicopter carrier and icebreaker) *Labrador*; 2 weather-ships; 9 heavy and 9 light icebreakers; a special arctic service ship; a cable repair ship; 9 supply vessels (former landing craft); and 53 other vessels.

RAILWAYS. The total first maintrack mileage of railways in Canada on 31 Dec. 1972 was 44,025. The total mileage, including second maintrack, yardtrack and sidings, was 60,037.

Canada has 2 great trans-continental systems: the Canadian National Railway system, a government-owned body which operates 23,506 miles of the total first maintrack, and the Canadian Pacific Railway Company, a joint-stock corporation with first maintrack totalling 16,588 miles (31 Dec. 1972).

Selected statistics of Canadian railways for 1972: Passengers carried 23m.; revenue freight, 122,399,100 ton-miles; freight revenue, \$1,679m.; total railway operating revenues, \$1,930m.

URBAN TRANSIT. In 1970 urban transit systems (motor bus, trolley coach, street car and subway operations) operated 8,466 vehicles and carried 1,018,433,674 initial revenue fare passengers over 251,654,410 vehicle-miles for an operating revenue of \$251,945,388. Operating expenses totalled \$256,047,056. Total assets were \$271,112,670 and long-term debt was \$143,592,531. The 33 municipal transit systems had a net operating deficit of \$4,974,812, while the 47 privately operated systems reporting declared a net operating revenue of \$873,144.

ROADS. The total highway mileage in Canada in 1971 was 518,318. Of this total 404,898 miles were surfaced and 113,420 miles improved and other earth roads. Expenditure (1971) on roads, bridges, ferries, etc., reached a total of \$2,535m. Federal and provincial governments supplied \$1,162m., with the remainder contributed by municipal and other sources. Federal expenditures were chiefly devoted towards the upkeep of national-park roadways and nationally owned bridges and ferries, although for the 'Mackenzie Highway' from Grimshaw, Alberta, to Hay River, Northwest Territories, the federal government paid about 68% of the total cost. In general, however, highways are provincially controlled and maintained, and the responsibility of assisting municipalities and townships falls directly on the provinces.

The Alaska Highway is part of the Canadian highway system. For the Trans-Canada Highway *see* map in THE STATESMAN'S YEAR-BOOK 1962.

Registered motor vehicles totalled 9,714,969 in 1972; they included 7,407,275 passenger cars and taxis, 1,681,577 commercial vehicles, 248,501 motor cycles and 377,616 other motor vehicles (mostly snowmobiles).

AVIATION. Civil aviation in Canada is under the jurisdiction of the Federal Government. The technical and administrative aspects are supervised by the Administrator of Air Transportation, while the economic functions are assigned to the Canadian Transportation Commission.

Landings and take-offs-controlled by the Department of Transport's 53 towers totalled 4,895,376 in 1971.

In 1971 Canadian airlines carried 12,484,000 passengers, flying 11,503m. revenue-passenger-miles and 382.1m. ton-miles of freight. Operating revenue was \$884.9m.; operating expenditure, \$828.5m.

POST. On 31 March 1973 there were 8,684 post offices. There were also 5,014 rural mail delivery routes servicing 826,732 customers. Gross revenue was \$563.1m.; gross expenditure, \$654.1m. for the fiscal year 1972-73.

There were 739,836 miles of telegraph wire in Canada in 1971 (including external cable landed in Canada). There were 63m. miles of telephone wire and 10,987,141 telephones on 31 Dec. 1972 (50 per 100 population).

WIRELESS COMMUNICATIONS. There were 345 standard broadcast band stations operating in Canada in Dec. 1972, of which 38 were Canadian Broadcasting Corporation stations and 307 were privately owned stations. In addition, there were 22 short-wave stations, 16 of which were CBC and 6 privately owned, together with 10 CBC and 77 privately owned frequency-modulation stations. Of the 518 television stations, 165 were owned by the CBC and 353 privately owned. Radio and television licence fees were abolished in 1953.

Wireless 'beam' stations are operated at Montreal for direct communications with Great Britain and Australia, and a station at Louisburg, N.S., provides a long-distance service to ships.

BANKING. Commercial banks in Canada are known as chartered banks and are incorporated under the terms of the Bank Act, which imposes strict conditions as to capital, notes in circulation, returns to the Dominion Government, types of lending operations and other matters. In Dec. 1973 there were in operation 10 chartered banks incorporated under the provisions of the Bank Act, with 6,564 branches and sub-agencies in Canada and 256 branches and sub-agencies in other countries. The Bank Act is subject to revision by Parliament every 10 years; latest revision 1967. Bank charters expire every 10 years and are renewed at each decennial revision of the Bank Act. The chartered banks make detailed monthly and yearly returns to the Minister of Finance and are subject to periodic inspection by the Inspector-General of Banks, an official appointed by the Government.

The following are some particulars of the 10 chartered banks at 31 Dec. 1973: Capital paid up, \$343.2m.; rest account, \$1,862.2m.; Canadian currency deposits, \$48,564.8m.; foreign currency deposits, \$24,577.3m.; liabilities to the public, \$77,548.2m.; total assets, \$79,753.6m. Cheques cashed at the clearing-house centres of Canada for 1972 amounted to \$1,040,537m.

The Bank of Canada Act, passed on 3 July 1934, provided for the establishment of a central bank for the Dominion. This bank commenced operations on 11 March 1935 with a paid-up capital of \$5m. By reason of certain changes introduced into the composition of stockholders of the bank (for which see *THE STATESMAN'S YEAR-BOOK*, 1944, pp. 322-23), the Minister of Finance on behalf of Canada is the sole registered owner of the capital stock of the bank. The revised Bank Act, which came into force on 1 May 1967, requires the chartered banks, beginning Feb. 1968, to maintain a statutory cash ratio of 12% on demand deposits and 4% on other deposits, in the form of reserves with and notes on the Bank of Canada. A secondary reserve of 7% in treasury bills, government bonds, etc., is also required. All gold held in Canada by the chartered banks was transferred to the Bank of Canada along with the gold held by the Government as reserve against Dominion notes outstanding at the time of the commencement of operations of the Bank of Canada. The liability of the Dominion notes outstanding at the commencement of business of the Bank of Canada was assumed by the bank. The following are some of the particulars of the Bank of Canada as at 31 Dec. 1973: Notes in circulation, \$5,551m.; chartered bank deposits, \$2,006m.; total liabilities, \$7,999m.; investments, \$7,411m.

In Aug. 1944 the Industrial Development Bank, a subsidiary of the Bank of Canada, was set up for the purpose of providing credit in the post-war period to small industrial establishments. The statement of assets and liabilities of the Industrial Bank for the fiscal year ended 30 Sept. 1973 showed outstanding loans and investments of \$730.5m. The authorized, issued and paid-up capital at this date amounted to \$62m.

STATISTICAL INFORMATION. Statistics Canada, Ottawa, has been the official central statistical organization for Canada since 1918. The Bureau, which reports to Parliament through the Minister of Industry, Trade and Commerce, serves as the statistical agency for Federal Government Departments; co-ordinates the statistics of the Provincial Governments along national lines; and channels all Canadian statistical data to internal organizations. *Statistician Chief of Canada:* Walter E. Duffet.

Publications of Statistics Canada are classified as periodical (issued more frequently than once a year), annual, biennial and occasional publications. The occasional publications frequently supplement the annual reports and usually contain historical information. A complete list is contained in the 1968 edition of the Statistics Canada catalogue, and supplements, available on request. Official publications include:

CANADIAN PROVINCES

The 10 provinces have each a separate parliament and administration, with a Lieut.-Governor, appointed by the Governor-General in Council at the head of the executive. They have full powers to regulate their own local affairs and dispose of their revenues, provided only they do not interfere with the action and policy of the central administration. Among the subjects assigned exclusively to the provincial legislatures are: the amendment of the provincial constitution, except as regards the office of the Lieut.-Governor; property and civil rights; direct taxation for revenue purposes; borrowing; management and sale of crown lands; provincial hospitals, reformatories, etc.; shop, saloon, tavern, auctioneer and other licences for local or provincial purposes; local works and undertakings, except lines of ships, railways, canals, telegraphs, etc., extending beyond the province or connecting with other provinces, and excepting also such works as the Dominion Parliament declares are for the general good; marriages, administration of justice within the province; education. Quebec has 2 legislative chambers and other provinces 1 chamber. The Northwest Territories and the Yukon Territory are governed by commissioners, appointed by the Governor-in-Council, assisted by councils.

LOCAL GOVERNMENT. Under the terms of the British North America Act the provinces are given full powers over local government. All local government institutions are, therefore, supervised by the provinces, and are incorporated and function under provincial acts.

The acts under which municipalities operate vary from province to province. A municipal corporation is usually administered by an elected council headed by a mayor or reeve, whose powers to administer affairs and to raise funds by taxation and other methods are set forth in provincial laws, as is the scope of its obligations to, and on behalf of, the citizens. Similarly, the types of municipal corporations, their official designations and the requirements for their incorporation vary between provinces. The following table sets out the classifications as at 1 Jan. 1968.

NEWFOUNDLAND

HISTORY. Newfoundland was discovered by John Cabot 24 June 1497, and was soon frequented in the summer months by the Portuguese, Spanish and French for its fisheries. It was formally occupied in Aug. 1583 by Sir Humphrey Gilbert on behalf of the English Crown, but various attempts to colonize the island remained unsuccessful. Although British sovereignty was recognized in 1713 by the Treaty of Utrecht, disputes over fishing rights with the French were not finally settled till 1904.

By the Anglo-French Convention of 1904, France renounced her exclusive fishing rights along part of the coast, granted under the Treaty of Utrecht, but retained sovereignty of the off-shore islands of St Pierre and Miquelon.

In Jan. 1941 three sites in Newfoundland were leased to the USA for naval or military bases; only the naval station at Argentia is still active.

CONSTITUTION AND GOVERNMENT. Until 1832 Newfoundland was ruled by the Governor under instructions from the Colonial Office. In that year a Legislature was brought into existence, but the Governor and his Executive Council were not responsible to it. Under the constitution of 1855, which lasted until its suspension in 1934, the government was administered by the Governor appointed by the Crown with an Executive Council responsible to the House of Assembly of 27 elected members and a Legislative Council of 24 members nominated for life by the Governor in Council. Women were enfranchised in 1925. At the Imperial Conference of 1917 Newfoundland was constituted as a Dominion.

In 1933 the financial situation had become so critical that the Government of Newfoundland asked the Government of the UK to appoint a Royal Commission to investigate conditions. On the strength of their recommendations, the parliamentary form of government was suspended and Government by Commission was inaugurated on 16 Feb. 1934.

A National Convention, elected in 1946, made, in 1948, recommendations to H.M. Government in Great Britain as to the possible forms of future government to be submitted to the people at a national referendum. Two referenda were held. In the first referendum (June 1948) the three forms of government submitted to the people were: commission of government for 5 years, confederation with Canada and responsible government as it existed in 1933. No one form of government received a clear majority of the votes polled, and commission of government, receiving the fewest votes, was eliminated. In the second referendum (July 1948) confederation with Canada received 78,408 and responsible government 71,464 votes.

In the Canadian Senate on 18 Feb. 1949 Royal assent was given to the terms of union of Newfoundland with Canada, and on 23 March 1949, in the House of Lords, London, Royal assent was given to an amendment to the British North America Act made necessary by the inclusion of Newfoundland as the tenth Province of Canada.

Under the terms of union of Newfoundland with Canada, which was signed at Ottawa on 11 Dec. 1948, the constitution of the Legislature of Newfoundland as it existed immediately prior to 16 Feb. 1934 shall, subject to the terms of the British North America Acts, 1867 to 1946, continue as the constitution of the Legislature of the Province of Newfoundland until altered under the authority of the said Acts.

The Constitution of the Legislature of Newfoundland in so far as it relates to the Legislative Council shall not continue, but the Legislature of the Province of Newfoundland may at any time re-establish the Legislative Council or establish a new Legislative Council. The franchise was in 1965 extended to all male and female residents who have attained the age of 19 years and are otherwise qualified as electors.

A Redistribution Act was passed in 1962, constituting 41 electoral districts and 42 members of the Legislature who receive \$10,000 per annum.

The general election held on 24 March 1972 returned 33 Progressive-Conservatives and 9 Liberals.

The Province is represented by 6 members in the Senate and by 7 members in the House of Commons of Canada.

Lieut-Governor: E. John A. Harnum (assumed office 1 April 1969).

The Progressive-Conservative Executive Council was, in Feb. 1974, composed as follows:

Premier: Frank D. Moores.

Justice: T. Alex Hickman. *Finance*: John C. Crosbie. *Education*: G. Ottenheimer. *President of the Council*: Dr T. Farrell. *Transportation and Communications*: T. Hickey. *Social Services*: A. J. Agent-General in London: H. Watson Jamer (60 Trafalgar Sq., WC2).

AREA AND POPULATION. Area, 156,185 sq. miles (383,300 sq. km). The coastline is extremely irregular. Bays, fiords and inlets are numerous and there are many good harbours with deep water close to shore. The coast is rugged with bold rocky cliffs from 200 to 400 ft high; in the Bay of Islands some of the islands rise 500 ft, with the adjacent shore 1,000 ft above tide level. The interior is a plateau of moderate elevation and the chief relief features trend north-east and south-west. Long Range, the most notable of these, begins at Cape Ray and extends north-east for 200 miles; the highest peak reaching 2,673 ft. Approximately one-third of the area is covered by water. Grand Lake, the largest body of water, has an area of about 200 sq. miles. The principal rivers flow towards the north-east. On the borders of the lakes and water-courses good land is generally found, particularly in the valleys of the Terra Nova River, the Gander River, the Exploits River and the Humber River, which are also heavily timbered.

Census population, 1971, was 522,104.

The capital of Newfoundland is the City of St John's (131,814, metropolitan area). The only other city is Corner Brook (26,309); important towns are Stephenville (7,770), Gander (7,748), Grand Falls (7,677), Windsor (6,644), Wabana (5,421), Channel-Port aux Basques (5,942), Carbonear (4,732), Bonavista (4,215).

Religion, *see* p. 241.

EDUCATION. The number of schools in 1973-74 was 694. The enrolment was 160,660; teachers numbered 6,597. The Memorial University, offering courses in arts, science, engineering and education, had approximately 7,300 full-time students. Total expenditure for education by the Government in 1973-74 was \$165m.

FINANCE. Budget¹ in Canadian \$1,000 for fiscal years ended 31 March:

	1968-69	1969-70	1970-71	1971-72	1972-73 ²	1973-74 ³

Gross expenditure	254,828	272,797	301,823	367,212	400,851	448,653

¹ Current amount only.

² Revised estimates.

³ Estimates.

Public debenture debt as at 31 March 1973 was \$746m.; sinking fund, \$108m.

AGRICULTURE. The estimated value of agricultural products sold, including livestock, in 1972, was \$12.5m.

FISHERIES. The principal fish landings are cod, flounder, greysole, plaice, Greenland turbot, perch, lobster, salmon and herring. In 1972 some 8,800 men were employed by the industry and there were 14,452 full- and part-time fishermen. Forty-six freezing plants and 71 saltfish plants were in operation. The production of fresh and frozen fish products was 160m. lb. There were 265 large, 97 minke and no pothead whales caught and processed in 1972.

The total catch in 1972 was 649m. lb. valued at \$37m., of which the main items were: Cod, 213.2m. lb. (\$13m.); flatfish, 177.9m. lb. (\$9.5m.); perch, 61.5m. lb. (\$2.3m.); lobster, 2.7m. lb. (\$3.2m.); salmon, 3.1m. lb. (\$1.8m.). In addition, there were 142.1m. lb. of herring landed.

The seal fishery in 1972 was prosecuted by 4 large licensed and 42 small licensed vessels with 518 men. The number of pelts landed by 60 vessels and 3,423 landmen totalled 41,743 valued at \$434,000.

FORESTRY. The forest economy in the Province is dependent in the main on the operation of two pulp and paper companies which, in 1972, exported 580,000 tons of newsprint. Sawlog operations and miscellaneous cuttings, conducted in Crown Land limits with 1,085 saw-mills, cut 30.6m. f.b.m. Total value of forest production for 1972 was \$87m.

MINING. The mineral resources are vast. Large deposits of iron ore, with an ore reserve of over 3,000m. tons at Labrador City, Wabush City and in the Knob Lake area are supplying approximately half of Canada's production. In addition to the 3 major iron-ore operations in Labrador, there are 10 other mines producing copper, lead, zinc, gold, silver, asbestos, fluorspar, gypsum, limestone, pyrophyllite (soapstone) silica and brick shale. There are also several major producers of aggregates.

Production in 1972: Iron ore, 18.36m. tons (\$245m.); copper, 10,621 tons (\$10.74m.); zinc, 27,600 tons (\$10.5m.); asbestos, 69,000 short tons (\$13m.); fluorspar (\$5.3m.); lead, 17,250 tons (\$5.3m.); silver, 810,000 troy oz. (\$1.34m.); gold, 17,000 oz. (\$636,000).

INDUSTRY. A large number of new industries have been established with government assistance. They include an oil refinery valued at \$180m. and a linerboard mill valued at \$165m.

Production of newsprint in 1972 was 567,290 tons; value of exports, \$82.1m. The mill at Corner Brook has a daily production of 1,100 tons of newsprint and the mill at Grand Falls a daily production capacity of 950 tons of newsprint.

ELECTRICITY. There are 25 hydro-electric power plants within the Island part of the Province with 940,130 h.p. turbine installation. The Newfoundland and Labrador Power Commission has installed six 100,000-h.p. turbines at Bay D'Espoir on the south coast. There are also 440,000 h.p. of conventional oil-fired thermal plant in utility service on the Island; 400,000 h.p. of this coming from 2 units at Holyrood, near St John's. Also connected to the Island grid are 40,000 h.p. of gas turbine plant in 2 units of 33,000 h.p. Churchill Falls Labrador Corporation has under construction at Churchill Falls in Labrador an 11-unit 7m. h.p. generating plant. First unit service is scheduled for 1972 with the last unit scheduled for 1976. This project will result in the shutdown of the 400,000-h.p. Twin Falls Power Company plant on the Unknown River in Labrador. The Iron Ore Company of Canada also operates a 30,000-h.p. hydro plant at Menihek Lake to serve its mining load in the area. On the Island, the rural electricity authority operates approximately 34,500 h.p. of diesel-driven generating plant. This capacity is spread over some 57 small stations.

TRADE UNIONS. There were (1970) 176 unions representing 39,648 members of the American Federation of Labor, the Congress of Industrial Organizations, the Canadian Labor Congress and local independent unions (170).

SHIPPING. In 1973, 110 ships of 10 tons or over were registered in Newfoundland.

RAILWAYS. In 1970 there were 1,085 miles of railway, of which the Canadian National Railways operated 704 (3ft 6in.), the Quebec North Shore and Labrador Railway 357 (4ft 8½in.) and the Grand Falls Central Railway 26.

POST. There were 497 post offices open in 1973, including 15 combined post and telegraph or telephone offices in the Newfoundland-Labrador postal district. Telephone connexions in the province numbered 153,914.

Labrador, the most northerly district of the Province of Newfoundland, extends from L'Anse Eclair at the north-east entrance of the Straits of Belle Isle to Cape Chidley at the eastern entrance of Hudson's Strait. In March 1927 the Privy Council decided the boundary between Canada and Newfoundland in Labrador. The area now under the jurisdiction of Newfoundland is approximately 110,000 sq. miles (285,000 sq. km). The population (1971 census) is 28,165.

Geological exploration is being undertaken both by government and private bodies. The prevailing formations on the coast is granite, gneiss or mica slate, above which, in some places, are beds of old sandstone and a stratum of secondary limestone. The secondary rocks disappear towards the interior. At the headwaters of the Churchill River the geological formations are structurally similar to the iron-ore bearing area of Lake Superior.

The mineral resources of Labrador are still under investigation. The great iron-ore belt which straddles the Quebec-Labrador boundary has been developed by combined Canadian and US interests. Production began in 1954 and from the Newfoundland deposits alone over 50m. tons of ore have been extracted.

The Iron Ore Company of Canada and Wabush Iron Company have jointly constructed a 40-mile railway from Wabush to connect with the Quebec-North Shore railway in order to extract deposits in the Wabush area. Production from the Smallwood Mine of the Iron Ore Company of Canada commenced in July 1962 and attained its anticipated rate of 50,000 tons per day by Dec. 1962. The raw ore which contains 35-40% iron is upgraded to a concentrate containing 66% iron. A new \$70m. pelletizing plant was put into operation in 1963 and converts the concentrates to pellets.

Serving this area is Labrador City, a relatively new townsite with a population of approximately 10,000 and many of the amenities of southern Canadian centres.

Initial production from Wabush Iron Mines commenced in 1965 at the rate of 5.3m. tons of concentrates per year. The rapidly growing modern town of Wabush with a population of approximately 4,000 provides comfortable facilities for the workers and their families. Shipping and pelletizing operations are based at Pointe Noire, Quebec, on the Gulf of St. Lawrence.

One of the chief resources of Labrador under development is the water power which will produce hydro-electric energy on the Churchill River. The chief source of energy on the Churchill River is the Churchill Falls, upstream, some 230 miles by water from Lake Melville. These falls have a drop of 245 ft. In addition, there are rapids for 4 miles above the falls and for 12 miles below through a rock-walled canyon hundreds of feet deep. The total drop in the river from the beginning of the rapids above the falls to the end of the canyon is 1,038 ft. Work on the development of the falls began in 1967. When completed it will produce 7m. h.p. Total cost of construction is expected to be in excess of \$800m.

To speed this development of the 7m. h.p. potential of Churchill Falls, its developer, the British Newfoundland Corporation, has built a road 105 miles across Labrador.

Between Churchill Falls and the coast of Labrador there exists one of the largest stands of virgin pulpwood timber in North America. In one area around Goose airport 50m. cords of standing timber have been estimated.

The Moravian Missions have maintained, over the past 200 years, mission stations in Northern Labrador at Nakkovik, Hopedale and Nain. The Hebron Station was closed in 1959 and the Eskimo population was resettled at Nain, Hopedale and Nakkovik. The Moravian Mission has extended its operations to include Happy Valley and North West River. Happy Valley is a town with an approximate population of 4,937. The International Grenfell Association operates hospitals at Happy Valley and North West River and nursing stations at Nakkovik, Hopedale, Nain, Cartwright, Mary's Harbour and Forteau.

In the months that the coast is ice-free, from June to Nov., the Canadian National Railways operates a scheduled service every 10 days along the coast. The Government of Canada operates an international airport at Goose Bay, located at the south-west extremity of Hamilton Inlet. Other airports are at Wabush and Churchill Falls. A scheduled air service to 15 coastal communities commenced in Dec. 1971 by a second regional carrier, Labrador Airways Ltd.

PRINCE EDWARD ISLAND

HISTORY. The island was discovered by Sebastian Cabot in 1497; it was first settled by the French, but was taken from them in 1758. It was annexed to Nova Scotia in 1763, and constituted a separate colony in 1769. Prince Edward Island entered the Confederation on 1 July 1873.

CONSTITUTION AND GOVERNMENT. The provincial government is administered by a Lieut.-Governor and a Legislative Assembly of 32 members, who are elected for 5 years. At the elections in May 1970 and by-elections in Dec. 1972 the Liberals gained 25 and the Progressive Conservatives 7 seats. One woman sits in the Legislative Assembly and is also a member of the Executive Council.

Lieut.-Governor: J. George MacKay (sworn in 6 Oct. 1971).

The members of the Liberal Executive Council are as follows (Dec. 1973):

Premier, Minister of Agriculture and Forestry: Alexander B. Campbell.

President of the Executive Council, Minister of Justice, Attorney and Advocate General, and Provincial Secretary: Gordon L. Bennett. *Public Works and Highways:* George J. Ferguson. *Finance:* T. Earle Hickey. *Industry and Commerce, and Development:* Dr John H. Maloney. *Health, Social Services, and Labour:* Bruce L. Stewart. *Environment and Tourism, Community Services:* William Gallant. *Fisheries:* Robert E. Campbell. *Education:* Bennett Campbell. *Without Portfolio:* Jean Canfield.

Agent-General in London: H. Watson Jamer (40 Trafalgar Sq., WC2).

LOCAL GOVERNMENT. The Village Service Act, 1954, provides for the incorporation of villages. The city of Charlottetown and the town of Summerside have been incorporated under Special Acts. The Town Act, 1951, provides for the incorporation of all towns. The Community Improvement Act, 1968, provides for the establishment of Community Improvement Committees in the unincorporated areas of the Province.

AREA AND POPULATION. The province, which is the smallest in Canada, lies in the Gulf of St Lawrence, and is separated from the mainland of New Brunswick and Nova Scotia by Northumberland Strait. The area of the island is 2,184 sq. miles (5,656 sq. km). Total population (census, 1971), 111,641. Population of the principal cities (1971): Charlottetown (capital), 19,133; Summerside, 9,439.

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION (1972-73). There were 111 schools, 1,533 teachers, 29,340 pupils. There is 1 university, the University of Prince Edward Island (1,586 full-time students), and a college of applied art and technology (714 full-time students), both in Charlottetown. Total expenditure on education in the year ending 31 March 1972 was \$33,234,043.

FINANCE. Revenue and expenditure (in Canadian \$) for 6 financial years ending 31 March:

	1968-69	1969-70	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	55,803,047	69,066,170	83,714,100	91,962,083	102,226,137	117,908,277
Expenditure	61,202,293	69,825,691	82,000,300	96,577,541	107,263,198	125,175,753

¹ Estimates.

Total sinking funds on 31 March 1972 amounted to \$23,617,451.

AGRICULTURE. Improved farm land occupies about 774,630 acres out of a total of 1,397,750 acres. Field crops in 1971 covered about 351,384 acres, and were valued at \$21.6m. The land in natural forest covers 920 sq. miles, and in pasture 114,271 acres. For particulars of agricultural production and livestock, *see under* CANADA.

FISHERIES. The fisheries of the province in 1972 had a landed value of \$10.08m. The bulk of the value is derived from lobster, but an expanding off-shore fishery is developing a growing industry in the production of frozen fillets and of meal and oil by-products. The famous 'Malpeque' oyster abounds, with approximately 4,000 acres under scientific cultivation.

INDUSTRY. Industrial establishments produced goods to a shipment value of \$62.7m. in 1971. Electric power is supplied to over 95% of the population.

The tourist industry was estimated at \$20.1m. in 1972 with 685,422 visitors.

COMMERCE. In 1972 approximately 4.9m. cwt of tablestock and 1.1m. cwt seed potatoes left Prince Edward Island with Ontario and Quebec as major markets for tablestock potatoes whereas seed potatoes are exported to USA, Italy, Greece, Venezuela and the Caribbean. Lobsters were mostly exported to the traditional Boston market, significant quantities of eels and mackerel were shipped to Europe for the first time and codblocks and filleted cod, haddock and halibut were exported to the USA. Almost all processed meat, fruit and vegetables were exported to central Canadian markets, with strawberries and blueberries being mostly shipped to the USA.

COMMUNICATIONS. The province has a total of 3,360 miles of road, including 1,800 miles of paved highway. Rail service is provided over 283 miles of track within the province and connects with the national railways system via New Brunswick. A ferry service provides rail and highway communication with New Brunswick by means of 5 large ferries, 2 of which are powerful ice-breakers. Another ferry service employing 3 ferries for highway traffic operates between the province and Nova Scotia throughout the season of open navigation. A third ferry service employing 1 ferry operates between the province and Magdalen Islands, Quebec, during the open navigation season. Air service

for passengers, mail and cargo is scheduled to provide 8 flights daily in each direction between the province and various points in eastern Canada. A daily bus service operates between various centres in the province as well as to Nova Scotia and New Brunswick.

In 1972 there were 38,152 telephones.

NOVA SCOTIA

HISTORY. The first permanent settlement was made by the French early in the 17th century, and the province was called Acadia until finally ceded to the British by the Treaty of Utrecht in 1713.

CONSTITUTION AND GOVERNMENT. Under the British North America Act of 1867 the legislature of Nova Scotia may exclusively make laws in relation to local matters, including direct taxation within the province, education and the administration of justice. The legislature of Nova Scotia consists of a Lieut.-Governor, appointed and paid by the federal government, and holding office for 5 years, and a House of Assembly of 46 members, chosen by popular vote not more than every 5 years. The province is represented in the Canadian Senate by 10 members, and in the House of Commons by 11.

The franchise and eligibility to the legislature are granted to every person, male or female, if of age (19 years), a British subject or Canadian citizen, and a resident for 1 year in the province and 2 months before the date of the writ of election in the county or electoral district of which the polling district forms part, and it not by law otherwise disqualified. State of parties in Sept. 1973: 25 Liberals, 19 Progressive Conservatives, 2 New Democrats.

Lieut.-Governor: Dr Clarence L. Gosse (assumed office 1 Oct. 1973).

The members of the Liberal Ministry are as follows:

Premier and Chairman N. S. Power Commission: G. A. Regan, QC.

Minister of Finance, Chairman of Treasury Board: Peter M. Nicholson, QC. *Attorney-General, Minister in Charge of Human Rights Act, Administration of Civil Service Commission:* Allan E. Sullivan, QC. *Social Services:* Harold M. Huskisson. *Development:* George M. Mitchell, QC. *Education:* Dr J. William Gillis. *Labour, Public Health, in charge of Housing Development Act:* D. Scott MacNutt. *Provincial Secretary, Minister of Recreation:* A. Garnet Brown. *Fisheries:* A. M. Cameron. *Public Works:* Benoit Comeau. *Highways and Mines:* Leonard L. Pace, QC. *Municipal Affairs, in charge of the Liquor Control Act:* J. Fraser Mooney. *Tourism, Environment, Administration of Emergency Measures Act:* Glen M. Bagnell. *Lands and Forests:* M. E. Delory, MD. *Agriculture and Marketing:* John Hawkins.

Agent-General in London: John E. Shaffner (14 Pall Mall, SW1).

LOCAL GOVERNMENT. The main divisions of the province for governmental purposes are the 3 cities, the 38 towns and the 24 rural municipalities, each governed by a council and a mayor or warden. The cities have independent charters, and the various towns take their powers from and are limited by The Towns Act, and the various municipalities take their powers from and are limited by The Municipal Act as revised in 1967. The majority of municipalities comprise one county, but 6 counties are divided into 2 municipalities each. In no case do the boundaries of any municipality overlap county lines. The 18 counties as such have no administrative functions.

Any city (of which there are 3) or incorporated town (of which there are 38) that lies within the boundaries of a municipality is excluded from any jurisdiction by the municipal council and has its own government.

AREA AND POPULATION. The area of the province is 21,425 sq. miles (55,000 sq. km), of which 20,401 sq. miles are land area, 1,024 sq. miles water area. The population (census 1971) was 788,960; estimate (1972) 794,000.

Population of the principal cities and towns (census 1971): Halifax, 122,035; Dartmouth, 64,770; Sydney, 33,230; Glace Bay, 22,440; Truro, 13,047; New Glasgow, 10,849; Amherst, 9,966; Sydney Mines, 8,991; Yarmouth, 8,516.

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION. Public education in Nova Scotia is free, compulsory and un-denominational through elementary and high school. Attendance is compulsory to the age of 16. In addition to over 750 public schools there are the Halifax School for the Blind and the Interprovincial School for the Education of the Deaf; the Nova Scotia School for Boys; the Nova Scotia School for Girls, and the Nova Scotia Youth Training Centre for mentally deficient children. The province has 12 universities and colleges, of which the largest is Dalhousie University in Halifax. The Nova Scotia Agricultural College and the Nova Scotia Teachers College are located at Truro. The Nova Scotia Technical College at Halifax grants degrees in engineering and architecture.

The Department of Education operates through its Vocational Education Division 2 institutes of technology, 13 regional vocational schools, vocational evening schools, coalmining schools, a land survey institute, a marine engineering school, a marine navigation school, a correspondence study service, a service for the vocational rehabilitation of the physically handicapped and classes for unemployed persons.

The Adult Education programme of the Nova Scotia Department of Education operates through its applied arts and technology activity 3 institutes of technology, a nautical institute, and coalmining classes. It also provides in-school training for the Department of Labour Apprenticeship programme.

All training arrangements for adults including those financed by the federal Department of Manpower and Immigration are the responsibility of the Adult Vocational Activity of the Department of Education. Short courses for fishermen and farmers are conducted by the Departments of Fisheries and Agriculture respectively.

The Continuing Education Activity of the Department of Education offers financial support and organizational assistance to local school boards for provision of weekend and evening courses in academic and avocational subjects, and citizenship for new Canadians. It also provides local authorities with specialist support services to assist them in providing community workshops and short courses in fine arts and handicrafts; and it operates a correspondence study service for children and adults.

Occupational courses at the high school level are provided by 13 regional vocational schools under the jurisdiction (except in 3 amalgamated school areas) of the vocational education activity of the Department of Education Youth Education programme.

Total expenditure on public education for the year 1971-72 was \$161,136,800, of which 66% was borne by the provincial government. In 1971-72, classrooms operated in 614 school sections, with 10,351 teachers and 218,383 pupils, of whom 52,300 were in junior high school and 41,717 in senior high school grades.

JUSTICE. There is a Supreme Court which is a Court of common law and equity possessing original and appellate jurisdiction in civil and in criminal cases. The Supreme Court consists of an appeal division of 3 judges and a trial division of 6 judges. There are also county courts, family courts, probate courts, magistrates' courts, municipal and justices' courts. Bodies, sometimes referred to as

courts, are established for the revision of assessment rolls, voters' lists and like purposes. Juvenile courts throughout the Province have power to try boys and girls under the age of 16 years.

For the year ending 31 Dec. 1972 there were 3,732 admissions to provincial jails (2,528 under sentence, 3,500 on remand). The Adult Probation Service handled 2,987 cases during 1972.

FINANCE. The revenue is raised from federal subsidies granted under the British North America Act and under the Federal Provincial Fiscal Arrangements Act; and from royalties on coal and minerals, special fees on incorporated companies, partnerships, automobiles and other statutory fees, a tax on gasoline, theatre tickets, lands and forests, telephones and the sale of liquor as well as a health services tax.

The Federal-Provincial Fiscal Arrangements Act 1967 provides for a reduction of individual income taxes by reducing the federal tax payable by 28% in 1967. Federal corporation income taxes were reduced by 10% of taxable income. The Federal Government pays those provinces not laying succession duties 75% of the federal estate tax yields.

Revenue, expenditure and debt (in Canadian \$) for fiscal years ending 31 March:

	1969-70	1970-71	1971-72	1972-73 ^a	1973-74 ^a
Revenue	322,618,644	348,428,430	375,018,480	453,669,250	503,335,690

Expenditure ¹	378,013,840	430,883,543	479,767,483	549,731,690	607,505,140
Funded debt	806,749,000	917,821,000	981,986,000

¹ Not including sinking-fund instalments.

^a Preliminary.

^b Estimates.

Sinking-fund investments totalled \$132,484,728 (31 March 1972). Revenue producing assets: Advances to Nova Scotia Power Commission, \$68,101,487; to Industrial Estates Ltd, \$79,944,358; to Deuterium of Canada Ltd, \$111.6m.; others, including balance at credit of province with federal government.

AGRICULTURE. Dairying, poultry and egg production, livestock and fruit growing are the most important branches. Farm cash receipts for 1972 were estimated at \$70.1m., with an additional \$6.1m. going to persons on farms as income in kind.

Cash receipts from sale of dairy products was \$19.8m., with total milk production of 347.2m. lb.

Approved hatcheries produced 8.7m. chicks in 1972. During the year 7.7m. chicks were placed for broiler production and 1m. for egg production. Production of dressed poultry was about 24.4m. lb. Egg production was 17.4m. dozen.

The main 1972 fruit crops were apples, 1.9m. bu.; blueberries, 10m. lb.; and strawberries, 1.2m. quarts.

FORESTRY. The estimated forest area of Nova Scotia is 15,555 sq. miles, of which about 25% is owned by the Province. The principal trees are spruce, balsam fir, hemlock, pine, larch, birch, maple, poplar and ash. Beech, once an important hardwood species, has almost disappeared. 109,771,793 cu. ft of round and sawn forest products were produced in 1972.

FISHERIES. The fisheries of the province in 1972 had a landed value of \$65.5m. of sea fish including scallop fishery, \$16,621,000, and lobster fishery, \$19,341,000. In 1971 there were about 4,284 employees in the fish processing industry; the value of shipment of goods was \$89.9m.

MINING. Principal minerals in 1972 were: Coal, 1,417,000 tons, valued at \$16,369,000; gypsum, 5.99m. tons, valued at \$13,088,000; salt, 800,000 tons, valued at \$8.6m.; sand and gravel, 6m. tons, valued at \$6.3m. Total value of mineral production in 1972 was about \$54.5m.

INDUSTRY. The number of manufacturing establishments was 795 in 1971; the number of employees was 31,958; wages, \$188.8m.; value of shipments in

1972 was \$798m. The leading industries, according to value of shipments, are food and beverages, transportation equipment, paper and allied industries and timber industries.

TRADE UNIONS. The majority of unions are affiliated with the Canadian Labour Congress. The most important independent organizations are District 26, of the United Mine Workers of America, the Brotherhood of Locomotive Engineers and the Teamsters. In 1972 there were approximately 513 local unions in Nova Scotia with a membership of 74,304.

COMMUNICATIONS. The province is covered with a network of railways, 1,690 miles in extent. There were, in March 1973, 15,460 miles of highways; 1,583 miles of paved arterial highways; 2,688 miles of collector highways (of which 401 miles are unpaved); 11,189 miles of local highways (of which 9,770 miles are unpaved). The figures are exclusive of highways within cities and towns.

There is a direct air service to major Canadian and USA cities, London and Bermuda.

Ferry services connect Nova Scotia with Newfoundland, Prince Edward Island, New Brunswick and Maine.

NEW BRUNSWICK

HISTORY. Touched by Jacques Cartier in 1534, New Brunswick was first explored by Samuel de Champlain in 1604. It was ceded by the French in the Treaty of Utrecht in 1713 and became a permanent British possession in 1763. It was separated from Nova Scotia and became a province in June 1784, as a result of the great influx of United Empire Loyalists. Responsible government came into being in 1848, and consisted of an executive council, a legislative council (later abolished) and a House of Assembly.

CONSTITUTION AND GOVERNMENT. The government is vested in a Lieut.-Governor and a Legislative Assembly of 58 members on a constituency basis. A simultaneous translation system is used in the assembly. Any Canadian subject of full age and 12 months' residence is entitled to vote. As a result of the provincial election held on 26 Oct. 1970 and subsequent by-elections, the Assembly is composed of 34 Progressive Conservatives and 24 Liberals. The province has 10 members in the Canadian Senate and 10 members in the federal House of Commons.

Lieut.-Governor: Hedard J. Robichaud (appointed 8 Oct. 1971).

The members of the Progressive Conservative Ministry are as follows (Sept. 1973):

Premier: Richard B. Hatfield.

Justice: John B. Baxter. *Finance:* Jean-Maurice Simard. *Provincial Secretary:* Omer Leger. *Labour:* Rodman Logan. *Highways:* Wilfred Bishop. *Natural Resources:* A. Edison Stairs. *Agriculture:* George Horton. *Economic Growth:* P. S. Creaghan. *Education:* J. L. McGuigan. *Fisheries and Environment:* G. W. N. Cockburn. *Health:* Lawrence Garvie. *Municipal Affairs:* H. B. Smith. *Social*

Services and Youth: Brenda Robertson. *Supplies and Services:* Carl O. Mooers. *Treasury Board and Tourism:* J. P. LeBlanc. *Chairman of the New Brunswick Electric Power Commission:* J. S. Brooks.

Agent-General in London: John A. Paterson.

LOCAL GOVERNMENT. Under the reforms introduced in 1967 the province has assumed complete administrative and financial responsibility for education, health, welfare and administration of justice. Local government is now restricted to provision of services of a strictly local nature. Under the new municipal structure, units include existing and new cities, towns and villages. Counties have disappeared as municipal units. Areas with limited populations have become local service districts. The former local improvement districts have become towns, villages or local service districts depending on their size.

AREA AND POPULATION. The area of the province is 28,354 sq. miles (72,000 sq. km), of which 27,835 sq. miles are land area. The population (census 1971) was 634,560; rural population, 273,410. Census population of urban centres: Saint John, 89,039; Moncton, 47,891; Fredericton (capital), 40,480; Bathurst, 16,674; Edmundston, 12,365; Campbellton, 10,335.

Vital statistics, *see* p. 239-40.

Religion, *see* p. 241.

EDUCATION. Public education is free and non-sectarian. There are 4 universities. The University of New Brunswick at Fredericton (founded 13 Dec. 1785 by the Loyalists, elevated to university status in 1823, reorganized as the University of New Brunswick in 1859) had 4,996 students at the main campus and 531 at a subsidiary campus in Saint John (Dec. 1971); Mount Allison University at Sackville had 1,359 students; the University of Moncton at Moncton, 1,571 students; St Thomas University at Fredericton, 1,095 students. Colleges affiliated with the University of Moncton had 1,632 students.

There were, in June 1973, 173,011 pupils and 8,035 teachers using 8,716 classrooms in 535 school buildings (Grades 1-12). Large new regional schools are absorbing numbers of small country schools; the number of school districts has been lowered from 377 to 33.

FINANCE. The ordinary budget (in Canadian \$) is shown as follows (financial years ended 31 March):

	1969	1970	1971	1972	1973
Gross revenue	308,953,629	353,612,000	394,503,741	484,465,497	535,907,818
Gross expenditure	322,047,299	376,126,000	393,331,927	447,612,220	509,917,557

Funded debt outstanding (exclusive of Treasury Bills) as of 31 March 1973 was \$595.2m. Sinking funds held by province at 31 March 1973, \$104.6m.

PLANNING. A deep-water port to accommodate the largest tankers and bulk carriers is in the final stages of planning and negotiation at Lorneville near Saint John.

AGRICULTURE. The total area under field crops in 1973 was estimated at 322,000 acres, exclusive of pasture land (166,000 acres) and the acreage for blueberries, strawberries and orchards. Mixed farming is common throughout the province. Dairy farming is centred around the larger urban areas, and is located mainly along the Saint John River Valley and in the south-eastern sections of the province. For particulars of agricultural production and livestock, *see under* CANADA. Agricultural income is about \$70m. annually.

FORESTRY. New Brunswick contains some 15.5m. acres of productive forest lands, of which 7.3m. acres is Crown-owned. The combined value of primary and secondary forest production is about \$350m. annually. Woodpulp and paper producing mills account for \$270m. Some 90 sawmills ship timber

valued at \$50m. annually. Timber-using plants employ about 9,200 men. Practically all forest products are exported from the province's numerous ports and harbours near which the mills are located or sent by road or rail to the USA.

FISHING. Commercial fishing is one of the most important basic industries of the province. Over 50 commercial species of fish and shellfish are landed. More than 5,800 fishermen and 4,000 plant workers are employed; the gross yearly income of the fishermen is over \$16m., and the total market value of fish products is approximately \$60m. The province created a separate Department of Fisheries in 1963 which provides research and development, technical and training facilities and assistance in financing and marketing. Under its sponsorship large steel trawlers have been constructed for offshore operations, and new processing plants have been built by private enterprise.

MINING. A considerable variety of minerals exist in the province, such as lead, copper, tin, tungsten, molybdenum, antimony, manganese, iron, bituminous coal, gypsum, salt, glauconite, oil shale, diatomite, oil and gas. Large reserves of lead-zinc-copper have been located in the north-eastern section of the province, and this has resulted in the construction of two concentrators, a smelter and port facilities at Belledune near the city of Bathurst. Among others in production are mines owned by Consolidated Mining and Smelting Company of Canada and Heath Steele Mines Ltd.

Quantities of good limestone exist in the southern part of the province and are quarried for lime, the pulp industry and as a fertilizing agent. Various granites are quarried and manufactured at St Stephen and Hampstead. Natural gas and oil are produced near Moncton.

INDUSTRY. In 1973 there were about 650 manufacturing establishments, employing about 30,000 persons. New Brunswick's location, with deep-water harbours open throughout the year and container facilities at Saint John, makes it ideal for exporting.

The tourist industry is of growing importance, as New Brunswick abounds with natural attractions and opportunities for recreation.

ELECTRICITY. Hydro-electric and thermal power plants of the New Brunswick Electric Power Commission had a combined capacity of 1,150,326 kw. in 1972. This includes four 100,000 kw. generating units now in operation at the Mactaquac hydro-electric development near Fredericton. The Commission is interconnected with the neighbouring provinces of Nova Scotia and Quebec and the State of Maine, USA. Hook-up permits exchange of power including large blocks from Churchill Falls in Labrador through Hydro-Quebec as well as with the state of Maine, USA.

ROADS. The province had, on 31 March 1972, 12,854 miles of highway, including 7,483 miles of gravel roads, 3,430 miles of bituminized gravel roads and 1,942 miles of paved roads. Passenger vehicles, 31 March 1971, numbered 159,307; commercial vehicles, 38,536, and motor cycles, 3,431.

POST. On 31 Dec. 1972 the New Brunswick Telephone Co. Ltd had 260,050 telephones in service.

QUEBEC—QUÉBEC

HISTORY. Quebec was formerly known as New France or Canada from 1535 to 1763; as the province of Quebec from 1763 to 1790; as Lower Canada from 1791 to 1846; as Canada East from 1846 to 1867, and when, by the union of the four original provinces, the Confederation of the Dominion of Canada was formed, it again became known as the province of Quebec (Québec).

The Quebec Act, passed by the British Parliament in 1774, guaranteed to the people of the newly conquered French territory in North America security in their religion and language, their customs and tenures, under their own civil laws.

CONSTITUTION AND GOVERNMENT. There is a Legislative Assembly consisting of 108 members, elected in 108 electoral districts for 5 years. There were, in Oct. 1970, 17 Union Nationale, 72 Liberals, 12 *Ralliement Créditiste* and 7 *Parti Québécois*.

Lieut.-Governor: The Hon. Hughes Lapointe, QC, PC (sworn in 22 Feb. 1966).

The members of the Executive Council as on 6 July 1973, are as follows:

Prime Minister: Robert Bourassa.

Vice-Prime Minister and Intergovernmental Affairs: Gérard D. Levesque. *Transport:* Bernard Pinard. *Cultural Affairs and Education:* François Cloutier. *Social Affairs:* Claude Castonguay. *Justice:* Jérôme Choquette. *Industry and Commerce:* Guy-Saint-Pierre. *Finance:* Raymond Garneau. *Public Works:* Maurice Tessier. *Municipal Affairs and Environment:* Victor C. Goldbloom. *Financial Institutions, Companies and Co-operatives:* William Tetley. *Agriculture:* Normand Toupin. *Natural Resources:* Gilles Massé. *Lands and Forests:* Kevin Drummond. *Communications:* Jean-Paul L'Allier. *Revenue:* Gérald Harvey. *Labour and Manpower:* Jean Cournoyer. *Immigration and Minister Responsible for Labour:* Jean Bienvenue. *Tourism, Fish and Game:* Claude Simard. *Minister responsible for the Quebec Antorontes Authority:* Georges-E. Tremblay. *Civil Service:* Oswald Parent. *Ministers of State:* Raymond Mailloux; Paul Phaneuf.

Agent-General in London: Jean Fournier (12 Upper Grosvenor St, W1).

Agent-General in New York: Guy Poliquin (17 West 50th St., Rockefeller Centre).

General-delegate in Paris: Jean Chapdelaine (66 Pergolèse, Paris XVI^e).

AREA AND POPULATION. The area of Quebec (as amended by the Labrador Boundary Award) is 594,860 sq. miles (1,540,668 sq. km), of which 523,860 sq. miles is land area and 71,000 sq. miles water. Of this extent, 351,780 sq. miles represent the Territory of Ungava, annexed in 1912 under the Quebec Boundaries Extension Act. The population (census 1971) was 6,027,764. Estimate (1972) 6,134,131.

Principal cities (1971 census): Quebec (capital), 193,984; Montreal, 1,466,500; Laval, 237,918; Sherbrooke, 81,881; Verdun, 76,832; Trois-Rivières, 64,000; Hull, 63,720

Vital statistics, see pp. 239-40.

Religion, see p. 241.

EDUCATION. The province has 7 universities: 3 Protestant universities, McGill (Montreal) founded in 1821, Bishop (Lennoxville) founded in 1845 and the Sir George William's College (Montreal) granted a charter in 1848; 4 Catholic universities: Laval (Quebec) founded in 1852, Montreal University, opened in 1876 as a branch of Laval and erected independently in 1920, Sherbrooke University founded in 1954 and University of Quebec founded in 1968. In 1971-72 there were 60,749 full-time university students and 4,300 teachers.

In 1971-72, in kindergartens, there were 100,964 pupils and 2,700 teachers; in elementary schools, 837,466 (34,900); in secondary schools, 630,241 (22,500).

Expenditure of the Department of Education for 1970-71 (Canadian \$1,000), 1,025,340 net. This included 650,385 for School Board operation, 154,378 capital expenditure, 111,975 for universities, 82,711 for general aid vocational colleges.

NEWSPAPERS (1972). There are 9 French- and 5 English-language daily newspapers.

FINANCE. Ordinary revenue and expenditure (in Canadian \$1,000) for fiscal years ending 31 March:

	1967-68	1968-69	1969-70	1970-71	1971-72
Revenue	2,314,670	2,662,320	3,003,992	3,653,625	3,908,238
Expenditure	2,217,662	2,544,571	2,979,855	3,659,372	4,257,223

The total net debt at 31 March 1972 was \$2,276.5m.

AGRICULTURE. In 1972 the total area of the principal field crops was 5,188,000 acres. The yield of the principal crops was (in 1,000):

Crops	Yield	Crops	Yield
Tame hay	4,054 tons	Fodder corn	1,559 tons
Oats for grain	23,392 bu.	Maize for grain	9,380 bu.
Potatoes	5,005 cwt.	Barley	1,289 bu.
Mixed grains	4,448 bu.	Buckwheat	170 bu.

The farm cash receipts from farming operations in 1972 amounted to \$766.4m. The principal items being: Livestock and products, \$629.5m.; crops, \$63.2m.; forest and maple products, \$12.7m.; dairy supplements payments, \$50.1m.

FORESTRY. Forests cover an area of 284,300 sq. miles. About 190,700 sq. miles are classified as productive forests, of which 77,805 sq. miles are Provincial crown land and 25,114 sq. miles are privately owned. Quebec leads the Canadian provinces in pulpwood production, having nearly half of the Canadian estimated total.

In 1972 production of sawn lumber was 2,162.5m. f.b.m.; woodpulp, 6,366,000 tons; paper and paperboard, 6,059,000 tons; pulpwood, 4,995,000 cunits (100 cu. ft of solid wood).

FISHERY. The principal fish are cod, herring, mackerel, lobster and salmon. Total catch of sea fish, 1972, 176.21m. lb., valued at \$10,488,000.

MINING (1972). The value of the mineral production was \$409.65m. Chief minerals: Copper, \$174,188,000; iron ore, \$99,253,000; zinc, \$60.09m.; gold, \$20,733,000.

The second major iron-ore development in northern Quebec is, like the one at Knob Lake which gave birth to Schefferville, based on the Quebec-Labrador Trough which extends from Lac Jeannine to the northern tip of Ungava peninsula. The port of Sept-Îles and the railway connecting it with Schefferville allow easy shipment to the furnaces and steel mills of Canada, the USA and Europe. The setting-up of a steel industry is being explored.

Non-metallic minerals produced include: Asbestos (\$165.4m.; 81.2% of Canadian production), titane-dioxide (\$41.1m.), industrial lime, dolomite and brucite, quartz and pyrite. Among the building materials produced were: Cement, \$63,036,000; sand and gravel, \$20.2m.; lime, \$3,897,000; stone, \$42.25m.

INDUSTRY. In 1970 there were 10,176 industrial establishments in the province; employees, 369,896; salaries and wages, \$2,057.5m.; cost of materials, \$7,072,888,000; value of shipments, \$13,083.9m. Among the leading industries are pulp and paper, non-ferrous metal smelting and refining, chemical products, cotton yarn and cloth, men's and women's clothing, railway rolling stock, ship, building, brass and copper products, electrical apparatus, butter and cheese slaughtering and meat packing, cigars and cigarettes, machinery, boots and shoes.

ELECTRICITY. Water power is one of the most important natural resources of the province of Quebec. Its turbine installation represents about 48% of the aggregate of Canada. At the end of 1970 the installed generating capacity was 10,617m. kwh. Production, 1972, was 78,543m. kwh.; energy sold to final consumer, 51,187m. kwh.

EXTERNAL TRADE. In 1972 the value of Canadian exports through Quebec customs ports was \$4,004,507,000; value of imports, \$4,364,554,000.

COMMUNICATIONS (1971). Quebec had 5,360 miles of railway. Excluding cities, there were 66,115 miles of roads in the province. There were (1971) 2,584,711 registered motor vehicles. Telephones numbered 6.2m. There were 13 television and 70 radio stations.

Quebec has an international airport (Dorval, Montreal) and 100 landing strips. Another international airport (Mirabel, Montreal) is under construction.

Senior Trade and Industry Counsellor in London: W. T. Thompson (Ontario House, 13 Charles II St., SW1).

LOCAL GOVERNMENT. Local government in Ontario is divided into two branches, one covering municipal institutions and the other education.

The present municipal system dates from The Municipal Corporations Act enacted by The Province of Canada in 1849. It has been considerably modified in recent years with the creation of the Municipality of Metropolitan Toronto in 1954 and the launching of the Government of Ontario's local government restructuring programme in 1968. Generally, there are two levels of municipal government in Ontario. The upper level consists of 27 counties plus 12 restructured regional municipalities. The local level comprises more than 800 cities, towns and townships. Cities in the traditional county system function independently of the county in which they lie, as do 6 towns which have been separated for municipal purposes. There are no separated municipal units in regional governments.

Ontario's local municipalities are governed by councils elected by popular vote.

A city council usually consists of a mayor, aldermen and, sometimes, an executive committee known as a board of control.

Councils of towns, villages and townships usually consist of a mayor, reeve, deputy reeve, councillors and, in the case of the newer regional municipalities, one or more regional councillors who represent the area municipalities on the regional council.

County and regional government councils are federated assemblies.

A county council consists of the Reeves and deputy Reeves of the towns, villages and townships. The head of the county council is the warden, who is elected by the council from among its own members.

A regional council consists of the heads of council of the local municipalities, as well as a varying number of regional councillors, who are elected on the basis of representation, either directly or indirectly. The head of the regional council is the chairman who is elected by council but who, unlike a county warden, need not have been a council member.

No municipality in Ontario may incur long-term debts without the sanction of the tribunal created by the Provincial Legislature and known as the Ontario Municipal Board. Debenture obligations incurred by municipalities for utility undertakings (water-works and electric light and power systems) are discharged ordinarily out of revenues derived from the sale of utility services and do not fall upon the ratepayer.

Municipal councils have no jurisdiction for education beyond the collection of taxes for school purposes. Responsibility for providing, operating and maintaining school facilities, and for the supply of teachers, rests with local education authorities known as boards of education or school boards. These boards are now generally organized on a county or regional basis. Apart from some of the larger cities, local municipal school boards no longer exist.

Municipal institutions come under the jurisdiction of the Provincial Ministry of Treasury, Economics and Intergovernmental Affairs. One of the principal functions of the Ministry is to advise and assist municipalities on such matters as accounting, reporting, auditing, budgeting and planning. Educational support and guidance at the provincial level is the responsibility of the Ministry of Education, which deals with the training of teachers and the formulation of curriculum. (At the university and community college level, education support services are provided by the Ministry of Colleges and Universities.)

There are considerable areas in the northernmost parts of Ontario where as yet there is little or no settlement of population. In such areas no municipal organization exists, and control for all purposes over such areas remains in the hands of the Provincial Government.

AREA AND POPULATION. The total area is 412,582 sq. miles (1.55 sq. km), of which 344,092 sq. miles is land area and 68,490 sq. miles fresh water. The province extends 1,000 miles from east to west and 1,050 miles from south to north. About 82% of this area lies south of the isotherm of 60° F. (16° C.) mean July temperature, which is generally considered the northern limit for the economic production of cereals.

The province is bordered by Quebec on the east and Manitoba on the west. The southern boundary has a fresh-water shoreline of 2,362 miles on the Great Lakes; the northern limits have a salt-water shoreline of 680 miles.

The population of the province (census, 1 June 1971) was 7,703,106. Census population of the principal cities (1971): Toronto (provincial capital), 712,786 (city), 2,628,043 (metropolitan area); Hamilton, 309,173 (city), 498,523 (metropolitan area); Ottawa (federal capital), 302,341 (city), 453,280 (metropolitan area); Windsor, 203,300 (city), 258,643 (metropolitan area); London, 223,222 (city), 286,011 (metropolitan area); Kitchener, 111,804 (city), 226,846 (metropolitan area); Sudbury, 90,535 (city), 155,424 (metropolitan area).

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION. There is a complete provincial system of elementary and secondary schools as well as private schools. In 1972 publicly financed elementary and secondary schools had a total enrolment of 2,037,242 pupils.

In 1965 Ontario established Colleges of Applied Arts and Technology (CAATS). There are now 22 of these publicly owned colleges with full-time enrolment of 38,571 in academic courses.

The University of Toronto, founded in 1827 (enrolment, 1973, 27,702), and 14 other major universities, all receive provincial grants. The net general expenditure of the Provincial Ministries of Education and Colleges and Universities for the fiscal year ending 31 March 1974 is estimated at \$2,181.4m.

FINANCE. The gross revenue and expenditure and the net capital debt (in Canadian \$1,000) for years ending 31 March were as follows:

	1969-70	1970-71	1971-72	1972-73 ¹	1973-74 ¹
Gross revenue	4,400,500	5,080,600	5,402,900	6,073,100	6,867,000
Gross expenditure	4,251,000	5,216,700	6,027,500	6,509,300	7,269,000
Net capital debt	1,392,900	1,528,900	2,153,500	2,589,700	2,991,800

¹ Estimates.

Gross revenue includes capital receipts from sale of physical assets. Gross expenditure includes expenditure on physical assets.

AGRICULTURE. In 1973, 6.9m. acres were under field crops with a net cash value of \$627,713,000. This represented 11% of Canada's 64m. farm acres.

FORESTRY (1972). The total area of productive forested land is 164,471.8 sq. miles, comprising: Softwoods, 75,460.9; hardwoods, 21,379.7; mixed woods, 55,098.4; reproducing forests, 12,532.8. The growing stock equals 150,683m. cu. ft. The estimated value of shipments by forest products was (1971) \$207m.

MINING (1972). The value of mineral production (in \$1m.) of major metals was: Nickel, 513.3; copper, 291.6; iron ore, 161.5; gold, 36.9; silver, 33.6. The value of structural materials was \$215.4m. The total value of mineral production was estimated at \$1,521.4m. (1971, \$1,550m.). The mining industry employed 94,700 people in 1970.

INDUSTRY (1971). Ontario is Canada's most highly industrialized province. In 1971, 71% of value added in commodity-producing industries was accounted for by manufacturing. Construction was next with 14%.

In 1971, 12,740 manufacturing establishments employed 800,000 persons. Total salaries and wages paid, \$6,326.6m. The labour force (1973-74) was estimated at 3.51m. and the Gross Provincial Product (GPP) at \$53,500m.

The leading manufacturing industries are motor vehicles, iron and steel, motor vehicle parts and accessories, slaughtering and meat packing, pulp and paper, chemicals, industrial petroleum refining, miscellaneous machinery and equipment, and dairy.

ELECTRICITY (1972). The Hydro-Electric Power Commission of Ontario recorded for the calendar year a dependable peak capacity of 14,422,200 kw. and a net energy output generated and purchased of 73.5m. kwh.

EXTERNAL TRADE. In 1973 Ontario exported over 45% of Canada's total foreign trade.

ROADS. There were, in 1972, 12,909 miles of surfaced roads. Motor licences numbered 3,386,444, of which 2,848,935 were passenger cars.

RAILWAYS. In 1973 the Ontario Northland Railway had 600 miles of tracks and the Algoma Central Railway had 300 miles and were provincially owned. The Canadian National and Canadian Pacific Railways operate a total of 9,135 miles in Ontario.

COMMUNICATIONS (1973). Telephone service is provided by a small number of independent systems (218,900 telephones) and the Bell Telephone Co. (4,342,793 telephones).

MANITOBA

CONSTITUTION AND GOVERNMENT. Manitoba was known as the Red River Settlement before its entry into the Dominion in 1870. The provincial government is administered by a Lieut.-Governor and a legislative assembly of 57 members elected for 5 years. Women were enfranchised in 1916. The Electoral Division Act, 1955, created 57 single-member constituencies and abolished the transferable vote. The Electoral Divisions Act, 1969, created 29 rural electoral divisions, and 28 urban electoral divisions. The province is represented by 6 members in the Senate and 13 in the House of Commons of Canada. The Crown lands and other natural resources were transferred from the Dominion Government to the province as from 15 July 1930.

Lieut.-Governor: William John McKeag (sworn in 2 Sept. 1970).

State of parties in Legislative Assembly (elected 25 June 1969): New Democratic Party, 29; Conservative, 20; Liberals, 4; Social Credit, 1; independent, 1; 1 vacant.

The members of the New Democratic Ministry are as follows (Nov. 1972):

Premier and President of the Executive Council, Minister of Provincial-Dominion Relations, Finance, Minister charged with the administration of the Manitoba Development Act: Edward R. Schreyer.

Labour and Railway Commissioner: A. R. Paulley. *Attorney-General:* Alvin H. Mackling, QC. *Health and Social Development:* Rene Toupin. *Highways:* Peter

Burtiak. *Municipal Affairs*: Howard R. Pawley. *Industry and Commerce*: Leonard S. Evans. *Mines and Environmental Management and Minister of Urban Affairs*: Sidney Green, QC. *Colleges and Universities Affairs*: Saul A. Miller. *Agriculture and Co-operative Development*: Samuel Uskiw. *Education*: Ben Hanuschak. *Public Works*: Russell Doern. *Minister of Tourism, Recreation and Cultural Affairs*: Laurent L. Desjardins. *Commissioner of Northern Affairs*: Ronald McBryde.

LOCAL GOVERNMENT. The Municipal Act, R.S.M. 1954, c. 173, applies to all incorporated rural municipalities, villages, towns and cities, except cities with special charters (Winnipeg, St Boniface, and in some respects Brandon, St James, Portage la Prairie and East and West Kildonan).

Rural municipalities are incorporated under the Municipal Boundaries Act.

A locality containing over 500 inhabitants and a taxable assessment of over \$300,000 may be incorporated as a village corporation. No village so incorporated shall occupy an area of more than 640 acres, unless its population exceeds 2,000.

A locality containing over 1,500 inhabitants may be incorporated as a town corporation. No town incorporated after the passing of the Municipal Act, the population of which does not exceed 2,000, shall occupy an area of more than 640 acres. If the population exceeds 2,000 the limits may be increased in the proportion of 160 acres for every additional 1,000 inhabitants. Public parks are excluded in calculating area.

A town containing over 10,000 inhabitants may be erected into a city.

Upon petition from 50% of the householders in a locality which is not included within the limits of a municipality, it may be incorporated as a municipal district. Localities which do not qualify under the provisions of the Municipal Act, Municipal Boundaries Act or Local Government Districts Act, or if they desire special power or privileges, may be incorporated by special act of the legislature.

AREA AND POPULATION. The area of the province is 251,000 sq. miles (652,218 sq. km), of which 211,775 sq. miles are land and 39,255 sq. miles water. In 1912 its boundaries were extended to the shores of Hudson Bay.

The population (June 1972 estimate) was 922,000, of which the rural population (1966 estimate) was 35%. Population of the principal cities (1971): Winnipeg (capital), 260,000 (metropolitan area, 540,262); St James-Assinaboia, 71,800; St Boniface, 46,661; St Vital, 32,613; Brandon, 31,150; East Kildonan, 29,722; West Kildonan, 24,000; Thompson, 19,001; Portage la Prairie, 12,950.

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION. Education is municipally controlled, as in all the provinces, and is supported by local taxation and government grants. The University of Manitoba, founded in 1877 in Winnipeg, had (in 1972-73) 13,927 regular students in all courses. The University of Brandon had 1,079 students enrolled, the University of Winnipeg, 2,380. Red River Community College (Applied Art), 4,700. There were (1971-72), 12,208 teachers, 176,900 elementary pupils and 68,667 secondary pupils. In 1971-72, \$200m. was spent on education.

FINANCE. Revenue and expenditure (current account) for fiscal years ending 31 March (in Canadian \$):

	1967-68	1968-69	1969-70	1970-71 ¹	1971-72 ¹	1972-73 ¹
Revenue	346,526,123	357,331,901	412,394,912	481,167,800	517,100,000	573,100,000
Expenditure	345,564,761	355,931,623	..	460,906,283	516,600,000	575,800,000

¹ Estimates.

AGRICULTURE. Rich farmland is the main primary resource, although the area of Manitoba in farms is only approximately 14% of the total land area.

Commercial farming is confined to the southern part of Manitoba, while the northern three-fifths contain the rich mineral deposits of the Pre-Cambrian Shield. The total value of agricultural products in Manitoba in 1971 was \$555m., of which \$346m. came from livestock and \$209m. from crops.

FORESTRY. About 60% of the land area is wooded, of which 55,700 sq. miles is productive forest land. Value of forest production in 1971 was \$26m.

FUR TRADE. Value of fur production in 1971 was \$4.8m.; from ranch-bred animals, \$1.5m.

FISHERIES. From 39,225 sq. miles of rivers and lakes the fisheries production was \$6.5m. in 1971. Whitefish, sauger, pickerel, pike, trout and perch are the principal varieties caught.

MINING. Total value of minerals in 1971 was \$330m. Principal minerals mined are nickel, zinc, copper, lead and silver. Selenium, tellurium and cadmium are recovered as by-products from base-metal operations. The International Nickel Co. of Canada mines came into production in 1961. The Thompson complex is producing 170m. lb. of nickel annually. New deposits of zinc, copper and nickel have been discovered in the northern area. A reserve of tantalum and lithium is also being exploited in the south-eastern area of Manitoba. Potential reserves of chromium, gold, bentonite, potash, caesium, kaolin and lithium also occur. The most important non-metallic minerals are cement, sand and gravel, building stone and quartz. Oil production in 1970 was estimated at \$15m.

INDUSTRY. Manufacturing, the largest industry in the province, encompasses almost every major industrial activity in Canada. Gross value of factory shipments was estimated at \$1,317m. in 1971. The manufacturing industry is comprised of over 1,500 plants employing 50,000 persons and paying \$333m. in salaries and wages. Due to the agricultural base of the province, the food and beverage group of industries is by far the largest, accounting for approximately 40% of the total value. The next largest industries are metal fabricating and machinery, which account for approximately 15% of the manufacturing shipments. Clothing represents about 6%, while primary metals, paper and allied products, printing and publishing and transportation equipment each account for approximately 5% of the total value of factory shipments.

TOURISM. In 1970 Canadian, American and foreign tourists contributed about \$135m. to the province's economy.

ELECTRICITY. The total generating capacity of Manitoba's power stations is 2m. kw. in 1972. The 1.2m. kw. Kettle Rapids hydro-plant has been completed to stage one and is now supplying 400,000 kw. of power. Despite a 10% increase in consumption from 8.3m. to 9.2m. kwh. within the province in the past year, a surplus of generating capacity made it possible to export 1m. kwh. to neighbouring provinces and the US.

TRADE. Products grown and manufactured in Manitoba find readily available markets in other areas of Canada, in the USA, particularly the Upper Midwest Region, and in foreign countries. Export shipments for Manitoba in 1971 are estimated at \$460m., almost half of which went to the US. Of these, approximately 5% originate from raw materials, 33% from wheat and unmilled grains and 50% from manufactured products.

COMMUNICATIONS. In the year 1970 the province had 4,900 miles of railway, not including industrial track, yards and sidings. Highways and roads had a total mileage of 11,300. A total of 34 licensed commercial air carriers operate from bases in Manitoba handling more than 18m. lb. of air freight each year. Nearly 96% of the province's 433,598 telephones are now dial-operated.

SASKATCHEWAN

HISTORY. Saskatchewan derives its name from its major river system, which the Cree Indians called 'Kis-is-ska-tche-wan', meaning 'swift flowing'. It officially became a province when it joined the Confederation on 1 Sept. 1905.

In 1670 King Charles II granted to Prince Rupert and his friends a charter covering exclusive trading rights in 'all the land drained by streams finding their outlet in the Hudson Bay'. This included what is now Saskatchewan. The trading company was first known as The Governor and Company of Adventurers of England; later as the Hudson's Bay Company. In 1869 the North West Territories was formed, and this included Saskatchewan. In 1882 the District of Saskatchewan was formed. By 1885 the North-West Mounted Police had been inaugurated, with headquarters in Regina (now the capital), and the Canadian Pacific Railway's transcontinental line had been completed, bringing a stream of immigrants to southern Saskatchewan. The Hudson's Bay Company surrendered its claim to territory in return for cash and land around the existing trading posts. Legislative government was introduced.

CONSTITUTION AND GOVERNMENT. The provincial government is vested in a Lieut.-Governor, an Executive Council and a Legislative Assembly, elected for 5 years. Women were given the franchise in 1916 and are also eligible for election to the legislature. State of parties in Oct. 1973: New Democratic Party, 45; Liberals 14; vacant, 1.

Lieut.-Governor: Dr S. Worobetz, MC.

The NPD Ministry in Oct. 1973 was composed as follows:

Premier, President of the Council and Provincial Treasurer: Allan E. Blakeney, QC.

Attorney-General and Deputy Premier: Roy Romanow, QC. *Agriculture:* John R. Messer. *Public Health:* W. E. Smishek. *Municipal Affairs:* E. I. Wood. *Labour:* G. T. Snyder. *Northern Resources, Northern Saskatchewan:* G. R. Bowerman. *Education, Continuing Education:* G. MacMurchy. *Environment, Co-operation and Co-operative Development:* N. E. Byers. *Highways and Transportation:* E. Kramer. *Government Services, Telephones:* J. E. Brockelbank. *Industry and Commerce, Minerals:* K. Thorson. *Social Services:* A. Taylor. *Finance:* E. L. Cowley. *Culture and Youth, Consumer Affairs, Provincial Secretary:* E. L. Tchorzewski.

Agent-General in London: E. A. Boden, 28 Chester St., SW1X 7BL.

LOCAL GOVERNMENT. The organization of a city requires a minimum population of 5,000 persons; that of a town, 500; that of a village, 100 people. No requirements as to population exist for the rural municipality and the local improvement district.

Cities, towns, villages and rural municipalities are governed by elected councils, which consist of a mayor and 6–20 aldermen in a city; a mayor and 6 councillors in a town; a mayor and 2 other members in a village; a reeve and a councillor for each division in a rural municipality (usually 6). Local improvement districts are administered by the Department of Municipal Affairs.

AREA AND POPULATION. Saskatchewan is bounded on the west by Alberta, on the east by Manitoba, to the north by the Northwest Territories; to the south it is bordered by the US states of Montana and North Dakota. The area of the province is 251,700 sq. miles (652,000 sq. km), of which 220,182 sq. miles is land area and 31,518 sq. miles is water. The population (1973 estimate) was 916,000. Population of principal cities (1973 estimate): Regina (capital), 142,800; Saskatoon, 131,000; Moose Jaw, 31,845; Prince Albert, 29,488; Swift Current, 15,500; Yorkton, 14,000; North Battleford, 12,865; Estevan, 9,500; Weyburn, 8,900; Lloydminster, 8,691; Melville, 5,300.

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION. The University of Saskatchewan was established at Saskatoon on 3 April 1907. In 1972-73 it had about 10,244 (day-time) degree students and 800 full-time teaching staff at Saskatoon and over 5,400 students and 330 faculty members at Regina campus. The Saskatchewan public education system in 1972-73 consisted of 122 school units and districts serving 160,758 elementary pupils, 68,928 high-school students and 4,557 students enrolled in special classes. In addition, 4 provincial technical and trade schools provided training for approximately 9,000 students. There are also 24 Roman Catholic separate school districts and 3 separate high-school districts and 1 Protestant separate school districts.

FINANCE. Budget and net assets (years ending 31 March) in Canadian \$1,000:

	1966-67	1967-68	1968-69	1969-70	1970-71
Budgetary revenue	284,108	311,596	344,633	362,275	406,111
Budgetary expenditure	283,932	311,340	344,156	362,145	404,735
Net assets	52,736	53,388	54,199	54,711	56,497

NATURAL RESOURCES AND INDUSTRY. Agriculture used to dominate the history and economics of Saskatchewan, but the 'prairie province' is now a rapidly developing mining and manufacturing area. It is a major supplier of oil; has the world's largest deposits of potash; is the only source of helium in the 'free world' outside the USA, which limits production to internal use; and net value of non-agricultural production account for 49.6% of the provincial economy.

AGRICULTURE. Saskatchewan produces normally about two-thirds of Canada's wheat. Wheat production in 1972, was 326m. bu. from 13.9m. acres; oats, 79m. bu. from 1.69m. acres; barley, 177m. bu. from 4.6m. acres; rye, 5m. bu. from 280,000 acres; rape seed, 24.8m. bu. from 1.5m. acres; flax, 9.8m. bu. from 700,000 acres. Livestock (June 1972): Cattle, 2.77m.; swine, 976,000; sheep, 146,000. Poultry in 1972: Chickens, 5.9m.; turkeys, 495,000. Cash income from the sale of farm products in 1969 was estimated at \$912m. In all, there are 70,000 commercial farms in the province, each being a holding having agricultural sales of \$2,500 or more.

The South Saskatchewan River irrigation project, whose main feature is the Gardiner Dam, was completed in 1967. It will ultimately provide for an area of 200,000 acres of irrigated cultivation in Central Saskatchewan. Currently, 40,000 acres are under development.

FORESTRY. Half of Saskatchewan's area is forested, but only 42,000 sq. miles are of commercial value at present. Forest products valued at \$59.6m. were produced in 1972-73. The province's first pulp-mill, at Prince Albert, went into production in 1968; its daily capacity is 1,000 tons of high-grade kraft pulp.

FUR PRODUCTION. In 1972-73 wild fur production was estimated at \$3.75m. Ranch-raised fur production amounted to \$650,000.

FISHING. The market value of the 1972-73 commercial fish catch of 10.5m. lb. was \$3.35m.

MINING. The 1972 mineral production was valued at \$428.7m., including (in \$1,000): Petroleum, 213,800; natural gas, 7,200; coal, 6,600; gold, 2,025; silver, 694; copper, 11,900; zinc, 5,700; potash, 146,000; salt, 3,600; sodium sulphate, 5,600; uranium, 9,300.

INDUSTRY. In 1971 Saskatchewan had 800 manufacturing establishments. Total labour force (1972), 352,000. The net value of non-agricultural production was \$906m. Manufacturing accounted for \$224m., construction for \$250m.

ELECTRICITY. The Saskatchewan Power Corporation generated 5,878m. kwh. in 1972.

TOURISM. An estimated 3.5m. tourists spent \$200m. in 1972.

COMMUNICATIONS (1972). There were approximately 8,690 miles of main railway track in operation. There were 10,986 miles of provincial highways, 114,389 miles of municipal, local and rural roads; 2,750 miles of resources development roads. Motor vehicles registered totalled 496,214. Bus services are provided by 2 major lines.

Saskatchewan has 2 major airports, 176 airports and landing strips.

There were 995 post offices, 20 sound broadcasting stations and 8 television stations. 387,760 telephones were connected to the Saskatchewan Telecommunications system.

ALBERTA

HISTORY. The southern half of the province of Alberta was part of Rupert's land which was granted by royal charter in 1670 to the Hudson's Bay Company. The intervention by the North West Company in the fur trade after 1783 led to the establishment of trading posts. In 1869 Rupert's land was transferred from the Hudson's Bay Company (which had absorbed its rival in 1821) to the new Dominion, and in the following year this land was combined with the former Crown land of the North Western Territories to form the Northwest Territories.

In 1882 'Alberta' first appeared as a provisional 'district', consisting of the southern half of the present province. In 1905 the Athabasca district to the north was added when provincial status was granted to Alberta.

Four parties have held office: the Liberals 1905-21; the United Farmers 1921-35; Social Credit 1935-71, and Progressive Conservative since Sept. 1971. The stable political climate created by these parties has eased Alberta's transition from an agrarian to an industrial society.

CONSTITUTION AND GOVERNMENT. The constitution of Alberta is contained in the British North America Act of 1867, and amending Acts; also in the Alberta Act of 1905, passed by the Parliament of the Dominion of Canada, which created the province out of the then Northwest Territories. All the provisions of the British North America Act, except those with respect to school lands and the public domain, were made to apply to Alberta as they apply to the

older provinces of Canada. On 1 Oct. 1930 the natural resources were transferred from the Dominion to provincial government control. The province is represented by 6 members in the Senate and 19 in the House of Commons of Canada.

The executive is vested nominally in the Lieut.-Governor, who is appointed by the federal government, but actually in the Executive Council or the Cabinet of the legislature. Legislative power is vested in the Assembly in the name of the Queen.

Members of the Legislative Assembly are elected by the universal vote of adults over the age of 18 years.

There are 75 members in the legislature (elected 30 Aug. 1971): 49 Progressive Conservative, 24 Social Credit, 1 New Democratic Party, 1 Independent.

Lieut.-Governor: His Honour J. W. Grant MacEwan (sworn in, 6 Jan. 1966).

The members of the Ministry (all Progressive Conservative) are as follows:

Premier, President of Council: Hon. Peter Lougheed.

Agriculture: Hon. Dr Hugh M. Horner. *Federal and Intergovernmental Affairs:* Hon. Donald R. Getty. *Education:* Hon. Louis D. Hyndman. *Provincial Treasurer:* Hon. Gordon T. W. Miniely. *Attorney-General and Provincial Secretary:* Hon. C. Mervin Leitch. *Health and Social Development:* Hon. Neil S. Crawford. *Manpower and Labour:* Hon. Dr Albert E. Hohol. *Environment:* Hon. William J. Yurko. *Municipal Affairs:* Hon. H. David Russell. *Advanced Education:* Hon. James L. Foster. *Mines and Minerals:* Hon. William D. Dickie. *Telephones and Utilities:* Hon. Roy A. Farran. *Public Works:* Hon. Dr Winston O. Backus. *Industry and Commerce:* Hon. Frederick H. Peacock. *Highways and Transport:* Hon. Clarence Copithorne. *Lands and Forests:* Hon. Dr Allan A. Warrack. *Culture, Youth and Recreation:* Hon. Horst A. Schmid. *Solicitor-General:* Hon. W. Helen Hunley. *Consumer Affairs and Tourism:* Hon. Robert W. Dowling. *Without Portfolio:* Hon. George Topolnisky (*responsible for Rural Development*); Hon. J. Allen Adair (*responsible for Northern Development*).

LOCAL GOVERNMENT. The local government units are City, Town, New Town, Village, Summer Village, County and Municipal District.

There are 10 cities in Alberta, namely: Edmonton, Calgary, Lethbridge, Wetaskiwin, Red Deer, Medicine Hat, Drumheller, Camrose, Lloydminster and Grande Prairie. These cities operate under the Municipal Government Act. The governing body consists of a mayor and a council of from 6 to 20 members. A city can be incorporated by order of the Lieut.-Governor-in-Council. A population of 10,000 is required.

There are no limits of area specified in the statutes for any of the different local government units. The population requirement for a Town as specified in the Municipal Government Act is 1,000 people, and the area at incorporation is that of the original village.

A Village must contain 75 separate and occupied dwellings. The Municipal Government Act requires each dwelling to have been occupied continuously for a period of at least 6 months. A Summer Village must contain 50 separate dwellings.

A rural County area is an area incorporated through an order of the Lieut.-Governor-in-Council under the provisions of the County Act. One board of councillors deal with both municipal and school affairs.

A rural Municipal District is an area which has been incorporated under the Municipal Government Act. In Municipal Districts separate boards control municipal and school affairs.

Areas not incorporated as counties or Municipal Districts are termed Improvement Districts or Special Areas. Sparsely populated, such districts are administered and taxed by the Department of Municipal Affairs of the provincial government. There are no requirements as to the minimum number of residents of a County or Municipal District.

AREA AND POPULATION. The area of the province is 255,285 sq. miles; 248,800 sq. miles being land area and 6,485 sq. miles water area. The estimated population (1 June 1973) was 1,683,000; the urban population, centres of 1,000 or over, was estimated at 1,245,000 and the rural at 438,000. Population of the principal cities (1 Jan. 1973): Edmonton, 441,530 (metropolitan area (1971), 465,000); Calgary, 424,787; Lethbridge, 42,816; Red Deer, 28,079; Medicine Hat, 27,430; and Grande Prairie, 14,739.

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION. Schools of all grades are included under the term of public school (including those in the separate school system which are publicly supported). The same board of trustees control the schools from kindergarten to university entrance. All public schools are supported by property taxes collected by municipal authorities; all such taxes are supplemented by government grants. In June 1972 there were 1,376 schools in operation containing 16,764 classrooms with 425,468 pupils and 22,255 teachers. The University of Alberta (in Edmonton), organized in 1907, had, in 1972-73, 25,908 students and 3,397 instructional staff. The University of Calgary, formerly part of the University of Alberta and autonomous from April 1966, had in 1972-73, 14,975 students and 1,490 instructional staff. The University of Lethbridge, organized in 1966, had 2,385 students and 154 instructional staff in 1972-73.

JUSTICE. The Supreme Judicial authority of the Province is the Supreme Court, which consists of the Appellate and Trial divisions. Judges of the Supreme Court are appointed by the Dominion Government and hold office until retirement at the age of 75. There are courts of lesser jurisdiction in both civil and criminal matters. District courts have full jurisdiction over civil proceedings. A Provincial Court which has jurisdiction in civil matters up to \$500 is presided over by provincially appointed magistrates. Juvenile Courts have power to try boys 16 and under and girls 18 years of age and under for offences against the Juvenile Delinquents Act.

The jurisdiction of all criminal courts in Alberta is enacted in the provisions of the Criminal Code. The system of procedure in civil and criminal cases conforms as nearly as possible to the English system.

FINANCE. Provincial sources, mainly natural resources and taxes, are expected to contribute 81% of total revenue in the 1973-74 fiscal year; federal sources will account for approximately 19%. The fiscal year ends 31 March.

	1969-70	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	999,783,850	1,116,444,173	1,246,990,705	1,307,834,996	1,394,000,000
Expenditure	986,038,619	1,128,628,634	1,266,729,751	1,369,016,635	1,499,000,000

¹ Estimates.

The net funded debt of the province on 31 March 1973 amounted to \$244,378,725, and the unfunded debt to \$122,119,661; total net funded debt and unfunded debt, \$366,498,386.

AGRICULTURE. Of the surveyed area of the province (about 85m. acres) approximately 70m. acres may be classed as capable of agricultural development. Up to the present, however, only 40% of this area has been brought under cultivation.

For particulars of agricultural production and livestock, *see under* CANADA. Farmers' total gross income in 1972 was \$1,019.43m. Farm cash receipts totalled \$914m., of which crops contributed \$369m.; livestock and products, \$512m., and other sources, \$33m.

FORESTRY. Alberta has an estimated net merchantable volume of 59.9m. cu. ft of timber, 23,798,365m. cu. ft of hardwood, 36,102,510m. cu. ft of softwood. In 1972, nearly 600m. bd ft of timber were produced; the value of forest produce was \$73m.

FISHERIES. The lakes of the province abound in whitefish, pickerel, pike and tullibee. Commercial catches are marketed through the Freshwater Fish Marketing Corporation which was inaugurated in May 1969 as the result of an agreement between the federal government and the provinces for the buying and exporting of freshwater fish. Value of fish marketed in 1972 was \$1.5m.

MINING. The most recent estimate of the coal resources of Alberta indicates that the province contains about 40% of the coal resources in Western Canada or about 47,200m. tons. The output in 1972 was 9.2m. tons valued at \$52.8m. Alberta exported 3.6m. short tons of coking coal to Japan in 1972. Natural gas is found in abundance in numerous localities. In 1972, 2,329,105m. cu. ft valued at \$322.2m. were produced.

In the same year 436m. bbls of crude oil and condensate were produced with a gross sales value of \$1,247m. Alberta produced 79% of Canada's oil output in 1972. Production of natural gas by-products was 104m. bbls, valued at \$239m.

Immense deposits of oil sands which contain over 700,000m. bbls of crude oil now are being mined in the McMurray district in northern Alberta.

Value of total mineral production in 1972, \$1,927m.

INDUSTRY. The leading manufacturing industries are food and beverages, petroleum refining, metal fabricating, wood industries, primary metal, chemical and chemical products and non-metallic mineral products industries. There were in 1971 approximately 1,983 manufacturing establishments, in which were employed about 50,115 persons, who earned in salaries and wages about \$364m.

Manufacturing shipments had a total value of \$2,370m. in 1972. Chief among these shipments were: Food and beverages, \$990m.; petroleum refining, \$240m.; metal fabricating, \$154m.; chemical and chemical products, \$133m.; wood, \$131m.; primary metals, \$148m.

COMMUNICATIONS. In 1973 there were 86,845 miles of roads and highways, including 60,413 miles gravelled and 6,303 miles paved.

In March 1973 there were 984,930 motor vehicles registered, including 582,167 passenger cars, 257,702 public and commercial vehicles, 117,241 trailers and 24,528 motor cycles.

In Dec. 1972 the length of main railway lines was 6,878 miles. Alberta's modern telephone system is owned and operated by the provincial governments, except in the city of Edmonton and some rural lines. There were 837,128 telephones in service by 31 Dec. 1972.

BRITISH COLUMBIA

CONSTITUTION AND GOVERNMENT. British Columbia (then known as New Caledonia) originally formed part of the Hudson's Bay Company's concession. In 1849 Vancouver Island and in 1858 British Columbia were constituted Crown Colonies; in 1866 the two colonies amalgamated. The British North

America Act of 1867 provided for eventual admission into Canadian Confederation, and on 20 July 1871 British Columbia became the sixth Province of the Dominion.

British Columbia has a unicameral legislature of 55 elected members. Government policy is determined by the Executive Council responsible to the Legislature. The Lieutenant-Governor is appointed by the Governor-General of Canada, usually for a term of 5 years, and is the head of the executive government of the Province.

Lieut.-Governor: The Hon. Walter Stewart Owen, QC, LL.D.

The Legislative Assembly is elected for a maximum term of 5 years. Every male or female Canadian Citizen 19 years and over, having resided a minimum of 6 months in the Province, duly registered, is entitled to vote. Representation of the parties as of Dec. 1972: New Democratic Party, 38; Social Credit, 10; Liberal, 5; Progressive Conservative, 2; total, 55.

The Province is represented in the Federal Parliament by 23 members in the House of Commons, and 6 Senators.

The Executive Council was in Dec. 1973 composed as follows:

Premier, President of the Council, and Minister of Finance: David Barrett.

Provincial Secretary and Minister of Travel Industry: Ernest Hall. *Attorney-General:* Alexander Barrett Macdonald, QC. *Lands, Forests and Water Resources:* Robert Arthur Williams. *Agriculture:* David Daniel Stupich. *Mines and Petroleum Resources:* Leo Thomas Nimsick. *Transport and Communications:* Robert Martin Strachan. *Labour:* William Stewart King. *Education:* Eileen Elizabeth Dailly. *Municipal Affairs:* James Gibson Lorimer. *Health Services and Hospital Insurance:* Dennis Geoffrey Cocke. *Public Works:* William Leonard Hartley. *Human Resources:* Norman Levi. *Highways:* Graham Richard Lea. *Industrial Development, Trade and Commerce:* Gary Vernon Lauk. *Recreation and Conservation:* Jack Radford. *Without Portfolio:* Lorne Nicolson, Phyllis Florence Young.

Agent-General in London: Rear-Adm. M. G. Stirling, CD (British Columbia House, 1 Regent St., London, SW1Y 4NS).

LOCAL GOVERNMENT. Vancouver City was incorporated by statute and operates under the provisions of the Vancouver Charter of 1953 and amendments. This is the only incorporated area in British Columbia not operating under the provisions of the Municipal Act. Under this Act municipalities are divided into the following classes: (a) a village with a population between 500 and 2,500, governed by a council consisting of a mayor and 4 aldermen; (b) a town with a population between 2,500 and 5,000, governed by a council consisting of a mayor and 4 aldermen; (c) a city where the population exceeds 5,000 governed by a council consisting of a mayor and 6 or 8 aldermen depending on population; (d) a district where the area exceeds 2,000 acres and the average density is less than 2 persons per acre, governed by a council consisting of a mayor and 6 or 8 aldermen depending on population.

There are two other forms of local government: the regional district covering a number of areas both incorporated and unincorporated, governed by a board of directors; and the improvement district governed by a board of 3 trustees.

Revenue for municipal services is derived mainly from real-property taxation, although additional revenue is derived from licence fees, business taxes, fines, public utility projects and grants-in-aid from the Provincial Government.

AREA AND POPULATION. British Columbia has an area of 366,255 sq. miles. The capital is Victoria. The Province is bordered westerly by the Pacific

Ocean and Alaska Panhandle, northerly by the Yukon and Northwest Territories, easterly by the Province of Alberta and southerly by the USA along the 49th parallel. A chain of islands, the largest of which are Vancouver Island and the Queen Charlotte Islands, affords protection to the mainland coast.

The June 1971 census population was 2,184,621.

The principal cities and their populations (1971) are as follows: Metropolitan Vancouver, 1,071,081; Metropolitan Victoria, 193,512. 1971 census populations: New Westminster, 42,835; Prince George, 33,101; North Vancouver, 31,847; Kamloops, 26,168; Port Alberni, 20,063; Kelowna, 19,142; Penticton, 18,146; Prince Rupert, 15,747; Nanaimo, 14,948; Vernon, 13,283; Dawson Creek, 11,885; Trail, 11,149.

EDUCATION (1972-73). Education, free up to Grade XII levels, is financed jointly from municipal and provincial government revenues. Attendance is compulsory from the age of 6 to 15. There were 537,106 pupils enrolled in public schools and instructed by 23,367 teachers.

Higher education is provided at the University of British Columbia at Vancouver (founded 1908), 17,988 students; the University of Victoria (1963), 4,373 students; Simon Fraser University (1965), Burnaby, 3,819 students; Notre Dame University (1963), Nelson, 441 students; Selkirk College (1966), Castlegar, 435 students; Vancouver City College (1964), 2,391 students; Okanagan Regional College (1968), 434 students; Capilano College (1970), Vancouver, 702 students; Malaspina College (1969), 578 students; College of New Caledonia (1969) 224 students, Cariboo College (1970), 367 students; Douglas College (1970), Vancouver, 1,407 students; Camosun College (1971), Victoria, 900 students.

HEALTH. The Government operates a hospital insurance scheme giving universal coverage after a qualifying period of three months' residence in the Province. The Province has come under a national medicare scheme which is partially subsidized by the Provincial Government and partially by the Federal Government.

FINANCE. Current provincial revenue and expenditure, including all capital expenditures, in Canadian \$ for fiscal years ending 31 March:

	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	1,286,544,782	1,462,716,647	1,667,217,819	1,722,215,000
Expenditure	1,241,454,426	1,474,223,485	1,621,421,248	1,718,909,091

¹ Estimate.

The main sources of current revenue are the income taxes, sales and fuel taxes, contributions from the federal government, and privileges, licences and natural resources taxes and royalties.

The main items of expenditure in 1973-74 are as follows: Education, \$496m.; highways and ferries, \$222m.; health and social services, \$700m.; general government, \$197m.; natural resources and primary industry, \$105m.

AGRICULTURE. Only 6.5m. acres or 2.8% of the total land area is arable or potentially arable. Farm cash receipts, in 1972, reached \$243m.

FISHERIES. In 1972 fish landings totalled 338m. lb. and were valued at \$75m.

FORESTRY. About 60% of British Columbia's land is forest land, with 118m. acres bearing commercial forest. 93% of the forest area is owned or administered by the Provincial Government. The total cut from forests in 1972 was 2,015m. cu. ft.

MINING. Copper, coal, zinc, molybdenum and lead are the most important minerals produced. The 1972 total value of mineral production was estimated at \$637m. Total value of fuels produced in 1972 was \$172m.

POWER. Electric power consumption in 1972 totalled an estimated 30,800 gwh.

INDUSTRY. The selling value of factory shipments from all manufacturing industries reached \$4,722m. in 1972.

TRADE. Exports through British Columbia customs ports during 1972 totalled \$3,257m. in value, while imports amounted to \$1,749m.

Principal export commodity groups (1972): Forest products, \$1,079m.; coal, crude petroleum and natural gas, \$609m.; metal refinery and mine products, \$467m.; grain and cereal products, \$443m.; fish products, \$80m. About 40% of exports through British Columbia customs ports are products from other provinces, primarily grains, potash and fuels from the Prairie Provinces. USA is the largest market for products exported through British Columbia customs ports (\$1,383m. in 1972) followed by Japan (\$799m.) and the EEC (\$293m.).

RAILWAYS. The Province is served by two transcontinental railways, the Canadian Pacific Railway and the Canadian National Railway. British Columbia is also served by the publicly owned British Columbia Railway, the Railway Freight Service of the B. C. Hydro and Power Authority, the Northern Alberta Railways Company and the Burlington Northern Inc. Their combined route-mileage of mainline track, totals 4,754 miles. In addition, 4 American railways interchange with Canadian railways at southern border points or connect by railway barge.

ROADS. At 31 March 1973 there were 28,498 miles of highway in the Province.

SHIPPING. The major ports are Vancouver, New Westminster, Victoria, Nanaimo and Prince Rupert. The volume of foreign shipping loaded (1972) was 34m. tons.

The British Columbia Ferries connect Vancouver Island with the Mainland and also provide service to other coastal points. Service by other ferry systems is also provided between Vancouver Island and the USA. The Alaska State Ferries connect Prince Rupert with centres in Alaska.

AVIATION. International airports are located at Vancouver and Victoria. Daily interprovincial and intraprovincial flights serve all main population centres. Small public and private airstrips are located throughout the Province.

POST. The British Columbia Telephone Company in Dec. 1972 had 1,180,338 telephones in service. There are 8 television stations and 54 radio stations in the Province.

BANKING. Cheques cashed (in \$1,000): 1969, 56,840,073; 1970, 57,413,455; 1971, 64,994,234; 1972, 78,726,888.

YUKON TERRITORY

CONSTITUTION AND GOVERNMENT. The Yukon Territory was constituted a separate territory in June 1898. It is governed by a Commissioner (appointed) and a Legislative Council of 7 members who are elected for a 4-year term of office. The seat of government is at Whitehorse.

Commissioner: James Smith (appointed 7 Nov. 1966).

The legislative authority of council includes direct taxation, education, marriage, property and civil rights, territorial civil service, municipalities and generally all matters of local or private nature. All other major administration, particularly that which requires the spending of large sums of money, is federally controlled.

AREA AND POPULATION. The area of the Territory is 207,076 sq. miles (536,000 sq. km), of which 1,730 sq. miles is water. The population reached its peak in 1901 with 27,219. The census population in 1971 was 18,388. Principal centres are Whitehorse (capital), 12,000; Watson Lake, 1,115; Dawson City, 500; Mayo, 500.

Vital statistics, *see* pp. 239-40.

Religion, *see* p. 241.

EDUCATION (1971-72). The Territory had 22 schools with 4,717 pupils. Except for a limited number of courses given in the Yukon Vocational and Technical Centre, the Yukon offers no post-secondary courses. However the government provides financial assistance to students requiring further education elsewhere.

FINANCE. The territorial revenue and expenditure (in Canadian \$) for fiscal years ended 31 March was:

	1969-70	1970-71	1971-72	1972-73
Revenue	19,224,830	19,442,843	24,696,729	36,423,263
Expenditure	23,383,654	24,703,734	25,683,434	39,964,940

MINING. Mining is now and is expected to remain the main industry. Silver, gold, lead, zinc, cadmium and copper are the chief minerals. Production figures (preliminary) for year ending March 1972 were: Gold, 4,000 oz. (\$146,000); silver, 5.62m. oz. (\$9.33m.); lead, 225,921,000 lb. (\$34,848,000); zinc, 230m. lb. (\$43,861,000); cadmium, 13,000 lb. (\$33,000); asbestos, 104,000 tons (\$14.2m.). Nickel is also an important mineral mined.

In June 1973, 594 oil and gas exploration permits and leases had been issued covering 21,780,703 acres.

FORESTRY. The principal forest trees are white and black spruce, lodge pole pine, tamarack, alpine fir, aspen, birch and balsam poplar. Annual timber production is approximately 10m. bd ft of lumber and 500,000 linear ft of round timber.

GAME AND FURS. The country abounds with big game, such as moose, goat, caribou, mountain sheep and bear (grizzly and black). The fur yield for the year ended June 1972 totalled 30,305 pelts, valued at \$200,000 to the trapper. Squirrel, muskrat, beaver and lynx constituted the greatest portion of the catch.

SHIPPING. Although the Yukon River provides 1,777 miles of navigable waterway in the Yukon and Alaska, it is seldom used for this purpose since construction of all-weather highway.

ROADS. The Alaska Highway and its side roads connect the Yukon's main cities with Alaska and the provinces and with adjacent mining centres. A road serves the Cassiar Asbestos-Clinton Creek mining field north-west of Dawson City. A road connecting the new mining communities of Ross River and Faro with Carmacks has been completed, as has 150 miles of the Dempster Highway between Dawson and Inuvik. Total mileage of all roads is 2,332 (including the Alaska Highway and the Yukon portion of the Haines Road). The Territorial government is responsible for the maintenance of all roads, including the Alaska Highway and Haines Road.

RAILWAYS. The 111-mile White Pass and Yukon Railway connects Whitehorse with year-round ocean shipping at Skagway, Alaska. A study is being undertaken to extend it from Whitehorse to Carmacks.

AVIATION. Commercial airlines provide passenger and express services every day between Whitehorse and Vancouver or Edmonton where they connect with transcontinental and international lines. Other services extend from Whitehorse to Mayo and Dawson, Fairbanks and Juneau, Alaska, and from Dawson to Old Crow and Inuvik, Northwest Territories. There is also a scheduled flight to Watson Lake as well as numerous smaller commercial bush plane operations.

COMMUNICATIONS. There are 2 radio stations in Whitehorse and 14 low-power relay radio transmitters in the Territory. There are also 5 cable-TV channels in Whitehorse. In March 1972 there were 2 newspapers in Whitehorse. All telephone and telecommunications in the Territory are operated by Canadian National Telecommunications *via* pole lines and microwave. The communications satellite 'Anik' went into operation during 1973 providing live colour CBC national television.

THE NORTHWEST TERRITORIES

CONSTITUTION AND GOVERNMENT. The Northwest Territories comprises all that portion of Canada lying north of the 60th parallel of N. lat. except those portions within the Yukon Territory and the Provinces of Quebec and Newfoundland: it also includes the islands in Hudson Bay, James Bay and Ungava Bay except those within the Provinces of Manitoba, Ontario and Quebec.

The Northwest Territories is governed by a Commissioner and a Council. The Council is composed of 14 members, 4 appointed by the Governor-in-Council and 10 elected for a 4-year term of office. The seat of government was transferred from Ottawa to Yellowknife when it was named territorial capital on 18 Jan. 1967.

Commissioner: S. M. Hodgson. *Deputy Commissioner:* J. H. Parker.

Legislative powers are exercised by the Commissioner-in-Council on such matters as taxation within the Territories in order to raise revenue, maintenance of justice, licences, solemnization of marriages, education, public health, property, civil rights and generally all matters of a local nature.

The Territorial Government has now assumed responsibility for the administration of the entire Northwest Territories.

AREA AND POPULATION. The total area of the Territories is 1,304,903 sq. miles (3,379,700 sq. km), divided into 3 districts, namely, Mackenzie (527,490 sq. miles), Keewatin (228,160 sq. miles) and Franklin (549,253 sq. miles). The population at the census of 1971 was 34,807, about two-thirds of whom were Indians or Eskimos. Main centres (census 1971): Inuvik (2,672), Fort Smith (2,372), Hay River (2,420), Frobisher Bay (2,014), Fort Simpson (747). Because of a transfer in governmental responsibility from Ottawa to the Territorial capital at Yellowknife, the population of Yellowknife was increased by the influx of civil servants from 3,741 in 1966 to 7,500 in 1974.

EDUCATION (1973-74). The Government of the Northwest Territories operated 58 schools with 577 teachers. In addition, one public school district operated at Yellowknife, and one Roman Catholic separate school district at Yellowknife. The total enrolment was 11,992, of whom 4,600 were Eskimos and 1,768 Indians. Seven pupil residences accommodate a total of 689 pupils. Free correspondence courses are available to any pupil in a settlement where appropriate instruction is not available. There is a full range of courses available in the school system: industrial arts, home economics, commercial, technical and occupational training as well as pre-vocational courses for pupils in the Eastern Arctic at Fort Churchill, Manitoba. The continuing and special education programme provides courses and financial assistance to residents who have left the school system or are taking post high school training.

HEALTH AND WELFARE (1973). There were 8 hospitals in the Territories, 5 operated by missions, 1 by a locally elected hospital board at Yellowknife and 2 by the federal government. Thirty-five nursing stations, 9 health stations and 8 health centres were in operation.

Welfare services are provided by professional social workers. Facilities include 6 children's receiving homes, 1 home for the aged and 2 transit centres.

MINING. Mineral production for the year 1972 was valued at \$124,149,000, of which gold accounted for \$10,537,000; silver, \$7,303,000; lead, \$25.6m.; zinc, \$80.1m; copper, \$609,000.

Yellowknife continues to be the centre of goldmining activity.

As of 1 Dec. 1972, 8,719 permits for oil and gas exploration were held for 422,094,999 acres, of which 89,384,248 acres are on the mainland, 268,313,405 acres in the arctic islands and 64,397,346 acres in the arctic coast.

Crude oil, discovered in 1920, is produced and refined at Norman Wells on the Mackenzie River; production, 1969, 801,255 bbls.

TRAPPING AND GAME. Fur produced during the 1972-73 season was valued at \$1,477,980. A herd of some 12,000 buffalo is protected in Wood Buffalo National Park. Barren ground caribou are increasing, due to more effective management techniques.

FISHERIES. Commercial fishing, principally on Great Slave Lake, in 1973 produced about 1,626 tons of fish, principally whitefish and lake trout.

FORESTRY. The principal trees are white spruce, jack-pine, balsam, poplar and birch. In 1973, 2,814,280 f.b.m. measure of lumber, 275,388 cu. ft of round timber and 8,810 cords of fuelwood were cut.

CO-OPERATIVES. There are 44 co-operatives and 2 credit unions in the Northwest Territories. They are active in handicrafts, furs, fisheries, retail stores,

bakeries, print shops, provision of housing, contracting for services, etc. Their income in 1973 was estimated to be over \$2.5m.

SHIPPING. A direct inland-water transportation route for about 1,700 miles is provided by the Mackenzie River and its tributaries, the Athabasca and Slave rivers. Subsidiary routes on Lake Athabasca, Great Slave and Great Bear River and Lake total more than 800 miles.

ROADS. The Mackenzie Route connects Grimshaw, Alberta, with Hay River, Pine Point, Fort Smith, Fort Providence, Rae and Yellowknife. The Mackenzie Highway extension to Fort Simpson and a road between Pine Point and Fort Resolution have both been opened. An all-weather road east from Yellowknife towards Mackay Lake is under construction. Clearing began in 1972 for extending the Mackenzie Highway north of Fort Simpson to the arctic coast.

RAILWAYS. The Great Slave Lake Railway runs from Pine Point, on the south shore of Great Slave Lake, 435 miles south to Grimshaw, Alberta, where it connects with the continental railway system.

AVIATION (1973). Thirteen licensed and 5 unlicensed airports are operated by the Ministry of Transport and there are 44 unlicensed private aerodromes. Regular mail, passenger and express services are maintained throughout the Territories. A seaplane base is operated by the Ministry of Transport and there are 27 licensed private seaplane bases. Scheduled services join major points with centres in southern Canada.

POST (1973). There were 51 post offices. The CBC northern service operated radio stations at Yellowknife, Inuvik and Frobisher Bay. Several communities in the Northwest Territories now receive live television *via* satellite. Telephone communication has been established between southern Canada and all areas in the Mackenzie district. Resolution and Frobisher Bay receive telephone service *via* satellite. High-frequency telephone service is also available throughout the eastern Northwest Territories.

CAYMAN, TURKS AND CAICOS ISLANDS

These two groups of islands were administered by the Governor of Jamaica until 1962; after Jamaica became independent, they became British Crown Colonies.

CAYMAN ISLANDS consist of Grand Cayman, Little Cayman and Cayman Brac. Situated in the Caribbean Sea, about 200 miles NW of Jamaica, the islands were discovered by Columbus on 10 May 1503.

Area and Population. Area, 100 sq. miles (260 sq. km). Census population of 1970, 10,249. Grand Cayman (population 8,932), 22 miles long, 4-8 miles broad; capital: George Town (population 3,975). Little Cayman, 10 miles long, 1 mile broad. Cayman Brac, 12 miles long and 1½ miles wide. Total population of the

lesser islands, 1,317. Vital statistics (1972): Births, 351; marriages, 90; deaths, 68. Principal occupations are seafaring, commerce, banking and the tourist industry. There are 9 government primary schools with 1,138 pupils, a government comprehensive school with 973 pupils, 5 private elementary and 2 private secondary schools. There is also a secretarial college and a private institution for further education.

Constitution and Government. The Legislative Assembly consists of the Governor, not less than 2 nor more than 3 official members, and 12 elected members.

The Executive Council consists of 3 official members appointed from among the official members of the Legislative Assembly, and 4 elected members elected by the elected members of the Assembly from among the elected members of the Assembly with the Governor as Chairman.

Governor: K. R. Crook.

Finance. Revenue 1972, CI\$4,437,111; expenditure, CI\$3,558,784. Public debt (31 Dec. 1972), CI\$1,033,095; reserve fund, CI\$360,167.

Trade. Exports, 1972, totalled CI\$144,310 and included turtle shell and dried turtle meat. Imports (1972), CI\$12,799,172; principally foodstuffs, textiles and building materials.

Shipping. Motor vessels ply regularly between the Cayman Islands, Jamaica and Florida. Shipping registered at George Town, 79 vessels of 20,631 net tons (1972).

Aviation. *Lineas Aereas Costarricensis* operates regular services between Costa Rica, Grand Cayman and Miami. Cayman Airways provide regular services between Grand Cayman, Cayman Brac, Kingston and Miami.

Banking. Fourteen commercial banks and trust companies have branches in George Town, including Barclays Bank International which also has a sub-branch at Stake Bay, Cayman Brac.

Biennial Report, 1971. HMSO, 1972

THE TURKS AND CAICOS ISLANDS. Area and Population. The Turks and Caicos Islands are geographically a portion of the Bahamas, of which they form the two south-eastern groups. There are upwards of 30 small cays; area 166 sq. miles (430 sq. km). Only 6 are inhabited; the largest, Grand Caicos, is 30 miles long by 2 to 3 miles broad. The seat of government is at Grand Turk, 7 miles long by 1½ broad; 2,000 inhabitants. Population (1970 census), 5,675, of whom 3,712 lived in the Salt Islands of Grand Turk, Salt Cay and South Caicos, and 1,943 in the Caicos settlements.

Vital statistics (1970): Births, 183; marriages, 36; deaths, 47.

Constitution and Government. The constitution provides for a Governor, a State Council, a Supreme Court and a Court of Appeal. The State Council consists of a Speaker, 3 official members, not less than 2 or more than 3 nominated members and 9 elected members. The normal life of the State Council is 5 years.

Governor: A. G. Mitchell, CBE, DFM.

Education. Education is free in the 14 government schools between the ages of 7 and 14; there are also 1 private and 2 secondary schools. Average number on rolls in 1972, 2,040 (Turks and Caicos High School, 240; Pierson High School, 94). Expenditure on education at 31 Dec. 1972 was J\$319,882.

Finance. Actual revenue in 1972 was J\$668,672 (including J\$905,500 grant-in-aid and J\$668,672 colonial development and welfare schemes); expenditure, J\$603,594.

Trade (1972). Total imports, J\$2,732,920; total exports, J\$902,214. Principal imports were food, drink and tobacco (J\$830,115) and manufactured articles

(J\$1,501,215). Principal exports: Salt, 2,235 tons; conchs, J\$174,355; conch shell, J\$34,000; fishmeat, 12,506 lb.; crawfish, J\$881,973. The most important industry used to be salt raking but it is now limited to Salt Cay.

A tourist industry is being developed.

Shipping. Registered shipping (1972), 61 vessels of 7,162 tons.

Post and Telecommunications. Airmail is received and dispatched *via* Miami, twice weekly. Surface mail from all parts of the world is routed *via* the US arriving at regular 3-weekly intervals from Miami, Florida. Outgoing surface mail is irregular. Cable & Wireless (W.I.) Ltd provide internal and international cable telephones, telex and telegraph services and also operates telephones and telegraph services with ships at sea. The establishment of island broadcasting services is under active consideration and in partial operation.

Aviation. There is a 5,500-ft paved airfield on Grand Turk under the control of the US Air Force on which civilian aircraft can land. On South Caicos there is a 6,000-ft paved airstrip. There are other small unpaved airstrips on 4 other islands. There is an internal air service throughout the islands and a thrice-weekly air service from Nassau.

Banking. The government savings bank has 3 branches with deposits (1972), J\$36,152; depositors, 1,618. There are 3 branches of Barclays Bank International.

CYPRUS

Kypriaki Dimokratia—Kıbrıs Cumhuriyeti

HISTORY. About the middle of the 2nd millennium B.C. Greek colonies were established in Cyprus and later it formed part of the Persian, Roman and Byzantine empires. In 1193 it became a Frankish kingdom, in 1489 a Venetian dependency and in 1571 was conquered by the Turks. They retained possession of it until its cession to England for administrative purposes under a convention concluded with the Sultan at Constantinople, 4 June 1878. On 5 Nov. 1914 the island was annexed by Great Britain and on 1 May 1925 given the status of a Crown Colony.

For the history of Cyprus from 1931 to 1958 *see* THE STATESMAN'S YEAR-BOOK 1958, pp. 237–38, and 1959, p. 236.

On 1 April 1955 the Greek Cypriots embarked on a guerrilla struggle against the British. On 19 Feb. 1959, following discussions in Zürich between the Greek and Turkish Foreign Ministers, an agreement was signed in London by the Prime Ministers of Great Britain, Greece and Turkey, and by the representatives of the Greek Cypriots and Turkish Cypriots. This agreement was implemented on 16 Aug. 1960, when Cyprus became an independent republic. By treaties between the Republic of Cyprus, Great Britain, Greece and Turkey both Enosis and partition are precluded; and Britain retains sovereignty over the areas containing her military bases in the island.

When President Makarios proposed some incisive modifications of the Zürich–London agreements, violent clashes between Greek and Turkish Cypriots broke out on 22 Dec. 1963. First, a joint force of British, Greek and Turkish troops and later a UN peace force were sent to Cyprus. A UN mediator on 26 March 1965 submitted proposals for a settlement of the Cyprus problem. These were accepted by Greece and the Greek Cypriots, but rejected by Turkey; thereupon the mediator, Dr Galo Plaza (Ecuador), resigned. The UN General Assembly on 17 Dec. 1965 called upon all states to respect the sovereignty, unity, independence and territorial integrity of Cyprus and to refrain from any intervention.

In June 1968 representatives of the Greek and Turkish Cypriots started talks in Cyprus aiming at finding a solution to the Cyprus problem.

CONSTITUTION AND GOVERNMENT. The legislative power is exercised by the House of Representatives of 50 members, of whom 35 were elected by the Greek community and 15 by the Turkish community. As from Dec. 1963 the Turkish members have ceased to attend.

On 13 Dec. 1959 Archbishop Makarios was elected President of the Republic, having received 144,501 votes (against 71,753 cast for the candidate sponsored by the Left). Dr Fazil Kuchuk was elected Vice-President unopposed; he resigned on 4 Jan. 1964.

In the presidential elections of 25 Feb. 1968 Archbishop Makarios was re-elected President of the Republic, having received 220,911 votes (against 8,577 cast for the opposition candidate and 16,215 abstentions).

The elections held on 5 July 1970 returned 15 Unified party, 9 Akel Party (Communists), 7 Progressive Front, 2 Democratic Centre Union, 2 Independents. The Turks have not participated in the proceedings of the House since Dec. 1963.

On 16 Feb. 1961 the House of Representatives decided by 41 to 9 votes to apply for membership of the Commonwealth. Cyprus was admitted on 13 March.

In Jan 1973 the Cabinet, from which the Turkish members have withdrawn, was composed as follows:

External Affairs: Ioannis Christophides. *Defence:* Georghios Ioannides. *Labour and Social Insurance:* Marcos Spanos. *Agriculture and Natural Resources:* Odysseas Ioannides. *Communications and Works:* Yangos Zambarloukos. *Commerce and Industry:* Michael Colocassides. *Finance:* Andreas Patsalides. *Education:* Dr Andreas Kouros. *Justice:* Chr. Vakis. *Health:* (Vacant).

AREA AND POPULATION. Area 3,572 sq. miles (9,251 sq. km); about 140 miles is greatest length from east to west, and about 60 miles is greatest breadth from north to south.

Populations by religions:

Religion	1931	1946 ¹	1956 ^{1,2}	1960 ³	1974 ⁴

³ Census.

⁴ Density per sq. mile, 180.

Principal towns with populations (1972 estimate): Nicosia (the capital), 118,300; Limassol, 61,400; Famagusta, 44,200; Larnaca, 21,800; Paphos, 12,100, and Kyrenia, 5,200. There are 6 administrative districts named after these towns.

VITAL STATISTICS. The birth rate in 1972 was 2.2%; the death rate, 0.65%; infantile mortality, 2.82%; marriage rate, 0.6%.

EDUCATION. During the school year 1972-73 there were 566 elementary schools with 2,279 teachers and 64,186 pupils; 80 secondary (including private) schools, of which 7 are technical-vocational and 1 agricultural, with 2,353 teachers and 48,069 students. Figures for Turkish-Cypriot education are not available.

Primary education, for children between the ages of 5½ and 12 years, is free and compulsory. Secondary and technical education, provided for the age-group 13-18 years, is free for the first 3 years. The Government meets the teachers' salaries bill for all public schools, and at the same time some 25% of the pupils receive scholarships. Recent statistics show that 81.5% of the primary school leavers proceed to secondary schools and another 3.1% to 8-grade primary, the latter being free.

Special education is provided for children who are mentally retarded, blind, deaf or delinquents.

Third-level education is given at 2 teachers' training colleges (for primary schools), one for the Greeks and another for the Turks. Other full-time institutions are the Forestry College, the Higher Technical Institute, the Hotel and Catering Institute and the School of Nursing and Midwifery. There are also 8 institutes for foreign languages and a number of private post-secondary schools which function on a part-time basis. Third-level education is effected mostly at universities abroad, mainly in Greece, Turkey and the UK: 11,600 students in 1971.

Greek is the language of 80% of the population and Turkish of 18%. English is widely spoken. English and French are compulsory subjects in secondary schools. Illiteracy is largely confined to older people.

CINEMAS (1972). There are 65 winter cinemas (44,000 seats) and 135 open-air cinemas (79,000 seats).

NEWSPAPERS (1974). There are 1 English, 2 Turkish and 9 Greek daily newspapers and 17 Greek and 2 Turkish weeklies.

SOCIAL SECURITY. The administration of the social-security services in Cyprus is in the hands of the Ministry of Labour and Social Insurance, with the Ministry of Health providing medical services through public clinics and hospitals on a means test, except medical treatment for employment accidents, which is given free to all insured employees and financed by the Social Insurance Scheme.

SOCIAL INSURANCE. The island's Social Insurance Scheme, which covers compulsorily both employees and self-employed persons, provides, in the case of employees, cash benefits for sickness, unemployment, maternity, marriage (females only), old-age, widowhood and death and cash benefits with free medical treatment for employment accidents and occupational diseases. Self-employed are covered for marriage, old-age, widowhood and death. As from 1 Jan. 1973 this scheme was integrated into the employment injury branch of the Social Insurance Scheme.

PNEUMOCONIOSIS COMPENSATION SCHEME. The Pneumoconiosis Compensation Scheme, introduced in 1960, provides for the payment of compensation in cases of disablement or death caused or accelerated by pneumoconiosis accompanied by tuberculosis. For the purpose of this Scheme, the term pneumoconiosis includes silicosis, sidero-silicosis and asbestosis. The Scheme covers all persons employed in mines and quarries as well as in work which exposes those employed in it to the danger of pneumoconiosis.

ANNUAL HOLIDAY SCHEME. An Annual Holidays with Pay Law, introduced in 1967, provides for a minimum of 9 days paid leave to all workers in the island. The law is implemented by means of regular contributions by employers into a fund administered by Government. Employers offering more than 9 days' paid leave by collective agreement or otherwise may be exempted from paying contributions into the fund.

TERMINATION OF EMPLOYMENT SCHEME. A Termination of Employment law also enacted in 1967 provides for the establishment of a Redundancy Fund to which all employers contribute 0.5% of their pay-roll, for a maximum period of notice of 1 month in case of dismissal, and for compensation up to 1 year's wages payable direct by employers in case of arbitrary dismissal. Claims under both laws are adjudicated by a Labour Disputes Tribunal.

JUSTICE. Under the Constitution and other legislation in force the following judicial institutions are established: The Supreme Court of the Republic, the Assize Courts, District Courts and Communal and Ecclesiastical Courts.

The Supreme Court is composed of 5-7 judges (at present 6), one of whom is the President. The Supreme Court adjudicates exclusively and finally: on all

constitutional and administrative law matters, including any recourse that any law or decision of the House of Representatives or the budget is discriminatory against either of the two Communities; on any conflict of competence between state organs, questions of unconstitutionality of any law or decisions on any question of interpretation of the Constitution in case of ambiguity, as well as recourses for annulment of administrative acts, decisions or omissions. The Supreme Court is the highest appellate court in the Republic and has jurisdiction to hear and determine all appeals from any court. It has exclusive jurisdiction to issue orders in the nature of *habeas corpus*, *mandamus*, prohibition, *quo warranto* and *certiorari* and in admiralty and matrimonial matters.

There are 6 Assize Courts and 6 District Courts, one for each district. The Assize Courts have unlimited criminal jurisdiction and power to order compensation up to £800. The District Courts exercise original civil and criminal jurisdiction, the extent of which varies with the composition of the Bench. In civil matters (other than those within the original jurisdiction of Supreme Court) a District Court composed of not less than 2 and not more than 3 judges has unlimited jurisdiction. A President or a District Judge sitting alone has jurisdiction up to £500, and is also empowered to deal with any action for the recovery of possession of any immovable property, and certain other specified matters. In criminal matters the jurisdiction of a District Court is exercised by its members sitting singly and is of a summary character. A President or a District Judge sitting alone has power to try any offence punishable with imprisonment up to 3 years, or with a fine up to £500 or with both, and may order compensation up to £500.

Civil disputes relating to personal status of members of the Turkish Community, including matrimonial cases and maintenance, are dealt with by 2 Turkish Communal Courts. There is a communal appellate court to which appeals may be made from the decision of the Courts of first instance.

There is a Greek Orthodox Church tribunal with exclusive jurisdiction in matrimonial causes between members of the Greek Orthodox Church. There is an appellate tribunal of that Church.

FINANCE. Currency. The Cyprus £ is divided into 1,000 *mils*. Notes of the following denominations are in circulation: £5, £1, 500 *mils*, 250 *mils*. Coins in circulation: Cupro-nickel: 100, 50, 25 *mils*; bronze: 5 and 3 *mils*; aluminium: 1 *mil*.

Budget. Revenue and expenditure for calendar years (in £ sterling):

	1968	1969	1970	1971	1972

The outstanding public debt as at 31 Dec. 1972 was £15,337,397 and accumulated sinking funds totalled £4,576,624. Outstanding loans as at 31 Dec. 1971

totalled £23,776,314; including £7,883,926 to the Electricity Authority of Cyprus and £2,988,000 to the Cyprus Telecommunications Authority.

DEFENCE. In 1964 compulsory conscription of 6 months was introduced and extended to 24 months in 1967. The National Guard, which was set up in 1964, is a modern and well-equipped force entrusted with the island's defence. The Cyprus Police Force is mainly employed for the maintenance of law and order, the preservation of peace and the prevention and detection of crime. An air element has at its disposal about 12 aircraft for communications, support and VIP transport duties.

AGRICULTURE. Chief agricultural products in 1972: Wheat, 80,000 tons; barley, 80,000 tons; olives, 20,000 tons; carobs, 38,000 tons; potatoes, 172,000 tons; grapes, 165,000 tons; wines, including commandaria, 9.7m. gallons; oranges, 143,137 tons; lemons, 36,111 tons; grapefruit, 56,451 tons; melons, 6,800 tons; carrots, 16,500 tons; milk, 80,700 tons; meat 37,840 tons.

Of the island's 2.3m. acres, approximately 1m. are farmed. About 35% of the economically active population are engaged in agriculture.

Livestock in 1972 (in 1,000): Cattle, 33; sheep, 430; goats, 380; pigs, 118.1.

FORESTRY. During 1972 the Forest Department continued preserving and developing existing forests. Total forest area, 670 sq. miles. In 1972 the chief forest products, valued at £156,980, were 1,268,000 cu. ft of lumber and 360,105 cu. ft of firewood. In 1972 an area of 730 donums was reforested because of drought.

MINING. The principal minerals exported during 1972 were (in long tons): Iron pyrites, 448,071; cupreous concentrates, 64,747; copper cement, 5,806; asbestos, 26,124; chromium ores and concentrates, 23,306. Mining provided about 23% of all exports in 1971 and 19% in 1972. Total value of minerals exported in 1972 was £8.7m.

INDUSTRY. Cyprus has no heavy industry, but a wide variety of light manufacturing industries. The establishment of a Development Bank in 1963 has given further impetus to industrial activity. Manufacturing industry in 1971 contributed about 12% to the gross domestic product and gave employment to 12.5% of the economically active population. The gross domestic product of manufacturing industries in 1971 was estimated at £27.8m.

Since 1960, £13m. has been spent on water dams, water supplies, hydrological research and geophysical surveys. Existing dams have (1970), a capacity of 10,265m. gallons as against 250m. gallons before independence.

TOURISM. Some 405,908 foreign tourists visited Cyprus in 1972.

TRADE UNIONS AND ASSOCIATIONS. Cyprus has trade-union legislation on the lines of the British Trade Union Acts. Registration is compulsory and freedom of association is constitutionally and statutorily guaranteed. At the end of 1970 the trade unions were distributed as follows: Pancyprrian Federation of Labour ('old' trade unions), 39,864 members in 16 unions; Cyprus Workers Confederation ('free' labour syndicates), 27,628 members in 48 unions; Pancyprrian Federation of Independent Trade Unions, 1,008 members in 7 unions; Cyprus Turkish Trade Unions Federation, 4,535 members in 13 unions; Cyprus Democratic Labour Federation, 1,567 members in 4 unions; Civil Service and other trade unions, 13,053 members in 22 unions.

The 'old' trade unions are affiliated to the World Federation of Trade Unions, the 'free' labour syndicates and the Turkish Federation are affiliated to the International Confederation of Free Trade Unions.

In Dec. 1972 the total number of employers' associations was 21 with a total membership of 2,194. Most of the employers' associations are members of the Cyprus Employers' Federation, an organization with 11 trade associations consisting of 600 members.

COMMERCE. The commerce and the shipping, exclusive of coasting trade, for calendar years were (in £ sterling):

ROADS. In 1972 the total length of roads was 5,753 miles, of which 2,582 miles were paved and 3,171 miles were earth or gravel roads. The main paved roads which are maintained by the Ministry of Communications and Works (Public Works Department) totalled 1,363 miles. The total of urban streets was 973 miles, of which 644 miles were asphalted. Village roads and streets totalled 2,403 miles, of which 576 miles were paved, the rest being of earth or gravel surface. There were also 961 miles of unpaved forest roads.

SHIPPING. In 1972, 2,993 ships of 4,807,084 net tons entered and 3,009 of 4,093,974 cleared Cyprus ports. Ships under Cyprus registry (1972) numbered 659 of 2,836,514 tons.

AVIATION. Nicosia airport is the only civil airport of the country. During 1971, 476,415 persons travelled and 9.1m. kg of commercial air-freight was handled through the airport.

POST AND BROADCASTING (1972). There were 44 post offices, 31 postal-order agencies, 929 postal agencies and 13 telegraph offices. Telephones (1973), 54,030. Wireless licences issued were 176,143, including television licences.

Cyprus Broadcasting Corporation broadcasts mainly in Greek, but also in Turkish, English, and Armenian on medium-waves. The corporation also broadcasts one TV programme.

BANKING. There is a Central and Issuing Bank exercising monetary functions, and the Cyprus Development Corporation created by the Government as a major source of loan funds for industrial development. Commercial banks carrying on business in Cyprus are: Bank of Cyprus Ltd, Turkish Bank of

Nicosia, Banque Populaire de Limassol, Barclays Bank International, The Chartered Bank, National Bank of Greece, Turkiye Ish Bankasi, The Co-operative Central Bank, National & Grindlays Bank and Lombard Banking (Cyprus) Ltd.

The Central Bank of Cyprus, established in 1963, is responsible for the issue of currency, the regulation of money supply and credit, administration of the exchange control law and the foreign-exchange reserves of the Republic. The Bank also acts as a banker of the banks operating in Cyprus and of the Government.

At the end of Sept. 1973 total deposits in banks were £200.4m. Advances and loans were £156.2m. The country's foreign exchange reserves at the end of Sept. 1973 were £121.9m., and the foreign-exchange coverage of the total liabilities of the Central Bank of Cyprus was 101.5%.

WEIGHTS AND MEASURES. Cyprus weights and measures follow the standard weights and measures of Great Britain. The metric system may also be lawfully used. In internal trade the following special Cyprus weights and measures are in use: 1 *pic* = $\frac{2}{3}$ yd; 1 *oke* = 2.8 lb.; 1 *kilé* = 8 Imperial gallons. The Cyprus *donum* is approximately $\frac{1}{3}$ acre.

FALKLAND ISLANDS AND DEPENDENCIES

AREA AND POPULATION. The Crown Colony is situated in the South Atlantic Ocean about 480 miles north-east of Cape Horn. The numerous islands cover 4,700 sq. miles. The main East Falkland Island, 2,610 sq. miles; the West Falkland, 2,090 sq. miles, including the adjacent small islands. The Dependency of South Georgia lies 800 miles south-east of the Falklands, has an area of 1,450 sq. miles; the South Sandwich group, 470 miles south-east of South Georgia, has an area of 130 sq. miles.

The population of the Falkland Islands on 31 Dec. 1972 was 1,957. The only town is Stanley, in East Falkland, with a population of just over 1,000. The population of South Georgia varies with the season, but the resident population in 1972 was 22 (males). The South Shetlands are uninhabited.

South Georgia, once a base for whaling and sealing operations, is now occupied only by members of the British Antarctic Survey at the base at King Edward Point.

The population of the Falkland Islands and Dependencies is white and almost exclusively of British birth or descent.

CONSTITUTION AND GOVERNMENT. The Colony is administered by a Governor, assisted by an Executive Council consisting of the Colonial Secretary and Colonial Treasurer, both *ex officio*; 2 members elected by the Legislature and 2 appointed members; and a Legislative Council composed of the Colonial Secretary and Colonial Treasurer, both *ex officio*, 2 elected members representing Stanley, one elected member from the East Falkland and one from the West Falkland and 2 nominated independent members.

Governor and Commander-in-Chief: Ernest Gordon Lewis, CMG, OBE.

Colonial Secretary: Thomas Henry Layng.

EDUCATION. Education is compulsory between the ages of 5 and 15 years. In 1972 there were 335 children receiving education in the Colony. This includes Stanley schools, Darwin Boarding School and settlement schools, as well as pupils taught by itinerant teachers in rural areas.

FINANCE. Currency. The Falkland £ is at parity with the £ sterling.

Budget. Revenue and expenditure (in £ sterling) for fiscal years ending 30 June:

	1967-68	1968-69	1969-70	1970-71	1971-72	1972-73 ¹
Revenue	474,000	407,000	395,000	520,000	533,000	433,000
Expenditure	419,000	465,000	464,000	498,000	522,000	479,000

¹ Estimates.

Chief sources of revenue (1972-73): Customs, £48,000; internal revenue, £125,000; investment, £104,000; posts and telecommunications, £54,000.

SHEEP FARMING. The whole acreage of the Colony is divided into large sheep runs. Wool is the principal product, but hides are exported. In 1971-72 there were 634,163 sheep, 10,063 cattle and 3,094 horses in the islands.

DEVELOPMENT. In recent years development aid has provided extra concrete roads in Stanley, improved education facilities throughout the Colony, radio-telephone services to many countries, including the UK, New Zealand and Australia, and telex and telecommunication facilities. Studies are at present in hand with a view to developing the tourist potential of the islands. Recent and current development projects, for which Britain has granted Development Aid, include: a grant of £66,400 and a loan of £100,000 for the

extension of the power station and electricity supply system, and grants of £1,739,000 for the construction of an international airfield near Stanley, as well as £50,000 for a fencing subsidy scheme. A comprehensive Development Plan for the 5-year period 1973-78 has recently been approved, and capital expenditure in excess of £600,000 is allocated to various communication projects, assistance to the sheep-farming industry and to educational developments.

TRADE. Total imports in 1972 amounted to £651,579 and exports to £1,118,379.

COMMUNICATIONS. There are no made-up roads in the islands beyond the immediate vicinity of Stanley. There is a small internal air service. Communication between Stanley and the outside world is effected principally by a weekly air service by F27 aircraft to Comodoro Rivadavia, Argentina, and by charter vessel 4 or 5 times a year to the UK. Communication with the Colony, the Dependencies and the British Antarctic Territory is kept up by the Royal research ships *John Biscoe* and *Bransfield* and by the ice-patrol vessel HMS *Endurance*.

In 1971 the total tonnage of shipping entered and cleared was 55,249.

BANKING. On 30 June 1972 the government savings bank held a balance of £1,169,636 belonging to 1,931 depositors. Some banking facilities are also offered by Lloyds Bank and Hambros Bank.

WILD LIFE. The Falkland Islands and South Georgia are noted for their outstanding wild life, including penguin and seal. Four Nature Reserves have been declared and 18 Wild Animal and Bird Sanctuaries gazetted. The brown trout introduced between 1947 and 1952 can now be found in nearly all the rivers.

FIJI

HISTORY. The Fiji Islands were discovered by Tasman in 1643 and visited by Capt. Cook in 1774, but first recorded in detail by Capt. Bligh after the mutiny of the *Bounty* (1789). In the 19th century the search for sandalwood, in which enormous profits were made, brought many ships. Deserters and shipwrecked men stayed on; fire-arms salvaged from wrecks were used in native wars, new diseases swept the islands, and rum and muskets became regular articles of trade. Tribal wars became bloody and general until Fiji was ceded to Britain on 10 Oct. 1874, after a previous offer of cession had been refused. British administrators produced order out of chaos, and since then there has been steady political, social and economic progress.

Governor-General: Sir Robert Foster, GCMG.

Prime Minister: Ratu Sir Kamisese Mara, KBE.

AREA AND POPULATION. Fiji comprises about 844 islands and islets (about 106 inhabited) lying between 15° and 22° S. lat. and 174° E. and 177° W. long. The largest is Viti Levu, area 4,010 sq. miles; next is Vanua Levu, area 2,137 sq. miles. The island of Rotuma (18 sq. miles), about 12° 30' S. lat., 178° E. long., was added to the colony in 1881. Total area, 7,055 sq. miles (18,272 sq. km).

A population census is taken every 10 years. In Sept. 1966 it was 476,727, comprising 202,176 Fijians (102,479 males, 99,697 females); 240,960 Indians (122,632 males, 118,328 females); 6,590 Europeans (3,427 males, 3,163 females); 9,687 Part Europeans (4,951 males, 4,736 females); 5,149 Chinese (2,910 males, 2,239 females); 5,797 Rotumans (2,939 males, 2,858 females); 6,095 other Pacific Islanders (3,207 males, 2,888 females); 273 others (202 males, 71 females). Estimated population at 31 Dec. 1971 was 535,357.

Suva, the capital, is on the south coast of Viti Levu; census population (1966). 54,157. Suva was proclaimed a city on 2 Oct. 1953.

CONSTITUTION AND GOVERNMENT. Fiji became an independent nation with Dominion status within the Commonwealth on 10 Oct. 1970. This had been agreed at a constitutional conference held in London in April 1970. At the first general election since independence, held April 1972, the ruling Alliance Party was returned with 33 seats; National Federation Party, 19 seats. The election was held under a system designed to return 22 Fijian, 22 Indian and 8 representatives of other races. It was agreed that after the elections a Royal Commission would be set up to recommend the appropriate method of election and representation for the future and the terms of reference would be agreed by the Prime Minister and the Leader of the Opposition. There is also an Upper House, the Senate, of 22 members (8 nominations by the Council of Chiefs, 7 by the Prime Minister, 6 by the Leader of the Opposition and 1 by the Rotuma Council).

LOCAL GOVERNMENT. The Fijian Administration, established in 1876, had jurisdiction over all Fijians. This was increased under the terms of the Fijian Affairs Ordinance 1944, which came into operation on 1 Jan. 1945. As a result of recommendations made by the Burns Commission in 1960, the Fijian Administration underwent substantial modifications in 1966 and 1967. The old administrative units called *tikina* have been abolished, with only the provincial or *yasana* administrative unit remaining.

The Colony is now divided into 14 provinces, each with its own council. Elections to these councils in 90 constituencies were conducted for the first time in 1967 on a full adult franchise amongst Fijians.

The councils have wide powers to make by-laws and draw up their own budget subject to confirmation by the Fijian Affairs Board. Each council has its own treasury and levies rates to raise its revenue. These provincial rates vary from £3 to £6 per annum for every male adult, but those maintaining 5 or more children pay lower rates until their children become taxpayers. A start has been made, however, to change over to a system of land rating based upon the unimproved value of Fijian-owned land. This is considered to be more equitable and related to ability to pay.

These newly elected councils held their inaugural and 1968 budget meetings towards the end of 1967, when the chairman for each of these 14 councils was also elected from among its members. Members were elected for 2 years and new elections were held in 1969.

At the apex of the Fijian Administration is the Great Council of Chiefs presided over by the Minister of Fijian Affairs and Rural Development. The Council of Chiefs consists of 22 Fijian members of House of Representatives, 30 representatives, elected by the Provincial Councils and 15 representatives nominated by the Minister for Fijian Affairs and Rural Development.

Fijian courts are being abolished gradually and merged into the magistrates' court.

The Council of Chiefs advises the Government generally on Fijian affairs.

RELIGION. The 1966 census showed: Methodists, 182,193; Roman Catholics, 43,000; Anglican Church, 6,584; Seventh Day Adventists, 6,149; Presbyterians, 1,019; other Christians, 2,116; Hindus, 191,705; Moslems, 37,116; Sikhs, 3,002; Confucians, 174; others, 460. The Methodist Church lists 153,355 adherents, of whom 37,000 are full members; it has 1,281 congregations, 176 ministers (including those retired), 971 catechists and lay pastors and 7,463 lay preachers.

The Anglican Church (Province of New Zealand) has a bishop, 33 priests and 2 deacons with 16 churches and 18 meeting places, 7 schools with 49 teachers and 16 lay preachers. The Catholic Mission has an archbishop and 53 European, 12 Fijian, 1 Rotuman, 1 Indian and 2 Chinese priests, 15 European, 2 Indian and 1 Samoan teaching brothers, 96 churches and chapels, 3 training institutions, 208 catechists and teachers. The Seventh Day Adventists have 87 churches, 37 ordained ministers and 48 schoolteachers.

EDUCATION (1971). There were 700 schools, of which 33 were controlled by the Government. The total enrolment (excluding 73 kindergartens and the medical and agricultural schools) was 145,955, of whom 56,657 were Fijians, 78,881 Indians, 3,789 Europeans, 1,555 Chinese and 3,613 others. There were 4,740 teachers, of whom 3,422 were trained. There are also 3 teacher-training colleges and a medical and agricultural school. Total Government expenditure in 1971 was over \$F9m. (including \$F346,813 aid from UK). The South Pacific University at Suva was opened in Feb. 1968.

CINEMAS (1970). There were 24 cinemas with a seating capacity of 10,000.

FINANCE. Currency. Fiji changed to decimal currency on 13 Jan. 1969, with the major unit being \$1. The securities forming the investment portion of the Note Security Fund were £F4,806,423 in the investment portion and £F565,311 in the Joint Consolidated Fund at 31 Dec. 1968.

The Fiji dollar is linked to sterling by law at the fixed rate of \$F209 = £100 sterling; \$F1 = US\$1.13.

Budget. The financial year corresponds with the calendar year. All figures are in \$ Fijian.

	1966	1967	1968	1969	1970	1971
Revenue	23,172,546	28,366,094	32,325,287	31,715,186	36,843,175	53,008,798
Expenditure	23,074,716	29,065,388	30,731,192	32,135,455	35,666,926	46,806,723

The principal sources of revenue in 1969 were (in \$F1,000): Customs and port dues, 28,072; taxes and licences, 19,770; court fees, etc., 2,775; post office, 3,660; interest, 954. The public debt on 31 Dec. 1972 was \$F44,717,964.

Estimated capital expenditure on development projects which is in addition to recurrent expenditure is estimated at \$F20,898,388 in 1972. Capital expenditure for development is financed by grants from Britain, loans and contributions from recurrent revenue. In 1971 capital expenditure was \$F13,364,007.

DEFENCE AND POLICE. The Fiji Military Forces Ordinance, 1949, provides for the maintenance of a small regular force, with territorial units and trained reserves.

There is a police force consisting of Fijians and Indians, with European, Indian and Fijian officers. Strength of police force in 1970, 896.

AGRICULTURE. In 1968 there were under cultivation: Bananas, 10,000 acres; coconuts, 179,000 acres; sugar-cane, 131,000 acres; rice, 25,000 acres; pineapples, 500 acres; cocoa, 5,200 acres; tobacco, 1,000 acres; maize, 4,000 acres; water melons, 800 acres. There were 135,000 cattle, 66,000 goats, 24,000 pigs, 25,000 horses and 390,000 poultry in 1968.

FORESTRY. The total forest area amounts to about 3,600 sq. miles, but only about 38% is commercially productive. The annual planting programme rose from 498 acres in 1960 to 4,813 acres in 1969, when the total area under plantations of mahogany and pine was 30,520 acres.

At the end of 1968, 68 saw-mills were registered. Total log production was 35.3m.; Hoppus super feet yielding 21.7m. super ft of sawn timber.

INDUSTRY. Major industries include 4 large sugar-mills, the goldmines (87,630 fine oz. in 1971) and 3 mills which process copra into coconut oil and coconut meal. There is a great variety of light industries.

TRADE UNIONS. There were 37 trade unions and 31 industrial associations registered at the end of 1972.

COMMERCE. Exports in 1969 included: Sugar, 316,000 tons (\$F28,134,000); coconut oil, 17,100 tons (\$F3,909m.); gold, 95,000 fine oz. (\$F3,361,000); bananas, 6.5m. lb. (\$F289,000); coconut meal, 8,000 tons (\$F384,000).

Total trade (in \$F) in calendar years:

	1967	1968	1969	1970	1971
Imports	56,290,778	68,402,000	77,900,000	40,502,000	111,550,000
Exports	42,661,110	49,118,000	43,548,000	48,873,000	48,855,000

Balance of trade deficits in recent years have been more than offset by gross receipts from tourism, amounting to \$F33m. in 1971 and substantial inflows of capital.

Imports in 1971 (in \$F1,000) from Australia were 21,411; Japan, 19,020; New Zealand, 11,897; USA, 4,436; Hong Kong, 3,409; India, 1,993.

Exports in 1971 (in \$F1,000) to UK were 17,845; USA, 11,085; Canada, 6,263; Australia, 4,758; New Zealand, 3,711; Japan, 2,297.

Total trade between Fiji and UK (British Board of Trade returns, in £1,000 sterling):

	1968	1969	1970	1971	1972	1973
Imports to UK	9,118	11,727	10,206	9,400	10,830	11,301
Exports and re-exports from UK	6,169	5,880	6,083	8,286	9,785	9,689

ROADS. There is a principal highway round Viti Levu, the distance from Suva to Lautoka *via* Ra, Tavua and Ba (King's Road) being 166 miles and *via* Navua and Sigatoka and Nadi (Queen's Road) being 156 miles. Branch roads run 34 miles along the Sigatoka Valley, 18 miles to Nadarivatu and Navai, 5½ miles to Vatukoula Goldfields, 35 miles to Serea and 7 miles to Vunidawa.

On Vanua Levu highways are in the neighbourhood of Labasa (Nasea) and Nasavusavu (Valeci). There are highways, 92 miles south and 36 miles west of Labasa. A highway extends to Buca Bay, 45 miles east of Nasavusavu. Coastal roads connect villages and plantations on parts of the islands of Taveuni and Ovalau.

Total road mileage is 1,439, of which 1,245 are all-weather roads.

RAILWAY. There is a private 2-ft-gauge railway (South Pacific Sugar Mills Railway) of 362 miles from Tavua to Sigatoka serving most of the sugar-cane producing area.

SHIPPING. On 31 July 1971, 126 vessels of 3,160 net tons were registered with the Fiji Marine Board. Suva has 4 slipways of 100, 200, 500 and 1,000 tons, and there are 3 shipbuilding and repair firms.

AVIATION. Fiji provides an essential staging point for long-haul trunk-route aircraft operating between North America, Australia and New Zealand. Under the South Pacific Air Transport Council, which comprises the United Kingdom, Australia, New Zealand and Fiji, the international airport at Nadi has been developed and administered. Four other airports are in use for domestic services.

Long-haul services touching Nadi airport are operated by PANAM (USA, Honolulu, Sydney), Air New Zealand (Auckland, Pago Pago, Honolulu, Los Angeles), Qantas (Sydney, Honolulu, San Francisco; Sydney, Tahiti, Mexico), Union de Transports Aériens (Sydney, Nouméa, Tahiti, Los Angeles), Canadian Pacific Airlines (Vancouver, Honolulu, Auckland, Sydney), Air India (Perth, Sydney), British Airways (Sydney-London and USA-London) and American Airlines (West Coast US-Sydney, Auckland).

Domestic and regional services are operated by Air Pacific (Tonga, New Hebrides, Solomon Islands, Gilbert and Ellice Islands, Western Samoa) and Polynesian Airlines (Western Samoa).

POST. There are 156 post offices and agencies. Overseas postal communications are excellent. There is a daily air service to the major countries of the world and

frequent dispatches by sea to UK, Australia, New Zealand and North America. Overseas telephone and telegram services are available through the Commonwealth cable to most countries except those in the South Pacific, which are served by direct radio circuits. The automatic telex network operates through New Zealand into the international telex system. There are ship-to-shore radio facilities. There were 21,552 telephones in 1973.

BANKING. The Bank of New South Wales has 5 branches and 9 agencies, and the Bank of New Zealand has 4 branches and 9 agencies and the Australia and New Zealand Bank has 2 branches and 4 agencies and the Bank of Baroda has 5 branches and 5 agencies in Fiji.

The Savings Bank of Fiji had, at the end of 1971, deposits amounting to SF5,678,323 due to 168,758 accounts. The headquarters are at the General Post Office, Suva, and there are 58 branches throughout Fiji.

WEIGHTS AND MEASURES are the same as in the UK.

THE GAMBIA

HISTORY. The Gambia was discovered by the early Portuguese navigators, but they made no settlement. During the 17th century various companies of merchants obtained trading charters and established a settlement on the river, which, from 1807, was controlled from Sierra Leone; in 1843 it was made an independent Crown Colony; in 1866 it formed part of the West African Settlements, but in Dec. 1888 it again became a separate Crown Colony. The

boundaries were delimited only after 1890. The Gambia achieved full internal self-government on 4 Oct. 1963 and became an independent member of the Commonwealth on 18 Feb. 1965.

A referendum was held in Nov. 1965 to decide whether The Gambia was to become a republic. The referendum failed, as any alteration of the constitution requires a two-thirds majority. A further referendum was held in April 1970 and 84,968 were cast in favour of a republic and 35,683 against. The Gambia became a republic within the Commonwealth on 24 April 1970.

AREA AND POPULATION. Area of Banjul (formerly Bathurst) and environs, 29.4 sq. miles (76.1 sq. km); population (1973) 39,476. In the Provinces (area, 4,236 sq. miles, 11,295 sq. km) the settled population (1971) was 275,469, not including temporary immigrants. Total population (census, April 1963), 315,486. The largest tribe is the Mandingo (128,807), followed by the Fulas (42,723), Woloffs (40,805), Jolas (22,046) and Sarahulis (21,318). The capital is Banjul (27,809 inhabitants, including 412 Europeans). Population estimate (1973), 494,279.

CONSTITUTION AND GOVERNMENT. Parliament consists of the House of Representatives and consists of a Speaker, Deputy Speaker and 32 elected members; in addition, 4 Chiefs are elected by the Chiefs in Assembly; 3 nominated members are without votes and the Attorney-General is nominated and has a vote.

At the general election of 28–29 March 1972, the People's Progressive Party obtained 28, the United Party 3 seats and Independents 1 seat.

The Cabinet is composed of the President and 7 Ministers drawn from the Legislature.

Three special agreements with Senegal, on external affairs, defence and security, and development have been signed.

The Government was in Oct. 1972 composed as follows:

President: Sir Dawda Kairaba Jawra.

Vice-President and Minister of External Affairs: Andrew David Camara.

Minister for Local Government, Lands and Mines: Alhaji Yaya Ceesay.

Minister of Agriculture and Natural Resources: Alhaji Alieu Badara N'Jie.

Minister of Health and Labour: Alhaji Kalilou Singhateh.

Attorney-General: Mohamadu Lamin Saho.

Minister of Works and Communications: Alhaji Sir Alieu Sulayman Jack.

Minister of State, Information, Broadcasting and Tourism: B. L. K. Sanyang.

Education, Youth and Social Welfare: Alhaji Momodu C. Cham.

LOCAL ADMINISTRATION. The Gambia is divided into 35 districts, each traditionally under a Chief, assisted by Village Heads and advisers. These districts are grouped into 6 Area Councils containing a majority of elected members, with the Chiefs of the district as *ex-officio* members. The city of Banjul is administered by a City Council.

RELIGION. The population is predominantly Moslem. Banjul is the seat of an Anglican and a Roman Catholic bishop. There are several Methodist mission centres.

EDUCATION (1973). There were 95 primary schools (414 teachers, 19,421 pupils), 17 junior secondary schools (129 teachers, 3,753 pupils) and 5 senior secondary schools (61 teachers, 1,620 pupils), 5 of which are recognized for School Certificate Examination. The vocational training centre in Banjul offers courses in carpentry and metalwork (13 lecturers, 178 students). Yundum College provides training for teachers (16 lecturers, 148 students).

NEWSPAPERS. There is an official (three times weekly) and several duplicated newsheets.

RADIO. Radio Gambia, a government station, broadcasts for approximately 10 hours each day.

FINANCE. Currency. In July 1971 a new currency unit (*dalasi*) was introduced. It is divided into 100 *butut*. 4 *dalasi* = £ sterling; 1 *dalasi* = US\$0.62 (March 1973)

Budget. Revenue and expenditure for years ending 30 June were as follows (in £1,000 sterling until 1970-71 and then 1,000 *dalasi*):

	1969-70	1970-71 ¹	1971-72 ¹	1972-73 ¹	1973-74 ¹
Revenue	3,524	5,087	20,052	21,195	20,658
Expenditure	3,634	4,661	20,728	21,055	22,279

¹ Estimates.

AGRICULTURE. Almost all commercial activity centres upon the marketing of groundnuts, which is the only export crop of financial significance. Rice is of increasing importance for local consumption.

Livestock (1973). 270,000 cattle, 100,000 goats, 129,000 sheep, 240,000 pigs and poultry.

MINING. Deposits of ilmenite exist on old storm beaches along the Atlantic coast. No other workable mineral deposits are known.

TRADE. Chief items of imports are textiles and clothing, vehicles and machinery, metal goods and petroleum products.

Imports and exports, in £1,000:

	1965-66	1966-67 ¹	1968-69	1969-70
Imports	5,814	7,125	9,331	7,123
Exports	4,530	6,313	7,381	6,557

¹ Revised estimates.

Chief items of exports are groundnuts, palm kernels, dried and smoked fish, hides and skins and groundnut oil.

Trade between the Gambia and UK (British Board of Trade returns, in £1,000 sterling):

	1969	1970	1971	1972	1973
Imports to UK	2,024	4,139	4,564	4,598	4,204
Exports and re-exports from UK	2,588	2,110	2,707	3,197	3,225

LABOUR. There are 4 large and 10 small trade unions.

TOURISM. In 1972-73 over 17,000 tourists visited the Gambia.

SHIPPING. The chief port, Banjul, handled 306 ships of 668,879 DWT in 1972-73. Work is in progress (1973) on the development of the port. More ocean-going vessels will be able to berth at the quay when work is completed. Internal communication is maintained by steamers and launches.

ROADS. There are 730 miles of motorable roads, of which 330 miles rank as all-season. Number of licensed motor vehicles (1973): 5,871 passenger and commercial vehicles and 1,021 motor cycles.

AVIATION. Air movements at Yundum Airport in 1971 numbered 1,161, including scheduled services.

POST. There are several post offices and agencies; postal facilities are also afforded to all river towns by means of a travelling post office on the government river mail-steamers. Banjul is connected with St Vincent (Cape Verde islands) and with Sierra Leone by cable. Banjul is in wireless communication with London and the main centres up river. A trans-Gambia telephone system provides direct communications with Dakar and Ziguinchor. Telephones numbered 1,942 in June 1973. A telex service was introduced in 1968.

BANKING. There are 4 banks in the Gambia, the Standard Bank of West Africa Ltd, Central Bank of the Gambia, Commercial and Development Bank and la Banque Internationale pour le Commerce et l'Industrie (BICI). On 30 June 1970 the government savings bank had over 23,608 depositors holding £271,563.

GHANA

HISTORY. The State of Ghana came into existence on 6 March 1957 when the former Colony of the Gold Coast and the Trusteeship Territory of Togoland attained Dominion status. The name of the country recalls a powerful monarchy which from the 4th to the 13th century A.D. ruled the region of the middle Niger.

The Ghana Independence Act received the royal assent on 7 Feb. 1957. The General Assembly of the United Nations in Dec. 1956 approved the termination of British administration in Togoland and the union of Togoland with the Gold Coast on the latter's attainment of independence.

The country was declared a republic within the Commonwealth on 1 July 1960.

National flag: Red, gold, green (horizontal); a black star in the centre.

National anthem: Hail the name of Ghana.

CONSTITUTION AND GOVERNMENT. Following a bloodless *coup* on 13 Jan. 1972 the armed forces of Ghana took over the government from Dr K. A. Busia. A National Redemption Council (NRC) was established to administer the affairs of the country.

The Constitution of the Second Republic of Ghana which came into force on 22 Aug. 1969 was suspended. The office of President was abolished and the National Assembly dissolved.

All political parties existing before 13 Jan. were proscribed.

For earlier political history of Ghana see THE STATESMAN'S YEAR-BOOK, 1971-72.

Other chief towns (population, census, 1970): Sekondi/Takoradi, 161,071; Asamankese, 101,144; Nsawam, 57,350; Oda, 40,740; Obuasi, 40,001; Winneba, 36,104; Keta, 27,461; Swedru (Agona), 23,843.

Estimated birth rate, between 47 and 52 per 1,000; death rate, about 23 per 1,000.

EDUCATION. In the 1972-73 academic year the combined enrolment in the 3 universities, the University of Ghana, the University of Science and Technology, Kumasi, and the University of Cape Coast, was 5,421.

The Institute of Adult Education (affiliated to the University of Ghana), established in 1962, had in 1971 an enrolment of 2,596; this institute has established workers' colleges in the principal towns.

Compulsory, fee-free primary and middle school education was introduced in Sept. 1961. Secondary and technical education became free in Sept. 1965. Primary schools in 1972-73 numbered 6,734; they were attended by 1,000,510 children; middle schools had an enrolment of 446,695.

There were 149 secondary schools with 62,479 students, while 8,632 were in training at the 15 government technical institutes. The number of teacher-training colleges was 61, with 15,272 trainees. In 1972-73 there were 53,029 teachers.

From Sept. 1973 pupils began to pay an annual nominal fee of ₵3, ₵4.50, ₵18 and ₵10 each in the primary, middle, secondary schools and teacher-training colleges respectively, for the supply of textbooks and school materials.

NEWSPAPERS. There are 3 daily, 1 bi-weekly and 13 weekly papers, 3 fortnightly and 10 monthly magazines.

JUSTICE. The judicial power of Ghana is vested in the Judiciary with the Chief Justice as the Head. It has jurisdiction in all civil and criminal matters.

The Courts of Ghana are constituted as follows: (1) *Superior Court of Judicature*, the Court of Appeal and the High Court of Justice. The Supreme Court of Ghana, created by the suspended Constitution in 1969, has been abolished and its functions taken over by the Court of Appeal.

The Court of Appeal. The Court of Appeal replaces the former Supreme Court of Ghana as the highest and final Court of Appeal in and for Ghana. It has all the power, authority and jurisdiction vested in any Court established in the country. The Court of Appeal consists of the Chief Justice, as President, together with not less than 6 other Justices of the Appeal Court and such other Justices of Superior Courts as the Chief Justice may request. The Court is duly constituted by 5 justices. A full Bench of the Court of Appeal has jurisdiction to review and determine, among other things, a decision of the Court of Appeal or any justice or division thereof upon a question of law, including matters relating to aspects of the Chieftaincy Act 1971. Divisions of the Appeal Court may be created, subject to the discretion of the Chief Justice.

The High Court of Justice. This Court has jurisdiction in civil and criminal matters as well as those relating to industrial and labour disputes, including

administrative complaints. It has supervisory jurisdiction over all inferior and traditional courts, but has no power in a trial for offences involving treason, to convict any person for any offence other than treason. The High Court consists of the Chief Justice, not less than 12 Puisne Judges and such other Judges of the Superior Court as may be requested by the Chief Justice. It is constituted by between 1 Justice (with or without a jury) to 3 Justices for specific offences.

The country has been divided into 7 circuits, and there are 11 Circuit Judges sitting in these courts with original jurisdiction in all criminal cases, except offences where the maximum punishment is death. The original jurisdiction in civil matters is restricted to cases where the subject-matter of the suit is not more than N¢4,000 (or £2,000). District Courts (Grade I and II): sitting throughout the country in the magisterial districts. Juvenile Courts, dealing with persons under the age of 17, have been established in Accra, Cape Coast, Sekondi, Kumasi and Koforidua.

Police. The establishment of the force was (1971) 351 police officers, 1 director of music, 649 inspectors and 15,191 other ranks, distributed over 479 stations.

WELFARE. Medical facilities include 43 government hospitals, 49 health centres, 3 university hospitals, 2 mental hospitals, 4 leprosaria, 6 military hospitals, 1 prison hospital, 42 mission hospitals, 13 mines hospitals and 31 private hospitals. In addition, there are 11 nurses and midwives training schools.

An intensive health post building programme, which began in 1968, is being actively pursued for the development of basic health services. It is expected that when the programme is completed in 1978, there will be about 205 posts and so far 32 are in operation.

FINANCE. Currency. The monetary unit is the *cedi* (¢), divided into 100 *pesewas* (P) and equivalent to £0.32 (¢2.85 to the £) or US\$1.15. Notes are issued of 1, 2, 5 and 10 ¢; copper coins of $\frac{1}{2}$ and 1 P, and cupro-nickel coins of $2\frac{1}{2}$, 5, 10 and 20 P.

Budget. Revenue and expenditure for fiscal years ending 30 June (excluding Ghana Railway and Takoradi Harbour accounts), in ¢1,000:

	1967-68	1968-69	1969-70	1971-72
Revenue ¹	300,247	291,177	369,200	420,330
Expenditure ²	344,289	353,591	437,700	430,382

¹ Excludes redemption of loans.

² Excludes contribution to sinking funds, repayment of loans, loans and refunds of revenue.

The main items of expenditure envisaged for 1969-70 were (in ¢1,000): Social services, 132,944; general services, 144,841; economic services, 70,534; community services, 41,687.

PUBLIC DEBT. On 30 June 1969 total public debt was ¢1,083m., of which external debt was ¢503.8m. and internal debt ¢579.2m. The external debt includes suppliers credit amounting to ¢324.8m. (provisional). Sinking Fund in connexion with funded debt was ¢13.2m.

DEFENCE. The Ministry of Defence is responsible for the armed services, the military academy and the border guards. The Military Academy provides a 2-year course for army officers, a 1-year course for later entrants in the flying-training school and a preliminary 6-month course for navy cadets.

Army. The Ghana Army consists of 7 infantry battalions, 2 reconnaissance squadrons, 5 with armoured cars, and ancillary units. Total strength, about 16,000. There are also 3 border battalions and a paramilitary militia of 3,000.

Navy. The Ghana Navy was formed in 1959. It comprises 2 corvettes, a coastal minesweeper, 2 inshore minesweepers, 2 seaward defence boats, 3 patrol boats and a maintenance repair craft. A frigate (to have been named *The Black Star*) was built in Britain to the order of Ghana, but the contract was rescinded in 1966; she was completed in 1968 and taken over by Britain in 1972, and was commissioned in the Royal Navy in 1973 as HMS *Mermaid*. Naval personnel (1973): 1,000 officers and ratings.

Air Force. The Ghana Air Force was formed in 1959, when an Air Force Training School was established at Accra. It has, for training and transport operations, 6 Fokker Friendship twin-turboprop transports, built in the Netherlands; 8 Britten-Norman Islander twin-engined STOL transports, 1 HS.125 twin-jet light transport, 3 Heron VIP transports, 6 Bulldog primary trainers and 2 Wessex and 3 Whirlwind turbine-engined helicopters built in England; 3 Hughes 300, 2 Bell 212 and 3 H-19 helicopters built in the US; 6 French-built Alouette III helicopters, and 5 Italian-built Aermacchi M.B.326 armed jet trainers. There are air bases at Takoradi and Tamale. Search and rescue, aerial survey and crop-spraying for the civil administration are part-duties of the Air Force. Personnel strength about 1,600.

AGRICULTURE. Cocoa is by far the most important crop and covers about 5m. acres. There has been a considerable increase in cocoa yields as a result of the Capsid control and the introduction of improved varieties. Coffee, improved types of oil palm and coconut are being planted on an increased scale and production from these crops is increasing. Progress has been made in the planting of Clonal rubber in south-west Ghana. In the south-east coastal belt irrigation works have been constructed and black-clay farming is being successfully undertaken in the Accra plains.

Of the main foodstuffs in south and central Ghana, maize, rice, cassava, plantain, groundnuts, yam and cocoyam predominate. Tobacco is proving an attractive and very important cash crop in food-crop-producing areas.

In northern Ghana the chief food crops are groundnuts, rice, maize, guinea corn, millet and yams, with tobacco as an important cash crop. Land planning in northern Ghana extends over 4,442 sq. miles of catchment area, and some 4,000 farmers have adopted mixed farming methods using bullocks and ploughs. In 1971, 404,776 long tons of cocoa were produced.

The State Farms Corporation has been reorganized and is now to concentrate on the development of large-scale tree-crop plantations such as palm oil, rubber, coconut, kola and cashew. All its available food farms have been transferred to the newly formed Food Production Corporation. The Corporation employs 10,000 who work on 30,000 acres growing maize, guinea corn, rice, vegetables, cassava, plantain, yams, etc.

An agricultural crash programme, 'Operation Feed Yourself', is currently under way, designed to produce the country's food requirements and industrial crops to supply the existing factories and for export. Large areas of land hitherto lying fallow are now thriving with a variety of staple crops. Guaranteed prices have been fixed for maize, yam, plantain and cassava to encourage production on a large scale. Agricultural cash crops, *e.g.*, pepper, ginger, pineapple, avocado and citrus, etc., are being extensively cultivated for export. Active steps have also been taken to provide within the next few years industrial raw materials, *e.g.*, kenaf, cotton, tobacco, palm oil, mango, pineapple, sugar-cane, etc., to feed the local factories. The trend is towards diversification of agriculture.

A Food Production Corporation has been established to see to the production and efficient and equitable distribution of foodstuffs throughout the country. The state farms have been transferred to the Corporation.

FORESTRY. The total area of closed forest is 31,760 sq. miles, of which 5,851 sq. miles are reserved. The area of savannah (not closed) forests is 60,283 sq. miles, of which 2,496 sq. miles are reserved. Exports (1970) of logs, 21.2m. cu. ft; of sawn timber, 8.5m. cu. ft.

The destruction of unreserved forests by farming is threatening the timber supply for exports. The Protected Timber Lands Act, 1959, as well as further reservation and afforestation try to counteract this trend.

ANIMAL HEALTH. Livestock, 1971: Cattle, 614,049; sheep, 715,181; goats, 602,940; horses 3,010; pigs, 137,086; poultry, 3.94m. The Central Veterinary Laboratory is located at Pong-Tamale under the Veterinary Research Officer. The efficient control of rinderpest and bovine pleuro-pneumonia, the two main

killing diseases of cattle, has made it possible to quadruple the cattle in the past 20 years. The control of imported livestock is effected by 8 quarantine stations along the frontier.

FISHERIES. Fishing is carried on by about 150,000 fishermen with 8,700 canoes operating from open beaches or with 432 motor craft from harbours. The equipping of the canoes with outboard motors is assuming greater importance. The total catch in 1971 was about 181,135 metric tons.

The Ghana Fishing Corporation has been set up to take over the fisheries division of the former Agricultural Development Corporation.

MINING. In 1972 gold production was 697,517 fine oz.; diamonds, 2,561,748 carats; manganese, 459,195 tons; bauxite, 323,401 long tons.

COMMERCE. Total trade, in £1,000, for calendar years:

	1967	1968	1969	1970	1971
Imports	261,523	314,032	354,391	419,047	443,142
Exports	245,122	338,782	333,264	467,378	357,484
Principal exports (in £1,000)					
Cocoa	103,057	130,670	185,600	158,327	328,698
Timber	20,916	22,394	28,616	39,227	36,971
Gold	10,884	12,695	16,258	24,178	25,695
Diamonds	10,843	12,636	17,430	13,867	14,467
Manganese	12,151	9,233	10,546	7,017	7,209
Bauxite	1,488	1,593	1,276
					2,290

In 1969 the most important items of imports were food, mineral fuels, chemicals, manufactured goods, machinery and transport equipment.

Total trade (in £1,000 sterling) between Ghana and UK (British Board of Trade returns):

	1969	1970	1971	1972	1973
Imports to UK	43,304	38,948	32,186	33,136	48,702
Exports and re-exports from UK	37,475	38,380	44,636	16,474	30,383

West African Common Market. On 4 May 1967, 12 West African countries (Dahomey, Ghana, Ivory Coast, Liberia, Mali, Mauritania, Niger, Nigeria, Senegal, Sierra Leone, Togo and Upper Volta) signed articles of association in Accra, setting up a common market for goods and services among them and eliminating customs and trade barriers.

NATIONAL INCOME. The GNP was £2,285m. in 1969 (1970: £2,527m).

RAILWAYS. The total railway mileage open on 1 Dec. 1969 was 592, including a link of 51 miles between the Central Province line at Achiasi and the Accra-Kumasi line at Kotoku opened in Feb. 1956. The main line runs from Takoradi to Kumasi, thence to Accra (355 miles); with branches: Takoradi Junction-Sekondi (3 miles), Tarkwa-Prestea (19 miles), Hunni Valley-Kade (99 miles, Central line), Dunkwa-Awaso (46 miles), Achimota-Tema (16 miles), Achiasi-Kotoku (51 miles) and Accra-Accra Beach (2 miles). All are 3 ft 6 in. gauge. During 1968-69 capital expenditure was £1.74m., revenue was £8.05m. and expenditure (including renewals) £10.47m.

ROADS. The total mileage of roads maintained by the Public Works Department in 1971 was 6,431, of which 2,450 miles were bitumen surfaced and 4,137 miles gravel surfaced.

The number of vehicles with valid licences at 31 Dec. 1969 was 53,717. The principal categories were: Cars, 34,222 (including taxis); goods vehicles, 13,137; motor cycles, 3,550; special-purpose vehicles, 2,808.

SHIPPING. The chief port is Takoradi; the 'surf' ports at Accra, Winneba, Cape Coast and Keta ceased to operate when Tema harbour was opened in 1962, 18 miles east of Accra. In 1970, 4,164,329 tons of cargo were imported and 2,154,759 tons were exported by 3,116 ships.

AVIATION. There are 4 major airports in Ghana, situated at Accra, Takoradi, Kumasi and Tamale; and 3 airstrips for domestic services. Accra airport is an international airport. The following airlines operate scheduled services: Ghana Airways, Air France, Nigerian Airways, Air Mali, United Arab Airlines, KLM, Swissair, PANAM, British Caledonian and several other companies. Total aircraft movement in 1970 was 31,611.

POST. There were (31 Dec. 1970) 2,190 miles of telegraph land wire, 20,948 miles of telephone trunks, 187 post offices and 669 postal agencies. There were 359 telephone exchanges and 526 call offices with (1971) 61,183 telephones in use and 29,227 miles of underground and overhead land wires in the exchange areas. There are internal wireless stations at Accra, Kumasi, Bawku, Lawra, Kete-Krachi, Tamale, Yendi, Kpandu and Tumu.

BANKING. The Bank of Ghana was established in Feb. 1957 as the central bank of the country. The Ghana Commercial Bank, also established in Feb. 1957, is the former Bank of the Gold Coast. It is a purely commercial institution and has 96 branches in the country, one in London and one in Lomé (Togo). Barclays Bank (Ghana) Ltd has 58 branches and agencies and the Standard Bank (Ghana) Ltd has 32 branches.

The Ghana National Investment Bank, opened in June 1963, is a finance-cum-development agency. The former post office savings bank has been transformed into the Ghana Savings Bank. The Bank for Housing and Construction opened in 1973.

GIBRALTAR

HISTORY. The Rock of Gibraltar was settled by Moors in 711; they named it after their chief Jabal Tariq, 'the Mountain of Tarik'. In 1462 it was taken by the Spaniards, from Granada. It was captured by Admiral Sir George Rooke on 24 July 1704, and ceded to Great Britain by the Treaty of Utrecht, 1713. The cession was confirmed by the treaties of Paris (1763) and Versailles (1783).

On 10 Sept. 1967, in pursuance of a United Nations resolution on the decolonization of Gibraltar, a referendum was held in Gibraltar in order to ascertain whether the people of Gibraltar believed that their interests lay in retaining their link with Britain or in passing under Spanish sovereignty. Out of a total electorate of 12,762, 12,138 voted to retain the British connexion, while 44 voted for Spain.

GOVERNMENT. Following a Constitutional Conference held in July 1968, a new Constitution was introduced in 1969. The Legislative and City Councils were merged to produce an enlarged legislature known as the Gibraltar House of Assembly. Executive authority is exercised by the Governor, who is also Commander-in-Chief. The Governor, while retaining certain reserved powers, is normally required to act in accordance with the advice of the Gibraltar Council, which consists of 4 *ex-officio* members (the Deputy Governor, the Deputy Fortress Commander, the Attorney-General and the Financial and Development Secretary) together with 5 elected members of the House of Assembly appointed by the Governor after consultation with the Chief Minister. Matters of primarily domestic concern are devolved to elected Ministers, with Britain responsible for other matters, including external affairs, defence and internal security. There is a Council of Ministers presided over by the Chief Minister.

The House of Assembly consists of a Speaker appointed by the Governor, 15 elected and 2 *ex-officio* members (the Attorney-General and the Financial and Development Secretary).

A Mayor of Gibraltar is elected from among the members of the Assembly by the elected members of the Assembly.

Governor and C.-in-C.: Marshal of the Air Force Sir John Grandy, GCB, KBE, DSO.

Chief Minister: Sir Joshua Hassan, CBE, MVO, QC.

AREA AND POPULATION. Area, 2½ sq. miles (6.5 sq. km). Total population, including port and harbour (census, 6 Oct. 1970), 26,833 (13,501 males; 13,332 females). Estimate (1972) 29,254 (15,429 males; 13,825 females). The population are mostly of Genoese, Portuguese and Maltese as well as Spanish descent.

Vital statistics (1972): Births, 581; marriages, 548; deaths, 244.

RELIGION. Religion of civil population mostly Roman Catholic; 1 Anglican and 1 Roman Catholic cathedral and 2 Anglican and 6 Roman Catholic churches; 1 Presbyterian and 1 Methodist churches and 4 synagogues; annual subsidy to each communion, £500.

EDUCATION. Free compulsory education is provided for children between ages 5 and 15 years. Scholarships are made available for universities, teacher-training and other higher education in Britain. The comprehensive system was introduced in Sept. 1972. There are 11 government primary schools and 2 comprehensive schools, 1 for boys and 1 for girls. There are also 2 private primary schools, 1 Hebrew primary school, 2 Services primary schools and 1 school for handicapped children. Total number of pupils was 5,297, including 58 in technical and vocational schools.

JUSTICE. The judicial system is based on the English system. There is a Court of Appeal, a Supreme Court, presided over by the Chief Justice, a court of first instance and a magistrates' court.

FINANCE. Currency. The legal currency consists of Gibraltar Government notes and UK coins. The amount of local currency notes in circulation at 31 March 1973 was £2,336,346.

Budget and Trade. Revenue and expenditure, and imports and exports (in £ sterling):

	1968	1969	1970-71	1971-72	1972-73
Revenue	2,493,106	2,396,930	5,952,000	5,679,643	5,614,920
Expenditure	2,400,465	2,410,762	5,436,147	5,559,072	5,674,270
Imports	10,230,377	10,021,614	10,315,751	11,944,029	12,777,294
Exports	2,425,763	2,175,680	3,070,760	3,509,473	3,025,501

Britain and the Commonwealth provide the bulk of the imports, but fresh vegetables, fruit and fish come mainly from Morocco, Portugal and the Netherlands. Exports of local produce are negligible. Gibraltar depends largely on tourism, the entrepôt trade and the provision of supplies to visiting ships.

INDUSTRY. There are a number of relatively small industrial concerns engaged in the bottling of beer and mineral waters, etc., mainly for local consumption. There is a small but important commercial ship-repair yard. Tourism is of increasing importance.

LABOUR. The full-time labour force in Oct. 1972 consisted of 8,737 males and 2,225 females. In June 1969, 4,666 Spanish frontier workers were prevented by the Spanish authorities from entering Gibraltar, as had been done with Spanish women workers in 1966. Measures which had been taken previously against the possibility of such a withdrawal worked well, and not very much disruption was occasioned to the day-to-day life of Gibraltar. Some industries, particularly construction, were initially affected. Nearly one-half of the labour force is employed by the UK departments or the Gibraltar government.

A considerable proportion of the workers are organized in one or other of the 28 registered trade unions, of which the Transport and General Workers Union has the largest membership; 10 of these are local branches of parent associations in the UK.

SHIPPING. Gibraltar is a naval and air base of great strategic importance. There is a deep Admiralty harbour of 440 acres. Vessels called in 1972, 2,243, net tonnage, 13,269,047.

POST. An automatic telephone system exists in the town, and there is world-wide communication *via* the cable and/or wireless circuits of Cable & Wireless Ltd. Air-mails arrive by British Airways daily. A direct air-mail service between Gibraltar and Tangier is run by Gibraltar Airways, Ltd. Surface mails arrive direct and through France, Spain and Tangier.

BANKING. There are 6 banks, including a branch of Barclays Bank International. Government savings bank, with 12,987 depositors, had £1,599,111 deposits at 31 March 1973.

GILBERT AND ELLICE ISLANDS COLONY

HISTORY. The Gilbert and Ellice Islands were proclaimed a protectorate in 1892 and annexed (at the request of the native governments) as the Gilbert and Ellice Islands Colony on 10 Nov. 1915 (effective on 12 Jan. 1916).

GOVERNMENT. The Colony formerly came under the jurisdiction of the High Commissioner for the Western Pacific, but from 1 Jan. 1972 is headed by a Governor with direct access to London.

The Gilbert and Ellice Islands Order 1970, established an Executive Council and a Legislative Council both of which are presided over by the Resident Commissioner. The former comprises 3 *ex-officio* members (Assistant Resident Commissioner, Attorney-General, Financial Secretary), 2 public service members, 4 elected members appointed by the Governor (with the advice of the Leader of Government Business), and the Leader of Government Business who is elected to the Council by elected members of the Legislative Council.

The Legislative Council consists of the official members of the Executive Council plus a further 28 elected members. It has a life of 3 years and its main function is to legislate.

The Colony is divided into 27 electoral districts, of which one returns 2 members. A General Election under the new Constitution was held at the beginning of 1971.

A form of local government was to be found on each of the islands as early as 1915, but it is only recently that a unified form of island administration has been created by the Local Government Ordinance of 1966. Under its provision Island Councils have been set up on each of 24 islands in the Gilbert and Ellice Islands, each being elected by the adult population of the island. They are empowered to enact bye-laws and are responsible for providing social services on the islands. They also prepare yearly estimates of revenue and expenditure. An Island President acts as Chairman and an Island Executive Office as full-time Secretary to the Council.

The Colony comes within the jurisdiction of the High Court of the Western Pacific, with right of appeal to the Fiji Court of Appeal. Island Courts, under legislation of 1965, are now capable of jurisdiction over all the races, both in civil and criminal fields, subject to review by the Senior Magistrate. Lands Courts deal with land litigation.

Governor: John Hilary Smith, CBE.

AREA AND POPULATION. The Colony comprises 4 groups of atolls together with the adjacent Ocean Island. Total population at 5 Dec. 1968 was 53,517.

Ocean Island is situated at 0° 52' S. lat., 169° 35' E. long. and is approximately 2 sq. miles in area. Population (Dec. 1968) 2,192, including 160 Europeans and 26 Chinese. This island was annexed and included in the Colony (at that time a protectorate) by a proclamation of 28 Nov. 1900.

The **Gilbert Islands** between 4° N. and 3° S. lat. and 172° and 177° E. long. comprise Makin, Butaritari, Marakei, Abaiang, Tarawa (headquarters of the colony and Gilbert Islands district), Maiana, Abemama, Kuria, Aranuka, Nonouti, Tabiteuea, Beru, Nikunau, Onotoa, Tamana and Arorae. Population (Dec. 1968) 44,206, including about 300 Europeans; area approximately 102 sq. miles (60 sq. km). The Gilbertese are classed as Micronesians; their language is known as Gilbertese.

The **Ellice Islands** between 5° 30' and 11° S. lat. and 176° and 180° E. long. comprise Nanumea, Nanumanga, Niutao, Nui, Vaitupu, Nukufetau, Funafuti (Ellice Islands district headquarters), Nukulaelae and Niulakita. Population (Dec. 1968) 6,332. Area approximately 9½ sq. miles (24 sq. km). The Ellice Islanders are a Polynesian race; their language is also known as Ellice.

The **Phoenix Islands** between 3° and 5° S. lat. and 170° and 175° W. long. comprise the islands of Canton, Enderbury, Birnie, McKean, Phoenix, Hull, Sydney and Gardner. Area approximately 11 sq. miles (28 sq. km).

The Phoenix Islands were included in the Colony by an Order in Council of 18 March 1937. In March 1938 the USA claimed sovereignty over Canton and Enderbury. On 6 April 1939 the UK and US Governments agreed, without prejudice to their respective claims, to exercise joint control over the 2 islands for a period of 50 years. Canton used to be an international airport on the trans-Pacific route between Fiji and Honolulu, but, with the use of long-range jet aircraft, is no longer serviced by scheduled flights and is now uninhabited.

The southern Phoenix Islands of Hull, Sydney and Gardner were colonized by Gilbertese between 1938 and 1940, but due to long droughts permanent settlement on them ceased between 1955 and 1964. Enderbury, Phoenix, Birnie and McKean Islands are also uninhabited. The Phoenix Islands are now administered by the District Commissioner, Gilbert Islands.

The **Line Islands** between 4° 40' and 2° N. lat. and 160° 20' and 157° W. long. comprise Fanning, Washington and Christmas Islands. Fanning Island: population (Dec. 1968) 376, including 2 Europeans; area approximately 13 sq. miles (33 sq. km). Washington Island: population (Dec. 1968) 437; area approximately 5 sq. miles (13 sq. km). Christmas Island (headquarters of the Line Islands district): population (Dec. 1968) 367; area approximately 139 sq. miles (359 sq. km). Fanning and Washington Islands were annexed in 1889 and a repeating station for the Pacific cable was established on Fanning; they were included in the Colony in 1916. Both islands are worked as copra plantations by Fanning Island Plantations, Ltd, using Gilbertese labour. The Cable & Wireless Station at Fanning Island closed early in 1964, after operating for 62 years. Christmas Island was discovered by Capt. Cook in 1777, annexed by Great Britain in 1888 and included in the Colony in 1919. It is reputed to be the largest atoll in the world. The island is worked as a copra plantation by the Government.

The following 5 Line Islands became part of the Colony by Order in Council from 1 Jan. 1972. **Starbuck Island**, 5° 35' S. lat., 155° 52' W. long.; area 1 sq. mile uninhabited. **Malden Island**, 4° S. lat., 155° W. long.; area 35 sq. miles (90 sq. km), containing deposits of guano of doubtful value, uninhabited. **Flint Island**, 11° 26' S. lat., 151° 48' W. long. and **Caroline Island**, 10° S. lat., 150° 14' W. long., were, in 1951, leased to commercial interests in Tahiti. **Vostock Island**, 10° 06' S. lat., 152° 23' W. long., uninhabited.

CLIMATE. The rainfall varies considerably. In normal years the annual rainfall ranges from 40 in. in the vicinity of the equator to about 100 in. in the North Gilbert Islands and 120 in. in the Ellice Islands. The Southern and Central Gilbert Islands and Ocean Island are subject to periodic droughts. The temperature varies between 80° and 90° F. (27–32° C.) by day and drops to a minimum of 70° F. (21° C.) at night.

EDUCATION (1971). The Government maintains a co-educational boarding school, the King George V and Elaine Bernacchi School at Tarawa, with 208 boys and 113 girls, 8 primary schools, with a total of 1,522 pupils. Primary aided schools had 9,704 pupils; primary unaided schools, 3,880 pupils. The Government also maintains a teachers' training college with 54 students.

In 1971, 87 islanders were in overseas countries for secondary and further education, expenses being met by the Colony, UK, Australian and New Zealand Governments and other aid sources.

There are 254 village schools throughout the Gilbert and Ellice groups run by the Congregational Council for World Mission, the Mission of the Sacred Heart, the Seventh Day Adventists Mission, the Church of God of South Carolina Mission and the Bahai Mission. Grants-in-aid to local government and Mission schools amounted to \$A463,805 for the year 1971.

WELFARE. Government maintains free medical and other services. There are few towns, and the people are almost without exception landed proprietors, thus eliminating child vagrancy and housing problems to a large extent, except in the Tarawa urban area. Destitution is almost unknown.

POLICE. In 1971 the Colony had a police force of 148 under a Chief Police Officer. Detachments are stationed at colony and district headquarters and some outer islands.

FINANCE. Revenue for the calendar year 1971 amounted to \$A5,012,579; principal items: customs duties, \$A828,000; direct taxation, \$A273,134; taxation on phosphate, \$A2,690,895. Expenditure in 1971 amounted to \$A3,796,684. Currency is Australian.

PLANNING. A Development Plan 1973-76 has been published. The first aim is the maintenance of at least the present standards of living and welfare, when the major source of present income, phosphate, is exhausted. As far as possible standards of welfare will be found by utilizing the country's own resources. The Plan requires control of the growth of population and rapid development of existing and new forms of income.

AGRICULTURE. The land is basically coral reefs upon which coral sand has built up, and then been enriched by humus from rotting vegetation and flotsam which has drifted ashore. The principal tree is the coconut, which grows prolifically on all the islands except some of the Phoenix Islands. Other food-bearing trees are the pandanus palm and the breadfruit. As the amount of soil is negligible, the only vegetable which grows in any quantity is a coarse calladium (*alocasia*) with the local name 'babai', which is cultivated most laboriously in deep pits. There is also a little taro cultivated in the Ellice group. Pigs and fowls are kept throughout the Colony, and there is an abundance of fish.

Copra production is mainly in the hands of the individual landowner, who collects the coconut products from the trees on his own land.

TRADE. The principal imports are rice, flour, cotton piece-goods, tobacco and manufactured articles such as bicycles. The value of imports for 1971 amounted to \$A4,733,571. Exports are almost exclusively phosphate and copra. The British Phosphate Commissioners exported 625,850 tons in 1971, valued at \$A5,999,500. Copra exports amounted to 8,421 tons in 1971, valued at \$A963,493.

COMMUNICATIONS. Air Pacific operates a weekly service Nadi-Funafuti-Tarawa. Fortnightly flights between Tarawa and Nauru are in operation. An internal air service from Tarawa to 3 outer islands started in 1969, using a Heron Mark I aircraft and continued to provide a twice-weekly service between Tarawa-Butaritari and Tarawa-Abemama and Tabiteuea.

GUYANA

HISTORY. The territory, including the counties of Demerara, Essequibo and Berbice, named from the 3 rivers, was first partially settled by the Dutch West Indian Company about 1620. The Dutch retained their hold until 1796, when it

was captured by the English. It was finally ceded to Great Britain in 1814 and named British Guiana. On 26 May 1966 British Guiana became an independent member of the Commonwealth under the name of Guyana and the world's first Co-operative Republic on 23 Feb. 1970.

AREA AND POPULATION. Guyana is situated on the north-east coast of South America on the Atlantic Ocean, with Surinam on the east, Venezuela on the west and Brazil on the south and west. Area, 83,000 sq. miles (210,000 sq. km). Estimated population (Dec. 1971), 740,000. Births (1970), 23,786 (34.3 per 1,000 population); deaths, 4,600 (6.6 per 1,000). The Greater Georgetown area had in 1970 an estimated population of 167,068.

In Nov. 1940 sites on the bank of the Demerara River, about 25 miles from the sea, and at Makouria, about 40 miles up the Essequibo River, were leased to the USA as military bases. The site on the Demerara River is being operated by the Guyana Government as a civil airport. The US Government relinquished its claims to Atkinson on Guyana's attainment of independence. On 1 May 1969 the airport and surrounding area (formerly Atkinson) were renamed Timehri.

CONSTITUTION AND GOVERNMENT. The constitution is based on the agreement reached at the independence conference in London in Nov. 1965. It provides for a unicameral national assembly of 53 elected members. Elections are held under the single-list system of proportional representation, with the whole of the country forming one electoral area and each voter casting his vote for a party list of candidates. The legislature is elected for 5 years unless earlier dissolved.

The elections held on 16 July 1973 gave the People's National Congress 37 seats, the People's Progressive Party 14 seats, the Liberator Party 2 seats. The PNC with an overall majority formed a 23-member cabinet. Twelve of these are non-elected members.

President: Arthur Chung.

The cabinet was in Oct. 1973 composed as follows:

Prime Minister, Public Corporations and Public Services: L. F. S. Burnham.

Deputy Prime Minister and Minister of National Development and Agriculture: Dr P. A. Reid. *Works and Communications:* H. D. Hoyte. *Labour:* W. G. Carrington. *Information and Culture:* S. M. Field-Ridley. *Without Portfolio and Leader of the House:* B. Ramsaroop. *Health:* Dr O. M. R. Harper. *Home Affairs:* C. V. Mingo. *Co-operatives and National Mobilization:* W. Haynes. *Local Government:* A. Salim. *Attorney-General and Foreign Affairs:* S. S. Ramphal. *Public Affairs:* H. Green. *Mines and Forests:* H. O. Jack. *Education:* C. L. Baird. *Finance and Trade:* F. E. Hope. *Economic Development:* Dr K. F. S. King. *Housing and Reconstruction:* S. S. Naraine. *Ministers of State:* M. Kasim (*Agriculture*); O. E. Clarke (*Public Service*).

EDUCATION (1972). Primary education is compulsory. There were 390 primary schools (130,671 pupils, 3,985 teachers) and 45 secondary schools (61,647 pupils, 2,839 teachers).

The University of Guyana was inaugurated on 1 Oct. 1963; it has faculties of arts, natural science, social science, education and technical studies. There were 1,101 students in Oct. 1973 (870 taking degree courses).

CINEMAS (1973). There are 50 cinemas with seating capacity of 40,445.

NEWSPAPERS (1972). There are 4 daily newspapers with a combined circulation of 82,228 and 6 weekly papers with a combined circulation of 181,676.

JUSTICE. The law, both civil and criminal, is based on the common and statute law of England, save that the principles of the Roman-Dutch law have been retained in respect of the registration, conveyance and mortgaging of land.

The Supreme Court of Judicature consists of a Court of Appeal and a High Court.

FINANCE. Currency. Accounts are kept in dollars and cents (G\$ = £0.21). The Bank of Guyana, established in 1965, issues Guyana dollar notes of \$1, 5, 10 and 20 and coins of 1-, 5-, 10-, 25- and 50-cent pieces. The face value of Guyana notes in circulation at 31 Dec. 1972 was G\$50.9m.

Budget. Revenue and expenditure for calendar years (in G\$1,000):

	1968	1969	1970	1971	1972 ¹	1973 ²
Revenue	102,600	110,630	166,016	162,693	201,322	312,340
Expenditure	98,200	106,882	175,788	180,856	220,497	318,784

¹ Revised estimates.

² Provisional.

These figures are exclusive of special receipts from the Colonial Development Fund. US grant and the related expenditure.

Chief items of revenue 1972 (in G\$1,000): Customs and excise, 61,795; internal revenue, 49,811; fees, fines, etc., 3,987; rents, royalties, etc., 2,646; post, 2,561; miscellaneous, 3,808. Expenditure: Health, 10,596; education, 19,951; social services, 4,798; public works, 16,360; post and telecommunications, 3,292; pensions, 6,166; transport, 3,058.

Public debt, 31 Dec. 1972, was G\$258.9m.

DEFENCE. The Guyana army has a strength of 2,200, including a women's army corps; its Air Wing equipped initially with 2 Helio H-295 Courier STOL liaison aircraft and have since received 2 Islander twin-engined STOL transports.

PRODUCTION. Guyana can be divided roughly into 3 regions: (1) A low coastal region varying in width up to about 30 miles and constituting the agricultural area; (2) an intermediate area about 100 miles wide, of slightly higher undulating land containing the chief mineral and forest resources of the country; and (3) a hinterland of several mountain ranges and extensive savannahs. Approximately 87% of the land area is forested, and about 60,000 sq. miles of this is still available for timber exploitation. Only about 20% of the forest area is at present regarded as being reasonably accessible for timber extraction on an economic basis, however. In 1972 this area accounted for the production of 8,233,743 cu. ft of wood and wood products. Large areas of unimproved land in the coastal region, which vary in width up to about 50 miles from the sea, are still available for agricultural and cattle-grazing projects.

AGRICULTURE. Acreage under cultivation, 1972: Sugar-cane 136,600 (sugar output, 314,600 tons); rice, 196,272 (output, 94,105 tons); coconuts, 47,450; coffee, 3,330; cocoa, 1,805; ground provisions, 10,180; citrus fruit, 6,875; corn, 3,393. Other tropical fruits and vegetables are grown mostly in scattered plantings; the include mangoes, papaws, avocado pears, melons, bananas.

Livestock estimate (1972): Cattle, 260,000; pigs, 80,000; sheep, 100,000; goats, 30,000; poultry, 8m.; horses, mules and donkeys, 6,000.

MINING. Placer gold mining commenced in 1884, and was followed by diamond mining in 1887. From 1884 to 1972 the output of gold was 423,913 bullion oz. (4,026 oz. in 1972). From 1901 to 1972 the production of diamonds was 3,956,229 metric carats (48,665 in 1972). There are large deposits of bauxite; 3,648,000 long tons and 262,000 tons of alumina were produced in 1972. Full-scale production of manganese began in 1960 and 114,988 wet tons were produced in 1968. The North West Guyana Mining Co. Ltd, operating through the Manganese Mines Ltd, closed operation in Guyana by the end of 1968.

COMMERCE. Imports and exports (in G\$) for calendar years:

	1968	1969	1970	1971	1972
Imports	219,310,742	235,832,615	268,239,874	267,632,000	297,881,000
Exports	216,319,640	233,658,722	261,611,521	289,580,000	295,353,000

Chief imports (1972): Machinery, \$62,857,150; diesel oil and other fuel oils, 3,080,740 bbls, \$18,881,303; motor spirit, 377,369 bbls, \$3,424,054; kerosene, 248,767 bbls, \$2,381,190; flour, 6,264,208 lb., \$6,264,208; tobacco in leaf, 795,377 lb., \$1,576,836; cotton fabrics, 10,767,250 sq. yd, \$4,938,899; footwear, 215,235 doz. pairs, \$5-46m.; dairy products, \$13,474,864; beer, 17,599 gallons, \$66,759; ale, 22 gallons, \$139; stout, 52,189 gallons, \$275,846.

Chief domestic exports (1972): Sugar, 299,863 tons, \$92,195,000; rum, 2,774,828 proof gallons, \$5,643,153; rice, 69,700 tons, \$25,252,513; timber, 903,365 cu. ft, \$3,493,735; diamonds, \$2,298,978; bauxite, 2,289,881 tons, \$103,267,205; alumina, 257,347 tons, \$28,832,599; molasses, 1-53m. cwt, \$3,298,368; shrimps, 12,747,623 lb., \$10,168,482.

Imports (exclusive of transshipments), 1972, from UK, 30%; from USA, 24%; from Carifta Territories, 17%; from Canada, 5%; exports (exclusive of transshipments) to UK, 30%; to USA, 26%; to Carifta Territories, 13%; to Canada, 6%.

SHIPPING. In 1972, 2,434 vessels of 3,370,816 NRT entered and 1,795 of 2,611,413 NRT cleared the ports of Georgetown, New Amsterdam and Kaituma.

Guyana is in direct sea-communication with the UK, France, Netherlands, Canada, USA, the West Indies, and Netherlands and French Guianas. There are 217 nautical miles of river navigation. There are ferry services across the mouths of the Demerara, Berbice and Essequibo rivers, the last providing a link between the West Coast Railway and the islands of Leguan and Wakenaam and the mainland at Adventure, and a number of coastal and river-boat services carrying both passengers and cargo. A number of launch services are operated in the more remote areas by private concerns.

Georgetown harbour, about $\frac{1}{2}$ mile wide and $2\frac{1}{2}$ miles long, has a minimum depth of 24 ft. New Amsterdam harbour is situated at the mouth of the Berbice River; there are wharves for coastal vessels only. Bauxite is loaded on ocean-going freighters at Mackenzie, 67 miles up the Demerara River, and at Everton on the Berbice River, about 10 miles from the mouth of the waterway. The Essequibo River has several timber-loading berths ranging from 20 to 40 ft. Springlands on the Corentyne River is the point of entry and departure of passengers travelling by launch services to and from Surinam. It is also a shipping point for rice and other produce from the Corentyne to Georgetown.

ROADS. Roads and vehicular trails in the national, provincial and urban systems amount to 1,810 miles, of which 595 miles are maintained by government, 836 miles by local authorities and 269 miles by 5 municipalities. There are 422 miles of road on the coastal and lower riverain areas of which 308 miles are paved; and 651 miles of road and vehicular trail in the upper riverain and interior areas of which only 16 miles are paved. A new road, which will eventually link up with the Pan American Highway, is now under construction in the Guyana interior. The road extends from Mahdia on the Potaro River to Annai in the Rupununi. Work on the road is being undertaken on a self-help basis. Motor vehicles, as of 31 Dec. 1972, totalled 47,691, including 20,570 passenger cars, 5,370 lorries and vans, 6,250 tractors and trailers, and 14,666 motor cycles.

RAILWAYS. There is a government-owned railway, the West Coast Railway, 19 miles of 3 ft 6 in. gauge, linking Georgetown and Parika at the mouth of the Essequibo River.

In addition, there is a short, government-owned railway in the North West District, while the Guyana Bauxite Co. operates a standard-gauge railway of 80 miles from Linden on the Demerara River to Ituni. In March 1967 a bridge (740 ft) across the Demerara River was opened to enable the company to resume mining operations on the west bank of the river.

AVIATION. Guyana Airways Corporation operates scheduled services within the state. Other services in operation: British Airways 6 times weekly to the Caribbean, Europe and North America; PANAM daily flights to North, Central and South America; Air France, to and from Guadeloupe, Paramaribo and

Cayenne twice a week; British West Indian Airways, Ltd, to and from Trinidad four times a week, providing direct connexion with New York and London; KLM, to and from Curaçao and Paramaribo twice weekly; Cruzeiro do Sul, to and from Manaus and Boa Vista twice weekly.

TELECOMMUNICATIONS. The inland public telegraph and radio communication services are operated and maintained by the Telecommunication Corporation, established on 1 March 1967. On 31 Dec. 1972 there were 147 post offices and agencies (including travelling post offices and agencies).

The telephone exchanges had at the end of 1972 a total of 7,900 direct exchange lines with 12,913 telephone instruments. The number of route miles in the coastal and inland areas was 335 miles. 39 land-line stations were maintained at post offices in the coastal area, and 8 telegraph stations in the interior provide communication with the coastal area through a central telegraph office in Georgetown.

Overseas radio-telephone and telegraphic communication are provided by Cable & Wireless (W.I.) Ltd. In Georgetown a central radio station provides facilities for radio communication with 5 branch offices operated in combination with the wireless telegraph stations mentioned above, 20 stations operated by other government departments, 48 stations operated by private concerns (including mining, ranching, timber and other commercial interests) and 12 coastal ships and launches. This system is linked with the telephone system and is available to the general public.

A Tropospheric Scatter System, operated by Cable & Wireless (W.I.) Ltd, was opened on 26 March 1969. It provides for a maximum of 64 channels linking Guyana with the rest of the world *via* Trinidad, the nearest point for connexion in the company's broad band system. The Guyana United Broadcasting Co. Ltd, operates 1 station on a commercial basis. The Government of Guyana established a national broadcasting service on 1 Oct. 1968 which is also operating on a commercial basis.

BANKING. Barclays Bank International and the Royal Bank of Canada maintain branches in Berbice, Demerara and Essequibo while the Bank of Baroda (India) has branches in Demerara and Berbice. The Chase Manhattan Bank (USA) and the Bank of Nova Scotia each have a branch in Georgetown. The Guyana National Co-operative Bank opened in Feb. 1970 with headquarters at Georgetown and branches in Berbice and Essequibo. In 1973 the Guyana Agricultural Co-operative Bank and the Guyana Mortgage Finance Bank were established.

As at 31 Dec. 1972 the Bank of Guyana had external assets totalling \$72.9m.

HONG KONG

HISTORY. The Crown Colony of Hong Kong was ceded by China to Great Britain in Jan. 1841; the cession was confirmed by the treaty of Nanking in Aug. 1842, and the charter bears date 5 April 1843. Since then Hong Kong has been under British administration, with the exception of the period from 25 Dec. 1941 to 30 Aug. 1945, when it was occupied by the Japanese.

CONSTITUTION AND GOVERNMENT. The administration is in the hands of a Governor, aided by an Executive Council, composed of the Commander, British Forces, the Colonial Secretary, the Attorney-General, the Secretary for Home Affairs, the Financial Secretary (who are members *ex officio*) and such other members, both official and unofficial, as may be appointed by the Queen upon the Governor's nomination. In 1973 there were, in addition to the 5 *ex-officio* members, 1 nominated official and 8 nominated unofficial members. There is also a Legislative Council, presided over by the Governor, and consisting of not more than 10 official members, not more than 5 *ex-officio* members, namely the Colonial Secretary, the Attorney-General, the Secretary for Home Affairs and the Financial Secretary, and not more than 15 nominated unofficial members. In 1973 there were 5 *ex officio*, 10 official and 15 unofficial members. Chinese and English are the official languages.

Governor and C.-in-C.: Sir Murray MacLehose, KCMG, MBE.

Commander British Forces: Liuet.-Gen. Sir Richard Ward, KCB, DSO, MC.

Colonial Secretary: Denys T. E. Roberts, CBE, QC.

AREA AND POPULATION. Victoria, the colonial capital situated on Hong Kong island, is 20 miles east of the mouth of the Pearl River and 91 miles south-east of Canton. The area of the island is 29 sq. miles. It is separated from the mainland by a fine natural harbour. On the opposite side is the peninsula of Kowloon ($3\frac{1}{2}$ sq. miles), which, with Stonecutters Island ($\frac{1}{4}$ sq. mile), was added to the colony by the Convention of Peking, 1860. By a further convention, signed at Peking on 9 June 1898, $365\frac{1}{2}$ sq. miles, consisting of all the immediately adjacent mainland and numerous islands in the vicinity, were leased to Great Britain by China for 99 years. This area is known as the New Territories. Total area of the territory, 403.7 sq. miles (including recent reclamations), a large part of it being steep and unproductive hillside. Shortage of land suitable for development for housing and industry, is a serious problem. Since 1945, the government has reclaimed about 2,220 acres from the sea, principally from the sea fronts of Victoria and Kowloon, fronting the harbour. Two rapidly developing new towns constructed partly on reclamation at Kwun Tong and Tsuen Wan Kwai Chung have large textile, enamel and rubber factories, iron works, etc. Two more new towns are developing rapidly in the New Territories at Castle Peak and Sha Tin. There is extensive development and redevelopment of Crown land for all purposes.

The climate is sub-tropical, the winter being cool and dry and the summer hot and humid. The average rainfall is 2,168.8 mm. (85.39 in.), May to Sept. being the wettest months. A serious problem is the provision of storage of the summer rainfall to meet the water requirements, particularly during the dry winter months. The raising of the Plover Cove dams was completed in 1973, giving the reservoir a capacity of 51,000m. gallons. Storage capacity now stands at 54,000m. gallons

distributed in 17 reservoirs, supplemented by 18,500m. gallons annually purchased from China. By 1978, it is hoped to complete the High Island scheme, involving the conversion of another sea inlet (as was the case with Plover Cove), which will almost double the total available storage.

The population was 3,948,179 at 1971 census. Estimate (1973) 4.16m. During the war years the population of Hong Kong fluctuated sharply. In Sept. 1945, at the end of the Japanese occupation, it was about 600,000. In mid-1950 it was estimated at 2.24m. Since 1963 the net annual increase has been between 62,000 and 95,000. Of the present population more than 50% are under 25 years of age. All but 2% of the population was born in Hong Kong and China.

EDUCATION. All schools have to be registered with the Education Department and, unless specially exempted, are inspected and required to comply with regulations as to staff, buildings, numbers of pupils and health. From Sept. 1971, free primary education was introduced in government and the majority of government-aided primary schools. At the same time the Director of Education was given power to order parents to send their children to primary schools whenever it appeared to him that such schooling was being unnecessarily withheld. Parents may appeal to a specially constituted board of review if they so desire.

In March 1973 there were 144,115 pupils in kindergarten (all private), 743,269 (578,294)¹ in primary schools including special afternoon classes, 297,476 (81,801) in secondary schools, 71,744 (36,647) in post-secondary colleges, in institutions offering technical, adult and other further education, and in special schools. In all, there were 2,885 schools and 37,955 teachers.

¹ The figures shown in brackets are for government and aided schools.

Northcote College of Education had 427 students (including 305 women), Grantham College of Education, 338 (including 214 women) and Sir Robert Ball College of Education, 425 (including 281 women).

The University of Hong Kong had 3,607 students (2,595 men, 1,012 women), excluding 236 (210 men, 26 women) students not reading for degrees or regular diplomas, and 344 teachers. The Chinese University of Hong Kong, inaugurated in Oct. 1963, had 2,550 students (1,612 men, 938 women), excluding 283 (182 men, 101 women) associate students, etc., and 277 teachers.

CINEMAS. In 1973 there were 97 cinemas with a seating capacity of 118,355. Attendance 71.3m. in 1972.

NEWSPAPERS. In 1973 there were 101 daily or weekly newspapers, including 4 English-language papers; the remainder in Chinese.

BROADCASTING. There is a government broadcasting station, Radio Hong Kong, with daily transmissions in English and 2 Chinese dialects. Wireless licences were abolished as from 1 March 1967. Rediffusion (HK) Ltd operates a wired commercial broadcasting service in English and Chinese. The Hong Kong Commercial Broadcasting Co. Ltd transmits daily in English and Cantonese.

TELEVISION. Television Broadcasts Ltd transmits commercial television in English and Chinese. In 1973 the government awarded licences for 2 more television stations. Rediffusion (HK) Ltd, who had previously operated a commercial wired television service in English and Chinese, was a successful tenderer and switched to its new wireless service in Dec. 1973. The other licence was granted to Commercial Television Ltd, a consortium who will set up a single-channel station broadcasting only in Chinese by 1975.

JUSTICE. There is a supreme court, having original, bankruptcy and companies winding-up, criminal, probate, divorce, admiralty and prize jurisdiction, and a court of appeal. There are also 3 district courts and 9 magistracies, most containing several courts. The district courts, apart from hearing civil cases where the claim does not amount to more than HK\$10,000, also have jurisdiction

over certain criminal matters. A tenancy tribunal hears cases covering disputes between landlord and tenant, etc.

Police. The police force numbered, in June 1973, 12,046, composed of 1,186 gazetted and inspectorate officers, 9,755 Cantonese, 369 Shantung, 109 Pakistanis, 7 Portuguese rank and file and a women's section of 40 gazetted and inspectorate and 580 rank and file.

FINANCE. Currency. The unit of currency is the Hong Kong dollar. In June 1972 the sterling link was abandoned and replaced by direct link with the US\$. Bank-notes (of denominations of \$5 upwards) are issued by the Hongkong and Shanghai Banking Corporation, the Chartered Bank and the Mercantile Bank Ltd. Their combined note issue was, in Aug. 1973, HK\$3,296,032,000. Subsidiary currency consisting of HK\$1, 50-cent, 10-cent, 5-cent nickel-alloy coins and 1-cent notes is issued by the Hong Kong Government and in Aug. 1973 totalled HK\$262,050,745.

Budget. The public revenue and expenditure for the financial years ending 31 March were as follows (in HK\$):

	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	3,070,859,427	3,541,281,243	4,936,268,945	4,921,600,000
Expenditure	2,452,192,832	2,901,375,575	4,299,556,074	4,408,540,900

¹ Estimates.

The revenue is derived chiefly from rates, licences, duties on liquor, tobacco and hydrocarbon oils, a tax on earnings and profits, land sales and stamp duties.

The outstanding public debt as at 31 March 1973 totalled \$53,449,000; consisting of \$45,889,000 3½% Rehabilitation Loan redeemable 1973-78 by a sinking fund which stood at \$32,436,759 on 31 March 1973 and a loan from the UK Government for Hong Kong International Airport development amounting to \$7.56m.

DEFENCE. The British Armed Forces are stationed in Hong Kong to assist the Hong Kong Government in maintaining security and stability in the territory. The local Auxiliary Defence Units, consisting of the Royal Hong Kong Regiment and the Royal Hong Kong Auxiliary Air Force, are administered by the Hong Kong Government, but come under the command of the Commander British Forces. The Royal Hong Kong Regiment (The Volunteers) has a strength of almost 700. It is fully mobile and its role is to operate in support of regular army battalions stationed in Hong Kong. Formed on 1 May 1949, the Royal Hong Kong Auxiliary Air Force is intended mainly for internal security and air-sea rescue duties. It has a strength of about 90 volunteer members, including 15 pilots, and operates 3 Alouette III helicopters, 2 Musketeer light aircraft and 1 twin-engined Islander transport, training, rescue and survey aircraft.

INDUSTRY. An economic policy based on free enterprise and free trade; an industrious work force; an efficient and aggressive commercial infrastructure; modern and efficient sea-port (including container shipping terminals) and airport facilities; its geographical position relative to markets in North America and its traditional trading links with Britain have all contributed to Hong Kong's success as a modern industrial complex.

At the end of June 1973, there were 22,108 registered and recorded factories employing 625,087 people out of a total population of just over 4m. The type of factory involved ranges from the small cottage type to large highly complex modern establishments. Given the scarcity of land it is most common for light industry to operate in multi-storey buildings specially designed for this purpose. Over 92% of all industrial production is exported to principal markets in North America, Western Europe, the Far East and Australasia. The main industry is textiles and clothing, which employs 43% of the labour force and accounts for 50% of total domestic exports. However, diversification into other sectors of light manufacturing industry is gathering momentum and factories are now firmly established for making a wide variety of electronic products,

clocks and watches, toys, metalware, footwear, wigs, umbrellas, cameras and travel goods. Heavy industry includes ship-building, ship-repairing, iron foundries and mills rolling steel bars and rounds. Agriculture, fishing and some mining are the main primary industries.

TOURISM. Tourists spent an estimated HK\$2,000m. in Hong Kong in 1972. During the year tourists totalled 1,082,253, including overseas Chinese visitors.

COMMERCE. In 1972 the total value of domestic exports was HK\$15,245m., an 11% increase over 1971. The main export markets were USA 40%, UK 14% and West Germany 10%. Clothing and other textile products accounted for 50% of domestic exports. In addition to these domestic exports there is also a sizeable and flourishing entrepôt trade which accounted for another HK\$4,154m. in 1972.

Duties are levied only on tobacco, hydrocarbon oils and alcoholic liquors (including proprietary medicines and toilet preparations containing more than 2% of proof spirit), whether imported into or manufactured in Hong Kong for local consumption. All imports (apart from foodstuffs, which are subject to a flat charge of HK\$2.00 per shipment) and exports are subject to an 0.05% *ad valorem* charge.

The adverse balance on visible trade is offset by a favourable balance from exchange, shipping and insurance transactions, an inflow of capital, ship-repairing, a flourishing tourist industry, remittances from overseas Chinese, etc.

Hong Kong has a free exchange market. Foreign merchants may remit profits or repatriate capital. Import and export controls are kept to the minimum, consistent with strategic requirements.

The total value of imports in 1972, mainly from Japan 23%, China 18%, USA 12% and UK 7% amounted to HK\$21,764m., a 7% increase over 1971. The chief import items were textiles 23%, machinery and transport equipment 18% and foodstuffs 17%.

Imports from the Commonwealth countries (HK\$3,293m. in 1971) amounted to 15% of total imports in 1972 (17.2% in 1938), and exports to the Commonwealth countries (HK\$4,125m.) were 27% of domestic exports from Hong Kong (16.3% in 1938).

The trade of Hong Kong and UK (British Board of Trade returns in £1,000 sterling) is given as follows:

	1968	1969	1970	1971	1972	1973
Imports to UK	115,267	125,359	128,827	164,827	184,700	263,442
Exports and re-exports from UK	77,859	88,662	99,516	104,396	100,945	126,915

ROAD AND RAILWAY. In Jan. 1973 there were 626.6 miles of roads, distributed as follows: Hong Kong Island, 205.3; Kowloon and New Kowloon, 186.4 and New Territories, 234.9. A mile-long cross-harbour tunnel, opened to traffic in Aug. 1972, now links Hong Kong Island with the Kowloon peninsula.

There is an electric tramway of 19½ miles, and a cable tramway connecting the Peak district with the lower levels in Victoria. A railway, 22 miles in length 4 ft 2½ in. gauge, owned by the Government, runs between Kowloon and the Chinese frontier. Passengers travelling to China disembark at the Chinese frontier and walk across to board a Chinese train. Goods trains go right through.

SHIPPING. The total vessels entering and clearing Hong Kong and engaged in foreign trade during the year ending 31 March 1973 amounted to 15,593 ocean-going vessels of 58,196,832 net tons. Launches and junks engaging in local trade, totalled 26,994 vessels of 3,467,464 net tons. 407 vessels (394,919 net tons) were registered in Hong Kong as British ships on 31 March 1973.

AVIATION. Hong Kong International Airport is situated on the north shore of Kowloon Bay. It is regularly used by 31 airlines and many charter airlines which provide frequent services throughout the Far East to Europe, North America, Africa, Australia and New Zealand. Scheduled domestic helicopter

services are also operated from the airport. Hong Kong, with its modern runway, is an important link on the main air routes of the Far East. British Airways operates 23 services per week, 12 to London, 7 to Japan and 4 to Australia. Cathay Pacific Airways Ltd provides 165 flights a week on Far East routes. In 1972-73, 49,917 aircraft arrived and departed on international flights, carrying 3,05m. passengers, 3,863 metric tons of mail and 84,550 metric tons of freight.

POST AND TELECOMMUNICATIONS. There were 67 post offices at the end of 1973; postal revenue (1972-73) totalled HK\$173,796,120; expenditure, HK\$100,560,290. Telephone services are provided by the Hong Kong Telephone Co. Ltd. It operates through 48 fully automatic main exchanges and, at 30 June 1973, served 838,714 stations. Cable & Wireless Ltd, operate the external communications and also provide for marine, meteorological and aeronautical communications. Facilities have been augmented by the addition of satellite earth stations, computerized message switching system and telex system.

BANKING. There are 74 licensed banks and 47 banks maintaining representative offices in Hong Kong. Deposits at the end of June 1973 totalled \$24,641,614,000.

WEIGHTS AND MEASURES. The *Tael (leung)* = $1\frac{1}{3}$ oz. avoirdupois; the *Picul (taam)* = $133\frac{1}{2}$ lb. (often taken as $\frac{1}{17}$ of a ton); the *Catty (kan)* = $1\frac{1}{3}$ lb. avoirdupois; the *Chek* (Chinese foot) = $14\frac{5}{8}$ in. (but varying from $11\frac{1}{2}$ to $14\frac{7}{8}$ in. according to the custom of various trades, the commonest equivalent being 14.14 in.); the *Tsuen* (Chinese inch) = $\frac{1}{10}$ of a *Chek*, the *Cheung* = 10 *Chek*; the *Lei* (Chinese mile) = 707-744 yd.

Besides the above weights and measures of China, those of Great Britain are in general use.

CONSTITUTION. On 26 Jan. 1950 India became a sovereign democratic republic. India's relations with the British Commonwealth of Nations were defined at the London conference of Prime Ministers on 27 April 1949. Unanimous agreement was reached to the effect that the Republic of India remains a full member of the Commonwealth and accepts the Queen as 'the symbol of the free

association of its independent member nations and, as such, the head of the Commonwealth'. This agreement was ratified by the Constituent Assembly of India on 17 May 1949.

The constitution was passed by the Constituent Assembly on 26 Nov. 1949 and came into force on 26 Jan. 1950. It has since been amended 29 times.

India is a Union of States and comprises 21 States and 9 Union territories. Each State is administered by a Governor appointed by the President for a term of 5 years while each Union territory is administered by the President through an administrator appointed by him.

The capital is New Delhi.

PRESIDENCY. The head of the Union is the President in whom all executive power is vested, to be exercised on the advice of ministers responsible to Parliament. He is elected by an electoral college consisting of all the elected members of Parliament and of the various state legislative assemblies. He holds office for 5 years and is eligible for re-election. He can be removed from office by impeachment for violation of the constitution. There is also a Vice-President who is *ex-officio* chairman of the Upper House of Parliament.

CENTRAL LEGISLATURE. The Parliament for the Union consists of the President, the Council of States (*Rajya Sabha*) and the House of the People (*Lok Sabha*). The Council of States, or the Upper House, consists of not more than 250 members; in 1971 there were 228 elected members and 12 members nominated by the President. The election to this house is indirect; the representatives of each State are elected by the elected members of the Legislative Assembly of that State. The Council of States is a permanent body not liable to dissolution, but one-third of the members retire every second year. The House of the People, or the Lower House, consists of not more than 500 members, directly elected on the basis of adult suffrage from territorial constituencies in the States, and not more than 25 members to represent the Union territories chosen in such manner as Parliament may by law provide; in April 1972 there were 518 elected members and 2 members nominated by the President.

The House of the People unless sooner dissolved continues for a period of 5 years from the date appointed for its first meeting.

STATE LEGISLATURES. For every State there is a legislature which consists of the Governor, and (a) 2 Houses, a Legislative Assembly and a Legislative Council, in the States of Andhra Pradesh, Jammu and Kashmir, Karnataka, Madhya Pradesh, Maharashtra, Tamil Nadu and Uttar Pradesh, and (b) 1 House, a Legislative Assembly, in the other States. Every Legislative Assembly, unless sooner dissolved, continues for 5 years from the date appointed for its first meeting. Every State Legislative Council is a permanent body and is not subject to dissolution, but one-third of the members retire every year. Parliament can, however, abolish an existing Legislative Council or create a new one, if the proposal is supported by a resolution of the Legislative Assembly concerned. The Legislative Council of West Bengal has been abolished. Legislative Councils have not less than 40 members, ten-twelfths elected and the rest nominated by the Governor. Legislative Assemblies have between 60 and 500 directly elected members.

LEGISLATION. The various subjects of legislation are enumerated in three lists in the seventh schedule to the constitution. List I, the Union List, consists of 97 subjects (including defence, foreign affairs, communications, currency and coinage, banking and customs) with respect to which the Union Parliament has exclusive power to make laws; the State legislature has exclusive power to make laws with respect to the 66 subjects in list II, the State List—these include police and public order, agriculture and irrigation, education, public health and local government; the powers to make laws with respect to the 47 subjects (including economic and social planning, legal questions and labour and price control) in list III, the Concurrent List, are held by both Union and State governments, though the former prevails. But Parliament may legislate with respect to any

subject in the State List in circumstances when the subject assumes national importance or during emergencies.

Other provisions deal with the administrative relations between the Union and the States, interstate trade and commerce, distribution of revenues between the States and the Union, official language, etc.

FUNDAMENTAL RIGHTS. Two chapters of the constitution deal with fundamental rights and 'Directive Principles of State Policy'. 'Untouchability' is abolished, and its practice in any form is punishable. The fundamental rights can be enforced through the ordinary courts of law and through the Supreme Court of the Union. The directive principles cannot be enforced through the courts of law; they are nevertheless fundamental in the governance of the country.

CITIZENSHIP. Under the Constitution, every person who was on the 26 Jan. 1950, domiciled in India and (a) was born in India or (b) either of whose parents was born in India or (c) who has been ordinarily resident in the territory of India for not less than five years immediately preceding that date became a citizen of India. Special provision is made for migrants from Pakistan and for Indians resident abroad. Under the Citizenship Act, 1955, which supplemented the provisions of the Constitution, Indian citizenship is acquired by birth, by descent, by registration and by naturalization. The Act also provides for loss of citizenship by renunciation, termination and deprivation. The right to vote is granted to every person who is a citizen of India and who is not less than 21 years of age on a fixed date and is not otherwise disqualified.

Parliament. Parliament and the state legislatures are organized according to the following schedule (figures show distribution of seats in Oct. 1972):

¹ Includes also 2 nominated members to represent Anglo-Indians.

² Excludes 25 seats for Pakistan-occupied areas of the State which are in abeyance.

³ The Legislative Council of West Bengal has been abolished by the West Bengal Legislative Council Abolitions Act, 1969 with effect from 1 Aug. 1969.

The number of seats allotted to scheduled castes and scheduled tribes in the House of the People is 75 and 37 respectively. Out of the 3,709 seats allotted to the Legislative Assemblies, 503 are reserved for scheduled castes and 262 for scheduled tribes.

Composition by party of the House of the People in March 1971: Congress, 350; Communists, 48; Swatantra, 8; Jan Sangh, 22; Telangana Separatist Movement, 10; Dravida Munnetra Kazhagam, 22; Samyuktha Socialists, 3; other groups and Independents, 44; vacant, 4.

Total number of votes cast at the 1971 election was 182.6m. (150m. in 1967).

National flag: Deep saffron, white, dark green (horizontal); with Asoka's wheel in navy blue in the centre of the white band.

National anthem: Jana-gana-mana (words by Rabindranath Tagore).

Language. The constitution provides that the official language of the Union shall be Hindi in the Devanagari script. It was originally provided that English should continue to be used for all official purposes until 1965. But the Official Languages Act 1963 provides that, after the expiry of this period of 15 years from the coming into force of the constitution, English might continue to be used, in addition to Hindi, for all official purposes of the Union for which it was being used immediately before that day, and for the transaction of business in Parliament. The Official Languages Amendment Act, 1967, provides that bilingualism shall continue; central government officers will choose their medium for official business. Translations will be provided for them until they attain a working knowledge of Hindi.

The following 15 languages are included in the Eighth Schedule to the Constitution: Assamese, Bengali, Gujarati, Hindi, Kannada, Kashmiri, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Sindhi, Tamil, Telugu, Urdu.

The total number of mother tongues (including 103 non-Indian languages) returned in the 1961 Census was 1,652. Hindi or Urdu languages (including the mother tongues grouped under each) are spoken by 30.40% and 5.31% of the population respectively.

GOVERNMENT.

President of the Republic: V. V. Giri (assumed office 24 Aug. 1969).

Vice-President: G. S. Pathak (assumed office 31 Aug. 1969).

There is a Council of Ministers to aid and advise the President of the Republic in the exercise of his functions; this comprises Ministers who are members of the Cabinet, Ministers of State who are not members of the Cabinet and Deputy

Ministers. A Minister who for any period of 6 consecutive months is not a member of either House of Parliament ceases to be a Minister at the expiration of that period. The Prime Minister is appointed by the President; other Ministers are appointed by the President on the Prime Minister's advice.

The salary of each Minister is Rs 27,000 per annum, and that of each Deputy Minister is Rs 21,000 per annum. Each Minister is entitled to the free use of a furnished residence throughout his term of office. At the administrative head of each Ministry is a Secretary of the Government.

Following is the composition of the Cabinet and the portfolios as on 8 Nov. 1973:

Prime Minister, Atomic Energy, Information and Broadcasting, Space: Mrs Indira Gandhi.

Planning: D. P. Dhar.

Home Affairs: U. S. Dikshit.

Finance: Y. B. Chavan.

Food and Agriculture: F. A. Ahmed.

Law and Justice: H. R. Gokhale.

Heavy Industry, Steel and Mines: T. A. Pai.

Education and Social Welfare, and Department of Culture: N. Hassan.

Railways: L. N. Mishra.

External Affairs: S. S. Singh.

Communications, Tourism and Civil Aviation: R. Bahadur.

Defence: Jagjivan Ram.

Health and Family Planning: K. Singh.

Works and Housing: B. P. Shastri.

Petroleum and Chemicals: D. K. Barooah.

Parliamentary Affairs: K. Raghuramaian.

Shipping and Transport: K. Tripathi.

Irrigation and Power: K. C. Pant.

LOCAL GOVERNMENT. There were in 1970, 29 municipal corporations, 1,449 municipalities, 323 town area committees, 177 notified area committees and 62 cantonment boards. The municipal bodies have the care of the roads, water supply, drainage, sanitation, medical relief, vaccination and education. Their main sources of revenue are taxes on the annual rental value of land and buildings, octroi and terminal, vehicle and other taxes. The municipal councils enact their own bye-laws and frame their budgets, which in the case of municipal bodies other than corporations generally require the sanction of the State government. All municipal councils are elected on the principle of adult franchise.

For rural areas there is a 3-tier system of *panchayats* at village, block and district level. In March 1967, 3,493 *panchayat samitis* (block level) and 250 *zila parishads* (district level) were functioning. These provide for primary and secondary education, construct and maintain roads other than highways, and manage public health services. By 31 March 1967, 212,492 village *panchayats* had been established covering about 554,979 villages with a population of about 350m. The whole of the rural population of India was covered by village *panchayats* except in Bihar and Maharashtra, where 99% of the population was covered, and in Orissa (94%), Andaman, and Nicobar Islands (95%), Manipur (63%) and Tripura (81%). Elected by the entire adult population, village *panchayats* are responsible for civic amenities, sanitation, provision of medical facilities and management of community assets.

AREA AND POPULATION. The area of the Indian Union (excluding Jammu and Kashmir) is 1,178,995 sq. miles (3,053,597 sq. km). Its population

according to the 1971 census was 546,955,945 (including Sikkim but excluding the Pakistan-occupied area of Jammu and Kashmir); this represents an increase of 24.57% since 1961. Sex ratio was 932 females per 1,000 males (941 in 1961); density of population, 182 per sq. km.

Vital statistics based on registrations 1962: Birth rate, 20.8 per 1,000 population (1961: 21); death rate, 8.8 (9.3); infant mortality (incomplete area coverage), 81 per 1,000 live births (83). But many births and deaths go unregistered. Data from certain areas of better registration and field studies suggest that the 1961 birth rate was about 42 per 1,000 population, the death rate 23 per 1,000 and infant mortality (1960) 134 per 1,000 live births.

Marriages and divorces are not registered. The minimum age for a civil marriage is 18 for women and 21 for men; for a sacramental marriage, 14 for girls and 18 for youths.

The leading details of the census of 1 March 1961 and of 1 March 1971 are:

⁴ Excludes the Pakistan-occupied area of Jammu and Kashmir.

⁵ By the creation of Haryana (1966) Punjab has lost c. 7m. people to the new state, 89,000 to the new Union territory of Chandigarh and a further 1.5m. to Himachal Pradesh.

⁶ Total area does not include Jammu and Kashmir.

Population increase since 1961, 24.5%. The average national density per sq. km is 182; greatest density occurs in Delhi (2,723 per sq. km). Chandigarh (2,254) and Lakshadweep (994).

There were (1971, provisional) 283,055,987 males and 263,899,958 females.

Registered foreigners on 31 Dec. 1962 numbered 59,774 (excluding Commonwealth nationals). Of these, 10,627 were Chinese and 14,988 were Tibetans.

The number of persons of Indian origin resident outside India is not accurately known, but with Pakistanis the total may be about 5m. Guyana had about 325,000 in 1965, Ceylon 852,000 in 1960, Fiji 235,000 in 1965, Kenya 188,000 in 1966, Malaya 696,000 (excluding Pakistanis) in 1959, Burma 500,000 in 1964 (in 1947: 1m.), Mauritius 493,000 in 1964, Singapore 124,000 in 1957, South Africa 500,000 in 1961, Trinidad and Tobago 302,000 in 1960 and the UK 170,000 in 1958.

Cities and Urban Agglomerations (with states in brackets) having more than 100,000 population at the 1971 census were:

RELIGION. The principal religions in 1971 (census) were: Hindus, 453.2m. (82.7%). Sikhs, 10.3m. (1.89%); Jains, 2.6m. (0.47%); Buddhists, 3.8m. (180,823 in 1951). Moslems, 61.4m. (11.21%); Christians, 14.2m. (2.6%).

The Church of South India was inaugurated in 1947 by the union of the Methodist Church and the South India United Church (Presbyterian and

Congregationalist) with the Church of India (Anglican) dioceses of Madras, Travancore, Tinnevely and Dornakal; it had (1966) about 420,000 members.

EDUCATION. LITERACY. According to the 1971 census the literacy percentage in the country (including age-group, 0-4) was 29.34 (24 in 1961). Of the states and territories, Chandigarh has the highest rate (61.24%), then Kerala (60.16%) and Delhi (56.65%).

EDUCATIONAL ORGANIZATION. In the states the general control over education rests with the state government. In the union territories education is under the direct control of the central government. The Union Government is directly responsible for the central universities and all nationally-important institutions; the promotion of Hindi as the federal language; collecting and disseminating information; co-ordination and maintaining standards in higher education, scientific and technological research; welfare of Indian students abroad and cultural agreements with other countries. Vocational and technical training are the concurrent responsibility of Union and State Governments and so is educational planning. The education of weaker sections of the community is the responsibility of the Union Government. Special education rests with the Ministry or Department concerned, *e.g.*, medical education, the Ministry or Department of Health. The Union Minister of Education and Social Welfare is assisted by 2 Deputy Ministers. There are 49 autonomous organizations attached to the Ministry, including the University Grants Commission, 5 central universities and the National Council of Educational Research and Training. In every state there is an Education Minister assisted by a Secretary; there is a policy-making Secretariat and an executive Directorate, with separate Directorates for technical, agricultural education, etc.

SCHOOL EDUCATION. The school system in India can be divided into four stages: pre-primary, primary, middle and high or higher secondary.

There are as yet not many pre-primary schools in India.

Primary education is imparted either at independent primary (or junior basic) schools or primary classes attached to middle or high schools. The period of instruction in this stage varies from 4 to 5 years and the medium of instruction is the mother tongue of the child or the regional language. Legislation for compulsory and free primary education has been passed by almost all state governments but it is not practicable to enforce compulsion and attendance is more often ensured by incentive.

The period for the middle stage varies from 2 to 4 years and instruction is given in middle classes of high schools or middle schools, the latter having, generally, primary classes attached to them. At this stage English is usually taught as a compulsory subject.

The high-school extends from 2 to 4 years. Education is given in higher classes of high schools, which have middle or primary (or both) departments attached. English is generally taught as a compulsory subject. The medium of instruction is mostly the mother tongue or the regional language.

The eventual pattern is to be 10 years general school education, 2 years high secondary education with diversified courses, 3 years university education. This is the 10 + 2 + 3 structure recommended by the Education Commission of 1964.

There are, in addition, schools for professional subjects such as agriculture, commerce, fine arts, forestry, medicine, veterinary science, physical education, social service, teachers' training, technical, industrial and crafts subjects. There are also special schools for the physically and mentally handicapped and reformatory pupils. There are schools of oriental studies and adult education centres.

HIGHER EDUCATION. Higher education is given in arts, science or professional colleges, universities and all-India educational or research institutions. In 1973 there were 91 universities, 10 institutions of national importance and 10 institutions deemed as universities. For details see the sections 'Education' under each state.

Grants are paid through the University Grants Commission to the central universities on a cent per cent basis for their maintenance and development and to state universities on a sharing basis for their development projects only. During 1972-73 the University Grants Commission sanctioned grants of Rs 39.18 crores.

TECHNICAL EDUCATION. The number of institutions awarding degrees in engineering and technology in 1972-73 was 138 (in 1947: 38), and those awarding diplomas in engineering and technology numbered 284 (in 1947: 53); the former are able to admit about 21,500, the latter about 43,300, students. During 1972-73, enrolment has been less than capacity, following a period of unemployment in engineering. For the training of high-level engineers and technologists 5 Institutes of Technology have been established. During 1972-73 their total enrolment for degree courses was 19,997 and that for diploma courses 36,675.

STUDENTS AND TRAINEES ABROAD. There were 10,477 students and trainees abroad on 1 Jan. 1971, 10,037 in USA (engineering and technology, 4,721; science, 2,079; arts, 1,334; medicine, 78, agriculture, 24; commerce, 3; education, 101; business administration, 520; veterinary science, 18; law, 28; other students, 1,324; trainees 247).

CINEMAS. In 1970 there were 6,500 cinemas including about 2,500 touring cinemas.

NEWSPAPERS. In Dec. 1967 the total number of newspapers and periodicals was 10,281. Maharashtra published 1,593; Uttar Pradesh, 1,460; Delhi, 1,153; West Bengal, 1,129. Papers (8,189) in 8 principal languages had a circulation of 23,292,000; English papers had a circulation of 6,479,000; Hindi, 5.29m.; Tamil, 3,035,000.

BROADCASTING. There were (1968) 36 principal radio stations in India and 22 auxiliary centres; on 31 Dec. 1967, 7,579,468 receiver licences were in force and 70% of the population had medium-wave coverage; nearly all had 2nd-grade short-wave coverage. The television service was started at Delhi, 15 Sept. 1959. There were (1968) 6,200 television receivers in Delhi, used mainly for communal viewing in clubs and for teaching in schools.

HEALTH. Health programmes are primarily the responsibility of the state governments. The Union Government has sponsored and supported major schemes for disease prevention and control which are implemented nationally. These include the prevention and control of malaria, filaria, tuberculosis, leprosy, venereal diseases, smallpox, trachoma and cancer. There are also Union Government schemes in connexion with water supply and sanitation, and with nutrition. The Nutrition Advisory Committee of the Indian Council of Medical Research sponsors schemes for research and advises the Government. The National Nutrition Advisory Committee is to formulate a national nutrition policy and recommend measures for improving national standards.

Medical relief and service is primarily the responsibility of the states. By 1965-66 the number of medical institutions was 14,600. In 1968 there were 251,200 hospital beds. There were 4,928 primary health centres, 96,000 active doctors, 55,000 nurses, 48,000 pharmacists. Medical education is also a state responsibility, but there is a co-ordinating Central Health Educational Bureau.

Family planning is centrally sponsored and locally implemented. The goal is to reduce the birth-rate from the present 40 per 1,000 to 25 per 1,000 by 1976, and to do so by means of education in family planning methods.

JUSTICE. All courts form a single hierarchy, with the Supreme Court at the head, which constitutes the highest court of appeal. Immediately below it are the high courts and subordinate courts in each state. Every court in this chain, subject to the usual pecuniary and local limits, administers the whole law of the country, whether made by Parliament or by the state legislatures.

The Supreme Court of India is the highest court in respect of constitutional matters. The states of Andhra Pradesh, Assam (in common with Nagaland, Meghalaya, Manipur and Tripura and the Union territories of Arunachal Pradesh and Mizoram), Bihar, Gujarat, Himachal Pradesh, Jammu and Kashmir, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Orissa, Punjab (in common with the state of Haryana and the Union Territory of Chandigarh), Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal have each a High Court. There is a Court of Judicial Commissioners, which is in status equivalent to a High Court, in the Union Territory of Goa. There is a separate High Court for Delhi. For the Andaman and Nicobar Islands the Calcutta High Court, for Pondicherry the High Court of Madras, and for Lakshadweep the High Court of Kerala are the highest judicial authorities; in Dadra and Nagar Haveli the Appellate Court is the highest civil and criminal court. Below the High Court each state is divided into a number of districts under the jurisdiction of district judges who preside over civil courts and courts of sessions. There are a number of judicial authorities subordinate to the district civil courts. On the criminal side magistrates of various classes act under the overall supervision of the High Court.

The judiciary has been completely separated from the executive (following a Directive Principle of State policy) in Gujarat, Haryana, Jammu and Kashmir (except Poona and Rajouri districts), Karnataka, Kerala, Madhya Pradesh, Maharashtra, Orissa, Punjab, Tamil Nadu, West Bengal (except in the district of 24 Parganas) and the Union Territories of Chandigarh, Delhi and Lakshadweep. Partial separation has been effected in Andhra Pradesh, Assam, Bihar, Himachal Pradesh, Manipur, Rajasthan, and Uttar Pradesh.

Police. The states control their own police force through the state Home Ministers. The Home Minister of the central government co-ordinates the work of the states and controls the Central Bureau of Investigation, the Central Detective Training School, the Central Forensic Laboratory, the Central Fingerprint Laboratory as well as the National Police Academy at Mount Abu (Rajasthan) where the Indian Police Service is trained. This service is recruited by competitive examination of university graduates and provides all senior officers for the state police forces.

The cities of Calcutta, Madras, Bombay and Hyderabad have separate police organizations.

Total sanctioned strength of police was about 637,880 in 1969

FINANCE. Currency. A decimal system of coinage was introduced in 1957. The Indian rupee is divided into 100 *paise* (until 1964 officially described as *naye paise*), the decimal coins being 1, 2, 5, 10, 25 and 50 *paise* (or *naye paise*) and rupee.

On 6 June 1966 the rupee was devalued by 36·5%, 21 rupees being the equivalent of £1 sterling. On the devaluation of the £ in Nov. 1967, the £ became equivalent to Rs 18.

The paper currency consists of: (1) Reserve Bank notes in denominations of Rs 2, 5, 10, 100, 1,000, 5,000 and 10,000; and (2) Government of India currency notes of denominations of Re 1 (issued in 1917), Rs 2½, 5, 10, 20, 50 and 100. Re 1 notes of a different type, issued since 1940, are deemed to be included in the expression 'rupee coin' for purposes of the Reserve Bank of India Act, 1934. Bank and Government notes bearing the king's effigy and other earlier issues have ceased to be legal tender, 28 Oct. 1957, except at the issue department of the Reserve Bank, government treasuries and sub-treasuries, and agency branches of the State Bank of India and its subsidiaries.

According to the Reserve Bank of India, the total value of currency in circulation in 1969–70 was Rs 4,006 crores (of which Rs 3,799 crores were in notes).

Value of pure nickel, cupro-nickel, nickel-brass and bronze money minted at the Alipore, Hyderabad and Bombay Mints (year ended 31 March): 1960, Rs 3,96,92,700; 1961, Rs 5,62,89,100; 1962, Rs, 8,79,60,720; 1963, Rs 10,58,67,000; 1964, Rs 9,54,00,400.

100,000 rupees are called 1 lakh and are written thus: Rs 1,00,000; 100 lakhs are called 1 crore and are written thus: Rs 100,00,000. A lakh of rupees at the exchange rate of Rs 18 = £1 is equivalent to £5,555.

Budget. Revenue and expenditure (on revenue account) of the central government¹ for years ending 31 March, in crores of rupees:

	1967–68 ^a	1968–69 ^a	1969–70 ^a	1970–71 ^a	1971–72 ^a	1972–73 ^a
Revenue	2,545	3,027	3,587·15	4,146·86	4,080·7	4,464·7
Expenditure	2,458	2,896	2,976·42	3,583·33	4,107·2	4,124·3

Under the Constitution (Part XII and 7th Schedule), the power to raise funds has been divided between the central government and the states. Generally, the sources of revenue are mutually exclusive. Certain taxes are levied by the Union for the sake of uniformity and distributed to the states. The Finance Commission (Art. 280 of the Constitution) advises the President on the distribution of the taxes which are distributable between the centre and the states, and on the principles on which grants should be made out of Union revenues to the states. The main sources of central revenue are: customs duties; those excise duties levied by the central government; corporation, income and wealth taxes; estate and succession duties on non-agricultural assets and property, and revenues from the railways and Posts and Telegraphs. The main heads of revenue in the states are: taxes and duties levied by the state governments (including land revenues and agricultural income tax); civil administration and civil works; state undertakings; taxes shared with the centre; and grants received from the centre.

¹ Excluding states' share of excise duties and other taxes.

DEFENCE. The Supreme Command of the Armed Forces vests in the President of the Indian Republic. Policy is decided at different levels by a number of committees, including the Political Affairs Committee presided over by the Prime Minister and the Defence Minister's Committee. Administrative and operational control rests in the respective Service Headquarters, under the control of the Ministry of Defence.

The Ministry of Defence is the central agency for formulating defence policy and for co-ordinating the work of the three services. Among the organizations directly administered by the Ministry are the Research and Development Organization, the Production Organization, the National Defence College, the National Cadet Corps and the Directorate-General of Armed Forces Medical Services.

The Research and Development Organization (headed by the Scientific Adviser to the Minister) has under it about 30 research establishments. The Production Organization controls 8 public-sector undertakings and 28 ordnance and 2 departmental factories; the total value of production in 1971-72 was estimated at Rs 352 crores.

The National Defence College, New Delhi, was established in 1960 on the pattern of the Imperial Defence College (UK): the 1-year course is for officers of the rank of brigadier or equivalent and for senior civil servants. The Defence Services Staff College, Wellington, trains officers of the three Services for higher command for staff appointments. There is an Armed Forces Medical College at Poona.

The National Defence Academy, Khadakvasla, gives a 3-year basic training course to officer cadets of the three Services prior to advanced training at the respective Service establishments.

The Defence expenditure for 1973 totalled Rs 1,729.6 crores.

Army. The Army Headquarters functioning directly under the Chief of the Army Staff is divided into the following main branches: General Staff Branch; Adjutant-General's Branch; Quartermaster-General's Branch; Master-General of Ordnance Branch; Engineer-in-Chief's Branch; Military Secretary's Branch.

The Army is organized into 4 commands—eastern, central, western and southern—each divided into areas, which in turn are subdivided into sub-areas.

Recruitment of permanent commissioned officers is through the Indian Military Academy, Dehra Dun. It conducts courses for ex-National Defence Academy, National Cadet Corps and direct-entry cadets, and for serving personnel and technical graduates.

The Territorial Army came into being in Sept. 1949, its role being to: (1) relieve the regular Army of static duties and, if required, support civil power; (2) provide anti-aircraft units, and (3) if and when called upon, provide units for the regular Army. The Territorial Army is composed of practically all arms of the Services.

The authorized strength of the Army is 828,000, that of the Territorial Army, 50,000. There are 1 armoured, 14 infantry and 11 mountain divisions, 5 independent armoured brigades, 6 independent infantry and 1 parachute brigade.

Navy. Since 26 Jan. 1950 the former Royal Indian Navy, which traced its history in an unbroken line from the foundation in 1613 of the East India Company's Marine, has been known as 'Indian Navy', and the ships referred to as 'INS' instead of 'HMIS'. There are 3 commands: Eastern, Western and Southern.

Principal ships of the Indian Navy:

Completed	Name	Standard displacement Tons	Armour		Principal armament	Shaft horsepower	Speed Knots
			Belts in.	Turrets in.			
Aircraft Carrier							
1961	Vikrant (<i>ex</i> -Hercules)	16,000	—	—	15 40 mm. AA	40,000	24.5
Cruisers							
1940	Mysore (<i>ex</i> -Nigeria)	8,700	3-4½	2	9 6-in.; 8 4-in.	72,500	31.5
1933	Delhi (<i>ex</i> -Achilles)	7,114	2-4	1	6 6-in.; 8 4-in.	72,000	32

The fleet also includes 4 submarines, 2 destroyers (*Rajput* [ex-HMS *Rotherham*], *Rana* [ex-HMS *Raider*], *Ranjit* [ex-HMS *Redoubt*]), 2 general purpose frigates (the first built in India), 2 anti-submarine frigates, 2 smaller anti-submarine frigates, 3 anti-aircraft frigates (all 7 built in Great Britain, 1958-60), 5 frigates (including 1 'Hunt' class small escort destroyer acquired from Great Britain, 1953), 5 new Soviet-built escorts, 1 ocean minesweeper, 4 coastal minesweepers acquired from Great Britain in 1956, 4 inshore minesweepers (2 acquired from Great Britain in 1955), 8 torpedo and missile boats, 9 patrol craft, 11 seaward defence boats, 5 landing ships, 4 surveying vessels, a repair ship, a submarine parent ship, a submarine rescue ship, 4 oilers and an ocean tug.

General-purpose frigates of the British 'Leander' class are being built in India. INS *Nilgiri* was commissioned in 1972; another is under construction and 3 more are projected. Submarines have been acquired from the USSR.

The major training establishments of the Navy include INS *Vendruthy* at Cochin (Basic and Divisional, Gunnery, Torpedo and Ant-Submarine, Navigation and Direction, Communication), INS *Valswra* at Jamnagar (Electrical), INS *Shivaji* at Lonavla (Engineering), INS *Hansa* at Goa (Aviation), INS *Hamla* at Bombay (Supply and Secretariat) and INS *Circars* at Vishakhapatnam (Boys' Training).

At the naval base at Cochin, the Fleet Requirement Unit of the Naval Aviation

Station, INAS *Garunda*, has been developed. At present this unit is equipped with Firefly target tugs and Vampire aircraft which work with the ships and training schools of the Navy. Sea Hawk fighters, Alizé anti-submarine aircraft and Sea King anti-submarine helicopters have also been acquired for the aircraft carrier.

Naval personnel in 1972 comprised 20,000 officers and ratings.

Air Force. The Indian Air Force Act was passed in 1932, and the first flight was formed in 1933.

The Air Headquarters, under the Chief of Air Staff, consists of 4 main branches, viz., Air Staff, Administration, Policy and Plans, and Maintenance. Units of the IAF are organized into 3 operational commands—Western at Delhi, Central at Allahabad, Eastern at Shillong—plus an operational group at Jodhpur administered directly by Air HQ. Training Command HQ is at Bangalore, Maintenance Command at Nagpur. Nominal first-line strength in 1973 was more than 2,000 aircraft and 45 squadrons, of which about 36 were combat squadrons. Personnel total, 80,000.

Air defence units include 8 squadrons of Gnat Mk 1 fighters (a Mk 2 version is being developed), 8 squadrons of MiG-21s and many batteries of 'Guideline' and Tigercat surface-to-air missiles. Initial delivery of MiG-21s from the Soviet Union has been followed by large-scale licence production in India, with new MiG-21M version in production in 1973. There are 6 squadrons of Sukhoi Su-7s, 4 of Canberras (3 bomber, 1 reconnaissance), 6 of Hunter F56s, 2 of Mystère IVAs, 2 of Hindustan HF-24 Marut supersonic fighter-bombers and 1 of *ex-Air-India* L-1049G Super Constellations for maritime reconnaissance.

The large transport force includes An-12s, jet-boasted C-119Gs, C-47s, HS 748s, Caribou, Il-14s, Otters, Tu-124s and smaller aircraft and helicopters for VIP and other duties. Helicopter units have Mi-8s, Mi-4s, Alouette IIIs and licence-built Cheetahs (Aérospatiale Lamas); main training types are the Hindustan HT-2, T-6G, Vampire T.55, Hunter T.66 and MiG-21UTI, with the Hindustan Kiran becoming available in growing numbers for 'all-through' jet training.

Elementary flying training is provided at the IAF Flying College, Jodhpur, and advanced flying training at the IAF Station, Hyderabad. The IAF Technical College, Jalahalli, imparts technical training, while the IAF Administrative College, Coimbatore, trains officers of the ground duty branch. There are also land-air warfare, flying instructors' and medical schools.

PLANNING. The third five-year plan ended in March 1966 and 3 annual plans, as periods of stabilization, led up to the beginning of the fourth plan in April 1969. The formal fifth plan document was placed before Parliament on 19 Dec. 1973. The fifth plan stresses agriculture, mining and manufacturing industries.

Outlay is set at Rs 53,411 crores. Goals are an increase of 4.67% in agricultural production, 8.2% in mining and manufacturing, and 7.6% in exports. States now have more initiative in forming their development programmes.

Priority is given to increasing the income of the worst-off 30% of the population.

The fourth plan provided for 151m. hectares of sown land by 1980-81 (137m. hectares in 1967). Irrigated land should increase to 58m. hectares. Gujarat has received IDA credit for Rs 260.5m. as a 50-year loan towards the Kadana Dam project. In March 1970 Haryana and Uttar Pradesh agreed to build a joint dam with 2 canals at Kishan in the Dehra Dun hills; Haryana pays two-thirds of the estimated cost of Rs 180 crores.

For power, the objective is a net installed capacity of 23m. kw., which will allow for obsolete plant to be taken out of service. Outlay is Rs 210 crores for continuing generating schemes, including Rs 120 crores for nuclear generation.

GNP *per capita* (1972) US\$80.

AGRICULTURE. The chief industry of India has always been agriculture. About 70% of the people are dependent on the land for their living. The 1961 census showed that of a working population of 188,675,500, there were 131,142,816 engaged in agriculture; 99,621,175 of these were farmers, and 31,521,641 labourers. A National Sample Survey in 1961 showed 6.95m. rural households, 72% possessing operational holdings. There were 4.89 m. of such holdings with an average size between 2.4 and 26.3 hectares.

Agricultural commodities account for 40–45% by value of Indian exports, while agricultural commodities, machinery and fertilizers account for about 25–30% of imports. Tea accounts for 45–50% of agricultural exports.

An increase in food production of at least 2% per annum is necessary to keep pace with the rising population. In the first five-year plan (1950–51 to 1955–56) agriculture was given a more dominant part than industry and this, plus a series of good monsoons, produced a satisfactory increase in production. In the second five-year plan (1955–56 to 1960–61) less stress was laid on agricultural expansion, and import of foodstuffs was increased, though largely paid for by foreign aid. Even so, during the decade 1951–61 the rate of growth of agricultural production was ahead of the rate of growth of population; while population increased 21.5%, agricultural production increased by 39.1% (foodgrains by 35%, non-foodgrains by 47.3%). In the third five-year plan (1961–62 to 1965–66) a production target of 100m. tons of foodgrains was set, an increase of 22% over the 82m.-ton foodgrain harvest of 1960–61. There was no increase in foodgrain production in the first 3 years of the third Plan: 82.7m. tons in 1961–62, 78.4m. tons in 1962–63, 80.2m. tons in 1963–64; a rise to 89m. tons in 1964–65 and a severe setback because of the unprecedented drought in 1965–66, with a harvest of only 72.3m. tons. The harvest in 1966–67 rose to 75.9m. tons, in 1967–68 to 9m. tons, in 1969–70 to 99.5m. tons and in 1970–71 to 107.8m. tons.

The Indian Council for Agricultural Research, which was established in 1929 and which became fully autonomous in Jan. 1966, co-ordinates agricultural research and education in the Union. The more important central research institutes are the Indian Agricultural Research Institute (New Delhi), the Indian Veterinary Research Institute (Izatnagar), the National Dairy Research Institute (Karnal), the Central Rice Institute (Cuttack), the Central Potato Research Institute (Simla), the Indian Forest Research Institute and College (Dehra Dun), the Central Marine Fisheries Research Station (Mandapam), the Central Island Fisheries Research Station (Barrackpore), the Central Fisheries Technological Research Stations (Cochin and Ernakulam) and the Rubber Research Institute (Kottayam). Besides, there are 9 Central Commodity Committees which carry on research and development on cotton, wheat, lac, jute, sugar-cane, tobacco, oil-seeds, coconuts and arecanuts. The directorate of economics and statistics of the Ministry of Food and Agriculture is responsible for statistical publications, including the monthly *Agricultural Situation in India*.

Land Tenure. There are three main systems of land tenure: *ryotwari* tenure, where the individual holders, usually peasant proprietors, are responsible for the payment of land revenues; *zamindari* tenure, where one or more persons own large estates and are responsible for payment (in this system there may be a number of intermediary holders); and *mahalwari* tenure, where village communities jointly hold an estate and are jointly and severally responsible for payment.

The following table shows, in 1,000 hectares, according to states and territories, the net area and the classification of areas of India that were in 1969 cultivated, and uncultivated, and the areas under forests and irrigation:

Agrarian reform, initiated in the first Five-Year Plan, being undertaken by the state governments includes: (1) The abolition of intermediaries under *zamindari* tenure. Formerly the *zamindari* system prevailed in about 43% of the country, but by 1958 it had been abolished, usually in favour of *ryotwari* tenure, in all except about 5%. The total amount payable in compensation had been estimated at Rs 570 crores, payable in cash in some states and in transferable bonds in others; up to 31 Dec. 1966 about Rs 300 crores had been paid. (2) Tenancy legislation designed to scale down rents to $\frac{1}{4}$ — $\frac{1}{3}$ of the value of the produce, to give permanent rights to tenants (subject to the landlord's right to resume a minimum holding for his personal cultivation), and to enable tenants to acquire ownership of their holdings (subject to the landlord's right of resumption for

personal cultivation) on payment of compensation over a number of years. (3) Fixing of ceilings on existing holdings and on future acquisition, following a census of land holdings. Ceilings vary widely in different states according to local conditions; e.g., on existing holdings, 22½ acres in Jammu and Kashmir, 50 acres in the plains of Assam, 18–216 acres in the Telangana area of Andhra Pradesh and the Hyderabad area of Karnataka and 25 acres in West Bengal. (4) The consolidation of holdings in community project areas (45·3m. acres had been consolidated by 31 March 1965, mainly in the Punjab, Madhya Pradesh and Uttar Pradesh) and the prevention of fragmentation of holdings by reform of inheritance laws. (5) Promotion of farming by co-operative village management (see p. 348).

Further changes in the traditional forms of land tenure are being made by the *Bhoodan* movement, which began in 1951 and which seeks voluntary donation of one-sixth of owner's land for distribution among the landless; by Oct. 1965 about 4·2m. acres had been donated, of which about 1·1m. acres had been distributed. This has now widened into the *Grandan* movement, whose object is the donation of entire villages so that the land may belong to the village community as a whole; by Oct. 1965, 11,370 villages had been donated.

Agricultural Production. Area (in 1,000 hectares) and production (in 1,000 metric tons) of principal crops for 3 years:

One of the most important industries connected with agriculture is the tea industry, the average number of persons employed daily being 855,000 in 1970; by value tea accounts for about 25% of all India's exports. The area under tea (in 1,000 hectares), and production (in 1,000 metric tons) in 1970 were as follows: North India, 280·1 (320); South India, 74 (102·1); total, 354 (422). Total crop, 1971, 425,800.

The production of coffee (revised estimate, 1970–71) was 75,000 metric tons; foreign exchange earnings, 1969–70, Rs 19·61 crores.

Production of natural rubber (1969) was 79,951 metric tons from 122,376 hectares. Kerala produces about 93% of this, from 118,621 hectares.

LIVESTOCK, census 1961: Cattle, 175·7m.; buffaloes, 51·1m.; sheep, 40·3m.; goats, 60·8m.; horses, 1·4m.; poultry, 116·9m.; compared with 155m. cattle, 39m. sheep, 47m. goats, 1·5m. horses and 73·5m. poultry in 1951.

Opium. By international agreement the poppy is cultivated under licence, and all raw opium is sold to the central government. Opium, other than for wholly medical use, is available only to registered addicts, of whom there were about 432,000 in 1958.

Production, 1961–62:

	Area (hectares)	Licensed cultivators	Raw opium (kg)
Uttar Pradesh	15,311	82,756	274,626
Madhya Pradesh	15,610	46,710	376,538
Rajasthan	14,511	55,576	318,215
Total	45,432	185,042	969,420

FORESTRY. The lands under the control of the state forest departments are classified as 'reserved forests' (forests intended to be permanently maintained for the supply of timber, etc., or for the protection of water supply, etc.), 'protected forests' and 'unclassified' forest land.

The following table shows the extent of the forests and their composition (1964-65):

	Sq. km.		1,000 cu. metres
Total forest area	752,982	Timber produced	19,211
Area with commercial produce	590,064	Timber	5,926
Coniferous	46,144	Roundwood	513
Sal	97,818	Pulp and matchwood	12
Teak	91,222	Fuel	12,574
Other broadleaved	517,798	Charcoal	186

Total value of production was Rs 5,856.3 lakhs, including Rs 1,585.9 lakhs from bamboos, canes, gums, resins and other minor products. In 1970 forests occupied 21.8% of the land area, and gave a return of Rs 2.60 per acre.

IRRIGATION. The net area of 27.5m. hectares (1966-67) under irrigation exceeds that of any other country except China, and equals about 19% of the total area under cultivation. The length of canals is about 67,500 miles. Irrigation projects have formed an important part of all three Five-Year Plans. Between 1950-51 and 1969 the total irrigated area increased by about 8.9m. hectares.

MINERALS. Production (1969) in metric tons: Barytes, 59,301; bauxite, 1,005,141; china clay, 627,788; chromite, 226,580; coal, 74,736,000; copper ore, 510,456; feldspar, 31,292; gold, 3,058 kg; gypsum, 1,368,979; iron ore, 21,279,606; lead concentrates, 3,300; magnesite, 293,129; manganese ore, 1,283,583; mica, crude, 17,626; crude petroleum, 6,723,000; phosphate-rock (apatite), 9,316; salt, 5.17m.; sillimanite, 13,945; kyanite, 83,876; silver, 3,278; titanium (ilmenite), 47,692; zinc concentrates, 13,781. Total value of mineral production, 1969, Rs 407.5 crores, of which coal accounted for Rs 253 crores. Bihar produced about 33% of total value, West Bengal 17% and Madhya Pradesh 14%. The coal industry was nationalized in 1973.

In 1964 about 667,425 persons were employed in about 3,200 working mines (mainly coal, mica, manganese ore, iron ore and gypsum).

Production of processed minerals (metric tons, 1969): Aluminium, 125,000; pig-iron, 7,788,500; steel ingots and castings, 9.95m.; ammonium sulphate (1966), 86,388; refined petroleum products (1966), 11m.

The figures for bauxite, iron ore and manganese ore in this section exclude Goa which produced 7.6m. metric tons of iron ore, 170,000 metric tons manganese ore and 58,452 metric tons of bauxite in 1969.

INDUSTRIES. The most important indigenous industry, after agriculture, is the weaving of cotton cloth. Other important indigenous industries are silk-rearing and weaving, shawl and carpet weaving, wood-carving and metal-working.

Indian Government industrial policy aims to further a socialist pattern of society. Railways, air transport, armaments and atomic energy are government monopolies. In a number of industries (including the manufacture of iron and steel and mineral oils, shipbuilding and the mining of coal, iron and manganese ores, gypsum, gold and diamonds) new units are set up only by the state. In a further group of industries (road transport, manufacture of chemicals such as drugs, dyestuffs, plastics and fertilizers) the state established new undertakings, but private enterprise may develop either on its own or with state backing, which may take the form of loans or purchase of equity capital. Under the Industries (Development and Regulation) Act, 1951, as amended, industrial undertakings are required to be licensed; 162 industries are within the scope of the Act. The

Government are authorized to examine the working of any undertaking, to issue directions to it and to take over its control if this be deemed necessary. A Central Advisory Council has been set up consisting of representatives of industry, labour, consumers and primary producers. There are 16 Development Councils for individual industries.

Foreign investment is encouraged by a tax holiday on income up to 6% of capital employed for 5 years.

There are special depreciation allowances, and customs and excise concessions for export industries.

For 1965 the *Survey of Industry* gives (provisionally): 13,459 factories each employing 50 or more workers with power and 100 or more without. Total employment 39.53 lakhs, earning Rs 941 crores. The 12,963 reporting factories had Rs 1,687 crores value added by manufacture.

In the cotton industry the number of spindles in 656 mills on 1 Jan. 1970 was 17.66m. and of looms, about 208,000. The production of yarn in 1970 (provisional) was 969m. kg and of cloth, 4,182m. metres (mill cloth accounts for about 58% of total production, the balance being produced by hand loom and small industries). In 1970 there were 759,000 workers in the mills and 10m. handloom weavers. The value of their output for the year was Rs 800 crores. In 1970 the jute industry had a total of 41,000 looms. Production was 954,000 metric tons.

On 14 July 1972 the Government took over the management of the Indian Iron and Steel Co. for 2 years, and set up a holding company to control steel and associated industries. Production of steel declined from 970,000 tons in 1966 to 617,000 tons in 1971-72.

POWER. Electricity:

Year	Installed capacity of plant at 31 March (1,000 kw.)				Energy generated (lm. kw.)
	Steam	Diesel	Hydro	Total	
1951 (31 Dec.)	1,097	163	573	1,835	5,860
1964	2,699	354	3,167	6,220	25,510
1970	5,975	420	5,487	11,883	41,195

In 1969, 2,618 towns and 67,710 villages had electric power in the States, and 59 towns and 3,700 villages in the Union Territories. The capacity for use in industry (1968) was 1.2m. kw.

COMPANIES. The total number of companies limited by shares at work in India, 31 March 1972 was 32,562, aggregate paid-up capital was Rs 4,652.7 crores. There were 6,678 public limited companies with an aggregate paid-up capital of Rs 1,956.1 crores, and 25,884 private limited companies (Rs 2,696.6 crores).

During 1971-72, 2,524 new limited companies were registered in the Indian Union under the Companies Act 1956 with a total authorized capital of Rs 524 crores; 198 were public limited companies (Rs 216 crores) and 2,326 were private limited companies (Rs 308 crores). Of the new companies, 85 had an authorized capital of Rs 1 crore and above, and 93 of between Rs 50 lakhs and Rs 1 crore; 31 were government companies (*i.e.*, companies in which Government owns at least 51% of share capital). During 1971-72, 224 companies with an aggregate paid-up capital of Rs 676 lakhs went into liquidation and 150 companies (Rs 25 lakhs) were struck off the register.

On 31 March 1972 there were 352 government companies at work with a total paid-up capital of Rs 2,369 crores; 107 were public limited companies and 245 were private limited companies.

On 31 March 1972, 541 companies incorporated elsewhere were reported to have a place of business in India; of these 325 were of UK and 90 of USA origin.

On 13 May 1971 the General Insurance (Emergency Provisions) Ordinance vested the management of all insurance companies operating in India in the Government. This covered 106 companies, 42 of them foreign-owned, with total assets of Rs 2,400m. A bill to nationalize all these, as the General Insurance Corporation of India, passed the Rajya Sabha in Sept. 1972.

CO-OPERATIVE MOVEMENT. On 30 June 1964 there were in the Indian Union 356,410 co-operative societies of all types with a membership of 45,289,219, and working capital of 2,099.46 crores. In 1971 there were 25 state co-operative banks; these advanced loans of Rs 813.5 crores during the year 1970-71. The central co-operative banks (including banking unions) numbered 341; total advances were Rs 929.7 crores, and working capital Rs 1,081.4 crores. The number of agricultural primary credit societies (which constitute the base of the co-operative credit structure of the country) was 160,780, with a membership of 30.96m. and a working capital of Rs 1,153.4 crores. In 1969-70 non-agricultural primary credit societies numbered 14,816 with a membership (1964) of 5,677,000 and a working capital of Rs 220 crores. In 1971 there were 19 central land development banks (working capital, Rs 841.2 crores) and 865 primary land development banks (membership, 3.54m.; working capital, Rs 550.7 crores).

Following the recommendations (1954) of a committee appointed by the Reserve Bank of India, the co-operative movement was extended from its chief function of providing credit to include marketing, processing, warehousing, etc. On 30 June 1964 non-credit societies included 3,166 primary marketing societies, 9,269 primary sugar-cane supply societies, 70 sugar factories, 5,942 milk supply societies, 5,850 farming societies, 1,499 irrigation societies, 2,932 fishermen's societies, 12,733 primary weavers' societies, 151 cotton ginning and pressing societies, 47 spinning mills, 8,467 other processing societies and 25,065 other industrial societies; there were 9,900 primary consumers' stores and 9,886 housing societies.

The position of co-operative credit societies in the states, 30 June 1965, was:

State	No. of societies	Membership (in 1,000)	Total working capital (Rs lakhs)

The shipyard at Vishakhapatnam is capable of building ocean-going vessels of a maximum of 15,000 DWT and bulk carriers or tankers up to 25,000 DWT. Present capacity is 3 ships of 12,500 DWT each per year. Two more shipyards (at Bombay and Calcutta) can build sea vessels of smaller tonnage. A shipyard is being built at Cochin as a public sector project, with a building dock for ships of 85,000 DWT and a repair dock for ships up to 100,000 DWT.

RAILWAYS. The Indian railway system is government-owned and (under the control of the Railway Board) is divided into 9 zones, with route km as follows at 31 March 1971:

Zone	Headquarters	Broad gauge	Metre gauge	Narrow gauge	Total
Central	Bombay	4,588	382	794	5,764
Eastern	Calcutta	4,013	—	131	4,144
Northern	Delhi	6,924	3,433	260	10,617

South Eastern	Calcutta	5,358	—	1,479	6,837
Western	Bombay	2,865	6,080	1,202	10,147

Passengers carried in 1971 were approximately 2,409m. (1963-64; 1,892.6m.); freight, 219m. (192.3m.) metric tons; this includes freight carried for railway purposes. Railway staff on 31 March 1971 numbered 1.36m. Total route, 31 March 1971: 60,137 km.

Indian Railways pay to the central government a fixed dividend of 4½% on capital-at-charge.

ROADS. In 1971 there were about 1,287,288 km of roads, of which 407,045 km were metalled. Roads are divided into 5 main administrative classes, namely, national highways, state highways, major district roads, district roads and village roads. The national highways (23,720 km in 1970) connect capitals of states, major ports and foreign highways. The national highway system is linked with the ECAFE (Economic Co-operation Administration Far East) international highway system. The state highways are the main trunk roads of the states, while the major district roads connect subsidiary areas of production and markets with distribution centres, and form the main link between headquarters and neighbouring districts.

There were (31 March 1970) about 1,624,060 motor vehicles in India, comprising 555,083 private cars and jeeps, 59,240 taxis, 491,034 motor cycles and auto-rickshaws, 90,246 public service vehicles, 327,471 goods vehicles and 100,985 miscellaneous vehicles.

AVIATION. The air transport industry in India was nationalized in 1953 with the formation of two Air Corporations: Air India for operating long-distance international air services, and Indian Airlines for operating air services within India and to adjacent countries. Air India operates 7 flights a week to New York *via* London with halts in the Middle East and Europe, 2 flights a week to London with halts in the Middle East and 2 flights per week to Moscow *via* Tehrán. Other scheduled flights by Boeing 707 are made to East Africa (Kenya, Ethiopia and Uganda), Australia and Fiji (Sydney *via* Singapore and Perth), Indonesia (*via* Singapore), the Far East (Tokyo and Osaka *via* Bangkok and Hong Kong), Kuwait (*via* Bahrain) and Mauritius. Caravelle, Viscount, Boeing 737 and 707, F-27, HS-748 and Dakota aircraft are flown by India Airlines.

In 1971 Indian aircraft flew 59·34m. km on scheduled services, carrying about 2·546m. passengers and 45·23m. kg of cargo and mail. On non-scheduled services in 1970 4·5m. km were flown, about 140,000 passengers and 10m. kg of freight were carried.

The Civil Aviation Department maintains and operates 84 aerodromes. The management of the 4 international airports at Bombay (Santa Cruz), Calcutta (Dum Dum), Delhi (Palam) and Madras has been vested in the International Airports Authority of India since 1 April 1972.

On 31 Dec. 1971, 264 aircraft held current certificates of airworthiness.

Pakistani aircraft, military and civil, were forbidden airspace in Feb. 1971.

POST. On 31 March 1972 there were 111,682 post offices and 15,968 telegraph offices (including licensed offices). The department at the end of the year was maintaining 453,951 km of line, including cables, and 10,924,772 channel-km of different cable systems.

The telephone system is in the hands of the Indian Posts and Telegraphs Department. On 31 March 1972 there were 4,205 local and 1,238 trunk exchanges (including private and private branch exchanges) and 1,396,288 telephones. There were 39 telex exchanges and 6,490 subscribers.

BANKING. The Reserve Bank, the central bank for India, was established in 1934 and started functioning on 1 April 1935 as a shareholder's bank; it became a nationalized institution on 1 Jan. 1949. It has the sole right of issuing currency-notes. The Bank acts as adviser to the government on financial problems and is the banker for central and state governments, commercial banks and some other financial institutions. The Bank manages the rupee public debt of central and state governments. It is the custodian of the country's exchange reserve and supervises repatriation of export proceeds and payments for imports. The Bank gives short-term loans to state governments and scheduled banks and short- and medium-term loans to state co-operative banks and industrial finance institutions. The Bank has extensive powers of regulation of the banking system, directly under the Banking Regulation Act, 1949, and indirectly by the use of variations in bank rate, variation in reserve ratios, selective controls and open market operations. Bank rate was 5% in the financial year 1969-70. For commercial banks there is a progressive increase in the cost of credit made available by the Reserve Bank, by relating borrowing to the net liquidity position of the borrowing bank; when this is 33% or above, the Reserve Bank charges the bank rate, but for every 1% decrease or fraction thereof in the liquidity ratio of the borrowing bank the rate charged on its excess borrowings is increased by 1% above bank rate. Refinance is at 4½% for banks' credit to exporters and to certain primary co-operative credit societies, and at bank rate for short term lending to small industries and direct lending to agriculturists. The net profit of the Reserve Bank of India for the year ended 30 June 1970 amounted to Rs 75 crores.

The commercial banking system consisted of 72 scheduled banks (*i.e.*, banks which are included in the 2nd schedule to the Reserve Bank Act) and 14 non-scheduled banks on 31 Dec. 1970; total number of offices was 10,131. Total deposits in commercial banks, 31 Dec. 1970, stood at Rs 5,239 crores; in post office savings banks 31 March 1970 deposits were 841 crores. The business of non-scheduled banks forms less than 1% of commercial bank business. Of the 73 scheduled

banks, 15 are foreign banks which specialize in financing foreign trade but also compete for domestic business. The largest scheduled bank is the State Bank of India, constituted by nationalizing the Imperial Bank of India in 1955. The State Bank acts as the agent of the Reserve Bank and the subsidiaries of the State Bank act as the agents of the State Bank for transacting government business as well as undertaking commercial functions. An act of Parliament receiving assent on 9 Aug. 1969 nationalized 14 banks with aggregate deposits of not less than Rs 50 crores on 27 June 1969. This brought the share of public sector banks to 83% of deposits and 84% of credit.

WEIGHTS AND MEASURES. A complete change to the metric system by Dec. 1966 was envisaged by the Standards of Weights and Measures Act, 1956. The reform has been introduced gradually, through a phased programme, covering different industries, trades, public undertakings and regions.

The use of metric units prescribed under the Standards of Weights and Measures Act, 1956, including the Celsius scale of temperature, has become compulsory in commercial transactions throughout the country. The system has also been adopted in education, general and technical, including engineering and medical courses. Adoption has, however, been comparatively slow in more complicated fields such as the engineering industry, printing and stationery, survey and land records, building, dams and road construction, etc. Efforts are being made to hasten adoption.

Organizations for the enforcement of the weights and measures laws on a uniform basis have been set up both at the centre and in the States, so that a single system of weights and measures prevails in the country. An expert committee is bringing the present laws into line with the recommendations of the International Organization of Legal Metrology (OIML) and the General Conference on Weights and Measures (CGPM). The Committee has proposed a revision of the Central Law relating to weights and measures so as to include therein the International System of Units of Weights and Measures (SI) and other units recommended by the CGPM and the OIML. The proposed revised legislation also covers the system of numeration, the approval of models of weights and measures, the regulation and control of inter-State trade in relation to the weights and measures and commodities sold by weight, measure or number, indication of net weight, measure or number on packaged commodities, training of personnel, export and import of weights, measures and weighing and measuring instruments, penalties for infringement of the weights and measures laws, etc. The proposed State Law is intended to be applied to weight and measures used in commercial transactions, industrial measurements, and measurements connected with public health and public safety in the initial stages, and extended to the weights and measures used in educational institutions later. The All-India Training Institute of Weights and Measures trains officials from India, and from developing countries, in advanced legal metrology.

It has been estimated by the Committee that the monetary value of the retail commercial transactions and wholesale transactions in foodgrains and farm produce carried out in the country on the basis of weights and measures was Rs 32,000 crores. Even 1% error in these commercial transactions, caused by inaccurate weight or measure or weighing or measuring practice, would cause the Indian consumer an annual loss of Rs 320 crores.

For weights previously in legal use under the Standards of Weight Act, 1956, see THE STATESMAN'S YEAR-BOOK, 1961, p. 171.

CALENDAR. The dates of the Saka era (named after the north Indian dynasty of the first century A.D.) are being used alongside Gregorian dates in issues of the *Gazette of India*, news broadcasts by All-India Radio and government-issued

calendars, from 22 March 1957, a date which corresponds with the first day of the year 1879 in the Saka era.

STATES AND TERRITORIES

The Republic of India is composed of the following 21 States and 9 centrally administered Union Territories:

<i>States</i>	<i>Capital</i>	<i>States</i>	<i>Capital</i>
Andhra Pradesh	Hyderabad	Manipur	Imphal
Assam	Dispur	Meghalaya	Shillong
Bihar	Patna	Nagaland	Kohima
Gujarat	Ahmedabad	Orissa	Bhubaneswar
Haryana	Chandigarh	Punjab	Chandigarh
Himachal Pradesh	Simla	Rajasthan	Jaipur
Jammu and Kashmir	Srinagar	Tamil Nadu	Madras
Karnataka	Bangalore	Tripura	Agartala
Kerala	Trivandrum	Uttar Pradesh	Lucknow
Madhya Pradesh	Bhopal	West Bengal	Calcutta
Maharashtra	Bombay		

Union Territories

Andaman and Nicobar Islands; Arunachal Pradesh; Chandigarh, Dadra and Nagar Haveli; Delhi; Goa, Daman and Diu; Lakshadweep; Mizoram; Pondicherry.

States Reorganization. The Constitution, which came into force on 26 Jan. 1950, provided for 9 Part A States (Assam, Bihar, Bombay, Madhya Pradesh, Madras, Orissa, Punjab, Uttar Pradesh and West Bengal) which corresponded to the previous governors' provinces; 8 Part B States (Hyderabad, Jammu and Kashmir, Madhya Bharat, Mysore, Patalia-East Punjab (PEPSU), Rajasthan, Saurashtra and Travancore-Cochin) which corresponded to Indian states or unions of

states; 10 Part C States (Ajmer, Bhopal, Bilaspur, Coorg, Delhi, Himachal Pradesh, Kutch, Manipur, Tripura and Vindhya Pradesh) which corresponded to the chief commissioners' provinces; and Part D Territories and other areas (e.g., Andaman and Nicobar Islands). Part A States (under governors) and Part B States (under rajpramukhs) had provincial autonomy with a ministry and elected assembly. Part C States (under chief commissioners) were the direct responsibility of the Union government, although Kutch, Manipur and Tripura had legislatures with limited powers. Andhra was formed as a Part A State on its separation from Madras in 1953. Bilaspur was merged with Himachal Pradesh in 1954.

The States Reorganization Act, 1956, abolished the distinction between Parts A, B and C States and established two categories for the units of the Indian union to be called States and Territories. The following were the main territorial changes: the Telugu districts of Hyderabad were merged with Andhra; Mysore absorbed the whole Kannada-speaking area (including Coorg, the greater part of 4 districts of Bombay, 3 districts of Hyderabad and 1 district of Madras); Bhopal, Vindhya Pradesh and Madhya Bharat were merged with Madhya Pradesh, which ceded 8 Marathi-speaking districts to Bombay; the new state of Kerala, comprising the majority of Malayalam-speaking peoples, was formed from Travancore-Cochin with a small area from Madras; Patalia-East Punjab was included in Punjab; Kutch and Saurashtra in Bombay; and Ajmer in Rajasthan; Hyderabad ceased to exist.

On 1 May 1960 Bombay State was divided into two parts: 17 districts (including Saurashtra and Kutch) in the north and west became the new state of Gujarat; the remainder was renamed the state of Maharashtra.

In Aug. 1961 the former Portuguese territories of Dadra and Nagar Haveli became a Union territory. The Portuguese territory of Goa and the smaller territories of Daman and Diu, occupied by India in Dec. 1961, were constituted a Union territory in March 1962. In Aug. 1962 the former French territories of Pondicherry, Karikal, Mahé and Yanam were formally transferred to India and became a Union territory. In Sept. 1962 the Naga Hills Tuensang Area was constituted a separate state under the name of Nagaland. On 1 Nov. 1966, under the Punjab Reorganization Act 1966, a new state of Haryana and a new Union Territory of Chandigarh were created from parts of Punjab (India); for details, see pp. 363 and 390-91. On 26 Jan. 1971 Himachal Pradesh became a state. In 1972 the North East Frontier Agency and Mizo hill district were made Union territories (as Arunachal Pradesh and Mizoram), and Manipur, Meghalaya and Tripura full states.

ANDHRA PRADESH

Andhra was constituted a separate state on 1 Oct. 1953, on its partition from Madras, and consisted of the undisputed Telugu-speaking area of that state. To this region was added, on 1 Nov. 1956, the Telangana area of the former Hyderabad State, comprising the districts of Hyderabad, Medak, Nizamabad, Karimnagar, Warangal, Khammam, Nalgonda and Mahbubnagar, parts of the Adilabad district and some taluks of the Raichur, Gulbarga and Bidar districts, and some revenue circles of the Nanded district. On 1 April 1960, 221.4 sq. miles in the Chingleput and Salem districts of Madras were transferred to Andhra Pradesh in exchange for 410 sq. miles from Chittoor district. The district of Ongole was formed by an Ordinance of 2 Feb. 1970.

GOVERNMENT AND CONSTITUTION. Andhra Pradesh has a bi-cameral legislature. A regional committee composed of the elected members of

Telangana Region is consulted by the Government on matters pertaining to that region. The State was placed under direct Presidential rule in Jan. 1973.

For administrative purposes there are 21 districts in the state. The capital is Hyderabad.

Governor: K. K. Desai.

AREA AND POPULATION. The state has an area of 275,281 sq. km and a population (1971) of 43·39m. Density, 157 per sq. km. The principal language is Telugu. Cities with over 100,000 population (1961 census) *see* p. 335.

RELIGION. At the 1961 census Hindus numbered 31,813,944; Moslems, 2,715,021; Christians, 1,428,819; Jains, 9,012; Sikhs, 8,563; Buddhists, 6,753.

EDUCATION. In 1971, 24·56% of the population were literate. There were, in 1970, 42,664 recognized educational institutions, with 4,982,798 pupils, namely, 53 pre-primary, 36,757 primary, 2,919 upper primary, 2,925 secondary schools. Education is free for children up to 14.

Osmania University, Hyderabad (founded in 1918), had (1969–70) 38 day colleges for men, 9 for women, 15 evening colleges for men, 1 for women and 84 junior colleges; Andhra University, Waltair (1926), had 46 day colleges for men, 11 for women, 8 evening colleges for men, 48 junior colleges; Sri Venkateswara University, Tirupati (1954), had 23 day colleges for men, 4 for women, 7 evening colleges for men, 38 junior colleges. The AP Agricultural University, inaugurated at Rajendra Nagar, Hyderabad, in 1964, had 3 agricultural colleges for men, 2 veterinary science colleges for men, 1 home science college for women and 1 college of basic courses for men.

JUSTICE. The High Court of Judicature at Hyderabad has a Chief Justice and 17 puisne judges.

FINANCE. The budget estimates for 1968–69 showed total revenue receipts of Rs. 199 crores, and expenditure of Rs 204·67 crores. Receipts included: Contributions and adjustment between central and state governments, Rs 43,78·96 lakhs; taxes on income, Rs 10,96·95 lakhs; state excise, Rs 16,57·31 lakhs; stamps, Rs 6,41·79 lakhs; forests, Rs 5,79·58 lakhs; sales tax, Rs 35,48 lakhs; vehicles taxes, Rs 10,73 lakhs; debt services, Rs 28,37·56 lakhs; civil administration, Rs 11,49·70 lakhs. Expenditure included: Education, Rs 34,08·94 lakhs; public works and improvements, Rs 9,82·25 lakhs; irrigation, embankment, etc., Rs 25,67·47 lakhs; medical, and public health, Rs 17,06·32 lakhs; police, Rs 10,15·09 lakhs; agriculture, Rs 997·60 lakhs; general administration, Rs 12,30·13 lakhs; debt services, Rs 31,33·25 lakhs; extraordinary, including community projects and local development, Rs 4,44·99 lakhs; industries, Rs 1,35·63 lakhs.

AGRICULTURE. There are about 14·3m. hectares of cultivable land. Production of principal crops, 1968–69: Rice, 3·51m. metric tons; jowar, maize and bajra, 1·77 m. tons; wheat, 3,000 metric tons; total foodgrains, 5·94m. tons.

Livestock (1966 census): Cattle, 12·34m.; buffaloes, 6·79m.; goats, 3·76m.; sheep, 8m.

FORESTS. An administration report for 1965–66 estimated that forests occupy about 24% of the total area of the state; value of forest produce, Rs 517·73 lakhs.

IRRIGATION. The Tungabhadra dam, inaugurated in 1953, has been completed, thus irrigating about 492,800 hectares in Andhra Pradesh and Karnataka. The Nagarjunsaga project, which incorporates canals and a dam (the tallest

masonry dam in the world) on the Krishna River 160 km from Hyderabad, will irrigate over 1,305,000 hectares on completion of the final phase. The first phase has been completed, and the waters let out for irrigation.

MINERALS (1969-70). Production of principal minerals (in 1,000 metric tons): Manganese, 139; mica, 8; iron ore, 92; limestone, 1,435; coal, 3,700; barytes, 35; clay, 54; steatite, 12.

INDUSTRY. In 1965 Andhra Pradesh had 6,073 factories subject to the Factories Act, 1948. There were 21 textile-mills, 19 sugar-mills and 2 paper-mills. Other industries include cement, tanning and glass. There is an oil refinery at Vishakhapatnam, where India's only major shipbuilding yards are situated.

Cottage industry includes the manufacture of carpets, wooden and lacquer toys, brocades, bidriware, filigree and lace-work. The wooden toys of Nirmal and Kondapalli are particularly well known.

POWER. The total installed capacity of the Machkund hydro-electric project (financed jointly with Orissa) is 114,750 kw.

SHIPPING. The chief port is Vishakhapatnam. There are minor ports at Kakinada, Machilipatnam, Bheemunipatnam, Narsapur, Krishnapatnam, Vadarevu and Calingapatnam.

RAIL. In 1971 there were approximately 4,510 route km of railway, of which 2,888 km were broad gauge, 1,599 km metre gauge and 32 km narrow gauge.

ROADS. In 1966 there were 370,123 km of roads, including state highways, 14,934 km; national highways, 2,205 km; major district roads, 14,371 km; other district roads, 6,098 km.

ASSAM

Assam first became a British Protectorate at the close of the first Burmese War in 1826. In 1832 Cachar was annexed; in 1835 the Jaintia Hills were included in the East India Company's dominions, and in 1839 Assam was annexed to Bengal. In 1874 Assam was detached from Bengal and made a separate chief commissionership. On the partition of Bengal in 1905, it was united to the Eastern Districts of Bengal under a Lieut.-Governor. From 1912 the chief commissionership of Assam was revived, and in 1921 a governorship was created. On the partition of India almost the whole of the predominantly Muslim district of Sylhet was merged with East Bengal (Pakistan). Dewangiri in North Kamrup was ceded to Bhutan in 1951. The Naga Hill district, administered by the Union government since 1957, became part of Nagaland in 1962. The autonomous state of Meghalaya within Assam, comprising the districts of Garo Hills and Khasi and Jaintia Hills, came into existence on 2 April 1970, and achieved full independent statehood in Jan. 1972, when it was also decided to form a Union Territory, Mizoram, from the Mizo Hills district.

GOVERNMENT AND CONSTITUTION. Assam has a unicameral legislature of 114 members. The state of the parties in the Legislative Assembly in May 1972 was: Congress, 95; Socialist, 4; Communists, 3; Swatantra, 1; independents, 5; others, 6.

There are 10 districts. The capital is Dispur, near Gauhati.

Governor: L. P. Singh.

Chief Minister: S. C. Sinha.

AREA AND POPULATION. The area of the state is now approximately 78,523 sq. km. Its population (1971 census) 14.6m. Principal towns with popula-

tion (1971) are: Gauhati, 122,981; Dibrugarh, 80,344; Tinsukia, 55,392; Nowgong, 52,892; Silchar, 52,612. The principal language is Assamese.

RELIGION. At the 1961 census Hindus numbered 7,884,921; Moslems, 2,765,509; Christians, 764,553; Buddhists, 36,513; Sikhs, 9,686; Jains, 9,468.

EDUCATION. The 1971 census showed 28·74% of the population to be literate.

In 1961, 19,736 schools for general education had 1,556,952 pupils; 103 schools for professional education had 8,558 pupils; 830 schools for special education had 30,006 students. Primary education is free.

The University of Gauhati (established 1948) is affiliating, teaching and residential. The number of full-time students in the university and its affiliated colleges (1962–63) was 30,351.

HIMACHAL PRADESH

The state of Himachal Pradesh lies to the north of Uttar Pradesh, north-east of Haryana and to the east of Punjab (India); Tibet is on its eastern boundary.

The territory came into being on 15 April 1948 and comprised 30 former Hill States. The state of Bilaspur was merged with Himachal Pradesh in 1954. The 6 original districts were: Mahasu, Sirmur, Mandi, Chamba, Bilaspur and Kinnaur. On 1 Nov. 1966, under the Punjab Reorganization Act, 1966, certain parts of the state of Punjab (India) were transferred to Himachal Pradesh. These comprise the districts of Simla, Kulu, Kangra, and Lahaul and Spiti; and parts of Hoshiarpur and Ambala districts, with an estimated population (1967) of 1.5m.

Full statehood was attained, as the 18th state of the Union, on 26 Jan. 1971.

On 1 Sept. 1972 districts were reorganized and 2 new districts created, Hamirpur and Una, making a total of 12. The capital is Simla.

There is a unicameral legislature. The Legislative Assembly has 68 seats of which Congress holds 52.

Governor: S. Chakravarti.

Chief Minister: Y. S. Parmar.

AREA AND POPULATION. The area of the state is 55,658 sq. km and it had a population at the 1971 census of 3,460,434. Density, 62 per sq. km. Principal language is **Pahari**.

JUSTICE. The state has its own High Court at Simla.

FORESTRY. Himachal Pradesh forests supply the largest quantities of coniferous timber in northern India. They are the main source of revenue of the Pradesh. The forests also ensure the safety of the catchment areas of the Jamuna, Sutlej, Beas, Ravi and Chenab rivers.

JAMMU AND KASHMIR¹

The state of Jammu and Kashmir, which had earlier been under Hindu rulers and Moslem sultans, became part of the Mogul Empire under Akbar from 1586. After a period of Afghan rule from 1756, it was annexed to the Sikh kingdom of the Punjab in 1819. In 1820 Ranjit Singh made over the territory of Jammu to Gulab Singh. After the decisive battle of Sobraon in 1846 Kashmir also was made over to Gulab Singh under the Treaty of Amritsar. British supremacy was recognized until the Indian Independence Act, 1947, when all states decided on accession to India or Pakistan. Kashmir asked for standstill agreements with both. Pakistan agreed, but India desired further discussion with the Government of Jammu and Kashmir State. In the meantime the state became subject to armed attack from the territory of Pakistan and the Maharajah acceded to India on 26 Oct. 1947, by signing the Instrument of Accession. India approached the UN in Jan. 1948; India-Pakistan conflict ended by ceasefire in Jan. 1949. Further conflict in 1965 was followed by the Tashkent Declaration in Jan. 1966.

GOVERNMENT. The Maharajah's son, Yuvraj Karan Singh, took over as Regent in 1950 and, on the ending of hereditary rule (17 Oct. 1952), was sworn in as Sadar-i-Riyasat. On his father's death (26 April 1961) Yuvraj Karan Singh was recognized as Maharajah by the Indian Government; he decided not to use the title while he was elected head of state.

The permanent Constitution of the state came into force in part on 17 Nov. 1956 and fully on 26 Jan. 1957. There is a bicameral legislature; the Legislative Council has 36 members and the Legislative Assembly has 75, of which 25 are reserved for the Pakistan-occupied areas. The state of the parties in the Legislative Assembly, after the 1972 elections, was: Congress, 57; Jamiat-i-Islami, 5; Jan Sangh, 3; independents, 9. Since the 1967 elections the 6 representatives of Jammu and Kashmir in the central House of the People are directly elected. The Council of Ministers consists of 5 Ministers, 8 Ministers of State and 5 Deputy Ministers.

Kashmir Province has 4 districts and Jammu Province has 6 districts; the frontier district of Ladakh is in the former. Srinagar is the summer and Jammu the winter capital.

Governor: L. K. Jha.

Chief Minister: S. M. Qasim.

AREA AND POPULATION. The area is 222,236 sq. km, of which about 78,218 sq. km is occupied by Pakistan and 42,735 sq. km by China; the population of the territory on the Indian side of the line, 1971 census, was 4,615,176. For the population of Srinagar and Jammu, *see* p. 335. The official language is Urdu; other commonly spoken languages are Kashmiri, Dogri, Balti, Dardi, Ladakhi, Pahari, Punjabi and Bodhi.

RELIGION. The bulk of the population, except in Jammu, are Moslems. At the 1971 census Moslems numbered 3,040,129; Hindus, 1,404,292; Sikhs, 105,873; Buddhists, 57,956; Christians, 7,182; Jains, 1,150.

EDUCATION. The proportion of literates was 18.68% in 1972. Education is free. There are 7,378 schools and 64% of children in the 6-11 age-group attend.

¹ About 84,000 sq. km of Kashmir is occupied by Pakistan.

Jammu and Kashmir Universities (founded 1948) have 31 teaching departments and 40 affiliated colleges (1972). There is a medical college, an engineering college, 1 agricultural college, 2 polytechnics, 2 fine art colleges, 1 commercial college and an Ayurvedic college.

HEALTH. In 1973 there were 32 hospitals, 243 primary health units and centres, about 600 clinics and dispensaries, 79 family planning centres. There are 1,040 doctors. Expenditure on health *per capita* was Rs 14·75 in 1973.

JUSTICE. The High Court, at Srinagar and Jammu, has a Chief Justice and 4 puisne judges. Its status was assimilated to that of the high courts of other states in 1959.

FINANCE. Budget estimates for 1972–73 show total revenue of Rs 1,02,21·10 lakhs, and expenditure of Rs 1,07,52·07 lakhs. Receipts included: Contributions and adjustments between central and state governments, Rs 55,79·09 lakhs; taxes on income, Rs 3,44 lakhs; state excise, Rs 3,10 lakhs; forests, Rs 6,75 lakhs; debt services, Rs 4,45·97 lakhs. Expenditure included: Education, Rs 11,24·04 lakhs; public works and improvements, Rs 9,94·38 lakhs; irrigation, embankment, etc., Rs 1,30·58 lakhs; medical, and public health, Rs 5,90·1 lakhs; police, Rs 5,89·65 lakhs; agriculture, Rs 2,52·54 lakhs; general administration, Rs 1,75·84 lakhs; debt services, Rs 16,05·88 lakhs. The total area under crops (1968) was estimated at 858,731 hectares. Total foodgrains produced, 1971–72, 986,000 metric tons. The size of units has been limited to 12½ standard acres—the standard acre being determined by soil fertility, availability of irrigation, etc. Fruit is important; exports (1972–73), 160,000 metric tons.

Livestock (1966 census): Cattle, 1,791,000; buffaloes, 428,000; sheep, 1,152,000; goats, 605,000; horses, 66,000, and poultry, 1,535,000.

FORESTRY. Forests cover about one-eighth of the area of the state, forming an important source of revenue, besides providing employment to a large section of the population. About 7,480 sq. km of forests yield valuable timber. Most forests yield medicinal drugs.

INDUSTRIES. The chief industry is tourism, and after that sericulture, which dates back to the 16th century. It employs about 45,000 people. There are 25 main industrial units, 19 in the public sector. Of these, 18 are run by Jammu and Kashmir Minerals Ltd and Jammu and Kashmir Industries Ltd.

ROADS. Kashmir is linked with the rest of India by the motorable Jammu–Pathankot road. The Jawahir Tunnel, through the Banihal mountain, connects Srinagar and Jammu, and maintains road communication with the Kashmir Valley during the winter months. In 1971 there were 5,607 km of roads.

RAILWAYS. Kashmir was linked with the Indian railway system on 3 Dec. 1972 when the line between Jammu and Pathankot was opened.

AVIATION. Major airports, with daily service from Delhi, are at Srinagar and Jammu. Srinagar airport accommodates jet aircraft and is linked with international routes *via* Delhi and Kábul.

POST. There were 890 post offices in 1967. In 1968 there were 35 telephone exchanges and approximately 6,000 private telephones. There is direct dialling between Srinagar, Jammu and Delhi.

KARNATAKA

The state of Karnataka, constituted as Mysore under the States Reorganization Act, 1956, brought together the Kannada-speaking people distributed in 5 states, and consisted of the territories of the old states of Mysore and Coorg, the Bijapur, Kanara and Dharwar districts and the major portion of the Belgaum district in former Bombay, the major portions of the Gulbarga, Raichur and Bidar districts in former Hyderabad, and South Kanara district (apart from the Kasaragod taluk) and the Kollegal taluk of the Coimbatore district in Madras. The state was renamed Karnataka in 1973.

GOVERNMENT AND CONSTITUTION. Karnataka has a bicameral legislature. The Legislative Council has 63 members. The Legislative Assembly consists of 216 elected members and 1 nominated member. Seats after the election of March 1972: Congress, 165; Congress (O), 24; Communist Party of India, 3; Socialist, 3; independents, 14; others, 7.

The state has 19 districts (of which Coorg is one) in 4 divisions: Bangalore, Mysore, Belgaum and Gulbarga. The capital is Bangalore.

Governor: Dharma Veera.

Chief Minister: D. D. Urs.

AREA AND POPULATION. The area of the state is 191,757 sq. km, and its population (1971 census, provisional), 29,263,334, an increase of 24·07% since 1961. Kannada is the language of administration and is spoken by about 60% of the people. Other languages include Telugu (8·7%), Urdu (8·6%), Marathi (4·5%) and Tamil (3·6%). Principal cities, *see* p. 335.

RELIGION. At the 1961 census Hindus numbered 20,582,853; Moslems, 2,328,376; Christians, 487,587; Jains, 174,366; Buddhists, 9,770; Sikhs, 3,287.

EDUCATION. The proportion of literates to the total population, according to the 1971 census, was 31·54% (males, 66%; females, 33%). In 1970-71 the state had 21,651 lower primary schools attended by 1,379,854 pupils, 10,979 higher primary schools with 2,624,222 pupils, 2,002 high schools with 542,984 students and 229 schools for professional and technical education with 133,266 students. Education is free up to pre-university level.

The University of Mysore (founded in 1916) at Mysore has 3 university colleges at Mysore and 101 affiliated colleges; total enrolment, 1967-68, was 54,240. Karnatak University (1950) at Dharwar has 4 constituent colleges and 55 affiliated colleges. Bangalore University (1964) has 46 constituent colleges, the University of Agricultural Sciences, Hebbal, Bangalore, (1964) has 3 constituent colleges. The Indian Institute of Science, Bangalore, is unaffiliated; it conducts diploma courses in engineering, metallurgy and technology. There are also 3 research institutions, and 174 general education colleges, 18 of them for women. There are 13 medical colleges, 16 engineering, 16 commerce, 13 law and 5 Ayurvedic colleges among the total of 95 special colleges. There are 29 polytechnics.

JUSTICE. The seat of the High Court is at Bangalore. It has a Chief Justice and 16 puisne judges.

FINANCE. Budget estimates for 1971-72 showed total revenue of Rs 2,33,46·60 lakhs; expenditure, Rs 2,48,95·10 lakhs. Receipts included: Contributions and adjustments between central and state governments, Rs 35,62·23 lakhs; taxes on income, Rs 19,70·98 lakhs; state excise, Rs 19,00·00 lakhs; stamps, Rs 6,20

lakhs; forests, Rs 16,00·00 lakhs; sales tax, Rs 42,70·00 lakhs; vehicles taxes, Rs 8,30·00 lakhs; debt services, Rs 20,32·00 lakhs; land revenue, Rs 7,30·00 lakhs. Expenditure included: Education, Rs 52,73·25 lakhs; public works and improvements, Rs 16,74·26 lakhs; irrigation, embankment, electricity, Rs 19,88·30 lakhs; medical, and public health, Rs 15,88·22 lakhs; police, Rs 9,28·65 lakhs; agriculture, Rs 9,33·46 lakhs; general administration, Rs 5,25·00 lakhs; extraordinary, including community projects and local development, Rs 3,00·36 lakhs; industries, Rs 13,63·24 lakhs.

AGRICULTURE. Agriculture forms the main occupation of more than three-quarters of the population. Physically, Karnataka divides itself into four regions—the coastal region, the southern and northern 'maidan' or plain country, comprising roughly the districts of Bangalore, Tumkur, Chitaldrug, Kolar, Bellary, Mandya and Mysore, and the 'malnad' or hill country, comprising the districts of Chickmagalur, Hassan and Shimoga. Rainfall is heavy in the 'malnad' tracts, and in this area there is dense forest. The greater part of the 'maidan' country is cultivated. Coorg district is essentially agricultural.

In 1970-71, 7,186,645 hectares were under foodgrains (production, 5,962,348 metric tons); other crops included groundnuts (613,099 metric tons) and other oilseeds (695,211 metric tons), cotton (343,317 bales of 180 kg), chillies (33,430 metric tons), tobacco (20,871 metric tons), sugar-cane (8,482,773 metric tons) and rubber. In 1968-69, 1,099,425 hectares were brought under the Japanese method of paddy cultivation. There were, in 1970, 995,270 hectares under cotton, 1,179,049 hectares under oilseeds and 96,662 hectares under sugar-cane.

Livestock (1966 census): Buffaloes, 2,945,997; other cattle, 9,685,981; sheep, 4,747,964; goats, 2,783,682; horses and ponies, 64,874.

FORESTRY. Total forest area in the state (1971) is about 35,219 sq. km, producing sandalwood, bamboo and other timbers, and ivory.

IRRIGATION. About 3,084,522 hectares were irrigated in 1968-69.

MINING. Karnataka has India's only sources of gold; production, 1970, 3,241 kg, about 65% of which came from the Kolar Gold Fields and the remainder from those at Hutti; about 30,000 men are employed in the goldfields. Production of other minerals in 1968 included iron ore, 2,888,077 metric tons, and manganese ore, 362,092 metric tons. In 1970, 243 kg of silver were mined.

INDUSTRY. The Karnataka Iron and Steel Works is situated at Bhadravarti, while at Bangalore are national undertakings for the manufacture of aircraft, machine tools, light engineering and electronics goods. Other industries include textiles, cement, chemicals, sugar, paper, porcelain and soap. In addition, much of the world's sandalwood is processed, the oil being one of the most valuable productions of the state. Sericulture is a most important cottage industry giving employment, directly or indirectly, to perhaps 1m. persons; production in 1970-71 was about 1,824,000 kg of silk, nearly half the Indian total.

POWER. In 1970-71 the states' power stations generated 4,733m. kwh. of electricity.

ROADS. In 1970 the state had 64,207 km of roads, of which 38,828 km were asphalted. There were about 410 km of cement concrete roads.

RAIL. In 1970 there were 2,757 km of railway (including 154 km of narrow gauge) in the state.

SHIPPING. Mangalore and Karwar are being developed into deep-water ports for the export of mineral ores.

KERALA

The state of Kerala, created under the States Reorganization Act, 1956, consists of the previous state of Travancore-Cochin, except for 4 taluks of the Trivandrum district and a part of the Shencottah taluk of Quilon district. It took over the Malabar district (apart from the Laccadive and Minicoy Islands) and the Kasaragod taluk of South Kanara (apart from the Amindivi Islands) from Madras State.

CONSTITUTION. The state has a unicameral legislature of 134 members including the Speaker. The state of the parties in Oct. 1973 was: Congress (R), 35; Communist Party of India, 16; Muslim League, 11; other Congress supporters, 16; Socialist parties, 19; Marxist Front parties, 32.

The state has 11 districts. The capital is Trivandrum.

Governor: N. N. Wanchoo.

Chief Minister: C. A. Menon.

AREA AND POPULATION. The state has an area of 38,855 sq. km. The 1971 census showed a population of 21,347,375; density of population was 549 per sq. km (highest of any state). Population of principal cities, *see* p. 335.

Languages spoken in the state are Malayalam, Tamil and Kannada.

The physical features of the land fall into three well-marked divisions: (1) the hilly tracts undulating from the Western Ghats in the east and marked by long spurs, extensive ravines and dense forests; (2) the cultivated plains intersected by numerous rivers and streams; and (3) the coastal belt with dense coconut plantations and rice fields.

RELIGION. At the 1971 census Hindus numbered 12,683,277; Christians, 4,494,089; Moslems, 4,162,718; Jains, 3,336.

EDUCATION. Kerala is the most literate Indian State—60% at the 1971 census. Education is free up to the age of 14.

In 1972-73 there was a total school enrolment of 5,156,275 students; expenditure was Rs 60.64 crores. There were 9,437 primary schools, 1,399 high schools and 104 basic training schools.

Kerala University (established 1937) at Trivandrum, is affiliating and teaching; in 1969 it had 55 affiliated arts and science colleges and 25 affiliated professional colleges; total enrolment, 1969-70, 114,182 full-time students. In 1972-73 there were 119 arts and science colleges with 159,216 students.

JUSTICE. The High Court at Ernakulam has a Chief Justice and 9 puisne judges and 4 additional judges.

FINANCE. Budget estimates for 1973-74 showed total revenue of Rs 2,10,91.51 lakhs, and expenditure of Rs 2,45,42.40 lakhs. Receipts included: Contributions and adjustments between central and state governments, Rs 67.69.69 lakhs; taxes on income except corporation tax, Rs 22,77.75 lakhs; state excise, Rs 9.30 lakhs; stamps, Rs 6.12 lakhs; sales tax, Rs 50.11 lakhs; vehicles taxes, Rs 8.03 lakhs; debt services, Rs 8.73.98 lakhs; land revenue, Rs 2,80.14 lakhs. Expenditure included: Education, Rs 84,30.35 lakhs; public works and improvements, Rs 11,40.68 lakhs; irrigation, embankment, etc., Rs 5,14.57 lakhs; medical, and public health, Rs 24,57.09 lakhs; police, Rs 12,28.60 lakhs; general administration, Rs 5,26.78 lakhs; industries, Rs 2,17.55 lakhs. Annual Plan expenditure, 1971-72, Rs 60 crores.

AGRICULTURE. The chief agricultural products of the state are rice, tapioca, coconut, arecanut, oilseeds, pepper, sugar-cane, rubber, tea, coffee and cardamom. About 98% of Indian black pepper and about 95% of Indian rubber is produced in Kerala. Area and production of principal crops, 1971-72 (1,000 hectares and 1,000 metric tons): Rice, 875, 1,352; black pepper, 117.6, 25; ginger (dry), 11.9, 23.3; arecanut 86.7, 12.832 (million nuts); bananas and other

plantains, 47.9, 362; cashewnuts, 100.7, 113; tapioca, 303.2, 542.9; coconuts, 730, 4 (million nuts); tea, 37.1, 43; coffee, 31.6, 13.6; rubber (1969), 168.5, 66.4.

Livestock (1972, provisional): Buffaloes, 469,515; other cattle, 2,855,856; sheep, 10,390; goats, 1,450,587.

FORESTRY. About a third of the area is comprised of forests, including teak, sandalwood, ebony and black-wood and varieties of softwood. Forest revenue, 1972-73, Rs 11 crores, from timber, bamboos, reeds and ivory.

FISHING. Fishing is a flourishing industry; the annual catch is about 379,000 metric tons.

MINING. Next to Bihar, Kerala possesses the widest variety of economic mineral resources among the Indian States. The beach sands of Kerala contain monazite, ilmenite, rutile, zircon, sillimanite, etc. There are extensive white-clay deposits; other minerals of commercial importance include mica, graphite, limestone, quartz sand and lignite.

INDUSTRIES. Most of the major industrial concerns are either owned or sponsored by the Government. The Government owns 8 industrial concerns and has substantial shares in more than 40. Among the privately owned factories are the numerous cashew and coir factories. Other important factory industries are rubber, tea, tiles, oil, textiles, ceramics, fertilizers and chemicals, sugar, cement, rayon, glass, matches, pencils, monazite, ilmenite, titanium oxide, rare earths, aluminium, electrical goods, paper, shark-liver oil, etc.

The number of factories registered under the Factories Act 1948 on 31 Dec. 1970 was 3,040, with daily average employment of 205,174.

Among the cottage industries, coir-spinning and handloom-weaving are the most important ones, forming the means of livelihood of a large section of the people. Other industries are the village oil industry, ivory carving, furniture-making, bell metal, brass and copper ware, leather goods, screw-pines, mat-making, rattan work, bee-keeping, pottery, etc. These have been organized on a co-operative basis.

POWER. Installed capacity (1972), 546,500 kw.; energy generated in 1971-72 was 2,292.55m. kw., mainly by the Sabaragiri, the Sengulam, the Neriamaugalam, the Poringalkuthu and the Pallivasal hydro-electric schemes.

SHIPPING. Port Cochin, administered by the central government, is one of India's 6 major ports. There are 10 other ports and harbours.

ROADS. In 1970 there were 14,735 km of roads in the state; national highways, 448 km; state highways, 2,144 km; major district roads, 5,143 km. Total for 1973, 18,432 km, of which 15,123 was surfaced.

MADHYA PRADESH

Under the provisions of the States Reorganization Act, 1956, the State of Madhya Pradesh was formed on 1 Nov. 1956. It consists of the 17 Hindi districts of the previous state of that name, the former state of Madhya Bharat (except the Sunel enclave of Mandsaur district), the former states of Bhopal and Vindhya Pradesh and the Sironj subdivision of Kotah district, which was an enclave of Rajasthan in Madhya Pradesh.

For information on the former states, see *THE STATESMAN'S YEAR-BOOK*, 1958, pp. 180-84.

GOVERNMENT AND CONSTITUTION. Madhya Pradesh is one of the 9 states for which the Constitution provides a bicameral legislature, but the Vidhan Parishad or Upper House (to consist of 90 members) has yet to be formed. The Vidhan Sabha or Lower House has 296 elected members. The state of the parties after the election of March 1972, was: Congress, 220; Jan Sangh, 48; Socialist, 7; Communist, 3; independents, 18.

For administrative purposes the state has been split into 7 divisions with a Commissioner at the head of each; the headquarters of these are located at Bhopal, Bilaspur, Gwalior, Indore, Jabalpur, Raipur and Rewa. There are 43 districts, each under a Collector, 190 tehsils and 160 municipalities.

The seat of government is at Bhopal.

Governor: K. C. Reddy.

Chief Minister: P. C. Sethi.

AREA AND POPULATION. Madhya Pradesh is the largest Indian state in size, with an area of 443,452 sq. km. In respect of population it ranks seventh. Population (1971 census), 41,449,729, an increase of 28.04% since 1961.

Cities with over 100,000 population, *see* p. 335.

The number of persons speaking each of the more prevalent languages (1961 census) were: Hindi, 19,965,972; Urdu, 365,969; Marathi, 582,821; Rajasthani, 896,644; Gujrati, 114,000; Sindhi, 128,041.

RELIGION. At the 1961 census Hindus numbered 30,425,798; Sikhs, 65,715; Moslems, 1,317,617; Jains, 247,927; Buddhists, 113,365; Christians, 188,314.

EDUCATION. The 1971 census showed 22.03% of the population to be literate. Education is free for children aged up to 14.

In 1969-70 there were 442 higher educational institutions. Primary schools (1964) had 2.3m. pupils and higher secondary schools, 415,000 pupils.

There are 8 universities in Madhya Pradesh: the University of Sagar (established 1946), at Sagar, had 46 affiliated colleges and 23,381 students in 1970; Jabalpur University (1957) had 16 affiliated colleges and 16,109 students; Vikram University (1957), at Ujjain, had 18 affiliated colleges and 84,848 students; Indira Kala Sangeet Vishwavidyalaya (1956), at Khairagarh, had 16 affiliated colleges and 1,872 students on roll (this university teaches music and fine arts); Indore University (1964) had 23 affiliated colleges and 19,736 students; Jivagi University (1963), at Gwalior, had 30 affiliated colleges and (1964) 16,200 students; Jawaharlal Nehru Krishi University (1964), at Jabalpur, had 8 affiliated colleges and 2,280 students in 1964; Ravishankar University (1964), at Raipur, had 38 affiliated colleges and 21,444 students. In 1969-70 there were 145 degree-granting colleges, in 1966 there were 120 teacher-training colleges, 25 professional colleges and 23 polytechnics.

JUSTICE. The High Court of Judicature at Jabalpur has a Chief Justice and 15 puisne judges.

FINANCE. Budget estimates for 1968-69 showed total revenue of Rs 1,74,27.70 lakhs, and expenditure of Rs 1,79,94.62 lakhs. Receipts included: Contributions and adjustments between central and state governments, Rs 41,49.91 lakhs; taxes on income, Rs 9,62.99 lakhs; state excise, Rs 14.70 lakhs; stamps, Rs 3,92.70 lakhs; forests, Rs 22,71.01 lakhs; sales tax, Rs 33.07 lakhs; vehicles taxes, Rs 3,41.15 lakhs; debt services, Rs 12,06.51 lakhs; civil administration, Rs 8,46.46 lakhs; land revenue, Rs 8,95.33 lakhs. Expenditure included: Education, Rs 44,13.69 lakhs; public works and improvements, Rs 12,38.49 lakhs; irrigation, embankment, etc., Rs 2,05.59 lakhs; medical, and public health; Rs 16,40.15 lakhs; police, Rs 12,47.70 lakhs; agriculture, Rs 10,83.81 lakhs; general administration, Rs 5,93.26 lakhs; debt services, Rs 29,20.47 lakhs, extraordinary, including community projects and local development, Rs 4,48.56 lakhs; industries, Rs 1,45.30 lakhs.

AGRICULTURE. Agriculture is the mainstay of the state's economy. The Malwa region abounds in rich black cotton soil, the low-lying areas of Gwalior, Bundelkhand and Baghelkhand and the Chhatisgarh plains have a lighter sandy soil, while the Narmada valley is formed of deep rich alluvial deposits. Production of principal crops, 1968-69 (metric tons): Rice, 2,898,153; jowar, 1,578,904; wheat, 1,964,501; groundnuts, 230,479; linseed, 103,919; sugar-cane (gur), 142,696; and cotton, 339,962 bales (of 180 kg). In 1968-69, 18,074,426 hectares were sown, of which 16,600,924 were under food crops, and 1,316,509 were irrigated. Total foodgrain production (1968-69), 9.46m. metric tons.

Livestock (1965 census): Buffaloes, 5,549,000; other cattle, 22,586,067; sheep, 906,029; goats, 4,614,756; horses and ponies, 145,921.

FORESTRY. Nearly 30% of the state's area is covered by forests. The forests are chiefly of saj, babul, salai, dhavra, tendu, mahua, bamboo, teak, sal, anjan and harra. They are the chief source in India of best-quality teak.

IRRIGATION. Major irrigation projects include the Chambal Valley scheme (started in 1952 with Rajasthan) which irrigates some 700,000 acres, and the Tawa project in Hoshangabad district (1958) which will irrigate 750,000 acres. Other schemes in operation include Chhilar (13,000 acres), the Mahanadi canal system (140,000) and Bilanadi (32,000).

MINING. The state has extensive mineral deposits. Coal, iron ore and manganese are found in the Chhatisgarh Division, bauxite has been located in Amarkantak, Balaghat, Seoni and elsewhere, while in the Sidhi, Rewa, Panna, Chhatarpur and Tikamgarh Districts, coal, ochre and sillimanite are exploited. In 1969 the output of major minerals was (in metric tons): Coal, 12.41m.; manganese, 184,000; iron ore, 6.41m.; bauxite, 178,000; china clay, 10,141; limestone, 3,987,000; ochre, 9,525; dolomite, 474,000; fireclay, 69,432; quartz and silica, 42,699; corundum, 239; diamonds, 11,794 carats.

INDUSTRY. Industries include textiles (30 mills (1969), employment, 48,207); newsprint (India's only plant in the public sector, with a capacity of 30,000 tons, is located at Nepanagar; in the private sector, Orient Paper Mills at Amlai, Shahdo District, started production in 1966); sugar refining, pottery, carpets, art-silk, rayon, jute, glass and engineering goods. The country's largest cement works is at Kymore, near Katni; this and three others have a total licensed capacity of 1,644,000 tons per year.

The Bhilai steel plant near Durg is one of the 3 major steel mills being built by the central government; production, 1965, included 1.49m. metric tons of pig-iron and 1.27m. metric tons of steel ingots. A new power station at Korba (Bilaspur) with a capacity of 90,000 kw. serves both Bhilai and the Korba coal-field.

The heavy electricals factory was set up by the Government of India at Bhopal during the second-plan period. This is India's first heavy electrical equipment factory and also one of the largest of its type in Asia. This factory took up for the first time in the country the manufacture of a variety of highly complicated equipment required for generation, transmission, distribution and utilization of electric power.

COTTAGE INDUSTRIES. The state is known for its traditional village and home crafts such as Chanderi Saree, toys, pottery, lac work, woodwork and metal utensils. The ancillary industries of dyeing, calico printing and bleaching are centred in areas of textile production.

ROADS. Total length of roads in 1966 was 54,347 km, of which 45,118 km were surfaced. Transport is being gradually nationalized.

MAHARASHTRA

Under the States Reorganization Act, 1956, Bombay State was formed by merging the states of Kutch and Saurashtra and the Marathi-speaking areas of Hyderabad (commonly known as Marathwada) and Madhya Pradesh (also called Vidarbha) in the old state of Bombay, after the transfer from that state of the Kannada-speaking areas of the Belgaum, Bijapur, Kanara and Dharwar districts which were added to the state of Mysore, and the Abu Road taluka of Banaskantha district, which went to the state of Rajasthan.

By the Bombay Reorganization Act, 1960, which came into force 1 May 1960, 17 districts (predominantly Gujarati-speaking) in the north and west of Bombay State became the new state of Gujarat, and the remainder was renamed Maharashtra.

The state of Maharashtra consists of the following districts of the former Bombay State: Ahmednagar, Akola, Amravati, Aurangabad, Bhandara, Bhir, Buldana, Chanda, Dhulia (West Khandesh), Greater Bombay, Jalgaon (East Khandesh), Kolaba, Kolhapur, Nagpur, Nanded, Nasik, Osmanabad, Parbhani, Poona, Ratnagiri, Sangli, Satara, Sholapur, Thana, Wardha, Yeotmal; certain portions of Thana and Dhulia districts have become part of Gujarat.

GOVERNMENT AND CONSTITUTION. Maharashtra has a bicameral legislature. The Legislative Council has 78 members. The Legislative Assembly has 270 elected members and 1 member nominated by the Governor to represent the Anglo-Indian community. The state of the parties in the Legislative Assembly after the election of March 1972, was: Congress, 222; Peasants and Workers, 7; Jan Sangh, 5; Republican, 2; independents, 25; Socialist, 3; others, 6. The Council of Ministers consists of the Chief Minister, 14 other Ministers, 10 Ministers of State and 5 Deputy Ministers.

The capital is Bombay.

Governor: Ali Yawar Jung.

Chief Minister: V. P. Naik.

AREA AND POPULATION. The state has an area of 307,762 sq. km. The population at the 1971 census was 50,412,235 (an increase of 27.45% since 1961), of whom about 30m. were Marathi-speaking. The area of Greater Bombay was 603 sq. km. and its population 5,970,575. For other principal cities, *see* p. 335.

RELIGION. At the 1961 census Hindus numbered 32,530,901; Moslems, 3,034,332; Buddhists, 2,789,501; Christians, 560,594; Jains, 485,672; Sikhs, 57,617.

EDUCATION. The proportion of literates to the total population, according to the 1971 census, was 39.08% (males, 51.3%; females, 25.9%).

The total number of recognized institutions in 1970-71 was 52,939, with 8,654,261 students. Higher and secondary schools numbered 6,295 with 2,326,236 pupils, and primary schools, 45,143, with 6,229,092 pupils.

MANIPUR

Formerly a state under the political control of the Government of India, Manipur, on 15 Aug. 1947, entered into interim arrangements with the Indian Union and the political agency was abolished. The administration was taken over by the Government of India on 15 Oct. 1949 under a merger agreement, and it is centrally administered by the Government of India through a Chief Commissioner. In 1950–51 an Advisory form of Government was introduced. In 1957 this was replaced by a Territorial Council of 33 elected and 2 nominated members. Later in 1963 a Legislative Assembly of 30 elected and 3 nominated members was established under the Government of Union Territories Act 1963. Because of the unstable party position in the Assembly, it had to be dissolved on 16 Oct. 1969 and President's Rule introduced. The status of the administrator was raised from Chief Commissioner to Lieut.-Governor with effect from 19 Dec. 1969. On the 21 Jan. 1972 Manipur became a state and the status of the administrator was changed from Lieut.-Governor to Governor.

GOVERNMENT AND CONSTITUTION. With the attainment of statehood, Manipur has a Legislative Assembly of 60 members, of which 19 are from reserved tribal constituencies. The state was brought under Presidential rule on 28 March 1973. There are 5 districts. Capital, Imphal (population, 1961, 67,717).

Governor: B. K. Nehru.

Chief Minister: M. Alimuddin.

AREA AND POPULATION. Manipur has an area of 22,346 sq. km and a population (1971) of 1,069,555. Density, 48 per sq. km. The valley, which is about 1,813 sq. km, is 2,600 ft above sea-level. The hills rise in places to nearly 10,000 ft, but are mostly about 5,000–6,000 ft. The average annual rainfall is 65 in. The hill areas are inhabited by various hill tribes who constitute about one-third of the total population of the state. There are about 40 tribes and sub-tribes falling into two main groups of Nagas and Kuks. A large number of dialects are spoken, while Hindi is gradually becoming prevalent.

EDUCATION. In 1971 there were 2,508 primary schools, 485 middle schools, 123 high schools and 13 colleges. The number enrolled at the schools (1970) was 230,000.

HEALTH. In 1970–71 there were 26 hospitals (including primary health centres) and 98 dispensaries (including primary health centres).

FINANCE. Revised estimates for 1969–70 show revenue of Rs 1,89·06 lakhs and expenditure on revenue account of Rs 14,41·73 lakhs. Main sources of revenue were land revenue, Rs 35·00 lakhs; sales tax, Rs 26·00 lakhs; electricity, Rs 13·12 lakhs; agriculture, Rs 8·54 lakhs; transport, Rs 55·00 lakhs. Main item of expenditure was education, Rs 3,77·00 lakhs. Total income, 1970–71; Rs 53·79 crores. *Per capita* income, Rs 476·00.

PRODUCTION. Rice is the principal crop; production, 1970–71, 164,000 metric tons from 138,000 hectares. Handloom weaving is a popular industry. Many development schemes are in progress under the 5-year plans.

COMMUNICATIONS. Imphal has air links with Silchar, Agartala, Gauhati and Calcutta.

MEGHALAYA

The state was created under the Assam Reorganization (Meghalaya) Act 1969 and inaugurated on 2 April 1970. Its status was that of a state within the State of Assam until 21 Jan. 1972 when it became a fully independent State of the Union. It consists of the former Garo Hills district and United Khasi and Jaintia Hills district of Assam.

GOVERNMENT AND CONSTITUTION. Meghalaya has a unicameral legislature. The Legislative Assembly has 60 seats. State of the parties following elections in March 1972: All-Party Hill Leaders' Conference, 32; Congress, 9; independents, 19.

There are 2 districts. The capital is Shillong, shared at present with Assam.

Governor: B. K. Nehru.

Chief Minister: Capt. W. Sangma.

AREA AND POPULATION. In 1971 (census figure) the area was 22,445 sq. km and the population 983,336. Density 44 per sq. km. The people are mainly of the Khasi, Jaintia and Garo tribes.

JUSTICE. There is a High Court at Shillong which is common to Assam, Meghalaya, Nagaland, Manipur, Tripura and the Union Territories of Mizoram and Arunachal Pradesh.

FINANCE. The outlay on the 1971-72 annual plan was Rs 7.95 crores, with Rs 7.44 crores provided by central assistance. Allocations were: Agriculture, Rs 131 lakhs; transport and communications, Rs 337 lakhs; social services, Rs 161.5 lakhs; irrigation and power, Rs 43 lakhs; industry and mining, Rs 42.5 lakhs; co-operation and community development, Rs 40 lakhs.

AGRICULTURE. Principal crops are potato, fresh fruit and cotton. Forest products are the state's chief resources.

MINERALS. The United Khasi and Jaintia Hills district produces coal, sillimanite (95% of India's total output), limestone, white clay and corundum. The state also has deposits of coal, limestone, fireclay and sandstone which are virtually untapped because of transport difficulties.

NAGALAND

The territory was constituted by the Union Government in Sept. 1962. It comprises the former Naga Hills district of Assam and the former Tuensang Frontier division of the North-East Frontier Agency; these had been made a Centrally Administered Area in 1957, administered by the President through the Governor of Assam. In Jan. 1961 the area was renamed and given the status of a state of the Indian Union, which was officially inaugurated on 1 Dec. 1963.

For some years a section of the Naga leaders sought independence. Military operations from 1960 and the prospect of self-government within the Indian Union led to a general reconciliation, but rebel activity continued. A 2-month amnesty in mid-1963 had little effect. A 'ceasefire' in Sept. 1964 was followed by talks between a Government of India delegation and rebel leaders, which, however, had proved inconclusive by March 1965. The peace period was extended and the 'Revolutionary Government of Nagaland' was dissolved in 1973.

GOVERNMENT AND CONSTITUTION. An Interim Body (Legislative Assembly) of 42 members elected by the Naga people and an Executive Council (Council of Ministers) of 5 members were formed in 1961, and continued until the State Assembly was elected in Jan. 1964. At the second general election, Feb. 1969, a 52-member Assembly was elected, including 12 Tuensang members elected by the Tuensang Regional Council. The Nagaland Cabinet comprises the Chief Minister, 5 Cabinet Ministers and 2 Deputy Ministers. The Governor has extraordinary powers, which include special responsibility for law and order.

The state has 3 districts (Kohima, Mokokchung and Tuensang). The capital is Kohima.

Governor: L. P. Singh.

Chief Minister: Hokushe Sema.

AREA AND POPULATION. Nagaland has an area of 16,527 sq. km and a population (1971 census) of 516,449. Density 31 per sq. km. Towns include Kohima, Mokokchung, Tuensang and Dimapur. The chief tribes in numerical order are: Angami, Ao, Sema, Konyak, Chakhesang, Lotha, Phom, Khiemnungang, Chang, Yimchunger, Zeliang, Kuki, Rengma and Sangtam.

RELIGION. At the 1971 census Christians numbered 344,798; Hindus, 59,031; Islam, 2,966; others, 108. The Naga Baptist Christian Convention had, 1969, 632 churches and a total church membership of 73,500.

EDUCATION. The 1971 census records 27.4% literacy. In 1973 there were 2 government and 2 private colleges, 38 government and 24 private high schools, 143 government and 57 private middle schools and 898 lower primary schools, 1 polytechnic, 3 teacher-training schools and 151 adult literary centres. The number of teachers (1972) totalled 4,912. Number of pupils (1972) 112,118.

FINANCE. Budget estimates for 1972-73 show total revenue of Rs 34,76.25 lakhs and expenditure of Rs 38,11.40 lakhs. Receipts included: Statutory grant under the Finance Commission award, Rs 14.69 lakhs; share of central taxes and duties, Rs 7,46.00 lakhs; grants-in-aid for plan expenditure, Rs 6,83.10 lakhs; loans from the Government of India, Rs 3,25.00 lakhs; grant for roads, Rs 3,47.81 lakhs.

AGRICULTURE. More than 80% of the people derive their livelihood from agriculture. The Angamis, in Kohima district, practise a fixed agriculture in the shape of terraced slopes, and wet paddy cultivation in the lowlands. In the other two districts there is a traditional form of shifting cultivation (*jhumming*). About 1,101,600 hectares were under cultivation in 1972. Production of rice (1973) was 79,890 metric tons.

ORISSA

Orissa, ceded to the Mahrattas by Alivardi Khan in 1751, was conquered by the British in 1803. In 1804 a board of 2 commissioners was appointed to administer the province, but in the following year it was designated the district of Cuttack and was placed in charge of a collector, judge and magistrate. In 1823 it was split up into 3 regulation districts of Cuttack, Balasore and Puri, and the non-

regulation tributary states which were administered by their own chiefs under the ægis of the British Government. Angul, one of these tributary states, was annexed in 1847, and with the Khondmals, ceded in 1835 by the tributary chief of the Boudh state, constituted a separate non-regulation district. Sambalpur was transferred from the Central Provinces to Orissa in 1905. These districts formed an outlying tract of the Bengal Presidency till 1912, when they were transferred to Bihar, constituting one of its divisions under a commissioner. Orissa was constituted a separate province on 1 April 1936, some portions of the Central Provinces and Madras being transferred to the old Orissa division.

The rulers of 25 Orissa states surrendered all jurisdiction and authority to the Government of India on 1 Jan. 1948, on which date the Provincial Government took over the administration. The administration of 2 states, viz., Saraikella and Kharswan, was transferred to the Government of Bihar in May 1948. By an agreement with the Dominion Government, Mayurbhanj State was finally merged with the province on 1 Jan. 1949. By the States Merger (Governors' Provinces) Order, 1949, the states were completely merged with the state of Orissa on 19 Aug. 1949.

GOVERNMENT AND CONSTITUTION. The Legislative Assembly has 140 elected members. Presidential rule was imposed on 1 March 1973.

The state consists of 17 districts, of which 4 are linked with other districts for administrative purposes.

The capital is Bhubaneswar (18 miles south of Cuttack).

Governor: J. Singh.

Chief Minister: Mrs N. Satpathy.

AREA AND POPULATION. The area of the state is 155,825 sq. km. and its population (1971 census), 21,934,827, density 141 per sq. km. The second-largest city next to Cuttack (*see* p. 335) is Rourkela, with 90,287 inhabitants. The principal language is Oriya.

RELIGION. There were in 1961: Hindus (including scheduled castes and scheduled tribes), 17,123,194; Moslems, 215,319; Christians, 201,017; Buddhists, 454; Sikhs, 5,030; Jains, 2,295.

EDUCATION. The percentage of literates in the population is 21·7% (males, 34·7%, females, 8·6%).

The total number of recognized schools in 1961–62 was 24,960. The schools for general education included 2,060 secondary schools with 232,364 pupils and 22,856 primary schools with 1,476,000 pupils. The special schools for the students from scheduled tribes numbered 1,266 with a total of 60,000 students in 1961–62. In 1970 there were 24,000 primary schools and 900 secondary.

Utkal University was established in 1943 at Cuttack and moved to Bhubaneswar in 1962; it is both teaching and affiliating. It has 2 university colleges (engineering and law) and 43 affiliated colleges. The total number of full-time students (1962–63) was 17,907. Berhampur University has 15 affiliated colleges and Orissa University of Agriculture 4 constituent colleges.

JUSTICE. The High Court of Judicature at Cuttack has a Chief Justice and 3 puisne judges.

FINANCE. Budget estimates, 1968–69 showed total revenue of Rs 1,23,07·84 lakhs and expenditure of Rs 1,22,18·90 lakhs. Receipts included: Contributions and adjustments between central and state governments, Rs 50,22·46 lakhs; taxes on income, Rs 5,12·66 lakhs; state excise, Rs 3,20·73 lakhs; forests, Rs 5,76 lakhs; sales tax, Rs 13,80 lakhs; vehicles taxes, Rs 2,28·19 lakhs; debt services, Rs 16,10·55 lakhs; civil administration, Rs 6,11·80 lakhs; income from river, irri-

SHIPPING. Paradip was declared a 'minor' port in 1958 and is being developed to handle 2m. tons of traffic. Other ports are at Chandbali and Gopalpur.

PUNJAB (INDIA)

The Punjab was constituted an autonomous province of India in 1937. In 1947, the province was partitioned between India and Pakistan into East and West Punjab respectively, under the Indian Independence Act, 1947, the boundaries being determined under the Radcliffe Award. The name of East Punjab was changed to Punjab (India) under the Constitution of India. On 1 Nov. 1956 the erstwhile states of Punjab and Patiala and East Punjab States Union (PEPSU) were integrated to form the state of Punjab. On 1 Nov. 1966, under the Punjab Reorganization Act, 1966, the state was reconstituted as a Punjabi-speaking state comprising the districts of Gurdaspur (excluding Dalhousie), Amritsar, Kapurthala, Jullundur, Ferozepore, Bhatinda, Patiala and Ludhiana; parts of Sangrur, Hoshiarpur and Ambala districts; and part of Kharar tehsil. The remaining area comprising an area of 18,000 sq. miles and an estimated (1967) population of 8.5m. was shared between the new state of Haryana and the Union Territory of Himachal Pradesh. The existing capital of Chandigarh was made the joint capital of Punjab and Haryana. The state shares a High Court with Haryana.

GOVERNMENT AND CONSTITUTION. Punjab (India) has a unicameral legislature. The Legislative Council was abolished in Jan. 1970. The state of the parties in the Legislative Assembly of 104 members, Dec. 1972, was: Congress, 68; Akali Dal, 25; Communist Party of India, 10; Communist Party of India (Marxist), 1.

There are 12 districts. The capital is Chandigarh (*see* pp. 390–91). There are 104 municipalities and 7,827 elected village *panchayats*.

Governor: M. M. Chaudhury.

Chief Minister: G. Z. Singh.

AREA AND POPULATION. The area of the state is 50,376 sq. km, with census (1971) population of 13,551,060. Density 269 per sq. km. The largest cities, *see* p. 335. The official language is Punjabi.

Total foodgrain production, 5,625 (5,740). In 1970 the cultivable area *per capita* was 0.12 hectare. Principle food crop was rice, production 6.65m. metric tons.

Livestock (1961 census): 11,464,812 cattle, 948,450 buffaloes, 548,210 sheep, 4,474,028 goats, 24,882 horses and 11,674,758 poultry; tractors numbered 328.

IRRIGATION AND POWER. Important major irrigation and power schemes at present under construction are the Damodar Valley scheme; the Kansabati project; and the Mayurakshi River project. The Canada Dam on the Mayurakshi was opened on 1 Nov. 1955 and the reservoir irrigates 560,000 acres. Some 3.5m. acres are irrigated altogether.

INDUSTRY. The jute textile industry in West Bengal employs nearly 297,000 workers. The total number of registered factories, 1968, was 5,714. The coal-mining industry had 220 mines employing 111,000 workers. There are about 297 tea estates which employ about 183,000 workers.

There is a large automobile factory at Uttarpara, and there are aluminium rolling-mills at Belur and Asansol. At Durgapur a major steel plant was completed in 1962. Durgapur has other industries under the state sector—a thermal power plant, coke oven plant, fertilizer factory, alloy steel plant and ophthalmic glass plant. There are a locomotive factory and cable factory at Chittaranjan and Rupnarayanpur. A refinery and fertilizer factory are under construction at Haldia.

ROADS. In March 1971 the length of national highway was 1,200 km and of other motorable roads 12,480 km. On 31 March 1969 the state had 154,623 motor vehicles.

SHIPPING. Calcutta is the chief port: a barrage is being built at Farakka to control the flow of water and to provide a rail and road link between North and South Bengal. A second port is being developed at Haldia, halfway between the present port and the sea, which is intended mainly for bulk cargoes. West Bengal possesses 779 km of navigable canals.

RAIL. The length of railways within the state is 2,908 km.

UNION TERRITORIES

ANDAMAN AND NICOBAR ISLANDS. The Andaman and Nicobar Islands are administered by the President of the Republic of India acting through a Chief Commissioner and an Advisory Council of 8 members. The seat of administration is at Port Blair, which is connected with Calcutta (1,255 km away) and Madras (1,190 km) by steamer service which calls about every 10 days; there is a bi-weekly air service from Calcutta. There is an Additional Deputy Commissioner at Car Nicobar and an Assistant Commissioner at Nancowrie.

The population (1971 census) was 115,090 (provisional).

Revised estimates for 1972–73 show total revenue receipts of Rs 3,32.56 lakhs, and total expenditure on revenue account of Rs 13,43.39 lakhs, and total capital expenditure of Rs 5,40.00 lakhs.

Administrator: Shri Harmander Singh.

The Andaman Islands lie in the Bay of Bengal, 193 km from Cape Negrais in Burma, 1,255 from Calcutta and 1,190 from Madras. Five large islands grouped together are called the Great Andamans, and to the south is the island of Little Andaman. There are some 204 islets, the two principal groups being the Ritchie Archipelago and the Labyrinth Islands. The total area is about 6,475 sq km. The Great Andaman group is about 467 km long and, at the widest, 51 km broad.

The original inhabitants live in the forests by hunting and fishing; they are of a small Negrito type and their civilization is about that of the Stone Age. Their exact numbers are not known, as they avoid all contact with civilization. The total population of the Andaman Islands (excluding the aborigines) was in 1951, 18,962 (12,734 males and 6,228 females). Under a central government scheme started in 1953, some 4,000 displaced families, mostly from East Pakistan, had been settled in the islands by May 1967.

Japanese forces occupied the Andaman Islands on 23 March 1942. Civil administration of the islands was resumed on 8 Oct. 1945.

From 1857 to March 1942 the islands were used by the Government of India as a penal settlement for life and long-term convicts, but the penal settlement was abolished on re-occupation in Oct. 1945.

The Great Andaman group, densely wooded, contains many valuable trees, both hardwood and softwood. The best known of the hardwoods is the *padauk* or Andaman redwood; *gurjan* is in great demand for the manufacture of plywood. Large quantities of softwood are supplied to match factories. Annually the Forest Department export about 25,000 tons of timber to the mainland. Coconut, coffee and rubber are cultivated. The islands are slowly being made self-sufficient in paddy and rice, and now grow approximately half their annual requirements. The average yield of rice in 1966-67 was 1.24 metric tons per hectare. Total livestock (1961 census) was 38,617. There is a saw-mill at Port Blair and a coconut-oil mill at Dunbar Point. There are about 338 km of black top road in the entire territory.

The islands possess a number of harbours and safe anchorages, notably Port Blair in the south, Port Cornwallis in the north and Elphinstone and Mayabandar in the middle.

The **Nicobar Islands** are situated to the south of the Andamans, 121 km from Little Andaman. The British formally took possession in 1869. There are 19 islands, 7 uninhabited; total area, 1,645 sq. km. The islands are usually divided into 3 sub-groups (southern, central and northern), the chief islands in each being respectively, Great Nicobar, Camotra with Nancowrie and Car Nicobar. There is a fine land-locked harbour between the islands of Camotra and Nancowrie, known as Nancowrie Harbour.

The population numbered, in 1961, 14,563. The coconut and arecanut are the main items of trade, and coconuts are a major item in the people's diet.

The Nicobar Islands were occupied by the Japanese in July 1942; and Car Nicobar was developed as a big supply base. The Japanese built some roads in Car Nicobar and small jetties at Malacca in Car Nicobar, and in the harbour at Nancowrie. The Allies reoccupied the islands on 9 Oct. 1945.

ARUNACHAL PRADESH. On 21 Jan. 1972 the former North East Frontier Agency of Assam was created a Union Territory. The territory includes the Kameng, Tirap, Subansiri, Siang and Lohit frontier divisions and has an area of 81,426 sq. km and a population (1971 census) of 444,744.

There are 5 districts. The centre of administration is at Shillong.

Administrator: B. K. Nehru.

About 60% of the land area is forest. In 1970 there were 200,000 acres under cultivation, 32,600 acres of it irrigated. Food production was 70,500 tons. There were about 100 co-operatives.

CHANDIGARH. On 1 Nov. 1966 the city of Chandigarh and a 26-sq.-km area surrounding it was constituted a Union Territory. Population (1967), 89,000. It serves as the joint capital of both Punjab (India) and the new state of Haryana, and is the seat of a High Court and of a university serving both states. The city will ultimately be the capital of just the Punjab; joint status is to last

for not more than 5 years from 1970 while a new capital is built for Haryana.

DADRA AND NAGAR HAVELI. By the 10th amendment to the constitution the Portuguese territories of Dadra and Nagar Haveli (area, 489 sq. km; population (1971), 74,170; density, 152 per sq. km) became a centrally administered Union Territory with effect from 11 Aug. 1961. Formerly for administrative purposes a part of Damão (on the south Gujarat coast), they were separated from it by a 26-km strip of Indian territory. In July 1954 'nationalist volunteers' occupied Dadra and Nagar Haveli and a pro-India administration was formed; this body made a request for incorporation into the Union, 1 June 1961, and has been recognized by the Indian Government as able to exercise an advisory role on the pattern of territorial councils. The Indian Government appointed an Administrator in Oct. 1960. Headquarters are at Silvassa.

Administrator: S. K. Benerji.

JUSTICE. The territory is under the jurisdiction of the Bombay (Maharashtra) High Court. There is a District and Sessions Court and one junior Division Civil Court at Silvassa.

EDUCATION. Literacy was 14.86% of the population at the 1971 census. In 1972 there were 4 pre-primary schools, 150 primary schools and 4 high schools. Total enrolment was 9,490. Scholarships amounting to Rs 9,679 were awarded to older students.

HEALTH. The territory has 1 hospital and 2 dispensaries.

FINANCE. Revised estimates for 1972-73 show provision of Rs 168.63 lakhs.

INDUSTRY. An industrial estate has been set up at Piparia which had 133 registered factories in 1972 for chemical products, engineering, textiles, plastics, fertilizers and other manufactures. Of these, 29 were in production in 1973.

POWER. Electricity is supplied by Gujarat.

AGRICULTURE. Farming is the chief occupation, and 17,000 hectares were under crops in 1972-73. Much of the land is terraced. The major food crop is rice; 3,420 hectares were under extensive paddy cultivation in 1972. About 6,500 hectares were under grass, which is exported as fodder. There are veterinary centres and 2 breeding centres to improve strains of cattle and poultry. There are 7 co-operatives covering 32 villages: they received Rs 18,000 in loans and subsidies during 1968-69. In 1972 there were 25,320 cultivators and 5,959 labourers.

FOREST. About 41.5% of the total area is forest, mainly of teak and khair.

ROADS. There are (1972) 132 km of motorable road.

DELHI. Delhi became a Union Territory on 1 Nov. 1956. It is administered by the Union Minister of Home Affairs with the aid of an Advisory Council (of which he is chairman) composed of Delhi MPs, the Mayor, the Vice-Chancellor of Delhi University, the President of the New Delhi Municipal Committee, the Inspector-General of Police and two Advisers (Chairman, Public Relations Committee, and Chairman, Industrial Advisory Board). The senior executive is the Chief Commissioner.

The municipal corporation, instituted 7 April 1958, has 56 members. The Panchayat Raj system has been introduced into the whole of the rural area.

Lieut.-Governor: A. N. Jha.

AREA AND POPULATION. Delhi has an area of 1,484 sq. km. At the 1971 census its population was 4,044,338 (density per sq. km, 2,723). In the rural area of Delhi there are 305 villages in 5 community development blocks.

RELIGION. At the 1961 census Hindus numbered 2,234,597; Sikhs, 203,916; Moslems, 155,453; Jains, 29,595; Christians, 29,269; Buddhists, 5,466.

EDUCATION. The proportion of literates to the total population was 56.65% at the 1967 census.

The total number of educational institutions in 1969-70 was 1,940, with an enrolment of 790,917 students and a total expenditure of Rs 8.94 lakhs.

The University of Delhi was founded in 1922; it has 34 constituent colleges and institutions with, 1970, a total of 59,210 students. Jawaharlal Nehru University is in the process of organization.

FINANCE. Budget estimates 1969-70 show total revenue of Rs 43.65-60 lakhs and expenditure of Rs 73.71-49 lakhs. Biggest items of expenditure were housing and public building, Rs 14.19 lakhs; education, Rs 14.00 lakhs.

INDUSTRY. The modern city of Delhi and New Delhi is not only the largest commercial centre in northern India but is also an important industrial centre. Since 1947 a large number of industrial concerns have been established; these include factories for the manufacture of watches, razor blades, sports goods and parts for radios, bicycles and station wagons. The number of industrial units functioning was 25,232 in 1969; average number of workers employed was 192,711. Production was worth Rs 280 crores and investment (1968) was Rs 129 crores. There are also about 8,000 small-scale industrial and cottage establishments employing about 60,000 workers.

An industrial estate was established at Okha, 10 miles south of the city, in 1957; it had (1969) 122 factory buildings producing goods worth Rs 4 crores and employing 4,000 workers.

Some traditional handicrafts, for which Delhi was formerly famous, still flourish; among them are ivory carving, miniature painting, gold and silver jewellery and papier mâché work. The handwoven textiles of Delhi were particularly fine; this craft is being successfully revived.

AGRICULTURE. About 110,000 hectares are cultivated. Animal husbandry is increasing and mixed farms are common. Chief crops in 1969-70, production in 1,000 metric tons (area in 1,000 hectares), were: Wheat, 44 (69); jowar and bajra, 20 (27); gram, 2 (5); sugar-cane (gur), 1 (2); fruit, vegetables and flowers.

COMMUNICATIONS. Three national highways pass through the city; it is also an important rail junction and served by 2 airports.

There were (1962) 74,826 registered motor vehicles in Delhi including about 2,000 taxis. The city transport service has over 1,000 buses.

GOA, DAMAN AND DIU. Goa, bounded on the north by Maharashtra and on the east and south by Mysore, has a coastline of 105 km; the coast was captured for Portugal by Afonso de Albuquerque in 1510 and the inland area was added in the 18th century. Daman (Damão) on the Gujarat coast, 70 miles north of Bombay, was seized by the Portuguese in 1531 and ceded to them (1539) by the Shar of Gujarat. The island of Diu, captured in 1534, lies off the south-east coast of Kathiawar (Gujarat); there is a small coastal area. In Dec. 1961 the territories were occupied by India and incorporated into the Indian Union.

The Indian Parliament passed legislation in March 1962 by which Goa, Daman and Diu became a Union Territory with retrospective effect from 20 Dec. 1961. Goa is represented by 2 elected members in the Indian House of the People. For judicial purposes the territory comes under the High Court of Bombay. The capital is Panjim (Nova Goa). There are 188 village *panchayats*.

There is a Legislative Assembly of 30 members. The Maharashtrawadi Gomantak party won the elections of March 1972 and formed the government.

Lieut.-Governor: Nakul Sen.

Chief Minister: Mrs S. Kakodkar.

AREA AND POPULATION. The area of the territory is 3,693 sq. km, that of Goa itself being about 3,496 sq. km. Population (1971) 857,180. Density, 225

per sq. km. Panjim is the largest town. The languages spoken are Marathi, Gujarati and Portuguese; the dialect Konkani is widely used.

RELIGION. About 62% of the population is Hindu, 36% Christian, 2% Muslim and other communities.

EDUCATION. The 1971 census recorded 44.53% literacy. In 1971-72 primary schools numbered 1,047 with 101,704 pupils, middle schools 365 with 42,306 pupils and secondary schools 193 with 31,507 pupils. In 1972 there were 5 arts and science colleges affiliated to Bombay University, with 4,536 students. The Medical College at Panaji had 350 students. There was also a pharmacy college, 2 primary teachers' training colleges, a commercial college, an engineering college, a polytechnic and an industrial training institute.

HEALTH. There are (1971) 25 hospitals (2,064 beds) including 3 tuberculosis hospitals; also mobile and specialist clinics. Two health centres were opened in 1972; there are now 15 primary health services.

JUSTICE. The territory comes under the High Court of Bombay.

FINANCE. Budget estimates, 1968-69, show total revenue of Rs 10,56.77 lakhs, expenditure of Rs 10,56.77 lakhs. Contributions and adjustments between central and state governments brought receipts of Rs 5,20.76 lakhs, sales tax brought Rs 1.20 lakhs. Expenditure was highest on education, Rs 2,09.01 lakhs. An estimated Rs 8.62 crores was spent on development during 1967-68. Annual Plan expenditure, 1971-72, Rs 81.5m. Expected outlay, 1972-73, Rs 86.8m.: Agriculture, Rs 17.63m.; irrigation and power, Rs 20.80m.; social services, Rs 30.09m.

AGRICULTURE. Agriculture is the main occupation; important crops are rice, maize, sugar-cane, groundnuts, bananas and coconuts. The net area sown is 128,429 hectares in Goa, 4,353 in Daman and 793 in Diu. Rice is the main crop in Goa; production in 1972 about 78,581 metric tons.

MINERALS. Resources include manganese ore and iron ore, both of which are exported. Production (metric tons), 1969: Iron, 7.6m.; ferro-manganese, 147,358; manganese, 25,800; bauxite, 58,460.

INDUSTRY. Tourism is important, and a provision of Rs 8.35 lakhs was made for tourist projects in 1968-69. The fishing industry received Rs 35.43 lakhs in government assistance in 1967-68; fish is the territory's staple food. In 1971 the catch of seafood was 40,000 metric tons (value Rs 53.4m.). There are about 6,250 active fishermen. Two industrial estates have been set up.

POWER. Units load capacity in 1967-68 is estimated at 4,100m kwh. Units sold, 5.2m. kwh. in 1966 and 80m. kwh. in 1972. There are 2 development schemes in progress for which Rs 72m. has been allocated. Thirteen towns and 113 villages were supplied with electric power by Sept. 1970.

SHIPPING. The main port is Marmagao. There is a daily steamer service between Panaji and Bombay, and weekly service between Bombay and Cochin, calling at Marmagao.

ROADS. In Goa itself a road network has been developed in conjunction with the tourism industry.

RAILWAYS. There is a metre gauge line from the Poona-Bangalore line into Goa. There are no railways on Diu or in Daman.

AVIATION. Bombay-Cochin daily service stops in Goa at Dabolim.

POST AND TELEGRAPHS. There are (1972) 145 post offices, 56 of them with telegraph facilities.

CONSTITUTION AND GOVERNMENT. A new Constitution was enacted with Independence in Aug. 1962. The Crown is represented by a Governor-General chosen by the Crown on the advice of the Prime Minister. The Governor-General is advised by a Privy Council.

The Legislature comprises two chambers, an elected House and a nominated Senate. The Executive is chosen from both chambers.

The Executive comprises the Prime Minister, who is the leader of the majority party, and Ministers appointed by the Prime Minister. Together they form the Cabinet, which is the highest executive power. An Attorney-General is an elected member of the House and is legal adviser to the Cabinet.

The Senate consists of 21 senators appointed by the Governor-General, 13 on the advice of the Prime Minister, 8 on the advice of the Leader of the Opposition. The House of Representatives (53 members) is elected by universal adult suffrage for a 5-year period. Electors and elected must be Jamaican or Commonwealth citizens resident in Jamaica for at least 12 months before registration. The powers and procedure of Parliament correspond to those of the British Parliament.

The Privy Council consists of 6 members appointed by the Governor-General on the advice of the Prime Minister.

Governor-General: Florizel Augustus Glasspole.

The elections to the House of Representatives, held on 29 Feb. 1972, returned 37 members of the People's National Party and 16 members of the Jamaica Labour Party. One former JLP member sits as an Independent.

Prime Minister, Minister of External Affairs, Defence: Michael Manley.
Deputy Prime Minister and Minister of Finance: David Coore, QC.

FINANCE. Currency. On 8 Sept. 1969 Jamaica adopted decimal currency, the dollar, divided into 100 cents. The Jamaican dollar was devalued in Jan. 1973. J\$ = £0.47 and US\$1.10. Currency circulation in Aug. 1973 was J\$79,014,000, comprising notes of J\$73,899,000 and J\$5,115,000 coin.

Budget. Revenue and expenditure for fiscal years ending 31 March (in J\$):

	1968-69	1969-70	1970-71	1971-72	1972-73	1973-74
Revenue	182,191,070	212,691,758	249,857,477	248,982,757	369,292,577	419,124,673
Expenditure	186,713,300	212,031,540	168,845,062	302,528,084	373,262,525	432,032,208

¹ Estimates.

The chief heads of recurrent revenue are customs and excise duties, income tax, motor vehicle licences and post office receipts. Capital revenue is derived mainly from royalties.

Public debt at 31 March 1973, J\$421,005,592.

Remittances from overseas amounted to approximately J\$38.5m. in 1972.

DEFENCE. The Air Wing of the Jamaica Defence Force was formed in July 1963 and has since been expanded and trained successively by the British Army Air Corps and Canadian Air Force personnel. Equipment for army liaison, search and rescue, police co-operation, survey and transport duties includes a Twin Otter; an Islander STOL transport, 1 JetRanger, 2 Bell 47 and 2 Alouette II light helicopters; and a Cessna 185 Skywagon.

AGRICULTURE (1972). Production: Sugar, 372,000 tons (1973, 337,087); rum and other spirits, 4.8m. proof gallons; molasses, 143,000 tons; copra, 17,391 tons. Exportable commodities: Bananas, 127,000 tons; cocoa, 2,333 tons; coffee, 211,000 lb.; citrus fruit, 1.1m. boxes; pimento, 2,032 tons; ginger, 766,000 lb.

MINING. Bauxite, ceramic clays, marble, silica and gypsum are commercially valuable. Jamaica has become the world's second largest producer of bauxite and alumina. The deposits are worked by a Canadian and 5 American companies. Four companies process bauxite into alumina. In 1972, 12,345,000 tons of bauxite ore and 2.03m. tons of alumina were exported. Gypsum production in 1972 was 4,342,000 tons.

INDUSTRY. By the end of 1972, 216 industries had been established under Industrial Incentive Laws, implemented by the Industrial Development Corporation. From processing only a few agricultural products—sugar, rum, condensed milk, oils and fats, cigars and cigarettes—the island is now producing a wide range of manufactures using both local and imported raw materials. Among the manufactured goods are clothing, footwear, textiles, paints, building materials, including cement, agricultural machinery and toilet articles. An oil refinery in Kingston meets local fuel demand. In 1972 manufacturing and processing contributed J\$165.5m. to the total GNP.

TOURISM. In 1972, 493,488 tourists stayed in Jamaica, spending about J\$107.9m.

ELECTRICITY. The Jamaica Public Service Company is the public supplier of electricity. The bauxite companies, sugar estates and the Caribbean Cement Co. generate their own electricity.

COMMERCE. Value of imports and domestic exports for calendar years (in J\$m):

	1968	1969	1970	1971	1972
Imports	320.4	369.4	434.0	458.7	493.2
Domestic exports	183.0	213.4	277.9	285.8	292.6

Principal imports in 1972 (in J\$1,000): Manufactured goods and food, 131,200; machinery and transport equipment, mineral fuels, lubricants, etc., chemicals, 146,200.

Principal exports, 1972 (in J\$m.): Bauxite and alumina, 188.3; sugar, rum and molasses, 37.8; bananas, 11.8; citrus, cocoa, coffee, pimento, ginger, 6.7; manufactured goods, 22.7.

In 1972 total trade with USA, UK and Canada amounted to J\$41.2m. or 67% of all trade.

Total trade with UK, in £1,000 sterling (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	26,172	26,174	27,480	34,459	38,684	44,714
Exports and re-exports from UK	28,669	35,614	38,203	43,221	41,508	43,478

SHIPPING. Jamaica has 11 first-class ports. In 1972 the port of Kingston unloaded 1·27m. tons of cargo.

RAILWAYS. There are 205 miles of railway open of 4 ft 8½ in. gauge, operated by the Jamaica Railway Corporation, which also operates 19½ miles (Alcoa Mineral Railway) on behalf of one of the bauxite companies.

ROADS (1972). The island has over 2,700 miles of main roads, maintained by the Ministry of Public Utilities, Communication and Transport or the councils, and in Kingston and St Andrew by the corporation.

AVIATION. In 1973, 13 scheduled commercial international airlines served Jamaica, operating through the international airports at Palisadoes and Montego Bay. Jamaica Air Services and Jamaica Air Taxi operate internal flights. Air Jamaica, originally set up in conjunction with BOAC and BWIA in 1966, became a new company, Air Jamaica (1968) Ltd and is affiliated to Air Canada. In 1969 it began operations as Jamaica's national airline.

TELECOMMUNICATIONS. Post and telecommunications are the responsibility of the Ministry of Public Utilities, Communications and Transport. At 31 Dec. 1972 there were 310 post offices, 475 postal agencies and 35 sub-agencies.

The Jamaica Telephone Company operates the telephone system. In Jan. 1973 there were 81,849 telephones in use. All telephone exchanges are automatic. Jamaica is linked to USA by a submarine telephone cable.

There are 1 commercial and 1 publicly owned broadcasting stations; the latter also operates a television service.

BANKING. On 1 May 1961 the Bank of Jamaica opened for business as Jamaica's Central Bank. It has the sole right to issue notes and coins in Jamaica, acts as Banker to the Government and to the commercial banks, and administers the island's external reserves and exchange control.

There are 9 commercial banks in operation, with main offices in Kingston. They are the Bank of Nova Scotia (Jamaica) Ltd., Barclays Bank International, the Royal Bank of Canada, the Canadian Imperial Bank of Commerce, the Bank of Montreal, the First National City Bank of New York, the First National Bank of Chicago, Jamaica Citizens' Bank, and the Workers Savings and Loan Bank.

KENYA

HISTORY. Until Kenya became independent on 12 Dec. 1963, it consisted of the colony and the protectorate. The protectorate comprised the mainland dominions of the Sultan of Zanzibar, viz., a coastal strip of territory 10 miles wide, to the northern branch of the Tana River: also Mau, Kipini and the Island of Lamu, and all adjacent islands between the rivers Uмба and Tana. The Sultan on 8 Oct. 1963 ceded the coastal strip to Kenya with effect from 12 Dec. 1963.

The colony and protectorate, formerly known as the East African Protectorate were, on 1 April 1905, transferred from the Foreign Office to the Colonial Office and in Nov. 1906 the protectorate was placed under the control of a governor and C.-in-C. and (except the Sultan of Zanzibar's dominions) was annexed to the Crown as from 23 July 1920 under the name of the Colony of Kenya, thus becoming a Crown Colony. The territories on the coast became the Kenya Protectorate.

A treaty was signed (15 July 1924) with Italy under which Great Britain ceded to Italy the Juba River and a strip from 50 to 100 miles wide on the British side of the river. Cession took place on 29 June 1925. The northern boundary is defined by an agreement with Ethiopia in 1947.

AREA AND POPULATION. The total area of Kenya is 224,960 sq. miles (582,600 sq. km), of which 219,790 sq. miles is land area. According to the 1969 census, the population was 10,942,708, of which 10,771,192 were Africans, 137,037 Asians, 40,593 Europeans, 27,886 Arabs.

On the coast the Arabs and Swahili predominate, farther inland the races speaking Bantu languages, and non-Bantu tribes, such as the Luo, the Nandi and Kipsigis, the Masai, the Somali and the Gallas.

Population of the Provinces (1969): Nyanza, 2.1m.; Central, 1.7m.; Rift Valley, 2.2m.; North Eastern, 0.2m.; Eastern, 1.9m.; Western, 1.3m.; Nairobi district, 0.5m.; Coast, 0.9m.

Nairobi, the capital, was given a Royal charter on 30 March 1950; the 1969 census showed a population of 509,286, including 19,185 Europeans and 67,189 Asians.

Population of the largest towns: Mombasa, 246,000; Nakuru, 47,800; Kisumu, 30,700; Eldoret, 16,900.

GOVERNMENT. A constitution conferring internal self-government was brought into force on 1 June 1963, and full independence was achieved on 12 Dec. 1963. On 12 Dec. 1964 Kenya became a republic.

President of the Republic: Mzee Jomo Kenyatta. *Vice-President and Minister of Home Affairs:* Daniel Arap Moi.

The House of Representatives and the Senate were in Dec. 1966 amalgamated into one National Assembly. Elections will take place in 1974.

On 10 Nov. 1964 Kenya became a one-party state of the Kenya African National Union (KANU) when the voluntary dissolution of the Kenya African Democratic Union (KADU) was declared. Later a second party, the Kenya People's Union (KPU) was formed but on 30 Oct. 1969 was proscribed.

The cabinet was composed in Jan. 1971 as follows:

Finance and Economic Development: Mwai Kibaki. *Defence:* J. S. Gichuru. *Agriculture and Animal Husbandry:* J. J. M. Nyagah. *Health:* I. O. Okero. *Local Government:* Dr J. G. Kiano. *Works:* J. Nyamweya. *Power and Communications:* R. G. Ngala. *Labour:* E. N. Mwendwa. *Tourism and Wild Life:* J. L. M. Shako. *Land and Settlement:* J. H. Angaine. *Housing:* P. J. Ngei. *Attorney-General:* C. Njonjo. *Information and Broadcasting:* Dr. Z. Onyonka. *Natural Resources:* Odongo Omamo. *Co-operatives and Social Services:* Masinde Muliro. *Commerce and Industry:* J. Osogo. *Education:* Taita Towett. *Minister of State:* Mbiyu Koinane. *Foreign Affairs:* Dr. N. Mungai.

Administration. The country is divided into the Nairobi Area and 7 provinces over which there are local councils with administrative functions. The provinces are: Coast, Central, Eastern, Rift Valley, Western, Nyanza and North Eastern.

RELIGION. The indigenous African background is largely influenced by belief in God in Judaic forms, but Christianity is making an important contribution to the life of the whole territory, not only through the educational and medical services of Christian missions, but by the growth of churches under African leadership, and by its impact on the thought and policy of the country. The Roman Catholic Church (about 1.5m. adherents) has been developed mainly by Irish, British, Dutch and Italian missionary bodies and is now organized in 12 dioceses under the archbishop of Nairobi.

The Protestant Churches (about 950,000 adherents) were started mainly by British and American mission societies; most of them are now linked together by the National Christian Council of Kenya. The Church of the Province of Kenya, formerly the Anglican Church Province of East Africa, was inaugurated on 3 Aug. 1970; at the same time the first Archbishop of Kenya was enthroned. The East African Yearly Meeting of Friends (Religious Society of Friends) has 90,000 adherents.

The Arabs on the coast are Moslems, and Islam has spread among some of the African coastal tribes and in the cities. The Asians are Hindus and Moslems, with the exception of the Goans, who are Roman Catholics.

EDUCATION. *Primary* (1970). 6,111 primary schools (5,765 maintained, 179 assisted and 167 unaided), with together 1,360,750 children, of whom 551,240 were girls and 809,510 boys.

Secondary (1970). There were 800 secondary schools (283 maintained, 19 assisted and 498 unaided), with a total enrolment of 134,856, of whom 37,654 are girls and 97,211 are boys.

Technical (1970). The Kenya Polytechnic in Nairobi, with an enrolment of 2,858 students, and Mombasa Technical Institute, with an enrolment of 988 students, of whom 490 are full-time students and 498 part-time students, are the most advanced institutions. There are also schools which had a total enrolment of 4,293 students of whom 1,934 were taking secondary trade courses and 2,359 were taking vocational courses.

Teacher training (1970). 6,776 students were training as primary teachers, 1,268 as secondary teachers and 13 teachers for the deaf.

Higher Education. The University of East Africa, which had 3 constituent Colleges, Makerere University College in Kampala, Uganda, the University College in Nairobi, Kenya, and University College in Dar es Salaam, Tanzania was disbanded in 1970. The University of Nairobi was inaugurated on 10 Dec. 1970. The University of Nairobi is now wholly supported by Kenya Government, and provides courses in arts, science, education, agriculture, medicine, art, architecture, engineering, veterinary, law and domestic science. In 1970 there were some 3,605 Kenya students at college in East Africa and abroad, 1,226 of them at University of Nairobi.

HEALTH. In 1970 beds in hospitals (including mission and non-government hospitals) totalled 13,104. 194 health centres were in operation. Total expenditure of the Ministry of Health in 1969-70 was £4,981,100 on health services. Development expenditure on health services totalled £1,636,850 in 1969-70. Free medical service for all children and adult out-patients was launched in 1965.

JUSTICE. The courts of justice comprise the High Court, established in 1921, with full jurisdiction both civil and criminal over all persons and all matters in Kenya, including Admiralty jurisdiction arising on the high seas and elsewhere, and Subordinate Courts. The High Court has its headquarters at Nairobi and consists of the Chief Justice and 11 puisne judges; it sits continuously at Nairobi, Mombasa, Nakuru and Kisumu; civil and criminal sessions are held regularly at Eldoret, Nyeri, Meru, Kitale, Kisii and Kericho.

The Subordinate Courts are presided over by Senior Resident, Resident or District Magistrates and are established in the main centres of all districts. They sit throughout the year. There are also Moslem Subordinate Courts established in areas where the local population is predominantly Mohammedan; they are presided over by Kadhis and exercise limited jurisdiction in matters governed by Mohammedan law.

FINANCE. Currency, *see* p. 519.

Budget. Revenue and expenditure (in Kenya £1,000) for fiscal years 1 July-30 June:

	1966-67	1967-68 ¹	1968-69	1969-70	1970-71
Net revenue	60,213	69,256	75,507	87,081	93,725
Net expenditure	56,305	63,735	68,868	73,982	81,292
Development revenue	13,598	14,945	15,552	26,827	30,883
Development expenditure	16,856	20,076	25,459	33,076	36,486

¹ Estimates.

Of the revenue in 1968-69, customs and excise accounted for K£33.6m.; income tax, K£22.7m.; other licences, duties and taxes, K£7.6m. Of the 1967-68 development receipts K£167,921 came as grants from UK Government, K£3,172,155 from UK exchequer loans, K£1,471,318 from International Development Association loan, K£607,560 from US-AID loan and K£7,948,000 was raised locally at 6%.

Funded public debt at 30 June 1969 was K£75,111,068.

DEFENCE. The Army consists of 4 infantry battalions and a support battalion which includes a paratroop company; total strength, 6,000.

An air force, at least 1 Navajo light twin, formed 1 June 1964, has been built up with RAF assistance. Current equipment includes 6 BAC 167 Strikemaster light jet attack/trainers, 6 twin-engined Caribou and 10 single-engined Beavers for transport, air ambulance, anti-locust spraying and security duties, 5 Bulldog piston-engined primary trainers and a few Alouette II and Hughes 269 light helicopters. Personnel total about 625.

AGRICULTURE. As agriculture is possible from sea-level to altitudes of over 9,000 ft, tropical, sub-tropical and temperate crops can be grown and mixed farming can be advocated. Four-fifths of the country is range-land which produces mainly livestock products and wild game which constitutes the major attraction of the country's tourist industry.

The main areas of crop production are the Central, Rift Valley, Western and Nyanza Provinces and parts of Eastern and Coastal Provinces. Coffee, tea, sisal, pyrethrum, maize and wheat are crops of major importance in the Highlands, while coconuts, cashew nuts, cotton, sugar, sisal and maize are the principal crops grown at the lower altitudes. The livestock industry is important, and considerable quantities of corned beef, butter, bacon, ham, and hides and skins are exported.

Groundnuts, simsim, potatoes, beans, essential oils and other miscellaneous crops are grown according to elevation and rainfall. An export trade is developing in mangoes, fresh fruits, flowers and vegetables flown by air to Europe.

FORESTRY. The total area of gazetted forest reserves in Kenya amounts to 16,800 sq. km, of which the greater part is situated between 6,000 and 11,000 ft above sea-level, mostly on Mount Kenya, the Aberdares, Mount Elgon, Tinderet, Londiani, Mau watershed, Elgeyo and Charangani ranges. These forests may be divided into coniferous, broad-leaved or hardwood and bamboo forests. The upper parts of these forests are mainly bamboo, which occurs mostly between altitudes of 8,000 and 10,000 ft and occupies some 10% of the high-altitude forests. Plantations established by 31 Dec. 1969 total 180,560 hectares, of which 90,450 are exotic softwood. In addition 3,100 hectares of pines have been planted for pulpwood. The Forest Department employs about 11,000 men and primary forest industries about 8,000. Water catchment is no longer considered to be the primary role of forests. Revenue from timber royalties, fuel royalties and from exports of forest-based products continues to increase. Exports of forest-based products earned £6,101,240 in 1969. The revenue to the Forest Department from timber royalties and miscellaneous produce amounted to £437,000. In 1969, 4,633 tons of softwood logs and 12,781 tons of hardwood were extracted from forest reserves.

MINING. By mid 1970 over 75% of the area of Kenya had been geologically mapped. A special and 2 ordinary oil-prospecting licences were extant at the end of 1969, together covering 22,250 sq. miles. A joint UN-Kenya Government project is investigating the mineral resources in western Kenya and the exploration and development of mineral deposits is proceeding.

Mineral production during 1969, excluding much building material and manufactured cement, was valued at £2,821,449. The main products were: Cement, 653.091 long tons (£5,464,450); soda ash, 108,476 long tons (£1,142,999); copper, 77 long tons (£40,444); gold (refined), 556,847 grammes (£273,821); limestone and products, 24,904 long tons (£180,672); diatomite, 2,303 long tons (£32,241); carbon dioxide, 761 long tons (£71,635); salt, 42,285 long tons (£398,034); kaolin, 1,472 long tons (£36,225). Other minerals comprised vermiculite, barytes, magnesite, feldspar, beryl, aquamarine fluorite, silver, sapphires, galena, guano, wollastrite and corundum.

TOURISM. In 1970, 276,000 overseas visitors travelled to Kenya.

COMMERCE. Since 1949 Kenya has been united in a customs union with Uganda and Tanganyika. In addition to the items listed on pp. 472-73, Kenya in 1965 also exported 18,600 centals of butter and ghee valued at £292,613.

The chief countries of origin in 1969 were: UK, 31.2%; USA, 7.5%; West Germany, 8.2%; Japan, 7.8%. Chief countries of destination: UK, 21.6%; West Germany, 11.4%; USA, 7.3%.

Total trade between Kenya and UK, in £1,000 sterling (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	25,294	25,706	27,064	30,015	29,070	38,747
Exports and re-exports from UK	47,433	49,954	52,822	65,619	55,552	60,887

ROADS. In Sept. 1970 there were approximately 5,500 km of trunk roads, of which 2,436 km were bitumen surfaced. There were approximately 36,000 km of secondary roads, of which 564 km were bitumen surfaced. Including minor and administration roads there were a total of 42,000 km of public road.

BROADCASTING. The Voice of Kenya operates 2 national services (Swahili-English) from Nairobi and regional services in Kisumu, Nairobi and Mombasa. The television service provides programmes mainly in English and Swahili. A new television station opened in Mombasa in 1970.

BANKING. Banks operating in Kenya: the National & Grindlays Bank, Ltd; the Standard Bank, Ltd; Barclays Bank International; Algemene Bank Nederland NV; Bank of India, Ltd; Bank of Baroda, Ltd; Habib Bank (Overseas), Ltd; African Banking Corporation (E.A.), Ltd; Commercial Bank of Africa, Ltd. The Co-operative Bank of Kenya, Ltd; National Bank of Kenya, Ltd.

LESOTHO

HISTORY. Basutoland first received the protection of Britain in 1868 at the request of Moshesh, the first paramount chief. In 1871 the territory was annexed to the Cape Colony, but in 1884 it was restored to the direct control of the British Government through the High Commissioner for South Africa.

On 4 Oct. 1966 Basutoland became an independent and sovereign member of the Commonwealth under the name of the Kingdom of Lesotho.

AREA AND POPULATION. Lesotho is bounded on the west by the Orange Free State, on the north by the Orange Free State and Natal, on the east by Natal and East Griqualand, and on the south by the Cape Province. The altitude varies from 5,000 to 11,000 ft. The climate is dry and rigorous, with extremes of heat and cold both seasonal and diurnal. The temperature varies between 93° F. (34° C.) and 3° F. (−16° C.). The rainfall is variable, the average being about 29 in. per annum.

The area is 11,716 sq. miles (30,340 sq. km). Lesotho is a purely African territory, and the few European residents are government officials, traders, missionaries and artisans.

The census taken on 14 April 1966 showed a total population of 969,634 persons (465,784 males, 503,850 females), of whom 97,529 males and 19,744 females were absent. Estimate (1972), 1,081,000.

CONSTITUTION AND GOVERNMENT. On 4 Oct. 1966 the country became the Kingdom of Lesotho, with the Paramount Chief as King.

Parliament consists of the National Assembly (60 members elected by adult suffrage) and a Senate (22 principal chiefs and 11 members nominated by the King). The general election held on 30 April 1965 returned 31 members of the National Party, 25 members of the Congress Party and 4 members of the Marematlou Freedom Party. The elections of 27 Jan. 1970 were declared invalid on 31 Jan.

The constitution suspended and a state of emergency declared.

King of Lesotho: Moshoeshe II.

Prime Minister: Chief Leabua Jonathan. Deputy Prime Minister: Chief Sekhonyana 'Maseribane.

The College of Chiefs settles the recognition and succession of Chiefs and adjudicates cases of inefficiency, criminality and absenteeism among them.

LOCAL GOVERNMENT. The country is divided into 9 districts as follows: Maseru, Qacha's Nek, Mokhotlong, Leribe, Butha-Buthe, Teyateyaneng, Mafeteng, Mophale's Hoek, Quthing. Each district is subdivided into wards, most of which are presided over by hereditary chiefs allied to the Moshoeshoe family.

District councils, established in 1944, were abolished on 17 Jan. 1966; their functions are now exercised by officials appointed by the Ministry of Local Government.

RELIGION. About 70% of the population are Christians, 40% being Roman Catholics.

EDUCATION. Education is largely in the hands of the 3 main missions (Paris Evangelical, Roman Catholic and English Church), under the direction of the Ministry of Education. In 1972 the total enrolment in 1,087 primary schools was 175,355; in 84 secondary schools, 11,936; in 7 teacher-training schools, 510. University education is provided at the University of Botswana, Lesotho, Swaziland, which now has a campus in each of the 3 countries. Total enrolment in 1972-73 was 713, of which 218 were Basotho students. Total government expenditure on education was estimated at R2,883,000 in 1972-73. Bursaries are provided at all stages for secondary, teacher-training and university work. In 1972, 106 Basotho were studying at universities and places of higher education, outside Lesotho.

JUSTICE. An appeal court for Lesotho was established at Maseru on 4 Oct. 1966.

Police. The police force on 31 Dec. 1972 had an establishment of 111 officers and subordinate officers and 1,194 other ranks.

HEALTH. The government medical staff of the territory consists of 1 Permanent Secretary for Health and chief medical officer, 1 medical superintendent, 26 medical officers, 1 medical officer of health and 6 specialist physicians and surgeons.

There are 10 government hospitals staffed by 111 matrons, sisters and nurses. There is accommodation for 1,020 patients in government hospitals. The new 316-bed Queen Elizabeth II hospital in Maseru was completed in 1957. There are 9 mission hospitals subsidized by the Government with 729 beds. Health centres and mountain dispensaries provide outpatient medical facilities and maternity services to people living in remote areas. The leper settlement 5 miles off Maseru had 189 patients at the end of 1972.

Typhus and plague occur.

FINANCE. Currency. The currency is the South African Rand (R1.95 = £1).

Budget. The financial year ends on 31 March.

	1966-67	1967-68	1968-69 ¹	1969-70 ¹	1970-71 ¹	1971-72
Revenue	9,856,286	11,200,851	11,048,338	11,322,650	11,704,510	12,409,839
Expenditure	9,856,311	11,200,851	10,913,338	10,497,380	11,041,480	12,440,471

¹ Estimates.

The major items of expenditure in 1972 were education (R2.2m.), health (R1.1m.), police (R1.5m.) and agricultural co-operatives and marketing (R1.2m.). Revenue is expected to yield R6.7m., including Lesotho's share of South African customs duties (R1.8m.); R990,000 will be contributed by a UK grant-in-aid.

AGRICULTURE. The chief crops are wheat, maize and sorghum; barley, oats, beans, peas and other vegetables are also grown. The land is held in trust for the nation by the King and may not be alienated.

Soil conservation and the improvement of crops and pasture are matters of vital importance. A total area of 1,006,817 acres has been protected against soil erosion by means of terracing, training banks and grass strips. Efforts are being made to secure the general introduction of rotational grazing in the mountain area.

Livestock (1970): Cattle, 551,520; horses, 109,703; donkeys, 89,701; sheep, 1,655,128; goats, 973,767; mules, 4,092.

INDUSTRY. Industrial development is progressing under the National Development Corporation. Diamond production in 1971 was valued at R212,043.

COMMERCE. Lesotho, Botswana and Swaziland are members of the South African customs union, by agreement dated 29 June 1910.

Total values of imports and exports into and from Lesotho (in £ sterling):

	1962	1965 ¹	1966 ¹	1967 ¹	1969	1970	1971 ¹
Imports	3,131,759	17,335	22,917	23,800	23,907	22,876	27,997
Exports	1,711,797	4,690	4,389	4,168	4,069	3,716	2,196

¹ In R1,000.

Principal imports in 1971 were food, livestock, drink and tobacco (R6·9m.), crude materials (R579,000), mineral fuels and lubricants (R1·72m.), chemicals (R1·85m.), manufactured goods (R11·9m.), machinery and transport equipment (R4·11m.); principal exports were cattle (R606,000), wool (R300,000), mohair (R325,000) and diamonds (R241,000).

In 1973 imports from UK were valued £75,000; exports to UK, £1,000.

RAILWAYS. A railway built by the South African Railways, 1 mile long, connects Maseru with the Bloemfontein-Natal line at Marseilles.

ROADS. There are 133·6 miles of tarred roads and 487·2 miles of gravel-surfaced roads along the western border of Lesotho, with outlets to the border ports of exit. Regular motor services of the South African Railways operate between Zastron (OFS) and Quthing, Zastron (OFS) and Mophale's Hoek, and between Fouriesburg (OFS) and Butha Buthe. In addition to the main roads there are 341 miles of by-roads leading to trading stations and missions. Communications into the mountainous interior are by means of bridlepaths suitable only for riding and pack animals, but a mountain road of 80 miles has been constructed, and some parts are accessible by air transport, which is being used increasingly.

AVIATION. There is a scheduled passenger service between Maseru and Jan Smuts Airport, Johannesburg operated jointly by Lesotho National Airways and SAA. There are also 29 airstrips for light aircraft.

POST. There were 3,183 telephones on 1 Jan. 1973.

BANKING. The Standard Bank of South Africa and Barclays Bank International have branches at Maseru, Mophale's Hoek and Leribe.

MALAWI

AREA AND POPULATION. Land area (excluding inland water of Lakes Palombe, Chilwa and Chiuta) 36,324 sq. miles, divided into 3 regions and 24 districts, each administered by a District Commissioner.

Lake Malawi waters belonging to Malawi are 9,250 sq. miles and the whole Lake Malawi (including the waters under Moçambique by an agreement made between the two countries in 1950) is 11,650 sq. miles.

The results of the census held in Aug. 1966: 4,020,724 Africans, 11,299 Asians, 7,395 Europeans, 165 undetermined: total 4,039,583 (1,913,262 males, 2,126,321 females). Estimate (1973) 4.55m. Over 90% of the population live in rural areas.

Population of main towns (1966) was as follows: Blantyre, 109,461; Zomba, 19,666; Lilongwe, 19,425, and Mzuzu, 8,490. The capital is Zomba, but it is being moved to a new site at Lilongwe in the Central Region.

CONSTITUTION AND GOVERNMENT. Malawi formerly Nyasaland (until 1907 British Central Africa) Protectorate, constituted on 15 May 1891, lies along the southern and western shores of Lake Malawi (the third largest lake in Africa).

Nyasaland became a self-governing country on 1 Feb. 1963, and on 6 July 1964 an independent member of the Commonwealth under the name of Malawi. It became a Republic on 6 July 1966. The President of the Republic is also head of Government and of the Malawi Congress Party.

Malawi is one-party state. Parliament is composed of 63 members. The President may appoint up to 15 nominated members.

The Cabinet was in Dec. 1973 composed as follows:

Life President, Justice, External Affairs, Agriculture and Natural Resources, Works and Supplies: Ngwazi Dr H. Kamuzu Banda.

Education: J. D. Msonthi. *Minister for the Northern Region:* M. Q. Y. Chibambo. *Minister of State in President's Office:* A. A. Muwalo Nqumayo. *Minister for the Southern Region:* G. Chakuamba Phiri. *Trade, Industry, Tourism:* D. T. Mateje. *Minister for the Central Region:* J. T. Kumbkeza Banda. *Local Government, Community Development and Social Welfare:* M. M. Lungu. *Finance:* D. T. Matenje. *Transport, Communication and Labour:* W. B. Deleza. *Information and Broadcasting:* R. T. C. Munyenembe. *Health:* P. L. Makhumula Nkhoma. *Without Portfolio:* R. B. Chidzanja Nkhoma; A. E. Gadama.

RELIGION. In 1972 the Roman Catholic Church claimed 1,073,000 members; the Presbyterian Church of Central Africa, 846,000; the Diocese of Malawi (part of the Province of Central Africa of the Anglican Communion), 79,000; Seventh Day Adventist Church, 93,000; Zambezi Evangelical Church (formerly Nayas Mission), 36,000; Assemblies of God, 7,000; Seventh-Day Baptists (Central Africa conference), 11,000; Churches of Christ, 21,000; African Evangelical Church,

7,000; Evangelical Church of Malawi, 18,000. Moslems are estimated to number between 500,000 and 1m.

EDUCATION. (1973). The Ministry of Education controls all aspects of education.

The number of pupils in the 2,871 primary schools was 347,174; in the 58 secondary schools, 13,328. There were 8,540 teachers. The primary school course is of 8 years duration, followed by a 4-year secondary course. English is taught from the 1st year and becomes the general medium of instruction from the 4th year.

Teacher-training is undertaken in 13 residential colleges, 2 of which are directly controlled by the Ministry; the others receive grants in aid as assisted institutions. Courses last 3 years. Enrolment 1,350. Technical and trade courses are offered in commerce, building, woodwork and mechanical engineering, as well as home craft for girls; 1,904 trainees undertook courses at government and voluntary schools in 1966.

The University of Malawi was inaugurated on 6 Oct. 1965. In March 1972 there were 428 students taking degree courses and 599 taking diploma courses.

JUSTICE. Justice is administered in the High Court, the magistrates' courts and traditional courts. There are 23 magistrates' courts, 176 traditional courts and 23 local appeal courts.

Appeals from traditional courts are dealt with in the traditional appeal courts and to the High Court. Eventually, however, appeals from traditional courts will not go to the High Court, but will go to the national traditional appeal court. Appeals from magistrates' courts lie to the High Court, and appeals from the High Court to Malawi's Supreme Court of Appeal.

FINANCE. Budget. Revenue and expenditure (in K.1,000) for years ending 31 March:

	1969-70	1970-71	1971-72	1972-73 ¹	1973-74 ¹
Revenue	52,443	46,946	50,461	55,069	59,441
Expenditure	42,506	43,937	50,254	54,758	59,858

¹ Estimate.

Main revenue items (in K.1,000) in 1971-72 are: Indirect taxes, 21,932; direct taxes, 14,138; income from state activity, 813.

Main expenditure items (in K.1,000) in 1971-72 are: Education, 8,542; public debt charges, 8,103; general administration, 7,378; health, 3,305. Public debt, Dec. 1969, was £34.2m., of which £8.6m. was unfunded.

Currency. In 1971 a new decimalized currency was introduced. The *kwacha* (dawn) worth £0.50, which is subdivided into 100 *tambala* (cockerels). Since June 1972 the *kwacha* has been floating with the £ sterling.

DEFENCE. The army consists of a headquarters—a large infantry battalion complete with its own supporting arms and services—and a depot back-up of an engineering workshop and an ordnance depot in Zomba and at Mzuzu. The total strength is 54 officers and 1,050 other ranks.

AGRICULTURE. Malawi is predominantly an agricultural country. In 1971 agriculture contributed more than 50% to the GDP, and agricultural produce accounted for over 78% of total exports. Of the total area of 23.3m. acres, 13.1m. could be cultivated and, in 1969, 3.3m. were being cultivated, of which 2.64m. were under maize. Maize is the main subsistence crop and is grown by over 95% of all small-holders. Almost all the surplus crops produced by small-holders are sold to the Agricultural Development and Marketing Corporation. In 1972 the corporation purchased: Groundnuts, K.4.4m.; cotton, K.2m.; tobacco, K.4m.; maize, K.1.9m.

Livestock in 1967: Cattle, 545,000 (1972); goats, 668,007; sheep, 81,277; pigs, 149,276; poultry, 5m.

POWER. The first stage of the Tedzani Project, two 8 mw. sets will be commissioned by mid-1973 which, together with the 24 mw. Nkula hydro-electric station, will meet the power demands of the interconnected systems of the Southern Region and Lilongwe. With the completion of a barrage at Tedzani these machines will be up-rated to 10 mw. each and, with the addition of thermal plant to the system, sufficient power will be available to meet forecast demands prior to the commissioning in 1977 of the second stage of the Tedzani Project, a further two 10 mw. sets. The Electricity Supply Commission also operates stations at Mangochi, Mzuzu, Kasungu, Liwonde and Chikwawa.

COMMERCE. The main items of export in 1971 were (in K.): Crops, 46.6m.; other primary products, 600,000; manufactured goods, 1.8m. Malawi's imports included consumer goods, 24.5m.; capital equipment, 20.1m.; building materials, 7.4m.

Trade statistics for calendar years are (in K.):

	1968	1969	1970	1971
Imports	58,179,212	61,478,972	82,480,516	89,750,112
Exports	40,341,367	43,972,714	49,696,677	59,301,998

Total trade between UK and Malawi (British Board of Trade returns in £1,000 sterling):

	1970	1971	1972	1973
Imports to UK	12,135	12,947	13,383	17,436
Exports and re-exports from UK	7,983	8,587	11,281	7,816

RAILWAYS. Malawi Railways (289 miles—3 ft 6 in. gauge) operates a main line from Salima to the Moçambique border near Nsanje, from which running powers over the Trans-Zambesia Railway allow access to the port of Beira; a branch opened in 1970 runs eastwards from a point 10 miles south of Balaka to the Moçambique border to give a direct route to the deep-water port of Nacala. The 16-mile section from Nsanje to the border is operated by the Central Africa Railway Co. Ltd.

BANKING. In July 1964 the Reserve Bank of Malawi was set up with a capital of K1m. to be responsible for the issue of currency and the holding of external reserves and to issue treasury bills and local registered stock on behalf of the Government. Since then, the Reserve Bank has fully assumed the responsibilities of a Central Bank. The National Bank of Malawi has a total of 9 branches in major urban areas and 19 static and 35 mobile agencies in rural areas. The Commercial Bank of Malawi Ltd opened in 1970 and has branches at Limbe and Lilongwe and an agency in Dedza and headquarters at Blantyre.

In 1972 The Investment Development Bank of Malawi was established in Blantyre. Its resources are derived from domestic and foreign official sources and its objective is to provide medium and long-term credits to private entities considered of importance to the economy.

The post office savings bank has 182 offices conducting savings business throughout the country, and the New Building Society has agencies in Limbe, Zomba and Lilongwe with its head office in Blantyre. Two finance houses now operate in Malawi, providing longer-term industrial and consumer finance.

MALAYSIA

On 16 Sept. 1963 Malaysia came into being, consisting of the Federation of Malaya, the State of Singapore and the colonies of North Borneo (renamed Sabah) and Sarawak. The agreement between the UK and the 4 territories was signed on 9 July (Cmnd. 2094); by it, the UK relinquished sovereignty over Singapore, North Borneo and Sarawak from independence day and extended the 1957 defence agreement with Malaya to apply to Malaysia. Malaysia became automatically a member of the Commonwealth of Nations. See map in THE STATESMAN'S YEAR-BOOK, 1964-65.

On 9 Aug. 1965, by a mutual agreement dated 7 Aug. 1965 between Malaysia and Singapore, Singapore seceded from Malaysia to become an independent Sovereign nation.

CONSTITUTION AND GOVERNMENT. The constitution of Malaysia is based on the constitution of the former Federation of Malaya, but includes safeguards for the special interests of Sabah and Sarawak.

The federal capital is Kuala Lumpur. The official language is Malay.

The constitution provides for one of the 9 Rulers of the Malay States to be elected from among themselves to be the Yang di-Pertuan Agong (Supreme Head of the Federation). He holds office for a period of 5 years. The Rulers also elect from among themselves a Deputy Supreme Head of State, also for a period of 5 years.

Supreme Head of State (Yang di-Pertuan Agong): HM Sultan Abdul Halim Mu'adzam Shah ibni Al-Marhum Sultan Badlishah, DUK, DK, DMN, SPMK, Ruler of Kedah (elected 21 Sept. 1970).

Deputy Head of State (Timbalan Yang di-Pertuan Agong): HRH Al-Sultan Yahaya Petra ibni Al-Marhum Sultan Ibrahim, DK, DMN, SMN, SPMK, SJMK, SPSK, Ruler of Kelantan (elected 21 Sept. 1970).

Raja of Perlis: HRH Tuanku Syed Putra ibni Al-Marhum Syed Hassan Jamalullail, DK, DKM, DMN, SMN, SPMP, acceded 12 March 1949.

Regent of Kedah: HRH Tunku Abdul Malik ibni Al-Marhum Sultan Badlishah, SPMK, appointed 20 Sept. 1970.

Sultan of Pahang: HRH Sultan Abu Bakar Ri'ayatuddin Al-Mu'adzam Shah ibni Al-Marhum Al-Mu'tasim Billah Al-Sultan Abdullah, DK, DMN, acceded 28 May 1933.

Sultan of Johore: HRH Sultan Ismail ibni Al-Marhum Sultan Ibrahim, DK, DMN, SMN, SPMJ, acceded 10 Feb. 1960.

Sultan of Kelantan: HRH Al-Sultan Yahya Petra ibni Al-Marhum Sultan Ibrahim, DK, DMN, SPMK, SJMK, SMN, acceded 17 July 1961.

Sultan of Selangor: HRH Sultan Salahuddin Abdul Aziz Shah ibni Al-Marhum Sultan Hisamuddin 'Alam Shah Al-Haj, DK, DMN, SPMS, acceded 28 June 1961.

Sultan of Perak: HRH Sultan Idris Al-Mutawakkil Alallahi Shah ibni Al-Marhum Sultan Iskandar Shah Kadasallah, DK, DMN, SPMP, acceded 26 Oct. 1963.

Yang di-Pertuan Besar of Negri Sembilan: HRH Tuanku Ja'afar ibni Al-Marhum Tuanku Abdul Rahman, DMN, acceded 8 April, 1968.

Sultan of Trengganu: HRH Sultan Ismail Nasiruddin Shah ibni Al-Marhum Sultan Zainal Abidin, DK, DKM, DMN, SPMT (acceded 16 Dec. 1945).

Governor of Malacca: HE Tun Haji Abdul Aziz bin Haji Abdul Majid, PMN, DPMK, PJK, appointed 31 Aug. 1971.

Governor of Sarawak: HE Tun Datu Tuanku Haji Bujang bin Tuanku Haji Othman, SMN, PSM, appointed 2 April 1969.

Yang di-Pertua Negara Sabah: HE Tuan Pengiran Haji Ahmad Raffae bin Orang Kaya Pengiran Haji Omar, SMN, PDK, re-appointed 16 Sept. 1969.

Governor of Penang: HE Tun Dato Syed Sheh Hassan Barakbah, SMN, DVPN, SPMK, PSB, appointed 5 Feb. 1969.

Parliament consists of the Yang di-Pertuan Agong and two Majlis (Houses of Parliament), known as the Dewan Negara (Senate) of 58 members and Dewan Ra'ayat (House of Representatives) of 144 members. Malaya has 104, Sabah 16 and Sarawak 24 representatives. Appointment to the Senate is for 6 years. The maximum life of the House of Representatives is 5 years, subject to its dissolution at any time by the Yang di-Pertuan Agong on the advice of his Ministers.

The elections to the House of Representatives, held on 25 April 1964, returned the following members: Alliance Party, 89; Pan-Malayan Islamic Party, 9; People's Progressive Party, 2; Socialist Front, 2; United Democratic Party, 1; People's Action Party, 1.

The last election which was held on 10 May 1969 was not completed due to the disturbances which were followed by the Emergency. The Emergency ended 19 Feb. 1971.

The Cabinet was in Aug. 1973 composed as follows:

Prime Minister, Foreign Affairs and Defence: Tun Haji Abdul Razak, SMN.

Deputy Prime Minister and Minister of Trade and Industry: Datuk Hussein bin Onn, SPMJ. *Finance:* Tun Tan Siew Sin, SSM, JP. *National Unity:* Tun V. T. POPULATION. The 1970 census gave a total of 8,809,557 for Peninsular Malaysia, 653,604 in Sabah and 976,269 in Sarawak.

JUSTICE. The judicial power of the Federation is vested in the High Court in Peninsular Malaysia and the High Court in East Malaysia and also in subordinate courts. Legally the 2 High Courts are known as High Court and High Court Borneo. Above the High Courts there also exists a Federal Court with its main registry in Kuala Lumpur, with exclusive jurisdiction to determine appeals from decisions of any High Court.

The Supreme Head of the Judiciary is the Lord President of the Federal Court, consisting of himself and 2 Chief Justices of the High Courts and Judges of the Federal Court. Every proceeding in the Federal Court is heard and disposed of by 3 judges or such greater uneven number of judges as the Lord President in any particular case may order. In his absence, the senior member of the court presides.

FINANCE. **Currency.** Bank Negara Malaysia (Central Bank of Malaysia) assumed sole currency issuing authority in Malaysia on 12 June 1967. The unit of currency issued by Bank Negara Malaysia is the Malaysian dollar, which is divided into 100 cents. Currency notes are of denominations of \$1, 5, 10, 50, 100 and \$1,000. Coins are of denominations of 1 cent, 5, 10, 20, 50 cents and \$1, \$5 and \$100. The circulation of currency on 31 Dec. 1972 was M\$1,359.8m.

Budget. Revenue and expenditure for calendar years, in M\$1,000:

² Estimates.

DEFENCE. The Malaysian Armed Forces is made up of the Malaysian Army, the Royal Malaysian Navy and the Royal Malaysian Air Force. Each Service has its own component of reserves.

The Malaysian Constitution provides for the Yang di-Pertuan Agong (Supreme Head of State) to be the Supreme Commander of the Armed Forces who exercises his powers and authority in accordance with the advice of the Cabinet. Under the general authority of the Yang di-Pertuan Agong and the cabinet, there is the Armed Forces Council which is responsible for the command, discipline and administration of all other matters relating to the Armed Forces, other than those relating to its operational use. The Armed Forces Council is chaired by the Minister of Defence and its membership consists of the chief of the Armed Forces Staff, the 3 Service Chiefs and 2 other senior military officers, the Secretary-General of the Ministry of Defence, a representative of State Rulers and an appointed member.

The chief of the Armed Forces Staff is the professional head of the Armed Forces and the senior military member in the Armed Forces Council. He is the

principal adviser to the Minister of Defence on the military aspects of all defence matters. The chief of the Armed Forces Staff's committee, established under the authority of the Armed Forces Council, is the highest level at which joint planning and co-ordination with the Armed Forces are carried out. The Committee is chaired by the chief of the Armed Forces Staff and its membership consists of the chief of the Army, Navy and Air Force, the chief of Personnel Staff, the chief of Logistic Staff and the chief of Staff of the Ministry of Defence.

Army. The active army is an all regular force consisting of 8 brigade groups in 2 infantry divisions and 1 semi-independent regional security command. Each brigade consists of infantry, reconnaissance, artillery, signals, engineers and supported by adequate logistic units. The Army is still at its phase of expansion. The total strength is approximately 46,500.

Navy. Command of the Royal Malaysian Navy is exercised by the Chief of the Naval Staff from the integrated Ministry of Defence in Kuala Lumpur. The main naval bases are KD Malaya situated on Singapore Island and KD Sri Labuan on Labuan Island. These establishments are responsible for the operation and administration of the ships, and KD Malaya for the training of personnel.

The ships include 2 frigates, 6 coastal minesweepers, 8 fast missile boats, 3 gunboats, 24 patrol craft, 1 support ship, 1 diving tender and 1 survey vessel. The peace-time tasks include fishery protection and anti-piracy patrols. There are also 24 armed patrol launches, 22 operated by the Royal Malaysian Police and 2 by the Government of Sabah (North Borneo). Naval personnel, 1973: 5,100 officers and ratings.

Air Force. Formed on 1 June 1958, the Royal Malaysian Air Force is equipped primarily to provide limited air defence and air support for the Army, Navy and Police. Its secondary rôle is to render assistance to Government departments and civilian organizations, especially during periods of national disasters. There are 11 squadrons, of which 8 operate transport aircraft. Equipment includes 16 Commonwealth CA-27 Sabre Mk. 32 jet fighters (to be replaced by F-5E Tiger IIs), 20 Canadair CL-41G Tebuan dual-purpose light jet strike and training aircraft, 8 Herald twin-turboprop transports, 14 Caribou twin-engined STOL transports, 2 Heron and 5 Dove light liaison/communications aircraft, 16 Sikorsky S-61A-4 Nuri heavy troop and cargo transport helicopters, 28 Alouette III helicopters, 14 piston-engined Bulldog basic trainers and 2 H.S.125 Merpati twin-jet executive transports. Three Marconi air defence radars are operational.

Volunteer Forces. The Army Volunteer Force (Territorial Army) consists of first-line infantry, signals, engineer and logistics units able to take the field with the active army, and a second-line organization to provide local defence. There is also a small Naval Volunteer Reserve with Headquarters in Penang and Kuala Lumpur. The Royal Malaysian Air Force Volunteer Reserve has both air and ground elements.

Royal Military College. The College, founded in 1953, is now accommodated at Sungei Besi near Kuala Lumpur. It has a Boys' Wing which prepares young Malaysians 'to take their places as officers in the Armed Forces, in the higher divisions of the public service and as leaders in the professional, commercial and industrial life of the country'. The Cadet Wing trains officers for both regular and short service commissions.

PLANNING. The first 5-year plan, 1966-70, envisaged an outlay of M\$14,742m. The second 5-year plan, 1971-75, envisages an expenditure of M\$16,150m. and aims to help the unemployed and the low-income groups.

TRADE. Total trade (in £1,000 sterling) of Malaysia with UK (British Board of Trade returns):

PENINSULAR MALAYSIA

CONSTITUTION AND GOVERNMENT. The States of the Federation of Malaya, now known as Peninsular Malaysia, comprises the 11 States of Johore, Pahang, Negri Sembilan, Selangor, Perak, Kedah, Perlis, Kelantan, Trengganu, Penang and Malacca. On 31 Aug. 1957 the Federation became the 11th sovereign member-state of the Commonwealth of Nations. For earlier history of the States and Settlements see *THE STATESMAN'S YEAR-BOOK*, 1957, pp. 241 f.

The constitution is based on the agreements reached at the London conference of Jan.-Feb. 1956, between H.M. Government in the UK, the Rulers of the Malay States and the Alliance Party (which at the first federal elections on 27 July 1955 obtained 51 of the 52 elected members), and subsequently worked out by the Constitutional Commission appointed after that conference.

AREA AND POPULATION. The total area of Peninsular Malaysia is about 50,806 sq. miles (131,587 sq. km). The federal capital is Kuala Lumpur.

State	Area (sq. miles)	Population (1970 Census)	Capital	Population (1970 Census)
Johore	7,330	1,277,180	Johore Bahru	135,936
Kedah	3,639	954,947	Alor Star	66,179

SABAH

HISTORY. The territory now named Sabah, but until Sept. 1963 known as North Borneo, was in 1877-78 ceded by the Sultans of Brunei and Sulu and various other rulers to a British syndicate, which in 1881 was chartered as the British North Borneo (Chartered) Company. The Company's sovereign rights and assets were transferred to the Crown with effect from 15 July 1946. On that date, the island of Labuan (ceded to Britain in 1846 by the Sultan of Brunei) became part of the new Colony of North Borneo. On 16 Sept. 1963 North Borneo joined the new Federation of Malaysia and became the State of Sabah.

AREA AND POPULATION. Area, about 29,388 sq. miles (80,520 sq. km), with a coastline of about 900 miles. The interior is mountainous, Mount Kinabalu being 13,455 ft (4,175 metres) high. Population (1970 census), 655,295, of whom 421,962 were natives, 140,969 Chinese, 2,489 Europeans and 97,717 others. The native population comprises Kadazans (largest and mainly agricultural), Bajaus and Bruneis (agriculture and fishing), Muruts (hill tribes), Suluks (mainly seafaring) and several smaller tribes.

The island of Labuan, 35 sq. miles (75 sq. km) in area, lying 6 miles off the north-west coast of Borneo is a free port. It has a fine port, Victoria Harbour.

The principal towns are situated on or near the coast. They include Kota Kinabalu, the capital (formerly Jesselton); 1970 census population, 42,000, Sandakan (42,000), Tawau (24,184), Kudat (6,520); and Keningau in the hinterland.

GOVERNMENT AND CONSTITUTION. The constitution of the State of Sabah provides for a Head of State, called the Yang di-Pertua Negara Sabah. Executive authority is vested in the State Cabinet headed by the Chief Minister.

Head of State: Tan Sri Haji Mohd Fuad Stephens, PSM, SPDK, PNBS.

The Cabinet consists of a Chief Minister and 8 ministers.

Chief Minister: Tun Datu Haji Mustapha bin Datu Harun, SMN, SPDK, SIMP, PNBS, SPMJ, SPCM, KRCL, KVO, OBE.

Finance: Datuk Haji Habib Abdul Rahman bin Habid Mahmud, PGDK, ADK, JBS. *Communications and Works:* Datuk Pang Tet Tshung, SPDK. *Agriculture and Fisheries:* Tan Sri Datuk Haji Mohd Said bin Keruak, PMN, SPDK. *Local Government:* Tuan Habib Abdul Rahman bin Habib Mahmud, ADK, JBS. *Social Welfare:* Enche Payar Juman. *Health:* Enche Wong Lok Khiam, ADK. *Co-ordination:* Dato Haji Mohd; Yassin bin Haji Hashim, SPDK, OBE. *Minister without Portfolio:* Dato Khoo Siak Chiew, SPDK.

The Legislative Assembly consists of the Speaker, 32 elected members and not more than 6 nominated members.

The official language was English for a period of 10 years from Sept. 1963 but in Aug. 1973 Bahasa Malaysia was introduced and in 1974 was declared the official language.

EDUCATION. In 1972, there were 117,831 primary and 39,035 secondary pupils. There are 738 primary schools (479 government, 249 grant-aided and 10 private), and 98 general secondary schools (50 government, 36 grant-aided and 12 private) throughout the State. There are 2 teacher-training colleges, Gaya College (268 students) and Kent College (296 students).

The Government also runs 2 vocational schools in Kota Kinabalu and Sandakan offering carpentry, motor mechanics, electrical installation, fitting/turning, radio and television and heavy plant fitting.

The Department of Education also runs further education classes in most towns and districts. The media of instruction in primary schools are Bahasa Malaysia, Malay, Chinese and English. Secondary education is principally English although there are a number of Malay and Chinese secondary schools.

HEALTH. The principal diseases are pulmonary tuberculosis and intestinal infestations.

There are 3 general hospitals (825 beds) and 10 cottage hospitals (879 beds). Thirty-eight dispensaries in outlying districts are staffed by senior dressers under the supervision of district medical officers. There is a mental hospital at Sandakan (330 beds). There are 13 maternity and child health centres. Rural health nurses are being trained to staff 130 village group sub-centres in the remote villages.

JUSTICE. When Sabah attained independence on 16 Sept. 1963 the Supreme Court of Sarawak, North Borneo and Brunei was replaced by the High Court in Borneo with 2 registries for Sarawak (at Kuching) and Sabah (at Kota Kinabalu).

There are native courts with jurisdiction in cases concerning local native customs. Appeal from native courts go to administrative officers, with a final appeal to the Native Court of Appeal.

In 1972, 3,186 convictions were obtained in 5,053 cases taken to court.

SARAWAK

HISTORY. The Government of part of the present territory was obtained on 24 Sept. 1841 by Sir James Brooke from the Sultan of Brunei. Various accessions were made between 1861 and 1905. In 1888 Sarawak was placed under British protection. On 16 Dec. 1941 Sarawak was occupied by the Japanese. After the liberation the Rajah took over his administration from the British military authorities on 15 April 1946. The Council Negri, on 17 May 1946, authorized the Act of Cession to the British Crown by 19 to 16 votes, and the Rajah ceded Sarawak to the British Crown on 1 July 1946.

On 16 September 1963 Sarawak joined the Federation of Malaysia.

AREA AND POPULATION. The area is about 48,250 sq. miles (121,400 sq. km), with a coastline of 450 miles and many navigable rivers.

The population at 1970 census was 975,918, including 386,260 Dayaks; 182,700 Malays; 103,194 other natives; 294,020 Chinese; 9,735 others. Working population (1960), 294,285.

The chief towns are the capital, Kuching, about 21 miles inland, on the Sarawak River (1970 population: 63,535), Sibu, 80 miles up the Rejang River, which is navigable by large steamers (1970 population: 50,635), and Miri, the headquarters of the Sarawak Shell Ltd (1970 population: 35,702).

CONSTITUTION AND GOVERNMENT. On 24 Sept. 1941 the Rajah began to rule through a constitution. Since 1855 two bodies, known as the Supreme Council and the Council Negri, had been in existence. By the constitution of 1941 they were given, by the Rajah, powers roughly corresponding to those of a colonial executive council and legislative council respectively. Sarawak has retained a considerable measure of local autonomy in state affairs. The Council Negri or Legislature consists of 48 elected members and sits for 5 years unless sooner dissolved.

A ministerial system of government was introduced in 1963. The Chief Minister presides over the Supreme Council, which contains no more than 8 other Council Negri members, all of whom are Ministers.

Elections to the Council Negri on 4 July 1970 returned 15 members of the Sarawak Alliance, 12 of the Sarawak United Peoples' Party, 9 of Party Pesaka and 12 of Sarawak National Party. Subsequently 2 members of Sarawak National Party joined Sarawak Alliance. Since the 1970 elections, Sarawak United People's Party has joined together with Party Bumiputra and Party Pesaka forming Sarawak Coalition Government. One opposition party is Sarawak National Party.

Sarawak has 24 seats in the Malaysia Parliament.

Governor: Tun Datuk Tuanku Haji Bujang bin Tuanku Othman, SMN, PSM, SPDK, OBE.

Chief Minister: Datuk Haji Abdul Rahman Ya'kub, SPMJ, SIMP, SPDK, PNBS.

Deputy Chief Minister: Datuk Stephen K. T. Yong, PNBS (*Communications and Works*). *Welfare:* Datuk Penghulu Abok anak Jalin, PNBS. *Local Government:* Sim Khen Hong, JMN. *Youth and Sports:* Nelson K. Ngareng. *Land and Mineral Resources:* Dr Sulaiman Haji Dard. *Special Functions:* Leonard Linggi.

State Secretary: Tan Sri Gerunsin Lembang, PSM, PNBS. *Deputy State Secretary:* Abang Yusuf Puteh, JSM, JBS. *State Attorney-General:* Jemuri Serjan, PBS, JBS. *State Financial Secretary:* Bujang bin Nor, JBS, JSM.

The official languages are Malay and English. The continuing use of English as official language in Sarawak will be reviewed in 1973.

Budget. In 1972 estimated revenue was \$222.8m. (of which State revenue was \$101.4m.); estimated expenditure, \$168.5m. The revenue is derived from export and custom duties royalty on oil, land revenue, timber royalty, trade licenses, income tax and excise revenue.

The second Malaysian 5-year development plan (1971-75) provides for Sarawak an expenditure of \$694.9m.; of this sum \$497.6 m. is to be spent on roads and bridges, land development, port development, education, electricity and water supply, television and agriculture.

PRODUCTION. The State produces rubber (exports, 1972, 19,623 net tons, \$14m.; 1971, 19,279 net tons, \$16.6m.), timber (exports, 1972, 1.1m tons, \$83.5m.; 1971, 1.4m. tons, \$120.8m.), sago (exports 1972, 18,700 tons, \$2.3m.; 1971, 22,742 tons, \$3.35m.), pepper (exports, 1972, 25,765 tons, \$58.1m.; 1971, 26,576 tons, \$63.1m.), and other jungle produce. There are also gold (1972, 1,663 troy oz.; 1971, 1,428 troy oz.) and coal deposits.

COMMERCE. Export of crude oil (Sarawak production), in 1971 was 5.8m. tons (\$321.1m.). The import of crude oil from Brunei dropped sharply, \$75m. in 1972 (\$303m. in 1971).

Total import value, 1972, \$470m.; 1971, \$693m. Export, 1972, \$604m.; 1972, \$787m.

ROADS. There are no railways. In 1972 there were 2,072 miles of roads, consisting of 354 miles of bitumen surfaced, 1,150 miles of gravel or stone surfaced and 569 miles of earth roads.

SHIPPING. In 1972 Sarawak ports loaded 6.27m. tons (1971: 10.47m. tons) and discharged 2.09m. tons (1971: 6.83m. tons). New Kuching wharf, to be completed in Oct. 1974, will accommodate vessels up to 15,000 tons.

AVIATION. There are daily Malaysian Airline System (MAS) flights between Kuching and Kuala Lumpur *via* Singapore. Major towns in Sarawak are linked up by internal air routes.

POST. There are 46 post offices (including 3 mobile offices) and wireless-telegraph stations and 53 agencies. A telephone system with 57 exchanges (16,883 telephones) covers the country. There is communication by wireless with Singapore and other Commonwealth countries. The government broadcasting service had, at the end of 1972, 36,200 registered receivers.

BANKING. The post office savings bank had 19,433 depositors at the end of 1972; the amount to their credit was \$7,316,000. There are a branch of Bank Negara Malaysia in Kuching, and branches of the Chartered Bank, the Hongkong & Shanghai Bank, the Oversea Chinese Banking Corporation, the Malayan Bank and 7 other banks.

MALTA

HISTORY. Malta was held in turn by Phoenicians, Greeks, Carthaginians and Romans, and was conquered by Arabs in 870. From 1090 it was joined to Sicily until 1530, when it was handed over to the Knights of St John, who ruled until dispersed by Napoleon in 1798. The Maltese rose in rebellion against the French and the island was subsequently blockaded by the British aided by the Maltese from 1798 to 1800. The Maltese people freely requested the protection of the British Crown in 1802 on condition that their rights and privileges be preserved. The islands were finally annexed to the British Crown by the Treaty of Paris in 1814.

On 17 April 1942, in recognition of the steadfastness and fortitude of the people of Malta during the Second World War, King George VI awarded the George Cross to the island.

AREA AND POPULATION. The area of Malta is 94.9 sq. miles; Gozo, 25.9 sq. miles; Comino, 1.075 sq. miles; total area 121.8 sq. miles (316 sq. km), Population, census 27 Nov. 1967, 314,216; estimate, 31 Dec. 1972, 318,530 (including temporary visitors). Chief town and port, Valletta, population 15,191 (1972).

VITAL STATISTICS, 1972: Births, 5,385; deaths, 2,891; marriages, 2,935; net emigration, 1972, 2,961; gross emigration (including emigrants who later returned), 3,163.

CONSTITUTION AND GOVERNMENT. Malta was granted a measure of self-government (subject to the reservation of certain powers to the Governor) under a constitution introduced by letters patent dated 5 Sept. 1947. On the resignation of the Government led by D. Mintoff on 24 April 1958 and the disturbances that followed, a state of emergency was declared on 30 April 1958,

and the direct administration of the island was assumed by the Governor. On 15 April 1959 the state of emergency was brought to an end and the 1947 constitution was replaced by an interim constitution. A new Constitution was introduced by the Malta (Constitution) Order in Council, 1961, under which the island became known as 'the State of Malta'. The UK Government retained responsibility for defence and external affairs.

On 20 Aug. 1962 the Prime Minister made a formal request for independence within the Commonwealth. Following a constitutional conference in July 1963 and further talks in London, a referendum was held in the island in May 1964 to decide on the form of the Independence Constitution. A Malta Independence Bill was passed by the House of Commons and by the Malta Legislative Assembly. The Maltese Parliament also agreed to Malta's applying for Commonwealth membership. Malta became independent on 21 Sept. 1964.

The new Constitution provides for a parliament consisting of Her Majesty and a House of Representatives of 55 elected members and a Cabinet consisting of the Prime Minister and such number of Ministers as may be appointed. The Constitution makes provision for the protection of fundamental rights and freedom of the individual, and ensures that all persons in Malta shall have full freedom of conscience and religious worship.

Maltese and English, and such other language as may be prescribed by Parliament, are the official languages.

Elections were held June 1971. State of parties in March 1972: Malta Labour Party, 28; Nationalist Party, 27.

The Cabinet (Malta Labour Party) was sworn in on 21 June 1971.

Governor-General: Sir Anthony J. Mamo, OBE, QC.

Prime Minister, Minister for Commonwealth and Foreign Affairs: Dom Mintoff. *Justice and Parliamentary Affairs:* Dr Anton Buttigieg. *Education and Culture:* Agatha Barbara. *Finance and Customs:* Dr J. Abela. *Development:* Dr Albert V. Hyzler. *Health:* Dr D. Piscopo. *Public Building and Works:* L. Sant. *Labour, Employment and Welfare:* Dr Jos Cassar. *Trade, Industry, Agriculture and Tourism:* Paul Xuereb.

EDUCATION. As a result of the introduction of secondary education for all, the primary schools now have a 6-year course. Admission to secondary schools is at the age of 11. There were 108 government primary schools in Malta and Gozo with 27,717 pupils, of whom 14,358 were boys and 13,359 girls. There were 40 government secondary schools with 23,122 pupils, of whom 10,842 were boys and 12,280 girls. Four of the secondary schools have a curriculum with a technical bias. A system of area secondary schools was introduced from Oct. 1972. There were 3 technical institutes, 2 in Malta and 1 in Gozo with 1,279 students and 366 apprentices. A college of arts, science and technology with 1,294 students and industrial training centres and annexes with 164 students, 140 males. In Sept. 1973, there were 6 trade schools for boys with 719 students. There were 81 private schools with 7,000 pupils at primary and nursery level and 5,500 pupils at secondary level. These schools are nearly all state-aided.

384 students attend schools for the handicapped and 5,018 students were enrolled at the evening classes. In 1973, 122 students attended teacher-training courses.

347 students attend the Junior College and 1,233 regular students attend the Royal University.

CINEMAS (1972). There were 37 cinemas with a seating capacity of 30,175.

NEWSPAPERS. There are 3 English and 3 Maltese daily newspapers.

WELFARE. The National Insurance Act, 1956, provides cash benefits for marriage (women only), sickness, unemployment, widowhood, orphanhood, invalidity, old age and industrial injury. An agreement, signed on 26 Oct 1956, established reciprocity in matters of social insurance between Malta and the UK.

The total number of persons in receipt of benefits on 31 March 1973 was 24,362,

viz., 1,585 in receipt of sickness benefit, 2,008 unemployment benefit, 267 injury benefit, 138 disablement benefit, 92 death benefit, 15,576 old-age pensions, 3,865 widows' pensions, 10 guardian's allowance and 821 invalidity pensions.

The National Assistance Act, 1956, provides for the payment of social assistance and medical assistance, while the Old Age Pensions Act of 1948 provides for the payment of non-contributory old-age pensions to persons over 60 years of age and to blind persons over the age of 14 years.

The number of households in receipt of social assistance and of medical assistance on 31 March 1973 was 4,043 and 4,559 respectively, and the number of old-age pensioners under the Old Age Pensions Act, 1948, was 9,121.

JUSTICE. The number of persons convicted in 1972 of crimes was 2,383; those convicted for contraventions against various laws and regulations numbered 10,630. 78 were committed to prison. 3 male juveniles were committed to St Philip Neri School, 10,667 were awarded fines, 1,038 were admonished and reprimanded, 836 were released under the provisions of the Probation of Offenders Act, 1957.

Police. On 31 Dec. 1972 police numbered 44 officers and 1,304 other ranks, including 9 women police.

FINANCE. Currency. Central Bank of Malta notes of £M1, £M5 and £M10 denominations are in circulation. Notes issued by the Government of Malta the Currency Notes Ordinance 1949 are still legal tender. On 16 May 1972 under a new decimal system was introduced and UK coinage previously in circulation ceased to be legal tender in Malta after 4 Oct. 1972. Malta coins are issued in the following denominations: 50, 10, 5, 2 and 1 cents; 5, 3 and 2 *mils*. Total notes in circulation on 31 Dec. 1972 was £M61,614,000; coins, £M2,222,000.

Budget. Revenue and expenditure (in £M) for financial years ending 31 March:

	1969-70	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	33,576,720	47,285,265	45,888,251	49,896,506	50,733,000
Expenditure	33,524,977	49,581,534	51,805,042	42,199,274	50,733,000

¹ Estimated.

The most important sources of revenue are customs duties, income tax, licences, stamp duties, succession and donation duties, post office, water receipts, land revenue, interest, profit from lotteries, receipts from the Central Bank of Malta and rent for defence facilities.

ECONOMY. The diversification of the Maltese economy away from dependence on earnings from foreign military bases by 1979, forms one important objective of government policy. The attainment of economic viability within the next few years entails the rapid re-allocation of capital and manpower resources. Industrial expansion needs to be stimulated and increasingly re-oriented in favour of projects of the fairly large type, particularly in terms of employment, which utilize male skilled labour and are largely oriented towards export markets. Manufacturing absorbed about 25% of the total gainfully occupied population in 1971 and contributed some 20% to the GNP. Tourism continues to expand and visitors come from an increasingly diversified market though the British tourists are in the majority.

AGRICULTURE. The chief products are wheat, potatoes, onions, beans, vegetables, tomatoes, forages, flowers and seeds, grapes and other fruits. The total value of agricultural produce during the agricultural year 1971-72 was £M11.5m. Area cultivated, 30,396 acres.

Livestock in Sept. 1972: Horses, mules and donkeys, 3,513; cattle, 8,004; sheep and lambs, 7,020; goats, 14,002; pigs, 48,000 (estimated); poultry and rabbits, 815,615.

FISHERIES. The fishing industry occupied 805 motor and 164 other fishing boats, engaging about 500 persons (full-time) in 1972. The catch in 1972 was 23,100 cwt valued at £M453,482 at first sale.

INDUSTRY. Investors in industry in Malta are offered the following advantages: repatriable dividends and profits, a skilled labour force, an ideal geographical position, a developed infrastructure, a favourable customs tariffs with the British Commonwealth and EEC. Provision is also made for dumping and countervailing duties. About 160 aided projects are in operation in various sectors. Of special interest at present are units from satellite electronic and electrical industries and light engineering in general. The Malta Development Corporation, which, under an agency agreement with the government, supervises the industrial development of the island, may also take up equity capital in certain projects.

ELECTRICITY. All towns and villages in Malta and Gozo are provided with electric current. The islands obtain their electricity power supplies from 2 interconnected power stations located at Marsa (Malta) having a total installed capacity of 115 mw. The bigger power station with a generating capacity of 85 mw is also equipped with distillation plant capable of also producing fresh water for public consumption at the rate of 1m. gallons per day.

The gross electricity consumption in 1972 was 323.8m. kwh.

TOURISM. In 1973, 211,196 tourists visited Malta, 116,678 from UK, 8,958 from USA and 24,552 from Italy.

LABOUR. The male working population in 1972 was estimated at 76,160, distributed as follows: Agriculture, 5,087; fishing, 540; service departments including HM Forces, 5,166; private industry, 47,065; government, 18,302. Approximately 24,248 women were in gainful employment. The number of registered unemployed as at 31 Dec. 1972 was 6,360.

There were 56 trade unions registered as at 31 Dec. 1972, with a total membership of 41,211.

MAURITIUS

HISTORY. Mauritius was known to Arab navigators probably not later than the 10th century. It was probably visited by Malays in the 15th century, and was discovered by the Portuguese between 1507 and 1512, but the Dutch were the first settlers (1598). In 1710 they abandoned the island, which was occupied by the French under the name of Ile de France (1715). The British occupied the island in 1810, and it was formally ceded to Great Britain by the Treaty of Paris, 1814. Mauritius attained independence on 12 March 1968.

AREA AND POPULATION. The island, situated 20° S. Lat., 57½° E. Long., is of volcanic origin. The climate is free from extremes of weather, except for tropical cyclones at times. A very severe cyclone occurred on 27-28 Feb. 1960. Yearly rainfall varies from 30 in. on the north-west coast to 200 in. in the uplands.

Mauritius has an area of about 720 sq. miles (1,843 sq. km). According to the census of 30 June 1962, the population of the island was 681,619 (342,306 males, 339,313 females); that of the dependencies was 19,400. The estimated population at the end of 1972 was 833,977, and the population of Port Louis, the capital with its suburbs, numbered (1971) 142,300. Port Louis was granted city status on 25 Aug. 1966.

Vital statistics, 1971: Births, 20,834 (25.3 per 1,000); marriages, 4,346 (10.6 per 1,000); deaths 6,248 (7.6 per 1,000).

CONSTITUTION AND GOVERNMENT. Mauritius became an independent state and a monarchical member of the British Commonwealth on 12 March 1968 after seven months of internal self-government. The Governor-General is the local representative of HM the Queen, who remains the Head of the State.

In accordance with the Mauritius Independence Order 1968 the Cabinet is presided over by the Prime Minister, who is also the Minister for External Affairs. Each of the other 18 members of the Cabinet is responsible for the administration of specified departments or subjects and is bound by the rule of collective responsibility. There are also 8 Parliamentary Secretaries appointed by the Governor-General on the advice of the Prime Minister.

The Legislative Assembly consists of a Speaker and 62 elected members (3 each for the 20 constituencies of Mauritius and 2 for Rodrigues) and 8 additional seats in order to ensure a fair and adequate representation of each community within the Assembly. General Elections are held every 5 years on the basis of universal adult suffrage.

The Constitution also provides for the Public Service Commission and the Judicial and Legal Service Commission, which have both assumed executive powers for appointments to the Public Service. An Ombudsman assumed office on 2 March 1970. Adequate provision is also made for the protection of fundamental rights and freedoms of the individual.

Governor-General: Sir Raman Osman, GCMG, CBE.

Prime Minister: Dr The Rt. Hon. Sir Seewoosagur Ramgoolam, Kt.

RELIGION. At the 1962 census there were 218,572 Roman Catholics, 7,692 Protestants (Church of England and Church of Scotland). The Hindus numbered 332,851 and the Moslems, 110,332. State aid is granted to the churches and amounted to Rs 842,630 in 1971-72.

EDUCATION. Primary education is free but not compulsory, though under the Education Ordinance of 1957 compulsion may be introduced as circumstances permit. At the end of Oct. 1971 there were 180 government and 55 state-aided schools. Average attendance at government schools was 92,680 (108,269 on roll) and at state-aided primary schools 32,727 (39,849 on roll). There were, in Oct. 1971, 2 state senior primary schools, 1 for boys and 1 for girls, and 1 state mixed central school (405 on roll) providing a free 3-year post-primary pre-vocational course with emphasis on handicraft and homecraft, 113 unaided primary schools with an enrolment of 1,621, 6 grant-aided and 25 unaided secondary schools with primary sections with an enrolment of 2,592.

For secondary education there were in Oct. 1971, 3 government boys' schools (one of which has technical and commercial streams) and 1 government girls' school with 2,839 pupils, and 13 aided and 122 unaided secondary schools for boys and girls, with a roll of 7,213 and 37,146 respectively.

There is also a teachers' training college (668 on roll) and 5 vocational training centres (95 on roll).

Government expenditure on education in 1970-71 was Rs 35.7m., excluding capital expenditure on new buildings and other development work, which cost Rs 3.1m.

NEWSPAPERS. There are 8 French daily papers (with occasional articles in English) with a combined circulation of 82,000 and 4 Chinese daily papers (one of them devoting a full page to articles in French and English) with a combined circulation of 8,250.

FINANCE. Currency. The unit of currency is the Mauritius Rupee, divided into 100 cents; it is equivalent to 7½p sterling or approximately US cents 19.5.

The currency consists of: (i) Bank of Mauritius notes of Rs 50, 25, 10 and 5; (ii) Cupro-nickel coins of 1 rupee, ½ rupee, ¼ rupee and 10 cents; (iii) Bronze coins of 5 cents, 2 cents and 1 cent.

Notes and coins in circulation as at 30 June 1972 amounted to Rs 123,718,815 and Rs 7,702,090 respectively.

Budget. Revenue and expenditure (in Rs) for years ending 30 June:

	1967-68	1968-69	1969-70	1970-71	1971-72
Revenue	232,452,925	249,025,470	228,019,960	259,668,773	294,080,491
Expenditure	232,282,351	248,631,550	227,339,519	254,504,384	283,185,489

Principal sources of revenue, 1970-71: Direct taxes, Rs 74,230,890; indirect taxes, Rs 161,886,880; receipts from public utilities, Rs 24,555,353; receipts from public services, Rs 9,085,567; interests and royalties, Rs 14,825,898; reimbursement, Rs 6,461,010. Capital expenditure, 1971-72, was Rs 100,809,102; capital receipts, Rs 130,286,603.

On 30 June 1972 the debt of Mauritius was Rs 471,066,882.

DEFENCE. On 30 June 1968 the Mauritius Naval Volunteer Force was disbanded. The Mauritius Police is equipped with arms; its strength (including the Special Force) at 31 Aug. 1972 was 2,373 officers and men (establishment: 2,616). The British Garrison left Mauritius on 30 June 1960 after 150 years of service in the island. It was replaced, for purposes of internal security, by the Special Mobile Force with an authorized establishment of 8 officers, and 333 other ranks.

AGRICULTURE. The area planted with sugar-cane is 214,050 acres. There were (1972) 21 factories in operation and the amount of sugar produced was 33,765 metric tons of white sugar and 587,322 metric tons of raw sugar. 140,158 metric tons of molasses were also produced.

The main secondary crops are tea (10,000 acres, yielding 4,089 metric tons of tea), tobacco (1,000 acres, yielding 562 metric tons of tobacco), aloe (1,787 acres, yielding 1,976 metric tons of fibre), potato (1,347 acres, yielding 8,928 metric tons) and onion (565 acres, yielding 2,500 metric tons of green onions).

FORESTRY. The total forest area is estimated at approximately 100,000 acres; if scrub and grazing lands are included the total would probably come to 165,000 acres.

In 1971 sales of forest produce from Crown land totalled about 1.5m. cu. ft, worth Rs 0.36m. Free collections of firewood could not be accurately estimated, nor could the production from private lands.

TOURISM. In 1973, 60,000 tourists visited Mauritius, spending about Rs 50m.

LABOUR. There were on 31 Dec. 1971, 115 registered trade unions, including 14 employers' unions, with a total membership of 36,040.

COMMERCE. Total trade in rupees for calendar years:

	1967	1968	1969	1970	1971
Imports ¹	371,081,146	421,101,157	375,964,388	419,900,000	461,636,833
Exports ²	306,772,377	354,011,977	365,174,327	383,400,000	360,756,311

¹ Excluding bullion and specie.

² Including value of sugar quota certificates.

In 1971, 21.8% of the imports came from UK, 7.9% from South Africa and 6.6% from Australia; 55% of the exports went to UK, 28% to Canada and 6.04% to USA.

Sugar exports in 1971, 489,323 metric tons (Rs 313,420,142); 1970, 572,400 metric tons (Rs 328,100,100).

Total Trade between Mauritius and UK, in £1,000 sterling (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	24,269	21,739	22,495	17,462	27,091	28,328
Exports and re-exports from UK	5,915	4,841	5,899	8,350	8,122	10,538

SHIPPING. The registered shipping, as at 31 Dec. 1971, consisted of 8 motor vessels (16,423 NRT). In 1971, 1,143 vessels (101 of which were British) of 2,410,027 NRT entered and 1,128 vessels (97 of which were British) of 2,394,749 NRT cleared Mauritius.

ROADS. There are 9.5 miles of motorway, 351 miles of main roads, 369 miles of urban roads and 380 miles of rural roads. All the main urban and rural roads have a bitumen surface. At 31 Dec. 1971 there were 13,142 cars, including 1,357 for public hire, 788 buses, 3,222 motor cycles and 2,729 auto cycles. Commercial vehicles comprised 5,114 lorries and vans and 1,003 haulage tractors.

AVIATION. The airport (Plaisance) is operated and managed by the Government. Air France and Air Mauritius operate jointly a scheduled service 6 times weekly between Mauritius and Réunion, whence connexions to Madagascar, Europe and elsewhere can be made. British Airways provide a twice-weekly service between London and Mauritius via Nicosia and Nairobi, and Nairobi and Seychelles respectively. Lufthansa operate a weekly service between Frankfurt and Mauritius via Cairo, Entebbe, Nairobi and Dar es Salaam. Qantas and South African Airways operate a schedule service twice weekly between Australia and South Africa, the route being Sydney-Mauritius-Johannesburg. South African Airways also operate a twice-weekly service between Durban and Mauritius. East African Airways operate a weekly service London-Mauritius via Nairobi and Dar es Salaam. Air India operates a twice-weekly service between Bombay and Mauritius. Zambia Airways provide a weekly service between Lusaka and Mauritius via Blantyre and a technical stop at Tananarive. Air Mauritius provide

a scheduled domestic service to Rodrigues thrice a week. Alitalia operate a weekly service to Rome.

TELECOMMUNICATIONS. In Dec. 1971 there were 25 telephone exchanges and 19,113 telephone stations. Communication with other parts of the world is established *via* radio links. A radio-telephone service operates with all East African countries and islands, UK, Irish Republic, Israel, USA, Canada, India, Australia, New Zealand, South Africa, Algeria, Morocco, Tunisia, Hawaii and most European countries.

Television was introduced in Feb. 1965.

BANKING. The Bank of Mauritius was established in 1966, with an authorized capital of Rs 10m., to exercise the function of a central bank. There are 7 commercial banks, the Mauritius Commercial Bank Ltd (established 1838), Barclays Bank International, the Bank of Baroda Ltd, The Mercantile Bank Ltd, the Mauritius Co-operative Central Bank Ltd, Banque Nationale de Commerce et d'Industrie (Ocean Indien) and the Habib Bank (Overseas) Ltd. Other financial institutions include the Mauritius Housing Corporation, the Development Bank of Mauritius and the post office savings bank.

On 30 June 1971 the post office savings bank held deposits amounting to Rs 29,003,316, belonging to 93,929 depositors.

DEPENDENCIES

RODRIGUES (under a Magistrate and Civil Commissioner) is about 350 miles east of Mauritius, $9\frac{1}{2}$ miles long, $4\frac{1}{2}$ miles broad. Area, 40 sq. miles (103.6 sq. km). Population (census 1962), 18,335; estimated population on 31 Dec. 1971, 24,712 (12,115 males; 12,597 females). Imports, 1970, Rs 7,379,752; 1971, Rs 8,070,147. Exports, 1970, Rs 1,721,947; 1971, Rs 1,543,655. There are 2 government, 5 aided primary and 2 private secondary schools.

LESSER DEPENDENCIES. Agalega, St Brandon Group. St Brandon is 250 miles from Mauritius. Total population of the lesser dependencies, census 1962, 1,062. The main exports (to Mauritius) in 1970 were 158 metric tons of salted fish.

In 1965 the Chagos Archipelago was transferred to the newly created colony of British Indian Ocean Territory (*see* Seychelles).

NAURU

AREA AND POPULATION. The island is situated 0° 32' S. lat. and 166° 55' E. long. Area, 5,263 acres (2,130 hectares). It is an oval-shaped upheaval coral island of approximately 12 miles in circumference, surrounded by a reef which is exposed at low tide. There is no anchorage. On the seaward side the reef dips abruptly into the deep waters of the Pacific. On the landward side of the reef there is a sandy beach interspersed with coral pinnacles. From the sandy beach the ground rises gradually, forming a fertile section ranging in width from 150 to 300 yd and completely encircling the island. On the inner side of the fertile section there is a coral cliff which rises to a height of 200 ft. Above the cliff there is an extensive plateau bearing phosphate of a high grade, the mining rights of which were vested in the British Phosphate Commissioners until 1 July 1970, subject to the rights of the Nauruan landowners. In July 1970 the Nauru Phosphate Corporation assumed control and management of the enterprise. It is chiefly on the fertile section of land between the sandy beach and the plateau that the Nauruans have established themselves. With the exception of a small fringe round a shallow lagoon, about 1 mile inland, the plateau, which contains the phosphate deposits, has few food-bearing trees and is not settled by the Nauruans.

At 30 June 1972 the population totalled 6,768, of whom 3,471 were Nauruans, 883 Chinese, 627 Europeans and 1,787 other Pacific Islanders.

Vital statistics, 1971-72: Births, 227; deaths, 37.

GOVERNMENT. The island was discovered by Capt. Fearn in 1798, annexed by Germany in Oct. 1888, and surrendered to the Australian forces in 1914. It was administered under a mandate, effective from 17 Dec. 1920, conferred on the British Empire and approved by the League of Nations until 1 Nov. 1947, when the United Nations General Assembly approved a trusteeship agreement with the governments of Australia, New Zealand and UK as joint administering authority.

A Legislative Council was established by the Nauru Act, passed by the Australian Parliament in Dec. 1965 and was inaugurated on 31 Jan. 1966. The trusteeship agreement terminated on 31 Jan. 1968, on which day Nauru became an independent republic but having special relationship with the Commonwealth. An 18-member Legislative Assembly was elected on 29 Jan. 1972.

President and Minister for Foreign Affairs: Hammer DeRoburt, OBE.

EDUCATION. Attendance at school is compulsory for all children between the ages of 6 and 15 (if European) and 6 and 17 (if Nauruan). In 1970 there were 9 primary schools, 94 teachers and 1,465 pupils and 2 secondary schools with 28 teachers and 368 pupils. Scholarships are available for Nauruan children to

receive secondary and higher education and vocational training in Australia. University scholarships are available to the University of Papua New Guinea, the University of South Pacific and other centres.

FINANCE. Revenue and expenditure (in \$A) for financial years ending 30 June: 1971-72, revenue, 7,503,943; expenditure, 7,721,890 (health 389,738, education, 649,194).

The interests in the phosphate deposits were purchased in 1919 from the Pacific Phosphate Company by the governments of the UK, the Commonwealth of Australia and New Zealand, at a cost of £Stg3.5m., and a Board of Commissioners representing the 3 governments was appointed to manage and control the working of the deposits. In May 1967, in Canberra, the British Phosphate Corporation agreed to hand over the phosphate industry to Nauru and on 15 June 1967 agreement was reached that the Nauruans could buy the assets of the B.P.C. for approximately \$A20m. over 3 years. Final payment was made on 23 April 1969 and control was handed over on 1 July 1970.

It is estimated that the deposits will be exhausted by the end of the century.

COMMERCE. The export trade consists almost entirely of phosphate shipped to Australia, New Zealand and Japan. Phosphate exported, 1971-72, 750,000 tons. The imports consist almost entirely of food supplies, building construction materials and machinery for the phosphate industry. Value of imports, 1970-71, \$A4.5m.

Trade with the UK (British Board of Trade returns, in £1,000 sterling):

	1968	1969	1970	1971	1972	1973
Imports to UK	783	336	—	8	—	—
Exports from UK	37	1,231	63	41	74	15

SHIPPING. The Nauru Local Government Council owns 4 ships. These ships ply between Australia, Pacific Islands and Japan. Other shipping coming to the island consists of those under charter to the phosphate industry.

AVIATION. There is an airstrip on the island and Air Pacific Ltd conduct a fortnightly service *via* Tarawa from Fiji. Air Nauru operates a weekly service from Melbourne in Australia *via* Noumea and Honiara and to Majuro and Tarawa each alternate week. There is also an air service to Japan.

TELECOMMUNICATIONS. Direct daily schedules are maintained with Sydney (N.S.W.), Suva and Nandi (Fiji), Tarawa, Ocean Island and Port Moresby, and with merchant shipping—both long- and short-wave transmission. A radio-telephone circuit is maintained Mondays to Sundays with Sydney. A separate tele-radio service exists between Nauru and Ocean Island.

NEW HEBRIDES CONDOMINIUM

Nouvelles Hébrides

The New Hebrides group lies roughly 500 miles west of Fiji and 250 miles north-east of New Caledonia. The group is administered for some purposes jointly, for others unilaterally, as provided for by Anglo-French Convention of 27 Feb. 1906, ratified 20 Oct. 1906, and a protocol signed at London on 6 Aug. 1911 and ratified on 18 March 1922. The interests of British, French and New Hebrideans,

respectively, are protected; the conditions of land-holding in the islands fixed, and the regulation of the recruitment of native labour provided for. Within the islands Great Britain and France are represented by High Commissioners who delegate their powers to Resident Commissioners stationed in the group.

British Resident Commissioner: R. W. H. du Boulay, CVO.

French Resident Commissioner: R. Langlois.

AREA AND POPULATION. The estimated land area is 5,700 sq. miles (14,760 sq. km). The larger islands of the group are: Espiritu Santo, Malekula, Epi, Pentecost, Aoba, Maewa, Paama, Ambrym, Efate, Erromanga, Tanna and Aneityum. There are 3 active volcanoes, on Tanna, Ambrym and Lopevi, respectively. Earth tremors are of common occurrence. Rainfall at Vila averages 90 in. per annum.

The first complete census was taken in 1967. The total population was found to be 77,988, of whom 72,243 were New Hebrideans.

HEALTH. Malaria and helminthic infections are important causes of morbidity. The incidence and prevalence of tuberculosis remains high but a campaign is now being conducted by the Condominium Health Service involving mass immunization with BCG.

Curative services are provided by the British and French Medical Departments. The British Administration has a hospital at Vila and another at Tanna and supports voluntary agency hospitals on Aoba, Epi and Aore. French Administration hospitals are situated at Vila, Santo, Malekula, Tanna and Tongoa and are largely staffed by French military medical officers. The new French hospital, Vila, was in operation in late 1973, and the new British Base Hospital, Vila, will be in operation in 1974. There are clinics in the Banks and on Pentecost, Malekula, Tongoa and Paama staffed by either mission nursing sisters or British medical assistants. There are also about 70 dispensaries scattered throughout the Group staffed by locally trained nurses. A joint rural health service provides a preventive service in the islands supervising and anti-tuberculosis campaign and general immunization programme. A malaria control programme began in 1973.

EDUCATION. Education is the responsibility of the British and French National Services, which organize parallel and separate systems. The Condominium Government makes an annual subsidy to each administration (\$A162,500 in 1972). The British National Service finances directly 6 primary schools, 1 secondary school and a teachers' college; it also aids 125 schools managed by district education committees, and voluntary agencies. The French Administration administer 47 government schools and assists 37 French mission schools. Secondary education is provided by the French *lycée* and the British secondary school and 4 voluntary agency high schools. In 1972, 68 students, sponsored and supported by the British National Service were studying overseas.

FINANCE. The Condominium budget for 1973 balanced at \$A9m. British National Service revenue 1973 (estimate) balanced expenditure at \$A6.15m. French National Service estimates, 1971, envisaged revenue and expenditure balancing at \$A4,975,470. Australian decimal currency was introduced in 1966. It and the New Hebrides franc are the currencies in use.

JUSTICE. There are Condominium and English and French national courts.

DEVELOPMENT. In 1970 a joint development plan was prepared for the 5-year period 1971-75. The plan provides for a balanced and co-ordinated programme of development in those sectors of the economy for which the joint administration is responsible. It is financed from Condominium funds, grants from the British and French Governments, and loans. The plan envisages a total expenditure of \$A8,884,500 on public works, communications, urban development and national resources. The new Vila deep-water quay was completed in 1972.

PRODUCTION. The main commercial crops are copra, cocoa and coffee. Yams, taro, manioc and bananas are grown for local consumption. A large number of cattle are reared on plantations and a beef industry is developing.

The manganese mine, established at Forari on Efate by the Compagnie Française des Phosphates de l'Océanie, closed in 1968 but was reopened in 1970 by Southland Mining of Australia. Timber (Kauri pine) is exploited on Aneityum and a forestry industry is established on Erromanga. There are no heavy industry but there is increasing activity in light industry. Subsistence fishing is done by the New Hebrideans, and a plant for freezing of tuna and bonito commenced operation in 1957. This plant, which is sited on Santo, freezes and packages for export to Japan and elsewhere, fish caught by Taiwanese and other vessels under contract to the British company running the plant. There is a shipyard at Santo.

COMMERCE. In 1972 imports totalled \$A23m. and exports \$A12,073,000.

Principal imports were foodstuffs, timber, mineral fuels, agricultural machinery and motor vehicles. Principal exports were copra (\$A1,372,000), sintered manganese ore (\$A400,000), fish (frozen) (\$A8,985,000), timber (\$A388,000), meat, canned (\$A254,000), meat, chilled (\$265,000).

SHIPPING. Shipping services link the New Hebrides with Australia, UK and Europe, USA/Canada, South America, North Africa, West Indies, Formosa, China, Japan, New Guinea, Hong Kong, Singapore, New Zealand, Tahiti, New Caledonia, Fiji and the B.S.I.P. Small vessels give a frequent inter-islands service. In 1972, 386 vessels of 609,151 net tons entered and left New Hebrides; 55 of them (228,452 tons) from UK, 32 (87,577 tons) from France, 36 (69,862 tons) from Japan.

ROADS. The Public Works Department maintains limited roads on Efate, Santo, Tanna, Pentecost and Malekula. There are, in addition, tracks usable by motor vehicles on some of the other islands.

AVIATION. Air Pacific operates a service three times a week; Suva, Vila, Honiara (with a weekly service to Port Moresby and Brisbane) and return to Suva, where regular services to Australia, New Zealand, USA and Britain are provided by Qantas, British Airways and other carriers. Union de Transports Aériens provides a 4 times-weekly air service to and from New Caledonia, whence there are regular services to Australia, New Zealand and Tahiti. A local airline, Air Melanesiae, provides air services throughout the Group. There are 13 local aerodromes on various islands. In 1971 there were 597 international flights into the Group, landing 16,781 passengers.

TELECOMMUNICATIONS. Telegraphic communication is by direct wireless contact with Suva, Honiara, Noumea and Sydney, and there is an internal network of teleradio stations. There is also a radio-telephone service with Honiara, Noumea, Suva and Sydney, from where the service can be extended to USA, Europe, etc. Air radio facilities are provided. Marine coast station facilities are available at Vila and Santo. Telex became available in Vila in 1973.

Radio Vila operates a broadcasting service on 5 days a week for limited periods.

BANKING. There are branches of the Bank of Indo-China at Vila and Santo and savings bank agencies of the Commonwealth Bank of Australia at Vila, Santo, Tanna and Aoba. The Bank of Australia and New Zealand and Barclays Bank International have branches in Vila.

NEW ZEALAND

HISTORY. The first European to discover New Zealand was Tasman in 1642. The coast was explored by Capt. Cook in 1769. From about 1800 onwards, New Zealand became a resort for whalers and traders, chiefly from Australia. By the Treaty of Waitangi, in 1840, between Governor William Hobson and the representatives of the Maori race, the Maori chiefs ceded the sovereignty to the British Crown and the islands became a British colony. Then followed a steady stream of British settlers.

The Maoris are a branch of the Polynesian race, having emigrated from the eastern Pacific before and during the 14th century. Between 1845 and 1848, and between 1860 and 1870, misunderstandings over land led to war, but peace was permanently established in 1871, and the development of New Zealand has been marked by racial harmony and integration.

CONSTITUTION AND GOVERNMENT. Definition was given the status of New Zealand by the (Imperial) Statute of Westminster of Dec. 1931, which had received the antecedent approval of the New Zealand Parliament in July 1931. The Governor-General's assent was given to the Statute of Westminster Adoption Bill on 25 Nov. 1947.

The powers, duties and responsibilities of the Governor-General and the Executive Council under the present system of responsible government are set out in Royal Letters Patent and Instructions thereunder of 11 May 1917, published in the *New Zealand Gazette* of 24 April 1919. In the execution of the powers vested in him the Governor-General must be guided by the advice of the Executive Council.

The following is a list of Governors-General, the title prior to June 1917 being Governor:

Earl of Liverpool	1917-20	Lord Freyberg, VC	1946-52
Viscount Jellicoe	1920-24	Lord Norrie	1952-57
Sir Charles Fergusson, Bt	1924-30	Viscount Cobham	1957-62
Lord Bledisloe	1930-35	Sir Bernard Fergusson	1962-67
Viscount Galway	1935-41	Sir Arthur Porritt, Bt	1967-72
Sir Cyril Newall	1941-46	Sir Denis Blundell	1972-

Parliament consists of the House of Representatives, the former Legislative Council having been abolished since 1 Jan. 1951.

The statute law on elections and the life of Parliament is contained in the Electoral Act, 1956. In 1969 the voting age was reduced from 21 to 20 years.

The House of Representatives consists of 87 members, including 4 Maoris, elected by the people for 3 years. The 4 Maori electoral districts cover the whole country and adult Maoris of half-blood or more are the electors. A half-caste Maori is entitled to register either for a European or a Maori electoral district. Women's suffrage was instituted in 1893; women became eligible as members of the House of Representatives in 1919. The House in 1973 included 4 women members.

During Parliamentary sittings the proceedings of the House are broadcast regularly on sound radio.

House of Representatives as composed in 1973: Labour, 53; National Party, 34; total 87.

LOCAL GOVERNMENT. For purposes of local government New Zealand is divided into counties, boroughs and town districts. Some counties are subdivided into ridings. There are also numerous other local authorities created for specific functions, such as electric-power districts, river (*i.e.*, river protection) districts, gas districts, pest destruction districts, etc.

AREA AND POPULATION. There are two principal islands, the North and South Islands, besides Stewart Island, Chatham Islands and small outlying islands, as well as the territories overseas (*see* pp. 451 ff.).

New Zealand (*i.e.*, North, South and Stewart Islands) extends over 1,100 miles from north to south. Area, excluding territories overseas, 103,736 sq. miles; North Island, 44,281 sq. miles; South Island, 58,093 sq. miles; Stewart Island, 670 sq. miles; Chatham Islands, 372 sq. miles; minor islands, 320 sq. miles. Total, 66,390,700 acres. Census population, exclusive of territories overseas:

RELIGION. No direct state aid is given to any form of religion. For the Church of England the country is divided into 7 dioceses, with a separate bishopric (Aotearoa) for the Maoris. The dioceses of Melanesia and Polynesia also form part of the Province of New Zealand.

The Presbyterian Church is divided into 23 presbyteries and the Maori Synod. The Moderator is elected annually. The Methodist Church is divided into 10 districts; the President is elected annually.

The Roman Catholic Church is divided into 4 dioceses, with the Archbishop of Wellington as Metropolitan Archbishop.

EDUCATION. New Zealand has 6 universities, the University of Auckland, University of Waikato (at Hamilton), Victoria University of Wellington, Massey University (at Palmerston North), the University of Canterbury (at Christchurch) and the University of Otago (at Dunedin). There is, in addition, Lincoln College near Christchurch, a university college of agriculture, which is a constituent college of the University of Canterbury. The number of students in 1972 was 38,766. There were 9 teachers' training colleges with 8,083 students in 1972.

At 1 July 1972 there were 223 state secondary schools with 9,491 full-time teachers and 162,981 pupils. There were also 55 district high schools with 3,870 scholars in the secondary division. At 1 July 1972, 81,075 part-time pupils attended technical classes, and 16,293 receiving part-time instruction from the technical correspondence institute. At 1 July 1972, 726 pupils received tuition from the secondary department of the correspondence school. There were 114 registered private secondary schools with 1,424 teachers and 29,804 pupils.

At 1 July 1972 there were 2,252 state primary schools (including intermediate schools and departments), with 468,592 pupils; the number of teachers was 17,839. A correspondence school for children in remote areas and those otherwise unable to attend school had 1,117 primary pupils. There were 331 registered primary schools with 1,660 teachers and 50,859 pupils.

Education is compulsory between the ages of 6 and 15. Children aged 3 and 4 years may enrol at the 340 free kindergartens maintained by Free Kindergarten Associations, which receive government assistance. There are also 633 play centres which also receive government subsidy. In July 1972 there were 26,870 and 19,300 children on the rolls respectively.

Total expenditure out of government funds in 1972-73 upon education was NZ\$376.8m.

ORGANIZATIONAL CONTROL. The universities and the affiliated agricultural colleges are autonomous bodies. Most secondary schools are controlled by their own boards. Virtually all state primary schools are controlled by the district education board: there are 10 education districts. The Department of Education exercises certain defined functions in connexion with the general supervision of the education provided in state primary and secondary schools and disburses the government grants payable to controlling authorities for the running of those schools. Education in state schools is free for children under 19 years of age. Private schools are regularly visited by state school inspectors.

CINEMAS. There were in 1971, 210 cinemas with a seating capacity of 129,434.

NEWSPAPERS. There were, in April 1968, 41 daily newspapers (9 morning and 32 evening) with a combined circulation of 1,044,000. Eight of these newspapers (2 each in Auckland, Wellington, Christchurch and Dunedin) had a circulation of 727,500.

JUSTICE. The judiciary consists of the Chief Justice, 3 judges of the Court of Appeal and 14 Supreme Court judges, 2 judges of the Court of Arbitration and one judge each for the Courts of Compensation and Land Valuation.

At the end of 1972 the gaols and Borstal institutions contained 2,643 prisoners, 2,523 males and 120 females. In 1972, 12,748 persons were received into all penal institutions.

The death penalty for murder was replaced by life imprisonment in 1961.

The Criminal Injuries Act, 1963, which came into force on 1 Jan. 1964, provided for the compensation of persons injured by certain criminal acts and of the dependants of persons killed by such acts.

Police. The police in New Zealand are a national body maintained wholly by the central government. The total strength at 31 March 1973 was 3,560, the proportion of police to population being 1 to 836. The total cost of police services for the year 1972-73 was NZ\$26.2m., equivalent to \$8.82 per head of population.

Ombudsman. This office (currently held by Sir Guy Powles, KBE, CMG) was created in 1962. His principal function is to investigate complaints from members

of the public relating to administrative decisions of government departments and related organizations.

From 1 Oct. 1962 to 31 March 1973, 8,745 complaints were received, 837 of which were held to be justified and were rectified by the department or organization concerned. No complaint of actual malpractice has been found justified.

HEALTH. In 1968 there were 3,182 doctors (1,335 in general practice). On 31 March 1972 there were 17,024 hospital beds, of which 2,979 were for maternity cases.

SOCIAL SECURITY. New Zealand's record for progressive legislation reaches back to 1898, when it was second only to Denmark in introducing non-contributory old-age pensions.

The present system is based on the Social Security Act 1938, which came into operation from 1 April 1939. In a comprehensive scheme it provides for retirement, unemployment, widowhood, invalidity and sickness, as well as hospital and other medical care. Since 1 April 1969 the scheme has been financed from general taxation. Previously there was a special social security tax on virtually all income of individuals and companies in excess of \$4 a week which met approximately three-quarters of the cost of the scheme, the balance being met from general taxation.

At 1 Aug. 1973 the current weekly rates of age, widows', invalids', miners' and superannuation benefits were as follows:

Unmarried persons	\$23.70
Unmarried under 20 (invalids' benefit only)	\$18.00
Married persons (each)	\$17.75
Married man with dependent wife (age, invalids' and miners' benefit only)	\$39.50

For sickness and unemployment benefits the rates were:

Unmarried persons under 20	\$18.00
Unmarried over 20	\$23.70
Married persons	\$19.75
Married man with dependent wife	\$39.50

There are additional payments for dependent children.

All benefits except superannuation and family allowances are subject to an income test.

Family Benefit. A family benefit of \$3 a week is payable for each dependent child.

Unemployment Benefit. The payment is subject to the conditions that the applicant is unemployed, has taken reasonable steps to find work and is capable and willing to undertake suitable employment.

Age Benefit. The usual qualifying age is 60 years for both men and women, but the benefit may be granted to an unmarried woman between 55 and 60 years of age who is unable to engage in regular employment. The standard income test applies. Where the wife of a man receiving age benefit is not eligible herself, the husband can receive the benefit at double the rate for the married person.

Superannuation Benefit. The qualifying age for both men and women is 65 years. For a married couple to both receive the benefit each must qualify independently. There is no income test, but a superannuation benefit is not payable in addition to any other benefit except a family benefit.

Sickness Benefit. Payment is subject to medical evidence of incapacity of a person who has suffered a loss of weekly earnings as a result. In no case may the rate of benefit exceed the amount of weekly earnings lost. The standard income test applies.

Other benefits include emergency benefits and supplementary assistance for those who are in need but who either do not qualify for one of the standard benefits or who have special needs or commitments for which a benefit at the standard rate is insufficient.

Medical, Hospital and Related Benefits. In addition to monetary benefits, medical, hospital and other related benefits are also provided under the Social Security scheme. These consist mainly of the payment of certain prescribed fees for medical attention by private practitioners, free treatment in public and mental hospitals, certain prescribed fees for treatment in private hospitals, maternity benefits (including ante-natal and post-natal treatment and services of doctors and nurses at confinements), pharmaceutical benefits (medicines, drugs, etc., prescribed by medical practitioners), etc. There are also benefits in connection with dental services up to the age of 16, X-ray diagnosis, massage, home-nursing, artificial aids, etc.

Pensions (including economic pensions). Provision is made for the payment of pensions and allowances, on certain conditions, to members or dependants of disabled, deceased or missing members, of the New Zealand Forces who served in the South African War, the two World Wars, the Korean War, to members of the New Zealand Mercantile Marine during the Second World War, or in connexion with any emergency whether arising out of the obligations undertaken by New Zealand in the Charter of the United Nations or otherwise. Members of the Emergency Reserve Corps and Civil Defence Organization are also provided for. Principal rates are: War pensions (mercantile marine and emergency reserve corps pensions on similar lines) are payable to widows at a rate of \$13.05 a week, together with a mother's allowance of \$12 a week, increased by \$3 a week for the second child and \$1.25 each additional child, in addition to the normal child allowance of \$3 per week for each child. The rate for total disablement is \$17.70. These rates may be increased by an amount not exceeding \$10.65 per week if the pensioner is suffering from total blindness, two or more serious disabilities or one extremely severe disability.

An 'economic pension' is defined as a supplementary pension granted on economic grounds and is additional to any pension payable as of right in respect of death or disablement. The maximum weekly rates are \$19.75 to a married person (if unmarried, \$23.70) or the widow or dependent widowed mother of a member.

War veterans' allowances are \$910 a year plus an equal amount to a wife, increased by \$78 each at age 65, subject to income qualifications.

Reciprocity with Other Countries. There are reciprocal arrangements between New Zealand and Australia in respect of age, invalids', widows', family, unemployment and sickness benefits, and between New Zealand and Great Britain and between New Zealand and Northern Ireland in respect of family, age, superannuation, widows', orphans', invalids', sickness and unemployment benefits.

NATIONAL INCOME. Some of the more important national income aggregates for 4 years are given in the following tables (in NZ\$1m.):

Year ended 31 March	Private income	Public authority trading income	National income at factor cost (national income)	National income at market prices	Gross national product
1969	3,877	185	3,649	3,974	4,310
1970	4,296	202	4,051	4,399	4,756

Other personal income:				
Farming	286	302	315	378
Business and investment	331	402	468	515
Producer Board surpluses	-8	-8	-3	65

FINANCE. Currency. Decimal currency was introduced on 10 July 1967. The monetary unit is the New Zealand dollar, divided into 100 cents. On 21 Nov. 1967 New Zealand devalued its currency by 19.45% in relation to the US dollar, bringing the NZ dollar to parity with the Australian dollar. On 23 Dec. 1971 the NZ dollar was devalued by 1.75% to retain parity with the Australian dollar. The New Zealand currency was floated from July 1973.

Budget. The following tables of revenue and expenditure relate to the Consolidated Revenue Account, which covers the ordinary revenue and expenditure of the general government—i.e., apart from capital items, commercial and special undertakings, advances, etc. Revenue in the Account (in NZ\$1m.) was as follows:

Year ended 31 March	Customs and excise	Sales tax	Income tax and social security tax	Other taxes	Trading profits and depart- mental receipts	Interest	Total
1970	156.2	97.6	779.2	69.1	73.3	89.9	1,265.4
1971	182.4	125.3	957.3	98.0	86.4	97.7	1,547.1
1972	197.9	139.5	1,161.1	208.4	93.7	106.4	1,820.7
1973	210.2	171.1	1,314.5	230.8	98.8	119.0	2,135.8

Expenditure from the Consolidated Revenue Account was as follows (in NZ\$1m.):

Year ended	Debt services	Social services ¹	Industrial development	Defence	Total (including other)
31 March					
1970	185.2	707.0	81.5	89.7	1,275.1
1971	204.1	833.3	118.6	109.1	1,560.8
1972	218.0	996.2	136.4	121.2	1,816.3
1973	236.5	1,239.6	153.0	129.8	2,141.0

¹ Includes education, health, and social security.

Taxation receipts in 1972-73 for all purposes amounted to \$1,926,633,000, giving an average of \$657 per head of mean population. Included in the total taxation is \$95,706,000 National Roads Fund taxation. The estimate for 1973-74 is \$2,271m., the total being inclusive of an estimated \$101m. of National Roads Fund taxation.

The gross public debt at 31 March 1973 was \$3,503m., of which \$2,939m. was held in New Zealand, \$429m. in London and Europe, \$90.4m. in USA and \$68.9m. with the World Bank. The gross annual interest charge on the public debt at 31 March 1973 was \$184,817,000.

DEFENCE. The Defence Act 1971 provides for the constitution, command and administration of the New Zealand Naval Forces, the New Zealand Army and the Royal New Zealand Air Force. The control and co-ordination of defence activities is obtained through the Ministry of Defence. This is a unitary department combining not only all joint-Service functions but also the former Departments of Army, Navy and Air. The Ministry acts as a co-ordinating defence authority to advise the Government on defence policy, planning and expenditure. The Secretary of Defence, in addition to his function as head of the Ministry, is responsible for co-ordinating the business of the Ministry as a whole and for the co-ordination of long-term financial planning. The principal military adviser to the Minister is the Chief of the Defence Staff, who is also the convenor and chairman of the Chiefs of Staff Committee, which comprises the Chief of the Defence Staff and the Chiefs of the Naval, General and Air Staffs.

The major corporate body within the Ministry of Defence is the Defence Council, which consists of the Minister as Chairman, the Secretary of Defence and the Chief of the Defence Staff as deputy chairmen and the Chiefs of Staff of the 3 services, and may co-opt officers of other departments. Subject to the control of the Minister of Defence, the Defence Council is responsible for the administration and command of the Defence Forces and for advising the Minister on important matters of defence policy.

Army. The Army is organized into 2 commands, each of which is directly responsible to Defence Headquarters for the performance of its functions: (a) Home Command provides the home support for the Army in New Zealand, and (b) Field Force Command commands and administers those elements of the Army which have an operational role in the event of mobilization. These include a combat brigade group and a logistic support force with regular, integrated regular and territorial units. Units deployed in South-East Asia are grouped under the command of Headquarters New Zealand Army Force, Far East, located in Singapore. A regular force battalion is stationed in Malaysia as part of the Commonwealth Strategic Reserve. From 1965-71 New Zealand contributed regular infantry companies, an artillery battery and a medical team for military operations in Vietnam.

Regular personnel, in 1973, totalled 5,498 all ranks; territorial personnel totalled 3,155; the cadet corps totalled 10,760 cadets.

Navy. The Royal New Zealand Navy is administered by the Chief of Naval Staff and the Deputy Chief of Naval Staff at Defence Headquarters, the new organization set up in 1971 in place of the three Service Boards (*see THE STATESMAN'S YEAR-BOOK, 1972-73*).

The RNZN ships include 4 frigates, 1 surveying vessel (*ex-frigate*), 2 escort

minesweepers, 4 new patrol craft, 11 old defence launches, 1 oceanographic research ship and 2 tenders.

Personnel, on 31 March 1973, totalled 2,972 officers and ratings and 2,500 in the naval reserve.

Air Force. The Chief of Air Staff and Air Officer Commanding the RNZAF exercises command and administration of the RNZAF, assisted by the RNZAF Air Staff as well as the integrated staff of Defence Headquarters in Wellington. Below the Air Staff in Defence Headquarters, the RNZAF is organized on a two-group basis, comprising the RNZAF Operations Group and RNZAF Support Group. Operations Group, with its headquarters at Whenuapai airfield, is responsible for the operational efficiency, mobility and readiness for overseas deployment of operational units in the strike, maritime and transport roles. Support Group, with its headquarters at Wigram, is responsible for the co-ordination and control of all ground and flying training in the RNZAF. Operational squadrons are No. 1 (Bristol Freighter) Squadron, No. 3 Bell 47, UH-1H Iroquois and Wasp helicopters) Squadron, No. 5 (Orion) Squadron, No. 14 (Skyhawk/Strikemaster) Squadron, No. 40 (Hercules) Squadron, No. 41 (Bristol Freighter/Iroquois) Squadron, No. 42 (Dakota) Squadron and No. 75 (Skyhawk) Squadron. Training aircraft comprise Airtourers, Harvards and Devons.

The strength on 31 March 1973 was about 4,319 regular personnel and 118 non-regular personnel. About one-quarter of the 105 aircraft are combat types. Three Iroquois helicopters and 3 Bristol Freighters are based in Singapore as part of ANZUK force.

PLANNING. A series of 'key sector' conferences were held between 1953 and 1964 to plan the development of housing, industry, exports and agriculture. Long-term economic projections were used as the basis from planning targets for sector production for up to a decade ahead. The experiences gained from these conferences resulted in the National Development Conference held in May 1969. Among the major targets adopted by the conference were an increase in real GNP of 4½% per annum; an increase in exports of 6.6% per annum; and an increase in the proportion of GNP used for investment. Major expansions are planned for tourism, forestry and agriculture. The National Development Council, representing both Government and the private sector, is continuing the work of the conference. The targets are being revised to adjust to the effects of marketing of farm products posed by the accession of the UK to the Treaty of Rome.

Major industrial developments in recent years have included the establishment of a large-scale timber, pulp and paper industry and an oil refinery. Electricity generating capacity has been doubled in 10 years. An iron and steel industry using New Zealand iron sands has been developed, as has an aluminium smelter using hydro-electric power. Natural gas deposits are being commercially exploited.

AGRICULTURE. Two-thirds of the surface of New Zealand is suitable for agriculture and grazing. The total area under cultivation at 31 Jan. 1970 was 23,161,802 acres (including residential area and domestic orchards). There were 20,415,404 acres of sown pasture, including areas sown with crops, and 1,186,563 acres of timber plantations. The area of Crown lands (other than reserves) leased under various tenures at 31 March 1972 was 14,892,000 acres.

The largest freehold estates are held in the South Island. The extent of occupied holdings of or over 10 acres as at 31 Jan. 1960 (exclusive of holdings within borough boundaries) was as follows:

Size of holdings (acres)	Number	Acres	Size of holdings (acres)	Number	Acres
10- 19	4,549	61,808	2,000- 4,999	2,021	6,091,356

1,000-1,999	3,981	5,446,555			
			Total	76,928	44,018,897

The acreage and produce for each of the principal crops are given as follows (area and yield for threshing only, not including that grown for chaff, hay, silage, etc.):

Crop years	Wheat			Oats			Barley		
	Acre	1,000 bushels	Average per acre	Acre	1,000 bushels	Average per acre	Acre	1,000 bushels	Average per acre
1970	268,000	10,553	39.38	52,000	3,181	61.17	139,000	7,692	55.33

Private air companies are carrying out such aerial work as top-dressing, spraying and crop-dusting, seed-sowing, rabbit poisoning, aerial photography and surveying, and dropping supplies to deer cullers and dropping fencing materials in remote areas. The main aerial activity was top-dressing, statistics for the year ended March 1973 being: Hours flown, 112,305; fertilizer distributed, 1.23m. tons.

Livestock in 1972: 8,773,662 cattle (including 2,199,764 milch cows), 60,883,000 sheep and 580,290 pigs. Total meat produced in the year ended 30 Sept. 1972 was estimated at 1,086,000 tons (including 400,000 tons of beef and 365,000 tons of lamb). Total liquid milk produced in the year ended 31 May 1973 was 1,316m. gallons; of this, 1,151m. were used for butter and cheese making.

Production of wool for the 12 months ended 30 June 1973, 309,000 metric tons (greasy basis); exports of all wool in the year ended 30 June 1972, was 276,868 metric tons (1971, 256,151 metric tons).

MINING. New Zealand's production of minerals in 1972 included 13,511 fine oz. of gold, 4,917 tons of diatomite earth, 610 tons of bentonite, 203,234 tons of clay for bricks, tiles, etc., 9,339 tons of potters' clays, 139 tons of iron ore, 1,516,184 tons of limestone for agriculture and 121,253 tons of limestone for industry, 1,443,928 tons of limestone, marl, etc., for cement, 127,564 tons of pumice, 94,660 tons of serpentine, 108,336 tons of silica sand. Mineral fuel production amounted to 2,146,903 tons of coal, 1,118,584 bbls of crude petroleum and 10,627.29m. cu. ft of natural gas. Mineral production for the year was valued at \$64,001,216.

The resources of natural gas discovered in 1961 in the Taranaki area of the North Island are now being developed and natural gas is being supplied for household use to a number of North Island cities, including Auckland and Wellington.

ELECTRICITY. The general policy of the Government in regard to electric power is to supply power in bulk, leaving the reticulation and retail supply in the hands of local authorities. Originally these consisted of cities, boroughs, etc., but, to facilitate the extension of electric supply into country areas, Electric Power Boards were created, and these now embrace most of the country. Some Power Boards operate small generating stations. The present 93 supply authorities consist of 26 NZ Electricity Department generating plants, 41 electric power boards, 25 local councils and 1 plant operated by another government department. Of the 52 generating plants in operation 43 are water-powered, 3 are steam-powered and 6 are oil-gas operated.

Principal statistics for 4 years ended 31 March are:

	1969	1970	1971	1972

TOURISM. The country has a growing tourist industry, and the number of visitors has trebled in the last 8 years. In the year ended 31 March 1973, 337,782 travellers visited New Zealand (including 199,695 tourists), compared with 310,024 (including 176,562 tourists) in 1971-72.

LABOUR. In Dec. 1972 there were 339 industrial unions of workers with a total of 394,748 members.

The industrial distribution of the labour force as estimated in April 1973 was: Primary industries, 141,900; manufacturing, 280,600; construction, 88,800; commerce, 190,100; transport and communication, 103,000; services, 238,900; armed forces, 11,200; unemployed, 2,500; total labour force, 1,150,200.

All employees are covered by the Accident Compensation Act 1972.

Unions of workers and employers are registered under the Industrial Relations Act 1973. To be eligible for registration a society of employers must have not less than 3 members and a society of workers either not less than 15 members or not less than 25% of the total number of workers engaged in the industry in the area concerned, and with an absolute minimum of 5 members. An incorporated company may register itself as an industrial union. The purpose of an industrial union must be the protecting or furthering of the interests of employers or workers in a particular industry or related industries and may not run wider than the industrial matters to which the Act itself relates. New provisions included in the Industrial Relations Act 1973 involved the establishment of an Industrial Commission and an Industrial Relations Council.

According to the British Board of Trade returns, the total trade between UK and New Zealand was as follows (in £1,000 sterling):

	1969	1970	1971	1972	1973
Imports to UK	216,159	203,558	226,637	251,496	276,171
Exports and re-exports from UK	121,330	129,285	146,132	146,764	167,287

SHIPPING. New Zealand is dependent on the services of overseas vessels for the shipment of exports and imports, except for the Trans-Tasman trade with Australia. Container ships operate from Auckland and Wellington to the UK and North America.

Entrances and clearances of vessels from overseas:

	Entrances		Clearances	
	No.	Tons	No.	Tons
1970	3,757	17,258,000	3,749	17,272,000

1972	3,770	18,967,000	3,751	18,831,000

RAILWAYS. On 31 March 1973 there were 2,982 miles of 3 ft 6 in. gauge railway open for traffic. Operating earnings from government railways, 1972-73, \$112,161,556; operating expenses, \$117,196,568. In 1972-73 the tonnage of goods (including livestock) carried was 12,127,211, and passengers numbered 18,564,868. In addition, the railways road motor services carried 20,866,000 passengers. Three rail/road ferries maintain a regular service between the North and South Islands and 1 more vessel is on order.

The total revenue (including road motor and other subsidiary services) amounted to \$134,990,073, and total expenditure \$138,339,895 in 1972-73.

ROADS. Total mileage of formed roads in New Zealand at 31 March 1972 was 59,292. There were 9,773 bridges of over 25 ft in length with a total length of 910,869 ft at 31 March 1971. The network of State highways comprised, at 31 March 1973, 7,233 miles, including the principal arterial traffic routes.

Total expenditure on roads, streets and bridges by the central government and local authorities combined for the financial year 1972-73 amounted to \$141,142,221. New Zealand's road system has been developed as the result of a partnership between central government and local government, i.e., since 1954

between the National Roads Board and the local authorities. The latter are road controlling authorities in their own right and in respect of expenditure on roads are eligible for subsidy payments from the board to supplement their own revenues derived principally from rates (taxes on land).

In the main, roads are financed from the National Roads Fund which is administered by the National Roads Board. This fund which is derived largely from petrol tax is used for the maintenance and improvement of existing roads. The board's income is currently of the order of \$100m. per annum, and is apportioned according to fixed percentages with 50% allocated to state highways, 23% to counties and 16% to municipalities. These sector percentages have been varied twice in the last 10 years in the light of changing needs.

At 31 March 1973 motor vehicles licensed numbered 1,396,667, of which 1,032,228 were cars, 4,217 omnibuses and contract vehicles, 194,654 goods service vehicles. Included in the remaining number were 47,698 motor cycles, 24,950 power cycles and 92,930 farm tractors, road graders, etc. Licensed road goods services for the year ended 31 March 1972 recorded a total vehicle mileage of 345m. Total revenue amounted to \$211m. The road passenger services vehicle miles amounted to 81.6m. and passengers carried totalled 156.1m. Total passenger revenue amounted to \$34.28m. in 1971-72.

AVIATION. Domestic scheduled passenger services are mainly operated by the New Zealand National Airways Corporation. A private company operates an inter-island freight service under contract to the New Zealand Railways Department. International services are operated to and from New Zealand by a state-owned company, Air New Zealand Ltd, and by a number of overseas companies. Non-scheduled services are run by the main companies and also by a number of small operators and aero clubs.

Domestic scheduled services during the 12 months ended March 1973: Passengers carried, 1,715,700; mail, 700.2 ton-miles; freight, 12,411.9 ton-miles. International services: Passengers carried (1972-73), 770,100; mail, 1,649.2 tons; freight, 12,846,046 kg.

POST. Receipts of the Post Office for year ended 31 March 1973 were \$186,873,864; total expenditure was \$188,884,784. Personnel numbered 33,165 (including 4,647 temporary and casual).

The telegraph and telephone systems are operated by the Post Office. At 31 March 1973 there were 885,404 telephone subscribers and 1,358,134 telephones. The telecommunications receipts for the year 1972-73 were \$148,131,796.

An earth satellite station has been built north of Auckland to link with the Pacific satellite Intelsat III to augment the Compac and Seacon telecommunications systems which link New Zealand with overseas countries.

From 1974 the New Zealand Broadcasting Council and 3 corporations are taking over the control and operation of radio and television services. About 64% of New Zealand households have TV sets. There are 47 medium-wave broadcasting stations and 2 short-wave transmitters. Colour TV transmissions were introduced in Oct. 1973 and a second channel is planned for 1975. Some commercial material is broadcast by both sound and TV services. Number of TV receiving licences at 31 March 1973 was 732,000.

BANKING. The Reserve Bank is the sole note-issuing authority. Six denominations of Reserve Bank notes are issued: NZ\$1, 2, 5, 10, 20, 100.

The New Zealand banking system comprises a central bank—the Reserve Bank of New Zealand—5 commercial or trading banks and 18 savings banks (including the post office savings bank). The trading banks have operated savings-bank facilities from 1 Oct. 1964.

The Reserve Bank was set up with £500,000 publicly subscribed shares in 1934;

in 1936 these shares were purchased by the Government and the bank became a state-owned institution. The primary functions of the Bank are to act as the central bank, to advise the Government on matters relating to monetary policy, banking and overseas exchange, and to give effect to the monetary policy of the Government. In 1960 the Bank's statutory powers of credit regulation were extended to the regulation and control on behalf of the Government, of money, banking, credit, currency interest rates and the transfer of money to and from New Zealand, and particularly the control of trading-bank credit. Final authority to determine the London-New Zealand exchange rates has been transferred to the Minister of Finance subject to consultation with the Bank.

Of the 5 trading banks 2 are primarily Australian concerns, 2 have their head office in London and the Bank of New Zealand has been state owned since 1 Nov. 1945.

At the end of March 1973 the amount on deposit at trading banks was \$1,651.4m., while advances amounted to \$974.7m. The weekly average bank debits for 1972 was \$979m.

The number of accounts with the post office savings bank at 31 March 1973 was 2.78m.; amount deposited during year, \$782.4m.; withdrawn, \$736.5m., total amount to credit of depositors at end of year, \$1,038.7m. At 31 March 1973, \$609.9m. was on deposit in 12 Trustee Savings Banks to the credit of 1,432,000 depositors. The amount to the credit of 863,000 depositors with savings accounts in the trading banks was \$399.9m. at 31 March 1973.

WEIGHTS AND MEASURES. It is planned that by Dec. 1976 there will be a substantial conversion to the metric system of weights and measures.

MINOR ISLANDS

The minor islands (total area, 320 sq. miles, 775 sq. km) included within the geographical boundaries of New Zealand are the following: Kermadec Islands, Three Kings Islands, Auckland Islands, Campbell Island, Antipodes Islands, Bounty Islands, Snares Islands, Solander Island. With the exception of Raoul Island in the Kermadec Group (population, 9) and Campbell Island (population, 9) none of these islands is inhabited.

The **Kermadec Islands**, which were annexed to New Zealand in 1887, have no separate administration and all New Zealand laws apply to them. Situation, 29° 10' to 31° 30' S. lat., 177° 45' to 179° W. long., 600 miles N.N.E. of New Zealand. Area, 13 sq. miles (33.5 sq. km). The largest of the group is Raoul or Sunday Island, 20 miles in circuit, while Macaulay Island is 3 miles in circuit.

A meteorological station and an aeradio station have been established on Raoul Island, the official staff of 9 being the only inhabitants.

TERRITORIES OVERSEAS

Territories Overseas coming within the jurisdiction of New Zealand consist of Niue Island, the Tokelau Islands and the Ross Dependency.

Niue Island is one of the Cook Islands, but has been under separate administration since 1903. There is a Resident Commissioner and an Island Assembly, and legislative measures apply as in the case of the Cook Islands. Distance from Auckland, New Zealand, 1,343 miles; from Rarotonga, 580 miles. Area, 100 sq. miles; circumference, 40 miles; height above sea-level, 220 ft. Population at 31 March 1973 was 4,419. During 1971 live births registered numbered 156, deaths 28. Migration to New Zealand is the main factor in population change.

Financial aid from New Zealand, 1972-73, totalled \$1,208,000. Exports, 1971, \$178,969; imports, \$810,682.

There were 10 government schools with 1,618 pupils in 1971. There is a wireless station at Alofi, the port of the island. Telephones in use at 31 March 1969 numbered 172. The most important products of the island are copra, kumaras and bananas.

There is a weekly commercial air service linking Niue with Tonga and Western Samoa.

Tokelau Islands. Situated some 300 miles to the north of Western Samoa between 8° and 10° S. lat., and between 171° and 173° W. long., are the 3 atoll islands of Atafu, Nukunonu and Fakaofu of the Tokelau (Union) group. Formerly part of the Gilbert and Ellice Islands Colony, the group was transferred to the jurisdiction of New Zealand on 11 Feb. 1926. By legislation enacted in 1948, the Tokelau Islands were declared part of New Zealand as from 1 Jan. 1949. The area of the group is 4 sq. miles; the population at 21 Feb. 1972 was 1,600.

By the Tokelau Islands Act 1948 the Tokelau Group was included within the territorial boundaries of New Zealand; legislative powers are now invested in the Governor-General in Council. The inhabitants of the Tokelau Islands are British subjects and New Zealand citizens.

From 1 Jan. 1972 the office of Administrator was invested in the Secretary of Maori and Island Affairs. Certain powers are delegated to the district officer in Apia, Western Samoa.

Because of the very restricted economic and social future in the atolls, the islanders agreed to a proposal put to them by the Minister of Island Territories in 1965 that over a period of years most of the population be resettled in New Zealand. Up to March 1972, 455 migrants have entered New Zealand as permanent residents under Government sponsorship.

New Zealand Government aid to the Tokelau Islands totalled \$306,000 for 1972-73.

Ross Dependency. By Imperial Order in Council, dated 30 July 1923, the territories between 160° E. long. and 150° W. long. and south of 60° S. lat. were brought within the jurisdiction of the New Zealand Government. The region was named the Ross Dependency. From time to time laws for the Dependency have been made by regulations promulgated by the Governor-General of New Zealand.

The mainland area is estimated at 160,000 sq. miles and is completely ice-covered. In Jan. 1957 a New Zealand expedition under Sir Edmund Hillary established a base in the Dependency. In Jan. 1958 Sir Edmund Hillary and 4 other New Zealanders reached the South Pole. Survey parties explored and mapped a large part of the Dependency in 1957-59. Occupation and exploration of the Territory have continued since.

New Zealand is a party to the Antarctic Treaty (1959) which reserves the Antarctic for peaceful purposes. Recent New Zealand legislation enforces measures for the conservation of Antarctic flora and fauna which were adopted under Article IX of the Treaty.

SELF-GOVERNING TERRITORY OVERSEAS

The Cook Islands, which lie between 8° and 23° S. lat., and 156° and 167° W. long., were proclaimed a British protectorate in 1888, and on 11 June 1901 were annexed and proclaimed part of New Zealand. The islands within the territory fall roughly into two groups—the scattered islands towards the north (Northern group) and the islands towards the south known as the Lower group.

Area and Population. The names of the islands with their populations as at 1 Dec. 1971 were as follows:

<i>Lower Group—</i>	<i>Population</i>	<i>Northern Group—</i>	<i>Population</i>
Rarotonga	11,388	Nassau	159
Mangaia	2,071	Palmerston (Avarau)	62
Atiu	1,455	Penrhyn (Tongareva)	612
Aitutaki	2,864	Manihiki (Humphrey)	452
Mauke (Parry I.)	763	Rakahanga (Reirson)	339
Mitiaro	331	Pukapuka (Danger)	728
Manuae and Te au-o-tu	2	Suvarrow (Anchorage)	1
		Total	21,227

Total area of the Cook Islands, excluding Niue, is about 93 sq. miles (241 sq. km). Rarotonga is 20 miles in circumference; Atiu, 20 miles; Aitutaki, 14.5 miles. Total population (1 Dec. 1971, census) 21,227.

In 1970, 773 live births and 168 deaths were registered.

Constitution and Government. The Cook Islands Constitution Act 1964, which provides for the establishment of internal self-government in the Cook Islands, came into force on 4 Aug. 1965.

The Act establishes the Cook Islands as fully self-governing but linked to New Zealand by a common Head of State, the Queen, and a common citizenship, that of New Zealand. It provides for a ministerial system of government with a Cabinet consisting of a Premier and up to 5 other Ministers. The Resident Commissioner became the High Commissioner of the Cook Islands, who exercises the dual functions of representative of the Queen and of the New Zealand Government. New Zealand continues to be responsible for the external affairs and defence of the Cook Islands, subject to consultation between the New Zealand Prime Minister and the Premier. The changed status of the Islands does not affect the consideration of subsidies or the right of free entry into New Zealand for exports from the group.

Health. All Cook Islanders receive free medical and surgical treatment in their villages, the hospital and the tuberculosis sanatorium. Cook Island Maori patients in the hospital and the sanatorium and all schoolchildren receive free dental treatment.

Education. Twenty-four primary schools are established in the various islands. There are also 6 Roman Catholic missionary schools and a Seventh Day Adventist mission school. Post-primary education is provided for by 4 government and 2 mission schools on Rarotonga. The instruction given in government schools is similar to that of the New Zealand state schools, but with a special syllabus suited to the requirements of the people. Regular instruction is given in the Maori language in all classes, while during the first 2 years all instruction is in the vernacular, English being taught only as a subject. Numbers of pupils on the rolls (31 March 1971): Government schools, 6,839; Roman Catholic and Seventh Day Adventist, 376.

Finance. Revenue is derived chiefly from customs duties which follow the New Zealand customs tariff, income tax and stamp sales. Tax receipts (not including customs duties), \$530,138 in 1970.

Grants from New Zealand, mainly for medical, educational and general administrative purposes totalled \$3,728,000 in 1972-73.

Commerce. Exports, mainly to New Zealand, were valued at \$2,692,000 in 1971. Main items of export were fruit juice, citrus fruit, mother-of-pearl shell and copra. Imports in 1971 totalled \$5,766,000. The main items were foodstuffs, drapery and piece-goods, motor vehicles, petrol and oil.

Communications. Wireless stations are maintained at all the permanently inhabited islands. A monthly passenger-cargo shipping service is provided between

New Zealand and Rarotonga. New Zealand has financed the construction of an international airport at Rarotonga which became operational for jet services in Sept. 1973.

BOOKS OF REFERENCE

STATISTICAL INFORMATION. The central statistical office for New Zealand is the Department of Statistics (Wellington, 1).

The beginning of a statistical service may be seen in the early 'Blue books' prepared annually from 1840 onwards under the direction of the Colonial Secretary, and designed primarily for the information of the Colonial Office in England. A permanent statistical authority was created in 1858. The Department of Statistics functions under the Statistics Act 1955 and reports to Parliament through the minister in charge of the Department, who is usually also the Minister of Finance. A comprehensive statistical service has been developed to meet national requirements, and close control is maintained with the United Nations Statistical Office and other international statistical organizations; through the Conference of Asian Statisticians assistance is being given with the development of statistics in the region.

The oldest publications consist of (a) census results from 1858 onwards and (b) annual volumes of statistics (first published 1858 but covering years back to 1853). Main current publications:

FEDERATION OF NIGERIA

HISTORY. The Federation comprises a number of areas formerly under separate administrations. Lagos, ceded in Aug. 1861 by King Docemo, was placed under the Governor of Sierra Leone in 1866. In 1874 it was detached, together with the Gold Coast Colony, and formed part of the latter until Jan. 1886, when a separate 'colony and protectorate of Lagos' was constituted. Meanwhile the National African Company had established British interests in the Niger valley, and in July 1886 the company obtained a charter under the name of the Royal Niger Company. This company surrendered its charter to the Crown on 31 Dec. 1899, and on 1 Jan. 1900 the greater part of its territories was formed into the protectorate of Northern Nigeria. Along the coast the Oil Rivers protectorate had been declared in June 1885. This was enlarged and renamed the Niger Coast protectorate in 1893; and on 1 Jan. 1900, on its absorbing the remainder of the territories of the Royal Niger Company, it became the protectorate of Southern Nigeria. In Feb. 1906 Lagos and Southern Nigeria were united into the 'colony and protectorate of Southern Nigeria', and on 1 Jan. 1914 the latter was amalgamated with the protectorate of Northern Nigeria to form the 'colony and protectorate of Nigeria', under a Governor. On 1 Oct. 1954 Nigeria became a federation under a Governor-General.

CONSTITUTION. On 1 Oct. 1960 the Federation of Nigeria became sovereign and independent and a member of the Commonwealth of Nations. On 1 Oct. 1963 Nigeria became a republic.

At the plebiscite held on 11 Feb. 1961 the northern portion of the trusteeship

territory of the Cameroons voted to join Nigeria while the southern Cameroons opted for unification with the Cameroun Republic.

The official language is English.

On 15 Jan. 1966 a group of 25 officers staged a military *coup d'état* and murdered the Federal Prime Minister, Sir Abubakar Tafawa Balewa, the Federal Minister of Finance, Chief Festus Okotie-Eboh, the Premier of Northern Nigeria Sir Ahmadu Bello, the Premier of Western Nigeria, Chief S. L. Akintola, the Adjutant-General of the Army, Lieut.-Col. Jack Pam, and other officers. By 17 Jan. Maj.-Gen. Johnson Aguiyi-Ironsi, head of the army, had suppressed the revolt and assumed supreme power.

Gen. Ironsi suspended the constitution and set up a supreme military council. All political parties and tribal associations were abolished. On 24 May the 'regions' were replaced by 'provinces' and the name of the Federation was changed to 'Republic of Nigeria'.

On 29 July 1966 the regime of Gen. Ironsi was overthrown by a military coup, leaders of which accepted Lieut.-Col. Yakubu Gowon as a compromise leader. By decree of 31 Aug. he restored, as from 1 Sept., the federal system of government. The National Military Government was renamed the Federal Military Government, the provinces became again regions and the capital territory of Lagos again the federal territory of Lagos.

On 27 May 1967 the Federal Republic was divided into 12 states, 6 in the former Northern Region, 3 in the former Eastern Region, a new Lagos state, the West and Mid-West.

On 30 May Lieut.-Col. Ojukwu, the Military Governor of the Eastern States, announced secession from the Federal Republic of Nigeria and renamed the region as the Republic of Biafra.

On 9 Aug. the Mid-West State was taken by Col. Ojukwu's forces but recaptured by the federal army later that year. By April 1968 the federal army had reconquered the greater part of the breakaway states. In Jan. 1970 the rebellion had collapsed and Col. Ojukwu fled the country leaving Col. Philip Effiong to surrender to Federal forces.

Head of State: Maj.-Gen. Yakubu Gowon.

LOCAL GOVERNMENT. Local government is the main responsibility of a large number of Native Administrations. Throughout the country, in recent years, the influence of British local government institutions has been increasingly marked. The establishment of Native Authorities or Local Government bodies is controlled by legislation enacted on a state basis. The state government has authority to dismiss or suspend Councils which run into difficulties. The composition and duties of such councils and Native Authorities are defined by law together with procedure for election and appointment of members and officers. In general, the aim has been to retain the traditional rulers and their courts within the framework of local government.

AREA AND POPULATION. Area approximately 356,669 sq. miles (923,773 sq. km). Census population, Nov. 1963, 55,670,052. Estimate (1973) 57,974,122.

The populations of the largest towns are estimated as follows: Lagos, 665,246; Ibadan, 627,379; Ogbomosho, 319,881; Kano, 295,432; Oshogbo, 208,966; Abeokuta, 187,292; Port Harcourt, 179,563; Enugu, 138,457; Aba, 131,003; Ife, 130,050; Benin, 100,694; Jos 90,402; Sokoto, 89,817; Calabar, 76,418.

Topography and Climate. A belt of mangrove swamp forest lies along the entire coastline. North of this there is a zone of tropical rain forest and oil-palm bush some 50–100 miles wide. Farther inland the country rises and the vegetation changes to open woodland and savannah. In the extreme north the country is almost desert. There are few mountains except along the eastern boundary and on the northern plateau, where peaks of over 5,000 ft. occur. The Niger, Benue and Cross are the main rivers.

The climate varies with the types of country, but Nigeria lies wholly within the tropics, and temperatures are high. Temperatures of over 100° are common in the north; coast temperatures are seldom over 90°, but the humidity at the coast is much higher than in the north. Most of the rain falls between April and Sept. in the north and between March and Nov. in the south; rainfall varies from under 25 in. a year to 150 in. During the dry-season the 'harmattan' wind, laden with fine particles of dust, blows from the north-east.

Under a convention concluded in May 1964, Nigeria, Niger, Chad and Cameroun will develop the basin of Lake Chad as a single economic region.

RELIGION. The 1963 census figures were: Moslems, 26.2m.; Christians, 19.2m.; others, 10.1m. Northern Nigeria is mainly Moslem; Southern Nigeria is predominantly Christian. The Protestant and Roman Catholic Churches assess their membership at 2.5m. each.

EDUCATION. On 1 Oct. 1954 education became the responsibility of the Regional Governments, the Federal Government retaining responsibility for education in Lagos and for those institutions of higher learning which have Nigerian significance, such as the University of Ibadan, King's College and the Man o' War Bay Training Centre. Free education for all primary school-children within the 6–12 year age group was implemented in the Western State in Jan. 1955 and in Lagos and the Eastern State in Jan. 1957.

In 1966 there were more than 3.1m. out of over 5m. children of primary school age at school. The demand for secondary education continues to exceed the number of places available, particularly in Eastern and Western States and in Lagos. There are more than 1,000 secondary schools, including some secondary modern schools. All external examinations of the Universities of London and Cambridge have been taken over by the West African Examination Council.

Teacher-training institutions totalled 266 in 1966. There were also 35 trade centres and vocational training institutes for sub-professional technicians' and tradesmen.

The University of Ibadan was founded in 1948, and was an autonomous University College in special relationship with the University of London. Its graduates were prepared for degrees of the University of London. In 1962 the College was transformed into a full University, awarding its own degrees. In 1966 there were about 3,000 full-time students. A 500-bed teaching hospital was opened in 1957.

The University of Nigeria, opened Oct. 1960, had about 3,000 students in 1966.

The Ahmadu Bello University was opened in Oct. 1962 at Zaria in Northern Nigeria. It had almost 1,000 students in 1966.

The University of Ife, in the Western State, founded in Oct. 1961 and formally opened in 1962, includes the Ibadan branch of the former Nigerian College of Arts, Science and Technology. It had about 1,000 students in 1966.

The University of Lagos, concentrating initially on law, medicine and business

administration, was opened in Oct. 1962. It had about 1,000 students in 1966. Total enrolment at Nigerian universities in 1967-68 was 7,058.

CINEMAS (1967). There were 105 cinemas, with a seating capacity of 106,000. Mobile cinemas are used by the Federal and States Information Services.

NEWSPAPERS. There are 49 newspapers and magazines; the highest circulation of a daily is about 120,000. Most of the papers are published in English.

HEALTH. Most tropical diseases are endemic to Nigeria. Blindness, yaws, leprosy, sleeping sickness, worm infections, malaria are major health problems which, however, are yielding to remedial and preventative measures. In co-operation with the World Health Organization river blindness and malaria are being tackled on a large scale, while annual campaigns are undertaken against the danger of smallpox epidemics. Over 33m. people were vaccinated against smallpox in 1968. Dispensaries and travelling dispensaries are found in most parts of the country.

The teaching hospital at Lagos University has 350 beds and a nursing school and a teaching hospital at Ibadan University. Medical courses at Ahmadu Bello University and the University of Ife are planned.

JUSTICE. The highest court is the Federal Supreme Court, which consists of the Chief Justice of the Federation, not less than 3 Federal Judges and the Chief Justice of each State. It has original jurisdiction in any dispute between the Federation and any State or between States; and to hear and determine appeals from any of the High Courts and from any court or tribunal established by Parliament. It may be given powers of advisory jurisdiction by Parliament in respect of the exercise of the prerogative of mercy by the Heads of State of the Federation or the States.

High Courts, presided over by a Chief Justice, are established in most of the states. Magistrates' courts are established throughout the Federation, and customary law courts in Western, Eastern, South Eastern, East Central and Lagos States of Nigeria. In Northern States of Nigeria there are the Sharia Court of Appeal and the Court of Resolution. Moslem Law has been codified in a Penal Code and is applied through alkali courts.

The Advisory Judicial committee has powers of appointment and discipline.

The constitutional safeguard of fundamental rights was suspended 15 Feb. 1966.

Police. The police has a strength of 40,000.

FINANCE. **Currency**. Since 1 Jan. 1973 a decimal currency has been issued by the Central Bank of Nigeria, consisting of *Naira* (₦) and divided into 100 *kobo* (k). Notes in circulation ₦10, ₦5, ₦1, 50k. Coins, 25k, 10k, 5k, 1k, ½k.

Budget. Central government revenue, expenditure and public debt, in £1,000 sterling for fiscal years ending 31 March:

	1962-63	1963-64	1964-65	1965-66	1966-67 ¹	1967-68 ¹
Revenue	115,821	124,576	149,567	160,935	169,598	161,100
Expenditure	152,809	169,466	191,971	214,361	221,496	..
Public debt	113,530	136,872	162,710	189,539	243,401	..

¹ Estimates.

In 1967, £N173.15m. was internal debt, £N70.25m. external.

DEFENCE. **Army**. The Army consists of 3 divisions, including 3 reconnaissance and 3 artillery regiments. Total strength (1973), 150,000.

Navy. Administered by a rear-admiral as Chief of Naval Staff and a commodore as Naval Officer-in-Charge, Lagos. The Navy includes the frigate *Nigeria*

(built in the Netherlands in 1964-65), the corvettes *Dorina* and *Otobo* (built in Britain in 1970-72), 2 new patrol craft, 6 seaward defence boats, 3 fast patrol boats, 1 landing craft and 2 survey craft. There are also 8 small patrol launches operated by the Nigerian Police. Naval personnel (1973), 200 officers and 2,100 ratings.

Air Force. The Nigerian Air Force was established in Jan. 1964. Pilots were trained initially in Canada, India and Ethiopia. The Air Force was built up subsequently with the aid of a West German mission; a few Piaggio P.149D, Do 27 and Do 28 aircraft at the training school at Kaduna survive from this period, but are being superseded by 20 Scottish Aviation Bulldog primary trainers, and 4 twin-engined Dornier Skyservants for instrument training, transport and ambulance duties. Other equipment includes about 15 MiG-17 fighter-bombers, a few MiG-15UTI fighter-trainers and a small number of Il-28 twin-jet bombers and L-29 Delfin armed jet trainers from Czechoslovakia. Four BO 105 twin-turbine helicopters have been acquired from West Germany for search and rescue. Transport units operate a Fokker F.28 Fellowship twin-jet airliner for Presidential use, 6 turboprop Friendships, about 9 DC-3s which are equipped also for bomb-dropping, 2 Navajos and a Navajo Chieftain. A few light helicopters are also in service.

PLANNING. The first national development plan ran from 1962 to 1968; the second plan (1970-74) was launched in 1970 and provides for a total expenditure of £1,596m.

AGRICULTURE. Groundnuts, cotton and soybean come mainly or wholly from the north, palm produce, cocoa, timber and rubber from the south. Tobacco is grown in commercial quantities in parts of the Northern and Western States.

Livestock. In 1972 there were about 1m. cattle, 7.5m. sheep, 21.5m. goats, 700,000 pigs and 66m. poultry.

MINING. There are important tin- and coalmining industries at Jos and Enugu respectively. In 1967 tin production amounted to 12,620 tons; columbite (1967), 1,955 tons; gold (1967), 39 troy oz.; tantalite (1967), 19,304 lb.; coal, 95,000 tons (used mainly in the country); petroleum (1967), 116,519,000 bbls (of 42 gallons).

INDUSTRY. Timber and hides and skins are other major export commodities. Industrial products include soap, cigarettes, beer, margarine, groundnut oil, meat and cake, concentrated fruit juices, soft drinks, canned food, metal containers, plywood, textiles, ceramic products and cement.

POWER. The Electricity Corporation of Nigeria generated 1,064.22m. kwh. in 1965-66. The Niger dams at Kainji were completed in early 1969 (investment of £87m.) and will provide cheap hydro-electricity for rapid industrialization.

COMMERCE. The principal ports are Lagos, Port Harcourt, Sapele, Calabar and Burutu. There is a great deal of internal commerce in local foodstuffs and imported goods moving by rail, lorry and pack animals overland, and by launches, rafts and canoes along an extensive and complex network of inland waterways. Kano is still, as it has been for centuries, the focus of caravan routes linking a territory which stretches from the Sudan on the east to Senegal in the west, with branches northwards across the Sahara.

Imports, exports, re-exports and overseas shipping are shown below:

Merchandise	1967	1968	1969	1970	1971
Total imports (in £1,000)	223,600	192,600	248,700	378,200	539,500
Domestic exports (in £1,000)	238,100	206,510	314,600	438,500	640,400
Re-exports (in £1,000)	3,700	4,600	3,500	4,200	6,200

Total trade between UK and Nigeria, according to British Board of Trade returns (in £1,000 sterling):

	1968	1969	1970	1971	1972	1973
Imports to UK	70,266	104,489	123,874	139,561	156,105	206,836
Exports and re-exports from UK	58,751	79,131	114,385	165,009	153,871	172,654

RAILWAYS. There are 2,680 route miles of line of 3 ft 6 in. gauge. The north-western main line runs from Lagos to Kano (700 miles) through Abeokuta, Ibadan, Ilorin, Jebba, Minna, Kaduna and Zaria. From Kano the line continues for a further 142 miles in a north-easterly direction to its terminus at Nguru, while a branch line from Zaria *via* Gusau to Kaura Namoda serves north-western Nigeria; this line is, in addition, linked with Sokoto by a scheduled railway road service from Gusau. The eastern line runs from Port Harcourt deep-water quay on the Bonny River through the thickly populated oil-palm area to Enugu, where it serves the collieries; it then crosses the Benue River and joins the north-western line at Kaduna (569 miles). A branch line of 63 miles from Kafanchan serves the tin-mines at Jos. An extension from Kuru (near Jos) to Maiduguri (400 miles), to serve the area of Bornu, was opened to traffic in Nov. 1964.

In 1968-69 operating receipts were £11.95m. and working expenditure (including depreciation) was £12.81m.

ROADS (1972). There are about 55,000 miles of maintained roads, of which 9,500 miles are tarred.

In 1969, 133,577 vehicles were registered. Bus services, by private owners, operate in the larger towns and between the main towns in Eastern and Western Nigeria, but the bulk of passenger and goods traffic by road is carried in lorries (mammy wagons). Taxis are available in the large towns.

AVIATION. There is an extensive system of internal and international air routes, serving Europe, South and West Africa. Regular services are operated by Nigerian Airways (WAAC), British Airways, Air France, KLM, SABENA, Swissair, PANAM and other lines. Aircraft arrivals from outside Nigeria in 1961 totalled 3,804, carrying 726 tons of freight. During the year ended 31 March 1962, 60,036 passengers and 924 tons of mail and freight were carried on internal services.

POST. Postal facilities are provided at 1,667 offices and agencies; telegraph, money order and savings bank services are provided at 280 of these. Most internal letter mail is carried by air at normal postage rates. External telegraph services are owned and operated by Nigerian External Telecommunications, Ltd, at Lagos, from which telegraphic communication is maintained with all parts of the world. There were 79,828 telephones in use in 1971, of which 39,199 were in Lagos and 8,154 in Ibadan.

Federal and some state governments have established commercial corporations for sound and television broadcasting, which are widely used in schools.

BANKING. In Aug. 1967 the statutory foreign-exchange cover of the Central Bank was reduced from 40 to 25%, and the percentage of government securities the Bank is permitted to hold was raised from 33½ to 50% of its total liabilities.

The Central Bank of Nigeria, the Standard Bank of Nigeria, Ltd, Barclays Bank of Nigeria, Ltd, the National Bank of Nigeria, the African Continental Bank, the Merchants' Bank, Ltd, the United Bank for Africa, the Bank of America, the Chase Manhattan Bank, the Bank of the North and the Co-operative Bank are the principal banks operating in Nigeria. All banks are required to be registered as Nigerian companies from 1969.

In 1965-66 the post office savings bank had 340,442 depositors holding £2,913,392.

PITCAIRN ISLAND

Pitcairn Island (1.75 sq. miles; 4.6 sq. km) is situated in the Pacific Ocean, nearly equidistant from New Zealand and Panama (25° 04' S. lat., 130° 06' W. long.). It was discovered by Carteret in 1767, but remained uninhabited until

1790, when it was occupied by 9 mutineers of HMS *Bounty*, with 12 women and 6 men from Tahiti. Nothing was known of their existence until the island was visited in 1808. In 1856 the population having become too large for the island's resources, the inhabitants (194 in number) were, at their own request, removed to Norfolk Island; but 43 of them returned in 1859-64. The population has been declining and on 31 Dec. 1972 it was 84.

Pitcairn was brought within the jurisdiction of the High Commissioner for the Western Pacific in 1898 and transferred to the Governor of Fiji in 1952. When Fiji became independent in Oct. 1970, the British High Commissioner in New Zealand was appointed Governor.

The Local Government Ordinance of 1964 constitutes a Council of 10 members, of whom 4 are elected, 5 are nominated (3 by the 4 elected members and 2 by the Governor) and the Island Secretary is an *ex officio* member. The Island Magistrate, who is elected triennially, presides over the Council; other members hold office for only 1 year. Liaison between Governor and Council is through a Commissioner in the Auckland, New Zealand, office of the British High Commission. Fruit, vegetables and curios are sold to passing ships; flour, sugar and other foodstuffs are imported.

The uninhabited islands of Henderson (12 sq. miles), Ducie (2½ sq. miles) and Oeno (2 sq. miles) were annexed in 1902 and are included in the Pitcairn group.

Governor: Sir David Scott, KCMG.

Island Magistrate: Pervis Young (elected Dec. 1972).

ST HELENA

GOVERNMENT. The Government of St Helena is administered by a Governor, with the aid of a Legislative Council consisting of the Governor, 2 *ex-officio* members (the Government Secretary and the Treasurer) and 12 elected members. Committees of the Legislative Council are responsible for the general oversight of the activities of government departments and have, in addition, statutory and administrative functions.

The Governor is also assisted by an Executive Council consisting of the 2 *ex-officio* members and the chairmen of the Council committees.

Governor and C.-in-C.: Sir Thomas Oates, CMG, OBE.

Government Secretary: I. C. Rose, CBE.

AREA AND POPULATION. St Helena, of volcanic origin, is 1,200 miles from the west coast of Africa. Area, 47 sq. miles (121.7 sq. km), with a cultivable area of about 600 acres (243 hectares). The port of the island is Jamestown.

Population (1972), 5,056. Births (living), 124; deaths, 49; marriages, 31; divorces, 5. There are 10 Anglican churches and 4 Baptist chapels.

EDUCATION. Eight primary, 3 senior and 1 secondary schools controlled by the Government had 1,210 pupils in March 1973.

JUSTICE. Police force, 24; cases dealt with by police magistrate, 94 in 1972.

FINANCE AND TRADE, for calendar years, in £ sterling:

COMMUNICATIONS. The number of merchant vessels that called in 1972 was 42; total tonnage entered and cleared was 174,148. There are 48.6 miles of all-weather motor roads.

The Cable & Wireless Ltd cable connects St Helena with Cape Town and Ascension Island. There is a telephone service with 80 miles of wire and 120 telephones.

BANKING. Savings-bank deposits on 31 March 1973, £458,499, belonging to 2,412 depositors.

Ascension is a small island of volcanic origin, of 34 sq. miles (88 sq. km), 700 miles north-west of St Helena. In Nov. 1922 the administration was transferred from the Admiralty to the Colonial Office and annexed to the colony of St Helena. There are 10 acres under cultivation providing vegetables and fruit. Population, 31 Dec. 1946, was 292; 1972, St. Helenians 660, others 469.

The island is the resort of sea turtles, which come to lay their eggs in the sand annually between Jan. and May. Rabbits, wild goats and partridges are more or less numerous on the island, which is, besides, the breeding ground of the sooty tern or 'wideawake', these birds coming in vast numbers to lay their eggs every eighth month.

Cable & Wireless Ltd own and operate a cable station, connecting the island with St Helena, Sierra Leone, St Vincent, Rio de Janeiro and Buenos Aires. There is an airstrip (Miracle Mile) near the settlement of Georgetown.

Administrator: Geoffrey Colin Guy, CMG, CVO, OBE.

Tristan da Cunha, a small group of islands in the Atlantic, half-way between the Cape and South America, in 37° 6' S. lat., 12° 1' W. long. Besides Tristan da Cunha and Gough Island, there are Inaccessible and Nightingale Islands, the former 2 and the latter 1 mile long, and a number of rocks. As from 12 Jan. 1938 the 4 islands have become dependencies of St Helena.

Tristan consists of a volcano rising to a height of 6,760 ft, with a circumference at its base of 21 miles. The volcano, believed to be extinct, erupted unexpectedly early in Oct. 1961. The whole population was evacuated without loss and settled temporarily in the United Kingdom. In 1963 they returned to Tristan.

Before that disaster occurred the habitable area was a small plateau on the north-west side of about 12 sq. miles, 100 ft above sea-level. Only about 30 acres was under cultivation, three-quarters of it for potatoes. There were apple and peach trees; bullocks, sheep and geese were reared, and fish are plentiful.

The island is extremely lonely, but the community was growing. In 1880 it numbered 109, in 1969, 271. The original inhabitants were shipwrecked sailors and soldiers who remained behind when the garrison from St Helena was withdrawn in 1817.

At the end of April 1942 Tristan da Cunha was commissioned as HMS *Atlantic Isle*, and became an important meteorological and radio station. In Jan. 1949 a South African company commenced crawfishing operations. An Administrator was appointed at the end of 1948 and a body of basic law brought into operation. The Island Council, which was set up in 1932, consists of 3 nominated and 8 elected members under the chairmanship of the Administrator, with the Society for the Propagation of the Gospel in Foreign Parts' missionary and the company manager as *ex-officio* members. Women's affairs are discussed by the Island Women's Council, which presents them for consideration to the general council.

Administrator: Maj. J. I. H. Fleming.

SEYCHELLES

HISTORY. The islands were first colonized by the French in the middle of the 18th century, in order to establish plantations of spices to compete with the Dutch monopoly. They were captured by the English in 1794 and incorporated as a dependency of Mauritius in 1814. In 1888 the office of administrator was created, with an Executive Council and a Legislative Council. In 1897 the Administrator was given full powers as Governor, and in Nov. 1903 he was raised to the rank of Governor with the Seychelles archipelago becoming a separate colony.

British Indian Ocean Territory, a new colony created in 1965, consists of the Chagos Archipelago (formerly a dependency of Mauritius), Aldabra, Farquhar and Des Roches.

CONSTITUTION AND GOVERNMENT. A new Constitution was introduced in Nov. 1970 immediately following a general election. The Legislative Assembly consists of 15 elected members, 3 *ex-officio* members and a Speaker. In the election, the Seychelles Democratic Party obtained 10 seats and the Seychelles Peoples United Party 5 seats.

Governor and C.-in-C.: C. H. Allan, CMG, OBE, concurrently Commissioner of the British Indian Ocean Territory.

Chief Minister: Hon. James R. Mancham.

AREA AND POPULATION. Seychelles and its Dependencies consist of 86 islands and islets with a total estimated area of about 107 sq. miles (277 sq. km). The principal island is Mahé (57 sq. miles), smaller islands of the group being Praslin, Silhouette, La Digue, Curieuse and Félicité. Among the outer islands are the Amirantes, Assumption Island, Astove Island, Cosmoledo Island, Providence Island, Coetivy Island and Platte Island.

The capital is Victoria on Mahé, which has a good harbour (population 14,500). The population (census 1971) was 52,650. Estimate (1972) 54,925.

Vital statistics (1972): Births, 1,723; deaths, 520; marriages, 295.

EDUCATION. There are 40 pre-primary units, 2 kindergarten schools, 35 primary schools, 11 junior secondary schools, 2 secondary grammar schools, 8 vocational schools and 1 teacher-training college.

In Jan. 1973 there were 4,982 boys and 5,149 girls in primary schools, 1,284 boys and 1,497 girls in junior secondary and secondary grammar schools, 84 boys and 60 girls in kindergarten schools, 183 boys and 249 girls in vocational training schools and 104 in the teacher-training college. A total of 98 students were undergoing training overseas, mainly in the UK; 45 were at university, 10 undergoing teacher-training and 43 at other vocational training centres (including 13 taking nursing).

JUSTICE. In 1972, 2,738 criminal cases were brought before the courts. The police force numbered 365 all ranks and 75 special constabulary.

FINANCE. Currency. The Seychelles rupee equals £0.07½.

Budget, in rupees, for calendar years, excluding Overseas Aid Scheme:

	1968	1969	1970	1971	1972

Exports (1972) to: USA, Rs 3,836,356; India, Rs 1,534,252; Kenya, Rs 833,888; Mauritius, Rs 768,493; Netherlands, Rs 768,491; UK, Rs 551,150; Brazil, Rs 244,537; South Africa, Rs 233,274; France, Rs 195,252.

TOURISM. The tourist industry is in its embryo stage, but considerable development has taken place since completion of the international airport in July 1971. Two international style hotels opened in 1972. There is a strictly controlled hotel construction programme giving an annual growth rate of 300–500 new beds per annum. Visitors in 1973 numbered 20,000.

COMMUNICATIONS. British Airways operates 3 services a week between London and Mahé, twice weekly from Colombo, Hong Kong and Tokyo, and once a week from Mauritius and Johannesburg. British Caledonian operate

weekly services from London *via* Entebbe and Nairobi. Air Malawi operate weekly services from Blantyre. Further services are planned for 1974.

Shipping (1972), excluding warships and inter-island trading, entered, 692,274 total NRT; goods loaded, 16,034 tons; unloaded (including petroleum products), 106,712 tons. The British-India vessels now call at Victoria, Mahé, each way during their sailings to and from Mombasa, Bombay and Durban. In addition, occasional cargo boats run directly from London (Brocklebank Line), Singapore (Royal InterOcean Line), Australia (Australian Red Sea Line), Durban (Unicorn Line) and from Mombasa (Southern Line). Some of these vessels carry passengers. The BIOT (British Indian Ocean Territory) vessel travels to and from Mombasa and occasionally visits the outlying islands.

There is a good system of tarmac (74 miles) and earth roads (25 miles) in Mahé; Praslin and La Digue have 28 miles (7 miles tarmac); extensive road-making is being undertaken. Services operated by Cable & Wireless Ltd provide telegraphic communications with all parts of the world, the company's radio telephone service also extends to all principal countries in the world, *via* London, and in 1969, a telex system was introduced. Telephones in 1973 numbered 2,281.

BANKING. Barclays Bank International and Standard Bank have branches in Victoria, Mahé.

SIERRA LEONE

HISTORY. The Colony of Sierra Leone originated in the sale and cession, in 1787, by native chiefs to English settlers, of a piece of land intended as a home for natives of Africa who were waifs in London, and later it was used as a settlement for Africans rescued from slave-ships. The hinterland was declared a British protectorate on 21 Aug. 1896.

CONSTITUTION AND GOVERNMENT. The Constitution embodied in the Sierra Leone (Constitution) Order in Council 1961, came into force at Independence on 27 April 1961 when Sierra Leone became a sovereign and independent member state of the Commonwealth of Nations. Sierra Leone was accordingly admitted to the United Nations as the 100th member.

Subject to the provisions of the 1971 Constitution, executive power is vested in the President who is Head of State and Commander of the Armed Forces.

The House of Representatives consists of a Speaker and not less than 60 members elected from constituencies established by an Electoral Commission.

After the elections held on 17 March 1967 the Governor-General Sir Henry Lightfoot-Boston, GCMG, JP, appointed Siaka Stevens, leader of the All People's Congress, Prime Minister on 21 March. On the same day, however, the Government was overthrown by a military coup under the Army Commander, Brig. David Lansana. On 23 March 1967 there was a counter-coup by senior army and police officers who proclaimed the National Reformation Council on 25 March with Brig. Andrew Juxon-Smith as Chairman, Commissioner of Police L. W. Leigh as Deputy Chairman and 6 others.

On the night of 17-18 April 1968 the National Reformation Council was overthrown by army and police non-commissioned officers, who announced the

formation of the Anti-Corruption Revolutionary Movement. The ACRM appointed an Interim Council, but later decided, in concurrence with the elected parliamentarians, that there should be a national government comprising candidates drawn from both political parties, independent candidates and Paramount Chiefs.

On 26 April 1968 constitutional government and civilian rule was restored with the appointment and swearing-in of Siaka Stevens as Prime Minister by the Chief Justice Banja Tejan-Sie, performing the functions of Governor-General.

The Cabinet consists of 20 Ministers from the ruling All Peoples Congress (APC), including 2 Paramount Chiefs as Ministers of State, and 6 Deputy Ministers, with Dr Siaka Stevens as head of the Cabinet.

Sierra Leone became a republic on 19 April 1971.

LOCAL GOVERNMENT. The Provinces are administered through the Department of the Interior and divided into 147 Chiefdoms, each under the control of a Paramount Chief and Council of Elders known as the Tribal Authority, who are responsible for the maintenance of law and order and for the administration of justice (except for serious crimes). 143 of these Chiefdoms have been organized into local government units, empowered to raise and disburse funds for the development of the Chiefdom concerned. In each administrative district there was a fully elective District Council, with a president elected by the members from their number but these were suspended from 1 Jan. 1972.

AREA AND POPULATION. Sierra Leone is bounded on the north-west, north and north-east by the Republic of Guinea, on the south-east by Liberia and on the south-west by the Atlantic Ocean. The coastline extends from the boundary of the Republic of Guinea to the north of the mouth of the Great Scarcies River to the boundary of Liberia at the mouth of the Mano River, a distance of about 212 miles.

The area of Sierra Leone is 27,925 sq. miles (73,326 sq. km). Population (census April 1963, preliminary), 2,183,000; estimate (1966) 2.49m., of whom about 2,000 are Europeans, 3,000 Asiatics and 30,000 non-native Africans. The capital is Freetown, with 128,000 inhabitants.

Sierra Leone is divided into 3 provinces (Eastern, Southern, Northern) covering 12 districts, each administered by a Resident Minister. The principal peoples are the Limbas and Korankos in the north, the Temnes in the centre, and the Mendis in the south.

EDUCATION (1968-69). There were 914 registered primary schools with a total enrolment of 139,413. Primary education is as yet neither free nor compulsory. School attendance varies considerably in different parts of the country. The western area has about 47% of its primary-school-age children in school, while the percentage is as low as 12% elsewhere.

There were 72 secondary schools with a total enrolment of 25,207 pupils; nine of these schools take the pupils up to university level. Technical education was provided in 2 technical institutes, 2 trade centres and in the technical training establishments of the mining companies. There is also a rural institute.

Teacher-training was carried out in 9 training colleges, 2 of which are government-run, 5 mission-operated; 2 in the western area—Milton Margai Teachers Training College and the Freetown Teachers College, are autonomous. The number of teachers in training for the teachers certificate was 901.

Fourah Bay College and Njala University College are the 2 constituent colleges of the University of Sierra Leone. They have a total student enrolment of 1,150 students. The Institute of Education, which is part of the University, is now responsible for teacher education, educational research and curriculum development in the country.

HEALTH. In the western area there are 7 government hospitals (806 beds and 202 cots), including a maternity hospital, a children's hospital and an infectious

diseases hospital near Freetown. A mental hospital at Kissy has accommodation for 217 patients. In the provinces there are 13 government hospitals, 4 hospitals associated with mining companies and 6 mission hospitals. There is a school of nursing in Freetown. There are 107 government dispensaries and health and treatment centres. There is also a military hospital (60 beds).

JUSTICE. The Supreme Court has jurisdiction in civil and criminal matters. Subordinate courts are held by magistrates in the various districts. Native Courts apply native law and custom under a criminal and civil jurisdiction. Appeals from the decisions of magistrates' courts are heard by the Supreme Court. Appeals from the decisions of the Supreme Court are heard by the Sierra Leone Court of Appeal. Appeal lies from the Sierra Leone Court of Appeal to the Privy Council.

Police. The police force at 19 Sept. 1970 had an authorized strength of 68 superior police officers, 68 junior police officers and 1,898 other ranks. In the provinces each Chiefdom keeps an additional force known as Chiefdom Police.

A non-pensionable force, known as the Auxiliary Force and consisting of 2 junior police officers and 272 other ranks, are helping the regular force in maintaining law and order in the diamond protected area in the Eastern Province.

FINANCE. Currency. The Bank of Sierra Leone, which was established on 4 Aug. 1964, is responsible for providing the currency in the country. It introduced on 4 Aug. 1964 a decimal currency, the *leone* and the *cent*. The paper currency consists of 1, 2, 5 *leone* and 50-*cent* notes; the coinage of $\frac{1}{2}$, 1, 5, 10, 20 and 50 *cents*.

The currency is interchangeable with sterling at par. At 31 Dec. 1968 total Sierra Leone notes and coins in circulation was Le. 19,679,354.

Budget. Revenue and expenditure (in leone) for years ending 30 June.

	1967-68	1968-69	1970-71	1971-72	1972-73
Revenue	37,384,358	41,700,000	51,000,000	54,000,000	59,100,000
Expenditure	41,701,151	40,800,000	41,300,000	55,000,000	58,200,000

Estimated ordinary revenue in 1967-68 was Le. 41,716,542; fees, payment for services, etc., Le. 1.31m.; post and telecommunications, Le. 319,266; direct taxes, Le. 10m.; licences, etc., Le. 601,320; reimbursements, royalties and interest, Le. 407,256.

DEFENCE. The Army consists of 1 infantry battalion with supporting services including a signals squadron. Strength, 1,560 officers and men.

The nucleus of an air arm for the defence forces came into existence in 1973, with the delivery of 2 Saab/MFI-15 light training aircraft and 2 Hughes 300 light helicopters from Sweden.

AGRICULTURE. In the western area farming is largely confined to the production of cassava and garden crops, such as maize and vegetables, for local consumption. In the provincial areas the principal products include rice, which is the staple food of the country, and export crops such as palm kernels, cocoa beans, coffee, and ginger. Cattle production is important in the northern part of the country, and most of the poultry, eggs and pork are produced in the western area.

The second agricultural statistical survey showed that in 1970-71 there were 286,137 small holdings cultivating 1,286,348 acres; large farmers cultivated 18,806 acres. Rice plantations covered 807,557 acres; groundnuts, 34,128 acres; coffee, 176,078 acres.

Livestock (rough estimate): Cattle, 170,000; goats, 1.35m.; sheep, 45,800; chickens, 928,700.

FISHERIES. There has been a gradual expansion of the fishing industry due to the introduction of new fishing techniques and gear. The indigenous canoe fishery for sardines and Bonga (*Ethamalosia fimbriata*) was estimated to have produced 24,000 tons of fish in 1966. The Food and Agricultural Organization is carrying out a 5-year survey of pelagic fish resources along the coastline and continental shelf.

Total catch of fish is still below the demand of the country. In 1971, 191,588 cwt of fish were imported at a value of Le. 1,623,065. Total catch for 1968 was 23,000 tons.

MINING. The chief minerals mined are diamonds, iron ore, bauxite and rutile. These minerals accounted for 79% of domestic exports in 1971. Molybdenite and gold are being prospected.

INDUSTRY. Four pioneer oil-mills for the expressing of palm-oil are operated by the Sierra Leone Produce Marketing Board. Government also operates 4 rice-mills, and there are a number of privately owned mills. At Kenema the Government Department of Forest Industries produces sawn timber, joinery products (including prefabricated buildings) and high-class furniture. In addition, there is a smaller privately owned sawmill at Panguma and several small furniture workshops throughout the country. All these products are used internally. Village industries include fishing, fish curing and smoking, weaving and hand methods of expressing palm-oil and cracking palm kernels.

LABOUR. A large proportion of the population was engaged in agriculture and about 125,000 workers were in wage-earning employment. The number of workers in establishments employing 6 or more persons was 65,138 in 1971, distributed as follows: Agriculture, forestry and fishing 5.1%; mining and quarrying, 15%; manufacturing, 8.1%; construction, 12.4%; electricity and water services, 2.6%; commerce, 8.7%; transport, storage and communications, 14.9%; services, 33.2%.

The wage negotiation machinery was recently reorganized and wages and conditions of employment are now regulated by a Joint National Negotiating Board and 14 Trade Group Councils as provided for in the Regulation of Wages and Industrial Relations Act, 18 of 1971.

There are 27 registered trade unions (22 workers and 5 employers). The number of persons registered for employment at the end of 1971 was 7,210, excluding maritime, articulated and the dock workers who are registered in the Port Labour (Maritime, Articled and Harbour) Pools; registrations in these Pools numbered 8,471.

COMMERCE. Total trade (in leone) for calendar years:

	1966	1967	1968	1969	1970	1971
Imports	71,707,000	65,268,000	75,481,995	92,700,000	97,395,175	94,267,571
Exports	59,130,000	50,458,000	75,727,891	89,000,000	83,185,171	82,068,109

In 1965 the principal imports were: Wheat meal and flour, 279,813 cwt, Le. 1,457,987; sugar, 424,760 cwt, Le. 1,795,302; fish, 100,325 cwt, Le. 559,953; milk and cream, 34,253 cwt, Le. 543,450; meat, 3,856 cwt, Le. 203,019; beer, ale, stout and porter, 520,428 gallons, Le. 662,486; tobacco unmanufactured, 24,114 cwt, Le. 997,726; motor spirit, 7,876,813 gallons, Le. 800,204; diesel and gas oil, 41,876,667 gallons, Le. 3,677,988; medicinal and pharmaceutical products, Le. 1,135,879; soap, 73,915 cwt, Le. 529,253; cotton fabrics, 6,100,078 sq. yd, Le. 1,029,786; fabrics of synthetic fibres, 3,430,426 sq. yd, Le. 1,022,758; corrugated-iron sheet, 4,586 tons, Le. 738,546; cement, 27,354 tons, Le. 439,488; motor vehicles, Le. 5,736,093; electrical machinery, Le. 548,605; footwear, Le. 890,113; mining machinery, Le. 1,321,400; radio sets, Le. 287,689.

Principal exports in 1965 were: Palm kernels, 49,274 tons, Le. 5,681,133; coffee (raw), 76,105 cwt, Le. 1,340,765; cocoa, 58,643 cwt, Le. 902,809; piassava,

89,051 cwt, Le 437,000; iron ore, 2,296,812 tons, Le. 10,899,195; diamonds, 1,525,437 carats, Le. 36,959,039; bauxite, 173,472 tons, Le. 578,617.

Of the imports (1971) 28·8% came from UK, 10·2% from Japan, 7·1% from West Germany. Of the exports (1971) 62·8% went to UK, 9·4% to Netherlands, 6·8% to Japan and 6·5% to the USA.

Total trade between Sierra Leone and UK (British Board of Trade returns, in £1,000 sterling):

	1968	1969	1970	1971	1972	1973
Imports to UK	34,807	36,165	31,448	26,912	29,078	40,116
Exports and re-exports from UK	10,034	13,574	12,530	12,673	10,348	12,716

RAILWAYS. A government railway, a single line of 2 ft 6 in. gauge, is open from Clive Town to Komende. The railway is being phased to be replaced by a road network. Total receipts, 1967-68, Le. 690,513; total ordinary working expenditure, Le. 1,685,905.

The Sierra Leone Development Co. Ltd railway (3 ft 6 in. gauge, 58 miles) is used for the transport of iron ore from Marampa to the port of Pepel.

SHIPPING. During 1972 the total tonnage handled by the port of Freetown was 400,032 tons of cargo and 368,753 tons of bunker fuel; a total of 1,426 vessels called at Freetown.

Bonthe-Sherbro, 80 miles south of Freetown, is used for the shipment of piassava, palm kernels, rutile and bauxite. Pepel, the terminal loading port for iron ore, lies some 12 miles from Freetown; 81 vessels called in 1967.

ROADS. There are about 5,135 miles of main roads, of which 557 miles are surfaced with bitumen.

Motor vehicles licensed in 1972 totalled 19,505: passenger cars, 13,576, buses and trucks, 5,096, and 832 motor cycles.

AVIATION. Freetown Airport (Lungi), situated north of Freetown in the Port Loko District, is the only international airport in Sierra Leone and all aircraft entering and leaving the territory must land at Lungi.

The airport is served by Sierra Leone Airways, Ghana-Nigeria Airways, BUA, Union de Transport Aériens, Middle East Airlines, KLM, Air Afrique, United Arab Airlines and Czechoslovakia Airlines. A once weekly non-stop flight from London (Gatwick) to Freetown and vice versa is also provided.

Sierra Leone Airways provide domestic flights daily (except Sundays) from Hastings (14 miles from Freetown) to Gbangbatoke, Bo, Kenema, Yengema, twice weekly to Bonthe and occasional flights to Marampa and Port Loko on charter basis.

POST. The Posts and Telecommunications Department maintains a trunk network of radio and overhead telephone and telegraph routes of approximately 3,000 miles linking the western area with the other provinces. Automatic telephone exchanges have been introduced at the provincial centres of Bo, Kenema and Makeni; microwave radio relay link now replaces overhead open wire on main trunk routes. An extension programme to link important mining areas at Koidu and Mekanji to the national network by microwave links is well on the way.

The wired broadcasting relay service was replaced in Jan. 1964 by a transistor radio service. Approximately 20,000 transistor radios purchased under this scheme are now in service. Number of telephones (1970) 8,000. Telegraphic facilities are provided at 58 offices. There are 137 post offices and postal agencies. The number of private wireless-licence holders at 30 June 1972 was 23,958 and 732 television sets were in operation.

BANKING. The Standard Bank Sierra Leone and Barclays Bank Sierra Leone have their headquarters at Freetown; the former has 13 and the latter 12 branches and agencies.

At the end of 1960 there were 72,888 depositors in the 41 branches of the post office savings bank, with £1,589,302 (inclusive of interest) to their credit.

REPUBLIC OF SINGAPORE

CONSTITUTION AND GOVERNMENT. For the early history of the settlement (1819) and colony (1867) see THE STATESMAN'S YEAR-BOOK, 1959, pp. 246 f.

By an agreement entered into between the Governments of Malaysia and of the State of Singapore on 7 Aug. 1965, effective on 9 Aug. 1965, Singapore ceased to be one of the 14 states of the Federation of Malaysia and became an independent sovereign state. The separation was ratified by the Constitution and Malaysia (Singapore Amendment) Act of the Malaysian Parliament on 9 Aug. The 2 governments agreed to enter into a treaty on external defence and mutual assistance. The Singapore Government retains its executive authority and legislative powers under its State Constitution and took over the powers of the Malaysian Government under the Malaysian Constitution in Singapore. The sovereignty and jurisdiction of the head of the Malaysian State was transferred to the Singapore Government. Civil servants working in Singapore for the Federal Departments became Singapore civil servants. Singapore citizens ceased to be Malaysian citizens. Singapore accepted responsibility for international agreements entered into by the Malaysian Government on its behalf.

Singapore entered the Commonwealth of Nations on 15 Oct. 1965.

By a constitutional amendment the name of the state was changed to 'Republic of Singapore', the head of state was named 'President of Singapore' and the legislative assembly was renamed 'Parliament'.

Malay, Chinese, Tamil and English are the official languages; English is the language of administration.

President of Singapore: Dr Benjamin Henry Sheares (sworn in 2 Jan. 1971).

Parliament consists of 65 members, elected by secret ballot from single-member constituencies, and is presided over by a Speaker, chosen by Parliament from its own members or from outside the Assembly. In the latter case, the Speaker has no vote. With the customary exception of those serving criminal sentences, all citizens over 21 are eligible to vote irrespective of sex, race, education or property qualification. There is a common roll without communal electorates. Citizenship is automatic by birth; it can also be acquired by registration or by naturalization.

A Presidential Council was established under Part IVA of the Constitution enacted on 9 Jan. 1970. The general function of the Council is to consider and report on matters affecting persons of any racial or religious community in Singapore as referred to it by Parliament or the Government. The Council will draw attention to any bill or subsidiary legislation which in the opinion of the Council is a differentiating measure.

Parliament, elected on 2 Sept. 1972, is composed of 65 People's Action Party members.

The People's Action Party cabinet, sworn in on 16 Sept. 1972, is composed as follows:

Prime Minister: Lee Kuan Yew.

Science and Technology: Dr Toh Chin Chye. *Defence:* Dr Goh Keng Swee. *Foreign Affairs:* S. Rajaratnam. *Labour:* Ong Pang Boon. *Communications:* Yong Nyuk Lin. *Law and National Development:* E. W. Barker. *Environment:* Lim Kim San. *Culture:* Jek Yeun Thong. *Social Affairs:* Othman bin Wok. *Health and Home Affairs:* Chua Sian Chin. *Finance:* Hon Sui Sen. *Education:* Lee Chiaw Meng. There are also 7 Ministers of State.

AREA AND POPULATION. The Republic of Singapore consists of Singapore Island itself, with some adjacent islets.

Singapore Island is situated off the southern extremity of the Malay peninsula, to which it is joined by a causeway carrying a road and railway. The straits between the island and the mainland are about three-quarters of a mile wide. The island is some 26 miles (41.8 km) in length and 14 (22.5 km) miles in breadth, and about 225.6 sq. miles (581.5 sq. km) in area, including the adjacent islets.

Census of population (1970): 1,579,866 Chinese, 311,379 Malays, 145,169 Indians and 38,093 others; total 2,074,507.

EDUCATION. Statistics of registered institutions for 1972:

Classification	Schools	Enrolment	Teachers
Government schools	265	345,762	12,925
Government-aided schools	229	167,990	5,617
Private schools	64	7,900	345
Total	558	521,652	18,887

The University of Singapore has 7 faculties: arts and social sciences, law, science, medicine, dentistry, engineering and architecture; and 3 schools:

accountancy and business administration, pharmacy and post-graduate medical studies. It numbered 4,934 students in 1972-73. The Nanyang University, established in 1956, has 4 Colleges of Arts, Science, Commerce and Graduate Studies in addition to a Language and Computer Centre. There were 2,455 students in 1972-73. The Singapore Polytechnic had 5,600 students, the Ngee Ann Technical College had 2,403 students and the Teachers' Training College had 538 students in 1972. There were also 9 vocational institutes and a technical institute with an enrolment of 5,841 students in 1972. The Adult Education Board conducts secondary education classes as well as language, technical, commercial and recreational courses. Enrolment as at June 1972 totalled 50,663.

CINEMAS (1972). There were 74 cinemas with a seating capacity of 59,000.

JUSTICE. There is a Supreme Court in Singapore which consists of the High Court, the Court of Appeal and the Court of Criminal Appeal. The Supreme Court is composed of a Chief Justice and 6 Judges. An appeal from the High Court lies to the Court of Appeal in civil matters and to the Court of Criminal Appeal in criminal matters. Further appeal can in certain cases be made to the Judicial Committee of the Privy Council. The High Court has original civil and criminal jurisdiction as well as appellate civil and criminal jurisdiction in respect of appeals from the Subordinate Courts. There are 7 district courts, 10 magistrates' courts, 1 juvenile court and 2 coroners' courts.

FINANCE. Public revenue and expenditure for calendar years until 1968 and then financial years, in Singapore dollars (\$S1 = £0.13):

	1968	1969-70 ¹	1970-71 ²	1971-72 ³	1972-73 ^{2, 3}

² Financial year from 1 April to 31 March of the following year.

³ Estimated figures.

DEFENCE. The Ministry of Defence exercises command and control over all armed forces in the Republic. It comprises 5 major divisions, *i.e.*, the general staff, manpower, logistic, security and intelligence and finance divisions. Compulsory military service in peace-time was introduced in 1967.

The governments of Australia, Britain, Malaysia, New Zealand and Singapore continue to co-operate closely in defence arrangements and have agreed on a new 5-nation defence set-up in South-east Asia designed to protect Malaysia and Singapore against outside attack. The new defence arrangement came into force on 1 Nov. 1971.

Army. A small, well-equipped, highly trained and mobile defence force comprising a small nucleus of regulars backed by a large part-time volunteer citizens force and national servicemen form the core of Singapore's defence. The regulars have been formed into 3 infantry and 1 armoured brigades, containing 7 infantry, 3 artillery and 3 engineer battalions. The reserve battalions of the People's Defence Force consist of 4 infantry battalions, 1 engineer battalion and PDF women's company. Regular strength, 19,000, and reserves, 30,000.

Navy. Naval vessels comprise 4 missile boats of German design, 6 fast patrol craft built by Vosper Thornycroft (2 at Portsmouth, Britain, and 4 in Singapore), 1 seaward defence boat, 1 landing ship (*ex*-USN LST) and 2 landing craft (*ex*-British LCT (8) type) and 6 small landing craft.

Air Defence Command. The formation of an Air Defence Command began in 1968, with *ab initio* training on Cessna 172 light aircraft. It now has 2 fighter-bomber squadrons equipped with 40 *ex*-US Navy A-4B Skyhawks; 2 squadrons of Hunter jet fighter-bombers and reconnaissance-fighters, supported by Hunter 2-seat trainers; a squadron of Strikemaster light jet attack/trainers; 6 Skyvan 3M STOL transports, some equipped for search and rescue; a primary training

squadron of STAT-Marchetti SF.260Ms; and a squadron of Alouette III helicopters. With the withdrawal of British forces, Bukit Gombak Station, which has one of the most advanced radar shields in SE Asia, the Joint Air Traffic Control Centres at Paya Leba, Seletar, Tengah and Changi Air Bases were handed over to the Singapore Air Defence Command by the RAF.

PLANNING. The GDP reached S\$7,321.7m. at factor cost, an increase of 13% over 1971. Manufacturing, building and construction works accounted for more than 50% of GDP growth.

In response to the increasing interest of international companies in investment in the country, the Economic Development Board, a statutory body established in Aug. 1961 to formulate, execute and promote the industrialization programme of the State, has expanded their network of offices overseas. There are overseas representatives and offices in the USA, Australia, Hong Kong, Thailand, UK, Europe and Japan.

An international trading company INTRACO was established in 1968 to develop world-wide markets for local manufacturers and to engage in bulk buying and selling of raw materials for local industries.

Increasing emphasis is being placed on developments in the sectors of trade, export oriented industries requiring higher technology and skilled labour inputs, and tourism which play a dynamic role in the growth of the economy.

The largest industrial estate is the Jurong Industrial Estate with 430 factories in production and 61 factories under planning and construction. There are also 13 smaller industrial estates situated at various parts of the island with a total number of 292 factories at the end of June 1971 housing a total of 410 industries.

Industries in Jurong include shipbuilding and those manufacturing steel rods, steel pipes, tyres, chemicals, pharmaceuticals, plywood and veneer, plastics, cement, bricks, cables, textiles and wiremesh. Smaller industrial estates have light industry factories producing food, paper and miscellaneous consumer goods.

LABOUR AND EMPLOYMENT. The principal occupations in Singapore are connected with commerce and finance, light industries, public administration, and transport and communications. The shipbuilding and ship-repairing industry is becoming increasingly important in providing additional employment.

In Sept. 1972, 547,969 persons were employed, of whom 439,767 were in the private sector and 108,202 were in the public sector. Persons engaged in manufacturing numbered 190,290, the highest among all industries.

There were 150 registered trade unions comprising 97 employee unions, 52 employer unions and 1 federation of trade unions as at 31 Dec. 1972. The total membership of employee unions numbered 166,988; that of employer unions, 6,557.

The Employment Act and the Industrial Relations Act provide principal terms and conditions of employment such as hours of work, sick leave and other fringe benefits. A trade dispute may be referred to the Industrial Arbitration Court which was established in 1960.

The Ministry of Labour operates 4 employment exchanges to assist job seekers to obtain suitable employment and employers to recruit suitable workers. The Central Provident Fund was established in 1955 to make provision for employees in their old age. At Dec. 1972 the fund had 855,307 accounts with assets of S\$1,316m.

FISHERIES. As the prospect of increasing fish production from inshore waters is poor, in 1967 various projects were supplemented to provide the necessary infrastructure of an offshore and deep-sea fishing industry, with the aim of making Singapore self-sufficient in fish as well as a major fishing base in the region.

The Jurong fishing port and fish market began operating on 26 Feb. 1969. A Fishery Training Institute was established at Changi with the assistance of the United Nations Development Programme (Special Fund) to train youths and fishermen in modern fishing techniques. At Changi, too, a Marine Fisheries Research Department was set up under the sponsorship of the South-east Asian Fisheries Development Centre. Research on fish culture and ornamental fish was carried out at the Freshwater Fisheries Laboratory at Sembawang. Ornamental fish industry is fast becoming a valuable foreign exchange earner. Export of aquarium fish in 1971, S\$7.5m. The total supply of fresh fish in 1971 was about 62,768 tons.

POWER. Electrical power is generated by 3 stations and part of new Jurong power station, with a total generating capacity of 704 mw. Work on the new power station in Jurong which is designed for a maximum installed capacity of 600 mw should be completed by 1973.

TOURISM. In 1972, 783,015 foreigners visited Singapore. Tourists spent an estimated S\$397.7m. in 1972.

COMMERCE. The imports during 1972 amounted to S\$9,537.9m., the exports to S\$6,149.4m. (inclusive of trade with West Malaysia).

The principal trading countries (1972) were Malaysia, Japan, USA, UK and Australia. The 3 largest export items for 1972 were petrol products, crude rubber, and ships and aircraft stores, which together amounted to more than a third of total exports. The most important import item continued to be crude petroleum.

In the following table (British Board of Trade returns, in £1,000 sterling) the imports include produce from Borneo, Sarawak and other eastern places, transhipped at Singapore, which is thus entered as the place of export:

	1969	1970	1971	1972	1973
Imports to UK	30,600	33,546	37,530	39,579	85,376
Exports and re-exports from UK	50,402	62,518	73,100	77,359	100,601

SHIPPING. A total of 68,993 vessels of 179.3m. NRT entered into and cleared from Singapore during 1972.

ROADS. Singapore has 1,286 miles (2,070 km) of public roads. In 1972 motor vehicles registered in Singapore included 168,991 private cars, 2,936 buses, 4,884 taxis and 115,619 motor cycles and scooters.

RAILWAY. A 16-mile (25.8-km) main line runs through Singapore, connecting with the States of Malaya and as far as Bangkok. Branch lines serve the port of Singapore and the industrial estate at Jurong.

POST. In 1972, 45 post offices and 26 postal agencies were in operation. Telephones numbered 218,400 at 31 Dec. 1972.

BANKING. The functions of the Commissioner of Banking have been assumed by the Monetary Authority of Singapore from 1 Jan. 1971.

The Development Bank of Singapore was established in 1968, primarily to provide long-term financing of manufacturing and other industries. In Dec. 1972, the net cumulative long-term financing was S\$660.6m.

There were 44 commercial banks with 197 banking offices operating in Singapore on 31 Dec. 1972. Total deposits amounted to S\$4,737m. on 31 Dec. 1972.

The amount deposited in the Singapore Post Office Savings Bank was S\$125m. in 1972.

WEIGHTS AND MEASURES. The standard measures are the Imperial yard; the Imperial pound; the Imperial gallon.

Among the Asian commercial and trading classes, Chinese steel-yards (called 'liteng' and 'daching') of various sizes are generally employed for weighing purposes. Other local measures are:

Weight and capacity		Length	
Chupak	1 quart	2 jengkals	1 hasta
Gantang	1 gallon	2 hastas	1 ela
Tahil	1½ oz.	2 elas	1 depa (1 fathom or 6 ft)
Kati (16 tahils)	1½ lb.	4 sq. depas	1 sq. jemba (144 sq. ft)
Picul (100 katis)	133½ lb.	400 sq. jembas	1 sq. orlong (1½ acres)
Koyan (40 piculs)	5,333½ lb.	1 chhun	1½ in.
		1 chhek	10 chhuns (14½ in.)

The metric system has been introduced and should be in exclusive use by 1980.

BRITISH SOLOMON ISLANDS PROTECTORATE

The Solomon Islands were discovered in 1568 by Alvaro de Mendana, on a voyage of discovery from Peru; 200 years passed before European contact was again made with the Solomons. The British Solomon Islands Protectorate lies within the area 5° to 12° 30' S. lat. and 155° 30' to 169° 45' E. long. The group includes the main islands of Guadalcanal, Malaita, San Cristobal, New Georgia, Santa Isabel and Choiseul; the smaller Florida and Russell groups; the Shortland, Mono (or Treasury), Vella Lavella, Kolombangara, Ranongga, Gizo and Rendova Islands; to the east, Santa Cruz, Tikopia, the Reef and Duff groups; Rennell and Bellona in the south; Ontong Java or Lord Howe to the north; and innumerable smaller islands.

The four first-named were placed under British protection in 1893; the other islands were added in 1898 and 1899. The land area of the Protectorate is estimated at 11,500 sq. miles (29,785 sq. km). The larger islands are mountainous and forest-clad, with flood-prone rivers of considerable energy potential. Guadalcanal has the largest land area and the greatest amount of flat coastal plain, but Malaita is the most populous (estimated 51,000 inhabitants). The estimated population of the Protectorate in 1971 was: Europeans, 1,280; Chinese, 580; Polynesians, 6,680; Micronesians, 2,450; Melanesians, 154,590; others, 710; total, 152,000.

The capital, Honiara, on Guadalcanal, is the largest urban area, with an estimated population in 1970 of 11,389. Rainfall at Honiara (which lies in a rain shadow) is 90 in. per annum; elsewhere as high as 300 in.; the average is 120–140 in.

CONSTITUTION. There is a Governing Council for which the first direct general elections were held in 1970 under a revised constitution which provides for progressive advancement to self-government. The 17 elected and 3 *ex-officio* members are being increased by additional 7 elected members in 1973. An elected member chairs public meetings of the Governing Council, while the High Commissioner chairs meetings in committee.

Local government councils, elected by universal adult suffrage, operate throughout the Protectorate and are responsible for certain local projects and administrative matters; revenue is raised by an annual tax and fines levied for minor offences tried in the native courts.

EDUCATION. Primary education is largely in the hands of the churches and local government councils. Government gives aid to scheduled schools in the form of salary subsidies, boarding and equipment grants. In 1971 there were 405 registered schools including 6 secondary schools with together 26,286 pupils. There is 1 teacher-training college, and a technical institute, which is made up of schools of marine training, trades training, survey and draughting and commerce. Overseas scholarships were awarded in 1971 to 112 students, for university studies and professional training.

FINANCE. Currency. The medium of exchange is Australian decimal currency introduced in Feb. 1966. The estimated amount of currency in circulation at the end of Dec. 1970 was \$A4.3m.

Budget. The budget for the calendar year 1971 balanced at \$A11,116,965 (including British development aid of \$A2,693,765 and grant-in-aid \$A1,914,220).

PLANNING. The overall objective of the \$A16.5m. Sixth Development Plan covering the years 1971–73, is to lay the basis for substantially reduced external dependence in this decade, as a pre-requisite for effective self-government. At

present the British Solomons depend on external aid for about 41% of monetary GDP and for over 80% of its post-secondary high-level manpower.

This will be achieved in the first instance mainly through the exploitation of forest and mineral resources (bauxite and copper), and in the long run through the growth of agriculture—copra, palm oil, cattle, cocoa and spices.

Policies for manpower and education aim to achieve rapid localization and indigenous ownership in key sectors by expanding the quantity and quality of local high-level manpower through investment in secondary and tertiary education and training. At the same time there will be a tight restraint on the growth of administrative and social infrastructures.

Under the Plan, the public sector capital expenditure programme comprises \$A10m. in the development sector, \$A4.5m. in the social sector and \$A1.5m. for administration.

Of the indigenous male work force (15–49 years), totalling 37,481 in 1970, over one-third were in wage employment. The target of the Development Plan is to maintain at least this proportion, which will mean the creation of 1,450 new jobs by 1973, and 4,800 by 1980.

PRODUCTION. Coconuts, cocoa, rice and chillies are grown and oil palm is being developed very successfully. Copra has been the main cash crop, while sweet potatoes, yams and taro are the main food crops. The rapid development and success of rice crops grown on the Guadalcanal Plains could make the Protectorate self-supporting in the supply of rice if persistent cyclone damage to crops during 1971 and 1972 does not continue as a regular occurrence. Timber is being developed, but after severe cyclone damage in 1972 a less vulnerable pulp industry was being investigated as a parallel development; the value of timber exported in 1971 was \$A3.34m. Most timber exports went to Japan. Future income could rely heavily on commercial fishing for skipjack. Mining of bauxite has started.

COMMERCE. The main imports are agricultural machinery and tractors, petrol and petroleum products, rice, meat, motor vehicles and flour. Exports comprise copra (25,700 tons in 1971), timber (9,012,000 cu. ft), marine shell, cocoa, scrap metal and manufactured tobacco. In 1971 total imports amounted to \$A13,633,000. Exports were valued at \$A8,847,000, and re-exports at \$A425,000. Australia supplied 44.5% of the imports, UK 15.8% in 1970, and of the exports, 52.8% went to Japan, 13.9% to Australia, 2.2% to UK.

COMMUNICATIONS. Regular flights from Fiji and Australia (*via* Papua, New Guinea) provide the main communication link; shipping services are maintained with Australia, New Zealand, UK and the Far East. An internal airline and innumerable small ships provide inter-island transport. Number of telephones (Jan. 1973), 1,434. A VHF radio telephone service operates internally as well as overseas.

SRI LANKA

Ceylon

HISTORY. According to the Mahawansa chronicle, an Indian prince from the valley of the Ganges, named Vijaya, arrived in the 6th century B.C. and became the first king of the Sinhalese. The monarchical form of government continued until the beginning of the 19th century when the British subjugated the Kandyan Kingdom in the central highlands.

In 1505 the Portuguese formed settlements on the west and south, which were taken from them about the middle of the next century by the Dutch. In 1796 the British Government annexed the foreign settlements to the presidency of Madras. In 1802 Ceylon was constituted a separate colony. Passing through various stages of increasing self-government, Ceylon reached fully responsible status within the British Commonwealth when the Ceylon Independence Act, 1947, came into force on 4 Feb. 1948.

CONSTITUTION AND GOVERNMENT. Parliament consists of one chamber, the House of Representatives, composed of 157 members (including 6 women), of whom 151 are elected by universal suffrage, and 6 are nominated. The Senate was abolished by constitutional amendment in Sept. 1971. Prior to independence the Ceylon and UK governments concluded agreements on defence, external affairs and public officers. The defence agreement provided that the UK and Ceylon would give to each other such military assistance as it may be in their mutual interest to provide. The UK may base such naval and air forces and maintain such land forces in Ceylon as may be required for these purposes, and as may be mutually agreed. The UK naval base at Trincomalee and the air base at Katunayake were taken over by Ceylon on 15 Oct. and 1 Nov. 1957 respectively.

The agreement on external affairs declared the readiness of Ceylon to adopt and follow the resolutions of past imperial conferences; provides that in external affairs generally the two governments will conform to the principles and practice observed by other members of the Commonwealth; provides that Ceylon will enjoy reciprocal rights and benefits enjoyed by the UK, and bear the obligations carried by the UK, which arise out of any valid international instrument which applies to Ceylon.

The public officers agreement protected the positions of specified classes of person holding office in the public service of Ceylon.

The House of Representatives as a Constituent Assembly has framed a new republican constitution providing for a President and a Council of Ministers headed by the Prime Minister and responsible to a National Assembly.

This constitution came into force on 22 May 1972. Sovereignty is vested entirely in the National Assembly, which sits for 6 years and combines legislative and executive functions. The Public Service Commission and Judicial Commission were abolished. The electorate consists of all over 18 years of age. The President holds office for 4 years and is appointed by the Prime Minister.

President: William Gopallawa, MBE.

The elections held on 27 May 1970 had the following results: 91 Sri Lanka Freedom Party, 19 Lanka Sama Samaja Party, 17 United National Party, 13 Federal Party, 6 Communist Party, 3 Tamil Congress, 2 Independent and others. Six women were elected.

A coalition cabinet was formed, including the Sri Lanka Freedom Party, the Lanka Sama Samaja (Trotskyist) Party and the pro-Moscow Communist Party.

For purposes of general administration, the island is divided into 22 districts, each presided over by a government agent with assistants. There are 12 municipalities, with 39 urban councils, 85 town councils and 542 village committees. People's Committees were inaugurated on 1 Sept. 1971, consisting of 11 members drawn from co-operatives, trade unions, rural development societies and local government bodies. They serve each local government ward in a 'watchdog' capacity.

AREA AND POPULATION. Area (in sq. miles) and census population on 8 July 1963 (based on 10% sample tabulation):

Provinces	Area	Population	Provinces	Area	Population

Population (1971 census), 12,747,755, an increase of 20.5% since 1963. Estimate (1972) 13m. Population (in 1,000) according to race and nationality at the 1963 census: 7,513 Sinhalese, 1,165 Ceylon Tamils, 625 Ceylon Moors, 46 Burghers and Eurasians, 33 Malays, 1,123 Indian Tamils, 57 Indian Moors. Non-nationals of Sri Lanka totalled 1,012,181.

Vital statistics. 1968: births, 384,178; marriages, 82,223; deaths, 94,903. 1967: births, 369,531; marriages, 76,024; deaths, 87,877.

The urban population is 19% of the total population. The principal towns and their population according to the census of 1963 are: Colombo, 511,644; Jaffna, 94,670; Kandy, 68,202; Galle, 65,236; Negombo, 46,908; Kurunegala, 21,179; Nuwara Eliya, 15,482.

The official language is Sinhala. English is a major second language. The use of Tamil for some official purposes was approved by Parliament in 1966.

RELIGION. Buddhism was introduced from India in the 3rd century B.C., and is the religion of the majority of the inhabitants. There were (1963) 7,003,287 Buddhists, 1,958,394 Hindus, 884,949 Christians, 724,043 Moslems and 11,330 others.

EDUCATION. Education is free from the kindergarten to the university and is imparted in the medium of the mother tongue.

In 1969 there were 9,701 schools with about 100,595 teachers and 2.64m. students from grades I to XII. 19.8% of the current expenditure of Government is on education. Education is now administered in 24 education districts under 14 regional directors of education. The overall control of the education districts is vested in the Ministry of Education.

Only about 40% of the teachers in these schools are trained. This training has been carried on in the university departments of education for graduates and in 24 general training colleges and 2 specialist training colleges for non-graduates. In 1969 there were 6,525 non-graduates and 87 graduates in training.

In 1972 the 4 universities and the College of Technology at Katubedde were amalgamated as the University of Ceylon, with a Vice-Chancellor, and a President for each of 5 campuses (the 4 universities and 1 college). The first University of Ceylon was founded in 1942, superseding the Ceylon Medical College founded in 1870 and the Ceylon University College founded in 1921. In 1969 the University had faculties of oriental studies, arts, science, medicine, law, engineering, agriculture and veterinary science with a total of 8,883 students.

Vidyodaya and Vidyalandara universities, established in 1959, provided courses in languages (Pali, Sinhalese, Sanskrit, English, Hindi), arts (history, geography, economics, mathematics and philosophy), business and public administration, in education and in Buddhist studies. In 1969 the Vidyodaya University had 2,460 students and the Vidyalandara 1,410.

CINEMAS (1969). There were 342 cinemas with a seating capacity of 142,480. The State Film Corporation established in 1972 has exclusive rights to import films and equipment and arranges distribution of foreign and local films.

NEWSPAPERS (1969). There were 17 daily newspapers with a total circulation of 780,390 and 11 Sunday papers with a total circulation of 966,535. In Jan. 1972 a Press Council was set up, and by the same act of Parliament prosecution was introduced for any editor or publisher who published cabinet papers or decisions without official approval.

JUSTICE. The systems of law which obtain in Sri Lanka are the Roman-Dutch law, the English law, the Tesawalamai, the Moslem law and the Kandyan law.

The Kandyan law applies to the Kandyan Sinhalese in the Central, North-Central, Uva and Sabaragamuwa provinces in respect of all matters relating to inheritance, matrimonial rights and donations. The law of England is observed in most maritime and commercial matters. The law of Tesawalamai is applied to all Tamil inhabitants of Jaffna, in all matters relating to inheritance, marriages, gifts, donations, purchases and sales of land. The Moslem law is applied to all Moslems in respect of succession, donations not involving Fidei Commissa, marriage, divorce and maintenance. These customary and religious laws have been modified in many respects by local enactments.

District courts and Courts of Requests administer justice on the civil side. The Supreme Court exercises only an appellate jurisdiction in civil matters. On the criminal side magistrates' courts, district courts and the Supreme Court exercise an original jurisdiction. The Supreme Court also exercises an appellate jurisdiction in cases decided by magistrates' courts and district courts. A Court of Criminal Appeal exercises an appellate jurisdiction in cases tried by the Supreme Court in its original criminal jurisdiction. Rural courts exercise a criminal and civil jurisdiction in rural areas in respect of petty crimes and civil disputes where the subject matter is valued less than Rs 100. Conciliation Boards were established in 1958; the Minister of Justice may appoint Conciliation Boards in any area and he may appoint the panel of conciliators for them; 232 boards were functioning in Sept. 1968. In 1971, appeals to the judicial committee of the Privy Council were replaced by appeals to a Court of Appeal which was inaugurated on 9 March 1971.

Police. The strength of the police service on 31 Dec. 1969 was 11,135.

SOCIAL WELFARE. The activities of the Department of Social Services fall into two main divisions:

SOCIAL ASSISTANCE SERVICES. Public assistance (monthly allowances); casual relief; relief to leprosy and tuberculosis patients and their dependants; relief of widespread distress due to failure of crops, floods, storms, etc., including relief to individual cases of distress among fishermen due to acts of God such as fire, storms and accidents; rehabilitation and resettlement of flood victims; state homes for the aged; grants-in-aid to voluntary agencies and local authorities for the running of charitable and welfare institutions, homes for children, homes for the aged and crèches; services for orthopaedically handicapped persons; services for the deaf and blind; vagrancy and administration of the house of detention.

WORKMEN'S COMPENSATION. The payment of compensation to workmen meeting with accidents in the course of their work is provided for under the Workmen's Compensation Ordinance No. 19 of 1934, as amended in 1957, 1959 and 1966. It was brought into operation in 1935, and has been administered by the Director of Social Services since 1948.

FINANCE. Currency. The Monetary Law (Amendment) Act No. 16 of 1967 provides that the standard monetary unit is the Ceylon rupee having a par value equal to 0.149297 of a grain of fine gold. Following the devaluation of sterling in Nov. 1967, the Ceylon rupee was devalued by 20%.

The Central Bank is the sole authority for the issue of currency and all currency notes and coins issued by the Central Bank are legal tender for the payment of any amount. Currency notes are issued in the denominations of Re 1, Rs 2, 5, 10, 50 and 100. The following coins are legal tender: (1) nickel brass, 10 and 5 cents; (2) cupro-nickel, Re 1, 50 and 25 cents; (3) aluminium, 2 and 1 cent, and copper, $\frac{1}{2}$ cent. The note circulation stood at Rs 1,090.4m. on 31 Dec. 1970. The official rate between Sri Lanka and the UK is Rs 15.6 to £1.

The Ceylon Mineral Sands Corporation is running a plant at Pulmoddai on the NE coast for the recovery of ilmenite; exports in 1969 were 1.63m. cwt. There are several gem pits from which sapphire, ruby, aquamarine, moonstone, topaz, chrysoberyl (cat's eye), zircon, spinel, tourmaline and other semi-precious stones are obtained. There are also deposits of kaolin, iron-ore and glass sand. The miocene limestone of the north is the basis of the cement industry.

Manufacture of salt is a government monopoly.

INDUSTRY. The Business Undertakings (Acquisition) Act was passed in May 1971 empowering the Government to acquire any business for the state. The British Ceylon Corporation Ltd and its subsidiaries were nationalized in Feb. 1972. The nationalization of the oil industry was completed in Dec. 1971. The first objective is the development of heavy industry through state investment in small companies and the setting up of public corporations. Three such corporations have been established for the mining and processing of graphite; the importing, manufacture and distribution of pharmaceuticals; the importing and distribution of materials for textile manufacture. Foreign investment is encouraged by a 5-year tax holiday for approved industries. Export profits may have a 3-year tax holiday. GNP *per capita* (1972) US\$168.

TRADE UNIONS. The registration and control of trade unions are regulated by the Trade Unions Ordinance (Ch. 138 of the Legislative Enactments). As at 30 Sept. 1969 there were 1,230 unions; 799 employees' unions reported a membership of 1,286,012; and 10 employers' unions reported 1,293 members.

SWAZILAND

HISTORY. The Swazi migrated into the country to which they have given their name, in the last half of the 18th century. They settled first in what is now southern Swaziland, but moved northwards under their chief, Sobhuza—known also to the Swazi as Somhlolo. Sobhuza died in 1838 and was succeeded by

Mswati. The further order of succession has been Mbandzeni and Bhunu, whose son, Sobhuza II, was installed as King of the Swazi nation in 1921 after a long minority.

The independence of the Swazis was guaranteed in the conventions of 1881 and 1884 between the British Government and the Government of the South African Republic. In 1890, soon after the death of Mbandzeni, a provisional government was established representative of the Swazis, the British and the South African Republic Governments. In 1894 the South African Republic was given powers of protection and administration. In 1902, after the conclusion of the Boer War, a special commissioner took charge, and under an order-in-council in 1903 the Governor of the Transvaal administered the territory, through the Special Commissioner.

AREA AND POPULATION. Swaziland is bounded on the north, west and south by the Transvaal Province, and on the east by Portuguese territory and Zululand. The area is 6,705 sq. miles (17,400 sq. km).

The country is divided geographically into 4 longitudinal regions running from north to south; 3 of roughly equal width—Highveld (westernmost), Middleveld, Lowveld—and the Lubombo plateau in the east. The mountainous region on the west rises to an altitude of over 6,000 ft (1,800 metres). The Middleveld is mostly between 1,700 and 3,000 ft, while the Lowveld has an average height of not more than 1,000 ft (300 metres). The whole country is now virtually free from malaria. The Highveld and the Middleveld are well watered. Innumerable small streams unite with the large rivers, notably the Usutu and Komati, which traverse the country from west to east. Except for these the Lowveld is not very well watered. The climate is good except for a few months in summer, when the heat is somewhat excessive in low-lying parts.

Population (census 1966), 374,571 (178,795 males, 195,767 females).

GOVERNMENT AND CONSTITUTION. Swaziland became independent on 6 Sept. 1968.

On 25 April 1967 the British Government gave the country internal self-government. It changed the country's status to that of a protected state with the Ngwenyama, Sobhuza II, recognized as King of Swaziland and head of state. Britain's protection ended at independence, when a constitution similar to the 1967 constitution was brought into force. The general elections (by universal adult franchise) in April 1967 gave the royalist and traditional Imbokodvo National Movement all 24 seats. The Parliament consists of a House of Assembly, with 24 elected and 6 nominated members and the Attorney-General, who has no vote, and a Senate comprising 12 members, 6 of whom are elected by the House of Assembly and 6 appointed by the King. The executive authority is vested in the King and exercised through a Cabinet presided over by the Prime Minister, and consisting of the Prime Minister, the Deputy Prime Minister and up to 8 other ministers. In April 1973 the King assumed supreme power and the Constitution was repealed.

His Majesty the King: Sobhuza II.

Prime Minister: Prince Makhosini.

LOCAL GOVERNMENT. In Dec. 1963 the former 6 districts were replaced by the 4 districts of Shiselweni, Lubombo, Manzini and Hhohho. They are administered by District Commissioners. The main urban areas are: Manzini (population 16,000); Mbabane, the administrative capital (14,000); Havelock Mine (4,500); Siteki (3,600); Big Bend (2,900); Mhlume (2,200); Nhlangano (1,700) and Pigg's Peak (1,400).

RELIGION. It is estimated that more than 60% of the population is Christian, but no accurate figures are available. The remainder hold traditional beliefs. A large number of churches and missionary societies are established throughout

the country and, in addition to evangelism, are doing important work in the fields of education and medicine. In the larger centres there are churches of several denominations—Protestant, Roman Catholics and others.

EDUCATION. In 1969 there were 408 schools with 64,955 pupils in primary classes and 6,911 in secondary classes. The Swaziland Agricultural College and University Centre at Luyengo was opened in Oct. 1966. The college is associated with the University of Botswana, Lesotho and Swaziland, which is in Lesotho. Technical and vocational training classes are run at the Government's Industrial Training Institute and its Staff Training Institute. The Government also operates a police college.

JUSTICE. The judiciary is headed by the Chief Justice. A High Court having full jurisdiction and subordinate courts presided over by Magistrates and District Officers are in existence. During 1969 there were 6,624 convictions in subordinate courts and 36 convictions in the High Court.

There is a Court of Appeal with a President and 3 Judges. It deals with appeals from the High Court.

There are 16 Swazi courts of first instance, 2 Swazi courts of appeal and a Higher Swazi Court of Appeal. The channel of appeal lies from Swazi Court of first instance to Swazi Court of Appeal, to Higher Swazi Court of Appeal, to the Judicial Commissioner and thence to the High Court of Swaziland.

The police force in 1969 had a strength of 30 senior and 188 subordinate officers and 448 other ranks.

FINANCE. Currency. The currency in circulation in Swaziland is that of the Republic of South Africa. In Feb. 1961 the territory followed the South African change to a decimal currency (1 Rand = £0.583 sterling).

Budget. Revenue and expenditure (in rands) for financial years ending 31 March:

	1965-66	1966-67	1967-68	1968-69	1969-70	1970-71
Revenue	5,796,008	6,804,800	8,565,700	10,625,000	10,976,200	14,971,909
Expenditure	8,578,621	8,650,300	11,344,600	14,917,400	14,627,600	16,414,209
Grant-in-aid from UK	3,020,000	2,400,000	1,760,400	3,291,800	3,256,600	— ¹

¹ Grant-in-aid from UK ceased in 1969.

Chief items of estimated revenue, 1970-71: Customs and excise, R6.7m.; income tax, R4.33m.

The public debt expenditure was estimated at R935,060 in 1970-71.

AGRICULTURE. Some 56% of the country, which covers 4,290,944 acres, is reserved for occupation by the Swazi. The main crops are sugar, citrus and rice, all of which are grown under irrigation, and cotton, maize (the staple product), sorghum, tobacco and pineapples. It is usually necessary to import maize from South Africa. Sugar, first produced in 1958, and wood-pulp and other forest products are the two main agricultural exports (worth R10,478,000 and R9,255,914 respectively in 1969).

Livestock (1972): Cattle, 600,000; goats, 280,000; sheep, 42,000; poultry, 365,000.

MINING. Swaziland produces a large tonnage of iron ore from the Ngwenya mine near Mbabane (2.53m. short tons worth R12m. in 1969) and asbestos from the Havelock Mine (40,200 short tons worth R5m. in 1969). Coal is mined at Mpaka (121,600 short tons worth R260,000 in 1969). Small quantities of quarry stone, kaolin, barytes and pyrophyllite are also mined. Total mineral production was valued in 1966, R15,475,900; 1967, R17,391,000, 1968, R18,277,300.

A railway has been built from the Ngwenya haematite deposits to Goba, in Mozambique, chiefly for the transportation of iron ore. The Swaziland Iron Ore Development Company has entered into a contract to supply Japanese buyers

with 14.5m. tons of ore over 10 years; first shipments began in Nov. 1964. The extensive deposits of low-volatile bituminous coal in the Lowveld are being worked to provide coal for the railway, sugar-mills and export.

COMMERCE. By agreement with the Republic of South Africa, Swaziland is united in a customs union with the Republic and receives a *pro rata* share of the customs dues collected.

Total exports in 1969 amounted to R44,517,700. The chief items were: Iron ore, R9,617,900; wood-pulp and other forest products, R9,255,900; sugar, R10,478,700; asbestos, R6,228,500; meat and meat products, R6,228,500; citrus, R3,510,900.

Total trade of Swaziland with UK (in £1,000 sterling) (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	7,619	9,830	9,411	9,422	9,868	12,962
Exports and re-exports from UK	246	1,134	383	230	316	151

COMMUNICATIONS. There is daily (except Sundays) communication by railway motor-buses between Manzini, Mbabane and Breyten; Manzini, Man-kayana and Piet Retief. There are 101 miles of tarred trunk roads, 930 miles of gravelled main road and 470 miles of branch roads. There are 32 post offices, 2 telephone–telegraph agencies and 6 telephone agencies. There were, in Jan. 1973, 5,895 telephones in the country.

Swaziland's railway, constructed in 1962–64, is 139 miles long, starting at Kadake, operated by Moçambique State Railways, and connecting at the Moçambique frontier with an extension to the Moçambique State Railways between Lourenço Marques and Goba.

The country's chief airport is at Matsapa. It is served by Swazi Air and South African Airways, connecting with Johannesburg and Durban, and DETA connecting with Lourenço Marques.

BANKING. Barclays Bank International and the Standard Bank Ltd maintain branches at Mbabane and Manzini; sub-branches and agencies are operated in 17 other places. Bank rates are those in force throughout South Africa and are prescribed by the main South African offices of the 2 banks. The Swaziland Credit and Savings Bank, a statutory body, was opened in 1965. It specializes in credit for agriculture and low-cost housing. Its head office is in Mbabane and it has branches or agencies at 3 other places.

UNITED REPUBLIC OF TANZANIA

On 26 April 1964 Tanganyika, Zanzibar and Pemba combined to form the United Republic of Tanganyika and Zanzibar (named Tanzania on 29 Oct.)

CONSTITUTION AND GOVERNMENT. An 'interim constitution' was approved by parliament on 5 July 1965 and assented to by the President on 8 July 1965.

The country is a one-party state, the Tanganyika African National Union constituting the one party in Tanganyika and the Afro-Shirazi Party in Zanzibar.

The President of the United Republic is head of state and commander-in-chief of the armed forces. The first vice-president is head of the executive in Zanzibar under the title of President of Zanzibar; the Prime Minister and the second vice-president is also the leader of the National Assembly.

The National Assembly is composed of 120 elected members from the mainland, 10 members appointed (from both Tanganyika and Zanzibar), 15 National Members (elected by the National Assembly after nomination by various national institutions), 20 Regional Commissioners, up to 32 members of the Zanzibar Revolutionary Council and up to 20 other Zanzibar members appointed by the President in agreement with the President of Zanzibar.

The central government was in Feb. 1972 composed as follows:

President of the United Republic: Dr Julius K. Nyerere.

First Vice-President: Aboud Jumbe. *Second Vice-President and Prime Minister:* Rashidi Mfaume Kawawa.

Foreign Affairs: John W. S. Malecela. *Commerce and Industry:* Amir H. Jamal. *Finance:* Cleopa Msuya. *Defence and National Service:* Edward Sokoine. *Labour and Social Welfare:* Alfred Tandau. *Communications and Works:* Job M. Lusinde. *Minister of State in the First Vice-President's Office:* H. N. Moyo. *Natural Resources and Tourism:* H. Makame. *Economic Affairs and Development Planning:* Dr Wilbert K. Chagula. *Health:* A. H. Mwinyi. *Water Development and Power:* I. Elinewinga. *National Education:* S. Chiwanga. *Information and Broadcasting:* D. N. Mwakawago. *Lands, Housing and Urban Development:* M. Mageni. *Agriculture:* J. Mungai. *Minister of State in the President's Office:* P. S. Siyovelwa. *Capital Development:* Chief Adam S. Mkwawa. *Home Affairs:* Alhaji O. Muhaji.

POPULATION. The census of Aug. 1967 gave 12,231,342 for the United Republic, of which 11,876,982 were counted in mainland Tanzania (density per sq. mile, 34·8) and 354,360 in Zanzibar (density per sq. mile, 347·1). Estimate (1971) 13·75m.

FINANCE. *Currency.* The monetary unit is the Tanzanian shilling divided into 100 cents. Although it replaced the East African Shilling on 14 June 1966, the latter remained a legal tender until Oct. 1967. The Tanzanian coinage has denomination of 5, 20, 50 Cts. and 1 Sh.; 1 sh. = 14 US cents. Notes and coins in circulation at the end of Nov. 1973 were 1,258·2m. sh.

Budget. Revenue and expenditure (in Tanzanian Sh.1m.) for financial years ending 30 June:

	1967-68	1968-69	1969-70	1970-71	1971-72 ¹	1973-74
Revenue	1,123·6	1,257·3	1,577·0	1,683·0	1,875·0	2,613·5
Expenditure	1,065·0	1,186·0	1,527·0	1,631·0	1,824·0	2,613·1

¹ Estimate.

Import duties in 1969-70 amounted to 580·5m. sh. and income tax to 335m. sh. The main items of expenditure for the year 1969-70 were communications, transport and labour (278·5m. sh.), education (56·2m. sh.) and agriculture, food and co-operatives (109·9m. sh.).

Development expenditure, 1971-72, was 772·8m. sh.

Total national debt on 30 June 1969 amounted to 1,412·44m. sh.

DEFENCE. The Army consists of 3 infantry battalions. Strength, 10,000.

Following withdrawal of West German assistance in 1965, the Tanzanian People's Defence Force Air Wing was built up with the help of Canada. Equipment supplied from Canada now comprises 10 Caribou and 3 Beaver transport aircraft. One An-2 light transport, 2 Augusta-Bell JetRanger and 2 Bell 47G helicopters, about 5 Piaggio P.149D and 5 Piper Cherokee piston-engined trainers, and some Yugoslavian Galeb armed jet trainers are also in service. Following an agreement with China, personnel are being trained near Peking and deliveries of Chinese-built MiG-17 and MiG-19 jet fighters are under way. An HS 748 twin-turboprop transport is operated by the Air Wing on VIP duties.

TRADE. There is a uniform customs tariff in Tanzania, Kenya and Uganda the three countries being united in a customs union since 1949.

In 1972 the main countries from which goods were imported into Tanzania and exported (not including re-exports) to and from Tanzania were (values in Tanzanian Sh.1m.):

Imports: China, 508; UK, 461.1; Italy, 214.3; Japan, 214.3; West Germany, 205.9; Iran, 165.5; USA, 139.7; Total value, 2,597.6.

Exports: UK, 324.4; Zambia, 182; India, 170.7; USA, 136.8; China 135.5; Hong Kong, 130.4; West Germany, 123.5. Total value, 2,027.2.

Total trade with UK (British Board of Trade returns, in £1,000 sterling):

	1970	1971	1972	1973
Imports to UK	23,963	24,692	22,362	30,328
Exports and re-exports from UK	19,583	23,670	17,426	21,754

BANKING. On 14 June 1966 the central bank called the Bank of Tanzania, with a government-owned capital of 20m. sh., began operations.

On 6 Feb. 1967 all commercial banks with the exception of National Co-operative Banks were nationalized all over Tanzania and their interests vested in the National Bank of Commerce on the mainland and the Peoples' Bank in Zanzibar.

TANGANYIKA

HISTORY. German East Africa was occupied by German colonialists from 1884 and placed under the protection of the German Empire in 1891. It was conquered in the First World War and subsequently divided between the British and Belgians. The latter received the territories of Ruanda and Urundi and the British the remainder, except for the Kionga triangle, which went to Portugal. The country was administered as a League of Nations mandate until 1946 and then as a UN trusteeship territory until 9 Dec. 1961.

Tanganyika achieved responsible government in Sept. 1960 and full self-government on 1 May 1961. On 9 Dec. 1961 Tanganyika became a sovereign independent member state of the Commonwealth of Nations. It adopted a republican form of government on 9 Dec. 1962.

AREA AND POPULATION. Tanganyika extends from the Umba River on the north to the Ruvuma River on the south, the coastline being some 500 miles long, and includes the adjacent islands (except Zanzibar and Pemba). The northern boundary runs north-west to Lake Victoria at the intersection of the first parallel of southern latitude with the eastern shore. The boundary on the west follows the Kagera River (the eastern frontier of Rwanda), thence the eastern boundary of Burundi to Lake Tanganyika. The western boundary then follows the middle of Lake Tanganyika to its southern end at the Kalambo River 50 miles south of Kasanga, whence it goes south-east to the northern end of Lake Nyasa. It follows the middle of Lake Nyasa, and rather less than half-way down the lake turns east and follows the Ruvuma River to the sea. The total area is 362,688 sq. miles (939,936 sq. km), which includes 20,650 sq. miles (53,480 sq. km) of water. Dar es Salaam is the capital and chief port (the capital is to be moved to Dodoma); census population 1967, 372,515.

The country is divided into 18 regions (with capitals of the same name, unless added in brackets), with census population, Aug. 1967. Dar es Salaam and Rukwa regions were established in 1974.

Coast (Dar es Salaam)	781,267	Mtwara	1,032,896
Arusha	601,515	Mwanza	1,057,695
Dodoma	708,422	Ruvuma (Songea)	392,812
Iringa	683,555	Shinyanga	888,209
Kigoma	470,773	Singida	454,749
Kilimanjaro (Moshi)	650,533	Tabora	552,339
Mara (Musoma)	535,882	Tanga	769,304
Mbeya	955,891	West Lake (Bukoba)	58,0796
Morogoro	683,061	Lindi	419,910

Other towns are Kigoma, the principal port on Lake Tanganyika; Iringa, in the Southern Highlands; Morogoro (Eastern), and Lindi (Mtwara Region).

The mid-1965 estimate of the European population was 17,000; Indians and Pakistani, 86,000; Arabs, 26,000; Africans, 10,046,000.

The African population of Tanganyika is made up of members of more than 100 tribes, each with a distinctive dialect and varying customs. Most of the tribes are of Bantu origin, although there are considerable Hamitic and Nilo-Hamitic intrusions. In 1966 some 13,500 refugees from Rwanda, 800 from Congo and 12,000 from Moçambique were living in Tanganyika.

Swahili is generally spoken and understood throughout Tanzania.

EDUCATION. The educational system has been integrated on non-racial lines. Schools are maintained by the Government, local authorities and voluntary agencies, including missions; most of the latter are wholly or partly financed by Government or local authorities.

In 1971, 902,609 children attended primary schools and 32,603 secondary schools.

Technical and vocational education is provided at 2 government trade schools and at the Dar es Salaam Technical College.

There were, in 1971, 23 teacher-training centres, including the college at Chang'ombe for secondary-school teachers. About 4,425 students are in training, of whom about 2,725 are annually taking up posts.

In 1971, 2,028 Tanzanian students attended the University of East Africa founded in 1963.

FINANCE. The revenue and expenditure, including development-revenue and expenditure, for financial years ended 30 June were (in Sh.1m.):

	1965-66	1966-67	1967-68	1968-69	1969-70
Revenue	1,101.8	1,311.6	1,467.7	1,717.8	2,121.2
Expenditure	1,117.6	1,274.1	1,409.1	1,646.5	2,230.7

The chief actual items of revenue for 1969-70 are (in Sh.1m.): Import and excise duties, 581; export taxes, 5.4; income taxes, 335; licences and other taxes, 50; sales taxes, 155. Chief items of expenditure are (in Sh.1m.): Social services, 471.3; economic services, 1,856.3; general administration, 558.5.

PLANNING. The first 5-year plan ran from 1964-69. The second plan for economic and social development (1969-74) is in progress.

AGRICULTURE. The target set for cotton in 1974 is 700,000 bales. It is expected that this target will be achieved through increased use of pesticides and fertilizers. Production of sisal has been declining since 1967. The Tanganyika Sisal Corporation has embarked on a diversification programme by introducing various new crops. Crops already planned are cardamon, beans, cashew nuts, citrus, cocoa, coconuts, cotton, maize and timber. Cattle ranching, dairying and twine spinning have also been introduced.

Livestock (1968). 12m. cattle (1972, 15m.), 2.8m. sheep, 4.1m. goats.

FORESTRY. In 1973 work continued on planting new areas with hard-woods and soft-woods. Hard-woods could be planted in old sisal estates that are now reverting to bush.

MINERALS. The value of mineral exports in 1968 was 163.5m. sh. Principal exports, 1968, were (in Sh.1m.): Diamonds, 135.4; gold, 4.8; tin, 6.9; salt, 9.6. In 1967 the production of gold was 18,000 troy oz.

POWER. A hydro-electric station on the Pangani River near Tanga has been built; £3m. of its estimated cost of £5.25m. is being provided by the Commonwealth Development Corporation. Kidatu power-station in Morogoro region is nearing completion. Kiwira River power project, estimated to cost 55m. Sh., is scheduled for completion in 1976.

ROADS. Motor traffic is possible over 25,000 miles of road during dry season and at almost all times over 21,500 miles.

RAILWAYS, POST AND TELECOMMUNICATIONS. *See* p. 520. There were 43,820 telephones in use at 31 Dec. 1972.

AVIATION. There are 53 aerodromes and landing strips maintained or licensed by Government; of these, 2 are of international standards category and

18 are suitable for Dakotas. The East African Airways Corporation provide regular and frequent services to all the more important towns within the territory and the neighbouring countries of Kenya and Uganda, together with a regular service to the UK, India and Pakistan, Zambia and Malawi. Charter services are operated by 2 companies. In 1970, 130,600 passengers and 2.6m. kg of freight were handled at Dar es Salaam airport.

BANKING. Apart from the Central Bank, other banks include, the National Bank of Commerce, Rural Development Bank, the Investment Bank and Tanzania Housing Bank. The Tanganyika post office savings banks had, in 1972, 299,169 depositors.

ZANZIBAR

HISTORY. At the end of the 17th century the inhabitants of Zanzibar drove out the Portuguese with the assistance of the Arabs of Oman. Thereafter an Arab governor from Oman was sent to Zanzibar, but the government of the interior remained in the hands of a local ruler. In 1832 Seyyid Said bin Sultan, ruler of Oman, established his capital at Zanzibar, and thereafter the whole of that island and the island of Pemba together with a large strip of the East African mainland coast came under his effective rule. Seyyid Said died in 1856. Five years later his former African possessions were, under an arbitration award made by Lord Canning (then Governor-General of India), declared to be independent of Oman. In 1887 the Sultan of Zanzibar handed over the administration of his possessions to the north of Vanga on the African continent to the British East Africa Association. These territories eventually passed to the British Government and are now part of Kenya. In 1888 a similar concession was granted to the German East Africa Association of the Sultan's mainland territories between the river Umba and Cape Delgado. In 1890 the German Government bought these territories outright for 4m. marks. In 1892 the administration of the Benadir Ports (which had in 1889 been conceded to the British East Africa Association) was, with the consent of the Sultan, transferred to the Italian Government in consideration of a quarterly payment of Rs 40,000. The Sultan renounced in 1886 in favour of Portugal all claims to the coast to the south of Cape Delgado.

In 1890 the islands of Zanzibar and Pemba were placed under British protection by the Sultan, Seyyid Ali bin Said.

On 24 June 1963 Zanzibar became an internal self-governing state and on 9 Dec. 1963 she became independent. On 24 June 1963 the Legislative Council was replaced by a National Assembly.

On 12 Jan. 1964 the sultanate was overthrown and the sultan sent into exile by a revolt of the Afro-Shirazi Party leaders who established the People's Republic of Zanzibar. The 'interim constitution' of Tanzania provides for a separate executive and legislature in Zanzibar.

AREA AND POPULATION. The island of Zanzibar is situated in 6° S. lat., and is separated from the mainland by a channel 22½ miles across at its narrowest part. It is the largest coralline island on the African coast, being 50 miles long by 24 broad, and having an area of 640 sq. miles (1,658 sq. km). To the north-east, at a distance of some 25 miles, lies the island of Pemba in 5° S. lat., 42 miles long

by 14 broad, having an area of 380 sq. miles (984 sq. km). The average annual rainfall is about 60 in. in Zanzibar and nearly 80 in. in Pemba.

The population of Zanzibar and Pemba, at the 1967 census, was 354,360 (Zanzibar, 190,117; Pemba, 164,243). The African population is composed of the indigenous Watumbatu, Wahadimu and Wapemba, and other Africans comprising at least 50 mainland tribes. The racial composition of the population was as follows in 1958: Indigenous inhabitants, Arabs, Comorians and mainland Africans, 279,935; Asians other than Arabs, 18,334; Europeans, 507; others, 335. Zanzibar town had a population of 57,923.

RELIGION. Most of the residents are Moslems (Sunnis of the Shafi school). There are 3 Christian Missions: the Universities Mission to Central Africa (Church of England), the Mission of the Holy Ghost (Roman Catholic) and the Friends' Industrial Mission (Quakers).

EDUCATION. In 1967 there were 90 primary schools with 39,000 pupils and 12 secondary schools with 1,961 pupils.

JUSTICE. In the cases in which persons subject to the Zanzibar Order-in-council, 1924, are parties, justice is administered by the High Court and the courts subordinate thereto. Subordinate courts are presided over by resident magistrates, administrative officers, Kathis and Mudirs. There are also juvenile courts comprising male and female members selected from panels. Appeals lie to the Court of Appeal for Eastern Africa and thence to the Privy Council.

FINANCE. Revenue and expenditure (in Sh.1m.) for fiscal years ending 30 June:

	1963-64	1964-65	1965-66 ¹	1966-67 ¹
Revenue	59.66	57.56	63.72	60.66
Expenditure	63.22	56.11	63.32	59.83

¹ Estimates.

AGRICULTURE. Zanzibar provides the greater part of the world's supply of cloves. There are about 80,000 acres under cloves with about 4m. trees; five-sixths of the clove output is produced on Pemba. Cloves and clove oil (distilled from the stems) form more than half Zanzibar's exports.

The coconut industry ranks next in importance. There are about 5.5m. bearing trees in both islands. Chillies, cocoa, limes, other tropical fruits and coil tobacco are also cultivated. The chief food crops are rice, bananas, cassava, pulses, maize and sorghum.

FISHERIES. A Fisheries Development Company, in which the Government has a financial interest, is catching sardines and tuna for export.

MANUFACTURES. Manufactures are principally coir fibre, bags and rope, soap, marine shell, ivory and ebony ornaments, and metalware. Private factories have been taken over by the government.

COMMERCE. Total imports and exports in (Sh.1m.):

	1961	1962	1963	1964	1965	1966
Imports	110	106	108	76	82	90
Exports	72	64	86	74	68	94

The principal articles of import in 1965 (in Sh.1m.) were: Rice, 11.9; wheat, 4.88; sugar, 2.72; khangas, 2.22; fuel, 4.7. Main exports: Cloves, 46; copra, 15.16.

SHIPPING. The vessels of many British and foreign steamship companies visit the port. The Zanzibar Government steamers operate services to Pemba and Dar es Salaam, and occasional trips to Mombasa.

Ocean-going shipping in 1962, 456 vessels (2,073,777 NRT); coastwise, 258 vessels (138,063 NRT).

ROADS. There are in Zanzibar 279 miles of tarmac roads and 70 miles of all-weather unsealed roads; in Pemba there are 86 miles of tarmac roads and 184 miles of dry-weather earth roads.

AVIATION. There is an all-weather landing-ground in Zanzibar and a smaller all-weather landing-ground in Pemba.

POST. The Government maintains a telephone system in the town of Zanzibar, which is connected with the district and agricultural stations in the country. A telephone service in the island of Pemba connects the 3 main townships, *i.e.*, Wete, Chake Chake and Mkoani. There are 7 post offices and 1,750 telephones in the two islands. The government savings bank at the end of 1962 had 35,413 depositors, with £514,349 on deposit.

There is cable communication with Europe either *via* Aden or *via* Durban and a wireless telephone communication with the other East African territories.

WEIGHTS. An important local unit of weight is the frasla (or frasila) = 35 lb. av.

TONGA

Friendly Islands

HISTORY. The kingdom of Tonga attained unity under Taufa'ahau Tupou (George I) who became ruler of his native Ha'apai in 1820, of Vava'u in 1833 and of Tongatapu in 1845. By 1860 the kingdom had become converted to Christianity (George himself having been baptized in 1831). In 1862 the king granted freedom to the people from arbitrary rule of minor chiefs and gave them the right to the allocation of land for their own needs. These institutional changes, together with the establishment of a parliament of chiefs, paved the way towards the democratic constitution under which the kingdom is now governed, and provided a background of stability against which Tonga was able to develop her agricultural economy.

The kingdom continued up to 1899 to be a neutral region in accordance with the Declaration of Berlin, 6 April 1886. By the Anglo-German Agreement of 14 Nov. 1899, subsequently accepted by the USA, the Tonga Islands were left under the Protectorate of Great Britain.

A protectorate was proclaimed on 18 May 1900, and a British Agent and Consul appointed.

AREA AND POPULATION. The kingdom consists of some 169 islands and islets with a total area of 270 sq. miles (700 sq. km; including inland waters), and lies between 15° and 23° 30' S. lat. and 137° and 177° W. long., its western boundary being the eastern boundary of Fiji. The islands are split up into the following groups reading from north to south: The Niuas, Vava'u, Ha'apai, Kotu, Nomuka, Otu Tolu and Tongatapu. The 3 main groups, both from historical and administrative significance, are Tongatapu in the south, Ha'apai in the centre and Vava'u in the north. The Tongatapu group was discovered by Tasman in 1643.

The capital is Nuku'alofa on Tongatapu.

The islands to the east, being mostly of limestone formation, are low lying and with but a few exceptions seldom exceed 100 ft above sea-level. The islands to the west are of a volcanic nature, approximately 11, average between 350 and 3,433 ft in height. After a violent volcanic eruption in Sept. 1946 on the island of Niuafu'ou (Tin Can Island to philatelists, so named because of the method that was used of collecting and delivering mail) the 1,300 inhabitants were evacuated, most of them to Tongatapu and 'Eua, but more than 600 have returned since 1958. It was thought that a new island had been born when an eruption took place on the Metis Shoal on 12 Dec. 1967; during the volcanic activity a small rocky mass reached a maximum elevation of about 50 ft, but by Feb. 1968 the area was once more awash.

The climate is mild and healthy, malaria being unknown. The temperature from May to Nov. rarely exceeds 84° F. in the shade, with a minimum temperature of 52° F. Census population at 30 Nov. 1966, 77,429, including 76,121 Tongans, 402 Europeans, 512 Part-Europeans and 394 others. Estimate (1972) 92,360.

CONSTITUTION AND GOVERNMENT. Relations between the UK and Tonga have been governed by the 1900 Treaty of Friendship and Protection and several subsequent revisions. For earlier history of this relationship *see* THE STATESMAN'S YEAR-BOOK, 1970-71. By exchange of letters on 19 May 1970 it was agreed that the UK Government should, as from 4 June 1970, cease to have any responsibility for the external relations of the Kingdom of Tonga. On the same date Tonga became a full member of the Commonwealth.

King: HM King Taufa'ahau Tupou IV, GCVO, KCMG, KBE, born 4 July 1918, succeeded on 16 Dec. 1965 on the death of his mother, Queen Salote Tupou III; his coronation took place on 4 July 1967.

Prime Minister: HRH Prince Tu'ipelehake, CBE, younger brother of the King.

The present constitution is almost identical with that granted in 1875 by King George Tupou I. There is a Privy Council, Cabinet, Legislative Assembly and Judiciary. The legislative assembly, which meets annually, is composed of 7 nobles elected by their peers, 7 elected representatives of the people and the Privy Councillors (numbering 8); the King appoints one of the 7 nobles to be the Speaker. The elections are held triennially. In 1960, women voted for the first time.

RELIGION. The Tongans are Christian, the vast majority being adherents of the Wesleyan Church.

EDUCATION. The Tongans enjoy free education, free medical attendance and dental treatment. In 1971 there were 82 government and 47 denominational primary schools, with a total of 16,416 pupils. There are 2 government and 50 mission schools at which post-primary education is provided for both boys and girls, with a total roll of 10,164.

JUSTICE. Now that British extra-territorial jurisdiction has lapsed and British and foreign nationals charged with an offence against the laws of Tonga (the enforcement of which is a responsibility of the Minister of Police) are fully subject to the jurisdiction of the Tongan courts to which they are already subject in all civil matters.

FINANCE. *Currency.* In 1935 the exchange standard system was adopted, based on Australian currency. There is a government note issue of *pa'anga* (T\$) 10, 5, 2, 1 and $\frac{1}{2}$ and coin issue of T\$1 and *seniti* 50, 20, 10, 5, 2 and 1. The change-over to decimal currency took place on 3 April 1967; the *pa'anga* being at par with the Australian dollar and the *seniti* with the Australian cent. In April 1963 gold coins were issued in denominations of 1, $\frac{1}{2}$ and $\frac{1}{4}$ *koula* (1 *koula* =

T£20) and in July 1967, Coronation Palladium coins of 1, $\frac{1}{2}$ and $\frac{1}{4}$ *hau* (1 *hau* = T\$100).

Budget. Revenue and expenditure in T\$1,000:

	1968-69	1969-70	1970-71	1971-72
Revenue	2,608	2,714	2,731	3,143
Expenditure	2,398	2,629	3,002	3,162

PLANNING. A 5-year plan 1965-70 has been successfully completed at a total cost of T\$4.5m. The 1970-75 plan lays greater stress on economic services with an estimated expenditure of T\$4.8m.

PRODUCTION. Tongan produce consists almost entirely of copra and bananas. Imports in 1971 were valued at T\$6,305,000; exports, T\$2.2m.

COMMUNICATIONS. The Union Steamship Co. of New Zealand maintains a monthly service New Zealand-Fiji-Tonga, and cargo steamers visit the group from time to time for shipments of copra. Shipping cleared at all ports in 1972, 114 cargo vessels, 40 cruise vessels and 15 tankers.

There is an air service 5 times a week between Fiji and Tonga by Fiji Airways and three times a week between Western Samoa and Tonga by Polynesian Airlines.

The kingdom has its own issue of postage stamps. Telephones numbered 1,073 in 1972.

There are no trading banks.

The weights and measures are the same as in Great Britain.

TRINIDAD AND TOBAGO

HISTORY. Trinidad was discovered by Columbus in 1498 and colonized by the Spaniards in the 16th century. During the French Revolution a large number of French families settled in the island. In 1797, Great Britain being at war with Spain, Trinidad was occupied by the British and ceded to Great Britain by the Treaty of Amiens in 1802. Trinidad and Tobago were joined in 1889.

Under the Bases Agreement concluded between the governments of the UK and the USA on 27 March 1941, and the concomitant Trinidad-US Bases Lease of 22 April 1941, defence bases were leased to the US Government for 99 years. On 8 Dec. 1960 the US agreed to abandon 21,000 acres of leased land and the US has since given up the remaining territory, except for a small tracking station.

AREA AND POPULATION. Area: Trinidad, 1,864 sq. miles (4,828 sq. km); Tobago, 116 sq. miles (300 sq. km). Population (census 7 April 1960): 827,957 (411,580 males and 416,377 females) (Trinidad, 794,624; Tobago, 33,333). Capital, Port-of-Spain, 93,954; other important towns, San Fernando (39,890), and Arima (10,982). The white population (15,718) is chiefly composed of persons of English, French, Spanish and Portuguese descent. The majority are of African descent (358,588), the balance being made up of Indians (301,946), mixed races (134,748) and Chinese (8,361). English is spoken generally.

Estimated population in mid-1967, 1,010,100 (504,350 males, 505,750 females).

Vital statistics, 1968: Births, 28,110; deaths, 7,120; marriages, 5,698.

CONSTITUTION AND GOVERNMENT. On 31 Aug. 1962 Trinidad and Tobago became an independent member state of the British Commonwealth.

The constitution provides for a bicameral legislature of a Senate and a House of Representatives. The Senate consists of 24 members appointed by the Governor-General, 13 of them on the advice of the Prime Minister, 4 on the advice of the Leader of the Opposition and 7 from religious, economic and social bodies the Prime Minister considers should be represented.

The House of Representatives consists of 36 elected members.

The Cabinet consists of the Prime Minister, appointed by the Governor-General, and other Ministers, including the Attorney-General (20 in 1971).

The general elections held on 24 May 1971 gave the People's National Movement all the 36 seats.

Governor-General: Sir Ellis Clarke, CMG (appointed 1 Jan. 1973).

Prime Minister: Dr Eric E. Williams, PC, CH.

RELIGION. According to the census in 1960 there were 175,042 Anglicans (under the Bishop of Trinidad and Tobago), 299,649 Roman Catholics (under the Archbishop of Port-of-Spain), 32,400 Presbyterians, 18,589 Methodists, 18,522 Baptists, 12,632 Seventh Day Adventists, 3,822 Jehovah's Witnesses, 4,031 Pentecostal, 190,403 Hindus, 49,736 Moslems.

EDUCATION. In 1969 there were 471 primary and intermediate schools (111 government, 360 assisted), 130 private (non-assisted) primary schools and 112 secondary schools (21 government, 23 assisted and 74 private).

There were 219,679 pupils on roll in the primary and intermediate schools and 27,435 in the secondary schools (government and assisted); the private primary and secondary schools had 20,130 pupils on roll. Education in government and assisted secondary schools was made free in 1960.

There are also 5 training colleges. Technical and commercial education is provided by 4 government sponsored technical schools.

CINEMAS (1967). There are 70 cinemas and 4 drive-in cinemas.

NEWSPAPERS (1971). There are 2 daily newspapers with an average daily circulation of 94,254 (Sunday, 138,474), and an evening paper (Monday-Friday) with a daily circulation of 50,857.

JUSTICE. The High Court consists of the Chief Justice and not fewer than 10 puisne judges. In criminal cases a judge of the High Court sits with a jury of 12 in cases of treason and murder, and with 9 jurors in other cases. The Court of Appeal consists of the Chief Justice and 3 Justices of Appeal; there is a limited right of appeal from it to the Privy Council. There are 6 High Courts and 28 magistrates' courts.

Police. At the end of 1970 the police force consisted of 63 officers, 72 inspectors and 2,446 other ranks.

FINANCE. Currency. The Trinidad and Tobago dollar of 100 cents equals £0·21. Total circulation of currency was TT\$84,903,000 in 1971.

Budget and Commerce. Statistics of 5 calendar years (in TT\$1,000):

	1965 ²	1966 ¹	1967 ¹	1968	1969

UGANDA

AREA AND POPULATION. Total area 91,343 sq. miles (236,860 sq. km), including 15,217 sq. miles (39,459 sq. km) of swamp and water.

The population of Uganda is 11,171,900 (1974 estimate), including some 9,000 Europeans and 88,000 Asians. On 4 Aug. 1972 President Amin announced that he would ask the UK to take responsibility for Asians in Uganda holding British passports. Later that year 27,200 Asians had left Uganda for Britain. The majority of the Africans (1,044,000) are Baganda, the tribe from which the country takes its name. In 1966 some 68,000 Tutsi refugees from Rwanda, some 55,000 Sudanese refugees and some 33,000 refugees from the Congo were living in Uganda.

About 3m. Africans speak Bantu languages; there are a few Congo pygmies living near the Semliki River; the rest of the Africans belong to the Hamitic, Nilotic and Sudanese groups. Ki-Swahili is generally understood in trading centres. The capital is Kampala; the population of greater Kampala (1969), 330,700.

The official language is English.

CONSTITUTION AND GOVERNMENT. Uganda became a fully independent member of the Commonwealth on 9 Oct. 1962 after nearly 70 years of British rule. Full sovereign status was granted by the Uganda Independence Act, 1962, and the Constitution is embodied in the Uganda (Independence) Order in Council, 1962. The post of Governor-General was on 9 Oct. 1963 replaced by that of President as head of state, elected by the National Assembly for a 5-year term.

Uganda became a republic on 8 Sept. 1967. Under the 1967 Constitution, the executive authority is vested in the President. The President is assisted by a Cabinet of Ministers. Unlike the Presidential system in the United States and other countries, in Uganda the President is a Member of the National Assembly, and takes an active part in the Assembly's deliberations.

On 25 Jan. 1971, Dr A. Milton Obote was overthrown by troops led by Gen. Idi Amin.

Military Head of State: Gen. Idi Amin. *Foreign Affairs:* Wanume Kibedi.

National flag: Six horizontal stripes of black, yellow, red (repeated) with a crested emblem on a white orb in the centre.

For administrative purposes Uganda is divided into 4 regions: (1) the Eastern Region, comprising the districts of Bugisu, Bukedi, Busoga, Mbale Township, Sebei and Teso; (2) the Western Region, comprising the districts of Bunyoro, Toro, Ankole and Kigezi; (3) Buganda Region, with islands in Lake Victoria, comprising the districts of Mengo, Masaka and Mubende; and (4) the Northern Region, comprising the districts of Karamoja, Lango, Acholi and West Nile.

EDUCATION. Education is a joint undertaking by the government, local authorities and, to some extent, voluntary agencies. The education system is divided into three sectors, primary, secondary and post-secondary. The primary course covers 7 years. There were 786,899 pupils in grant-aided primary schools in 1972. Education at secondary level falls into 4 categories, namely, secondary

schools, which are the grammar type of schools with a course extending over 6 years to Higher School Certificate; technical schools; farm schools; and primary teacher-training colleges. Further education is provided at the Uganda Technical College, the National Teachers' College, the Uganda College of Commerce and Agricultural Colleges. There are also several Departmental Training Schools for training staff for different departments. The Medical Department alone has 8 such schools for training nurses, midwives, Medical Assistants, Health Inspectors, and other medical staff.

University level education is available at Makerere University College and the 2 other constituent Colleges of the University of East Africa; the University College, Nairobi, in Kenya, and the University College, Dar es Salaam, in Tanzania. Uganda students also go to universities and colleges outside East Africa for higher education.

JUSTICE. The High Court of Uganda, presided over by the Chief Justice and 12 puisne judges, exercises original and appellate jurisdiction throughout Uganda. Subordinate courts, presided over by Chief Magistrates and Magistrates of the first, second and third grade, are established in all areas: jurisdiction varies with the grade of Magistrate. Chief and first-grade Magistrates are professionally qualified; second- and third-grade Magistrates are trained to diploma level at the Law School, Entebbe.

Chief Magistrates exercise supervision over and hear appeals from second- and third-grade courts.

The Court of Appeal for Eastern Africa was re-established on 9 Dec. 1962 as the Court of Appeal for Uganda; it hears appeals from the High Court.

A law school has been established at Entebbe to train magistrates in civil and criminal law. The African courts have been integrated with the Central Government Courts so that a unified courts system has been established.

FINANCE. Currency. East African Currency Board notes ceased to be legal tender from 14 Sept. 1967. The exchange rate is 17·14 Uganda shillings = £1.

Budget. The revenue and expenditure (exclusive of loan disbursements) for fiscal years (1 July–30 June) were (in Uganda sh. 1m.):

	1971–72	1972–73
Revenue	1,436	1,525
Expenditure	1,374	1,430

In 1965–66 (and estimate 1966–67) income tax amounted to £4·55m. (£7·48m.) and other direct taxation to £30,200 (£1·5m.). Public debt June 1967, £60·97m.

In 1965–66 Uganda contributed £1,503,103 (1966–67 estimate, £1·64m.) to the East Africa Common Services Organization Distributable Pool Fund, from which Uganda received £942,078 (1966–67 estimate, £1m.).

DEFENCE. The Army has a strength of at least 12,000 and is organized into 2 brigades, each of 3 infantry battalions, 1 mechanized, 2 commando and 1 border battalion.

The Air Force was formed in 1964 and later underwent rapid expansion with the assistance of Israeli and Czechoslovakian training missions. Current equipment includes at least 5 MiG-17 jet fighter-bombers, 2 Mig-15UTI two-seat trainers, 6 C-47 transports, about 10 L-29 Delfin armed jet trainers, 11 Super Cub primary trainers, 10 Piaggio P 149 piston-engined and 8 Israeli-built Magister jet basic trainers, 6 Agusta-Bell 205 Iroquois and 2 Agusta-Bell 206 JetRanger helicopters. Personnel number about 600. In addition the Police Air Wing has 1 Twin Otter and 1 Caribou twin-engined STOL transports, 1 Turbo-Beaver and 1 Piper Aztec light transports, and about 10 Bell 205, JetRanger, Bell 212 and Scout helicopters.

AGRICULTURE. Cotton and coffee are the principal exports, the former being grown entirely and the latter very largely by African farmers. Production of cotton in 1969–70 was 468,000 bales (of 400 lb.) which was a record. The

1965-66 coffee crop amounted to 160,000 tons, of which 145,000 tons was *robusta*. Other cash crops produced in 1965-66 were tea (24.7m. lb.), tobacco (6m. lb.), groundnuts (8,400 lb. exported), maize (42,000 lb. exported), castor seed (1,900 tons exported), sisal (320 tons) and sugar (1966, 125,700 tons; 1965, 115,696 tons).

FORESTRY. Exploitable forests consist almost entirely of hardwoods. Internal consumption is rising. During 1964-65 approximately 28,000 tons of sawn timber were produced. About half of the timber exported goes to the United Kingdom and another quarter to Kenya and Tanganyika, from which in return the bulk of the softwood imports are obtained.

FISHERY. With its 13,600 sq. miles of lakes and many rivers, Uganda possesses one of the largest fresh-water fisheries in the world. In 1966 fish production was 80,000 tons with a retail value of £6.5m. Fish farming (especially carp and tilapia) is a growing industry.

MINERALS. With the opening of the Kilembe mine in 1956, copper has become Uganda's most valuable mineral export. In 1966 the principal minerals produced were: Blister copper, 16,041 long tons (£6,995,500) (1967: 14,392 long tons, £5,593,000); cement (1963), 54,282 long tons (£616,101); tin ore, 180.3 long tons (£171,982) (1967: 156.6 long tons, £143,325). Total value of mineral production in 1963 was £4,539,240.

POWER. Industrial expansion is based on hydro-electric power provided by the Owen Falls scheme, which has a capacity of 150,000 kwh.

COMMERCE. Since 1927 Uganda has been united in a customs union with Kenya and Tanzania (*see* p. 519).

In 1966, £15.5m. of the imports came from the UK, £4.8m. from West Germany, £2.3m. from Japan. The biggest buyers were USA (£17m.), UK (£12.3m.), Japan (£3.3m.).

Total trade between Uganda and UK in £1,000 sterling (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	15,190	17,466	17,652	19,374	18,795	20,788
Exports and re-exports from UK	8,308	10,110	9,960	15,665	9,302	4,913

COMMUNICATIONS. Lake, marine, railway and some road services are operated by the East African Railways and Harbours Administration (*see* p. 520).

Roads. There are 3,876 miles of all-weather roads maintained by the Ministry of Works, of which 796 miles are two-lane bitumenized highways, and some 11,230 miles of other roads, maintained by district governments.

Aviation. Entebbe has a first-class international airport and has direct flights to Europe, Rhodesia, Sudan, Kenya, Tanzania, Congo Republic, Burundi and Rwanda by British Airways, BUA, EAA, Sudan Airways, Air Congo, SABENA, SAS, Alitalia and many charter companies. Entebbe airport was used by 125,029 passengers in 1964. Eleven other government airfields are used for internal communications.

Post. For posts *see* p. 520. There were 34,190 telephones in use at 1 Jan. 1972.

WESTERN SAMOA

Samoa i Sisifo

HISTORY. Western Samoa, a former German protectorate (1900 to the First World War), was administered by New Zealand from 1920 to 1961, at first under a League of Nations Mandate and since 1946 under a United Nations Trusteeship Agreement. In May 1961 a plebiscite held under the supervision of the United Nations on the basis of universal adult suffrage voted overwhelmingly in favour of independence as from 1 Jan. 1962, on the basis of the Constitution, which a Constitutional Convention had adopted in Aug. 1960. In Oct. 1961 the General Assembly of the United Nations passed a resolution to terminate the trusteeship agreement as from 1 Jan. 1962, on which date Western Samoa became an independent sovereign state.

Under a treaty of friendship signed on 1 Aug. 1962 New Zealand acts, at the request of Western Samoa, as the official channel of communication between the Samoan Government and other governments and international organizations outside the Pacific islands area. Liaison is maintained by the New Zealand High Commissioner in Apia, who is the only diplomatic representative accredited to the Government of Western Samoa.

AREA AND POPULATION. Western Samoa lies between 13° and 15° S. lat. and 171° and 173° W. long. It comprises the two large islands of Savai'i and Upolu, the small islands of Manono and Apolima, and several uninhabited islets lying off the coast. The total land area is 1,097 sq. miles (2,842 sq. km), of which 662 sq. miles are in Savai'i, and 433 sq. miles in Upolu. The islands are of volcanic origin, and the coasts are surrounded by coral reefs. Rugged moun-

tain ranges form the core of both main islands and rise to 3,608 ft in Upolu and 6,094 ft in Savai'i. The large area laid waste by lava-flows in Savai'i is a primary cause of that island supporting less than one-third of the population of the islands despite its greater size than Upolu.

The population at the 1971 census was 146,635 (75,927 males and 70,708 females), of whom 106,063 were in Upolu (including Manono and Apolima) and 40,572 in Savai'i. The capital and chief port is Apia in Upolu (population 28,880 in 1970).

CONSTITUTION AND GOVERNMENT. The Constitution provides for a Head of State known as 'Ao o le Malo', which position from 1 Jan. 1962 was held jointly by the representatives of the two royal lines of Tuiaana/Tuiatua and Malietoa. On the death of HH Tupua Tamasese Mea'ole, CBE, on 5 April 1963, HH Malietoa Tanumafili II CBE, became, as provided by the constitution, the sole Head of State for life. Future Heads of State will be elected by the Legislative Assembly and hold office for 5-year terms.

The executive power is vested in the Head of State, who appoints the Prime Minister and, on the Prime Minister's advice, the 8 Ministers to form the Cabinet which has general direction and control of the executive Government.

Parliament comprises the Head of State and the Legislative Assembly. The Legislative Assembly has 45 members elected from territorial constituencies on a franchise confined to matais or chiefs (of whom there are about 11,000) and 2 members elected on universal adult suffrage from the individual voters roll, which has replaced the old European roll (approximately 1,350 in 1971).

The official languages are English and Samoan.

Head of State: HH Malietoa Tanumafili II, CBE.

Prime Minister: Tupua Tamasese Lealofi IV.

FINANCE. **Currency.** On 10 July 1966 Western Samoa changed over to decimal currency. The Western Samoa *talā* (dollar) is at parity with the NZ dollar, equally £0.50. Currency in circulation consists of Samoan Treasury notes and coins.

Budget. Revenue and expenditure for calendar years, in \$WS:

	1970	1971
Revenue	7,089,500	8,057,800
of which NZ Government grants	120,000	120,000
Expenditure	7,012,600	8,364,500

¹ Estimates.

COMMERCE. In 1971, imports were valued at \$WS9,614,391 and exports at \$WS4,484,145. Principal exports were copra (17,781 tons; \$WS2.03m.), bananas (247 tons; \$WS284,000) and cocoa (2,890 tons; \$WS1.29m.). Chief imports in 1971 included meat (\$WS744,967) and electrical machinery (\$WS851,593).

Total trade between Western Samoa and UK, in £1,000 sterling (British Board of Trade returns):

	1968	1969	1970	1971	1972	1973
Imports to UK	110	71	90	77	124	372
Exports and re-exports from UK	255	293	323	347	1,116	987

ROADS (1971). Western Samoa has over 244 miles of main roads, 101 miles of municipal secondary and village roads and 195 miles of plantation roads fit for light traffic. In 1971 there were 1,491 passenger cars and 590 commercial vehicles.

SHIPPING. There is a regular fortnightly shipping communication from New Zealand and Fiji, connecting also with Japan, UK and USA, as well as direct shipping communication with Japan and UK.

AVIATION. Western Samoa is linked by daily air service with American Samoa, which is on the route of the weekly New Zealand-Tahiti and New

Zealand-Honolulu air services, with connexions to Fiji, Australia, USA and Europe. There are also twice-weekly services to and from Fiji and Tonga. Internal services link Upolu and Savai'i.

TELECOMMUNICATIONS. There is a radio communication station at Apia. Radio telephone service connects Western Samoa with American Samoa, Fiji, New Zealand, Australia, Canada, USA and UK. Telephone subscribers numbered 2,183 in 1973.

BANKING. In 1959 the Bank of Western Samoa was established with a capital of \$WS500,000, of which \$WS275,000 was subscribed by the Bank of New Zealand and \$WS225,000 by the Government of Western Samoa. In 1961 the bank became the note-issuing authority of Western Samoa.

WEST INDIES

The West Indies federation, established on 3 Jan. 1958, was dissolved in Feb. 1962 after Jamaica and Trinidad had opted out of it.

In 1967 new constitutional arrangements were made for 'the West Indies Associated States'. Antigua, St Kitts-Nevis-Anguilla (on 27 Feb.), Dominica, St Lucia (on 1 March), Grenada (on 3 March) and St Vincent (on 1 June) were given self-government in association with Britain which retains powers and responsibilities for defence and external affairs.

The following common institutions have been maintained after the dissolution of the federation:

EDUCATION. The University College of the West Indies, situated at Mona, Jamaica, was affiliated to London University, but became independent in April 1962. It received a Royal Charter in 1949 and has faculties of Medicine, Arts, Natural Sciences and a Department of Education. The former Imperial College of Tropical Agriculture in Trinidad is the faculty of Agriculture and Engineering; a College of Arts and Science has been added. Barbados also has a campus of the University of the West Indies where training is offered in Arts, Natural Science, the Social Science, and Law.

JUSTICE. The British Caribbean Court of Appeal has replaced the West Indies Associated States Court of Appeal, serving the Associated States. In each of the independent countries there is a Court of Appeal.

TRADE. The Caribbean Free Trade Area (CARIFTA) was established between Antigua, Barbados, Guyana, and Trinidad and Tobago on 1 May 1968; it was joined by Dominica, Grenada, St. Kitts-Nevis-Anguilla, St Lucia and St Vincent on 1 July 1968, by Jamaica and Montserrat on 1 Aug. 1968 and by the Bahamas and British Honduras.

SHIPPING. The West Indies Shipping Corporation continues to provide a regular shipping service for passengers and cargo, the West Indies Shipping Corporation Act 1961 continuing with adaptation to be part of the law of the territories, including Jamaica and Trinidad and Tobago.

The West Indies Meteorological Service continues on a completely reorganized basis. It also serves Guyana, British Honduras and British Virgin Islands.

TELECOMMUNICATIONS. The territories are linked by cable, radio-telegraph and radio-telephone. Cable & Wireless (West Indies) Ltd have installed a multi-channel tropospheric scatter-link between Trinidad and Barbados and a network of VHF circuits covering the other territories.

CURRENCY. After Trinidad and British Guiana had withdrawn from the British Caribbean Currency Board, Barbados, the Leeward Islands (Antigua, St Kitts-Nevis-Anguilla, Montserrat), and the Windward Island (St Vincent, St Lucia, Dominica) united under the East Caribbean Currency Authority to issue new currency notes of \$1, 5, 20 and 100, with effect from 6 Oct. 1965. Barbados subsequently withdrew from ECCA and intends to establish its own central bank.

On 1 April 1965, \$69,860,809 notes and \$5,824,343 coins were in circulation; demonetized government notes outstanding totalled \$292,550. The liability for Trinidad and Tobago Government demonetized notes outstanding at 14 Dec. 1964 has been assumed by the Central Bank of Trinidad and Tobago and is therefore not included in the circulation for which the British Caribbean Currency Board is liable.

Leeward and Windward Islands

A new Constitution was introduced for the Leeward and Windward Islands in 1967, called Statehood in Association. For earlier constitutions see THE STATESMAN'S YEAR-BOOK, 1972-73, p. 506. This is really a quasi-independent status whereby each State is responsible for its own internal affairs while Britain retains responsibility for external affairs and defence. Montserrat, though, did not opt for this improved constitution and so remains a Crown Colony.

For the new Associated States, this Legislature is bicameral in Antigua, Grenada, Dominica and St Vincent, while in St Kitts and St Lucia it is unicameral.

In Montserrat, the Executive Council is now made up of the Chief Minister, 3 other ministers and one other member appointed by the Governor on the advice of the Chief Minister.

Administrators have been replaced by Governors representing the Queen, who can only act on the advice of the Premiers.

Each State has its own police force and its own police Service Commission.

Report by the Leeward and Windward Islands Constitutional Conference, 1961. (Cmd 1434)

Leeward Islands. The group, which lies to the north of the Windward group, and south-east of Puerto Rico, consists of the 4 territories of Antigua (with Barbuda and Redonda), St Christopher-Nevis-Anguilla, Montserrat and the Virgin Islands.

The chief products are sugar and molasses (Antigua and St Kitts), cotton (Antigua, Montserrat, St Kitts-Nevis), limes and fruits, vegetables, cotton seed

(Montserrat), salt (Anguilla and St Kitts) and livestock, fish, vegetables, fruit and charcoal (Virgin Islands).

St Vincent. Area, 150.3 sq. miles (389 sq. km); population, census of 7 April 1972, 100,000. Capital, Kingstown, population, 22,000. Vital statistics (1966): Live births, 3,771; still births, 60; deaths, 832; marriages, 220.

Governor: Sir Rupert John.

Chief Minister: James Mitchell.

EDUCATION (1967). Fifty-eight primary schools; pupils on roll, 26,992, average attendance, 21,036. Expenditure on primary education, \$1,287,750. There is also a secondary school for boys (348 pupils) and one for girls (376 pupils). Expenditure on secondary education, including subsidy to 7 private secondary schools and cost of evening classes, \$236,679.

JUSTICE (1967). There were 2,945 convictions in the 3 magistrates' courts. Strength of police force, 205 (including 4 officers).

FINANCE. Revenue, 1967, \$8,319,170 (\$621,577 from colonial development and welfare funds and \$35,242 from overseas service aid); expenditure, \$8,812,053 (\$897,907 on colonial development and welfare schemes and \$40,411 on overseas service aid). The 1968 estimates balanced at \$10,607,355 (\$2.22m. from grant-in-aid; \$2,263,652 on development and welfare). Public debt at end of 1967, \$1,749,642.

PRODUCTION. The estimated alienated area is about 47,000 of the total acreage of 85,120. 34,000 acres are under forest and woodland; of these about 5,000 acres are used for grazing; 3,000 are considered potentially productive for agriculture and 5,000 for forestry. About 14,000 acres are considered unsuitable for either agriculture or forestry and approximately 6,000 acres are built on roads, rivers, etc. Of the total alienated area, 34,000 acres are considered arable land, of which 20,000 acres are under temporary crops, 4,000 acres under temporary meadows, 300 acres devoted to market-garden crops with temporary fallow and all other arable land making up a further 9,700 acres. About 2,000 acres are under permanent meadow, of which 750 are cultivated.

Bananas, arrowroot flour, copra, cotton, sweet potatoes, yams, tannias and other starchy roots, nutmegs and mace and small amounts of peanuts are produced. The Territory is largely self-supporting in vegetables. St Vincent is renowned for its arrowroot and long staple Sea Island cotton, the finest there is.

Land ownership: Crown, 38,000 acres; planters, 17,000 acres; small farmers, 25,500 acres; settlements, 6,000 acres.

The electricity system is owned and operated by the St Vincent Electricity Services (CDC). The system consists of 3 power stations: Colonarie Hydro (716 kw.); Kingstown Diesel (1,460 kw.) and Richmond Hydro (1,100 kw.), which are linked by 11,000-volt transmission lines covering the island from Richmond through Kingstown to Georgetown. Current is supplied at 400 volts 3-phase, 50 cycles for industrial purposes and 230 volts single phase for domestic purposes. There are 6,250 consumers.

LABOUR. There are 6 registered trade unions: Federal Industrial and Agricultural Workers Union, the St Vincent Union of Teachers, the Civil Service Association, the Secondary School Teachers' Association, the Commercial, Technical and Allied Workers' Union, and the St Vincent Employers' Federation.

ZAMBIA

HISTORY. The independent Republic of Zambia (formerly Northern Rhodesia) came into being on 24 Oct. 1964 after 10 months of internal self-government following the dissolution of the Federation of Rhodesia and Nyasaland on 31 Dec. 1963.

By an Order in Council dated 4 May 1911 the two provinces of North-eastern and North-western Rhodesia were amalgamated under the name of Northern Rhodesia, with effect from 17 Aug. 1911.

By an Order in Council dated 20 Feb. 1924, the office of Governor was created

an executive council constituted and provision made for the institution of a legislative council which, since 1945, had an unofficial majority. On 1 April 1924 the British South Africa Company was relieved of the administration of the territory by the Crown.

AREA AND POPULATION. The area is 290,586 sq. miles (752,262 sq. km). Population (1969), 4,057,000. Capital, Lusaka (census) 262,182.

CONSTITUTION AND GOVERNMENT. The Constitution provides for a President, elected in the first instance by the Legislative Assembly, but subsequently at each general election by the electorate. A Vice-President, appointed by the President, leads the Government in the National Assembly. The Assembly consists of 125 elected members, 10 nominated members, including a Cabinet of 24. The National Assembly is presided over by an elected Speaker.

At the elections for the National Assembly held on 19 Dec. 1968 the United National Independence Party obtained 81 seats, the African National Congress 23 and the Independents 1. On 13 Dec. 1972, President Kaunda signed a new Constitution based on one-party rule.

President: Dr Kenneth David Kaunda. *Vice-President:* Mainza Chona.

The Cabinet, as of Nov. 1972, was composed as follows:

Secretary-General to the Government: A. Milner. *Finance:* J. Mwanakatwe. *Foreign Affairs:* E. H. K. Mudenda. *Rural Development:* R. C. Kamanga. *Defence:* A. G. Zulu. *Home Affairs:* L. Changufu. *Local Government and Housing:* P. Matoka. *Information, Broadcasting and Tourism:* S. Wina. *Lands and Natural Resources:* S. Kalulu. *Power, Transport and Works:* F. Mulikita. *Education and Culture:* W. Nyirenda. *Health:* A. B. Chikwanda. *Labour and Social Services:* W. Chakulya. *Trade and Industry:* A. J. Soko. *Mines and Mining Development:* H. Mulemba. *Central Province:* P. Kapika. *Copperbelt Province:* A. K. Shapi. *Eastern Province:* W. Nkanza. *Luapula:* S. C. Mbilishi. *Northern:* P. K. Kasonde Kasutu. *North-Western:* J. Mutti. *Southern:* A. Mutemba. *Western:* J. B. A. Siyomunji.

PROVINCIAL ADMINISTRATION. The Republic is divided into 8 provinces. Their names, headquarters, area (in sq. miles) and census population in 1969 are as follows:

Province	Headquarters	Area	Population	Province	Headquarters	Area	Population
Copperbelt	Ndola	12,096	816,000	Eastern	Chipata	26,682	510,000
Luapula	Mansa	19,524	336,000	Southern	Livingstone	32,928	496,000
Northern	Kasama	51,076	545,000	N.-Western	Solwezi	48,582	283,000
Central	Kabwe	44,900	713,000	Western	Mongu	48,798	410,000

The provinces are administered by Cabinet Ministers for the provinces who are responsible for the overall government administration of their respective areas. The Ministers are assisted by a Minister of State and a Permanent Secretary. Each district in all provinces is headed by a District Governor, and these are directly responsible to their respective provincial Ministers.

The seat of Government is at Lusaka. The other important centres are Livingstone, the old capital, Ndola, Luanshya, Mufulira, Kitwe, Chililabombwe, Kalulushi and Chingola on the Copperbelt; Kabwe, the oldest mining township; Chipata, centre of a tobacco farming area.

RELIGION. Freedom of worship is one of the constitutional rights of Zambian citizens. Minority groups, such as the Asian community, are free to practise the religions of Hinduism and Islam, and the views of the leaders of these communities are respected by the Government. The Lumpa Church was banned in 1965 for security reasons, following considerable loss of life, but the Jehovah's Witnesses are allowed to continue their way of life despite the conflict of authority in their views and the views of politicians.

The Christian faith has largely replaced traditional African religion, and the Christian Churches number about 500,000 members and adherents. The

Churches, founded mainly from the Western world, are slowly finding their autonomy—as illustrated by the United Church of Zambia (formerly British and French missions) and the Reformed Church of Zambia (formerly South African mission).

There is close co-operation between the Catholic and Protestant churches, and the Protestant churches themselves work in the fields of radio, television, education, medicine, refugee aid, etc., through the Christian Council of Zambia. The United Church and the Anglican Church are holding union discussions, and Roman Catholic, Anglican and United Church leaders meet together for consultation, and together they discuss matters of common concern with the President of Zambia, Dr Kaunda.

EDUCATION. In 1971 the 2,598 primary schools were attended by 729,801 pupils of whom 327,470 were girls. 114 secondary schools had 56,000 pupils. Nine primary teacher-training colleges (including an in-service college) had 2,239 students and 1 secondary teacher-training college had 180 students. In 1972 the University of Zambia had 1,700 full-time students and 250 correspondence students. Government expenditure on education in 1973 was estimated at K85.34m.

JUSTICE. The Judiciary consists of the Court of Appeal, the High Court and 4 classes of magistrates' courts; all have civil and criminal jurisdiction.

The Court of Appeal hears and determines appeals from the High Court. It consists of the Chief Justice, the Justice of Appeal and one of the puisne judges of the High Court appointed *ad hoc*. Its seat is at Lusaka.

The High Court exercises the powers vested in the High Court in England, subject to the High Court ordinance of Zambia. Its sessions are held where occasion requires, mostly at Lusaka and Ndola. All criminal cases tried by subordinate courts are subject to revision by the High Court.

FINANCE. Currency. Decimal currency was introduced on 16 Jan. 1968. The *Kwacha* (K) is divided into 100 *ngwee* (n). Notes of K20, K10, K2, K1 and 50 *ngwee* correspond to the old £10, £5, £1, 10s. and 5s. notes. Money circulation at 30 April 1972 was K211,009,000.

Budget. Revenue and expenditure for calendar years (in K1,000):

	1969	1970	1971	1972	1973 ¹
Revenue: Current	401,192	432,430	421,336	274,276	381,301
Capital fund	191,610	239,284	177,339	71,436	
Expenditure: Current	233,231	274,988	329,184	296,883	356,623
Capital fund	156,272	239,332	172,339	132,089	113,871

¹ Estimates.

The public debt at 31 Dec. 1971 was K372m.

DEFENCE. Army. The army consists of 3 infantry battalions, 1 armoured car squadron, 2 artillery batteries and supporting units. Strength, 5,000.

Air Force. Creation of the Zambian Air Force was assisted initially by an RAF mission. Equipment acquired in this period and still in use includes 5 twin-engined Caribou and 5 single-engined Beaver transports built in Canada, 2 C-47 transports and 6 Chipmunk trainers. Training and expansion of the Air Force has since been taken over by Italy, with initial purchase of 12 Aermacchi M.B.326G jet basic trainers, 8 Siai-Marchetti SF.260M piston-engined trainers and 28 Agusta-Bell 205/212 helicopters. Four SOKO Jastreb jet light attack aircraft and 2 Galeb jet trainers have been acquired from Yugoslavia. Personnel about 1,000.

DEVELOPMENT. A second 5-year development plan (1972-76) envisaged investment of K2,609m. and an economic growth rate of 6.8% per annum.

The emphasis would be on rural development and an important goal would be to achieve self-sufficiency in staple foodstuffs, particularly maize.

To promote industrial growth and to ensure greater Zambian participation in the economy the Government has, since 1968, taken a controlling interest in several companies, including the mines. Government's control of those companies in which it has a majority shareholding is exercised *via* the Zambian Industrial and Mining Corporation (ZIMCO) the holding company for the Industrial Development Corporation (INDECO) which controls all industrial and distributive concerns; the Mining Development Corporation (MINDECO) which holds the Government's 51% share in the mines.

AGRICULTURE. Principal agricultural products (1971-72) are maize (sales, 5,890,000 bags of 90 kg); tobacco, 13,044,000 lb; groundnuts, 53,070 bags of 80 kg; cotton, 22,203,000 lb.; sugar, 395,000 metric tons.

Livestock (1972). 1,424,900 cattle; 80,000 pigs; 200,000 sheep and goats. Poultry: 7.2m. day-old chicks; 10m. dozen eggs, 6m. live and dressed birds.

MINING. The total value of minerals produced in 1971 was K466,666,000:

	Output (1,000 tons)	Value (K1,000)		Output (1,000 tons)	Value (K1,000)
Copper (blister)	98.8	65,324	Lead	27.7	4,222
Copper (electrolytic)	534.6	376,386	Manganese	812.1	1,598
Zinc	57.0	11,097	Cobalt	2.1	4,619

POWER. The total installed capacity of hydro and thermal power stations, including Zambia's share of Kariba, South, amounts to 650 mw and the energy consumption during 1971 amounted to some 4,371.3m. kwh., including imports from Zaïre.

The hydro stations are located at Mbala, Mansa, Kasama, Mulungushi, Lunsemfwa and Victoria Falls, Lusiwasi and Kafue Gorge. Work has started on the Kariba North Project. The thermal stations are located at Chipata, Mongu, Lusaka, Copperbelt mines and the Broken Hill Development Corporation. A number of diesel power stations have been installed, mostly in the North-Western Province.

LABOUR. In Dec. 1971 there were 39,320 persons employed in agriculture, forestry and fisheries; 58,160 in mining and quarrying; 42,020 in manufacturing; 67,120 in construction and 22,580 in transport and communications.

TOURISM. In 1972, 42,378 tourists visited Zambia.

COMMERCE. In 1971 imports totalled K395,218,000, exports K479,578,000 and re-exports K5,313,000. The principal imports were machinery and transport equipment (K159,952,000), mineral fuels and lubricants (K35,965,000), chemicals (K32,726,000), manufactured articles (K27,407,000). Principal exports were metals (K470,103,000) and tobacco (K3,511,000).

Principal trade areas were: Other African countries: imports K2,335,000, exports K3,221,000; EEC: imports K60,576,000, exports K148,394,000; EFTA (excluding UK): imports, K16,388,000, exports K29,153,000; other European countries: imports K2,729,000, exports K35,661,000; Soviet bloc: imports K3,879,000, exports K1.28m.; dollar area: imports K44,462,000, exports K4,575,000; non-dollar Latin America: imports K1,946,000, exports K13,899,000; Middle East countries: imports K13,136,000, exports K576,000; other Asian countries: imports K32,342,000, exports K131,732,000.

RAILWAYS. Zambia Railways are that part of the old Rhodesia Railways north of the Victoria Falls. Route-miles open for traffic, 649 (3 ft 6 in. gauge)

Construction of the 1,100-mile Tan-Zam railway, which will give Zambia access to Dar es Salaam, began at the Tanzanian end in 1970.

BANKING. Barclays Bank International has 25 branches and 32 agencies; Standard Bank has 19 branches, 30 agencies and 3 mobile agencies; National & Grindlays, 6 branches and 8 agencies; Commercial Bank Zambia Ltd, 5 branches; the post office savings bank has branches throughout the Republic.

The Finance Development Corporation (FINDECO) which controls the building societies, all insurance companies, one commercial bank and has shares in a second one. The Agricultural Finance Corporation provides loans to farmers, co-operatives, farmers' associations, agricultural societies and such bodies as will further the agricultural industry.

EAST AFRICAN COMMUNITY

Organization. On 9 Dec. 1961, with the achievement of full independence by Tanganyika, the East Africa High Commission, which had, since 1947, been administering services of an inter-territorial nature for Kenya, Uganda and Tanganyika, was re-organized under the name of the East African Common Services Organization. On 6 June 1967 the heads of state of Kenya, Tanzania and Uganda signed a treaty in Kampala, which transformed and expanded the EACSO into an East African Community and a Common Market. This was inaugurated on 1 Dec. 1967.

The Community has its headquarters in Arusha, Tanzania.

Secretary-General: C. G. Maina.

There are 5 councils: the Common Market Council, the Communications Council, the Economic Consultative and Planning Council, the Finance Council, and the Research and Social Council. Each of these consists of the 3 East African Ministers plus a varying number of national Ministers (one from each country in the Finance Council, 3 from each country in the other Councils).

To legislate for all Community matters there is an East African Legislative Assembly, with 9 members appointed from each country, together with the East African Ministers and Deputy Ministers, the Secretary-General, the Counsel to the Community and a Chairman.

The 4 Corporations within the Community, that is, the E.A. Railways Corporation; the E.A. Harbours Corporation; the E.A. Posts and Telecommunications Corporation; and the E.A. Airways Corporation, conduct their business according to commercial principles, and are controlled by a Board of Directors.

The treaty also includes a transfer tax system to protect from undue competition young industries in the less-developed member countries in the common market.

The E.A. Development Bank established under the Treaty, gives financial and technical aid to industries within the Community.

Currency. Tanzania introduced its own currency on 14 June 1966, Uganda on 14 Aug. 1966 and Kenya on 14 Sept. 1966 and later replaced the coins of the East African Currency Board by their own issues. The standard coin is the East African shilling of 100 cents (20 shillings = 1 East African £). The paper currency in general use consists of 5, 10, 20, 50 and 100-shilling notes and is exchangeable, without commission, in the 3 countries.

Commerce. Tanzania, Kenya and Uganda form a single trade unit and there is, apart from the transfer tax, virtual freedom of trade between them. Power to legislate fiscally is vested in the territorial governments and the revenue is allocated between them by means of a system of transfer forms. The customs and excise revenue is collected by the E.A. customs and excise departments and income tax revenue is collected by the E.A. tax department, both Common Services, established on 1 Jan. 1949.

Volume of trade (in shillings, £1 = 20 Kenyan, Tanzanian or Ugandan shillings):

	Kenya		Tanzania		Uganda

Communications. See map of the roads, railways, ports and airports in THE STATESMAN'S YEAR-BOOK, 1964-65.

Revenue, 1971, from railways, inland waterways and road services, Sh.603·4m.; from harbours, Sh.50m. Expenditure (excluding contribution to renewals fund), 1971, on railways, Sh.542m.; on harbours, Sh.288·9m.

RAILWAYS. The railways comprise 3,663 route miles of single metre-gauge track. Main lines: Mombasa-Kasese, 1,036 miles; Dar es Salaam-Kigoma, 779 miles; Tanga-Moshi-Arusha, 272 miles. Principal branch lines: Nakuru-Kisumu, 131 miles; Nairobi-Nanyuki, 145 miles; Tororo-Pakwach, 313 miles; Voi-Kahe, 94 miles; Tabora-Mwanza, 236 miles; Mnyusi-Ruvu, 117 miles. Minor branch lines: Gilgil-Thomson's Falls, 48 miles; Rongai-Solai, 27 miles; Leseru-Kitale, 41 miles; Busembatia-Jinja *via* Mbulamuti, 93 miles; Kisumu-Butere, 43 miles; Port Bell-Kampala, 6 miles; Kilosa-Mikumi, 44 miles; Kaliua-Mpanda, 131 miles; Konza-Magadi, 91 miles. Construction of the Tan-Zam railway linking Dar es Salaam with Kipiri Mposhi, on the Zambian border, began in 1970.

In 1971, 5,912,611 tons of goods and 5,990,000 passengers were carried by the railway.

SHIPPING. The principal harbours are: Mombasa (Kilindini) in Kenya; Tanga, Dar es Salaam and Mtwara in Tanzania. Kilindini has 11 deep-water berths, bulk oil jetty and lighterage quays. There are 3 deep-water berths at Dar es Salaam and 2 at Mtwara.

Steamer services are operated on lakes Victoria and Tanganyika.

ROADS. Road services operate in Uganda over approximately 370 miles connecting Kampala with Masindi, and Pakwach, the railhead on the Nile with Arua. Road services in Tanzania over approximately 2,000 miles serve the Southern Highlands from the Central (Dar es Salaam-Kigoma) line. A railway link between the Tanga and Central lines, completed in 1963, replaces the road services north of the Central line, with the exception of the Arusha-Dodoma passenger service.

AVIATION. East African Airways in 1971 carried 564,229 revenue passengers and incurred a loss of Sh.54,890m. The E.A. directorate of civil aviation, a common service and member of ICAO, is responsible for the safety of all civil aircraft in the E.A. flight information region.

POSTS AND TELECOMMUNICATIONS. The East African Posts and Telecommunications Corporation operates as a self-contained service with its own capital account. Capital assets (1968), £17.4m. The net revenue earned during 1971 was Sh.26.73m.; working expenditure, £9.7m.; capital expenditure, £3.8m. At the end of 1971 there were 1,080 post offices. East African External Communications Ltd operate the overseas telegraph and telephone services and a radio-telephone service.

STATISTICAL INFORMATION. The East African Statistical Department is responsible for the collection, analysis and publication of economic statistics relating to East Africa. The department was set up originally as the Statistical Section of the Conference of the East African Governors in 1943 and is situated in Arusha, Tanzania (P.O. Box 1003).

Statistics relating to the individual territories are the responsibility of the appropriate government departments, as follows: **TANZANIA:** The Government Statistician, Central Statistical Bureau, P.O. Box 796, Dar es Salaam.—**UGANDA:** The Government Statistician, Ministry of Planning and Economic Development, P.O. Box 13, Entebbe.—**KENYA:** The Chief Statistician, Ministry of Economic Planning and Development, P.O. Box 30266, Nairobi.

The East African Statistical Department issues a quarterly Economic and Statistical Review, and each territorial office an annual statistical abstract, in addition to other economic and statistical reports.

WESTERN PACIFIC HIGH COMMISSION

The office of High Commissioner in, over and for the Western Pacific Islands was created by the Western Pacific Order in Council 1877. Until 1952 the Governor of Fiji was concurrently High Commissioner for the Western Pacific with headquarters at Suva. In that year the transfer was made to Honiara in the British Solomon Islands Protectorate and a separate High Commissioner appointed.

High Commissioner for the Western Pacific: D. C. Luddington, CMG.
Chief Secretary: T. Russell, CBE.

The Pacific Order in Council, 1893, extended the High Commissioner's jurisdiction to foreigners and (in most cases) to natives residing in British settlements or protectorates within the limits of the Order. Under the provisions of the New Hebrides Order in Council, 1922, the jurisdiction of the High Commissioner extends also to the New Hebrides, the Banks Islands and Torres Islands. The jurisdiction of the Commission has been reduced to the British Solomon Islands Protectorate and the Anglo-French Condominium of the New Hebrides. The Gilbert and Ellice Islands Colony became responsible to the Foreign and Commonwealth Office, London in 1971.

The expenses of the High Commission are met from the funds of the British Solomon Islands Protectorate, but a contribution is paid from UK funds for work in connexion with the New Hebrides.

There is a Resident Commissioner in Vila in the New Hebrides.

JUSTICE. The High Court of the Western Pacific constituted by the Western Pacific (Courts) Order in Council, 1961, consists of a Chief Justice based in Honiara, a puisne judge in Vila in the New Hebrides, and a senior magistrate in Tarawa in the Gilbert and Ellice Islands. These islands still form part of the Court system of the Western Pacific High Commission. The Court is a Superior Court of Record and possesses all the jurisdiction which is vested in Her Majesty's High Court of Justice in England. Magistrates' courts with both civil and criminal jurisdiction were established in 1962.

PLANNING. Economic development is accorded high priority in both territories which make up the Western Pacific High Commission. The British Solomon Islands 6th Development Plan at present under implementation lays emphasis on the development of the major industries, copra and timber, and on the establishment of new secondary industries in cattle breeding and oil palms. There will also be considerable investment in the extension of secondary education and in communications. In the New Hebrides, the final draft of the 1971-75 Development Plan envisages substantial expenditure on the extension of the Agricultural Department, a survey of the meat industry and heavy investment in communications (airstrips, roads and the telephone network) and in the development of the tourist industry.

CURRENCY. Currency in use throughout the Western Pacific High Commission is the Australian dollar. In the Condominium of the New Hebrides the French Pacific franc is used side by side with Australian currency.

RHODESIA

GOVERNMENT. Prior to Oct. 1923 Southern Rhodesia, like Northern Rhodesia, was under the administration of the British South Africa Company. In Oct. 1922 Southern Rhodesia voted in favour of responsible government. On 12 Sept. 1923 the country was formally annexed to His Majesty's Dominions, and on 1 Oct. 1923 government was established under a governor, assisted by an executive council, and a legislature, with the status of a self-governing colony.

The government proposals for a new constitution were endorsed by 41,949 votes against 21,846 at a referendum on 26 July 1961.

By an Order in Council dated 6 Dec. 1961, Southern Rhodesia was granted the new constitution. Under this the Legislative Assembly consists of 65 members—50 on the upper roll and 15 on the lower roll, thus ensuring African representation. Most of the reserved rights of the UK were replaced by a Declaration of Rights, a Constitutional Council and other safeguards.

After the dissolution of the Federation of Rhodesia and Nyasaland on 31 Dec. 1963 Southern Rhodesia reverted to the status of a self-governing colony within the Commonwealth, but, at the same time, became responsible for those powers which had been surrendered to the federal government on its formation and which, once again, became its responsibility. These included agriculture (European), defence, education (non-African), external affairs, health services, taxation and other fiscal responsibilities, posts, trade, transport and power.

The Legislative Assembly, elected on 7 May 1965, consisted in Oct. 1968 of 50 Rhodesian Front, 10 United People's Party, 3 independents and 2 Democratic Party.

Ian Smith, Prime Minister from 14 April 1964, had discussions about independence in London with the Prime Ministers, Sir Alec Douglas-Home (7–8 Sept. 1964) and Harold Wilson (4–11 Oct. 1965); and in Salisbury with the Prime Minister, the Commonwealth Secretary and the Attorney-General (25–30 Oct. 1965).

On 5 Nov. 1965 Prime Minister Smith declared a state of emergency, overriding normal constitutional safeguards. After abortive appeals by Prime Minister Wilson (10–11 Nov.) the Smith government issued a unilateral declaration of independence on 11 Nov. Thereupon the Governor dismissed Smith and his cabinet. The British Government reasserted its own formal responsibility for Rhodesia, excluded Rhodesia from Commonwealth preference in trade and from the sterling area; and had an enabling bill passed by Parliament on 15 Nov., which gave the Government power to deal with the situation by Orders-in-Council. Effective internal government was nevertheless carried on by the Smith cabinet.

The United Nations Security Council on 20 Nov. called upon all member states to break off economic relations with Rhodesia. Only Portugal and the Republic of South Africa did not impose an embargo, which from 17 Dec. also included oil.

In Sept. 1966 the conference of the Commonwealth Prime Ministers urged the British Government to approach the United Nations with a view to imposing mandatory selective sanctions, unless Rhodesia returned to legality by the end of 1966. From 1 to 3 Dec. Prime Minister Wilson, the Commonwealth Secretary,

the Attorney-General, the Governor and the Chief Justice of Rhodesia met Mr Smith and a colleague of his on board HMS *Tiger*. They drafted a 'Working Document' on the procedure for progress towards legal independence on the basis of the 1961 Constitution and the so-called 'six principles'. This statement was approved by the British cabinet on 4 Dec., but rejected by the Smith government on 5 Dec. As a result the British Government approached the United Nations and on 16 Dec. 1966 the Security Council voted for mandatory sanctions including oil; France and USSR abstained.

Further talks based on the *Tiger* proposals were held between the British and Rhodesian Prime Ministers aboard HMS *Fearless* at Gibraltar on 10-13 Oct. 1968. On 2 March 1970 the Smith régime declared Rhodesia a republic and adopted a new constitution. A general election was held on 10 April 1970. The Rhodesian Front Party won 50 of the 66 seats. On 28 May the first Republican Parliament was opened by the President.

The British Government stated on 3 March 1970 that 'The purported assumption of a republican status by the régime in Southern Rhodesia is, like the 1965 declaration of independence itself, illegal.'

On 24 Nov. 1971 an agreement was signed between Britain and Rhodesia following an announcement made on 8 Oct. 1970 that Britain would attempt further negotiations. The terms of the agreement of British recognition of the independence of Rhodesia included the principle that the British Government would need to be satisfied that any basis proposed for independence was acceptable to the people of Rhodesia as a whole. On 11 Jan. 1972 a Commission under Lord Pearce arrived in Rhodesia to carry out a test of acceptability. On 23 May 1972, the report of the Commission found that the proposals were not acceptable to the people of Rhodesia as a whole.

AREA AND POPULATION. Rhodesia is situated between the northern border of the Transvaal and the Zambezi River and is bordered on the east by Moçambique and on the west by the republic of Botswana. The area is 150,820 sq. miles (390,622 sq. km). The growth of the population is given in the following table:

	European (census)			Asiatic and Coloured	African total (estimated)	Total population (estimated)
	<i>Males</i>	<i>Females</i>	<i>Total</i>			
1911	15,580	8,026	23,606	2,912	745,000	772,000

¹ Including Asians and Coloured.

In 1972 the birth rate was 18 per 1,000, the crude death rate 7.5 per 1,000 and infant mortality 20 per 1,000 for Europeans. Figures for Africans were estimated as follows: births, 52 per 1,000; deaths, 16 per 1,000.

In 1971, 5,340 Europeans left the country and 13,966 Europeans immigrated in 1972.

INTERNAL AFFAIRS. In 1962 the Ministry of Internal Affairs took over all functions performed by the then Department of Native Affairs, except in the field of agriculture which was taken over by the Ministry of Agriculture and the administration of Native Purchase Areas which was taken over by the Ministry of Mines and Lands. The Ministry of Internal Affairs is responsible for district and general government administration and the development of the Tribal Trust Land. The land areas previously known as Native Reserves and Special Native Areas have been reclassified as Tribal Trust Land and are set aside entirely for African occupation. In 1969 the Ministry of Internal Affairs took control of development of African agriculture. On 2 March 1970 the Land Tenure Act came into effect and distribution of land was:

	Acres (in 1m.)
European Area	44.95
African Area	44.95
National Area ¹	6.60

¹ Reserved for Wild Life Conservation and National Parks.

All judicial functions (excluding Native Customary Law civil cases) previously performed by the Department of Native Affairs has been transferred to the Ministry of Justice. The Ministry of Internal Affairs is responsible for the supervision of the Government's policy of community development.

African Councils, formed for communities wanting to become responsible for local government, may be authorized to provide services, facilities and amenities and establish and maintain any undertaking for the benefit of the area. Councils have powers to impose rates on adults in the area in regard to stock or buildings and on the value of any land and grazing right.

There were (1973) 163 established African Councils which, in general, meet at monthly intervals.

RELIGION. The largest religious groups are the Anglicans with 86,000 members (36% of the non-African population), the Presbyterians with 29,000 members (12%) and the Roman Catholics with 35,500 (15%). There are no accurate figures for Africans.

EDUCATION. On 1 Jan. 1964 Rhodesia assumed responsibility for all education services which were under the control of the Federal Government. For administrative reasons the educational system of the country was divided between Africans and Non-Africans, and separate ministries were charged with the responsibility for the educational needs of these two groups. At present all educational services are under one ministry.

Total Government expenditure on education for the financial year 1973-74 is over R\$52.47m.

African Education. The total enrolment of African pupils for 1973 was 788,070. There were 3,217 primary schools, 97 senior and 11 junior secondary schools, 6 special schools for the physically handicapped, 96 aided farm schools, 469 self-help primary schools, 9 homecraft schools, 60 part-time classes and 122 study groups and 20 teacher-training schools. Approximately 90% of African children between the ages of 6 and 16 receive a minimum of 5 years primary education, and half of them 8 years.

Non-African Education. The total enrolment of Non-African pupils for 1973 was 68,762 in 236 schools.

Higher Education. The University of Rhodesia provides facilities for higher

education. In 1972 the total enrolment of students was 1,076, including 417 Africans.

HEALTH. 112 hospitals, clinics and health centres are operated by the Ministry of Health; 73 hospitals and clinics are operated by medical missions with government grants-in-aid and 32 without government grants. There is one medical practitioner for every 7,054 inhabitants in Rhodesia and there is 1 hospital bed for every 346 inhabitants.

SOCIAL WELFARE. The Children's Protection and Adoption Act provides for the establishment of juvenile courts, the protection, welfare and supervision of children and juveniles; the establishment of corrective institutions and the treatment therein; the recognition, registration and inspection of certified institutions for the reception and custody of juveniles; for the adoption of minors and other matters. Administrative procedures make provision for public assistance and certain grants-in-aid.

JUSTICE. The High Court consists of an appellate division and a general division. The appellate division consists of the Chief Justice, the Judge President and at least one other judge of appeal. The general division consists of the Chief Justice and 5 puisne judges. The appellate division considers appeals from the general division and the lower courts; the general division has full jurisdiction, civil and criminal, over all persons and matters within Rhodesia. The Chief Justice is the head of the judiciary of Rhodesia. The Judge President presides over the appellate division in the absence of the Chief Justice. The Courts sit at Salisbury and Bulawayo, and sittings of the general division are held at 3 other principal towns three times a year.

Regional Courts, established in Salisbury and Bulawayo, are intermediate in jurisdiction between the magistrates courts and the High Court, but have no civil jurisdiction. There are 19 principal courts of magistrates and 64 periodical courts presided over by magistrates.

African Courts have jurisdiction over African persons in civil matters which are decided in accordance with African law and custom.

FINANCE. Currency. On 17 Feb. 1970 decimal currency was adopted. The unit of currency is the Rhodesian dollar which is worth 10 Rhodesian shillings.

Budget. Revenue and expenditure (in R\$1,000) for years ending 30 June:

	1968-69	1969-70	1970-71	1971-72	1972-73	1973-74 ¹
Revenue	184,065	203,952	213,441	242,093	267,374	309,795
Ordinary expenditure:

From loan funds }				17,342 }		

¹ Estimate.

Receipts during the year ended 30 June 1973 were (in R\$1,000): Income and super tax and undistributed profits tax, 122,942; customs and excise 26,759; stamp duties and fees, 4,846; sales tax, 36,869.

Principal items of expenditure from revenue funds were (in R\$1,000): Agriculture, 26,000; African education, 24,768; pensions, 9,950; justice, 2,028; local government and housing, 1,426; health, 21,200; treasury, 4,000.

The gross amount of the public debt outstanding in June 1973 was R\$632.5m.

DEFENCE. Army. The Rhodesia Army consists of (a) the Regular Force, (b) the territorial force, (c) the Class A and B Reserves, together with the appropriate ancillary units. Control is effected through the Army Headquarters (established in Salisbury and Bulawayo). Organized into 3 brigades, each of 1 regular battalion and several battalions of the territorial force. In addition, there are 8 each of reserve battalions and an artillery regiment of the territorial force and the various supporting units necessary for an independent command. The

Regular Army consists of approximately 3,500 officers and other ranks. The Territorial Force (including the Reserve) totals approximately 20,000.

Air Force. The Rhodesian Air Force (regular) has 1 squadron of Canberra bombers, 2 squadrons of Hunter Mk. 9 and Vampire fighter-bombers, a reconnaissance squadron of T.52 (armed) Provosts, a transport support squadron equipped with Dakota and Aermacchi AL-60 aircraft, and a squadron of Alouette III helicopters. Headquarters RAF and New Sarum RAF station, at which are based the transport and reconnaissance squadrons, are in Salisbury. The fighter and bomber squadrons and the training organization are based at Thornhill, Gwelo. Total strength is over 1,000 men and 80 aircraft.

NATURAL RESOURCES. The Natural Resources Board, set up in 1941, is the trustee of the natural resources of Rhodesia. The resources are defined as the soil, water and minerals, the animals, bird and fish life; the trees, grasses and other vegetation; the springs, marshes, swamps and public streams; other features the President may proclaim as natural resources such as landscapes and scenery. The principal executive bodies are the Conservation Area Committees of which there were 277 in 1971, covering the whole of the European farming area and about 77% of the African Purchase Areas. In the Tribal Trust Areas the Board had established 87 Tribal Trust Land Committees by 1971.

AGRICULTURE. The most important single food crop in Rhodesia is maize, the staple food of a large proportion of the population; production in 1971 was 18m. bags (of 200 lb.). The livestock industry is second to tobacco as regards its export potential. Dairying forms the foundation of many mixed farms. The annual production of milk is approximately 10m. gallons.

Since U.D.I. agricultural production figures have not been published.

Fish farming is being developed and large catches are taken from Lake Kariba, where a fish freezing plant was completed in 1964.

Sugar is being produced in the Triangle and Hippo Valley estates (2.9m. tons of sugar from 59,200 acres in 1966).

The citrus estates of the British South Africa Company, the state-owned deciduous orchards at Inyanga and a scheme for large-scale citrus growing at Hippo Valley form the basis of the citrus fruit industry in Rhodesia. However, many parts of the country between 2,500 and 4,000 ft above sea-level are suitable for citrus culture, and large numbers of deciduous fruit trees planted in the Melsetter and Inyanga areas are coming into production.

In 1966 cotton production was 48.6m. lb. and irrigated wheat production (1970) amounted to 900,000 bags (of 200 lb.).

Rhodesia has 7 large tea plantations, 2 of which are in the Inyanga district and 5 in Chipinga; production in 1966 was 2,500 short tons. Other crops grown in substantial quantities include small grains (sorghums and millet), rice, groundnuts, cassava. These crops form the basis of much subsistence farming undertaken by the African population.

Tobacco is the most important single product, amounting to about half the total agricultural output (by value). In 1965 tobacco accounted for £32.6m. out of a total agricultural output of £66.5m. In 1970 tobacco yields were 140.5m. lb.

Livestock (1972): European, 2.78m. cattle; African, 2.8m. cattle.

MINING. The total value of all minerals produced in 1972 was £101.8m. Output (in 1,000 tons) and value (in £1,000):

	Output			Value	
	1963	1964	1965	1963	1964
Asbestos	142.3	153.4	176.1	5,996.8	6,849
Gold (1,000 oz.)	566.3	574.4	549.6	7,101.2	7,228
Chrome ore	412.4	493.3	645.5	1,895.0	2,219
Coal	3,021.0	3,047.0	3,868.3	3,077.6	3,431
Copper	18.5	18.3	19.8	3,233.6	4,156
					1965
					8,525
					6,895
					2,624
					3,872
					6,283

INDUSTRIES. Manufacturing industries are becoming increasingly important and have been stimulated by the abrogation of the Customs Convention with the Union in 1955 and the substitution of a trade agreement. In 1970 agriculture formed 16.9% and manufacturing 22.6% of the total economy.

TOURISM. In 1972, 351,689 tourists visited Rhodesia.

LABOUR. In 1972 the monthly average of Non-Africans in employment was 112,000 and of Africans, 848,000. Largest employers of African labour were agriculture (338,200), manufacturing (105,000), construction (51,000), mining (54,000), hotels and restaurants (57,600) and domestic service (120,000).

The conditions of service for all workers in all industries other than agriculture and private domestic service are negotiated through the 27 Industrial Councils and the 54 Industrial Boards established under the Industrial Conciliation Act. The training, including full-time technical training, and conditions of employment for apprentices are determined by Apprenticeship Committees established in terms of the Apprenticeship Act. There is a system of national employment exchanges including youth employment and careers advisory services.

Workmen's compensation is by compulsory insurance through a Government established fund. Health and safety in industry is safeguarded through the Factories and Works Act.

COMMERCE. The leading commodities exported from Rhodesia are tobacco, asbestos, copper, clothing, meat, chrome ore, sugar, pig-iron and coal. Statistics in £ sterling until 1968 and then Rhodesian dollars:

	1968	1969	1970	1971	1972
Imports	103,524,000	199,426,000	234,881,000	282,379,000	274,245,000
Exports	91,734,000	218,979,000	253,558,000	277,238,000	328,474,000

Total imports of merchandise in 1965 from UK amounted to £36.36m.; from the Republic of South Africa, £27.46m.; from USA, £8.2m. Domestic exports to UK were £31.15m.; to the Republic of South Africa, £12.8m.

Principal exports in 1965: Copper, £6,056,240; tobacco, £46,968,149; asbestos, £10,761,271; chrome ore, £3,809,799; coal, £2,222,679; ferrochrome, £1,690,620; pig-iron, £2,472,537; sugar, £3,482,485; meat, £4,227,722; meat preparations, £2,523,107; clothing, £5,417,452.

Total trade between Rhodesia and UK (in £1,000 sterling; British Board of Trade returns):

COMMUNICATIONS. The Minister of Transport and Power is responsible for the Government's relations with the Rhodesia Railways and with the Air Rhodesia Corporation.

Shipping. Rhodesia outlets to the sea are the Moçambique ports of Beira and Lourenço Marques.

Railways. Rhodesia is served by the Rhodesia Railways, which connect with the South African Railways to give access to the South African ports; with the Moçambique Railways to give access to the ports of Beira and Lourenço Marques; and with the Zambia railway system. There were 3,250 km in 1972. In 1972 Rhodesia Railways carried 12.6m. tons of freight and 3m. passengers.

Roads. Main roads connect all the main centres of the country with one another and with adjacent territories, and secondary roads serve rural areas. The total of surfaced roads maintained by the central government was 8,568 km and a further 69,394 km of secondary roads are maintained by local councils in 1971.

Number of motor vehicles excluding military (Oct. 1966) in Rhodesia: Private cars, 109,408; commercial vehicles (excluding farm tractors), 32,515.

Aviation. The Air Rhodesia Corporation, in association with Central African Airways, South African Airways, Air Malawi and DETA, operates regular scheduled services to Malawi, Mauritius, Moçambique and South Africa. In 1972-73 the Corporation flew 202,146 passenger-miles.

Post. At 1 Jan. 1973 there were 155,795 telephones in Rhodesia. In June 1973 there were 177,541 radio licences and 61,716 combined radio and television licences.

BANKING. The Reserve Bank of Rhodesia is the country's central bank: it became operative when the Bank of Rhodesia and Nyasaland ceased operations on 1 June 1965. It acts as banker to the Government and to the commercial banks and as agent of the Government for important financial operations. It is also the central note-issuing authority and co-ordinates the application of the Government's monetary policy. The British Government dismissed the governor and directors on 3 Dec. 1965 and appointed a new board in London.

The post office savings bank had R\$99.8m. deposits at 30 June 1973.

The leading banks are Barclays Bank International, National & Grindlays Bank, RHO Bank of Rhodesia, Standard Bank Ltd.

THE UNITED STATES

PART III

THE UNITED STATES
OF AMERICA

UNITED STATES OF AMERICA

GOVERNMENT

The Declaration of Independence of the 13 states of which the American Union then consisted was adopted by Congress on 4 July 1776. On 30 Nov. 1782 Great Britain acknowledged the independence of the USA, and on 3 Sept. 1783 the treaty of peace was concluded and was ratified by the USA on 14 Jan. 1784.

Constitution. The form of government of the USA is based on the constitution of 17 Sept. 1787.

By the constitution the government of the nation is composed of three co-ordinate branches, the executive, the legislative and the judicial.

The National Government has authority in matters of general taxation, treaties and other dealings with foreign Powers, foreign and inter-state commerce, bankruptcy, postal service, coinage, weights and measures, patents and copyright, the armed forces (including, to a certain extent, the militia), and crimes against the USA; it has sole legislative authority over the District of Columbia and the possessions of the US.

The 5th article of the constitution provides that Congress may, on a two-thirds vote of both houses, propose amendments to the constitution, or, on the application of the legislatures of two-thirds of all the states, call a convention for proposing amendments, which in either case shall be valid as part of the constitution when ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, whichever mode of ratification may be proposed by Congress. Ten amendments (called collectively 'the Bill of Rights') to the constitution were added 15 Dec. 1791; two in 1795 and 1804; a 13th amendment, 6 Dec. 1865, abolishing slavery; a 14th in 1868, including the important 'due process' clause; a 15th, 3 Feb. 1870, establishing equal voting rights for white and coloured; a 16th, 3 Feb. 1913, authorizing the income tax; a 17th, 8 April 1913, providing for popular election of senators; an 18th, 16 Jan. 1919, prohibiting alcoholic liquors; a 19th, 18 Aug. 1920, establishing woman suffrage; a 20th, 23 Jan. 1933, advancing the date of the President's and Vice-President's inauguration and abolishing the 'lame-duck' sessions of Congress; a 21st, 5 Dec. 1933, repealing the 18th amendment; a 22nd, 26 Feb. 1951, limiting a President's tenure of office to 2 terms, or to 2 terms plus 2 years in the case of a Vice-President who has succeeded to the office of a President; a 23rd, 30 March 1961, granting citizens of the District of Columbia the right to vote in national elections; a 24th, 4 Feb. 1964, banning the use of the poll-tax in federal elections; a 25th, 10 Feb. 1967, dealing with Presidential disability and succession; a 26th, 22 June 1970, establishing the right of citizens who are 18 years of age and older to vote.

National flag: Seven red and 6 white alternating stripes, horizontal; with a blue canton, extending down to the lower edge of the 4th red stripe from the top, and displaying 50 white 5-pointed stars, one for each state. The stars have one point directed vertically upward, and they are arranged in 6 rows of 5 each, alternating with 5 rows of 4 each. On the admission of additional states, stars are added, effective on 4 July following the date of admission. Congress, by law of 22 Dec. 1942, has codified 'existing rules and customs' pertaining to the display of the flag, for civilians.

National anthem: The Star-spangled Banner, 'Oh say, can you see by the dawn's early light' (words by F. S. Key, 1814; tune by J. S. Smith; formally adopted by Congress 3 March 1931).

National motto: 'In God we trust'; formally adopted by Congress 30 July 1956.

Presidency. The executive power is vested in a president, who holds office for 4 years, and is elected, together with a vice-president chosen for the same term, by electors from each state, equal to the whole number of senators and representatives to which the state may be entitled in the Congress. The President must be a natural-born citizen, resident in the country for 14 years, and at least 35 years old.

The presidential election is held every fourth (leap) year on the Tuesday after the first Monday in November. Technically, this is an election of presidential electors, not of a president directly; the electors thus chosen meet and give their votes (for the candidate to whom they are pledged, in some states by law, but in most states by custom and prudent politics) at their respective state capitals on the first Monday after the second Wednesday in December next following their election; and the votes of the electors of all the states are opened and counted in the presence of both Houses of Congress on the sixth day of January. The total electorate vote is one for each senator and representative.

If the successful candidate for President dies before taking office the Vice-President-elect becomes President; if no candidate has a majority or if the successful candidate fails to qualify, then, by the twentieth amendment, the Vice-President acts as President until a president qualifies. The duties of the Presidency, in absence of the President and Vice-President by reason of death, resignation, removal, inability or failure to qualify, devolve upon the Speaker of the House under legislation enacted 18 July 1947. And in case of absence of a Speaker for like reason, the presidential duties devolve upon the President *pro tem.* of the Senate and successively upon those members of the Cabinet in order of precedence, who have the constitutional qualifications for President.

The presidential term, by the 20th amendment to the constitution, begins at noon on 20 Jan. of the inaugural year. This amendment also installs the newly elected Congress in office of 3 Jan. instead of—as formerly—in the following December. The President's salary is \$200,000 per year, plus \$50,000 to assist in defraying expenses resulting from official duties. Also \$40,000 non-taxable for travel and official entertainment. The office of Vice-President carries a salary of \$62,500, plus \$10,000 allowance for travel.

The President is C.-in-C. of the Army, Navy and Air Force, and of the militia when in the service of the Union. The Vice-President is *ex-officio* President of the Senate, and in the case of 'the removal of the President, or of his death, resignation, or inability to discharge the powers and duties of his office', he becomes the President for the remainder of the term.

President of the United States: Richard Milhous Nixon, of California, born at Yorba Linda, California, 9 Jan. 1913; Lieut.-Cmdr, US Naval Reserve, 1942–46; member, House of Representatives, 1946–51; Senator, 1951–52; Vice-President of the USA, 1952–61; Presidential candidate in 1960 elections. Unsuccessfully stood for Governorship of California in 1962. In legal practice, 1960–68.

At the Presidential election on 7 Nov. 1972 total vote cast, including men and women in the armed services, was 75,053,204, of which Richard M. Nixon (R.) received 46,631,189 (62%) (521 electoral college votes), while George McGovern (D.) received 28,422,015 (38%) (17 electoral college votes). Votes cast represented approximately 60% of the total registered vote.

Cabinet. The administrative business of the nation has been traditionally vested in several executive departments, the heads of which, unofficially and *ex officio*, formed the President's Cabinet. Beginning with the Interstate Commerce Commission in 1887, however, an increasing amount of executive business has been entrusted to some 60 so-called independent agencies, such as the Veterans Administration, Atomic Energy Commission, Housing and Home Finance Agency, Tariff Commission, etc.

All heads of departments and of the 60 or more administrative agencies are appointed by the President, but must be confirmed by the Senate.

The Cabinet consists of the following:

1. *Secretary of State* (created 1789). Henry Kissinger. Assistant to the President for national security affairs, 1969-; born 1923.
2. *Secretary of the Treasury* (1789). George P. Shultz, of New York; university dean; born 1920.
3. *Secretary of Defense* (1947). James R. Schlesinger; Chairman of Atomic Energy Commission of the United States; born 1920.
4. *Attorney-General* (Department of Justice, 1870). William B. Saxbe, of Ohio; lawyer; born 1916.
5. *Secretary of the Interior* (1849). Rogers C. B. Morton of Maryland; Congressman; born 1914.
6. *Secretary of Agriculture* (1889). Earl L. Butz, of Indiana; agricultural economist; Dean of Agriculture at Purdue University Lafayette; born 1909.
7. *Secretary of Commerce* (1903). Richard B. Dent, of New Jersey; textile company executive; born 1922.
8. *Secretary of Labor* (1913). Peter J. Brennan, of New York; trade union official; born 1918.
9. *Secretary of Health, Education and Welfare* (1953). Caspar W. Weinberger, of California; lawyer; born 1917.
10. *Secretary of Housing and Urban Development* (1966). James T. Lynn, of Ohio; lawyer; born 1927.

11. *Secretary of Transportation* (1967). Claude S. Brinegar, of California; oil company executive; born 1926.

Each of the above Cabinet officers receives an annual salary of \$60,000 and holds office during the pleasure of the President; the Postmaster-General alone must be re-appointed and confirmed at the beginning of a president's second term, the others merely continuing in office.

Congress. The legislative power is vested by the Constitution in a Congress, consisting of a Senate and House of Representatives.

Electorate. By amendments of the constitution, disqualification of voters on the ground of race, colour or sex is forbidden. Accordingly, the electorate consists theoretically of all citizens of both sexes over 18 years of age, but the franchise is not universal. There are requirement of residence varying in the several states as to length from 6 months to 2 years and differing requirements as to registration. In 20 states the ability to read (usually an extract from the constitution) is required—in Alaska the ability to read English; in Hawaii, English or Hawaiian; in Louisiana, English or one's native tongue. In Alabama the voter must take an 'anti-Communist oath' and fill out a questionnaire to the satisfaction of the registrars. In some southern states voters are required to give a reasonable explanation of what they read. Estimate of Negroes registered in the 11 southern states of Ala., Ark., Fla., La., Miss., N.C., Okla., S.C., Tex., Tenn. and Va.: 1947, 595,000; 1956, 1,238,000; 1960, 1,414,000; 1970, 3,324,000; 1972, 5,678,939. In 1972 there were about 14·2m. registered Negro voters in the USA. In most states convicts are excluded from the franchise, in some states duellists and fraudulent voters.

Legislation designed to discourage the rise of third parties has been adopted in a few states. In Illinois a new party must present a petition signed by at least 25,000 voters, including at least 200 in each of 50 of the 102 counties.

The method of balloting varies greatly. Seventeen states use different ballots for federal, state and local elections. In Delaware and South Carolina the various political parties furnish their own ballot-papers to the voters as he or she enters the polling-booth.

Senate. The Senate consists of 2 members from each state, chosen by popular vote for 6 years, one-third retiring or seeking re-election every 2 years. Senators must be not less than 30 years of age; must have been citizens of the USA for 9 years, and be residents in the states for which they are chosen. The Senate has complete freedom to initiate legislation, except revenue bills (which must originate in the House of Representatives); it may, however, amend or reject any legislation originating in the lower house. The Senate is also entrusted with the power of giving or withholding its 'advice and consent' to the ratification of all treaties initiated by the President with foreign Powers, a two-thirds majority of senators present being required for approval. (However, it has no control over 'international executive agreements' made by the President with foreign governments; such 'agreements', representing an important but very recent development, cover a wide range and are actually more numerous than formal treaties.) It also has the power of confirming or rejecting major appointments to office made by the President, but it has no direct control over the appointment by the President of 'personal representatives' or 'personal envoys' on missions abroad. Members of the Senate constitute a High Court of Impeachment, with power, by a two-thirds vote, to remove from office and disqualify any civil officer of the USA impeached by the House of Representatives, which has the sole power of impeachment.

The Senate has 16 Standing Committees to which all bills are referred for study revision or rejection. The House of Representatives has 21 such committees. In both Houses each Standing Committee has a chairman and a majority representing

the majority party of the whole House; each has numerous sub-committees. The jurisdictions of these Committees correspond largely to those of the appropriate executive departments and agencies. Both Houses also have a few special Committees with limited duration. There are some Joint Committees of both Houses.

House of Representatives. The House of Representatives consists of 435 members elected every second year. The number of each state's representatives is determined by the decennial census, in the absence of specific Congressional legislation affecting the basis. The states, in 1972, had the following representatives:

Alabama	7	Indiana	11	Nebraska	3	South Carolina	6
Alaska	1	Iowa	6	Nevada	1	South Dakota	2
Arizona	4	Kansas	5	New Hampshire	2	Tennessee	8
Arkansas	4	Kentucky	7	New Jersey	15	Texas	24
California	43	Louisiana	8	New Mexico	2	Utah	2
Colorado	5	Maine	2	New York	39	Vermont	1
Connecticut	6	Maryland	8	North Carolina	11	Virginia	10
Delaware	1	Massachusetts	12	North Dakota	1	Washington	7
Florida	15	Michigan	19	Ohio	23	West Virginia	4
Georgia	10	Minnesota	8	Oklahoma	6	Wisconsin	9
Hawaii	2	Mississippi	5	Oregon	4	Wyoming	1
Idaho	2	Missouri	10	Pennsylvania	25		
Illinois	24	Montana	2	Rhode Island	2		

The Supreme Court decided on 17 Feb. 1964, that the federal constitution requires congressional districts within each state to be substantially equal in population. By almost invariable custom the representative lives in the district from which he is elected.

Representatives must be not less than 25 years of age, citizens of the USA for 7 years and residents in the states from which they are chosen. The House also admits a 'resident commissioner' from Puerto Rico, who has the right to speak on any subject and to make motions, but not to vote; he is elected in the same manner as the representatives but for a 4-year term. Each of the two Houses of Congress is sole 'judge of the elections, returns and qualifications of its own members'; and each of the Houses may, with the concurrence of two-thirds, expel a member. The period usually termed 'a Congress' in legislative language continues for 2 years, terminating at noon on 3 Jan.

The salary of a senator or representative, also that of a resident commissioner in Congress, is \$42,500 per annum, with tax-free expense allowance and allowances for travelling expenses and for clerical hire. The salary of the Speaker of the House of Representatives is \$62,500 per annum, with a taxable allowance of \$10,000.

No senator or representative can, during the time for which he is elected, be appointed to any *civil* office under authority of the USA which shall have been created or the emoluments of which shall have been increased during such time; and no person holding *any* office under the USA can be a member of either House during his continuance in office. No religious test may be required as a qualification to any office or public trust under the USA or in any state.

The 93rd Congress (1972-74) was constituted (Dec. 1972) as follows: Senate, 57 Democrats, 43 Republicans; House of Representatives, 244 Democrats, 191 Republicans. The House of Representatives had 14 women members; the House had 15 Negro members and the Senate 1.

Indians. By an Act passed on 2 June 1924 full citizenship was granted to all Indians born in the USA, though those remaining in tribal units were still under special federal jurisdiction. Those remaining in tribal units constitute from one-half to three-fourths of the Indian population. The Indian Reorganization Act of 1934 gave the tribal Indians, at their own option, substantial opportunities of self-government and of self-controlled corporate enterprises empowered to borrow money, buy land, machinery and equipment; these corporations are controlled by democratically elected tribal councils; by 1945 roughly a third of

the Indians had taken advantage of this Act. Recently a trend towards releasing Indians from federal supervision has resulted in legislation terminating supervision over specific tribes. Indian lands (1965) amounted to 55,319,000 acres, of which about 71% was tribally owned and 20% in trust allotments, with the remainder owned by the Government. Indian lands are held free of taxes. Indian population under jurisdiction of the Indian Bureau was about 343,000 in 1950; nearly one-half were in the three states of Oklahoma, Arizona and New Mexico. Total Indian population at the 1970 census was 791,839, of which Oklahoma, Arizona, California, North Carolina and New Mexico accounted for 53%.

STATE AND LOCAL GOVERNMENT

The Union comprises 13 original states, 7 states which were admitted without having been previously organized as territories, and 30 states which had been territories—50 states in all. Each state has its own constitution (which the USA guarantees shall be republican in form), deriving its authority, not from Congress, but from the people of the state. Admission of states into the Union has been granted by special Acts of Congress, either (1) in the form of 'enabling Acts' providing for the drafting and ratification of a state constitution by the people, in which case the territory becomes a state as soon as the conditions are fulfilled, or (2) accepting a constitution already framed, and at once granting admission.

Each state is provided with a legislature of two Houses (except Nebraska, which since 1937 has had a single-chamber legislature), a governor and other executive officials, and a judicial system. Both Houses of the legislature are elective, but the senators (having larger electoral districts usually covering 2 or 3 counties compared with the single county or, in some states, the town, which sends one representative to the Lower House) are less numerous than the representatives, while in 37 states their terms are 4 years and in a few the Senate is only partially renewed at each election. Terms of the lower houses are usually shorter; in 45 states, 2 years.

Members of both Houses are paid at the same rate, which varies from \$200 per biennium (New Hampshire) to \$19,200 per annual session (California) or from \$5 (North Dakota) to \$50 (Louisiana) per day during session, plus mileage, etc. The trend is towards annual sessions of state legislatures; in 1972, 33 met annually (in 1939, only 4), the other 17 holding biennial sessions, in the odd-numbered years (with the exception of Kentucky).

The Governor has power to summon an extraordinary session, but not to dissolve or adjourn. The duties of the two Houses are similar, but in many states money bills must be introduced first in the Lower House. The Senate sits as a court for the trial of officials impeached by the other House, and often has power to confirm or reject appointments made by the Governor.

State legislatures are competent to deal with all matters not reserved for the federal government by the federal constitution nor specifically prohibited by the federal or state constitutions. Among their powers are the determination of the qualifications for the right of suffrage, and the control of all elections to public office, including elections of members of Congress and electors of President and Vice-President; the criminal law, both in its enactment and in its execution, with unimportant exceptions, and the administration of prisons; the civil law, including all matters pertaining to the possession and transfer of, and succession to, property; marriage and divorce, and all other civil relations; the chartering and control of all manufacturing, trading, transportation and other corporations, subject only to the right of Congress to regulate commerce passing from one state to another; labour; education; charities; licensing; fisheries within state waters, and game laws (apart from the hunting of migratory birds, which is a federal concern under treaties with Canada and Mexico). Taxes on income were left to the states until 1913, when the 16th amendment authorized the imposition of federal taxes on income without regard to apportionment.

The Governor is chosen by direct vote of the people over the whole state. His term of office varies in the several states from 2 to 4 years, and his salary from

\$10,000 (Arkansas) to \$85,000 (New York). His duty is to see to the faithful administration of the law, and he has command of the military forces of the state. He may recommend measures but does not present bills to the legislature. In some states he presents estimates. In all but one of the states (North Carolina) the Governor has a veto upon legislation, which may, however, be overridden by the two Houses, in some states by a simple majority, in others by a three-fifths or two-thirds majority. In some states the Governor, on his death or resignation, is succeeded by a Lieut.-Governor who was elected at the same time and has been presiding over the state Senate. In several states the Speaker of the Lower House succeeds the Governor.

The chief officials by whom the administration of state affairs is carried on (secretaries, treasurers, members of boards of commissioners, etc.) are usually chosen by the people at the general state elections for terms similar to those for which governors hold office. State employees, Oct. 1970, numbered 2,755,033, earning \$1,612.1m. monthly; education accounted for 1.18m. employees (43%). Local government employees numbered 7,392,437, earning \$4,294.2m. monthly.

LOCAL GOVERNMENT

The chief unit of local government is the county, of which there were (1967) 3,049 with definite functions; in addition, Rhode Island has 5 'counties' which have no functions; Alaska does not have 'counties' as such and, since Oct. 1960, there has been no active county government in Connecticut. The counties maintain public order through the sheriff and his deputies, who may, in a crisis, be drawn temporarily from willing citizens; in many states the counties maintain the smaller local highways; other functions are the granting of licences and the apportionment and collection of taxes. In a few states they also manage the schools.

The unit of local government in New England is the rural township, governed directly by the voters, who assemble annually or oftener if necessary, and legislate in local affairs, levy taxes, make appropriations and appoint and instruct the local officials (selectmen, clerk, school-committee, etc.). Townships are grouped to form counties. Where cities exist, the township government is superseded by the city government. On 1 Jan. 1958, 1,533 cities and 17 counties had 'city managers' or 'council-managers' with large executive powers.

Including the 3,049 counties, there were (1967) 18,048 municipalities, 17,105 townships, 21,782 school districts and 21,264 special districts; total, excluding US Government and the 50 state governments, 81,248 units.

The **District of Columbia**, ceded by the State of Maryland for the purposes of government in 1791, is the seat of the US Government. It includes the city of Washington, and embraces a land area of 61 sq. miles. The Reorganization Plan No. 3 of 1967 instituted a Mayor Council form of government; the mayor has the title of Commissioner and is appointed for 4 years by the President, who also appoints the 9-member city council. Congress retains power to enact legislation and appropriate money for municipal expenses. Since 1961 citizens have had the right to vote in national elections.

The **Commonwealth of Puerto Rico**, **Guam** and the **Virgin Islands** each have a local legislature, whose acts may be modified or annulled by Congress, though in practice this has seldom been done. The President appoints the Governor and federal judges in Guam and the Virgin Islands. Puerto Rico since its attainment of commonwealth status on 25 July 1952, enjoys practically complete self-government, including the election of its governor and other officials. The conduct of foreign relations, however, is still a federal function and federal bureaus and agencies still operate in the island.

General supervision of territorial administration is exercised by the Office of Territories in the Department of Interior.

AREA AND POPULATION

PROGRESS AND PRESENT CONDITION

Population of coterminous USA at each census from 1790 to 1950, and for USA including Alaska and Hawaii, 1960 and 1970. Residents of Puerto Rico, the Philippine Islands, Guam, American Samoa, Virgin Islands of the USA and Panama Canal Zone, and persons in the military and naval service stationed abroad are not included in the figures of this table. Residents of Hawaii and Alaska are excluded prior to 1960. Residents of Indian reservations are excluded prior to 1890.

³ Enumeration in 1870 incomplete. Figures in italics represent estimated corrected population.

⁴ Between the 1910 census (15 April 1910) and the 1920 census (1 Jan. 1920), the period covered was 116½ months (less than a full decade). Adjusting for this, the exact rate of increase for the decade was 15.4%. Similarly correcting for the 123 months between the 1920 and 1930 censuses, the true rate of increase was 15.7%.

⁵ Figures for 1930 have been revised to include Mexicans (1,422,533), who were classified with 'Other Races' in the 1930 census reports.

⁶ Figures for 1960 strictly comparable with those given for other years (i.e., excluding Alaska and Hawaii) are: White, 158,454,956; Negroes, 18,860,117; other races, 1,149,163; total, 178,464,236; decennial increase, 18.4%.

Total population in 1970 at 203,211,926 comprised 98,912,192 males and 104,299,734 females; 149,324,930 were urban and 53,886,996 were rural. Negroes, 10,748,316 males and 11,831,973 females.

Estimated population, including Alaska and Hawaii, and armed forces overseas, on 1 July 1950, 152,271,000; 1955, 165,931,000; 1960, 180,671,000; 1964, 191,889,000; 1965, 194,303,000; 1966, 196.56m.; 1967, 198,712,000; 1968, 200,706,000; 1969, 202,677,000; 1970, 204,879,000m.; 1971, 207,045,000; 1972, 208,842,000; 1973, 210,404,000.

The age distribution by sex of the total population of the US (excluding armed forces overseas, US population abroad and outlying areas) at the 1970 census was as follows:

VITAL STATISTICS

Vital statistics are based on records of births, deaths, foetal deaths, marriages and divorces filed with registration officials of states and cities. Figures for the US include Alaska beginning with 1959 and Hawaii beginning with 1960.

Annual collection of mortality records from a national death-registration area was inaugurated in 1900. A national birth-registration area was established in 1915. These areas, which at their inception comprised 10 states and the District of Columbia, expanded gradually until 1933, when both the birth- and death-registration areas covered the entire continental US. Marriage and divorce statistics are compiled from reports furnished by state and local officials. Data on annulments are included in the divorce statistics. The marriage-registration area was established in 1957 with 29 states and 4 other areas. The divorce-registration area was established in 1958 with 14 states and 3 other areas. In Jan. 1972 the marriage-registration area included 41 states and 5 other areas, and the divorce-registration area included 29 states and one other area.

¹ Figures through 1959 include adjustment for under-registration (the 1959 registered count was 4,244,796); beginning 1960 figures represent number registered.

² Excluding foetal deaths and deaths among the armed forces overseas.

³ Estimates for all years.

⁴ Includes reported annulments. Estimated for all years except 1930.

⁵ Deaths for 1968–71 (Eighth Revision, International Classification of Diseases, adapted, 1965). Deaths from deliveries and complications of pregnancy, childbirth and the puerperium. Deaths for 1958–67 were classified according to the Seventh Revision of the International Lists of Diseases and Causes of Death, those for 1949–57 according to the Sixth Revision and those for 1939–48, according to the Fifth Revision.

⁶ Excluding foetal deaths.

⁷ Based on a 50% sample

⁸ Provisional.

The crude birth rate, based on total live-birth estimates per 1,000 total population, fell from 29.5 in 1915 to 18.4 in 1933; it rose to a peak of 26.6 in 1947—its highest for 25 years. This peak reflects demobilization (1945–46), the record number of marriages that followed, and the high levels of employment and income. The decrease in the following 3 years was moderate. In 1951 the rate moved upward and levelled off in 1957 at about 25 per 1,000 population. Since 1957 the crude birth rate has declined every year to 18.4 live births per 1,000 population in 1966. The crude birth rate for 1972 was 15.6. Estimated number of illegitimate births in 1968 was 339,200, a ratio of 96.9 illegitimate births per 1,000 registered live births.

Deaths, excluding foetal deaths (per 1,000 population), declined from 17.2 in 1900 to 10 in 1946. The death rate has been below 10 per 1,000 since 1947, fluctuating slightly from year to year, mainly under the impact of occurrences of outbreaks of severe respiratory diseases. Since the record low of 9.2 in 1954 the rate has changed only between 9.3 and 9.6. The rate for 1967, 9.4; for 1968, 9.7; for 1969, 9.5; for 1970, 9.4; for 1971, 9.3; for 1972, 9.4.

Leading causes of death, 1972, per 100,000 population: Diseases of heart, 361.6; malignant neoplasms, 166.6; vascular lesions affecting central nervous system, 100.9; accidents, 54.6. Suicides in 1972 were 11.7 per 100,000 population; homicides, 10.9.

The marriage rate per 1,000 population for selected years are: 1920, 12; 1932, 7.9; 1946, 16.4; 1951, 10.4; 1961, 8.5; 1963, 8.8; 1964, 9; 1965, 9.3; 1969, 10.6; 1970, 10.7; 1971, 10.6. The divorce rates per 1,000 population for selected years are: 1920, 1.6; 1946, 4.3; 1951, 2.5; 1961, 2.3; 1965, 2.5; 1970, 3.5; 1971, 3.7; 1972, 4.

Maternal mortality rates (deaths of mothers from conditions associated with deliveries and complications of pregnancy, childbirth and the puerperium) per 100,000 live births, were 1915-19, 727.9 and thereafter declined: 493.9 for 1935-39; 376 for 1940; 207.2 for 1945; 83.3 for 1950; 52.4 for 1954, and from 1955 to 1970 to 24.7. The 1968 rate for white women was 16.6 and for all other women 63.6. By state, the average maternal rate for 1965-67 was highest for Mississippi (69.4) and lowest for Vermont (4.2).

The infant mortality rate, 99.9 per 1,000 live births in 1915, fell to 85.8 in 1920; 71.7 in 1925; 64.6 in 1930; 38.3 in 1945; 29.2 in 1950; 26.4 in 1955; 26 in 1960; 21.8 in 1968; 20.7 in 1969; 19.8 in 1970; 19.2 in 1971. In 1972 the rate for whites was 16.3; for all other, 29.

IMMIGRATION

The Immigration and Nationality Act, as amended by Public Law 89-236, establishes a numerical ceiling of 170,000 visas for the entire Eastern Hemisphere, with a maximum of 20,000 visas available for any one country. The visas are allocated under a system of 7 preference categories, 4 of which are designed to reunite close relatives of US citizens and resident aliens of the US, 2 for skilled and professional workers and 1 for refugees. Visa numbers not used in any of the preference categories are made available to qualified non-preference immigrants. The law also provides for a ceiling of 120,000 immigrant visas for natives of independent Western Hemisphere countries. Spouses, children and parents of US citizens from both hemispheres are exempt from the numerical limitations.

During the year ended 30 June 1973, 400,063 aliens became permanent residents of the US. Of the total immigrants admitted, 309,299 had obtained visas abroad and entered the US while 90,764 aliens who were already in the US had their status adjusted to that of permanent residents.

Immigrant aliens admitted to US for permanent residence, by country or region of birth, years ended 30 June:

The total number of immigrants admitted from 1820 up to 30 June 1973 was 46,317,864; this included 6,941,061 from Germany (East and West), 5,243,981 from Italy, 4,827,901 from UK, 4,718,052 from Irish Republic, 4,024,813 from Canada, 3,348,392 from USSR, 1,777,536 from Mexico.

Aliens coming to the US for temporary periods of time are classified as non-immigrants. In the year ending 30 June 1973, a total of 5,977,324 non-immigrants came to the US as tourists, students, exchange visitors, aliens in transit and representatives of foreign governments and foreign information media, temporary workers and their children, and intracompany transferees and their spouses and children. This is exclusive of multiple entries at land borders and of alien crewmen. Tourists, primarily from Mexico, Japan, Canada, the UK, the West Indies, West Germany and Canada numbered 4,086,966.

During the year ended 30 June 1973, 16,842 aliens were deported and 568,005 other deportable aliens were required to depart from the US without formal deportation proceedings.

In accordance with the Immigration and Nationality Act, 4,643,457 aliens filed address reports in Jan. 1973: of the 4,127,821 permanent resident aliens who reported, 823,325 were nationals of Mexico, 415,529 of Canada, 310,241 of Cuba, 293,358 of the UK, 226,325 of Italy, 190,106 of West Germany and 166,276 of the Philippines. 76% of the permanent resident aliens live in the following 8 States: California, 1,096,369; New York, 722,281; Texas, 279,819; Florida, 260,997; Illinois, 256,351; New Jersey, 227,840; Massachusetts, 163,632, and Michigan, 129,795.

In the year ended 30 June 1973, 120,740 persons became US citizens through naturalization; this includes 94,039 who were naturalized under the general provisions of 5-year residence in the US, 18,841 spouses and children of US citizens, 7,796 military and 64 who were naturalized under other provisions. Of the total, there were 17,415 former nationals of Cuba, 9,056 of China and Taiwan, 8,902 of Italy, 8,149 of the Philippines, 7,589 of UK, 6,670 of Germany (East and West), 5,507 of Mexico and 5,423 of Greece.

RELIGION

The Yearbook of American Churches for 1972, published by the National Council of the Churches of Christ in the USA, New York, presents the latest

figures available from official statisticians of church bodies. The large majority of the reports are for the calendar year 1970, or a fiscal year ending in 1970. The 1970 reports indicated that there were 131,046,000 members with 325,657 local churches. There were 209,913 clergymen having local congregations. The principal religious bodies (numerically or historically) or groups of religious bodies are shown below:

EDUCATION

Under the system of government in the USA, elementary and secondary education is committed in the main to the several states. Each of the 50 states has a system of free public schools, established by law, with courses covering 12 years. There are 3 structural patterns in common use: the 8-4 plan, meaning 8 elementary grades followed by 4 high school grades; the 6-3-3 plan, or 6 elementary grades followed by a 3-year junior high school and a 3-year senior high school; and the 6-6 plan, 6 elementary grades followed by a 6-year high school. All plans lead to high-school graduation, usually at age 17 or 18. Vocational education is an integral part of secondary education. In addition, all but 3 states have kindergartens and some states have 2-year junior colleges as part of the free public school system. Each state has delegated a large degree of control of the educational programme to local school districts (numbering 16,956), each with a board of education (usually 3 to 9 members) elected locally and serving mostly without pay. The school policies of the local districts must be in accord with the laws and the regulations of their state Departments of Education. Forty-nine states have compulsory school attendance laws; in 36 states and the District of Columbia children are required to attend school until the age of 16 years; in 7 states until 17 and in 6 states until 18.

The Census Bureau estimates that in Nov. 1969 only 1,433,000 or 1% of the 143m. persons who were 14 years of age or older were unable to read and write; in 1930 the percentage was 4.8. In 1940 a new category was established—the 'functionally illiterate', meaning those who had completed fewer than 5 years of elementary schooling; for persons 25 years of age or over this percentage was 4.6 in March 1972 (for the non-white population alone it was 12.8%); it was 0.8 for white and 1.2% for non-whites in the 25-29-year-old group. The Bureau reported that in March 1972 the median years of school completed by all persons 25 years old and over was 12.2, and that 12% had completed 4 or more years of college. For the 25-29-year-old group, the median school years completed was 12.7 and 19% had completed 4 or more years of college.

In the autumn of 1972, 8.3m. students (4.7m. men and 3.6m. women) were enrolled in 2,665 colleges and universities; 1.7m. were first-time students. Total enrolment represents a number equal to 32 per 100 persons between the ages of 18 and 24.

Public elementary and secondary school revenue is supplied from county and other local sources (52.1% in 1970-71), state sources (39.4%) and federal sources (8.4%). The tendency is for the counties and local units to contribute less and for the state and federal sources to contribute more. In 1970-71 the amount, including interest, expended on public elementary and secondary schools was \$39,975m., representing an annual cost per pupil of \$942. In addition, \$4,552m., or \$111 per pupil, was expended for capital outlay. Estimated expenditures for private elementary and secondary schools in 1970-71 were \$4,700m. In 1970-71 the 2,556 universities and colleges expended \$23,375m. from current funds, of which \$14,996m. was spent by institutions under public control. The federal government contributed 13.5% of total current-fund revenue; state government, 27.6%; student tuition and fees, 21%; and all other sources, 37.9%.

Vocational education below college grade, including the training of teachers to conduct such education, has been federally aided since 1918. During the school year 1971-72 enrolments in the vocational classes were: Agriculture, 896,460; distributive occupations, 640,423; health occupations, 336,652; home economics, 3,445,698; trade and industry, 2,397,968; technical education, 337,069; office occupations, 2,351,878; other programmes, 1,304,619. Federal support funds were \$466m.

Summary of statistics of schools (public and non-public), teachers and pupils in autumn 1972 (compiled by the US Office of Education):

Schools by level	Number of schools	Teachers	Enrolment
Elementary schools:			
Public	64,000	1,120,000	27,326,000
Non-public	14,100	140,000	3,700,000
Secondary schools:			
Public	26,000	977,000	18,428,000
Non-public	3,600	71,000	1,300,000
Higher education:			
Public	1,182	409,000	6,158,000
Non-public	1,483	191,000	2,107,000
Total	110,365	2,908,000	59,019,000

Most of the non-public elementary and secondary schools are affiliated with religious denominations. Of the children attending non-public schools, 76% are enrolled in Roman Catholic schools, 13% in other church-related schools and 11% in schools which are not affiliated to a religious denomination.

During the school year 1971-72 high-school graduates numbered 3,015,000 (1,495,000 boys and 1·52m. girls). Institutions of higher education conferred 877,676 bachelor's and first professional degrees for the academic year 1970-71, 511,138 to men and 366,538 to women; 230,509 master's degrees, 138,146 to men and 92,363 to women; and 32,107 doctorates, 27,530 to men and 4,577 to women.

During the academic year, 1971-72, 140,126 foreign students were enrolled in American colleges and universities. The percentages of students coming from various areas were: Far East, 37; Latin America, 21; Europe, 12; Near and Middle East, 12; North America, 8; Africa, 7; Oceania, 2.

School enrolment, Oct. 1972, embraced 85·4% of the 3·4m. who were 5 years old; 98·2% of the 3·5m. aged 6; 99·2% of the 28·1m. aged 7-13 years; 93·3% of the 16·4m. aged 14-17; 46·3% of the 7·5m. aged 18 and 19; 21·6% of the 19·1m. aged 20-24 years.

The US Office of Education estimates the total enrolment in the autumn of 1973 at all the country's educational institutions (public and non-public) at 58·7m. (58·7m. in the autumn of 1972); this was 28% of the total population of the USA as of 1 Sept. 1973.

Elementary: Public schools, 26·7m. (27·8m. in 1972); non-public schools, 3·6m. (3·7m.); total, 30·3m. (31m.).

Secondary: Public schools, 18·7m. (18·4m.); non-public, 1·3m. (1·3m.); total, 20m. (19·7m.).

Higher education: Universities, other 4-year colleges and 2-year institutions of higher education, 8·4m. (8·3m.).

The number of teachers in the public elementary and secondary schools in the autumn of 1973 is estimated at 2·1m. The average annual salary of the public school teachers was about \$10,082 in 1972-73.

All states require at least a bachelor's degree, and 3 states require completion of 5 years of college work for secondary school teachers; 47 states require a bachelor's degree for elementary school teachers, and the other states at least 2 years of college work. Thirty states, the District of Columbia and Puerto Rico require that the applicant for a teaching certificate be a citizen of the US or that he must have filed a declaration of intent. Twenty-five states, the District of Columbia and Puerto Rico require that the applicant subscribe to an oath of allegiance or loyalty to the US and the state.

CINEMAS. Cinemas increased from 17,003 in 1940 to 20,239 in 1950 and decreased to 12,187 in 1967.

NEWSPAPERS. Of the daily newspapers being published in the USA in 1971, 339 were morning papers with a circulation of 26,116,000, and 1,425 were evening papers with a circulation of 36,115,000. The 590 Sunday papers had a total circulation of 49·7m.

BROADCASTING. On 1 Jan. 1971 there were in the USA and Territories, 7,149 authorized commercial broadcast stations, of which 700 were for television.

JUSTICE

Legal controversies may be decided in two systems of courts: the federal courts, with jurisdiction confined to certain matters enumerated in Article III of the Constitution, and the state courts, with jurisdiction in all other proceedings. The federal courts have jurisdiction exclusive of the state courts in criminal prosecutions for the violation of federal statutes, in civil cases involving the government, in bankruptcy cases and in admiralty proceedings, and have jurisdiction concurrent with the state courts over suits between parties from different states, and certain suits involving questions of federal law.

The highest court is the Supreme Court of the US, which reviews cases from the lower federal courts and certain cases originating in state courts involving questions of federal law. It is the final arbiter of all questions involving federal statutes and the Constitution; and it has the power to invalidate any federal or state law or executive action which it finds repugnant to the Constitution. This court, consisting of 9 justices who receive salaries of \$60,000 a year (the Chief Justice, \$62,500), meets from Oct. until June every year and disposes of about 3,380 cases, deciding about 380 on their merits. In the remainder of cases it either summarily affirms lower court decisions or declines to review. A few suits, usually brought by state governments, originate in the Supreme Court, but issues of fact are mostly referred to a master.

The US courts of appeals number 11 (in 10 circuits composed of 3 or more states and 1 circuit for the District of Columbia); the 97 circuit judges receive salaries of \$42,500 a year. Any party to a suit in a lower federal court usually has a right of appeal to one of these courts. In addition, there are direct appeals to these courts from many federal administrative agencies. In the year ending 30 June 1970 more than 11,660 appeals were filed in the courts of appeals.

The trial courts in the federal system are the US district courts, of which there are 89 in the 50 states, 1 in the District of Columbia and 1 each in the territories of Puerto Rico, Virgin Islands, Canal Zone and Guam. Each state has at least 1 US district court, and 3 states have 4 apiece. Each district court has from 1 to 27 judgeships. There are 401 US district judges (\$40,000 a year), who handle about 87,000 civil cases and 48,000 criminal defendants every year.

In addition to these courts of general jurisdiction, there are special federal courts of limited jurisdiction. The Court of Claims (7 judges at \$42,500 a year) decides claims for money damages against the federal government in a wide variety of matters; the Customs Court (9 judges at \$40,000 a year) determines controversies concerning the classification and valuation of imported merchandise; and the Court of Customs and Patent Appeals (5 judges at \$42,500 a year) hears appeals from the Customs Court, the Tariff Commission and the Patent Office.

The judges of all these courts are appointed by the President with the approval of the Senate; to assure their independence, they hold office during good behaviour and cannot have their salaries reduced. This does not apply to the territorial judges, who hold their offices for a term of years. The judges may retire with full pay at the age of 70 years if they have served a period of 10 years,

or at 65 if they have 15 years of service, but they are subject to call for such judicial duties as they are willing to undertake. Only 9 US judges up to 1970 have been involved in impeachment proceedings, of whom 3 district judges and 1 commerce judge were convicted and removed from office.

Of the 87,321 civil cases filed in the district courts in the year ending 30 June 1970, about 39,300 arose under various federal statutes (such as labour, social security, tax, patent, securities, antitrust and civil rights laws); 25,300 involved personal injury or property damage claims; 17,150 dealt with contracts; and 3,300 were actions concerning real property.

Of the 38,102 criminal cases filed in the district courts in the year ending 30 June 1970, about 4,600 were charged with alleged infractions of the immigration laws; 4,600, the transport of stolen motor vehicles; about 3,225, larceny and theft; 3,700, embezzlement and fraud; about 1,350, liquor laws, and 3,500 narcotics laws.

Persons convicted of federal crimes are either fined, released on probation under the supervision of the probation officers of the federal courts, confined in prison for a period of up to 6 months and then put on probation (known as split sentencing) or confined in one of the following institutions: 3 for juvenile and youths; 7 for young adults; 5 for intermediate term adults; 5 for short-term adults; 2 for females; 1 hospital and 8 community service centres. In addition, prisoners are confined in centres operated by the National Institutes of Mental Health. In addition, prisoner drug addicts may be committed to US Public Health Service hospitals for treatment. In 1969-70 about 1,500 of the federal prison population were placed on work release, that is, they were confined in prison at night and permitted to work at gainful employment during the weekdays. Another 278 at any given time were placed in pre-release centres. Prisoners confined in institutions operated by the US Bureau of Prisons for the year ending 30 June 1970, numbered 21,206.

The state courts have jurisdiction over all civil and criminal cases arising under state laws, but decisions of the state courts of last resort as to the validity of treaties or of laws of the United States, or on other questions arising under the Constitution, are subject to review by the Supreme Court of the US. The state court systems are generally similar to the federal system, to the extent that they generally have a number of trial courts and intermediate appellate courts, and a single court of last resort. The highest court in each state is usually called the Supreme Court or Court of Appeals with a Chief Justice and Associate Justices, usually elected but sometimes appointed by the Governor with the advice and consent of the State Senate or other advisory body; they usually hold office for a term of years, but in some instances for life or during good behaviour. Their salaries range from \$14,000 to \$40,000 a year. The lowest tribunals are usually those of Justices of the Peace; many towns and cities have municipal and police courts, with power to commit for trial in criminal matters and to determine misdemeanours for violation of the municipal ordinances; they frequently try civil cases involving limited amounts.

The Federal Bureau of Investigation estimates the number of major crimes in the US and its possessions as follows:

Crime index classification	1959-61 average	1969	Crime index classification	1959-61 average	1969
Murder	8,670	14,590	Burglary	789,300	1,949,800
Forcible rape	15,860	36,470	Larceny over \$50	464,300	1,512,900
Robbery	87,570	297,580	Motor car theft	312,000	871,900
Aggravated assault	129,400	366,420			
			Total	1,807,100	4,989,700

The death penalty is illegal in Alaska, Hawaii, Iowa, Maine, Minnesota, Oregon, West Virginia, Wisconsin and Michigan; in North Dakota it is legal only for treason and first-degree murder committed by a prisoner serving a life sentence for first-degree murder, in Rhode Island only for murder committed by a prisoner serving a life sentence and in Vermont and New York for the murder of a peace officer in the line of duty and for first-degree murder by those who kill

while serving a life sentence for murder. The death penalty, although still legal in most states, has fallen into disuse and has been abolished *de facto* in many states. The US Supreme Court has held the death penalty, as applied in general criminal statutes, to contravene the eighth and fourteenth amendments of the US constitution, as a cruel and unusual punishment when used so irregularly and rarely as to destroy its deterrent value.

In 1967 only 2 persons were executed under civil authority; both for murder. No executions in 1968, 1969 and 1970. On 31 Dec. 1969, 524 prisoners were reported under sentence of death.

The total number of civilian executions carried out in the US from 1930 to 1967 was 3,859, including 1,751 white persons (20 women), 2,066 Negroes (12 women) and 42 persons of other races.

Federal 'Political' Crimes. Prosecutions for what may be loosely described as 'political' offences, or crimes directed towards the overthrow by violence of the federal government, which were somewhat numerous in the early 1950s, have declined sharply over the last 15 years and are now exceedingly rare. During the fiscal year 1969-70 the following number of defendants appeared in federal courts: Espionage, none; Subversive Activities Control Act, 1950, none; contempt of Congress, 2.

HEALTH AND SOCIAL WELFARE

Admission to the practice of medicine (for both doctors of medicine and doctors of osteopathic medicine) is controlled in each state by examining boards directly representing the profession and acting with authority conferred by state law. Although there are an increasing number of variations, the usual time now required to complete basic training is 8 years beyond the secondary school with an additional year of internship training. Certification as a specialist may require as much as 5 more years of hospital training plus experience in practice. In academic year 1971-72 the 115 US schools (including 5 osteopathic, 2 developing osteopathic, 94 medical, 7 developing and 7 basic science with medical 2-year programmes after which the students complete their training in a medical school) graduated 10,100 physicians. About 10% of the total students were women. In Dec. 1971 the total estimated number of physicians (MD and DO—in all forms of practice and retired from medical practice) in the US, Puerto Rico and outlying US areas was 360,000. The distribution of physicians throughout the country is uneven, both by state and by urban rural areas. US medical schools number 120 in 1972-73.

In 1971-72 the 50 dental schools graduated 3,950 dentists. Dentists in Dec. 1970 numbered 102,200. New York state had 1 to 1,470 population and South Carolina, 1 to 3,846.

In 1970-71 schools of professional nursing numbered 1,350 with 47,000 graduates that year. In Jan. 1971 there were an estimated 723,000 professional nurses employed full- or part-time (1 to 289 inhabitants), ranging (in 1966) from 1 per 186 in Connecticut to 1 per 750 in Arkansas.

Number of hospitals listed by the American Hospital Association in 1970 was 7,123, with 1.62m. beds and 31,759,124 admissions during the year; average daily census was 1,298,000. Of the total, 408 hospitals with 161,000 beds were operated by the Federal Government; 2,257 with 776,924 beds by state and local

government; 3,600 with 618,545 beds by non-profit organizations (including church groups); 858 with 59,300 beds are proprietary. Chief categories of non-federal hospitals are 5,859 short-term general and special hospitals with 848,232 beds; 519 psychiatric hospitals with 526,889 beds; 101 tuberculosis hospitals with 19,720 beds. Distribution of short-term general facilities among states ranges from 2.29 (Alaska) to 6.36 (N. Dakota) hospital beds per 1,000 population; the national average is 4.23. It was estimated that, on 1 Jan. 1970, more than 89,000 additional beds in general hospitals, 141,000 additional long-term care beds (nursing homes and chronic disease hospitals) and 900 tuberculosis beds were needed. Also 204,000 general hospital beds, 242,000 long-term care beds and 8,000 tuberculosis beds are in need of modernization.

Social welfare legislation was chiefly the province of the various states until the adoption of the Social Security Act of 14 Aug. 1935. This as amended provides for a federal system of old-age, survivors and disability insurance; health insurance for the aged; federal state unemployment insurance; and federal grants to states for public assistance (old-age assistance, medical assistance for the aged, aid to families with dependent children, and aid to the permanently and totally disabled) and for maternal and child-health and child-welfare services. The Social Security Administration of the Department of Health, Education and Welfare has responsibility for the only completely federal programme under the Act—old-age, survivors and disability insurance, and health insurance for the aged. The Social and Rehabilitation Service, an agency of the same Department, has federal responsibility for all other programmes except unemployment insurance, which is the responsibility of the Department of Labor, and maternal and child health services, which is the responsibility of Health Services and Mental Health Administration (DHEW).

Since 1966 the Social Security Act provides for protection against the cost of medical care in old age through the two-part programme of health insurance for people 65 and over (Medicare). During the first 6 years of operation 69.1m. in-patient hospital bills were recorded under the hospital insurance part of the programme. Hospitals were paid \$27.3m. for this in-patient care. Under the voluntary medical insurance part of Medicare, \$9.9m. was paid on 184.3m. bills for services during the first 6 years.

In Jan. 1972 about 96m. persons were in employment covered by old-age, survivors and disability insurance (including about 620,000 covered jointly by that programme and railroad retirement).

In Sept. 1972, 28m. beneficiaries were on the rolls, and the average benefit paid to a retired worker (not counting any paid to his dependants) was \$156 per month.

Benefits paid during fiscal year 1972 totalled \$38.6m., including \$4m. paid to disabled workers and their dependants.

Total expenditures for public assistance (including \$5.5m. medical assistance) during the fiscal year 1971 amounted to \$16,300m. By Jan. 1970 all states, plus Washington, D.C., Guam, Puerto Rico and the Virgin Islands were making payments under the programme of medical assistance (Medicaid) authorized by 1965 legislation. By June 1971 about 10.28m. persons (adults and children) were receiving payments under aid to families with dependent children (average, \$49.40). Average payments of \$77.25 were going to 2.08m. old-age assistance recipients. Payments to 80,800 needy blind averaged \$100.75, and 977,000 permanently and totally disabled persons received an average of \$98.15.

During the fiscal year 1970-71 federal appropriations for grants to states were made for maternal and child health services amounting to \$59.2m.; for crippled children's services, \$58.6m., and for child welfare services, \$46m. Additional appropriations for grants for research projects relating to maternal and child health and crippled children's services were \$5.7m.; research, training and demonstration projects in the field of child welfare, \$10.2m.; maternity and infant care projects, \$38.6m.; projects to provide comprehensive health care for school and pre-school children, \$43.8m.; and training personnel for health care of mothers and children, \$11.2m.

FINANCE

FEDERAL

Since 10 June 1921 a National Annual Budget System and an independent Audit of Government Accounts have been installed.

A new unified comprehensive budget concept was introduced in Jan. 1968 to replace the several budget concepts used in the past. This budget covers all the programmes of federal government, including those financed through trust funds, such as for social security, Medicare and highway construction. Receipts of the Government include all income from its sovereign or compulsory powers; income from business-type or market-oriented activities of the Government is offset against outlays.

FOREIGN AID

The Agency for International Development is, within the US Department of State, responsible for the administration of the economic assistance programmes of the US Government. The AID, established in Nov. 1961, is the successor to the International Co-operation Administration (ICA), the Development Loan Fund (DLF), the Foreign Operation Administration (FOA), the Mutual Security Agency (MSA), the Technical Co-operation Administration (TCA) and the Economic Co-operation Administration (ECA). TCA was originally established to administer the Point IV programme, while ECA administered the European Recovery Programme, the so-called Marshall Plan, named after the then Secretary of State, the late George Marshall.

The Foreign Assistance Act of 1961 affirms the policy of the US Congress to 'make assistance available, upon request, . . . in scope and on a basis of long-range continuity essential to the creation of an environment in which the energies of the peoples of the world can be devoted to constructive purposes . . .'. The programme emphasizes long-term development, self-help efforts on the part of less developed countries, the value of private investment and the assistance to less-developed areas by industrialized countries.

Funds Authorized and Appropriated for AID. The AID funds authorized for fiscal years 1972 and 1973 were respectively, \$1,718m. and \$1,667m. (However, the 1973 funds were provisionally approved until 28 Feb. 1973, under a Continuing Resolution of the previous Congress; the final determination for this fiscal year to be made by the new US Congress.) The most important appropriations were as follows (in \$1m.):

	1972	1973
Technical Co-operation and Development grants	160	155.0
Alliance for Progress (grants and loans for Latin America)	230	227.5
Development loans	200	250.0
International organizations	137	115.0
Supporting assistance	550	600.0
Contingency fund	30	25.0

Cumulative Postwar US Assistance. From 1 July 1945 to 30 June 1971, the US total assistance was \$161,179m. For this same period, the net total, after allowing for interest payments and collections on principal, was \$138,672m. Of this amount, \$86,695m. was in economic aid and \$51,977m. was in military assistance.

	Total (\$1m.) 1946-71	Repayments and Interest (\$1m.) 1946-71	Total Less Repayments and Interest (\$1m.)

NATIONAL DEBT

The gross public debt and guaranteed obligations on 30 June 1972 was \$427,260m. National direct debt excluding guaranteed obligations (in \$1,000), and *per capita* debt (in \$) on 30 June of the years shown:

	Public debt	<i>Per capita</i> ²		Public debt	<i>Per capita</i> ²

1960	286,470,603	1,585	1971	398,129,744	1,923

¹ On 31 Aug. 1919 gross debt reached its First World War (1914-18) peak of \$26,596,702,000, which was the highest ever reached up to 1934; on 31 Dec. 1930 it had declined to \$16,026m., the lowest it has been since the First World War. On 30 Nov. 1941, just preceding Pearl Harbour, debt stood at \$61,363,867,932. The highest Second World War debt was \$279,764,369,348 on 28 Feb. 1946.

² *Per capita* figures, beginning with 1960, have been revised; they are based on the Census Bureau's estimates of the total population of the US, including Alaska and Hawaii.

The permanent statutory debt limit is \$285,000m.; a temporary limit of \$324,000m. was in effect until 30 June 1965.

STATE AND LOCAL FINANCE

Revenue of the 50 states and all local governments (81,248) from their own sources amounted to \$139,945m. in fiscal year 1970-71; in addition they received \$26,146m. in revenue from fiscal aid, shared revenues and reimbursements from the federal government, bringing total revenue from all sources to \$160,090m. Of the revenue from state and local sources, taxes provided \$94,975m., of which property taxes (mainly imposed by local governments) yielded \$37,852m. or 40% of all tax revenue; and sales taxes, both general sales taxes and selective excises, provided \$33,233m. (35%).

State tax revenue totalled \$54,541m. in fiscal year 1971. Largest sources of state tax revenue are general sales taxes (imposed during 1971 by 45 states), motor fuel sales taxes (all states), individual income (43 states), motor vehicle and operators' licences (all states), corporation income (44 states), tobacco products (all states) and alcoholic beverage sales taxes (all states).

General revenue of local units from own sources in fiscal year 1970-71 totalled \$51,392m. In addition they received \$29,525m. from state and federal aids. Property taxes provided 41% of total general revenue.

Total expenditures of state and local governments were \$148,052m. in 1969-70, of which approximately 66% was for current operation. Education took \$57,491m. in current and capital expenditure; highways, \$18,095m.; welfare (chiefly public assistance), \$18,226m., and health and hospitals, \$9,668m. Capital outlays (construction, equipment and land purchases) totalled \$33,137m.

Gross debt of state and local governments totalled \$158,827m. or \$771 *per capita* at the close of their 1970-71 fiscal year. Total cash and investment assets of state and local governments were \$142,490m., about 21% being in cash and the remainder in investments, mainly non-governmental securities.

NATIONAL DEFENCE

The President is C.-in-C. of the Army, Navy and Air Force.

The National Security Act of 1947 provides for the unification of the Army, Navy and Air Forces under a single Secretary of Defense with cabinet rank. The President is also advised by a National Security Council and the Office of Civil and Defense Mobilization.

The major components of the Department of Defense are the Office of the Secretary of Defense and the Joint Chiefs of Staff, who provide immediate staff assistance and advice to the Secretary; the departments of the Army, Navy and Air Force, each separately organized under a civilian head (not of cabinet rank); and the unified and specified commands.

ARMY

Secretary of the Army: Howard H. Callaway.

Central Administration. The Secretary of the Army is the head of the Department of the Army. Subject to the authority of the President as C.-in-C. and of the Secretary of Defense, he is responsible for all affairs of the Department.

The Secretary of the Army is assisted by the Under Secretary of the Army, 4 Assistant Secretaries of the Army (Financial Management; Installations Logistics; Research and Development; Manpower and Reserve Affairs), the General Counsel, an Administrative Assistant, Chief of Legislative Liaison, Chief of Public Information and the Army Staff headed by the Chief of Staff, US Army. The office of the Under Secretary of the Army includes a Deputy Under Secretary and a Deputy Under Secretary (Operations Research).

The Chief of Staff is the principal military adviser of the Secretary of the Army, and performs his duties under the direction of the Secretary of the Army, except as otherwise prescribed by law, by the President or by the Secretary of Defense. He has supervision of all members and organizations of the Army. The Vice Chief of Staff assists and advises the Chief of Staff.

The Army Staff furnishes professional assistance to the Secretary of the Army. The Army General Staff is the principal element of the Army Staff, and includes the offices of the Chief of Staff, Vice Chief of Staff, Assistant Vice Chief of Staff, Secretary of the General Staff, the 3 Deputy Chiefs of Staff (Military Operations, Personnel and Logistics), the Chief of Research and Development, the Comptroller of the Army, the Chief, Office of Reserve Components, the Assistant Chief of Staff for Intelligence, the Assistant Chief of Staff for Force Development and Assistant Chief of Staff for Communications—Electronics, Safeguard System Manager and the Army Reserve Forces Policy Committee. Other elements of the Army Staff are the offices of Judge Advocate General, Inspector General, Chief of Information, Chief National Guard Bureau, Chief Army Reserve, Chief of Military History, Adjutant General, Provost Marshal General, Chief of Chaplains, Chief of Personnel Operations, Surgeon General, Chief US Army Audit Agency and Chief of Engineers.

The Army consists of the Regular Army, the Army National Guard of the US, and the Army Reserve; and all persons appointed to, enlisted in or conscripted into, the Army without component; and all persons serving under call or conscription, including members of the National Guard of the States, etc., when in the service of the US.

Department of the Army strength, including cadets, was (1973) 800,523, including 16,000 women, comprised, in major combat units, of 13 divisions and several separate brigades and regiments.

The US Army Forces Command, with headquarters at Fort McPherson, Georgia, commands the continental US Armies and all assigned Active Army and US Army Reserve troop units in the continental US, the Commonwealth of Puerto Rico, and the Virgin Islands of the USA. The headquarters of the continental US Armies are: First US Army, Fort George G. Meade, Maryland; Fifth US Army, Fort Sam Houston, Texas; Sixth US Army, Presidio of San Francisco, California. The US Army Training and Doctrine Command, with headquarters at Fort Monroe, Virginia, co-ordinates and integrates the total combat development effort of the Army as well as developing, managing and supervising the training of individuals of the US Army and authorized foreign nationals. The US Army Health Services Command, with headquarters at Fort Sam Houston, Texas, provides health services in the continental US for the US Army and provides professional education and training for medical personnel of the US Army and authorized foreign national personnel. The US Army Materiel Command, with headquarters in Alexandria, Virginia, is

responsible for all US Army operations dealing with equipment development, procurement, delivery, supply and maintenance. The US Army Military District of Washington, with headquarters at Fort McNair, Washington, D.C. provides support to the Department of the Army and the Department of Defense at the seat of Government.

Some 37% of the Army is deployed overseas. Headquarters of US Seventh and Eighth Armies are in Europe and Korea respectively.

Operational Commands and Weapons. The larger commands are the theater army and the corps. The typical theater army may consist of a variable number of corps; combat forces of armour and infantry; air defense artillery (*Nike-Hercules* and *Hawk* missile battalions); field artillery and Pershing missile battalions; combat support forces of aviation, engineer and signal elements; and combat service support forces. A typical corps consists of a variable number and mixture of infantry, mechanized infantry, armoured, airmobile, and airborne divisions; one or more separate infantry brigades; one or more armoured cavalry regiments; corps artillery (155-mm howitzer, 8-in. howitzer, 175-mm gun, *Honest John* rocket, *Lance* missile, and *Sergeant* missile battalions); an air defense element of a size commensurate with the hostile air threat (*Nike-Hercules*, *Hawk* and *Chaparral/Vulcan* battalions), and a target acquisition unit; combat support and combat service support forces.

US Army Divisions have a common base (containing command, aviation divisional artillery, combat and combat support units) and a varying mixture of 'combat manoeuvre battalions' (usually 10 or 11 in number in 3 brigades) to make up airborne, infantry, armoured, mechanized infantry and airmobile divisions. Divisions can in this way be 'tailored' to fit a variety of strategic or tactical situations. An infantry division, with about 16,900 men, may have 8 infantry battalions, an armoured battalion and a mechanized infantry battalion; a mechanized infantry division, with about 16,600 men, may have 6 mechanized infantry battalions and 4 armoured battalions; an armoured division, with about 16,900 men, may have 5 mechanized infantry battalions and 6 armoured battalions; an airborne division, with 13,000 men, may have 9 infantry (airborne) battalions.

Small arms include the M-16, which fires a 5.56-mm cartridge. The standard general-purpose machine-gun is the M-60 (23 lb.; 550 rounds of 7.62-mm per minute). Infantry weapons also include M-203 grenade launcher attachment for the M16A1 rifle, which fire a 40-mm grenade up to 400 metres, and the M-72 rocket, a light anti-tank weapon.

Combat vehicles of the US Army are the tank, armoured personnel carrier, armoured reconnaissance airborne assault vehicle and the armoured command and reconnaissance vehicle. The first-line tank is the M-60A1 with 105-mm main armament. The M-60A2, a version of the M-60 series tank, fires both the *Shillelagh* missile and conventional ammunition. The standard armoured personnel carrier is the M-113A1; it carries a mechanized infantry squad. The M-114 command and reconnaissance vehicle is found in armoured cavalry regiments, squadrons and in scout platoons of armoured and mechanized infantry battalions. The M-551 'Sheridan' is an armoured reconnaissance airborne assault vehicle in armoured cavalry units and light armour battalions; it fires both *Shillelagh* missiles and conventional ammunition. Combat vehicles under development are mechanized infantry combat vehicle, armoured reconnaissance scout vehicle and XM1 Tank.

The approved calibres of artillery are: light, 105-mm howitzer, medium 155-mm howitzer; and heavy, 175-mm gun and 8-in. howitzer. The 4.2-in. mortars and the 81-mm mortar are used by combat manoeuvre elements. The 90-mm, 106-mm recoilless rifles and the *Tow* are the present anti-tank weapons for infantry use. The *Dragon* continues in development. *Chaparral* and *Vulcan*, forward-area air-defence weapons, provides the capability of low-altitude defence against high-performance aircraft.

The Army has two categories of missiles—surface-to-surface field (artillery) and surface-to-air (air defence artillery). Surface-to-surface missiles are: *Honest*

John, free flight, rocket equivalent to long-range artillery, nuclear or HE warhead highly mobile, operational; *Sergeant*, guided, range about 75 miles, nuclear warhead, units activated, operational; *Pershing*, ballistic range about 400 miles operational; *Lance*, guided, storable, liquid propellant, operational. Surface-to-air missiles, for air defence, are: *Nike-Hercules*, guided, field or fixed installation, operational; *Hawk*, homing type, low-to-mid-altitude, field, operational (an improved system is now replacing the basic *Hawk* in the near future); *Chaparral*, infra-red homing, low-altitude, forward area, operational (improvements to the basic system are under development); *Redeye*, hand-held, infra-red homing, low-altitude, forward area, operational; *Sam-D*, mid-to-high-altitude, replacement for *Hawk* and *Nike-Hercules*, under development; *Safeguard* and anti-missile system, under development; *Stinger*, hand-held infra-red homing, low altitude, forward area, replacement for *Redeye* is under development. Air-to-surface missiles are: *Tow*, tube launched, optically tracked, wire guided, anti-armour, forward area, operational; *Hellfire*, terminal homing under development.

The Army employs rotary- and fixed-wing aircraft as organic elements of its ground formations where their use is required on a full-time basis and their immediate and constant availability is essential. The front line commander exploits the benefits of aviation technology to perform traditional land battle tasks in the third dimension. This concept of airmobility for ground formation utilizes aerial vehicles as a highly integrated team to perform all five functions of land combat: reconnaissance, command and control, logistics and that inseparable combination, firepower and manoeuvre.

Enlistment, Terms of Service. Terms of service may be 2, 3, 4, 5 or 6 years.

All male citizens and all male aliens admitted for permanent residence are required to register at age 18. Men who enlist incur a 6-year reserve obligation and must serve in the reserve any part of the period not served on active duty.

The Women's Army Corps is composed of volunteers in the Regular and Reserve components of the Army. They are eligible for military duties (other than of a combat nature) in all the Army's occupational areas.

The Army National Guard is a reserve military component with a dual status and role. Enlistment is voluntary. The members are recruited by each state, but are equipped and paid by the federal government. Training is supervised by the active Army (FORSCOM), and unit organization parallels that for the active army; training facilities are made available by the USA and each state. As the organized militia of the several states, the District of Columbia, Puerto Rico and the Territory of the Virgin Islands, the Guard may be called into service for local emergencies by the sovereigns in those jurisdictions; and may be called into federal service by the President to thwart invasion or rebellion or to enforce federal law. In its role as a reserve component of the Army, the Guard is subject to the order of the President in the event of national emergency. Army Guardsmen man over 50% of the USARADCOM air-defence missile units. The Air Guard provide 100% of the air defence of Hawaii.

The Army Reserve is designed to supply qualified and experienced units and individuals in an emergency. Commanding General, FORSCOM, commands the units of the Army Reserve. Members are assigned to one of 3 categories: the Ready, Standby or Retired Reserve. A limited number of Ready Reservists is subject to call by the President in case of national emergency without declaration of war by Congress. The Standby Reserve and the Retired Reserve may be called only after declaration of war or national emergency by Congress.
